Journal, Other News Media In Area Praised By DaVania

Representatives of various news media in Marquette County were honored by Col. Richard W. DaVania, commander of the Sault Ste. Marie Sector of the North American Air Defense Command at K. I. Sawyer Air Force Base, at a recent luncheon meeting held at the base.

Col. DaVania, who expects to retire from the Air Force within a year, complimented the news media for their work on Sawyer Base news and in turn was praised by the representatives attending for his cooperation with the news media.

Certificates Awarded

In addressing his guests, Col. DaVania extended his "sincere appreciation for the co-operation, honesty and integrity which the newspaper, radio and television staffs have consistently maintained."

"I have never been quoted out of context," he stated, "and you have invariably given an honest and fair presentation of the facts concerning the personnel and activities of this installation."

Special certificates of merit from the Headquarters of the North American Air Defense Command were presented to the four organizations.

They were awarded for "helping

to create and sustain better public understanding of the mission and objectives of North American Air Defense."

"Public Understanding"
In presenting the certificates, Col. DaVania pointed out the importance of strengthening the "public understanding of, support for and confidence in the armed forces."

"The only way this can be successfully achieved is through the news media... and the fair, unbiased presentation of the facts by the organizations represented here today has been of great value in helping to achieve this public understanding here in the Upper Peninsula of Michigan."

Present to receive the awards were representatives of The Mining Journal and its radio station, WDMJ, and WLUC-TV and Station WJPD.

Accepting the award on behalf of The Mining Journal was Kenneth S. Lowe, editor, and for WDMJ, Robert J. Luke, manager.

One Injured, Two Ticketed In Smashups

One person was injured, two motorists were given tickets and three automobiles were damaged in a pair of area traffic mishaps investigated during the weekend by state police from the Marquette post.

Another mishap occurred in Marquette (see other local traffic accident story) and three other collisions were probed by state police in the Ishpeming area (see story

• At 8 Saturday night Kenneth Bressette, 22, of 2017 Waldo St., Marquette, was thrown from his car as he was attempting to negotiate a right turn off U. S. 41 onto Erickson St. in Marquette Township and the left door of his vehicle flew open. Bressette had been traveling west on U. S. 41 at the time.

Bressette suffered bruises to his left hand and right knee and sought his own treatment.

After Bressette was thrown from the car, the vehicle continued on until striking a culvert.

Speed Law Violation
Extensive damage occurred to the front end and undercarriage of his automobile, a 1953 coach, which had to be hauled from the scene by a wrecker.

State police gave Bressette a ticket for violation of the basic speed law.

• An automobile being driven south on U.S.41 by Howard Englund, 21, Rural Route, Negaunee, smashed into the rear end of a car operated by Kenneth Eben, 20, K. I. Sawyer Air Force Base, just north of M-28, in Chocolay Township.

Failed To Stop In Time

State police said Eben had stopped in the traffic lane due to traffic ahead of him which was stopped.

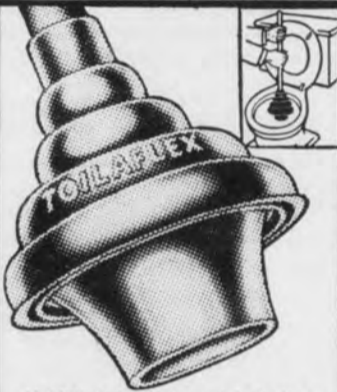

The left front of Englund's car, a 1956 coach, and the left rear of

Eben's automobile, a 1957 coach, were damaged. Both vehicles were driven from the scene under their own power.

Englund was issued a ticket by state police for failing to stop in the assured clear distance ahead.

George Westinghouse, inventor of the air brake, had his name added to the Hall of Fame for Great Americans in 1955.

'701 Study' Carries Warning On Need For Reserving Park Lands

"Past experience has proven that if land is not reserved in anticipation of capacity population demands, there will not be sufficient land available for recreational use when the capacity population does arrive."
This warning is made in the parks and recreational facilities section of the Marquette area's '701 Study'.

Curran Raps Trusteeship Over Unions

NEW YORK (AP)—Joseph Curran, president of the National Maritime Union, has joined with his union's chief rival, the International Seafarer's Union, in opposing "by all means the proposed government trusteeship over Canadian maritime unions on the Great Lakes, it was announced today."
The N.M.U. leader represents 50,000 unlicensed seamen on deep-sea, lake and river vessels. While opposing the governmental intervention, he made it clear that he was not defending the S.I.U. against charges that it was responsible for three years of violence on the Great Lakes.

Curran expressed his feelings in a letter to Claude Jodoin, president of the Canadian Congress of Labor, four of whose maritime trades unions have agreed to the trusteeship recommendation made by Justice T. G. Norris, of the British Columbia Supreme Court.
The Norris report, made public in Ottawa Aug. 1, blamed strikes by Canadian and United States maritime unions marked by shootings, beatings and sabotage, on Hal C. Banks, head of the Canadian branch of the S.I.U., which has been ousted from the Canadian congress of labor for raiding other unions.

OFTEN WISH YOU COULD PHONE IN PRIVACY?

An extension phone is the answer. Ever want to take or make an important call without imposing strict quiet on the family? Or do you sometimes just wish you could enjoy a relaxed telephone conversation in private?
An extension phone makes sense for many reasons. Privacy is only one, important as it is. Step-saving's another. Time-saving, too. They all add up to convenience.
In your kitchen, den or bedroom, make it a Princess extension phone—in color. A separate beige ringer goes neatly on the baseboard. A Princess phone costs only pennies a day, after a one-time installation charge. Call your Michigan Bell business office, or ask the man on the telephone truck.

Playground, Pool Attendance Here In July Over 65,000

More than 65,000 people used city playgrounds and swimming areas during July, City Manager Thomas Moore states in his weekly report on municipal department activities.

Last week parks and recreation department crews cared for the deer herd and other animals and brushed out nature trails at Presque Isle Park, repaired runway and center float at Shiras Pool, and continued brushing out at Shiras Park.

Crews also cleaned buildings and grounds daily at parks, cut grass at the Lake Shore Blvd. and Hawley St. pumping stations, hauled garbage from parks and provided janitor service for the Golden Age Club.

Excerpts from the reports of other municipal departments follow:

Light and power — Line crews continued work on the rural south line, replaced a transformer in Sands which was hit by lightning; relocated a pole on W. Washington St., and connected four new customers and replaced one customer's service. Water received at the hydroelectric plant was less than last week and less than during the same week a year ago. Elevation at the Hoist Pond dropped .25 feet and was 5.05 feet higher than during the same week last year and 7.45 feet from the top of the dam. The total system's kilowatt hour load was 5.3 per cent higher than last year.

Water and Sewage — Installed eight three-quarter inch taps on Jonathon Carver Drive in Shiras Hills and repaired a service line on Division St. Water pumpage for the week totaled 26,077,000 gallons. At the sewage plant, 15,000 gallons of digested sludge were pumped to the drying beds, making a total of 135,000 gallons for the season.

Fire — One chimney and one incinerator fire. Thirteen city buildings were inspected. General maintenance of all buildings and equipment conducted.

Health — Complaints with assistance given numbered 38. Eighteen referrals made to private physicians. Administered eight

U.S. Probes Shipping On Great Lakes

WASHINGTON (AP)—The Federal Maritime Commission announced yesterday two investigations of Great Lakes shipping—one involving all carriers and one addressed to two Japanese lines.

One will go into the practices of all carriers on the lakes in quoting rates and establishing rules and regulations for the receiving, handling and storing of freight at Great Lakes ports.

Own Motion — This inquiry is being undertaken by the commission on its own motion because of allegations that the tariffs of carriers in the Great Lakes trade are ambiguous and do not identify terminal charges against the shipper as separate from ocean carriage charges.

The second inquiry, also undertaken on the commission's own motion, is directed at Iino Kaifu Kaisha, Ltd., and the Mitsui Steamship Co., Ltd.

Allegation — It is based on the allegation that the two lines refuse to bring import cargoes to Duluth, Minn., although they call at Duluth to pick up cargoes of agricultural products for export.

The commission said it is undertaking to determine whether this practice is discriminatory against Duluth or against U. S. shippers and detrimental to U. S. commerce.

Hearings — Hearings are to be held at times and places to be announced later.

Bids, Reports Due At City Meeting Tonight

Bids and reports are among the items scheduled for the regular meeting of the Marquette City Commission at 7 this evening in the City Hall.

A petition signed by 16 residents on W. Hewitt Ave., concerning noise created by a business establishment, will be received.

City Manager Thomas Moore will submit a report on the grading and installation of gravel base for Garfield Ave., Center St. and Rintala Heights Subdivision.

Moore also will report on the bids received for a 750-kilowatt transformer for the light and power department.

New Camera Gives Instant Photographs

EAST LANSING (AP)—An inexpensive camera that will let the photographer see his picture almost as soon as he clicks the shutter is in the works.

No liquid chemicals, no built-in pods and no darkrooms are required to use the electronic camera invented by Dr. Barnett Rosenberg of Michigan State University.

An electrically charged plate stores the light, and if the picture isn't satisfactory, the image can be wiped out immediately by discharging the plate.

If the picture is good, it can be made into "the most permanent type of picture ever created," Dr. Rosenberg said.

Cost Of Prints — Prints—expected to cost no more than two or three cents in black and white—can be made on ordinary types of paper.

The camera plate is sprayed with dry powder and the image is transferred to the paper—immediately after the picture is taken if desired.

The process is called "persistent internal polarization"—or P.I.P.—and is based on a tested principle of "electro-photo-tography."

Unlimited Number — The camera plate will produce an unlimited number of photographs. Once the electrically-conductive plate, charged by low voltage batteries, traps the light, pictures then are stored in the plate.

Pictures are described as full toned and sharp to the edges, in contrast with some processes which fade out at the sides.

Rosenberg and his brother Philip, of Oak Park, Mich., hope to produce a basic still camera at prices between \$50 and \$100. The camera would have the usual assortment of lenses and shutters.

Rosenberg predicts drastic refinements in photo-engraving and graphic arts techniques. In addition, he said, P.I.P. can be used in X-ray and other medical devices. The process uses any ionizing rays, including ultra-violet.

Engineering — Set stakes and checked grading and installation of gravel base on Garfield Ave., and Center Sts. in Rintala Heights subdivision. Wrote reports on the following proposed projects: sanitary and storm sewer on Altamont St. in McMillan and Newberry Sts. area; sanitary sewer and water main extensions on Hampton and Altamont Sts.; sanitary sewer extension on Wright St. west of East St. and on Granite St.; storm sewer, curbs and street base on Lynn Ave. from Waldo St. to Center St., Birch Ave. from Fair Ave. to Center St. and Center St. from Lynn Ave. to Birch St.

Public works — Continued sealing project, repaired paved streets and chlorided gravel streets.

Kentucky Pioneer Had Own Fire Department — FRANKFORT, Ky. (AP) — As a precaution against fire the Kentucky pioneer built the chimney of his log cabin so that if it caught fire he could pull out a log and collapse the burning chimney.

contest) to both counts. The pleas were accepted by the court as pleas of guilty.

Improper Turn — A fine of \$6.30 and \$3.70 costs were paid by Melvin E. Anderson, 304 E. Clark St., Negaunee, for making an improper left turn at the intersection of Third and W. Washington Sts. City police issued the summons July 30.

Jimmy M. Nobles, K. I. Sawyer Air Force Base, was ordered to pay a fine of \$6.30 and \$3.70 costs for violation of the basic speed law. He was ticketed by state police July 29 following an accident on County Road 551 in Chocoway Township.

For failure to yield the right-of-way, Robert J. Todd, 104 E. Magneite St., paid a fine of \$6.30 and \$3.70 costs. The summons was issued by state police Tuesday at the corner of S. Front and Rock Sts.

Michael J. Abraham, Iron Mountain, was ordered to pay a fine of \$6.30 and \$3.70 costs for failure to stop in the assured clear distance ahead and an identical assessment for driving with a defaced operator's license.

Civil Rights Issue Hurts Politically, Sen. Hart Reports

WASHINGTON (AP)—Sen. Philip Hart, D-Mich., said today the civil rights issue hurts him politically now.

But Hart, who is up for re-election next year, told a news conference that he does not know whether this will be true in 1964.

Hart is a co-sponsor of the Kennedy Administration's civil rights legislation, including the controversial public accommodation sec-

tion. Hart said he feels that as a U.S. Senator "you have to be for it, regardless of the consequences." He said that after discussions with white persons on visits to Michigan, he sensed they believed

the civil rights matter "is being moving too fast and too force-pushed too hard, that things are fully."

Close Class, in honor of the imperial potentate, was inducted into the Shrine during the ceremonial. Activities closed with entertainment during the evening in the Grandview High School's Kaufman Auditorium. Around 500 Shriners and their ladies attended.

Engle Gets Transfer To Battle Creek

Capt. Alan B. Engle, chief of the Sault Ste. Marie Air Defense Sector's missile branch, stationed at K. I. Sawyer Air Force Base since September 1960, is departing for Detroit Sector Headquarters in Battle Creek to serve in a similar capacity there.

After joining the Air Force in 1950, Engle flew air support in F-80's in Korea winning the Korean Medal and the Air Medal.

In 1957, Engle piloted an F-100C from London to Los Angeles — 7,200 miles in 14 hours and 3 minutes — setting a new record for which he was awarded the DFC. He also holds the record for the longest overwater flight, from Foster Field Texas, to the Canal Zone

and return — a distance of 3,900 miles.

Won Chinese Medal

Engle served in Taiwan during the Formosa crisis in 1958-1960 with Col. Charles L. Praul, SMADS vice commander. Both won the Chinese Order of the Cloud and the Banner.

Engle, a native of Petoskey, and his wife, Emmy Lou, have seven children, John, Chuck, Mark, Theresa, Judy, Steve and Susan.

Fiscal Reform Study Urged By Libraries

Michigan's 324 public libraries are joining in a statewide campaign to inform the public on the issues of fiscal reform by urging citizens to read the wealth of materials available in state libraries.

To assist librarians in their local efforts, the Michigan State Library has mailed 5,000 copies of an eight-page bibliography which lists recent and authoritative materials—pro and con—on all aspects of the subject. In addition, posters urging citizens to read the information available were also distributed for local use by the libraries. For Use In U.P.

Miss Genevieve M. Casey, state librarian, added that collections

of materials listed in the bibliography will soon be sent to public libraries.

The Michigan State Library branch in Escanaba also will have a traveling collection for use by the 29 public libraries in the Upper Peninsula.

Some of the helpful titles listed in the bibliography which residents have access to are:

"Taxation in Michigan: An Appraisal," by Harvey E. Brazer; "A Program for Michigan Tax Reform," by Citizens for Michigan; "States Face Sixties," by Charles F. Conlen; "The Detroit Income Tax - An Analysis," by Alfred L. Edwards; "Financing Government," by Harold M. Groves; "Taxation and Finance," by Frank M. Landers; "The Michigan Economy to 1970," by Paul W. McCracken; "Annual Report 1959-1962," by Michigan Department of Revenue; "Michigan Tax Study Staff Papers," by Michigan Legislature, House, Special Committee on Taxation, and Research Staff; "State Income Tax Admin-

istration," by Clara Penniman and Walter E. Heller; "State and Local Tax Service," by Prentice-Hall, Inc.; "Earmarked State Taxes," by Tax Foundation, and "Michigan's Taxes on Business," by Dwight B. Yntema.

Space Critics Challenged By U.S. Scientist

BLACKSBURG, Va. (AP) — A government scientist today challenged critics who want more emphasis on space weapons development, saying the present U.S. space program is laying a broad base for both scientific and military operations.

Homer E. Newell, director of space science for the National Aeronautics and Space Administration, said:

"Those who argue that we should dispense with the frills of science and space exploration and concentrate on the necessities of military development, forget that we can't really say what the military necessities in space will be and it would be foolhardy to pretend that we can."

Speech

In a speech prepared for an artificial satellite conference at Virginia Polytechnic Institute here, Newell said:

"We do not wish to develop a Maginot Line in space, only to have it flanked by forces of greater flexibility. We need to develop in a broad way our space capability so that we will have the ability to move in any direction required by future events to meet any threats along whatever lines might develop."

Newell's defense of the space program came at a time when many defense officials and some congressmen are taking a closer look at military needs in space.

Military Space Efforts

Major military space efforts are aimed at development of reconnaissance satellites by the Air Force, communications satellites by the Army, and navigation satellites by the Navy. The Air Force is training astronauts for NASA's two-man Project Gemini orbital and rendezvous flights. Later, Air Force astronauts will fly Gemini capsules modified for military missions and the Dyna-Soar manned space glider.

Space Spies

Advocates of a strong military program think the United States should be working on spacecraft to spy on enemy satellites and destroy them if they are carrying nuclear bombs. Some say this nation should develop orbiting nuclear bombs of its own.

Zing-Along Workouts Can Give You Swimsuit Figure

1. A beach beauty rating includes a special diet, exercise and sun-tanning formula (see P.S.). It can be a fun-to-follow routine with zing-along workouts that literally follow the bouncing ball. As Liz Shaw demonstrates in this waist trimmer, stand with feet 12-14 inches apart. Grasp ball and swing it back and forth between legs. Inhale as ball is raised; ex-

hale as it is lowered. Rehearse 10 times. 2. Another bulge-bouncing slimmer begins by reclining on floor with ball placed between feet. Slowly elevate limbs toward ceiling. Hold for the count of four; then return legs to floor. Notice how "rubber reminder" prevents you from bending knees! How it concentrates pull on the abdomin-

al muscles? Liz, who appears on NBC-TV's "The Art Linkletter Show," practiced 10 of these "foot-holds." 3. The hip area also gets some peppy paced attention. Sit on floor with left limb extended, right knee bent. Simultaneously shift weight to left hip, while propelling body forward and changing leg positions. Try a few of these "hip wad-

ies," then again practice with arms stretched behind you holding beach ball. Check how the shoulders become erect, how the midriff no longer rests on the abdomen. Start with eight of these figure trimmers, gradually increase to 14. P. S. It's Here! Our 12-page booklet on professional "Figure Trimmers." It tells how to acquire a swimsuit figure, what to eat, how to exercise. Also, it provides a diagram on how to rate your figure. For our fully illustrated pamphlet, send 10 cents and a stamped, self-addressed envelope to "Youth Parade - Figure Trimmers 1963," in care of The Mining Journal, P. O. Box 46-181, Hollywood 46, Calif. Due to increased mail volume, only those enclosing coin and stamped envelope can be answered.

Jambalaya Finds Favor Everywhere

By CECILY BROWNSTONE Associated Press Food Editor

Probably no Southern dish has been made more ways than Jambalaya - spelled, according to Webster, without an "h" at the end. But two things never vary. Jambalaya includes rice and lots of seasoning. And its origins are definitely Creole.

Moot Point

What accompanies the seasoned rice is a moot point. In the 1900s New Orleans cooks made Jambalaya with fresh pork, ham and pork sausage. They used seafood versions, too. One included crabmeat, another shrimp.

In the latest Louisiana cook book, "The Art of Creole Cookery" by William I. Kaufman and Sister Mary Ursula Cooper, O.P. (Doubleday), there are no less than six recipes for Jambalaya. One includes chicken, ham and pork; one relies on chicken alone; one features oysters; two versions call for shrimp; and an Acadian version uses ground pork. Coauthor Sister Mary Ursula is chairman of the home economics department at St. Mary's Dominican College in New Orleans and so she is well acquainted with the Jambalaya recipes that find favor nowadays.

The following rule is a variation of a popular one - in the North as well as the South - calling for shrimp, ham and tomatoes. When we tried the recipe in our kitchen, we made it "hot" with tabasco sauce to give it authentic flavor.

- SHRIMP AND HAM JAMBALAYA
2 tablespoons salad oil
1/2 pound precooked smoked ham, diced
1/4 cup butter or margarine
2 medium onions, finely chopped
1 clove garlic, finely chopped
1 green pepper, finely chopped
2 cups long-grain rice
1 1/2 cups water
1 can (1 pound, 12 ounces) whole tomatoes
1 bay leaf, crumbled
1 1/2 teaspoons salt
1/2 teaspoon black pepper
Tabasco sauce to taste
2 pounds fresh shrimp (cooked, shelled and deveined)
Heat oil in large skillet. Add ham and cook until lightly browned. Remove from skillet and set aside. Add butter to remaining oil in pan; add onion, garlic and green pepper. Cook gently until tender. Add rice and cook, stirring constantly, until browned. Add water, tomatoes (including juice), bay leaf, salt, pepper and tabasco; break up tomatoes. Cover and simmer, stirring occasionally, for 25 minutes or until rice is tender. If mixture becomes dry, add a little water. Add ham and shrimp. Mix lightly; transfer to a large casserole. If desired, garnish with green pepper rings, "as is" or parboiled. Heat covered, in a hot (425 degrees) oven about 10 minutes. Make eight servings.
Note: Cooked small shrimp are fine for this recipe; if you use medium shrimp, you may cut them in half lengthwise, retaining their shape.

Kansas Family 'Up In Air'

WICHITA, Kan. (AP) - When Richard Callaway became an airplane pilot he had no idea his whole family would follow suit. But they did. His wife, slender attractive Margaret Callaway, took up flying while her husband was an Air Force pilot during World War II. She took her two daughters along to some pilot classes and they too became interested in flying. Mrs. Callaway taught both girls to fly and what started as a hobby has become a vocation for most of the family.

Daughter Soloed Early Mrs. Callaway has logged about 7,000 hours flying time in the past 20 years. She won an international air race in 1957 and has finished high in other air races. A licensed pilot instructor, she is employed by a Texas firm which makes aircraft parts. Daughter Sandra Callaway, 23, soloed as soon as she reached the legal age of 16 and now holds a commercial pilot's license. She has placed among the top three finishers in both the Powder Puff Derby and the all-women's international Air Race. She is a graduate of the University of Rochester and is a sales representative for a Wichita aircraft firm.

Husband Still Flying Marge Callaway, 21, the other daughter, has taken part in several air races. She is a graduate of Rochester and is now taking advanced studies at University of Wichita. What about the old man? He retired last year as an Air Force

Miss Ishpeming Pageant Slated For Sept. 13-14

ISHPEMING — A Miss Ishpeming pageant, which is the first stepping stone for an Ishpeming girl seeking the coveted Miss Upper Michigan title, will be sponsored this year by the Ishpeming-Negaunee Junior Chamber of Commerce.

The titles of Miss Upper Michigan and Miss Michigan are held by the current Miss Ishpeming, Kathy McLaughlin.

The local pageant, one of several to be conducted throughout the state, will be held Sept. 13 and 14. The girl selected will compete for the Miss Upper Michigan crown at Marquette.

In addition to the title and trophies, a savings bond will be awarded to the winner, who will be crowned on Saturday, Sept. 14, by Miss Michigan.

Jerry Wierzbicki, chairman of the Miss Ishpeming pageant, announced today that several girls already have shown considerable interest in entering the local pageant.

Any civic or service club wishing to nominate a candidate may contact Wierzbicki at the J. C. Penney Co. store during the day or at 200 Canda St. during the evening.

Local contestants will be judged on talent, personality and in swim-suit and evening gown events.

Three Drivers Issued Tickets In Ishpeming Area Accidents

ISHPEMING — Three motorists were issued tickets and their vehicles were damaged, but no one was injured, in three area traffic mishaps which occurred during the weekend.

1. At 7 Saturday evening a truck being driven east on U.S. 41 by William Harris, 47, of 616 E. Division St., Ishpeming, was damaged when the left rear wheels came off.

The wheels went skidding over the highway, striking the Northern Tire Corp. building at the North Lake Forks, in Ishpeming Township.

Failed To Report Mishap

Because of the wheels being off, the truck, a 1957 model, had to be removed from the scene by a wrecker.

State police gave Harris a summons for failing to report a property damage accident.

2. An automobile being driven east on County Road CF by Joseph Petry, 32, of 302 Greenwood St., Ishpeming, traveled off the right side of the highway on a sharp left curve and smashed into a tree.

Petry told state police he was dodging a deer at the time. The mishap occurred a mile west of County Road 581, in Ely Township, at 10:30 Saturday night.

Extensive damage resulted to the right front and side of Petry's automobile, a 1961 coupe, which had to be hauled from the scene by a wrecker.

State police gave Petry a ticket for driving at an excessive rate of speed.

3. At 10 Saturday night a car being driven north on County Road 565 by Robert Ruesing, 20, Route 1, Negaunee, went off the left side of the highway on a right curve and rolled over.

Failed To Report Crash

State police said the wreck took place a half mile from M-35, in Richmond Township.

Considerable damage occurred to the top and both sides of Ruesing's automobile, a 1956 sedan, which had to be removed from the scene by a wrecker.

State police arrested Ruesing for failing to report a property damage accident and also ticketed him for a speed law violation.

Slaughter On Roads: 32 Die In Michigan In Bloody Weekend

(By the Associated Press)

At least 32 persons were killed in traffic over the weekend in one of the busiest and bloodiest weekends for highway traffic in Michigan's history.

Five accidents alone took 16 lives, and the 54-hour Associated Press death toll, which began at 6 p.m. Friday and ended at midnight Sunday, included the separate deaths near Manistee of two children who ran into the paths of cars Sunday.

The Automobile Club of Michigan called the period beginning at noon Sunday "probably Michigan's heaviest 12-hour traffic volume in history."

Long processions of cars, many pulling boats and trailers, choked major highways into all large cities in the state. Particularly jammed was I-75 south of Bay City.

Seven persons, all members of two Michigan families, were killed in a train-car crash near Saginaw Sunday at an intersection marked by a reflectorized cross-bow.

Danielle Bozin, 20, of Marysville, were killed Friday night when their car hit a freight locomotive near Mount Clemens.

Wheeler Simpson Jr., 28, and Clephus Jones, 24, both of Albion, were killed Friday night when their car ran into a tree near Albion.

Carmela Hoetger, 61, of Detroit, and her husband, William, 61, were killed Saturday when the car in which they were riding went out of control and overturned on M-33 near West Branch.

In separate accidents Friday night and early Saturday, five persons were killed.

Friends may call at the funeral home after 7 Thursday evening.

R. C. Pascoe, Retired CCI Worker, Dies

ISHPEMING — Raymond C. Pascoe, 61, of 200 Canda St., died Saturday morning in Bell Memorial Hospital, where he was a patient for two weeks.

Mr. Pascoe was born in Ishpeming Sept. 15, 1901, and was employed here by the Cleveland-Cliffs Iron Co. for 42 years until his retirement several months ago.

He lived in North Lake most of his life, moving to Ishpeming three years ago.

He is survived by his wife, Ida E.; his mother, Ida M. Pascoe of Ishpeming; two sisters, Mrs. Geraldine Cox and Mrs. Robert (Merle) Strengberg of Ishpeming; a brother, Donald of Marquette, and several nieces and nephews.

Services will be held tomorrow at 2 p. m. in the Fassbender Funeral Home. The Rev. Eric S. Hammar will officiate and burial will be made in Ishpeming Cemetery.

Palbearers, all cousins of the deceased, will be Glen Roberts, Ellsworth Pascoe, Eldred Pascoe, William Pascoe, Calvin Bone and Kenneth Moyle.

Friends may call at the funeral home beginning at noon today.

Five Vehicles Damaged In Four Crashes

L'ANSE — One car was demolished and four others damaged in four area accidents over the weekend.

At 3:40 yesterday afternoon, Thomas S. Marino, 26, Trout Creek, wrecked his car in a smashup on Federal Forest Highway 16, approximately 4 1/2 miles north of M-28, Marino, travelling north, ran off the road, hit a culvert and rolled over. The auto, a new sedan, came to rest 31 feet from the culvert.

A 17-year-old Ewen girl, Diane Tyyska, injured in the accident, is in Baraga County Memorial Hospital here. A medical record on X-rays taken this morning was not available.

L'Anse Man, World War I Veteran, Dies

L'ANSE — Alfred M. Anderson, 68, long-time resident of L'Anse, died suddenly Saturday afternoon in his home.

He was born in Pequaming Feb. 16, 1895. He served in the armed forces during World War I, participating in the Battle of the Argonne, and was a member of Company H, 3rd Infantry Division, Chicago, retiring in 1937. He was married to the former Mabel Frederickson Nov. 28, 1928.

Surviving besides his wife are a daughter, Mrs. Joseph (Margaret) Dompier of L'Anse; two sons, Donald of Garden City and Kenneth of K. I. Sawyer Air Force Base; two sisters, Mrs. Albert (Ragna) Shoemaker and Mrs. Ingward (Agnes) Danielson, and a brother, Edward Anderson, all of L'Anse, and nine grandchildren.

Services will be held Tuesday at 1:30 p. m. at the Swanson Funeral Home, L'Anse, with the Rev. Constant Wipp officiating. Burial will be made in Evergreen Cemetery.

Friends may call at the funeral home.

ISHPEMING — Mrs. Emma Christian, 83, National Mine, was pronounced dead upon arrival at Bell Memorial Hospital Saturday evening.

She was born May 25, 1880, in Humboldt and had lived in National Mine most of her life. She was a member of the Salisbury Methodist Church.

Survivors include four sons, Arthur of Ishpeming, Lloyd of Pontiac and Merle and Albert of National Mine; two daughters, Mrs. Ruth Asplund of Chisholm, Minn., and Mrs. Harold (Helen) Solka of Ishpeming; a brother, Arthur Brown of Ishpeming; a sister, Mrs. Jennie Oatey of Wakefield; 10 grandchildren, two great-grandchildren and 22 nieces and nephews.

The body is at the Bjork & Zhulkie Funeral Home, where friends may call after 4 this afternoon.

Death Takes National Mine Woman, 83

Forced Off Road

An auto driven by Donald Pawlowski, 28, Baraga, took to the guard rails and knocked down eight guard rails on U.S. 41 near the Baraga State Park at 9:45 Friday morning. Pawlowski told sheriff's officers he was travelling north when an unidentified car coming up behind him pulled out to pass. In order to avoid a three-car collision with another auto coming towards him, he swerved into the guard rails. Pawlowski was forced off the right side of the road.

Officers said the car clipped off the guard rails before coming to rest at the edge of a large slough at "third bridge." The car, only seven days old, had to be hauled to the highway by a wrecker. Both front fenders, the hood, bumper and grill were crumpled.

Parked Milk Truck Hit

An auto driven by Donovan L. Clement, Shawano, Wis., plowed into a powdered milk truck owned by Bernard Chaput, Glassco, which was parked in a driveway on U.S. 41, 3 1/2 miles south of Houghton, at 2 p. m. Saturday.

Clement told state police he saw another auto start to pull out onto the highway, and he drove into the left lane to avoid a collision. He added that, when the other car started coming towards him, he drove off onto the left shoulder hitting the parked car.

Officers said the driver of the second vehicle, Howard R. Brumback, Racine, Wis., was not pulling out onto the pavement, but was moving up to get a good view of the road. Clement's car and the milk truck were slightly damaged.

Hit-Run Accident

State police are investigating a hit-and-run accident which occurred at 9:30 last night on M-35 west of Baraga.

Alfred Schultz, 74, Baraga, owner of the damaged auto, told officers that an unidentified oncoming car crossed the center line and struck the side of his car. The Schultz vehicle was damaged, but was driven from the scene under its own power.

Police are searching for the other driver.

Bus To Leave At 9 With Safety Patrol Members

NEGAUNEE — Members of Lakeview and Central Grade School safety patrols who are planning to attend Safety Patrol Day Tuesday at the Upper Peninsula State Fair in Escanaba were advised today by Miss Salma Kuivila, Lakeview principal, that they should report before 9 Tuesday morning at the Central Grade School.

Local safety patrol members will make the trip to Escanaba in a school bus, which will leave the Central Grade building at 9.

Free tickets will be distributed to the youngsters for a picnic supper at the fairgrounds, but patrol members should make arrangements for their own noon meals. School buses will leave the fairgrounds for return trips to their home communities at approximately 6 p. m.

Federal Grants For Baraga County, Republic Township Among Six Okayed For U.P.

WASHINGTON — Funds for construction of three equipment storage garages for the Baraga County Road Commission and for a water storage reservoir and pump house in Republic Township are included in Community Facilities Administration grants, U. S. Senators Patrick McNamara and Philip A. Hart reported today.

The grants — amounting to \$61,000 for Baraga County and \$32,000 for Republic Township — are among six approved for Upper Peninsula projects under the accelerated public works program.

"Work on all projects will begin within 120 days and combined will provide 394 man-months of labor," the senators declared.

They listed the other grants as follows:

- \$54,000 for Ironwood for storm sewers.
- \$138,000 for Watersmeet Township for new water system and sanitary sewage collection system (plus \$153,000 public facility loan).
- \$8,500 for Iron County Road

Commission for relocation of local road.

- \$66,000 for Keweenaw County Road Commission for building of dock launching ramp and facilities for boats at Copper Harbor.

Cleveland Adds Drama To City's Divisions

CLEVELAND (AP) — Dramatic decals are used on many of the city's vehicles to illustrate their assignment.

Cleveland uses St. George slaying a dragon for the sewage disposal division, the Norse god Thor for the light and power branch, and a "big hand" for the water department, for example.

Law director Bronis J. Klemencik ruled recently that such vehicles do not also have to be lettered with the city's name, remarking: "We don't want to make the city cars look like billboards."

Dear Abby....

BY ABIGAIL VAN BUREN

DEAR ABBY: All right, let's see if YOU think I am "sick" and should see a psychiatrist. My husband gave me a surprise party for my birthday last month. He planned it all on the telephone with a good friend of mine. I really was thrilled for it was a grand party. But when he gave HER a corsage exactly like the one he gave me, it spoiled everything. This was the first corsage my husband had brought me in 33 years of marriage, and I had to share the honor with another woman. I would like your opinion on this. A person doesn't enjoy being told she is "nuts."

LUMP IN MY THROAT
DEAR LUMP: I don't think you are "nuts," but I do think you are over-reacting. True, your husband acted thoughtlessly, but he was only repaying a friend for helping to plan your party. And it's the party that counts. Don't mention the corsage again.

DEAR ABBY: My husband could be the "well-dressed, successful business man" about whom you wrote recently, who walks around with holes in his socks. And it isn't because his wife doesn't give a darn. I have darned his socks until I am weary, but he can put his thumb through a sock by just pulling it on for the first time. I've bought ribbed socks, stretch socks, nylon socks and woolen socks, but nothing lasts. I've seen my husband put on a brand new pair of hole-proof socks, and one hour later I look down and he has a hole in both heels the size of half-dollars. What can I do? If anyone tells me that my man looks shabby

because his wife doesn't give a darn they're apt to get a sock in the eye.

DEAR ABBY: Our son became officially engaged a year ago in June, with plans to marry this June, but it never came off. He is 30 and the girl is 23. He gave her a very costly diamond, which was quite a rock by anybody's standards. This girl has been seen out with other men, but she denied it when my son asked her. (I saw her and so did my husband.) Our son refuses to believe she is playing him for a fool, but it is so obvious it is pathetic. Now she says she wants to "stay engaged and keep the ring," but she needs to date other men to "test their love."

What do you think of this? THE OLD FOLKS DEAR FOLKS: Any man who gives a girl a "rock" and allows her to date others to "test their love" has several much larger rocks in his head But he's 30, Mom, and you can't tell him what to do.

CONFIDENTIAL TO ZIP CODE 900 69: Don't be silly, grab him! Don't you know a happy husband is nine feet tall?

Tell your troubles to Abby. For a personal, unpublished reply, please send a stamped, self-addressed envelope to Box 3365, Beverly Hills, Calif.

Blake's Local Pride Taken To Greenland

PARIS, Ky. (AP) — There's no tobacco industry in Greenland, yet there's plenty of advertising on the island for the Paris, Ky., burley market.

When Jim Blake of the Coast Guard was home on leave, he picked up a handful of bumper stickers reading "Sell your tobacco in Paris, Ky."

Now they're decorating dog sleds, tractors and a few small ships in Greenland.
