

Tito Urgently Calls For End To Cold War

UNITED NATIONS, N. Y. (AP)—The United Nations has again rejected membership for Communist China in a vote hailed by the United States as a clear indication of opposition to the Peking regime.

The vote Monday constituted another victory for the United States in its battle to keep Red China out of the world organization. It was the 14th time the General Assembly has either rejected or sidetracked Peking's admission.

The 111-member General Assembly defeated an Albanian-Cambodian resolution to seat Peking and oust Nationalist China, 57-41 with 12 abstentions. The vote Monday constituted another victory for the United States in its battle to keep Red China out of the world organization.

The visiting Yugoslav leader asserted that the fundamental political question facing mankind is coexistence among states with different economic and political systems. Covered By Charter Tito put it this way: "It would be of particular importance for the further improvement of international relations and for the strengthening of peace in the world for the United Nations — as the most representative gathering of equal and sovereign nations and as the most prominent forum through which world opinion expresses itself—further to elaborate and to codify the principles of peaceful coexistence."

He said he is aware that the matter is covered by the U.N. Charter and is also under discussion in the assembly's legal committee. Last Visit Nevertheless, he added, because of the fundamental importance of this question on a high level and in a manner which would most appropriately reflect its importance. Tito, making his first visit to the U.N. since 1960, has contended the international organization would draw up ground rules for peaceful East-West relations.

BULLETIN

NEW YORK (AP)—Ralph Houk, field manager of the New York Yankees for the past three years, was named general manager Tuesday, succeeding Roy Hamey, who retired because of ill health.

The successor to Houk as manager will be named Thursday, and the prime candidate is Yogi Berra, the long-time Yankee catching star.

Under Houk, the Yankees won three American League pennants and World Series championships in 1961 and 1962. They lost the '63 Series to the Los Angeles Dodgers in four straight games.

Woman Kills 7-Year-Old Stepdaughter

GRAND RAPIDS (AP)—A 39-year-old woman slew her 7-year-old stepdaughter early today, police said, and then tried to kill herself in the family's northwest side home here.

Dead was Beatrice Wittner, a victim of a slashed throat. In serious condition at St. Mary's Hospital was Mrs. Erzsébet (Elizabeth) Wittner who, police said, suffered serious lacerations of the throat and arms.

Immigrants She told police she slashed the girl's throat with a paring knife while the child slept and then tried to kill herself. Another stepdaughter, Mary, 5½, apparently slept through the slaying in a separate twin bed in her sister's room.

Capt. Robert Anderson said both girls were Wittner's children by a former marriage which ended in divorce. Wittner and his wife are Hungarian immigrants.

Inspector Walter Gilbert and Detective Nick Treviso said Mrs. Wittner apparently became distraught over her husband's alleged affection for the slain child.

Grand Jury Investigates Steel Prices

NEW YORK (AP)—A federal grand jury moved today to dig into the sensitive area of steel industry price practices, subject of a Kennedy administration-business blowup in April 1962.

At least eight large steel companies have been subpoenaed to produce records relating to price policies since 1956. The list was headed by U.S. Steel Corp., industry giant.

The companies and the Justice Department were reluctant to shed light on the development. A spokesman for one company said the industry was taken by surprise.

Price Lists It was learned that the grand jury, sitting in New York, directed presentation by Nov. 20 of all price lists on five classes of products published in the last seven years.

Thus, the inquiry seemed to go beyond selective markups.

NEW YORK (AP)—Steels were sharp losers as a selling squall struck the stock market today. Many issues recovered above their lows early this afternoon. Trading was heavy.

News of federal grand jury subpoenas to major steel companies led to fears that the government might try to roll back steel prices as they did in the spring of 1962, brokers said.

that so far this year raised quotations on items accounting for roughly three-fourths of mill tonnage, boosting steel prices by more than two per cent overall.

A \$6-a-ton across-the-board price increase 18 months ago triggered a pitched battle between the White House and leading steel producers. The steel firms backed down under heavy administration pressure.

The grand jury also called for annual reports dating from 1956, lists of sales officers and product managers, various tables and charts relating to prices and other data.

No Concrete Result After the April 1962 price boost, the administration, among other things, launched a grand jury investigation but it died down without concrete result.

President Kennedy expressed concern earlier this month over selective increases last spring and this fall covering about 70 per cent of all steel products.

Kennedy said the situation was being watched very carefully, along with markups in other industries, but said nothing about any formal investigation.

Hurricane Lingers Off N. Carolina

(By the Associated Press) Hurricane Ginny meandered off North Carolina today while two Coast Guard cutters stood by a powerless Navy destroyer escort that was wallowing but safe with her crew of 10 on the storm's fringe.

The 306-foot decommissioned vessel Fogg broke a towline Saturday night in the Atlantic and drifted helplessly. 80 Mile Winds

The New York Weather Bureau said the storm was centered 165 miles southeast of Cape Hatteras with no diminishing of her highest winds — about 80 miles an hour.

However, the Coast Guard reported that the Fogg was in an area where waves had abated from 25 to 60 feet high to 10 feet.

In No Danger The Coast Guard vessels were awaiting further abatement before attempting to get a line to the Fogg. They reported the Fogg high in the water and in no apparent danger.

The Coast Guard cutter Casco reached the Fogg Monday night, after the vessel had been sighted by a Navy hurricane-hunter plane.

The Casco, a 311-foot patrol gunboat, was joined by the cutter Chilula in standing watch within 1,000 yards of the Fogg, reported about 100 miles east of Cape Fear, N.C.

Seas Moderating Shortly after daybreak, the Coast Guard said the Chilula had reported that seas were moderating, but there was no indication when or if the 205-foot ocean-going tug would attempt to get a line to the Fogg.

The center of Hurricane Ginny was about 60 miles northeast of the ships, the Coast Guard said. Although the Fogg was only on the fringe of the season's seventh tropical storm, she was taking a beating from the winds.

Yanks Fly 16,000 Men To Europe

FRANKFURT, Germany (AP)—The vanguard of the transport planes in "Exercise Big Lift" landed in Germany tonight with the first of 16,000 American soldiers and airmen moving across the Atlantic in a historic demonstration of military mobility.

BERGSTROM AFB, Tex. (AP)—The Army and Air Force joined hands today in an historic demonstration of the United States' power to throw a quick fighting punch overseas.

The first of more than 200 air transports carrying the 2nd Armored Division to Germany in Exercise Big Lift left the runway at Bergstrom AFB near Austin at 11:57 p.m.

Minutes later other Military Air Transport Service planes took off from Gray AFB at Killeen, Connally AFB at Waco and Sheppard AFB at Wichita Falls with other troops of the Ft. Hood-based 2nd Armored and supporting units.

The airlift, largest in U.S. military history, continues until Thursday afternoon. Then the 2nd Armored will tangle with the 3rd Armored Division in mock nuclear war. The 3rd Armored, which plays the role of invader, is already in Europe.

As five troop-laden transports filled the air every hour from Texas bases, about 160 tactical planes were leaving from two bases in Maine—Loring AFB and Dow AFB.

The first to take off from Loring was a huge KC135 jet tanker of the Strategic Air Command. The tanker planes headed out to make refueling contact with supersonic F100s and F105s.

"The eyes of the world are on you," Gen. Paul S. Adams, chief of the strike command running the airlift of 15,000 soldiers and airmen, told the troops at Ft. Hood shortly before they boarded buses en route to the air bases.

U.S. officials have said the major aim of Big Lift is to demonstrate to this country's allies and to the Soviets an ability to reinforce swiftly the forces facing the Communists along the Iron Curtain in West Europe.

"We're ready to go," said Maj. Gen. Edwin H. Burba, commander of the 2nd Armored. The exercise is the largest long-range airlift of armed men in history. Its total cost is estimated at \$20 million, including payment for 6½ million gallons of fuel needed for air transports alone.

Burba estimated the transatlantic transfer of 14,000 division soldiers and supporting artillery and truck troops, plus 116 jet fighters and other planes with 1,500 airmen, would take 63 hours and 40 minutes.

Sea movement of the 2nd Armored and its more than 27,000 tons of equipment would take about four weeks.

A total of 202 transports carried the Army troops with 29 other planes stationed at various refueling points for use if air troop carriers should break down en route.

One-Eleven Crash Takes Lives Of 7

TISBURY, England (AP)—Britain's new pride of the skies, the One-Eleven short-range jet airliner, crashed in flames on a test flight near this small southwest England town today. Seven pilots and observers aboard died in the wreckage.

Several American air carriers have ordered 31 of the new planes which are scheduled to begin passenger flights in Britain late next summer.

The plane was designed to fly at 350 miles an hour over distances from 100 to 1,000 miles with accommodation for up to 74 passengers.

A spokesman at British Aircraft Corp. said the plane was the prototype of the one with which Britain hoped to capture the world's short-range jet market.

The first One-Eleven was successfully tested for a cheering crowd on Aug. 20 at Bourne-mouth.

The One-Eleven was scheduled to go into service late next summer for the British United Airways on its route to Genoa, Italy.

BAC said it already had orders for 60 of the craft from airlines around the world, including those from American carriers.

Yanks Eye Warming Trend In Diplomacy Of Cold War

WASHINGTON (AP)—U.S. officials expect the diplomatic fronts—both in the East and the West — to begin warming up again.

They feel that the relatively long period of calm during the limited nuclear test ban talks with the Soviet Union and during the changes of government in Britain and West Germany is over.

But no real drama is expected, nothing like the U.S.-Soviet crisis over Cuba a year ago.

Recent Events The truce on the cold war is believed here to have ended with this recent series of happenings:

Soviet troops blocking American and British convoys on the Berlin autobahn; the Soviet attack on the planned NATO multilateral force; and IZVESTIA's bitter comment on Exercise Big Lift, the U.S. experiment in transporting a whole division across the Atlantic by planes.

With the seeming end of the thaw, U.S. foreign policy experts figure the Kremlin will:

- Prod the West with tangible reminders that the Berlin issue is still alive.
● Seek opportunities to split the Western allies.
● Continue to seek understanding with the United States on pending issues, especially on minor ones.

More Complicated The more peaceful activities will consist of talks on a variety of topics, ranging from negotiation on purchases of wheat to disarmament.

The situation with the allies appears to be a more complicated one. It will be Secretary of State Dean Rusk's task to find out, and soon, what if any changes in foreign policy the new governments in Britain and Germany represent.

No dramatic changes are expected, officials here said, but there may be skirmishes between the allies on a number of issues. Officials pointed out that differences between the four major Western capitals are always more accentuated before NATO's ministers convene—the council is due to meet in Paris in December—and the Big Lift appears to contribute to existing misunderstandings.

Nuclear Fleet The Kennedy administration is still hoping that by early 1964 it will have a decisive answer from its allies on whether they want to go ahead with the multinational nuclear fleet, whether they have some other ideas or whether they want to scrap the plan.

Another problem is West Germany's concern that if Big Lift is successful — thereby proving the United States can swiftly reinforce Europe from bases in the United States—the U.S. force in Germany will be reduced.

State Department officials privately concede it will not be easy to convince Bonn that this is not the case. They blame remarks by Deputy Secretary of Defense Roswell L. Gilpatrick for stirring up the suspicion.

Concern, Confusion The Big Lift is expected to enable the United States to carry out "some shifts in the form of our military presence" in Europe, Gilpatrick said in a Chicago speech last Saturday.

The speech caused considerable concern in Germany — and some confusion in Washington. The State Department, it was learned, did not agree with this part of Gilpatrick's speech, but its objections were overruled by the White House. State Department officials insist there is no immediate plan for troop reductions.

The speculation about a possible reduction in U.S. forces got another boost Monday with the Army's announcement that its overseas units will be given more nuclear firepower.

Missiles, Warheads The Army said ground forces in Europe and the Far East will be equipped with additional units of Sergeant missiles, an improved type of Honest John rockets and more atomic warheads for eight-inch howitzers.

No Confidence "The parliamentary way out of this mess," said James, "is

to pass a resolution of no confidence in the dog. He would then be relieved of his duties."

He promised such action, probably next week. The chairman of the Teddington Young Liberals came vacant and "no one was prepared to fill the post," said the dog's owner, David Crawford, 22. "So for a joke, I nominated Bruno."

Duly Recorded "Bruno was democratically elected," Crawford continued, "and the appointment was duly recorded in the minutes. I'm terribly sorry if this has caused trouble."

Sales Tax Collections Sales tax collections for the quarter were \$117.8 million, a seven per cent increase over 1962.

Employment Spurs State Fiscal Health The latest intelligence information indicates there has been no Soviet effort to reintroduce offensive missiles or bombers. The Pentagon says the old missile bases "are still in a state of disrepair." There is no reason to believe, it is indicated, that strategic missiles are stored in caves.

Everything that moves in or around Cuba is under constant reconnaissance. The island is regularly photographed by U2s. The Navy maintains an air and surface patrol around the passages leading toward Cuba's ports. The Guantanamo naval base has been strengthened.

Missiles, Planes The Army has a Nike Hercules anti-aircraft missile battalion and two Hawk air defense missile battalions in the Miami-Homestead Air Force Base area and Key West regions.

A detachment of four F102 jet interceptors at Homestead has been increased to a squadron of 24 faster F104 jets.

More powerful radar air force is being installed at McCoy Air Force Base in Florida and a squadron of radar picket planes has been added.

U.S. authorities apparently believe the military threat from Cuba has been contained. But it hasn't been eliminated. Until . . . Until all Soviet forces are removed from Cuba, Secretary of Defense Robert S. McNamara said recently, they will be a "source of danger to the hemisphere."

Briton Hurt Seriously In Auto Crash

HEREFORD, England (AP)—Michael Foot, leader of the Labor party's left wing, improved slightly today but still was reported in very serious condition after an auto collision.

His wife, movie director Jill Craigie, also was injured in the crash Monday night but was reported in satisfactory condition. She had head and pelvic injuries.

# Two Proposed Changes To Charter May Go On Ballot

Two proposed amendments to the city charter may come before Marquette voters next spring.

One amendment would set up a municipal utilities board and the other would abolish the city's spring election and replace it with a fall election to coincide with the same change made in state elections under the new State Constitution.

The amendments would be the first since the city charter was adopted 12 years ago this month.

### Preparing Wording

City Attorney Waldo A. McCrea has been requested by the city commission to prepare the wording of the proposed amendments for the commission's study.

McCrea said that he expects to have the wording prepared for presentation to the commission by the latter part of November. He is now checking the sections of the charter which would require change.

If the commission approves the proposed amendments, they will be placed on the ballot in the April election. Amendments

to the city charter require approval by a three-fifths majority vote of the persons going to the polls.

The proposed amendments also would have to be approved by the Governor, city officials said.

### Would Be Elective Unit

The utilities board would be an elective body, similar to a board of education or a city commission. Three city services, the water department, the sewage disposal system and the light and power department, would come under the jurisdiction of the utilities board.

Almost all cities in Wisconsin and Minnesota, and many Michigan cities, including Lansing, Grand Haven, Zeeland, Holland, Wyandotte, Dowagiac, Coldwater, Bessemer, Marshall, Niles and South Haven, now have a utilities board, city officials said.

The proposal for a utilities board was brought up at last week's commission meeting by Commissioner Joseph Fine. The city attorney was directed to prepare the wording of an amendment on a motion made by Fine and seconded by Commissioner James R. Smith.

City Clerk Everett H. Kent has written to several Michigan utilities boards requesting copies of their charters and to the Federal Power Commission requesting a copy of a standard form charter.

Kent said that many Michigan cities are abolishing their spring elections and setting up a fall election to coincide with the state election.

### Biennial Vote Abolished

The new Constitution abolishes the biennial spring election for statewide offices and sets up a regular election for national, state, county and township offices on the first Tuesday after the first Monday in November of each even numbered year.

The state change to a fall election was largely motivated by a record of voter apathy for the spring election and a larger turnout for the November election. City officials point out that even fewer electors would turn out in the spring to vote only for city officers.

In addition, the reduction in the number of elections conducted would eliminate the cost of one election. It costs the city between \$1,000 and \$1,500 to conduct an election.

### Time Problem

Under the city charter, the city primary is now held on the third Monday in February (provided that the number of nominating petitions for city commissions filed is more than twice the positions available) and the regular city election is held each year on the first Monday in April.

If the amendment setting up the fall election were approved, the primary would be held in August and the election would be held in November.

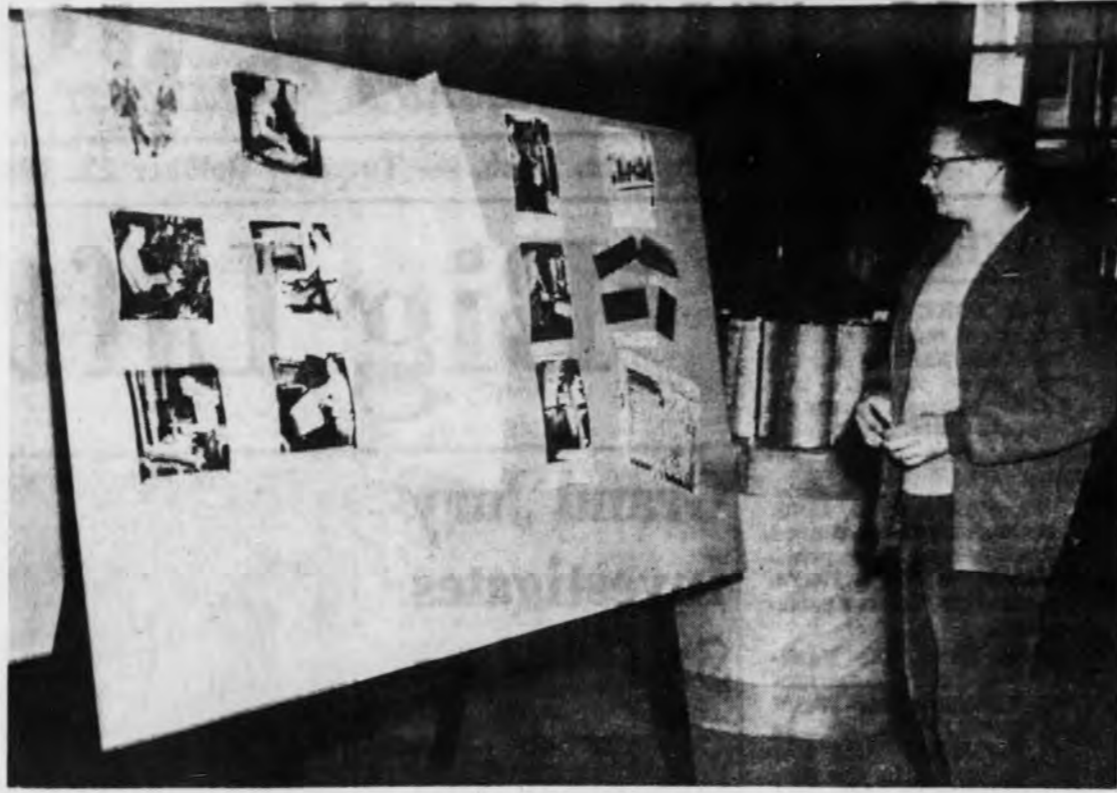

Kent pointed out that a complicated time problem is created by the timing of the spring primary and election. This problem would be eliminated in a fall election, he said.

## More Mild Weather Ahead Here

This area's unexcelled balmy October weather continued, with more mild weather ahead, following last night's rainfall.

During the night 17 of an inch of rain was measured here, the most for any period this month and the biggest amount since the 2nd. In fact, the month's total is only .37 of an inch, or an inch and a quarter below normal.

For the year, precipitation here totals 18.59 inches, more than seven below normal.

### Warm Front

It began raining here at 10:45 last night and continued intermittently during the night until 5:35 this morning. Meteorologist Fred Mueller said the rain was due to an approaching warm front.

Rainfall was general throughout the Upper Peninsula during the night, with amounts varying up to a half inch. Yesterday's extreme temperatures were 58 and 50, with the mean of 54 being eight degrees above normal. For October, the temperature has averaged 10.3 degrees a day above

normal, and this will be the warmest October in at least a half century here, barring an extreme cold spell before the end of the month.

It was expected to get near 70 this afternoon and tonight's low will be between 45 and 50. Tomorrow's high will be in the 70 range again.

Fair and mild weather is predicted for tonight and tomorrow with variable cloudiness and continued mild being the outlook for Thursday.

## City Native Dies In Army Hospital

William J. Haley Jr., 42, Watsonville, Calif., a Marquette native, died yesterday in Fort Ord Army Hospital, near Watsonville.

Mr. Haley was born in Marquette in April 1921. Following

graduation from Gravaer High School in 1939 he began a military career in the U. S. Army, serving in Korea, Japan and Europe. He retired from the Army five years ago as a warrant officer.

Survivors include his wife JoAnn; one daughter, Susan, and one grandson, all of Watsonville; his parents, Mr. and Mrs. William J. Haley Sr. of Marquette; his paternal grandmother, Mrs. Anna Haley of Marquette; a sister, Mrs. Wesley Dollar, Phoenix, Ariz.; a brother, Robert J. Haley, Marquette, and several aunts and uncles in Marquette.

Funeral services will be conducted in California.

## Chest Contributions Here Hit \$37,000; Goal Long Way Off

Contributions to the United Marquette Community Chest campaign now total \$37,000, "still a long way from the campaign goal of \$62,000," John C. Gerling, general chairman for the campaign, said.

Seven more groups have joined the "fair share club" of the United Marquette Community Chest.

The Chest's fair share club includes businesses, employees and other groups which contribute 100 per cent or more of their quota for the campaign.

The "fair share formula" is one-half hour's pay per month or six hours' pay per year, for the participating wage earners.

### New Members

New members of the fair share club are: First National Bank and Trust Co., 100 per cent; Automotive Radiator and Glass Co., 100 per cent; Longyear Realty Corp., 113 per cent; Dr. C. P. Drury and employees, 100 per cent; U.S. Department of Agri-

culture-Soil Conservation Service Area office, 105 per cent; Sperry & Hutchinson Co., 100 per cent; and U.S. Department of Labor-Bureau of Apprenticeship and Training, 250 per cent.

Gerling said: "One company, after receiving a report of the per cent it had reached of its suggested fair share gift, sent in a check for more than five times the original gift with the remark that the employees had not realized the number of agencies that are supported through a Community Chest gift."

"Forty-four agencies are supported by the United Community Chest. I believe that most companies and individuals would give at least \$1 to each agency if they were conducting separate drives.

"A gift of \$1 to the Community Chest campaign averages two and a fourth cents per agency, a gift of \$2 averages five cents per agency and a gift of \$25 averages 57 cents per agency."

### Our Own Bakeries Winner Of National Loaf Award

Our Own Bakeries, Inc., of Marquette has been awarded the Gold Loaf Award by the American Bakers Cooperative "for the consistent excellence of its Bunny Bread."

Announcement of the award was made at the annual meeting of the cooperative, held in New York City.

#### Nationwide Program

The award is given when a particular bread ranks high in all standards set by the American Bakers Cooperative. Among the standards are not only flavor and taste, but also grain, texture characteristics, color of crust, evenness of bake, symmetry, volume and characteristics of crust.

The Gold Loaf Award program is nationwide, and it involves a long series of tests of sample loaves, cooperative officials said.

Specialists in the bread-making field conduct these tests on a continuing basis, and only those breads which win a superior score over a substantial period of time become eligible for the Gold Loaf Award.

Bunny Bread won the Gold Loaf Award on the basis of its superiority in all the standards established by the American Bakers Cooperative, officials of the ABC stated.

Our Own Bakeries, Inc., is the largest bakery north of Chicago. The company employs 130 persons, 105 of them based in Mar-

quette. It serves all of the Upper Peninsula, most of Northern Wisconsin and a portion of Northwestern Wisconsin. The company does an annual business of approximately \$3 million.

In New York for the presentation to Our Own Bakeries were Sherwin M. Overholt, president of the company; Clyde W. Hecox, executive vice president, and Leslie J. Roberts, vice president in charge of Upper Peninsula sales for Our Own, all of Marquette.

INDIAN RIVER (AP)—Buckskin clad Marion Pearson, 61-year-old Grand Rapids hiker, covered the first 14 per cent of

his planned 385-mile walk down the I-75 freeway Monday. Pearson started just south of Rudyard, in the Upper Peninsula. He crossed the Mackinac bridge at 3:35 p.m. and reached Indian River at 7 p.m., covering about 35 miles.

He planned to stop at Gaylord—30 miles down the freeway—tonight on his way to Sylvania, Ohio. He expects to take 11 days for the hike, which is to dramatize the growth of the Mackinac Trail from a footpath to a non-stop superhighway.

Richard Campbell of the Mackinac Bridge Authority is accompanying Pearson in a station wagon.

Pearson received special permission for his hike along the superhighway, where pedestrians normally are prohibited. He plans to return from Syl-

## Kelley, Staffers In City Thursday For Law Officers Meet

An attorney general's conference on law enforcement will be held at Northern Michigan University on Thursday.

All Upper Peninsula law enforcement personnel, including sheriffs' officers, police officers, conservation officers, justices, county prosecutors and state police, are invited to the conference.

Attorney General Frank J. Kelley said that the conference

will bring together state and local law enforcement officers for the purpose of exchanging ideas and discussing mutual problems.

Prosecuting Attorney Edward A. Quinnell of Marquette, will address the group on the problems of local law enforcement.

In addition to the attorney general, speakers from the attorney general's office will be Assistant Attorney General Joseph B. Sullivan, criminal division, who will talk on "Laws of arrest," and Assistant Attorney General Thomas H. Healy, who will discuss consumer protection divi-

sion, "How to deal with frauds and cheats."

In conjunction with the law enforcement conference, Attorney General Kelley has called a noon "Dutch treat" luncheon "in an effort to urge local volunteers to combat juvenile delinquency."

#### Purpose Given

Kelley has asked representatives of Marquette County service clubs to attend the luncheon.

The purpose of the luncheon meetings is to weld together local service, fraternal and religious societies in an effort to shift our attention from the detection and punishment of crime to the preven-

tion of crime," the attorney general said.

**Foundation Speakers**  
Speakers on "Combating juvenile delinquency" at the luncheon will be two community development consultants associated with the Mott and Sears Foundations, Donald

Butcher and Edward Thorne. The luncheon and the conference will be held at the Northern Michigan University Center.

### NMU Helping Stage U.P. News Parley

Upper Michigan's annual Conference on Student Publications will be held at Escanaba Area Senior High School on Saturday, Nov. 2.

The conference, which is sponsored by the University of Michigan, with the cooperation of the Michigan Interscholastic Press Association and the assistance of the journalism section of the MEA District Convention and Northern Michigan University, will begin with registration at 9:30 a. m. and will conclude at 3:30 p. m.

Speaker will be Prof. Karl Zeisler of the U-M school of journalism. Staffs of high school newspapers and yearbooks from the entire Peninsula will attend.

**Discussion Topics**

Some of the topics to be discussed by the students and their advisers are: "Headlining for Yearbooks," "Dressing Up the Mimeographed Paper," "Newspaper Makeup," "Responsible Reporting," "Photography," "Improving Yearbooks," "Sports Writing," "Short Course for Reporters," and "Advisers' Huddle."

It is estimated that approximately 300 persons will attend. This conference is being held in conjunction with the Upper Peninsula Student Council Conference, also sponsored by the U-M, at Holy Name High, Escanaba, at which another 300 students and advisers will attend.

### Four Drivers Pay Fines In City Court

Four persons were ordered to pay fines and costs totaling \$78.90 by Judge Edward H. Dembowski in municipal court yesterday.

Joseph Yelle, 77, Sands, was ordered to pay a fine of \$25 and \$5.10 costs for leaving the scene of a property damage accident and a fine of \$6.30 and \$3.70 costs for failure to yield the right-of-way.

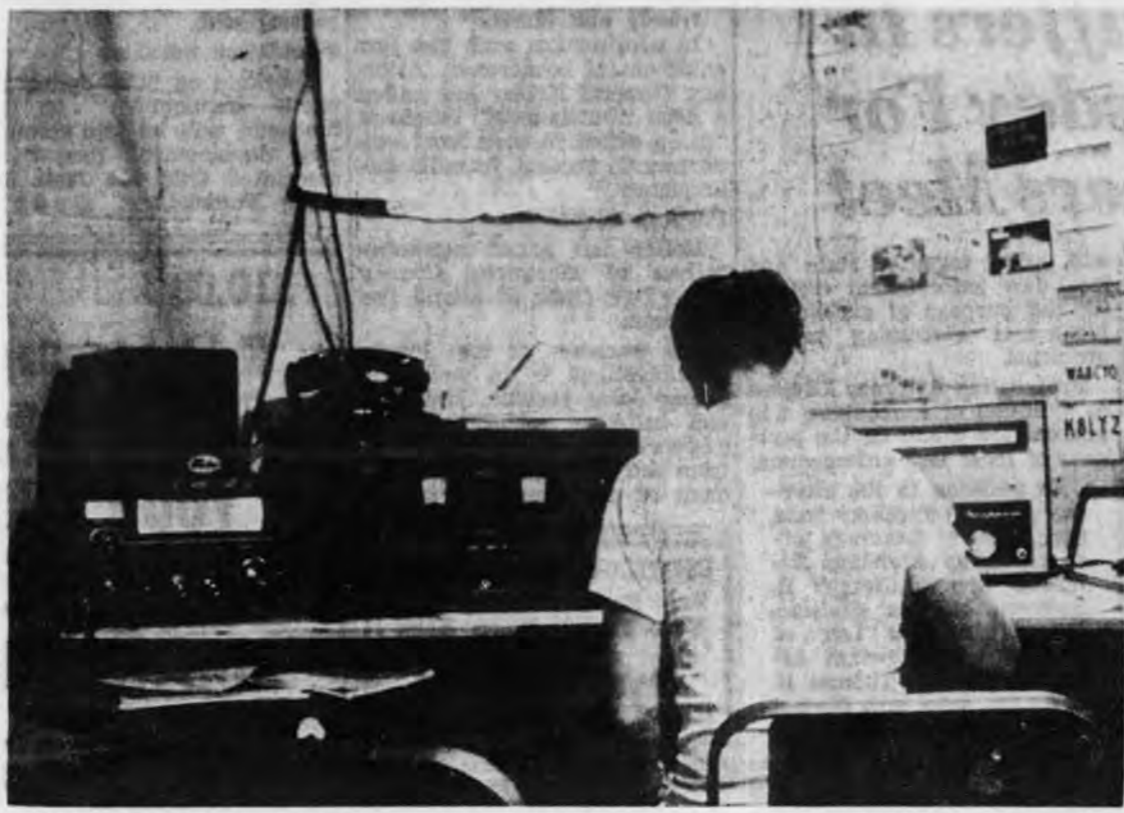

Alternative sentences were to spend five days in the Marquette County Jail for leaving the scene of a property damage accident and two days in the county jail for failure to yield the right-of-way.

City police arrested Yelle Friday following an accident on W. Washington St.

For failing to notify the secretary of state of a license transfer, Samuel J. Gardner, Waldo St., paid a fine of \$10 and \$3.70 costs. State police issued the summons Oct. 9 on U.S. 41 in the city.

For improper passing, Antonio J. Radelat, 405 E. Crescent St., was fined \$6.30 and ordered to pay costs of \$3.70. State police ticketed him Oct. 12 on U.S. 41 in Ely Township.

Fred J. Pleau, 205 Hawley St., was fined \$6.30 and ordered to pay costs of \$3.70 for making an improper left turn at the intersection of U.S. 41 and County Road 502 in Negaunee Township. State police ticketed him Sunday.

### Sea Scouts Take Part In 'Jamboree'

Sea Scouts of Marquette's Sea Scout Explorer Ship 303 participated in the annual Boy Scout Jamboree of the Air last Saturday at the radio shack of skipper of the ship, Donald Chinnery, 908 W. Magnetic St., Marquette.

Chinnery explained that the purpose of the jamboree was to permit Scouts, through amateur radio, to make contacts throughout the world, which will promote world fellowship through scouting by allowing Scouts in one country to talk with Scouts in another country.

"The Scouts explained to each other various activities in their units while they were on the air, and exchanged various ideas on scouting," stated Chinnery.

**Reach 14 Stations**

Contacts were made with four stations in Saskatchewan, Canada; one in Ontario, Canada; two in Texas; two in W. Virginia; three in New York and two in Pennsylvania, making a total of 14 stations being contacted while they were on the air.

Leaders besides Chinnery participating in the jamboree were Frank Summerset and Perry Laing. Besides these three were Robert Nollingsberg, James Reucker, Bruce Makinen, Frank Ross and Leonard Lawson, all Sea Scouts.

### Industrial Arts Group Tour Slated

Upper Peninsula high school industrial arts teachers, members of an industrial arts workshop, will tour the Mead Corp. plant in Escanaba Saturday.

The workshop group is led by Prof. K. A. Waitera, Northern Michigan University industrial arts department head.

At the Escanaba plant, G. S. Douglas, division manager for Mead Corp., will conduct the group through the plant and provide for a discussion session at the end of the tour.

**Members Listed**

Members of the workshop are: Arne Anderson, Grandville; David Dompierre, Ishpeming; Roy Johnson, Champion; John Altobelli, Escanaba; LeRoy Process, Negaunee; Cletus Chartier, Treenary; and David Lindstrom, Perkins.

The workshop group is currently exploring the facets of industry for the purpose of enriching the high school industrial arts curriculum.

### Politicos Eye Election In North Dakota

FARGO, N.D. (AP)—National leaders of both parties watched closely today as voters in 23 eastern North Dakota counties chose a congressman in a special election.

The result of the race between Republican Mark Andrews and Democrat John Jove is expected to provide a clue to electoral sentiment in farm areas.

Andrews, 38, rancher and former GOP national committeeman was a slight favorite in the traditionally Republican district. His political future was regarded as being on the line after

### Fines Levied For Theft, Littering

Fines for larceny and for littering were levied by Judge Edward H. Dembowski in municipal court yesterday.

Arrested by city police Saturday and charged with littering beer bottles on Lake Shore Blvd were Robert J. VanBemmelen, 242 Gries Hall, and William D. Meist, 108 Cary Hall.

Each paid fine of \$15 and costs of \$5.10.

**Charges Dismissed**

Liquor violation charges against two young men were dismissed by Judge Dembowski in municipal court yesterday.

A charge of furnishing beer to minors against Peter L. Whitton, 21, Houghton, and a charge of minor in possession of beer against Kenneth W. Calder, 18, Houghton, were dismissed on the recommendation of Prosecuting Attorney Edward A. Quinnell of Marquette.

The two young men had been arrested by state police Sept. 28 at a vacant farmhouse in Choccolay Township. Both appeared in court yesterday.

### Aid Cut Off For Special Diem Force

WASHINGTON (AP)—The United States is cutting off assistance to the South Vietnamese special force troops that led government raids against Buddhist pagodas.

They will get no more U.S. help until they are assigned to field duty against Communist guerrillas.

The action, announced Monday by the State Department, is a direct challenge to Ngo Dinh Nhu, brother of South Viet Nam President Ngo Dinh Diem and reportedly the behind-the-scenes ruler in Saigon.

# Rainfall Lowers High Forest Fire Hazard In Region

Rain yesterday and last night ended this area's forest fire danger, at least for a few days. Conservation officers said today that the burning index, which gives a numerical rating to the fire danger, will remain low at least until Thursday, even if strong winds and sunshine occur before then.

Rain fell throughout the Upper Peninsula yesterday and overnight. Largest amount of rain was in the Copper Country, with .55 of an inch recorded at Calumet. About a quarter of an inch fell in the Gwin area and lesser amounts of rain fell at the eastern end of the Peninsula.

**No New Fires**  
No new fires broke out in the Marquette area yesterday, and none has occurred in the Marquette area since Gov.

## Three Autos Damaged In Area Crashes

Three automobiles were damaged and a motorist was issued a ticket, but no one was injured, in a pair of area traffic accidents reported this morning by state police from the Marquette post.

No mishaps occurred in the city yesterday.

At 1:20 yesterday afternoon a car being driven west on U. S. 41 by Gertrude Velin, 39, Route 1, Negaunee, smashed into the rear end of a vehicle going in the same direction and operated by Earl Numinen, 56, Michigamme, a half mile west of County Road 502, in Negaunee Township.

**Speed Law Violation**  
State police said Numinen had driven out into the left lane to make a turn and Mrs. Velin said she thought he was pulling out to pass and came up behind him, with her car striking his.

The left front of the Velin car, a 1962 sedan, and the rear end of Numinen's automobile, also a 1962 sedan, were damaged. Both vehicles were driven from the scene under their own power.

State police ticketed Mrs. Velin for a speed law violation.

An automobile being driven west on County Road EJ by Dorothy Thomas, 30, K. I. Sawyer Air Force Base, struck some loose sand on a curve and went off the right side of the highway, striking a small tree.

The mishap took place at 3:30 yesterday afternoon, at County Road TP, in Forsyth Township.

The right front of the Thomas car, a 1960 sedan, was damaged and the vehicle was driven from the scene under its own power.

George Romney's proclamation banning smoking, camp fires and brush and rubbish fires in the woods went into effect last Wednesday.

Conservation officials attribute the Marquette area's perfect record during the period of extreme forest fire hazard to the cooperation of area residents and their awareness of the value of the Peninsula's forest land.

## Tech Gives Food Service Data Report

**HOUGHTON** — If it's true that an army travels on its stomach, then just as surely college students must study on theirs, according to Frank M. Harwood, director at Michigan Tech.

With the college well into the new academic year and facilities in full swing, Harwood took a long look at his 1962-63 operational summary.

He discovered, among other things, that the 51,400 loaves of bread purchased by self-liquidating last year — if stacked slice upon slice — would make 62 skinny piles as tall as the Empire State Building in New York. Or, the 216,000 eggs served during the year would make an omelet seven miles long.

In all, Harwood said, self-liquidating spent more than \$365,000 for raw food last year, and another \$318,600 for supplies and equipment. With payroll expenditures added in, the total operation came to more than \$1.2 million. Enrollment on Tech's Houghton campus last year was 2,765.

The department of self-liquidating operations has the responsibility for the operation of all campus food services, residence halls, the Memorial Union and all of its facilities and Dandell Heights, the housing unit for married students.

The term "self-liquidating" is just what it implies. The facilities are not built with state tax dollars, but instead are financed through bond issues. The bonded indebtedness is repaid over a period of years from income from the self-liquidating facilities.

Last year 91 per cent of the

money spent for raw food — some \$332,759 — went to local vendors.

These purchases included more than 51,000 loaves of bread, almost 18 tons of flour, 152 tons of potatoes, 74,000 gallons of bulk milk, 7,800 pounds of butter, 3,000 pounds of cottage cheese, 4,200 pounds of assorted cheeses, almost 19 tons of sugar, 390 gallons of pancake syrup, 6,200 gallons of ice cream, 33 tons of beef, 2,300 pounds of bacon, five tons of ham, almost 10 tons of pork loins and 9,000 dozen eggs. Another 9,000 dozen eggs were purchased from non-local sources.

**Employs 138**  
Of the expenditures for supplies and equipment, which included textbooks for the bookstore and medical supplies for the student health service, approximately 35 per cent or \$111,529, was spent locally.

The self-liquidating department is also a big industry from the standpoint of number of people employed. The department has a full-time staff of 138 people and employs many students on a part-time basis.

Total payroll for last year was more than half a million dollars. This included approximately \$70,000 for part-time student help and more than \$490,000 for full-time employees and non-student part-time workers.

## Wisconsin Fugitive Held Here

Albert J. Gerou, 35, Sands, an escapee from the Kenosha (Wis.) County Jail, was arraigned before Judge Edward H. Dembowski in municipal court yesterday on a fugitive warrant.

Gerou was arrested by Marquette State Police Saturday. He escaped Aug. 17 from the Kenosha County Jail, where he was serving a four and a half month sentence for convictions of drunk driving and driving with a revoked license.

He was sentenced to the Kenosha County Jail July 30. Gerou, a former Marquette State Prison convict, did not post bond, set at \$500 yesterday, and he is being held in the Marquette County Jail pending an extradition hearing Nov. 21 in municipal court.

## Parochial Schools Hold Workshop Here On Mental Health

Parochial school teachers of Marquette County held a school workshop on mental health yesterday in St. Peter's Grade School all-purpose room, Marquette.

Sponsored by the State Mental Health Department, under the direction of Robert Drew, educational consultant, with the educational division of the department's Escanaba office, the day-long program featured Dr. R. R. Cameron, medical superintendent, Newberry State Hospital, as the main speaker.

Approximately 80 parochial school teachers, representing Bishop Baraga Central High School, Marquette, and St. Paul's High School, Negaunee, and the grade schools of St. Peter's, St. John's,

St. Michael's and Holy Family Home, Marquette; Sacred Heart, Munising; St. Paul's, Negaunee; and St. John's, Ishpeming, were present for the opening remarks by the Rev. Glen G. Weber, superintendent of Bishop Baraga Central High School, followed by Dr. Cameron's address, on "Children with Emotional Problems."

The latter part of the morning session consisted of a panel discussion entitled "Helping the Child in School with His Emotional Problems," moderated by Dr. Wilbert Berg, head of the department of psychology, and guidance, Northern Michigan University, Mar-

## Financial Scene: Teen-Ager Business Factor Cited

Ed. Note — Teen-agers, the fastest growing segment of the population, have emerged since World War II as a dynamic factor in the economy. This first of two articles tells the size and impact of their multibillion-dollar purchasing power.

BY JACK LEFLER  
AP Business News Writer

NEW YORK (AP) — There's gold in those blue jeans pockets. Teenagers have billions of dollars to spend.

The market they make up is phenomenon of modern merchandising.

Merchants who were in the habit of lusting youngsters' spending with that of the family are going all out to cater to their widely diversified needs and desires.

**Independent, Expanding**  
They realize now that the teen-age market is independent and expanding rapidly.

It is estimated that there are 11,065,000 teen-age girls in the United States and that there will be 13,116,000 by 1970.

They have \$6.3 billion a year of their own to spend.

There are more than nine million boys 14 to 17 years old—"teen-men," the storekeepers like to call them.

These youths have an estimated \$16 billion of expendable income.

**To Be 40 Per Cent**  
The increase in the U.S. population between 1960 and 1970 is estimated at between 12 and 22 per cent. But the number of youngsters in the free-spending 15-to-19-year-old segment will spurt more than 40 per cent.

"Until after World War II business had never shown much interest in the young woman under 20—in fact no one did except teen-age boys," says Enid A. Haupt, editor of Seventeen magazine, a publication for girls.

"In just this short span of time teens have catapulted into the economic limelight, their pockets bulging with dollars to spend, their spirits filled with the desire for new things, new experiences, new loyalties.

"They have become a separate and distinct group in our society—they're the new frontier of the economy—they're the unexpected bonanza for industry."

The boys represent an even bigger market than girls as far as their own money is concerned. That's because many pad out their allowances from the family with jobs after school and on weekends.

**Conscious Of Brands**  
Young buyers are highly conscious of brand names promoted in advertisements, marketing analysts have found.

The teen-age market is wide open to the alert advertiser, says Eugene Gilbert, president of Eugene Gilbert Co., research and survey organization.

"Teen-agers are a follow-the-leader group," he adds. "They are more susceptible to advertising than any other age group."

**U. P. Prep Council Sets Nov. 2 Meet**

Approximately 300 high school students and their advisers will attend the annual Upper Peninsula Student Council Conference which will be held in Holy Name High School, Escanaba, on Saturday, Nov. 2.

This conference is sponsored annually by the University of Michigan. Speaker at the conference will be Dr. Donald Weaver, Western Michigan University, Kalamazoo, who has had considerable experience as a high school principal and has worked with student councils and student council members for a number of years as a former member of the U-M's bureau of school services.

**Topic Noted**  
The conference will begin at 9:30 a. m. and will conclude at 3:30 p. m. Major discussion topic will be "Student Council Responsibility in the Area of Civil Rights and Student Responsibility for the Education Wel-

## Small Game Hunters Out In Force

(By the Associated Press)

The same warm, dry weather that created Michigan's fire hazard conditions brought out a record number of hunters for the opening of the small game season Monday — and no fires were reported.

There were other problems, though, as more than 250,000 hunters took to the fields. Three injuries were reported, police received several trespassing complaints, and dry conditions made it hard for dogs to locate birds.

Michael Eaton, 15, of Petoskey underwent emergency surgery at Petoskey after being struck in the legs by a blast from the shotgun of his brother, Bill, 17. The brothers were unloading their guns after bird hunting.

**Girl Hit In Legs**  
Lonnie Cunningham, 38, of Toledo, Ohio, were treated for pellet wounds of the left eye received in Monroe County when a shot by another hunter ricocheted.

Sandra Clayton, 4, of Jackson, was struck in the leg by shotgun pellets as she played in the backyard of her home. Jackson County Sheriff's deputies said Chet Williams and William Miller, both of Jackson, fired at a pheasant at the same time and pellets from one of their guns apparently struck Sandra.

In Washtenaw County, sheriff's deputies said one hunter's gun was confiscated after pellets from it struck a store in Salem Township. A county resident said sheets on her clothesline were shredded by a shotgun blast.

**Shooting Average**  
A poll of 56 pheasant hunters

showed a shooting average of less than one bird for each four hunters. Last year, despite a heavy rainfall, the shooting average was one bird for every 2½ hunters.

In Monday's poll, 80 per cent of the hunters said they saw fewer birds than last year and 15 per cent said they saw more.

The State Conservation Department credited "excellent cooperation on the part of a fire-conscious public" for holding down fire damage in Michigan.

The department said 483 acres were burned by field and forest fires last week—160 fewer than were scarred by fire in the previous week.

**1,200 Fires**  
"So far this year, nearly 1,200

fires have blackened about 7,000 acres throughout Michigan," said Milton M. Bergman, state forest fire chief.

The weather bureau predicted some relief from the dry spell over most of the state Tuesday in the form of scattered showers.

## New Records Compiled By North Central

North Central Airlines reported today that it set new passenger, cargo and performance records during September, making the first nine months' traffic the greatest in the carrier's 15-year history.

The previous high marks for September and for a first nine months' period, both made last year, were topped by substantial gains in 1963.

Passengers: up eight per cent to 106,066 for September, and eight per cent to 914,716 for first nine months.

Revenue passenger miles flown: six per cent increase for September to 17,879,497 and up six per cent to 153,500,197 for first nine months.

Freight ton miles: up 17 per cent to 120,371 for September, and 24 per cent increase to 886,830 for first nine months.

Express ton miles: increased eight per cent to 75,805 for September, and 10 per cent to 548,188 for the nine months.

**Almost Perfect Mark**  
An almost-perfect perform-

ance record of 99.9 per cent was set in September when 1,163,429 of the airline's 1,164,845 scheduled miles were flown. Of the 14,284 scheduled flight arrivals in September, 86.6 per cent of these were on time.

"For 14 consecutive months," said Frank N. Buttomer, North Central vice president-traffic and sales, "each month has broken its own passenger-boarding record. We are well on the way to our fourth consecutive year of boarding more than one million passengers annually."

North Central serves Marquette, the county and 90 other cities in 10 states and Canada over a 7,000-mile route system. Since inaugurating service in 1948, the airline has carried 8,408,000 passengers and flown 1,364,000,000 passenger miles without a single injury or fatality to passengers or crew members.

## GOP Senate Candidate Visits Here

Edward A. Meany Jr., Grand Haven, the only announced Republican candidate for the U. S. Senate next year, was in Marquette County yesterday and early today on a pre-campaign tour.

Meany is spending 10 days in the Upper Peninsula on a pre-campaign swing. He is visiting party leaders, news media, plant gates, mine officials and organizations and meeting people "wherever I can," he said.

Meany made a similar excursion during a week in July 1962. On that trip he visited all 15 counties on a budget of \$50 by sleeping in his station wagon (which now has over 95,000 miles on it) and "eating off the tailgate," as he puts it. His budget is a lot healthier this year.

### Announced Over Year Ago

Meany announced his candidacy in January 1961 and actually has been campaigning ever since. He is now on a leave of absence from his com-

pany and devoting full time to winning the nomination and election.

He graduated from Harvard University in 1948 and the Harvard Business School in 1950. He has worked in the steel mills of Pittsburgh and put in 12½ years with the Eagle Ottawa Leather Co., of Grand Haven as salesman and sales promotion manager.

The Meany's have nine daughters.

## Rahoi Delays Senate Action On Tax Bills

LANSING (AP) — Two Democrats flung a surprise obstacle into the path of Gov. George Romney's fiscal reform program Monday, invoking an overlooked rule in the Senate handbook.

Sens. Stanley Rozycki of Detroit and Philip Rahoi of Iron Mountain stunned Republican leaders by calling on a requirement that certain bills go to the appropriations committee.

The first bill they named was Romney's income tax bill, the heart of his "jobs and justice" program which Thursday was

freed from the Senate Tax Committee.

### 'Cowardly'

Romney's floor leaders jumped to their feet with a handful of motions, and when the parliamentary smoke cleared, action on the Democrats' question was put off until today.

"I think it's cowardly to attack Romney's program by refusing to let it see the light of day," said Senate GOP leader Stanley Thayer, R - Ann Arbor, who is responsible for piloting the program through the Senate.

Rozycki and Rahoi quoted a Senate rule saying "every bill appropriating money, when reported back to the Senate favorably by another committee, shall be referred to the committee on appropriations."

The committee has seven Republicans and three Democrats, including Rozycki and Rahoi, both of whom are on record against Romney's program.

Thayer said his next move

would be to see if he could get 21 votes — the three-fifths majority needed to suspend the rule. Monday night, only 18, the simple majority required, voted for the postponement asked by Romney's leaders.

### Blessing In Disguise

Sen. William Milliken, R-Traveler City, GOP Senate floor

leader, speculated the Rozycki-Rahoi move could be a blessing in disguise.

"If we've got the votes in that appropriations committee we could get the proper amendments put on there and then get it voted out again," Milliken said.

The commitment question in-

volves 10 bills, five of them parts of Romney's program.

## Mackinac Bridge Fees

The Mackinac Bridge at times seems to have more counselors than users. Nearly everyone seems to have an idea about how to increase traffic over the big suspension bridge between the Peninsulas of Michigan at the Straits of Mackinac.

One of the most popular suggestions is to cut the bridge fees, which start with \$3.75 for a private passenger car.

The preliminary report by Robert Nathan Associates economists on their study of U. P. transportation for the Upper Peninsula Committee on Area Problems (UP-CAP) says that cutting Mackinac Bridge fees won't help the U. P. The bonding compact controlling the bridge fees won't permit their reduction if they imperil revenues, but even if it didn't apply, say the economists, fee cutting would be helpful only on a selective and limited basis and would tend to unload on the taxpayers of Michigan more of the burden for payment of the bridge now being borne by visitors.

Joseph Revis, senior economist for the technical assistance staff provided by the Area Redevelopment Administration for UP-CAP, explained "In 1962 the bridge had revenues of about \$5 million at an average rate of about \$4 per vehicle. If the fee were cut to \$2, the traffic would have to be doubled to get the same income. That's not going to happen, given the nature of the traffic using the bridge today.

"There may be social reasons for reducing the bridge tolls," said Mr. Revis, "but there are not acceptable economic ones. Most of the bridge users are not susceptible to rate cuts." He explained that bridge's greatest service is an access facility to the Upper Peninsula for summer tourist and resort traffic and that tourist volume will not be sizably influenced by the toll, as it is an incidental expense of travel and neither a strong attraction if small nor a major deterrent in its present size.

Mr. Revis says the transportation study will suggest that there might be rate cuts for small groups of people in special usage categories, like local traffic, and especially commercial traffic.

The bridge was sold to the state for prospective benefits which included improved commercial ties between the Peninsulas of Michigan.

The prospective commercial traffic has not developed in hoped-for volume. Revis suggests that a study of the nature of the present commercial traffic, its origins, commodities and destinations should be undertaken as a means of developing more commercial traffic. Without knowledge about the nature of this traffic it is impossible, he suggests, to plan for its growth or to make a rational rate structure for it, because obviously a truck crossing the bridge in a trip from Newberry to Cheboygan should not be treated like one enroute from Ironwood to Miami.

The transportation study report should be a starting gun for Peninsula planning for more traffic for Big Mac. It's a huge benefit to the Upper Peninsula as it stands, with its present rates, but clearly its full potential for economic aid is not being used.

The transportation study has concerned itself only, apparently, with the responsibility for meeting the bridge's fixed expenses, but these could be reduced, permitting a corresponding reduction in fares, if the state were to refinance the obligation as one guaranteed by the full faith and credit of the state. This was projected from first planning of bridge financing and should get accelerated attention. If more traffic can be induced the inclination of the state to refinance the bridge will be enhanced.

The old Franklin School in Escanaba is coming down under wreckers' blows to clear the site for a new school. The school not only was a handsome old red brick structure but a historic one for Escanabans. Three generations went to school there in the 80 years the building was in use. When the school was opened in 1882 it served as both a high school and elementary school. There were no organized activities under auspices of the school. Baseball was played during a 15-minute recess and later football was added as a sport, while music became a part of the school's program.

William T. Zivic, former Ironwood resident, is gaining recognition as an artist at Tucson, Ariz., where he is now employed as a patrolman in the city's police department. Zivic's ambition is to attain fame as a western artist and, according to a story in the Tucson Daily Citizen, stands an excellent chance of achieving that goal. Art always interested Zivic, 33, and he drew rough sketches just for the fun of it for years. He really didn't get started as a painter until mid-1962, but since then has completed more than 100 paintings and has sold more than 50 of them for prices ranging from \$10 for watercolors to \$300 for oils.

Bids were opened in Lansing for construction of a new classroom-laboratory building to be constructed on the Sault campus of the Michigan College of Mining and Technology. Low bids amounted to \$623,945.

An oil pipeline inspection program has been under way the last seven weeks by scuba and deep-sea divers who carried television cameras deep into the Straits of Mackinac to film the Interprovincial-Lakehead pipeline crossing of the Straits. The underwater inspection was carried out within sight of the Mackinac Bridge that spans the four-mile Straits to Join Upper and Lower Michigan. On the strength of the initial inspection, the pipelines appear to be in good condition, but detailed examination of the film remains to be completed. The filming operation was carried out in two phases. Scuba divers were used to film the pipe in shallow waters while deep-sea or "hard hat" divers were used in depths greater than 100 feet. At its greatest depth the pipes lie 250 feet below the surface. The divers swam or walked along the pipe with closed-circuit underwater television cameras constantly aimed at the pipes. On deck of a 48-foot tug, two TV monitors were set up in a darkroom where an engineer and technician viewed the pipe and a special 16-mm. movie camera made a permanent record of the picture.

## HIGHER FLOUR PRICES? WHY?

The proposed sale of American wheat to the Soviet Union is being advanced as a reason for possibly raising flour and bread prices. Certain millers and bakers are talking as if a price hike is inevitable next year. Their argument seems to be that as demand for our wheat grows, flour and bread will automatically become more expensive.

The trouble with this argument is that even with the possibility of record exports in the coming year the United States will still have nearly one billion bushels of wheat on hand next July 1, before farmers harvest the 1964 crop. A carryover of that amount would be sufficient alone to meet domestic demand for wheat for 20 months.

Domestic demand for wheat has been remarkably stable. Wheat consumed in food products in the United States this year will be nearly the same as it was 30 years ago. Consumers, with rising disposable income, have steadily replaced wheat in their diets with increased quantities of meat, processed fruits and other items. As a result, per capita consumption of wheat has dropped sharply during the same time period in which population increased 50%.

It may be true, as some trade journals contend, that flour mills and bakeries generally have experienced shrinking profit margins in the last year or so. They may consider it justifiable to widen those margins by boosting prices. But they would not be justified in blaming the Soviet wheat transaction for any increases. And the sale to Russia should not be made the scapegoat for any adverse consumer reaction that could result.—(Milwaukee Journal)

## The National Whirligig News Behind The News

By ANDREW TULLY

WASHINGTON — Ho-ho-ho and twenty-three skiddoo is what I say to that report of the President's Commission on the Status of Women, which demands a "sweeping" program to improve the lot of our 94 million assorted dames. You go improving their lot any more and all American males will run away from home and seek their fortunes in Somalia.

A woman may not be Nature's noblest creation on account of their is something

called a dry martini, but being a girl in the U.S. is a sweet rocket. It is a life of sweet dependence, with independence thrown in. That is, a doll with a passable face can write her own ticket as to how she wants to be treated by a man. One day she can have the guy fetching and carrying for her and the next she can tell him to go fly a kite and announce that she will, too, take that job as private secretary to Richard Burton.

They talk about having equal

rights with men, but it's the men who are being short-changed. A woman has the right to vote and run for office and take four hours to dress and get loaded at the neighborhood bar, but she also has the right to be protected by some male if she gets in trouble. No bread has ever punched anybody in the nose for me.

Likewise, women demand freedom of speech and want in on every discussion, regardless of their paucity of information on the subject. But let a male gently point out that she is talking rot and that is a male she will never speak to again as long as she lives.

## Great Weapon: Tears

A guy sees a pretty girl and makes a pass. His chances are real good of getting slapped in the face and possibly arrested. A dame makes a pass at a guy and even if he's not interested he is barred from committing even minor mayhem because his attacker traces her lineage back to Adam's rib.

## Joint Account

A woman can be silly about money matters and unable to resist a darling little 'ol hat which is a steal at \$896.99. That's because she's a cute little ball of fluff and is not expected to be practical lest it destroy her femininity and endanger her wardrobe. But the average wife has total recall of that two bucks her husband blew on a goat at the local horse track in 1949 and still is apprehensive out loud that his extravagance will land them in the poorhouse.

## President Kennedy, of course,

has to sound interested when those girls on his Commission on the Status of Women whimper about the female's plight in this cruel world. But as a male, he knows as well as the next husband that there is no better deal than to be born a female played. It is a sex that can play any role it chooses—a sex that must be taken care of by the male, but only on the female's terms. Women are the lucky stiffs of Creation, and yet I do not believe I will switch sides. I like girls.

## Too Slow On Atom Force

By PETER EDSON

WASHINGTON —(NEA) — The gag in Washington now is that the United States may have to work out a nonaggression pact and disarmament agreement with the Russians because it's impossible to get agreement with America's North Atlantic Treaty allies on the defense of Europe against Russian attack.

But the Kennedy administration is making still another try at getting NATO to accept the multilateral force — MLF — concept for the nuclear defense of western Europe.

Most notable thing about talks on this just resumed in Washington and Paris is that the French are not taking part. British, German, Dutch, Greek and Turkish representatives are sitting in. President De Gaulle wants none of it.

The Paris talks are political and financial, between permanent mission representatives to the NATO council. Ambassador Thomas K. Finletter is U. S. spokesman. The Washington talks are technical and strategic, among military experts at the Pentagon.

## French Striking Force

French absence is highlighted by announcement from Paris that France now has its own nuclear striking force. It is small compared to the British force and infinitesimal compared to the American. The French have only plutonium — not hydrogen bombs. And no one is sure just how operational are the six Mirage IV bombers supposed to deliver them.

This new French nuclear "force de frappe" is therefore characterized as being able to start a war but not finish it. That is its danger to the peace of the world.

It is a sop to De Gaulle's ambitions for an independent atomic capability. It gives him a further excuse to stay out of a European MLF under NATO.

De Gaulle's possession of this force is not expected to change the U. S. bargaining position on MLF. But it might influence the thinking of other NATO allies.

## Atmosphere Of Relaxation

As a result of the nuclear test ban treaty with Russia there is said to be a general atmosphere of relaxation in Europe. Also, MLF is going to cost a lot of money which some countries don't have and none wants to spend. And there is considerable political instability in the air.

Dr. Konrad Adenauer has just resigned in Germany. New Chancellor Ludwig Erhard still has to state his policies, though he is expected to continue reliance on American nuclear protection, rather than French. The British Conservative party is changing leaders following resignation of Prime Minister Harold Macmillan. British elections are likely in early 1964.

If the Labor party wins, its leader Harold Wilson has said he would "de-negotiate" the Nassau agreement to accept U. S. Polaris missiles for the defense of Britain.

The present Italian government favors the MLF idea and wants in. But if a more leftist coalition takes over government, this policy might be changed. Greece and Turkey want in for prestige but could not pay their way.

The Kennedy administration wants to push the MLF plan for its own prestige reasons. Whether anything concrete will be ready for presentation to the NATO Council of Ministers in Paris the first week in December is doubtful.

MLF was originally conceived by the Eisenhower administration, not only to strengthen Europe's defenses but also to improve the U. S. balance of payments position.

## Secretary of State Christian A. Herter at the December 1960 NATO council meeting offered to sell Europe five nuclear submarines with Polaris missiles.

At the Oslo council meeting in May 1961 Secretary of State Dean Rusk announced the Kennedy administration would follow through. He asked the European countries to prepare their own plan. They were never able to agree.

Subsequently the Pentagon revised the plan to put Polaris missiles on surface vessels manned by multinational crews. This is still the favored plan.

The hope is that if it can ever be submitted to the NATO council, France will not veto it under the unanimous approval requirement but will abstain from voting. This would allow other European countries to go ahead with it.

## Rights Push Aids GOP

By BRUCE BOSSAT

WASHINGTON (NEA) — One of the genuine puzzlers for 1964 is the extent to which President Kennedy and the Democratic party may suffer defections from among the minority groups which have helped provide smashing big city Democratic victories for 30 years.

At this stage, short of any election test, the threat of some defections seems real. Reports multiply that in considerable elements of the white urban — and occasionally suburban — population are angry over the Negroes' big civil rights push in 1963.

### SCIENTISTS AND ECONOMY

A survey made by the National Science Foundation shows that 500,000 Americans are working as scientists, a million are engineers, another million are technicians and 250,000 are teaching mathematics in secondary schools. The groups, according to the report, comprise 3.6 per cent of the civilian labor force in 1963 as compared with 1.5 per cent in 1940. By 1970, NSF expects, the percentage will rise to 4.7.

More than three-fourths of these people, with exception of secondary school teachers, are working in defense industries and research, in the military services and for the National Aeronautics and Space Administration and aerospace industries. But all this has diverted scientific manpower from other national fields. Dr. Jerome Wiesner, director of the White House's Office of Science and Technology, has several times warned that this diversion is causing the United States to fall behind Japan and European countries which are channelling more technological resources into commercial production.

While neither national security nor the aerospace field can be neglected, it is also true that if this nation falls behind economically the results could be disastrous. Ways of aiding the civilian need for trained manpower are not hard to find. There could be more efficient sharing of Government research findings with industries, stimulation of university research and training and a closer watch on unnecessary hoarding of talent by defense and aerospace companies. Unless such steps as these are taken, civilian sectors of the economy are likely to suffer heavily.—(St. Louis Post-Dispatch)

### Break In 1952

For nearly 20 years that allegiance was generally unwavering. The Italians, the Negroes (in 1936 and thereafter) and other minorities swelled the frequently irresistible Democratic urban vote totals.

The year 1952 produced a substantial though not severe break in the ranks. The Korean war, falling heavily on large Italian and Slavic families with many sons of draft age, was deeply unpopular with these groups. They turned in important numbers to support Gen. Dwight D. Eisenhower. Many stayed with him — and others joined the turn—in 1956 He was viewed as a guarantor of peace.

But 1960 was another story. Eisenhower was gone from the ballot. Luring these heavily Catholic peoples back to the Democratic fold was a Catholic party nominee, John F. Kennedy. He won 28 out of the 40 biggest cities, sweeping wide through the minorities. Republicans quickly undertook a sober study to figure how to woo at least some of them back.

The question now is whether the great civil rights struggle of 1963 may not have done more for the GOP in this regard than they could ever have done for themselves.

Polish descendants in such cities as Chicago, Detroit, Cleveland and Pittsburgh. In Philadelphia, Irish and Italian elements—checked in surveys—are said to be complaining bitterly.

Generally speaking, the resentment is found to be sharpest among those people who are closest to Negroes in the economic scale.

The competition for jobs, and job preference, is recognized as growing keener as efforts are made to advance the Negroes' lot.

The Irish, of course, have been with the Democratic party for long decades. The big new increment to the party in the 1930s came from the Poles and other Slavic peoples. Second generation families, coming of age as voting citizens for the first time, formed a key part of the fabled "Roosevelt coalition" of that era.

For nearly 20 years that allegiance was generally unwavering. The Italians, the Negroes (in 1936 and thereafter) and other minorities swelled the frequently irresistible Democratic urban vote totals.

The question now is whether the great civil rights struggle of 1963 may not have done more for the GOP in this regard than they could ever have done for themselves.

The rumblings of white "national minority" discontent are real enough. But their size and depth have not been measured.

The first major test of any consequence comes next month in Philadelphia's mayoralty election, when Democratic avenger, when Democratic Mayor James Tate runs up against young, personable James McDermott, Republican. Defeat or even a fairly close squeak for Tate in a city which can produce massive Democratic majorities would be a powerful indicator of trouble ahead for the President in 1964.

The Friendly Frills Home Extension Group will meet tomorrow at 7:30 in the home of Mrs. William Lambert. Dues may be paid at the meeting.

### Homemaking Tips

When you are popping corn for youngsters, add salt and butter as usual, then put aside a portion for the oldsters and sprinkle that with paprika and grated Parmesan or Romano cheese. Serve at once!

When you are planning on popping about three quarts of corn for a small-fry party, have about half a pound of peanuts on hand to mix with the popcorn.

Spread lightly toasted bread with deviled ham and pickle relish; top with sliced cheddar cheese and broil until the cheese begins to melt. Great for snacking!

Canned baked beans are extra good with a pinch of dry mustard added before heating.

If you have trouble rolling up thinly sliced sandwich bread —

### Open Pair Bridge Event Planned For Nov. 2-3

Trophies will be awarded to the first and second place winners. Reservations may be made with the secretary, Mrs. Bernard Schmeltzer, 511 Rock St., Marquette (CA 6-3972) by Thursday, Oct. 31. The tournament director is Alvin P. Wendt of Marquette. Registration for the Saturday night session is Nov. 2 at 7 p.m.

### Basic Fudge Made Into Two Layers, Flavors

By CECILY BROWNSTONE Associated Press Food Editor. If you're interested in reviving the art of homemade candy making, we recommend this recipe to you. In this rule, a basic fudge is made into a new two-layer, two-flavor affair. When we served the candy at our house, it was enthusiastically acclaimed.

#### Two-Layer Fudge

1 recipe Chocolate Fudge  
1 recipe Blonde Fudge  
Prepare chocolate and blonde fudge by recipe below. Pour chocolate layer into pan. Prepare blonde fudge and pour on top. Chocolate fudge layer may be cold; or blonde layer can be poured on before chocolate layer is cold, if two people are making batches. Cool at room temperature. Cut into squares. Makes about four pounds.

#### Chocolate Fudge

3 cups sugar  
3/4 cup milk  
3 tablespoons butter or margarine  
2 tablespoons light or dark corn syrup  
2 ounces unsweetened chocolate  
1 teaspoon vanilla  
1 cup coarsely chopped walnuts or pecans  
Combine sugar, milk, butter, corn syrup and chocolate in heavy three-quart saucepan. Cook over medium heat, stirring constantly, until mixture boils. Then, cook stirring occasionally, until temperature reaches 238 degrees on a candy thermometer, or until one teaspoon of mixture dropped into one cup of very cold water forms a soft ball that flattens on removal from water. Remove fudge mixture from heat. Add vanilla. Cool to lukewarm (110 degrees). Beat until fudge begins to thicken and loses its gloss. Stir in nuts. Quickly pour into greased eight by two-inch pan. When cold, cut into squares. Makes about two pounds.

Blonde Fudge: Follow recipe for Chocolate Fudge, omitting chocolate and increasing corn syrup to three tablespoons and vanilla to two teaspoons.

### VFW Auxiliary To Hold Rummage Sale Saturday

The Veterans of Foreign Wars Auxiliary of the Williams-Beerman Post, Big Bay, are planning a rummage sale for Saturday in the Presbyterian Church basement. The rummage sale will begin at 1 p.m.

Coffee and Cake will be served during the sale.

### Hallowe'en Party Planned By Citizens Group

The Young Citizens Club will sponsor a Hallowe'en party at the Veterans of Foreign Wars Post in North Lake on Sunday at 7:30 p.m.

Anyone between the ages of 18 and 23, or high school graduates are invited. Prizes will be awarded for the best costume, although costumes aren't necessary. Games will be played and refreshments will be served.

### Oregon College Casts Gustafson In Production

David Gustafson, Marquette, has been assigned a role in the Tennessee Williams play "Summer and Smoke" at the University of Oregon's university theater in Eugene, Ore.

A delicate drama, the set is a small town in Mississippi at the turn of the century. The play deals with young people and their faithfulness to their unsophistication. The arena-staged production will play for two weeks.

ed on a fixed compass, which tells me the direction. Then I radio nearby towers to take a sight.

"By running strings along the compass readings from my tower and the other, I can pinpoint the smoke on the map and also see which road our fire trucks must take to reach the spot. Or have the state forestry planes sent out."

Time Never Drags Mrs. Shubert became interested in fire spotting through her husband, who worked many years ago with the forestry department.

Time never drags at her work, she says. Between checking smoke columns all around the horizon, she reads and sews some and keeps up with forestry activities and fire fighting in other counties by radio.

Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: My problem is one that bothers thousands of other G.I.'s so I hope you will print your answer because it is needed badly. I am a happily married man with a wonderful wife and two small children back in the States. I've been in Korea for four months. After living a normal married life for three years, what is a young, healthy man supposed to do for his physical needs? There are 12 women for every G.I. over here, and women practically throw themselves at our feet. Don't get me wrong, Abby, I love my wife and always will, but I have another twenty months to go, and I am only human. This letter is sincere and I am not ashamed to sign my name, but if you use it, please sign me,

"JERSEY"

DEAR "JERSEY": Assume for a moment that I received the following letter:

"DEAR ABBY: "I am a happily married woman with a wonderful husband and two small children. My husband has been in Korea for four months. After living a normal married life for three years, what is a young, healthy woman supposed to do for her physical needs? There are plenty of men around, and when they learn that my husband is in Korea, they practically throw themselves at my feet. Don't get me wrong, Abby, I love my husband and always will, but I have another twenty months to wait, and I am only human. (signed) "JERSEY'S WIFE" Well, Jersey, I would tell that woman to keep as busy

as possible with her duties and as many wholesome activities as her time and energy permit. I'd suggest reading, exhausting physical exercise, and yes, even prayer! I'd tell her to stay sober and to avoid temptation, and to write to you every day! And that, Jersey, is my answer to you, and to all your buddies in the same lonesome boat.

Sincerely, ABBY

DEAR ABBY: I would like to have your opinion of when and when not to wear a hat. I love hats, but think there is a time and place for them. It is football season again and my husband thinks I ought to wear a hat to the games. I disagree. Aren't hats too dressy for football games? I notice that in the afternoons most of the older women wear hats, but the younger ones hardly ever do. I want to be well-dressed. Can you help me?

HATLESS

DEAR HATLESS: "Girls" do not wear hats, but women — do for all outdoor occasions from garden parties to football games. No outfit is complete without a hat! The only place

you don't wear one is to bed. What's on your mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3385, Beverly Hills, Calif. (McNaught Syndicate, Inc.)

## \$25 Taken From Burt's IGA Store

ISHPEMING — Sometime between 2 and 5:30 this morning, Burt's IGA Store on Cleveland Ave. was robbed of \$25.67.

Entrance to the store was made by smashing the glass in the front door of the building.

Although the cash register in the front of the store was tampered with and couldn't be opened, a cash register in the rear was broken into and a considerable amount of pennies along with the \$25.67 was taken.

Ishpeiming police who arrived at the store at 6:30 investigated the theft.

After questioning the proprietor, police were informed that nothing else was taken. Residents in the vicinity also were questioned, but police failed to find any clues. The officers are continuing their investigation.

## Crafts Fair Under Study In Peninsula

MUNISING — Mrs. Ruth M. Scherer, representing the Upper Peninsula Crafts Council, and Joseph S. Revis of Robert R. Nathan Associates' technical assistance project to the Upper Peninsula Committee on Area Problems, presented a report to the Upper Peninsula Crafts Council at a meeting in Munising Saturday.

The report summarized the findings of their trip to the New Hampshire League of Arts and Crafts Fair from Aug. 6 through 10 and offered recommendations for promoting the crafts in the Upper Peninsula. Mrs. Scherer, representing the craftsmen and a weaver herself, visited the New Hampshire League along with Revis.

The report made the following recommendations to the craftsmen:

1. Undertake an information survey to find how many and what kinds of craftsmen are working in the Upper Peninsula; how much interest there would be in cooperative marketing; and how much interest there is in developing a jurying system for such cooperative marketing in order to maintain standards.
2. Organize a crafts fair for the specific purpose of selling crafts.
3. Set out to develop systematic marketing, as well as exhibits and displays through highway information centers, tourist establishments and other outlets.
4. In conjunction with the annual crafts council conference held in the Upper Peninsula, hold an annual competition for specific categories of crafts and particularly to develop a trademark design for the U. P. Crafts Council.
5. Investigate the ways in which a paid manager might be acquired to undertake and develop these programs.
6. Develop sources of assistance for carrying out programs including volunteer workers, expanded membership, tourist association, and assistance from federal, state and local government.

The craftsmen attending the meeting heard the report and recommendations and formed two committees to undertake preliminary steps. A committee was organized to take the first steps necessary to hold a crafts fair in 1964; a second committee was organized to investigate the feasibility of holding exhibits, displays as well as exploring the possibilities for cooperative marketing outlets for the craftsmen.

Both committees are to report to the craftsmen at their next meeting on March 14, 1964, in Marquette.

## DAV's Service Officer To Visit Munising Oct. 23

# Give The United Way

## WHAT IS MY "FAIR SHARE"?

You give ONCE and for ALL. When you give the UNITED way! With ONE contribution you can help support ALL of the worthy welfare activities that play such an important part in making life hereabouts healthier and happier. In no other single way can you do so MUCH for so MANY!

Dear Citizen

Many people have asked, "What should I give to United Fund?"

The idea behind united giving is that one solicitation is made to support all of the agencies in United Fund. The individual giver is relieved of the burden of many separate drives for funds.

United giving can only succeed, however, if each individual in the community who has an income gives his "fair share" of that income. The old idea that "a dollar or two will do" must be put aside if the many agencies who depend upon this one appeal are to be able to continue their important services to our community.

The following table indicates the accepted standard of giving. If we all shoot for this mark, your United Fund will make its goal. Citizens of our communities are known as people "who care." Let's prove it once again.

the late Matt Lassi at Lassi's Studio here in 1925. Maki spent a year in Detroit, where he studied coloring of photographs and retouching of negatives. He returned here in November of 1926, when he purchased the business from Lassi.

The business was located at the corner of Iron and Marquette Sts. until 1938, when Maki purchased the building which formerly housed the Barabe Grocery and remodeled it for use as a studio.

Maki revealed that he plans to retire and will spend as much time as possible in the woods. He is married and the father of two children, a son, Bill, who is a civil engineer at St. Louis, Mo., and a daughter, Irma, who teaches school in Ishpeming. Maki is a member of the Knights of Kaleva and Immanuel Lutheran Church.

Williams is a veteran of 14 years in the photography field. His experience includes studio work, free lance and newspaper photography and engraving. For the past 10 years he has been in charge of the photography and engraving department for The Mining Journal at Marquette.

The new owner disclosed that the business will be operated under the name of Maki Studio.

# Not Much At Stake In Few Games Left For U.P. Schools

Outside of last place in one league and added prestige, not much is at stake in the handful of high school games left in the Upper Peninsula 1963 football campaign.

The big one, of course, is the annual clash between those old border town rivals, Menominee and Marinette. It'll be played Saturday afternoon (Oct. 26) on the Maroons' grid. This old rivalry dates back to 1894. Since that year, the two schools have met 65 times on the gridiron. Marinette winning 33, Menominee 28, while four ended in ties.

Menominee took a 14-7 decision at Marinette last year after the Marines had gained a 12-6 triumph the previous season.

The only league games left on the U.P. schedule involves a Friday night appearance by Hurley, Wis., at Bessemer. However, the only effect it will have will be that the loser will finish in the Michigan-Wisconsin Conference cellar.

Sault Loretto Catholic Central, one of four teams with all-winning records, has a chance to finish with a perfect mark when it hosts Cheboygan Catholic Central Friday night. The downstaters, however, are expected to provide the biggest test for Loretto, winner of the Eastern U.P. Conference.

Only other games scheduled in the final week end Escanaba Holy Name to Manistique and Cedarville to Sault Ste. Marie B Friday night. Besides

Michigan loses Cecchini for rest of season. ANN ARBOR (AP)—Michigan has lost one of its brightest sophomore football prospects for the season.

Center Tom Cecchini, 19-year-old defensive signal caller underwent knee surgery in University Hospital Monday. He was hurt in the first quarter of the Michigan-Purdue game last week.

Michigan will visit Minnesota Saturday and both teams will be looking for their first Western Conference triumph and possession of the Little Brown Jug, now held by Minnesota.

Michigan stands 1-2-1 for the season and Minnesota is 1-3. Cecchini was used at center on both offense and defense.

Brian Patchen, a junior from Steubenville, Ohio, now moves into the No. 1 center position.

Texas First Again, 2nd Week In Row. (By The Associated Press) The Texas Longhorns, who kept Arkansas from breaking up their marriage to the No. 1 spot in college football, are out to make sure that Rice won't interfere with an extended honeymoon.

Table with 2 columns: Rank, Team. 1. Texas (50) 527, 2. Wisconsin (3) 470, 3. Pittsburgh 383, 4. Illinois 264, 5. Mississippi 249, 6. Alabama 215, 7. Oklahoma 210, 8. Auburn 177, 9. Northwestern 141, 10. Navy 86

# Grid Champs Unbeaten In U.P. Action

It's unusual, but all five of the Upper Peninsula's schoolboy grid champions posted unbeaten-untied records in 1963 conference competition. Four of them finished with all-winning overall staves.

Repeaters Repeating as title winners were Ironwood of the Michigan-Wisconsin, Houghton of the Copper Country, Kingsford of the Menominee Range and Sault Ste. Marie of the Great Lakes.

The only newcomer to the throne room is Sault Loretto, which succeeded the two-time champion Ruyard in the Eastern U.P. League. Ruyard, growing to Class B status, is no longer a member of that circuit, but just for good measure the Loretto Angels added the Bulldogs to their list of victims.

Ironwood, Kingsford and Sault Ste. Marie all have finished their seasons with 8-0 marks. Loretto also is unbeaten, but has one game left to play. Only Houghton, among the champions, tasted defeat in exhibition action. The Grem-lins, however, went through their Copper Country Conference schedule without a setback for another title.

Only one conference game is included in the half-dozen games that will wrap up the U.P.'s 1963 football campaign this week. It's a battle between Hurley, Wis., and Bessemer, with the loser destined to finish in the Michigan-Wisconsin cellar.

Table with 4 columns: Team, W, L, T, Pts. Ironwood 8-0, Kingsford 8-0, Sault Ste. Marie 8-0, Sault Loretto 8-0, Houghton 7-0, Escanaba 7-0, Stambaugh 7-0, Cedarville 7-0, Ontonagon 4-2, Marquette 4-1, Manistique 4-1, Newberry 3-3, St. Ignace 3-3, Norway 4-4, Hancock 3-3, Bessemer 3-3, Marquette 3-3, Iron River 2-6, Ruyard 1-7, Sault Ste. # UM Game With NU Toughie

EAST LANSING (AP)—Meeting ninth-ranked Northwestern (4-1) at Evanston Saturday should be a rough tuneup contest for Michigan State.

The once-beaten, once-tied Spartans face second-ranked Wisconsin (4-0) the following Saturday. Then after "breather" against Purdue (2-2) and Notre Dame (2-2), MSU meets fourth-ranked Illinois (3-0-1) in its final game.

Repeating as title winners were Ironwood of the Michigan-Wisconsin, Houghton of the Copper Country, Kingsford of the Menominee Range and Sault Ste. Marie of the Great Lakes.

The only newcomer to the throne room is Sault Loretto, which succeeded the two-time champion Ruyard in the Eastern U.P. League. Ruyard, growing to Class B status, is no longer a member of that circuit, but just for good measure the Loretto Angels added the Bulldogs to their list of victims.

Ironwood, Kingsford and Sault Ste. Marie all have finished their seasons with 8-0 marks. Loretto also is unbeaten, but has one game left to play. Only Houghton, among the champions, tasted defeat in exhibition action.

Only one conference game is included in the half-dozen games that will wrap up the U.P.'s 1963 football campaign this week. It's a battle between Hurley, Wis., and Bessemer, with the loser destined to finish in the Michigan-Wisconsin cellar.

# Tragedy For Swim Star

James Small, 27, is rushed into Letterman General Hospital in San Francisco after being run down and maimed by a tug boat in San Francisco Bay yesterday. A former champion swimmer at UCLA, Small was participating in a long distance race with 10 other swimmers across the bay when the boat ran into him, severing one leg and his left thumb. Doctors later amputated his other leg above the knee. (AP Wirephoto).

McCarver, Gabriel Bring In Upset Wins For Teams. NEW YORK (AP)—Hanging out the pro football wash—and save a couple of cloths for the uniforms of Lamar McHan and Roman Gabriel, two guys who usually don't have much of a cleaning problem.

Sparked Upset McHan, making his first start for San Francisco, engineered the top upset of the National Football League season, a 20-14 victory over previously unbeaten Chicago, Gabriel, going all the way for the first time, led Los Angeles to a 27-24 triumph over Minnesota.

It was the first victory for both the 49ers and Rams, and each quarterback got some valuable assistance. McHan got his from end Gary Knafelc. Both were former teammates on the Green Bay Packers.

They got a chance to start because of injuries to quarterback John Brodie and end Monte Sticks—and wound up clicking on a seven-yard touchdown pass that turned out to be the clincher against the Bears.

Gabriel got his assistance from Don Heinrich, Ram assistant coach who used a system of rotating guards a la Paul Brown to send in many of the plays. The whole thing wound up in

Moved Up McCarver, a 6-1, 190-pounder, started the season as the Cards' No. 3 catcher behind Gene Oliver and Carl Sawatski. Oliver was traded to Milwaukee in June, and McCarver passed Sawatski to become the No. 1 catcher.

In 127 games, McCarver batted .289, with 12 doubles, seven triples and four homers included among 117 hits. He batted in 51 runs and was the only Cardinal besides Bill White to hit a grand slam homer.

Persons interested in the formation and placing of a team in an industrial senior hockey league are urged to attend a meeting tonight at 7:30 in the Prison Administration Building.

ern, Paul Krause of Iowa and Lou Holland of Wisconsin are tied for second with 24 points on four touchdowns each.

CHICAGO (AP)—Fullback Pete Stamon of Northwestern has not scored a touchdown this season but leads the Big Ten all-games football scoring race because of his kicking ability.

Stamon, who booted three field goals against Miami of Ohio last Saturday, has a leading total of 26 points on six field goals and eight extra points.

# Starr Injury Puts Load On Roach For Possible Six Games

(By The Associated Press) Quarterback Bart Starr's injury thrusts a back-breaking burden on John Roach, a 30-year-old bench-warmer, in Green Bay's bid for a third straight National Football League title.

Roach, who has completed only two of seven passes as a stand-in for Starr and has had three intercepted, joins King Hill and Lamar McHan as former Chicago—now St. Louis—Cardinals who suddenly have become No. 1 quarterbacks.

Hill moved into the front row at Philadelphia after Sonny Jurgensen suffered a right shoulder injury in Sunday's game with Cleveland. McHan, cut loose by the Baltimore Colts, finally decided to join the San Francisco 49ers and passed them to their first victory of the season Sunday, an upset over the Chicago Bears. He replaced the injured John Brodie.

Starr suffered a broken right hand in the Packers' 30-7 victory over the Cardinals. He was injured in the third period when he ran with the ball and was

an argument in the dressing room. Both Laughing Don Chuy and Joe Scibelli, the guards, each insisted he brought in the better plays. They were both laughing.

It's been a long time since the Rams laughed. They had an eight-game losing streak and a non-winning string of 14. The 49ers had lost seven in a row. The Cleveland Browns have a streak going in the opposite direction. This is the first time in a decade they have started out with six straight victories.

bounced out of bounds by the Cards' Jimmy Hill. Hill Sent Out A fist-swinging incident followed and Hill was put out of the game. The injury to Starr's hand reportedly occurred when he hit the ground before the fight. Hill claimed Starr had kicked him while both were on the ground.

With Starr out for possibly six weeks, Coach Vince Lombardi found himself with only Roach, a 6-foot-4 former Southern Methodist ace, as his lone quarterback. Roach had been drafted No. 3 by the old Cardinals in 1956. He spent the next two years in the service but saw plenty of service in both 1959 and 1960. Traded to Green Bay in 1961, he threw only 16 passes in two years before his season.

Erratic But Valuable Although Starr has been erratic this year and has been intercepted 10 times, he has thrown eight touchdown passes and completed 50.7 per cent of his tosses. It was Starr, generally conceded to be an underrated quarterback, who led the Packers to the league championship in 1961 and 1962, beating the New York Giants in the playoffs.

Lombardi prefers to concentrate on one quarterback, giving the signal-caller control of the offense. In such a situation, the No. 2 man, Roach, had little chance to play.

Starr's injury probably will assure a tight race down to the wire in the Western Conference of the NFL, where the Packers and Chicago Bears are tied for the lead with 5-1 records. After losing the opener to the Bears, Green Bay came back and won five in a row.

# Michigan Loses Cecchini For Rest Of Season

ANN ARBOR (AP)—Michigan has lost one of its brightest sophomore football prospects for the season.

Center Tom Cecchini, 19-year-old defensive signal caller underwent knee surgery in University Hospital Monday. He was hurt in the first quarter of the Michigan-Purdue game last week.

Michigan will visit Minnesota Saturday and both teams will be looking for their first Western Conference triumph and possession of the Little Brown Jug, now held by Minnesota.

Michigan stands 1-2-1 for the season and Minnesota is 1-3. Cecchini was used at center on both offense and defense.

Brian Patchen, a junior from Steubenville, Ohio, now moves into the No. 1 center position.

Texas First Again, 2nd Week In Row. (By The Associated Press) The Texas Longhorns, who kept Arkansas from breaking up their marriage to the No. 1 spot in college football, are out to make sure that Rice won't interfere with an extended honeymoon.

The Longhorns were voted the top major college team in the country for the second straight week Monday in The Associated Press weekly poll of a panel of sports writer and broadcasters. Texas drew first-place votes on 50 of the 53 ballots.

The Longhorns completely outdistanced second-ranked Wisconsin in the voting despite a 17-13 squeaker over the Porkers from Arkansas. The Badgers, 10-7 winners over Iowa, drew the other three votes for the top spot. Texas wound up with 527 points, Wisconsin 470.

Pittsburgh was third in the voting, Illinois fourth and Mississippi fifth, followed by Alabama, Oklahoma, Auburn, Northwestern and Navy. Ohio State, fourth a week ago, dropped out of the Top Ten after a 32-3 loss to Southern California and Georgia Tech, eighth last week; went out after a 29-26 loss to Auburn.

The Longhorns will be facing a tough assignment this Saturday night in the Rice Owls, who tied Texas 14-14 last year at this same stage of the season. That knocked the Longhorns from the No. 1 position they also held at this time last year.

The other members of the elite—with the exception of the idle Auburn—also may be in for stiff competition this week on a program headlined by the meeting between Pitt's third-ranked Panthers and Navy's 10th-rated Middies.

Wisconsin faces Ohio State, Illinois takes on UCLA in a Friday night game, Mississippi meets Vanderbilt, Alabama tackles Houston, Oklahoma plays Kansas State and Northwestern goes against Michigan State.

# McCarver Best Soph Of Season

NORMAN, Okla. (AP)—Tim McCarver, named Monday the National League's outstanding sophomore of 1963, says the honor caught him completely by surprise.

"I just feel wonderful," the 22-year-old St. Louis Cardinal catcher said. "I'm really honored—well, I'm just at a loss for words."

McCarver, who is attending the University of Oklahoma, said he had been so busy catching up with classwork after enrolling late that "baseball had sort of left my mind. I've been hitting the books pretty hard."

He is majoring in business. McCarver received 20 votes in the balloting by 44 baseball writers. Lou Brock, Chicago Cubs' outfielder, was second with six votes, followed by Donn Clendenon, Pittsburgh first baseman, four votes, and pitchers Denny Lemaster, Milwaukee, three each.

Moved Up McCarver, a 6-1, 190-pounder, started the season as the Cards' No. 3 catcher behind Gene Oliver and Carl Sawatski. Oliver was traded to Milwaukee in June, and McCarver passed Sawatski to become the No. 1 catcher.
