Democrats Resting On Laurels

By PETER EDSON

WASHINGTON (NEA) - Democratic poitical activity in Washington is now so dead that Sam Brightman, the Democratic National Committee's veteran director of public relations, has been able to take his family on vacation for the first time in five years. The Republicans are doing all the politicking with their Rockefeller-Goldwater feud, favorite son boomlets, right-wing revolts and

lambasting of the Kennedy administration. rector of the Citizens Research Foundation of Princeton, credits President Kennedy with having raised \$9,970,000 for the party since his election.

before next year. "The President stirs up the excitement for us," says Stephen P. Smith, the President's brother-in-law, who recently took a job in Democratic National Committee headquarters.

Asked if he is a kind of special assistant National Committee Chairman John M. Bailey, Smith replies, "That's as good a title Smith travels a lot, as does Bailey. They

These include seven of the nine bigger states which Kennedy lost to Nixon in 1960 - California, Ohio, Indiana, Iowa, Wisconsin, Kentucky and Tennessee, with a total of 112 electoral votes. The Democrats are also after the six larger states which Kennedy carried - New York, Pennsylvania,

the long run. There is no "purge" of conservative southern Democrats such as was rumored in the making some months ago. But the end result may be the same.

critics of the President's program. Bailey puts out a statement now and then in reply to some blast from Republican leaders. But there is no Democratic National committee public relations campaign other than through "The Democrat," a bi-weekly

DEAR ABBY: My sister and I have a friend who lives in the same apartment building as we do. She went on a vacation and left the keys to her apartment with her gentleman friend so he could water her plants and look after her goldfish. She hadn't been gone two days when this nogood gentleman friend brought another woman into her apartment. All the neighbors know about it and we are afraid one of them will tell her when she gets back. Should we tell her first, or should we let this man make a fool of her?
