75 Men Trapped In Mine

JOHANNESBURG, South Africa (AP) — Seventy-five miners, including 10 whites, were trapped today in two cages which crashed in the shaft of a gold mine near Carletonville, 60 miles southwest of Johannesburg.

A mining company spokesman said one cage with 50 Africans and 5 whites was trapped 1,000 feet below the surface, and the second with 15 Africans and 5 whites 5,000 feet below ground.

The accident resulted from an overwind in the shaft cage winding mechanism at the Western Deep Levels Mine, one of the world's deepest, which started production early last year.

Wild Bear Gets Handout

A black bear approached to nibble a sweet roll offered by Sister Paschal, cook at St. James Children's Home in Duluth, Minn. Because of a shortage of blueberries and other food in the woods, numerous bears have invaded Duluth this fall to fatten up. (AP Wirephoto.)

Muslims Call Off Assembly

FLINT (AP) — Leaders of the Black Muslims suddenly called off an assembly Sunday after they protested the presence of armed, plainclothes policemen.

Some 2,500 persons in the audience marched quietly out of the IMA auditorium at a signal from Elijah Muhammad, reputed head of the Negro cult.

"If they want to come in with guns, we'll all go out," Malcolm X, reputed No. 2 man of the Black Muslims, told the predominantly Negro audience.

Malcolm X told the audience the police came to "scare you." He referred to their guns, saying, "That's what the white man needs to scare you. They don't realize you don't scare."

U.S. To Keep Troops In Germany As Long As Necessary: Rusk

FRANKFURT, Germany (AP) — Secretary of State Dean Rusk, seeking to still West German fears that last week's massive troop airlift foreshadowed a military manpower cut, has pledged the United States will keep six divisions in Germany as long as necessary.

Rusk also joined Sunday with Chancellor Ludwig Erhard in an appeal for a strong Atlantic Alliance. Both cautioned against any loosening of ties with the United States.

Dedication Rusk and the new West German government leader spoke at the dedication of a memorial honoring the late Gen. George C. Marshall, who as secretary of state gave his name to the economic blueprint known as the Marshall Plan for the recovery of postwar Europe.

Both speakers appeared to be aiming their remarks at President Charles de Gaulle of France, who has warned that one day the United States may decide to withdraw its forces from Europe. He has urged the creation of an independent European acting as a third force in world politics.

Rusk arrived in Germany at the end of last week's exercise Big Lift in which an entire armored division was flown here from Texas in less than three days.

"We have six divisions in Germany," Rusk said.

"We intend to maintain these divisions here as long as there is need for them—and under present circumstances there is no doubt that they will continue to be needed."

Rusk also diplomatically told the Europeans he didn't think they were living up to their military commitments to the North Atlantic Treaty Organization.

Erhard agrees Erhard, who recently succeeded Konrad Adenauer as chancellor, indicated he agreed with the U.S. position and called on his countrymen and Europeans generally to remember the debt they owe to the United States.

Rusk also said the most effective way of meeting any Soviet threat was a NATO nuclear fleet. The plan was first put forth by President Kennedy in a meeting with former British Prime Minister Harold Macmillan at Nassau in the Bahamas in December. It calls for a fleet of surface ships, manned by crews of mixed nationality and equipped with U.S. missiles.

Britain has been cool to the plan and France has rejected it. De Gaulle wants his own nuclear force.

Tom Connally, D-Tex., died at his home today of pneumonia. He was 86. Connally died shortly after midnight.

A former chairman of the Senate Foreign Relations Committee, Connally had lived in Washington since his retirement from the Senate in 1953.

Connally had been ill for some years. His wife was with him when he died.

The Texan was chairman of the Foreign Relations Committee during and after World War II.

Many Senate press gallery visitors regarded him as the senator who looked most like a senator. A frock-coated politician of the old school, he was famed as a rough and tumble debater during his 36-year congressional career, 24 in the Senate and 12 in the House.

Connally was elected to the Senate in 1928 after 12 years service in the House interrupted by World War I. He resigned from Congress to become a captain in the 22nd Infantry Brigade of the 11th Division shortly before the outfit sailed for France, he became ill and never got overseas.

Previously he had joined the Army as an enlisted man during the Spanish-American War but never got to Cuba.

Kennedy To Address Philadelphia Dinner PHILADELPHIA (AP) — President Kennedy is scheduled to address a \$100-a-plate Democratic dinner Wednesday in support of Mayor James H. Tate, running for a full four-year term.

Rep. William J. Green Jr., D-Pa., said the President would attend a reception just before the dinner.

Soviets Don't Want Bored Cosmonauts! WARSAW, Poland (AP) — More glib cosmonauts are in training in the Soviet Union "and if I may say so, they are beautiful girls," says Valentina Tereshkova.

The Soviet space girl told a televised news conference Sunday night that future Soviet space ships will have mixed crews of men and women — "otherwise the men would get bored."

Lincoln Center Gifts Total \$142.5 Million NEW YORK (AP) — Gifts to the Lincoln Center for the Performing Arts stood at \$142.5 million today following the setting up by Harold S. Vanderbilt of a \$750,000 trust designated for the family circle section of the new Metropolitan Opera House.

Vanderbilt, 79, retains the interest from the trust until his death, when it will go to the center. Until that time, the center may borrow for construction using the trust as collateral.

Court Argees To Rule On Immigration Law WASHINGTON (AP) — The Supreme Court agreed today to rule on constitutionality of a section of the Immigration and Naturalization Law that strips naturalized Americans of citizenship if they return to their country of origin and remain three years.

It's Three In A Row For Pittsburgh Mom PITTSBURGH (AP) — It was three in a row for Mrs. Charles Hane of nearby Wilmerding. She gave birth Sunday to her third consecutive set of twins, a boy and a girl, in West Penn Hospital.

She also has boy and girl twins, 4, and boys, 8. Another girl, 12, rounds out the family.

"I have never discounted Gov. Rockefeller as a possible opponent," Goldwater said. "I think he will give a good account of himself if he enters the primaries."

"Probably Right" Humphrey said in a separate interview he agrees with the President's views as reported to him.

"I think that's probably right," he said. "Rockefeller may not be able to get the nomination, but he could do Goldwater a lot of damage."

Kennedy has left the public impression in some of his recent remarks that he would relish a battle with Goldwater next year. This could produce the kind of "interesting" and tough campaign he has predicted.

Administration strategists do not take lightly the prospect of a Kennedy-Goldwater race.

Stronger In South Most of them say privately that Goldwater would run more strongly in the already rebellious south than any other Republican. They think he would be tough in the border states, the Midwest and the Rocky Mountain states.

But they believe a Goldwater candidacy would solidify labor and minority blocs behind the President. They think they could win such an election contest in the big electoral-vote industrial states, California included.

Goldwater's Situation Has 1960 Parallel WASHINGTON (AP) — President Kennedy reportedly sees a parallel between Sen. Barry Goldwater's political situation today and his own four years ago.

Kennedy has told recent White House visitors he thinks Goldwater is in about the same position with regard to the Republican nomination as he himself was in relation to the 1960 Democratic nomination before the presidential primaries.

The President was said to have compared the opposition he faced then in Sen. Hubert H. Humphrey, D-Minn., with that Goldwater confronts today in New York Gov. Nelson A. Rockefeller.

Analysis The President's analysis was that Humphrey had no real chance to get the nomination, but was in a position to kill off Kennedy's chances if he could win some important primaries. Similarly, he was quoted as saying Rockefeller could damage Goldwater greatly.

Asked about these reports, Goldwater reminded that he is not an announced candidate, as Kennedy was in 1960. But the Arizona said he had no particular reason to quarrel with Kennedy's purported analysis.

"I have never discounted Gov. Rockefeller as a possible opponent," Goldwater said. "I think he will give a good account of himself if he enters the primaries."

"Probably Right" Humphrey said in a separate interview he agrees with the President's views as reported to him.

"I think that's probably right," he said. "Rockefeller may not be able to get the nomination, but he could do Goldwater a lot of damage."

Kennedy has left the public impression in some of his recent remarks that he would relish a battle with Goldwater next year. This could produce the kind of "interesting" and tough campaign he has predicted.

She also has boy and girl twins, 4, and boys, 8. Another girl, 12, rounds out the family.

U.S.-Argentine Relations Suffer From Misunderstandings: Illia

BUENOS AIRES, Argentina (AP) — In his easy-going country doctor manner, President Arturo U. Illia diagnosed the ailment afflicting relations between the United States and Argentina—and the rest of Latin America, for that matter. The disease: Misunderstanding, mostly by Americans, in his view.

"This is one of the fundamental questions that the American people must understand: We in Latin America are making a real effort to try to stabilize ourselves," he said.

Oil Contracts Americans, he implied, could help by understanding the action his government plans to take in nullifying multimillion dollar contracts with U.S. oil firms. This is something that must be done, he said, despite the fact that the plans already have created a bad turn in U.S.-Argentine relations.

The 63-year-old, white-haired back-country physician displayed enormous confidence in a 90-minute interview that he could do the job ahead of him: Rebuilding Argentina after a long period of military domination that shattered the nation's democratic government.

Questions, Answers Elected July 7 and inaugurated Oct. 12, Illia is only now beginning to formulate action programs for economic, social and political reforms he and his people's radical party are pledged to make.

Here are a series of questions and answers given during the interview:

Q—Mr. president, as you know, Cuba has been expelled from the Organization of American States. In this sense, would you be in favor of re-admitting Cuba to the O.A.S.?

A—I think we should do our best for Cuba and the Cuban people to be restored to democracy, to inter-American life and to participation in the O.A.S. There exists a decision taken by the American nations in the last conference, and we respect it.

Trade Q—Another question, Mr. President, also on the theme of foreign policy. Have you had time to think about the possibility of trading with Communist countries, particularly with Russia and Red China?

A—We will trade with all countries in the world with which Argentina finds it suitable to trade. We will accept in this sense the sovereign conception of a country that has a right to exercise this function as all other democratic countries of the world are doing now.

Real Effort Q—Despite the fact there is considerable anxiety in the United States over the instability in many Latin American countries, a great deal of aid has been given for economic

and social reform. In view of what you have said, do you have plans for economic and social development in Argentina?

A—This is one of the fundamental questions the American people must understand: We, in Latin America, are making a real effort to try to stabilize ourselves.

Regarding the second part of your question, I will tell you that previous governments in Argentina have been working on

plans. But the truth is that we still do not have completely finished plans. We propose to give planning all the importance it merits and we will present our plans in proper form and due course.

Oil Problem Q—Do you feel that there is a great lack of understanding in the United States as regards oil contracts? What immediate measures do you suggest to solve the oil problem?

A—We will follow our oil policy as we have said before the election, during the election and afterwards. The contracts not in agreement with the policy will be annulled, but in accordance with our law and constitution. There will be indemnification. We will not take violent measures against anyone. The government will act in accordance with legal standards.

Q—Under its new oil policy, does the government wish or not wish to have cooperation of oil companies of the United States and other countries in the development of its oil fields?

Not New A—There is not a new policy for oil. It is the permanent policy that Argentina has always had. Since 1906 when oil was discovered, YPF (the state oil monopoly) has always been the agency handling these problems.

We have no difficulty, and we shall have none, in making contracts with any world enterprise which cares to aid us in work and services and which YPF, the state agency, considers proper.

Q—Then the Argentine government has no intention of throwing out the foreign oil companies, but only intends to annul those contracts which it considers are contrary to its oil policy?

A—Exactly. Q—This question refers to a matter of current interest in the United States: Do you consider communism to be a serious problem in Argentina and in America in general?

A—I can tell you with absolute certainty that communism is no problem in Argentina—nor will it be one. The belief must be accepted in the United States that our people have a thorough vocation for democracy. . . . and we—respectful of our fellow nations in America—will help in every way possible to prevent communism from taking over any other nation. This is perhaps the foremost point where our thoughts agree with those of the people and the government of the United States.

Objective Q—Do you plan to increase the working man's share of national income so as to bring it up to the level of the middle class and cause it to be more aware of its obligations?

A—Fundamentally, our problem is the following. During the past 30 years our national income per capita has decreased. This means our population has increased, but our national income has decreased. Our objective is to keep increasing the national income with the purpose of distributing it more equitably to strengthen the working class.

Nineteen persons died in Michigan's traffic over October's last weekend.

WASHINGTON (AP) — U. S.-controlled manufacturing firms abroad produced a record \$28 billion worth of goods in 1962 — an increase of \$2.5 billion over 1961.

CADILLAC (AP) — United Auto Workers Local 748 voted Sunday to strike the Malleable Iron Co. here in support of contract demands.

FBI Seeks To Link Michigan Abduction With Kidnap-Killings

LANSING (AP) — FBI agents today sought to link the Friday abduction and criminal assault of Michelle Moran, 5, with the September kidnap - murder of two Minneapolis girls.

Local police meanwhile were methodically checking out a deluge of tips which, together with names of sex offenders drawn from card files, involve 100 to 150 men.

Artists' Conception A federal agent brought an artist's conception of the man wanted in the Minneapolis case to the Lansing police detective bureau and said the sketch will be shown to Michelle and her brother, Frank, 8, who saw his sister taken from the family car by a young, slender, bespectacled stranger.

The bodies of the Minneapolis girls were found Oct. 1 at Plymouth, Minn. They disappeared from their neighborhood Sept. 7.

City Detective Bureau head Elwyn Groak said there were no solid leads in the hunt for the man who took the East Lansing kindergartner from a shopping center parking lot Friday night and abandoned her in a ditch beside M-78 in northeast East Lansing.

Michelle remained in Sparrow Hospital under observation today. She was brought to the hospital Saturday after two truck drivers spotted her at the roadside and informed police.

News In Brief

TOKYO (AP) — Police are holding three Japanese they say planned to kidnap Princess Suga, Emperor Hirohito's youngest daughter, and hold her for 50-million yen (\$138,888) ransom.

DETROIT (AP) — Former King Umberto II of Italy was due in Detroit today for a two-day visit.

ESCHWEIG, Germany (AP) — Four East Germans fled to West Germany over the weekend near here. Two came over under the cover of fog, the others by swimming a border river, police reported today.

SALEM, Germany (AP) — Murrage Berthold of Baden, brother-in-law of Prince Philip of Britain, died Sunday after a heart attack. He was 57.

WASHINGTON (AP) — Sen. Jacob K. Javits has called for a "great wave of indignation" around the world to protest Russia's "anti-Jewish persecution."

Meandering Hurricanes

Detailed here are the paths of hurricanes in 1962, broken lines, and 1963, solid lines. Two current tropical storms — Ginny off the Carolina coast and Helena near South America — are included. U. S. Weather Bureau provided information for this map. (AP Wirephoto Map.)

Hurricanes End Windy Courtship

WILMINGTON, N. C. (AP) — Ginny and Helena ended their windy courtship with land early today and moved into open sea, but their eventual courses were still only a prediction.

Hurricane Ginny, still packing the 95-mile-per-hour winds which she carried up and down the Southeastern United States coast line last week, was reported about 500 miles west of Bermuda. She had held a steady course to the east for several hours.

A late advisory located Helena about 85 miles east northeast of Antigua, Leeward Islands.

Helena, in a sweep past the island of Guadeloupe late Saturday, killed five persons, injured 14 and rendered 500 families homeless.

U.N. Team Seeks Facts In Viet Nam

SAIGON, Viet Nam (AP) — The U.N. mission to South Viet Nam discarded its restricted government itinerary today in an attempt to counter the Diem regime's efforts to keep opposition Buddhists from the fact-finders.

The U.N. team announced it would decide for itself who it will see in its investigation of Buddhist charges of government persecution.

Briefings Since its arrival Thursday, the U.N. mission has been briefed by President Ngo Dinh Diem and his powerful brother, Ngo Dinh Nhu, and pro-government Buddhist leaders. The government schedule has given the U.N. investigators almost no opportunity to talk with opposition Buddhists or any opposition political group.

Suicide The diplomats decided to break from the tour-like schedule arranged by the government just as another Buddhist monk burned himself to death in front of the Roman Catholic Cathedral Sunday. It was the seventh Buddhist suicide by fire since June, and it was carried out to dramatize the Buddhist charges during the visit by the U.N. team.

Correspondent Grabbed James Robinson, a National Broadcasting Co. correspondent, said he was grabbed by police while he was filming the suicide with NBC cameraman Andrew Pearson. Robinson wrenched free and hopped into a black government limousine which had just pulled opposite him. It carried him and another Western newsmen to safety.

Shippers Rebuff Plea On Rates For Wheat WASHINGTON (AP) — American shipping lines reportedly have rebuffed a government plea that they reconsider the rates they would charge for moving American wheat to Russia.

However, officials say privately that the argument between the U.S. Maritime Administration and the shipowners is far from closed and that the government still hopes to come to terms with the shipping industry.

The Weather Forecast for Marquette and vicinity: Partly cloudy and cooler tonight with freezing temperatures inland areas, low 25-35; partly cloudy and cool Tuesday, high in 50's. Outlook for Wednesday: Mostly fair and slightly warmer.

Forecast for Lake Superior: Northwest winds 15-22 MPH tonight and Tuesday. Partly cloudy. Lake temperature 57.

Data for 24 hours ending at noon: Temperatures — 43 at 6 a.m.; 56 at noon; highest in 24 hours, 62 at 3 p.m. yesterday; lowest, 46 at 7:45 a.m. today.

Relative humidity at noon — 53. Precipitation — 0.01 of an inch in last 24 hours; total to date this year, 18.65 inches; normal to date, 26.16 inches.

Sun rises at 7:27 a.m. and sets at 5:40 p.m. tomorrow. Records for Oct. 28 — Maximum temperature, 68 in 1902; minimum temperature, 18 in 1878; most precipitation, 1.45 inches in 1874.

Congress Drags Into 11th Month

WASHINGTON (AP) — Foreign aid, civil rights and the Robert G. Baker case have top billing this week as Congress drags into its 11th month.

The major floor activity will be in the Senate, which expects to take all week or longer considering the annual bill authorizing the foreign aid program.

The big fight will be over the Senate Foreign Relations Committee's restoration of about \$700 million cut from the bill by the House, which earlier approved a \$3.5 billion program.

Still to be acted on by both branches is a separate measure putting up the money to finance the aid program.

MSU Crops Scientist Speaker For U. P. Potato Show Here

Leyton V. Nelson, East Lansing, crops science professor at Michigan State University, will be the featured speaker at the Upper Peninsula Potato Show dinner in Marquette this week.

The potato show will be held Friday and Saturday, in the National Guard Armory. The Saturday evening dinner at which Nelson will speak will be held in the University Center of Northern Michigan University.

The U.P. show is being sponsored cooperatively by the Marquette Chamber of Commerce, the U.P. Potato Growers Association and the MSU Extension Service in the Peninsula.

To Report On Tour

Nelson will report on his recent six-month study tour of potato producing countries of Europe.

Nelson, who is also an extension specialist for state, graduated from MSU in 1939 and was immediately employed by the institution as a graduate and research assistant.

Announcement of Winners

A native of Minnesota, he had previously attended North Dakota Agricultural College. Nelson has authored several publications, including "Annual Crops for Emergency Use," "Band Seeding" and "Corn Hybrids Compared."

The new U.P. Potato

LEYTON V. NELSON

Queen will also be presented at the Nov. 2 dinner as well as winners of the district potato cooking contests.

Players of the upcoming Marquette production of "Brigadoon" will present a brief program including three musical numbers.

Robert M. Ling of Marquette is to be the master of ceremonies and will introduce sweepstakes winners in all of the adult and junior contests.

The U.P. show will begin on Friday morning, with the judging of exhibits in the Marquette Armory.

and Kentucky, with up to about one inch.

Today's light showers were in areas associated with a cold frontal system extending from central New England southward to Arkansas.

Showers were in prospect during the day from southeast Texas into Maryland, areas included in the vast drought belt which extends from the Southern Plains into New England. The drought and forest fires have caused millions of dollars damage to crops and property.

Cool weather, which covered most of the northern half of the nation, appeared headed for most sections from northern Texas and southeast Oklahoma northeastward through the Ohio Valley and New England.

Reports, Bids Due At City Meet Tonight

Several reports and some bids are due at tonight's regular meeting of the Marquette City Commission, called for 7 in the city hall.

A petition will be received from Munro L. Tibbitts, concerning a request for a zoning change.

City Manager Thomas Moore will report on proposals received on the city's request to purchase three three-quarter ton pickup trucks for the water department.

A report from Lucille Treado, chairman of the Marquette Planning Board, concerning the proposed rezoning of Lots 16 and 17 in Block 7, Woodlawn Park Addition, will be received.

Second Report

Another report will be received from the planning commission on the proposed rezoning of a parcel of land bordering the west city limits, and on recommended amendments to the zoning map and the zoning ordinance of the city.

The commission also will consider a proposed resolution to adjust refunds of excess special assessments.

Driver Hurt In Smashup On Road 550

A motorist was injured and a truck was wrecked in a smashup on County Road 550, about a mile north of County Road KE, in Powell Township, at 12:10 Saturday afternoon.

Two minor injuries resulted in another mishap investigated by state police from the Marquette post during the weekend (see story on Page 10).

State police said Henry Trezczinski, 48, Wetmore, was driving south on Road 550 in a tractor-trailer when the vehicle went off the right side of the highway. He got it back onto the highway but it traveled off the right shoulder again, crashing into the ditch on the right side.

Officers said the "fifth wheel," where the semi trailer section hooks onto the tractor, became unhooked, causing the mishap.

Trezczinski suffered abrasions on his head and left leg and a punctured left elbow and was taken to St. Luke's Hospital here by a passing motorist.

The truck, a 1959 model, was practically a total wreck, state police said, and had to be removed from the scene by a wrecker.

Oldest town in southeastern Alaska is Sitka, established by the Russians in 1799.

Cold Hits State

LANSING — A cool snap — as you likely noticed — moved into Michigan overnight and brought an end to a long Indian summer.

And the weatherman says it's going to stay that way — cool, with temperatures in the proximity of normal for Halloween time — not in the 70s or 80s of last week.

Only scattered showers, however, came with the cool snap and did little to relieve a month-long drought that has made woodlands tinder dry and scattered pastures.

Frost and freezing temperatures are forecast over the state tonight, with the Upper Peninsula and the northern Lower Peninsula likely to get light, scattered showers.

A new brush fire scorched a two-square-mile area of southwestern Wayne County. It took 75 firemen from five communities all night to bring it under control.

Sheriff's Sgt. George Balogh said the fire was believed to have been started by careless hunters.

Minor Relief In East

CHICAGO — Light rain, the first measurable amounts in weeks, dampened parched areas in Eastern drought sections today but afforded only minor relief from the prolonged dry spell.

Unseasonably mild weather covered broad areas in Eastern and Southern parts of the nation Sunday. Temperatures soared to the 80s and upper 70s, setting record high marks for Oct. 27.

The U. S. Weather Bureau said the spotty rainfall from the Ozarks northeastward to the northern Appalachians and in parts of New York state did little to relieve the severe drought conditions. The only substantial rains, the bureau said, splashed along the Ohio River in Indiana

1960 Election Rerun Seen An Improbability

WASHINGTON — Republican National Chairman William E. Miller says it is not impossible that Richard E. Nixon will get the GOP presidential nominee in 1964, but "it is not probable."

Miller made this comment recently at a news conference when asked if he thought Nixon, who narrowly lost to President Kennedy in 1960, was a candidate.

'BLACK ROSE'

There are several roses for which claims have been made for their black color; the color is not black but dark red to dark maroon.

Temperature Here Drops To Normal, But Drought Expected To Continue

Marquette's weather is returning to normal, after the warmest temperatures on record for this late in the year.

Temperatures this week are expected to average near the normal extremes of 47 and 54.

Meteorologist Fred Mueller, said tonight, freezing temperatures are expected in inland areas, with lows ranging from the mid 30s near Lake Superior to the upper 20s inland.

Change In Wind

The change is caused by a shift in the prevailing winds, Mueller said. Winds this month have been generally from the west and southwest and the shift to northwest winds aloft will bring in cooler air.

Through yesterday the average temperature for the month was 12 degrees above the normal of 47 for October.

So far this month, temperatures have averaged below normal on only two days and temperatures have been normal or above on 23 days. The mercury has been in the 70s and 80s on 15 days this month.

Overnight the mercury dropped to 40 in Marquette and to 29 at the Marquette County Airport, Negaunee Township.

Obituary

MRS. A. CLARK NELSON
Mrs. Abigail Clark Nelson, 35, County Road 550, Marquette, died early this morning in St. Luke's Hospital, where she was a patient one day. She was 82 years old.

Mrs. Nelson was born on May 12, 1873, in England, and had resided in Sault Ste. Marie about 10 years before moving to this area two months ago.

Survivors are two sons, Charles E. Clark, County Road 550, Marquette, and Ernest Clark, Sault Ste. Marie; a sister, Mrs. Lil Bowers, San Diego, Calif.; three grandchildren, seven great-grandchildren.

Services will be held tomorrow afternoon in the Fassel Funeral Home. The body will be removed to Whitefish Point, Chippewa County, where burial will be made on Wednesday.

Driver Hurt In Smashup On Road 550

A motorist was injured and a truck was wrecked in a smashup on County Road 550, about a mile north of County Road KE, in Powell Township, at 12:10 Saturday afternoon.

Two minor injuries resulted in another mishap investigated by state police from the Marquette post during the weekend (see story on Page 10).

State police said Henry Trezczinski, 48, Wetmore, was driving south on Road 550 in a tractor-trailer when the vehicle went off the right side of the highway. He got it back onto the highway but it traveled off the right shoulder again, crashing into the ditch on the right side.

Officers said the "fifth wheel," where the semi trailer section hooks onto the tractor, became unhooked, causing the mishap.

Trezczinski suffered abrasions on his head and left leg and a punctured left elbow and was taken to St. Luke's Hospital here by a passing motorist.

The truck, a 1959 model, was practically a total wreck, state police said, and had to be removed from the scene by a wrecker.

Oldest town in southeastern Alaska is Sitka, established by the Russians in 1799.

Some of the top Republicans in Michigan were among those attending the Upper Peninsula fund-raising dinner meeting held in the National Guard Armory in Ishpeming Saturday night. Shown at the session, from left, are Dr. Fred C. Sabin, Marquette, chairman of the Marquette County Republican Committee, who was in charge of county ticket sales; Arthur G. El-

liott Jr., Bloomfield Hills, state GOP chairman; Ely M. Peterson, Charlotte, national vice chairman of the Republican Party, in charge of the women's division; Admiral Arleigh A. Burke, U. S. Navy, Ret., the speaker, and John B. Martin, Grand Rapids, Republican national committeeman from Michigan.—(Mining Journal photo.)

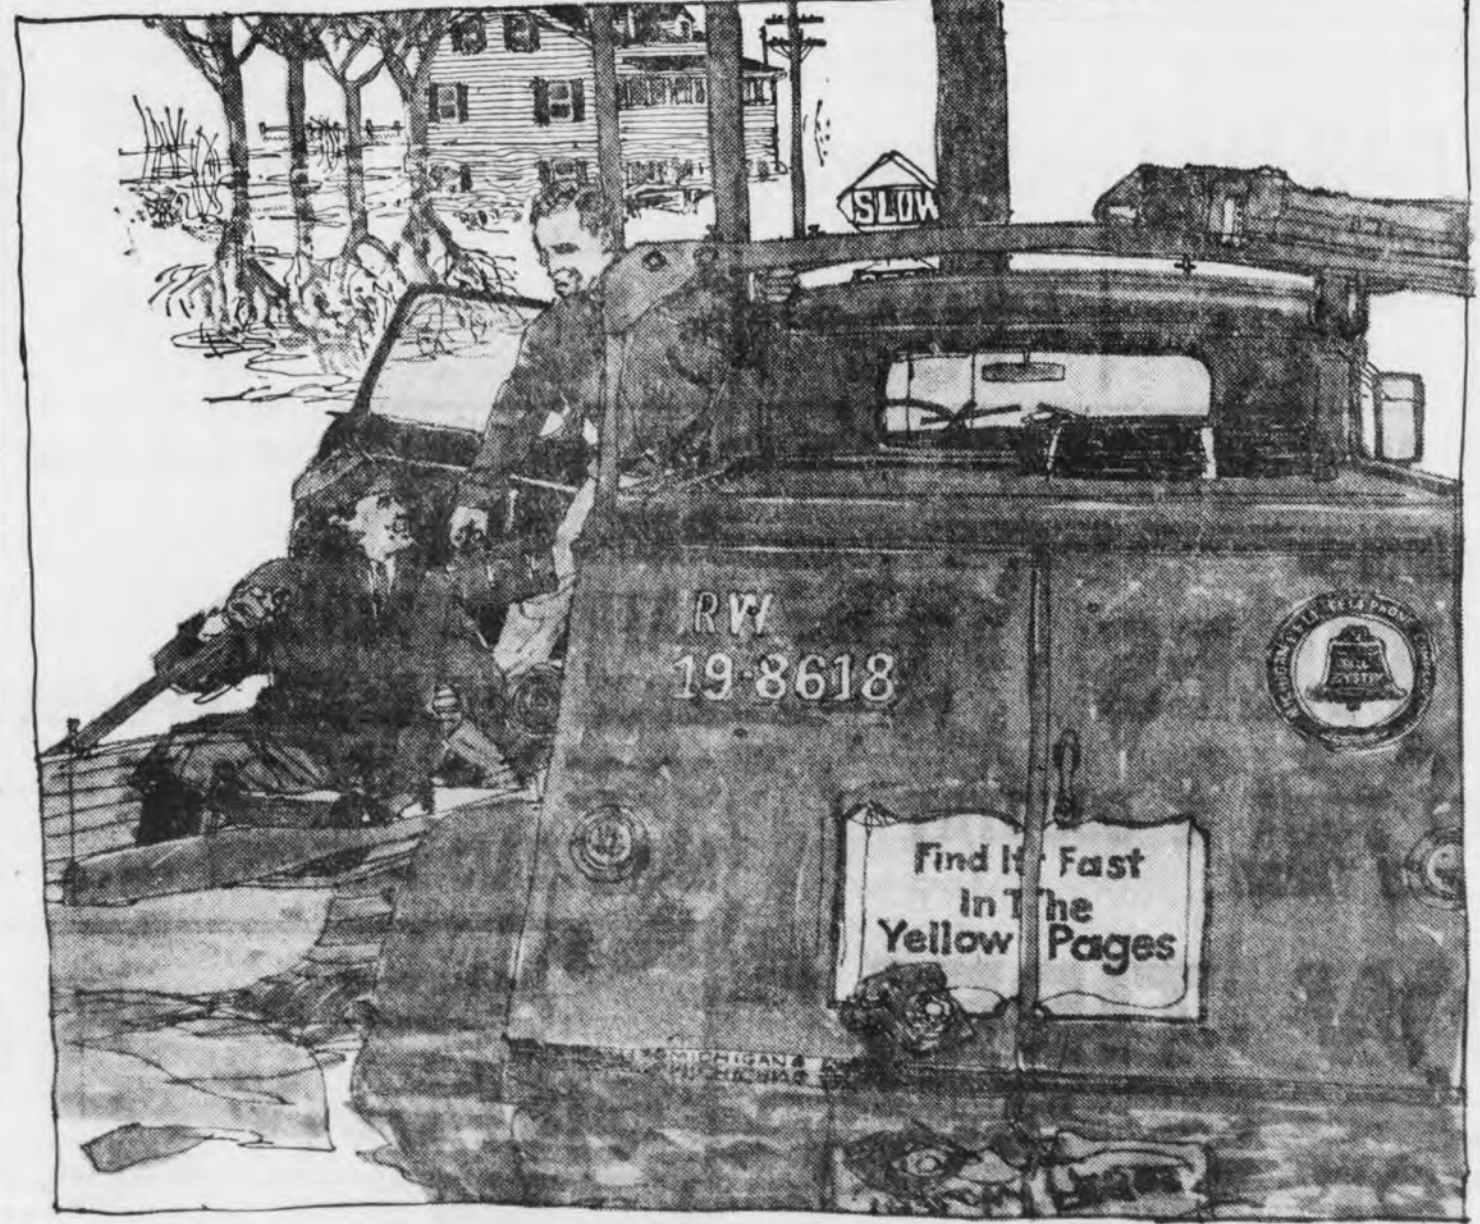

U. P. Republicans' Fund Raising Event Called Big Success

Related Story, Photo On Page 9
ISHPEMING — Over 300 party faithful from throughout the Upper Peninsula attended the fourth Republican fund raising dinner meeting here Saturday night.
"You have made this a big success," commented Ralph E. Huhtala, Iron Mountain, a former Ishpeming resident, in addressing the audience.
Huhtala is the U. P. finance chairman for the Republican Party and was one of the key figures in arranging the program, conducted in the National Guard Armory here.
Huhtala praised the work of his committee and presented the principal speaker, Rear Adm. Arleigh A. Burke (Ret.) with two sets of cufflinks.
Jean Worth, editor of the Escanaba Daily Press, who served as toastmaster, noted that the speech (see other story) was Burke's first partisan political address.
Applaud Mrs. Peterson
Drawing a tremendous round of applause, in recognition of her fervent party work and her frequent appearances in the Upper Peninsula was Ely M. Peterson of Charlotte, state vice chairman and newly appointed executive director of the women's division of the Republican National Committee.
Mrs. Peterson, who said she was pleased to appear in the U. P. first in her capacity as national women's chairman for the Republican Party, was presented with a corsage by Mrs. Jackie Konstenius of Baraga.
Two congressmen were among the GOP notables who flew here for the meeting. Victor A. Knox of Sault Ste. Marie, 11th District, and Robert Griffin of Traverse City, 9th District.

Tech U. P. Site For Architect, Engineer Tests
HOUGHTON — Michigan Tech will be the only Upper Peninsula site of the next state architect-in-training and engineer-in-training examinations on Dec. 7.
The exams, conducted by the Michigan State Board of Registration for Architects, Professional Engineers and Land Surveyors, will also be conducted in Detroit, Ann Arbor and East Lansing.
Deadline for filing applications for the examination is Nov. 1. Forms and details are available from Gerald J. Caspary, associate professor of civil engineering, Tech.
The architect examination is a four-hour test, beginning at 8. The engineer exam is an eight-hour test, from 8 a. m. to noon and 1 to 5 p. m.

FLOOD STOPS TRUCK BUT NOT TELEPHONE REPAIRMAN

Driving along the road to the house through two feet of water, he found he could go no farther. The water was coming up over the floorboards of his truck, threatening to flood the engine.
But this didn't stop Clarence Fromm. Climbing to the roof of the truck, he signaled the man whose phone was out of order. Soon he was being rowed in a boat to the marooned house. Fromm was able to raise the submerged telephone wires to a point well above the water, and quickly restored the phone to normal service.
The customer was understandably grateful for the repairman's persistence. But what Clarence Fromm did is just another example of how Michigan Bell people always try to make sure you get the kind of service you want. They're about as friendly and cooperative as anyone you will ever meet.

While on a service call, Michigan Bell Repairman Clarence Fromm of Saginaw discovered the cause of a dead telephone. It was a small flooded area caused by the Saginaw River overflowing its banks during heavy rains.

MICHIGAN BELL TELEPHONE COMPANY

L. B. Frazier Re-Elected By State C-C

Lincoln B. Frazier, president of the Campbell Supply Co. of Marquette, has just been re-elected as a director of the Michigan State Chamber of Commerce, Harry R. Hall, executive vice president, announced today.
Frazier will serve a term of two years as a representative of District 1 of the state-wide organization of businessmen and industrialists.
Organized a little over three years ago, the State Chamber of Commerce has taken the leadership in promoting business in the state, through legislation, through training conferences and by working with local chambers of commerce.

John Mackie Undecided On Future

LANSING (AP)—John Mackie, boss of the building of many highways in Michigan, still is looking for signposts to point out his own road in the future.
Mackie is a dinosaur among highway commissioners — the last of a soon-to-be extinct breed. Under the new State Constitution, his term as the nation's last elected highway commissioner expires June 30, 1965.
Mackie is considering many possibilities. In the political field these include running for Governor, Lieutenant Governor or trying for Congress in the new 7th District. Other alternatives are accepting a federal appointment or returning to a private engineering-surveying practice in Flint.
Intimates say Mackie savors most the idea of running against Gov. George Romney. But the

political climate would have to be right.
'Wife Bugging Me'
"I frankly haven't made up my mind yet," Mackie says. "I know I'll have to do it pretty soon. Even my wife is bugging me to make a decision."
"I'll have to choose between making money and having fun," Mackie mused in an interview. "I could do a lot better financially in private practice. But once the political bug bites you, you hate to give the business up."
Mackie once rejected a \$24,950-a-year offer to head the Detroit Street Railway system. He has gained national prominence as president of the American Association of State Highway Officials and has turned down at least one offer to head a highway-building program in another state.
Mackie has proved himself a vote-puller for the Democratic Party. He won his first four-year term in 1957 by 52,700 votes. He swept into his second term by a 242,000-vote runaway in April 1961, outpolling all other candidates on both tickets.
Mackie is keeping himself in shape to run for anything. He plays handball, rides horses, ice skates and wheels a tractor around his 80-acre farm near Lansing.
Mackie has been taking an increasingly active role in party affairs.
He was a bitter and outspoken opponent of the new State Constitution, which abolishes his elective office, replacing it with a four-man bipartisan commission empowered to appoint a highway commissioner or director.
Cause For Concern
Mackie says he was mainly concerned because the legislature will have the say on spending gas and license plate tax monies, now earmarked for highway purposes.
"If we had only worked just a little bit harder to beat the constitution . . ." he still occasionally moans.
Even Republicans will say of Mackie: "I don't like his politics, but he sure does build highways."
Leader In Construction
A gusher of federal road-building money has been poured into Michigan.
Michigan is a leader in the construction of interstate freeways. It was first in the nation to pass the halfway mark of its road quota and now has more than 1,000 miles completed.
The state recently received an award for the most beautiful and best-planned highway of 1963, a 22-mile stretch of 75 from Vanderbilt to Indian River.

DR. HAROLD E. SPONBERG

Sponberg On India School Study Group

Dr. Harold E. Sponberg, former vice president of Northern Michigan University, is one of 15 educators selected by the U. S. Department of State for a study of teacher education in India.
Dr. Sponberg, who served as NMU vice president from 1955 to 1961, is now president of Washburn University, Topeka, Kan. Sponsored by the State Department and organized by the Association of Colleges of Teacher Education, the study tour will be carried out by professors, deans and presidents selected throughout the United States by the association headquarters in Washington.
The Department of State is particularly interested in assisting educational leaders in India with their educational programs. Many of the Indian leaders have studied in the United States and, returning to their native land, have endeavored to improve the total education program.
Visits in depth will be made of the universities, elementary and secondary schools in the following cities: New Delhi,

Banares, Calcutta, Agra, Bombay and Madras.
To Lecture There
The American educators will be asked to lecture on various phases of the American education, to conduct seminars or workshops and to cooperate with the educators in India by sharing the programs and developments in America. It will also enable these educators to learn directly about the culture and educational system of India.
Upon his return, each member of his 15-man team agrees to prepare statements suitable for publication concerning his observations of teacher education in India. He will be asked to participate in various professional meetings to discuss the educational implications of his visit.
This tour is another in a series that has been sponsored by the Department of State and organized by the AACTE. Other delegations have gone to Poland, West Germany and Iran.
Ph.D. From MSU
Dr. Sponberg was selected as a member of the team, which represented 15 different states. He came to Washburn University in November 1961.
A Minnesota native, he graduated from New Richland High School, taught in rural schools, junior high school, high school, junior college and uni-

versity. He has a bachelor's degree from Gustava Adolphus College, his masters degree from the University of Minnesota and his doctor of philosophy degree from Michigan State University.
The group plans to leave from New York Idlewild Airport Nov. 2, flying to London, Frankfurt, Munich, Istanbul, Beirut and Karachi. The tour group plans to return to the states on Nov. 29.

City Paragraphs

Adult Catholic Education Center — Topic for tomorrow night's lecture in the current Catholic Information Series, scheduled for 8 in St. Peter's School, will be "The Forgiveness of Sins by a Priest." Thursday night's discussion, also at 8, will be on "Confession of Sins: the Meaning of Indulgences."
IMMIGRANTS
During the year ended June 30, 1962, 286,763 aliens were admitted to the United States as immigrants for permanent residence, according to the Britannica Book of the Year.

Worry of FALSE TEETH Slipping or Irritating?

Don't be embarrassed by loose false teeth slipping, dropping or wobbling when you eat, talk or laugh. Just sprinkle a little FASTEETH on your plates. This pleasant powder gives a remarkable sense of added comfort and security by holding plates more firmly. No gummy, soapy, pasty taste or feeling. It's alkaline (non-acid). Get FASTEETH at any drug counter.

Officers of the Marquette District of the Michigan Education Association are, from left, seated, Effie Pelkonen and Ralph Laird, and standing, Carole Anderson, Joseph Sullivan and Bernice Wilson. Missing is Dorothy Burk.—(Mining Journal photo.)

J. Sullivan Heads Area MEA Chapter

At the first meeting of the Marquette District Chapter of the Michigan Education Association at Whitman School, officers for the ensuing year were introduced.

They are Joseph Sullivan, president; Effie Pelkonen, vice president; Carole Anderson, secretary; Dorothy Murk, treasurer; Bernice Wilson, delegate to the representative assembly, and Ralph Laird, alternate delegate to the representative assembly.

A business meeting was held, followed by a potluck supper

hosted by the elementary school teachers.

Tenure Discussion

Following the discussion of new business, the meeting was then devoted to a discussion of tenure. Sullivan, Laird and C. Fred Rydholm gave short reports covering the following areas: Initial action on tenure by the MEA board of directors; action on tenure that could be taken by the legislature; defining tenure and its implications and the importance of tenure to Michigan teachers.

Following these reports there was a question and answer session during which time those in attendance at the meeting were given an opportunity to express their points of view concerning tenure and to raise questions. Initiatory petitions were placed in the hands of building representatives in the various schools in Marquette so that signatures may be obtained.

One Injured, One Ticketed In Accidents

One person was injured, a motorist was ticketed and three automobiles were involved in a pair of traffic mishaps reported today by city police.

At 12:40 yesterday morning David Gingrass, 17, of 436 Rock St., was injured when he accidentally fell out of a car being driven around Presque Isle Park by William Gamble, 17, of 348 Rock St.

Gingrass suffered a right hip injury and abrasions on the right side of his face. He was taken to St. Mary's Hospital by Gamble.

City police said no damage resulted to the car, a 1954 two-door.

An automobile being driven east on Bluff St. by Bessie P. Kloack, 25, of 917 Bluff St., struck a car operated by Carol J. Magnuson, 31, Box 191, National Mine, who was traveling north on Lincoln Ave., at 8:35 this morning.

Right-Of-Way Violation

The front end of the Kloack car, a 1955 sedan, and the left front of the Magnuson vehicle, a 1959 sedan, were damaged. Both cars were driven from the scene under their own power.

City police ticketed Mrs. Kloack for a right-of-way violation.

7 Drivers Pay \$140 In Fines, Costs

Seven persons were ordered to pay a total of \$140.20 in fines and costs by Judge Edward H. Dombrowski in municipal court last week.

Clyde J. Rivord, 18, of 2301 Longyear Ave., was ordered to pay a total of \$60.10 in fines and costs for four traffic violations. Alternative sentence to paying the fines and costs by Oct. 31 is to spend a total of 11 days in the Marquette County Jail.

Fined For Leaving Scene

Rivord was ordered to pay a fine of \$25 and \$5.10 costs for leaving the scene of a property damage accident and a fine of \$6.30 and \$3.70 costs for failure to have his motor vehicle under control. The tickets were issued by city police following an accident Thursday on Baraga Ave.

Rivord also was ordered to pay a fine of \$6.30 and \$3.70 costs for failure to have his motor vehicle under control and an identical assessment for driving with an expired chauffeur's license. The tickets were issued by city police Sunday following an accident at the intersection of Oak and W. Ridge Sts.

Darryl D. Montagna, 29, Sherman St., was fined \$25 and paid costs of \$5.10 for leaving the scene of a property damage accident. City police issued Montagna the summons Friday following an accident on W. Washington St.

A fine of \$6.30 and \$3.70 costs were paid by Gale S. Washburn, 905 Norwood St., for making an improper left turn in the 600 block on N. Third St. City police issued the summons Oct. 18.

Speeding Count

For speeding, Donald R. McDowell, 2452 Norwood St., was fined \$6.30 and ordered to pay costs of \$3.70. He was ticketed by city police Oct. 16 for driving 40 miles per hour in a 25-MPH zone on N. Fourth St.

A fine of \$6.30 and \$3.70 costs were paid by Clarence H. Dobbs, 1721 Van Evera Ave., for driving a car with defective equipment. State police ticketed him Oct. 4 on U.S. 41.

A fine of \$6.30 and \$3.70 costs were paid by Daniel K. Bertotti, Hotel Northland, for speeding — driving 55 miles per hour in a 35-MPH zone on U.S. 41. State police issued the summons Oct. 18.

For unsafe starting in front of traffic, Russell A. Doutree, Star Route 550, Marquette, was ordered to pay a fine of \$6.30 and \$3.70 costs. The summons was issued by state police Friday on S. Front St.

The men are in a gallery with space equivalent to a four-room apartment. They have oxygen cylinders which were being used for welding when the flood waters poured in Thursday after a nearby dam broke.

Beach, Brush, Mattress Blazes Bring Out Firemen

Marquette's fire department was called out five times during the weekend, with no serious damage resulting on any of the occasions.

At 4:55 this morning firemen were called to the Shoreland Hotel, S. Front St., operated by Clayton L'Huillier, where a mattress caught fire in a second floor bedroom.

The mattress had been thrown out of the window by the occupants of the room on arrival of firemen and there was no damage to the room itself. The mattress was destroyed.

Caused By Cigarette

Three firemen, responding with the No. 4 pumper, returned to the station at 5:07 a. m. They said the blaze apparently was caused by a cigarette.

Firemen were called to the 1900 block of Center St. at 5:34 yesterday afternoon, when some leaves and brush in a vacant lot caught fire.

Firemen put out the blaze by use of the booster hose off the No. 4 (750-gallon) pumper, aided by a Michigan Department of Conservation truck and operator.

Started By Children

An area about 30 feet square burned. The blaze apparently was caused by children playing with matches, according to city firemen, who returned to the station at 6:10 p. m.

At 10:54 last night firemen were called to U.S. 41 south, opposite the Birchmont Cabins, where some grass and brush between the beach and highway caught fire.

Spread From Bonfire

Firemen, who extinguished the blaze with the booster hose off the No. 4 pumper, said the fire had spread from a bonfire of driftwood on the beach. Two tankloads of water had to be used to put out the blaze.

Hiker Nears End Of 1-75 Walk

FLINT (AP) — Marion Pearson, the walking man, set out today on one of the last legs of his 385-mile 1-75 hike from Sault Ste. Marie to Ohio.

Declaring himself in fine shape, Pearson, 64, faced three more days on the highway. His schedule calls for him to finish the long walk at Sylvania, Ohio, Wednesday night.

Pearson, who is dramatizing completion of the Soo-to-Ohio freeway, tramped more than 30 miles Sunday.

He had some small troubles. Heavy Sunday motor traffic forced him to stay on the shoulder of the road. In the pre-dawn darkness near Bay City he lost his way and hiked an extra four miles when he turned off on M-13.

3 Trapped Iron Miners Fit, Well

BROISTEDT, Germany (AP) — Three German miners trapped for over 80 hours in a flooded iron mine cheerfully reported today they are fit and well.

The miners reported to the surface through a communication shaft bored 259 feet down to the air pocket in which they were enclosed by water.

It will be at least Wednesday before a second shaft, wide enough to bring them up, can be completed, rescue officials said.

During the night, rescuers offered the men a deck of playing cards. But they declined the offer, explaining that only two of the three were card players.

"We lack the third man for skat," they said. Skat is a popular German card game that requires a minimum of three

players.

The men are in a gallery with space equivalent to a four-room apartment. They have oxygen cylinders which were being used for welding when the flood waters poured in Thursday after a nearby dam broke.

New Business Growth

Judging from the rate at which new businesses have been springing up in Marquette County in the last few years, the spirit of individual enterprise continues to be very much alive locally.

The county's non-farm business population has been raised to a new high as local residents, with an urge to be on their own, have been embarking on new ventures. Past experience shows that not all of them are likely to succeed the first time. The mortality among new businesses is high.

Peninsula Perambulator

The Perambulator, who donned his shorts to play a round of golf the other day, continues to be as amazed as other long-time residents of the Upper Peninsula over this "second summer" weather we're having. Not only did we enjoy a few ripe raspberries last week, but the tomato plants — which long ago yielded their 1963 crop — are blooming again. And down in Alger County, Mrs. Lydia Denman, Connors Road, Munising, reports her five-year-old snowball tree is in blossom for a second time.

Consolidation of five west side communities in Iron County has been recommended by a regional planning commission to prolong the economic survival of that district. The commission, after analyzing the local tax situation and costs and duplications of communities in the area, recommended that Iron River, Stambaugh, Caspian, Gastra and Mineral Hills vote at an early date to establish a single municipal operation and that the school districts consolidate into a single "logical" district "as the key hope of maintaining or increasing the desirability, livability and economy of the west side" of Iron County. Because of declining mine valuations, the commission believes, the population could decline considerably below present levels.

Some of them are under-capitalized to start with. They do not have the financial strength to weather an unprofitable first year. Others fail because of insufficient experience, because of heavy competition or for other reasons. Enough of them do succeed, however, to warrant the risk.

The figures on new business formations, just released, are contained in a Census Bureau report, prepared with the assistance of the Department of Health, Education and Welfare. They are based on tax reports submitted during the past year. They show that the number of new firms established in Marquette County since 1959, when the previous count was taken, exceeded the number that were discontinued.

By virtue of this net growth, there were 949 non-farm business establishments, each with one or more employees, in operation in 1962, the report shows. It represented a 2.4 per cent increase over the 1959 total of 927.

By comparison, the United States as a whole had a gain of only 1.3 per cent. The State of Michigan had a rise of 1.2 per cent.

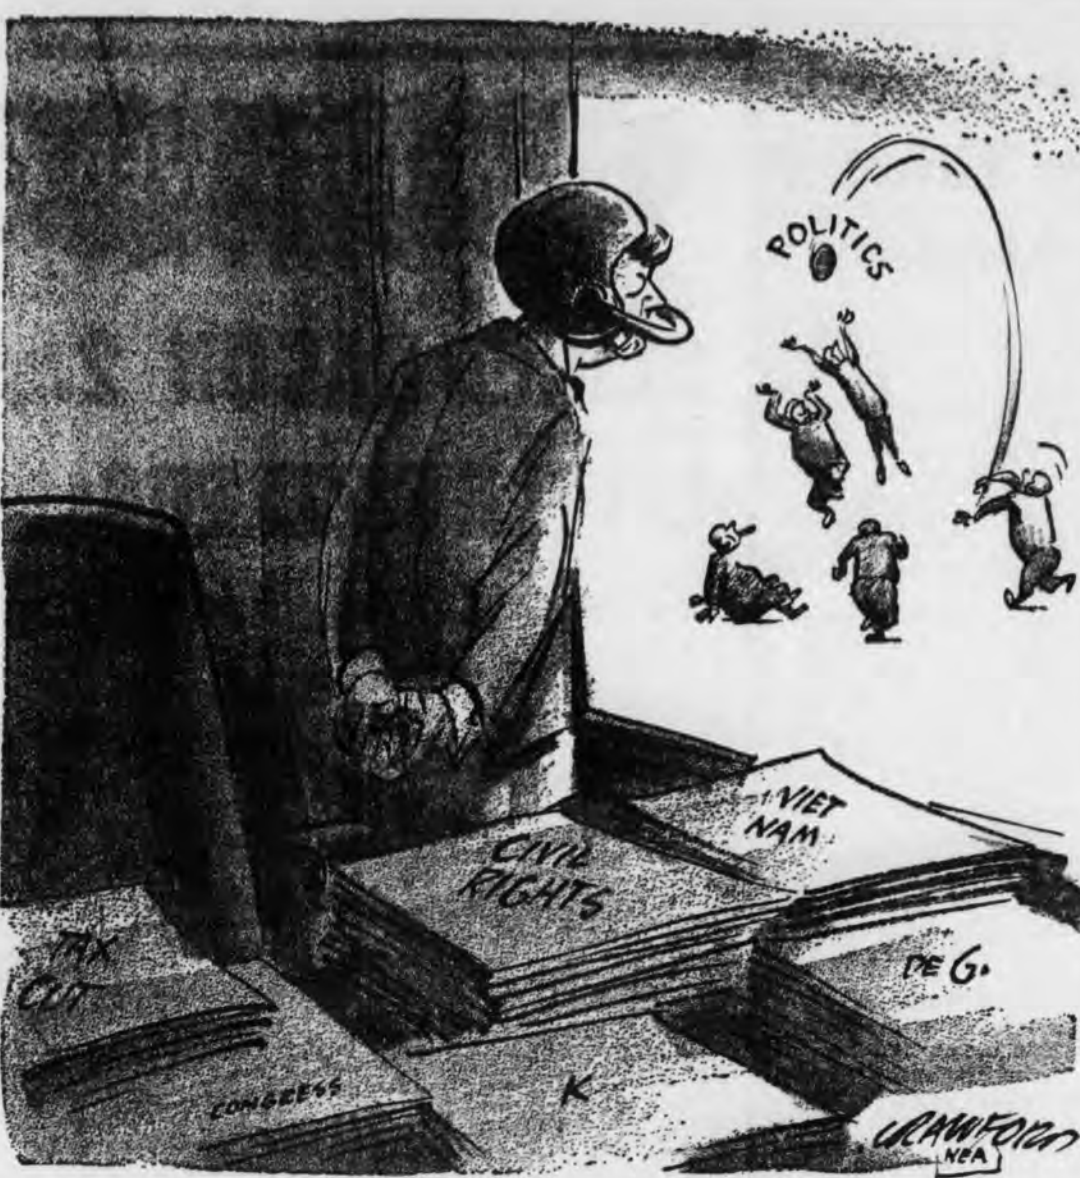

As is the case generally throughout the country, small-size businesses predominate in Marquette County. The breakdown lists 588 of them with from one to three people employed, 168 with from four to seven employees and 124 with eight to nineteen.

As of last year, they provided gainful employment for 9,121 workers. At the time of the 1959 survey, 9,094 employees were reported.

According to the latest findings of the Office of Business Economics, about 437,000 new business firms are established per year in the United States and nearly 400,000 are discontinued.

TO HALT THE ARMS RACE

Seems like we won't make any progress toward halting the arms race until every single country is stronger than every other one.—Changing Times.

The National Whirligig News Behind The News

By ANDREW TULLY

WASHINGTON — In that civilian institution known as Congress, there seemingly will always be a certain knuckle-headed clique determined to abdicate the national tradition of civilian control over the military.

Now a House Armed Services subcommittee has voted 9 to 4 for a bill specifying that each member of the Joint Chiefs of Staff shall be nominated to a fixed four-year term. The bill was introduced by Rep. Carl Vinson, the aging and respected statesman from Georgia, whose only major weakness is a tendency to be impressed by generals and admirals. It will be taken up tomorrow by the full committee which Vinson heads, and the word in the House is inclined

President At Mercy

President Kennedy, however, is dead right in opposing the bill. It is a piece of dangerous boobyism unworthy of Carl Vinson which could saddle a President with military chiefs he doesn't want and who, indeed, might be in open rebellion against their commander-in-chief. Technically, the President could still sack a chief, but the process under the bill of proving unfitness would be long and tedious and, possibly, a peril to national security in a time of crisis.

There is a lot of piffle being talked on Capitol Hill about it being time to rescue our military chieftains from their serfdom to the civilian. They must not become the tools of the men in business suits, it said, lest we all wake up some morning and find we've been murdered in our beds by Khrushchev.

Still Under Civilians

Well, Defense Secretary McNamara has taken over the reins at the Pentagon, as the law says a good defense secretary should. He has made it plain to the generals and the admirals and this country is still being operated by the elected representatives of the plain citizen, as Washington and Jefferson intended, and that they are not to pursue any course independent of the policies of the civilian administration. In the process, some of the brass hats have been dumped, including Adm. George W. Anderson, a former chief of naval operations.

But the chiefs have hardly become tools of the civilian policy makers. They still run their own show, as prescribed by law, which consists of assisting in the planning that goes into policy and then carrying out that policy as approved by the President. If they want one thing and the Secretary of Defense and the President decide on another, that is their tough luck — as it should be.

Boss May Be Bossed

However, if anybody is going to be become a tool, this vote is cast for the Joint Chiefs. Unification of the Defense Department was not enacted for the personal aggrandizement of the military bigwigs but to strengthen the nation's security and to establish the responsibility of the civilian power. No matter which party is in power, the President should have military advisers in whom he has confidence and who he knows will implement his orders without frivolous cavil. The U. S. will not even win the battle over wall-to-wall carpeting, let alone any wars, if the commander-in-chief is to be second-guessed with impunity by the men he commands.

Much is made of the fact that four former members of the Joint Chiefs — Adm. Burke and Generals Twining, White and Decker — have endorsed a fixed term for the chiefs. Of course, they have — they're members of the union, and their feeling is sincere that the military knows best. But their argument is academic in a country founded on the principle of keeping the generals in their place. (Bell-McClure Syndicate)

Life In The News Business

By CHARLES T. BURNS

BOSTON (AP)—When you're in the news business a lot of people, on learning how you make a living, exclaim something like: "Boy, you get to meet a lot of interesting people, don't you?"

Well, let's see.

There was the time in Newark, N.J. it was our custom to eat in a certain downtown restaurant. One night, a friend pointed across the room and said "there's Dutch Schultz." It could just as well have been some German braumeister to us, but that name came up recently during the testimony of gangland informer Joseph Valachi.

Within a couple of weeks Schultz, or more accurately, Arthur Flegenheimer, was forced a lot of lead, right in that restaurant.

Seems you do run into all kinds, at that.

Again, maybe this is an oddment worth recalling. In 1933, when former President Calvin Coolidge died, it was the custom and probably still is, to sound minute guns all day at military installations around the world on the presidential funeral day.

And, at formal retreat, to let go with a volley of 48 rounds—it must be 50 now since it is meant to signify the sorrow of all the states. Anyhow, at Schofield Barracks in the now-state of Hawaii, the volley went off at

LOANS FOR GOLF COURSES

Opponents of federal farm programs have been ridiculing the loans being made in rural areas by government agencies for golf courses, fishing ponds and other recreational services — especially the golf courses; that gives them a real laugh.

Yet sober study of the economics of agriculture leads to the conclusion that federal loans for recreational purposes are good business. Agriculture Secretary Orville Freeman put it in simple terms: "The solution to the problem of too much food and too little recreation is to be found in conservation — wise use of land, water, air, wildlife and forest resources."

Increasing numbers of farmers are finding profitable sidelines or even major enterprises in providing recreational services for the public. In this array of services, golf courses have their place. As a matter of fact, a good many Iowa farmers themselves play golf these days, and many more would do so if the facilities were available. Golf has become a proletarian sport of rapidly growing popularity.

Instead of accusing the government of boondoggling and waste, the opponents of federal farm supply control and price support programs should applaud the promotion of recreation facilities in rural areas. — (Des Moines Register.)

From The Journal Files

90 Years Ago

—Marquette—

The first races on the new Marquette driving park, northwest of the city, will take place on Monday next, track and weather permitting. Two purses are offered, each being 25 per cent of the gate money, two-thirds to the first horse and one-third to the second. The other is for pacers, and both will be covered by the national rules. The admission fee is 50 cents for each person, 75 cents for single carriages and \$1 for double teams. Let there be a good turnout. Half the proceeds are to be devoted to paying the indebtedness of the track. The management hopes for enthusiastic and continued support in appreciation of their enterprise in establishing one of the best tracks in the West.

An effort was made some time since, looking to the organization of a military company in this city, but we believe the project was abandoned, at least temporarily, from the fact that at present the state could not accept the company and provide it with accoutrements. There are now in existence in the state service 12 companies of infantry, the full complement allowed by law prior to Jan. 1, 1874, all of them in the Lower Peninsula. After that, four additional companies may be mustered in each year until the whole number aggregates 24, beyond which, in times of peace, there can be no increase.

The machine for sawing the stone from the Butte Freestone quarries, recently put in operation at the Ericson Foundry, has been running some time and works very satisfactorily. We have in our sanctum samples of the sawing, which indicate that the dressing of this stone for building purposes will be accomplished with a great deal less labor and expense than heretofore.

The new sidewalk and general cleaning up around the First National Bank Building is beginning to make that the most outstanding locality in the city. Pine St., from Ridge to Michigan, also is starting to look much more attractive as it is being macadamized and a sidewalk laid on both sides.

Among the recent improvements in The Mining Journal job shop is a pagging and numbering machine on which stock certificates, bank drafts, checks, etc. can be numbered from 1 to 999,999. Our facilities enable us to defy competition.

60 Years Ago

—Marquette—

There was much comment about the city yesterday in connection with the post office robbery reported from Escanaba, it being the general remark that cracksmen are getting to be altogether too common in the North Country, where they have been heard from a number of times during the past few months. In connection with the Escanaba job, the Marquette police were warned to be on the lookout for suspicious characters, but none such appeared here yesterday, and it is generally believed that the robbers did not head in this direction.

—Ishpeming—

No little surprise was occasioned by the announcement that Escanaba wanted the game with Ishpeming to be played on the Sandy City gridiron, it being taken for granted that Escanaba will be successful in putting Marquette out of the way. It has been

30 Years Ago

—Marquette—

The Francis M. Moore Consistory class, which this morning will be given the final consistory degree work in the closing ceremonial session here of the 26th reunion of that organization, has been named in the honor of the late Herbert L. Ramsdell of Ishpeming, who served as most worthy master of the Peninsula Chapter of Rose Croix. Mr. Ramsdell died in July 1932.

Payment of \$4,000.000 to the counties under the Horton bill will be made between now and Nov. 1, Theodore I. Fry, state treasurer, has announced.

—Ishpeming—

Considerable misunderstanding appears to exist throughout Marquette County, according to officials in charge of the re-registration of destitute families, over the exact purpose of the registration undertaken by the Marquette County Emergency Welfare Relief Commission.

—Ishpeming—

At the meeting last Tuesday of the common council, the fire company was organized by the appointment of G. D. Johnson as chief of the department, W. H. Murray and A. A. Anderson, assistants; Charles McNamara, foreman of the hook and ladder company; T. Donahoe, foreman of hose company No. 1; and Frank Bourke, foreman of hose company No. 2. In choosing fire officers, we believe the common council has made excellent selections and we expect to excel all other towns in the efficiency of our fire department as well as in other particulars.

Someone foolishly rumored around town four or five days since that the pompous corporation known as the Chicago & North Western Railway was to run its passenger cars to this place starting Monday last, but nobody really expected them and the railroad still terminates at Negaunee.

Ishpeming bids fair to become as famous for drugstores as Negaunee before long. There are three here now and more are talked of. The latest was just opened by Fred I. G. Zehauer, formerly with J. Ropes & Co. here, who is branching out for himself in the building next to the new Noras store near the corner of Cleveland Ave. and Second St.

—Negaunee—

The Escanaba Tribune, in its remarks about doings in Negaunee, says that the First National Bank recently put out a circular showing its assets and liabilities, and from the sworn statement of the president, H. E. Haydon, the affairs appear to be in a healthy condition. Mr. Haydon (also president of the Negaunee Bank) denounces as malicious slander that either himself or his bank is indebted to the First National for a single dollar.

A fair for the benefit of the Catholic Church here will commence on the 10th of November at Winter's Hall, continuing for a week. President is Mrs. O'Neill; vice president, Mrs. Kreuse, and manager, Robert O'Neill.

It seems a little strange, now that money is so scarce, how many men manage to get enough to buy liquor and beer. It appears that men and money get tighter together.

Workmen are busy fitting up Healy's Building for the new city drugstore of Taylor & Maas, which will be ready for occupancy soon.

assumed all along that the championship would be decided here. If Superintendent Jaffe refuses to accept any compromise, insisting that the game be played at Escanaba, the matter will be left to the board of control of the Interscholastic Association.

—Negaunee—

The Republic Iron and Steel Co. will not make and reduction in its force of employees at Negaunee. The article that appeared in these columns yesterday created some misapprehension, many thinking that it referred to the local mines. It was distinctly stated, however, that the Mesaba properties were the ones involved in the proposed curtailment. The mine office was besieged by inquiries all day yesterday, people asking "if it were really true that the mine was going to lay off some of the men." The Lilly and Cambria will continue operations on the usual scale.

Horatio J. Abbott, state collector of internal revenue and national Democratic committeeman, as well as other prominent Michigan Democrats, will visit Ishpeming Nov. 9, according to information received here today by Connor C. Cowpland.

—Negaunee—

A county American Legion Auxiliary organization was formed here last night when approximately 100 members of the Marquette, Negaunee, Ishpeming and Republic units attended a banquet in the Chocolate Shop and the installation of officers, conducted in the fire hall.

Mr. and Mrs. James Scanlon and daughter Marguerite have arrived from Detroit to visit relatives and friends.

The Girl's Club of the Calvary Baptist Church will meet this evening at 7:30 in the church parlors.

A Last Ugly Footnote

By JOSEPH ALSOP

WASHINGTON — One last, rather ugly footnote is required by this reporter's just-completed Asian journey. In brief, if the signs in the Far East mean anything at all, President Kennedy's troubles with President Charles de Gaulle have only just begun.

At the moment, former French Prime Minister Edgar Faure is paying a kind of good-will visit to Communist China, reportedly with official encouragement from the de Gaulle government. More important still, the head of one of the big French oil and general trading companies, Guillaume Georges Picot, left Peking only a couple of weeks ago, after a long stay as the leader of a trade mission representing the French Manufacturers' Association.

Recognition Of Communist China

In addition, during his recent visit to Washington, French Foreign Minister Maurice Couve de Murville let drop the remark to Secretary of State Dean G. Rusk that it was now "illogical" not to recognize Communist China. From these portents, certain tentative predictions can be made.

First, Gen. de Gaulle will probably recognize the Peking regime if suitable conditions can be negotiated. This means, above all, that the French must not be put in the same humiliating category as the British, who fell over themselves in their haste to recognize Mao Tse-tung's government, but are still not permitted to have a representative in Peking above the rank of charge d'affaires. De Gaulle will only be satisfied with sending an ambassador of full rank and receiving one in return.

Second, this mutual recognition, if it is arranged, will probably be accompanied by the extension of substantial French credit to the Chinese Communists. The choice of Georges Picot to head the trade mission implies the hope of petroleum exports to China, to replace the oil fuel the Chinese still precariously import from the Soviet Union. If the credit is extended, the terms are likely to be designed to set a pattern, which may be followed by the Japanese and others who are tempted to do business with the Chinese Communists.

Potentially Damaging Maneuver

The French are quite astute enough, of course, to see that they are highly unlikely to make large profits from trade with Peking. There is also nothing that makes recognition of Communist China more "logical" today than it was in the past. As always in the past, France and her African allies have just, once again, cast their votes against Communist China's admission to the United Nations. But that, apparently, is likely to change next year.

What, then, are the motives of this significant and potentially damaging new maneuver, to which the French government is known to be giving active consideration? The answer appears to be that "motive" is the wrong word.

This is rather a reaction — an instinctive rather than a motivated reaction — to Nikita S. Khrushchev's snub of Gen. de Gaulle, to the nuclear test-ban treaty, to the slight warm-up of Soviet-American relations and to other linked phenomena. In other words, if Moscow insists on treating President Kennedy as the one Western leader with whom it is worth doing business, the grandeur of France demands a comparable relationship with the other Communist giant.

These are shocking things to say. But shocking things have happened already, and the fact that they have happened increases the probability that a French policy-change toward Peking is in the wind. From Saigon, this reporter sent the news of an elaborate, long-continuing French intrigue to defeat American policy in Viet Nam, by promoting conversations between the North and South Vietnamese "behind the backs of the Americans."

Existence Of Intrigue Denied

The phrase is quoted from President Ngo Dinh Diem's brother, Ngo Dinh Nhu, who is both the primary target and the intended mainpring of the French intrigue. South Viet Nam would have been set out to the Communists to the North if Ngo Dinh Nhu had succumbed to the quite elaborate French-organized petitions (which included careful softening-up by the French ambassador to Saigon, the well-timed Olympian comment by President de Gaulle and a private message from the North Vietnamese premier, Pham Van Dong). The option, it must be added, is always open to Nhu.

On extremely specious grounds, the existence of this intrigue was officially denied to the U. S. ambassador in Paris, Charles E. Bohlen. The denial merely increases the unpleasantness of the facts, which cannot be doubted. The French government has, of course, previously indicated lack of sympathy with U. S. policy in Viet Nam. But there is the longest possible step between an honest indication of lack of sympathy and embarking on a secret intrigue to defeat the policy of a presumed ally — with no notice given to the ally, of course. From these facts, future French intentions must be judged.

Tax Cut And Civil Rights

By JAMES MARLOW Associated Press News Analyst

WASHINGTON (AP) — It sounded like a death-rattle in Congress for the two programs President Kennedy has his heart set on in 1963 — civil rights bill and a tax cut.

Sen. Everett M. Dirksen of Illinois, who is soft on big words, says he has real doubt either measure can "eventuate" this year. As the Republicans' Senate leader, he is a man to be listened to.

Long List Of Witnesses

Time, testimony and tenacity stand in the way.

The House has voted a tax cut bill but now it is tied up in the Senate by a long list of witnesses is waiting to testify at the Senate Finance Committee hearings which Dirksen says may run till Christmas.

The full Senate can't vote until the committee finishes with the bill.

Byrd Unenthusiastic

The man in charge of these long drawn-out hearings — Chairman Harry F. Byrd of Virginia — like other Southern Democrats is against the civil rights program and he has been unenthusiastic about a tax cut from the beginning.

Southern Democrats, tenacious for generations in their opposition to civil rights legislation, are determined to try to filibuster the civil rights bill to death — if and when it gets to the Senate.

Almost Unbelievable Snarl

But if the Senate gets tangled in a civil rights filibuster before it can get around to tackling the tax bill — which is likely if the tax bill gets sufficiently delayed in Byrd's committee — tax cutting seems sheltered for 1963.

But the civil rights bill not only hasn't passed either the House or Senate — it's going to have to pass the House before the Senate considers it — it hasn't even been approved by the House Judiciary Committee.

The full House won't be able to vote on the bill before the committee approves. But the committee hasn't approved yet because the civil rights bill is now in an almost unbelievable snarl.

Dominated By Democrats

The Judiciary Committee, headed by Rep. Emanuel Celler, New York Democrat, has 35 members: 21 Democrats, 14 Republicans. But Northerners and liberals of both parties dominate.

As usual in considering a bill, Celler assigned the preliminary

task to a subcommittee dominated by Democrats of his choosing, and he's a liberal Democrat.

Pressure From Negroes

This subcommittee, under pressure from Negroes and ardent civil rights supporters to approve a bill much stronger than the Kennedy administration proposed, has done just that.

Now, if the subcommittee sends its manufactured product to the full committee, the North-erners of both parties there will sweep it through over the opposition of the Southern Democrats and conservative Republicans.

And what the full committee approves will go to the full House for a vote.

Subcommittee Hasn't Budgeted

But, since opposition from Southern Democrats is certain, Kennedy feels that in the final House vote he will need all the support of other Democrats and Republicans he can get.

The kind of bill approved by the subcommittee seemed too sweeping to get that kind of support. So his brother, Atty. Gen. Robert F. Kennedy, went to the committee to ask it to tone down the bill.

The subcommittee, dominated by liberal Democrats from the North where Negro votes are important in next year's elections, hasn't budgeted. But neither have the liberal Republicans.

President In A Box

This put the President in a box, feeling as he does that the bill as it stands has no chance. So in the past few days he called White House conferences with House leaders of both parties.

This put him in an even stranger kind of box. Asking Republican leaders to twist the arms of Republicans on the committee to go along with the idea of a milder bill, particularly since Republicans have a civil rights bill of their own that they want the Democrats to approve.

At this point it's a mess, although both parties have said civil rights should be kept out of politics.

Financial Scene: New Concept In Industry Sites Noted

By JACK LEFLER NEW YORK (AP) — A new concept of plant location — regionalization — has taken hold in American industry.

Early this century industry was primarily concentrated in the urban areas, especially in the northeastern section of the country.

A move to the suburbs, which began just before World War II to achieve straight-line production and expansion, was accelerated in the 1940s by decentralization of defense industries.

Close To Markets Now industry is setting up production units close to regional markets instead of shipping manufactured goods to consumers from plants traditionally located near sources of supply.

Leonard Yaseen, senior partner of Pantus Co., international plant location consultants, says the emphasis has been placed on markets rather than raw materials.

Oklahoma, opened new glass-making facilities in North Bergen, N.J., and Atlanta, Ga. Its natural gas and glass sand sources are mainly in Ohio and Oklahoma.

The American Can Co. of New York has constructed a plastics container manufacturing unit at Shelbyville, Tenn., and the A. H. Wirtz Co. of Chester, Pa., manufacturer of toothpaste tubes, erected a plant at Carrollton, Ky.

Stassen Wants Divided Germany Admitted To U. N. DETROIT (AP) — Admission of both West and East Germany to the United Nations was advocated by Harold E. Stassen in a speech Sunday in which he also urged that American food

be given to Cuba and China. Stassen, calling the present U. S. foreign aid program "wasteful and ineffective," said it should be replaced with a program insuring investments abroad of American business.

"Wasted, Corrupted" "U. S. Dollar grants to governments as now conducted and so much largely wasted or corrupted away should end," Stassen said. Stassen, president of the American Baptist Convention, onetime candidate for the Republican presidential nomination and former Minnesota governor, addressed the annual Detroit Council of Churches' Reformation Day rally. He spoke to an audience of 7,000 at Cobo Hall.

Yaseen says the trend to regionalization must be sound when the nation's largest industry—automobiles—now has assembly plants in every major U.S. region. Breweries, he says, also point up the trend with almost every major beer company establishing regional facilities.

Yaseen adds that almost every new industrial job created in the Eastern Central states is now counterbalanced by the hiring of another production worker in the West of South.

Action-U.P. Agent Cites Region Meet Upper Peninsula citizens have been invited to participate in a Business Opportunities Conference in Milwaukee Friday, Nov. 22, William F. Wilson, Marquette, executive manager of Operation Action-U.P., said today.

Regional businessmen will be brought into direct contact with buyers and potential buyers at the conference, which will be held in the Milwaukee Vocational School, Wilson said. In addition to the City of Milwaukee, sponsoring organizations are the Milwaukee,

3 From City To Go To MSU Parley

Three members of the Marquette County extension staff will attend the annual extension conference of the Michigan State University Extension Service to be held in Lansing tomorrow through Thursday.

Attending from Marquette will be Melvin N. Nyquist, county extension director; Paul Shogren, county 4-H Club agent, and Olive Sain, home demonstration agent.

Michigan's First Lady, a sociologist and a biophysicist next week will offer ideas to the 400 extension staffers on working more effectively in to-

JFK To Get GOP Reply On Appeal

WASHINGTON (AP)—President Kennedy gets the answer today to his request for bipartisan agreement on a civil rights bill.

The House Judiciary Committee is due to vote Tuesday on a bill Kennedy fears is too controversial to pass. Whether it can be blocked depends on the success of an intensive selling campaign by the administration.

Since Thursday, when Kennedy won a postponement of the

Does BLADDER IRRITATION MAKE YOU NERVOUS?

After 21 common kidney or bladder irritations affect twice as many women as men and may make you tense and nervous from too frequent, burning or itching urination, try this new medicine. It's called Cystex. It's usually taken fast, relative comfort by evening. Irritating germs in strong, acid urine and by analgesic pain relief. Get Cystex at drugstore. Feel better fast.

Shown conferring during the Upper Peninsula \$100 per plate Republican Party fund-raising dinner meeting held in the National Guard Armory in Ishpeming Saturday night are these five persons, all of whom had roles in the meeting. From left are Ralph Huhtala, Iron Mountain, Upper Peninsula finance chairman for the Republican Party; Jean Worth, editor of the Escanaba Daily Press, who served as master of ceremonies; Admiral Arleigh A. Burke, U.S.N. Ret., the speaker; Rep. Victor A. Knox, Sault Ste. Marie, 11th District congressman, and Orden E. Johnson, Ishpeming, in charge of local arrangements for the meeting. —(Mining Journal photo.)

Burke, At GOP Rally, Blasts Demo Policies

Related Story, Photo on Page 4

ISHPEMING — Rear Admiral Arleigh A. (31 Knot) Burke, retired Navy officer and former chief of Naval operations and member of the Joint Chiefs of Staff, has gone full steam ahead against the policies of JFK and the Democrats.

In his first partisan political address here Saturday night, at the Upper Peninsula Republicans' \$100 per plate dinner meeting, Adm. Burke leveled all his 16-inch guns and fired broadside at both the international and domestic policies of the Democrats and the Kennedy Administration.

Sharply criticizing what he termed "appeasement, solutions for expediency's sake and illusions of solutions," Burke ripped into the Democrats, blaming them and their policies for "allowing the Communists on the international scene and the bad monetary programs on the domestic scene to run completely out of hand."

Adm. Burke got the nickname, "31 Knot," observed Master of Ceremonies Jean Worth, editor of the Escanaba Daily Press, because of the reputation he attained in "driving his men hard to help win World War II."

Addressing his audience in the National Guard Armory here with a methodical checklist of alleged failures and ineptitudes, Burke charged there was a stark parallel in the manner in which the Democrats fail to meet international and domestic problems headon.

'Neglecting Causes'

"We are treating the symptoms, but often neglect the causes," he asserted. "These problems are serious."

He listed four main elements of this decency for "superficial treatment" as follows:

"1. We don't do anything about small problems.

"2. When the problem gets big, we attack it only on its week points.

"3. When the problem gets in full bloom, we look for the easy way out — the way which doesn't hurt (i.e., 'let's not hurt Khrushchev's feelings'). But the problem doesn't go away.

"4. When a problem grows, there's a way to effect temporary relief (which will do, like before an election, for the balance of a congressional session), which is done simply to ease the situation."

Require Sacrifices

Those steps, he said, may win elections, "but we may lose everything in the final accounting if we continue in this manner."

Long-term solutions, he said, sometimes require sacrifices, and they may be unpopular solutions. "But we tend to rely on tranquilizers, instead of really facing these problems," he

said. "The Democrats have used the expedient treatment method."

International Communism Is Our Biggest Problem, he said. "Despite warnings," he declared, "it was too easy to accept Communism, to ignore its core doctrine of international Communism and revolution. They laughed off 'that little band of Bolsheviks.'"

"The cancer of Communism has seared Russia, much of Europe, China and other parts of the world. We ignored the Red Army swallowing up Eastern Europe. We hoped it would all work out in the end, but the Reds continued — in Mongolia, Tibet, Indo China and elsewhere."

Pattern Of Cuba

Burke said the same pattern of Cuba is visible elsewhere in Latin America, with the JFK people believing that all that has to be done is to pour large amounts of money into Latin America.

"Money will help," he said, "but it won't buy your way out of this trouble. It takes an example of prudence and hard work to triumph."

Communism, he said, has grown "like a germ in Latin America. We say it won't happen any other place in this hemisphere, but it has happened once and it will happen again, if we don't act."

Shadows On Lebanon

"Red shadows were cast on Lebanon, but we shattered them with ships. They were after Taiwan, but we put the 7th Fleet there and the Reds stopped."

Soviet ultimatums and aggression have been encouraged by the Democrats, he charged, and the U. S. considered the Berlin Wall as "one of these minor points. We fostered the illness by allowing the wall to go up."

"We cured some of the Cuba problems (missiles), but not all of them. There is a Communist government in Cuba, and there can be no more in this hemisphere or we will be in serious trouble."

'More Difficult Now'

Opportunities to cure this situation will be more and more

difficult from now on, he said, and he cited trouble with the Reds elsewhere on the globe, such as in New Guinea (where Sukarno of Indonesia "wants to gain control by aid of the Reds and where we put pressure on the Dutch to yield to Sukarno)."

"We took sides with a dictator, and now he wants more (British North Borneo, Malaysia, etc.)."

Laos, he said, is a good example of what happens when appeasement is followed, the easy course rather than the long, hard solution. If the Reds succeed in Southeast Asia, they will have succeeded in cutting the world in half, he said.

Burke said Laos is gradually slipping into Red hands. "Shifting Responsibility"

"Does anybody doubt the eventual outcome there?" he asked. "We're simply shifting the responsibility. These problems are not going to be easy for us to solve, and if we don't solve them soon we won't be able to. Just where do we cause the Communists to stop?"

Turning to the internal scene, Burke said the Democrats take the most popular action ("the one which wins votes") to meet domestic issues. He termed the big domestic problems as being (1) the balance of payments (loss of gold reserves) and (2) the tremendous debt.

Some action has been taken, he agreed, but these steps have not cured anything; "we still have a tremendous imbalance of payments, and stronger measures are needed to eliminate this imbalance."

Concerning the wheat sale for Russia, Burke said what we gain in dollars and gold may not be enough to balance the power gained by the Soviet Union as a result. "And there will be other deals to follow," he predicted.

Burke said the U. S. marveled at the economic recovery of Germany and Japan, but it can't follow the sound advice we gave them, namely "pay your debts and make sure your income is greater than your

outgo." The \$9 billion deficit (estimated) for this fiscal year is almost \$3 billion more than last year, and the JFK administration has piled up deficits each year, he said, noting that 1960 (under the Republicans) was the last year when the U. S. had a surplus.

"We are going into debt very rapidly," Burke said. "We must either pay it or inflate (to cancel the debt), but in some way we have to get rid of it. There is \$10 million alone in annual interest on the national debt. Sooner or later we'll have to face this problem head-on."

The speaker charged that the confidence in the dollar is lessening by "this irresponsible fiscal policy. We all want tax cuts, but we can pay off debts only by increasing taxes, by encouraging inflation or by floating bonds, with the latter method pulling a lot of money out of circulation."

Must Have Economy

"This is why some congressmen are insisting on having expenditures cut before we have a tax cut," he said. "Otherwise we are only kidding ourselves."

Domestic programs of the Democrats have resulted in increased spending by government, with countless federal aid programs.

"How do we preserve our individual freedom?" he asked. "We have to make some realistic approaches to these problems."

"These are all examples of failing to recognize big problems and meeting them in their infancy. Policies of expediency won't help. The problems must be solved if we are to do anything, but we are treating the symptoms and not the real causes."

'No Longer Can Delay'

"We don't have too much time to do something about them. We can't afford wishful thinking or expediency any longer. We can't wait for someone else to do it."

"Compromise and delay have become the epitaph of our freedom. We just can't delay any longer."

Interior Secretary Stewart L. Udall wants to make Assateague Island, which is off Maryland and Virginia, a National Seashore.

difficult from now on, he said, and he cited trouble with the Reds elsewhere on the globe, such as in New Guinea (where Sukarno of Indonesia "wants to gain control by aid of the Reds and where we put pressure on the Dutch to yield to Sukarno)."

"We took sides with a dictator, and now he wants more (British North Borneo, Malaysia, etc.)."

Laos, he said, is a good example of what happens when appeasement is followed, the easy course rather than the long, hard solution. If the Reds succeed in Southeast Asia, they will have succeeded in cutting the world in half, he said.

Burke said Laos is gradually slipping into Red hands. "Shifting Responsibility"

"Does anybody doubt the eventual outcome there?" he asked. "We're simply shifting the responsibility. These problems are not going to be easy for us to solve, and if we don't solve them soon we won't be able to. Just where do we cause the Communists to stop?"

Two Autos Wrecked, 3 Drivers Ticketed

L'ANSE — Two cars were totally wrecked and two others damaged in three accidents in the area. Three of the drivers were ticketed.

Daniel Paquette, 19, Baraga, ran his car off the Bay Shore Road, near Seifert St., rolled over and landed in the lake at 4:10 Sunday morning. The wrecked car had to be hauled away by a wrecker. Paquette and a passenger, Earl Froberg, 19, Keweenaw Bay, were shaken up and bruised, but did not require hospitalization.

State police officers issued Paquette a summons for violation of the basic speed law (too fast for conditions).

Warner Heitikko, 54, Pelkie, miraculously escaped serious in-

jury when his car was struck broadside by a heavily loaded lime truck on the Pelkie Road about one mile north of Pelkie. According to sheriff's officers, Heitikko pulled out of his driveway onto the road directly into the path of the huge truck, driven by Francis R. Bammert, 29, Ahmeek.

Heitikko was treated for minor injuries, but was not hospitalized. His auto was demolished and had to be towed away by a wrecker. The front bumper and fender of the truck, owned by Oiva W. Niemi, were damaged, but it was driven from the site.

Heitikko was ticketed for failing to yield the right-of-way.

An auto driven by Arvo Jalkanen, 43, Chassel, struck a deer on U. S. 41, one mile south of L'Anse. Jalkanen told state police one deer crossed the road in front of his car without mishap, but that a second one leaped onto the road ran into the path of his auto. Jalkanen's car was damaged, but he was able to drive it away. The deer ran off into the woods

Course In Hat Making Offered In Negaunee

NEGAUNEE — As a result of interest indicated in continuation of the hat making course, which was offered for the first time last year, the class has been added to the 1963-64 Negaunee adult education program. R. K. Richards, high school principal, announced today.

Mrs. Anne Bussone, who has had considerable experience in this field, will serve as instructor.

Registrations for the class are now being accepted, and it is planned to hold the first meeting of the group at 7 Thursday night, Oct. 31, in Room A-5 of the high school.

An additional feature this year will be instruction in shoe covering.

A nominal tuition will be charged. The cost also will include expenses for materials used in various projects.

Persons interested in enrolling should call the high school principal's office, GR 5-4321.

and was not recovered.

Officers ticketed Jalkanen for driving a vehicle with defective brakes.

2 Injured In Mishap On Road 553

ISHPEMING — Two persons were injured in an accident on County Road 573, about 4.5 miles north of U.S. 41, in Ishpeming Township, at 9:20 yesterday morning.

State police said a car being driven north on Road 573 by Leonard Laurila, 21, of 1020 Pine St., Negaunee, went out of control as he was rounding a right curve. The vehicle traveled off the right side of the roadway, striking some guard rails.

David White, 17, of 444 Peninsula St., Negaunee, sustained lacerations on his forehead, and Wayne Lemire, 18, Sherman St., Marquette, suffered a broken tooth.

The two, both passengers in the car, were taken to Bell Memorial Hospital for treatment.

Apparently no damage resulted to Laurila's car, a 1946 model. Laurila was ticketed by state police for violation of the basic speed law.

2 Ishpeming Motorists Get Tickets

ISHPEMING — Two Ishpeming motorists were ticketed this weekend by Ishpeming police following minor traffic accidents.

Saturday afternoon a car owned by Arthur G. Brown, 635 N. Fourth St., which was left unattended with the motor running, rolled backwards after Brown inadvertently tripped the gear shift into reverse. The car traveled 25 feet before hitting a parked car owned by Wayne E. Anttila, 113 E. Superior St.

Both vehicles received minor damage and Brown was ticketed for having an unattended motor vehicle.

Yesterday at 5 p.m. Michael R. Lummakka, 762 Maurice St., Ishpeming, was ticketed for failure to have his car under control. His car stalled and while it was rolling backwards, it was struck by another vehicle approaching from the rear. Both cars were damaged.

Obituary

ARTHUR HENDERSON

GRAND MARAIS — Services for Arthur Henderson, 61, Grand Marais, who was burned to death when fire destroyed his home, were held at 1 this afternoon in the First Lutheran Church here. The Rev. Evert Torikko, Newberry, officiated and burial was made in Grand Marais Cemetery.

Mr. Henderson, who was born May 8, 1902, in Manistee, was employed for 20 years as an industrial painter by the Austin Construction Co., Midland.

Survivors include four sisters, Mrs. Stanley (Meta) Dalia of Lombard, Ill., Mrs. Louise Syring and Mrs. Dorothy Culbertson of Tucson, Ariz., and Mrs. William (Lucy) Fryan of Midland, and two brothers, Donald of Chicago and William of Midland.

MISS GRACE E. BISCOMB

NEGAUNEE — Miss Grace E. Biscomb, former Negaunee resident, died suddenly Saturday in her home in St. Clair Shores, Mich.

She leaves two sisters, Mrs. Rhettie Ibbotson and Mrs. Mildred Jones of Sault Ste. Marie, and a number of nieces and nephews.

Services will be held at 2 Wednesday afternoon in the Koskey Funeral Home here. The Rev. Byron Hatch, pastor of Mitchell Methodist Church, will officiate and burial will take place in Negaunee Cemetery.

Friends may call at the funeral home Tuesday night.

Ladies Help Boost Soccer Attendance

SEMBOR, YUGOSLAVIA — The Radnicki Soccer Team of this North Yugoslav city tried a new trick to attract more people to its games.

The club announced women would be admitted free.

It worked, officials said. More men came, as paying escorts of women who wanted to see the games free.

State, Peninsula WWI Vets' Officers In Ishpeming Nov. 2

ISHPEMING — Twin City Barracks and Auxiliary will be hosts to district and state officers of the Veterans of World War I, Inc., at a meeting Saturday, Nov. 2, in the American Legion clubrooms.

All barracks and auxiliary members are invited to the get-together, which will start at 6 p. m.

A pasty supper will be served at 6:30 and all reservations must be phoned to either Mrs. Stella Sundlie, HU 6-4224, or Mrs. Lars Sundlie, HU-6250, before Friday.

Honored guests will be the state commander, Harold Sessions, and state president, Mrs. Madaline Sessions, Lansing; state senior vice commander, Vital Payant, and deputy chief of staff, Mrs. Anna Payant, Iron Mountain; Upper Peninsula commander, Clement Mollignoni, and U.P. president, Mrs. Anna Mollignoni, Menominee.

A special invitation is extended to all non-member veterans of World War I and their wives and to widows of veterans.

State officers will inform members on the latest legislation and report on the pension bill. Eighty-seven congressmen have signed the recall petition of HR 2332, the pension measure sponsored by the Veterans of World War I.

Income limitations set forth in HR 2332 are \$3,600 for a veteran with a dependent and \$2,400 for a single veteran. In order to qualify for benefits under this proposal, any man must have served at least 90 days.

Passage of the bill would materially assist service-connected veterans inasmuch as under the bill they would have the right of election or re-election if they so desire.

This bill also would hike World War I widows' pensions from \$50.46 to \$76 a month.

Fronting on Atlantic City's five-mile-long boardwalk are 35 hot dog stands, 25 restaurants, 10 popcorn stalls, 50 novelty shops, 15 amusement parlors, four shooting galleries, five miniature golf courses, 33 clothing stores, two furriers, two stockbrokers and two phrenologists.

Grace Episcopal—Holy Communion at 10 a.m. Wednesday.

Salvation Army — Ladies Home League at 7:30 p.m. Wednesday. Midweek prayer service at 7:30 p.m. Thursday.

Bible Baptist — Midweek Bible study and prayer meeting at 7 p.m. Wednesday.

St. Joseph's Catholic—Week-day Masses at 8 a.m.

Ahmeek Lodge, IOOF, at 7:30 p.m. Thursday in lodge temple.

SPEBSQSA practice at 7:30 tonight at the Ski Hall of Fame.

Ishpeming VFW Post at 7:30 tonight.

Ishpeming Choral Club at 7:30 p.m. Tuesday.

Zenith Lodge, Knights of Pythias, Wednesday night.

Choraleers practice at 7:30 p.m. Thursday.

Wesley Methodist — Elizabeth Circle at 1:30 p.m. Tuesday at the church and at 2 p.m. will meet with the Naomi Circle. Wesley choir rehearsal at 7:30 p.m. Wednesday. Youth choir rehearsal at 4 p.m. Friday. Susanna Wesley class at 7:30 p.m. Friday at home of Mrs. Chrissie Scarffe. Youth membership class at 10 a.m. Saturday.

Lady Elks at 8 tonight.

Ishpeming Youth Center Council at 7:30 tonight in Ishpeming City Council chambers.

Bethel Lutheran — Bible study and prayer fellowship at 7:30 tonight. Ladies chorus at 7:30 tonight. Children's choir rehearsal at 3:45 p.m. Tuesday. Luther League choir rehearsal at 7 p.m. Tuesday. Senior confirmation at 4:15 Wednesday afternoon. Church choir rehearsal at 7 p.m. Wednesday. Finnish devotional service at 7 p.m. Thursday. Junior confirmation at 9:30 a.m. Saturday.

Evangelical Covenant — First year confirmation class at 3:45 p.m. Wednesday. Trailblazers Halloween party at 7 p.m. Wednesday. Midweek service at 7:30 p.m. Wednesday, followed by senior choir rehearsal at 8:15. Second year confirmation

class at 4 p.m. Friday.

Bethany Lutheran — Bethany choir at 7 p.m. Wednesday. Area Echoes conference at 8 p.m. Wednesday, with Dr. Ralph Jalkanen, speaker. Hostesses, Mrs. Marvin Nadeau, Mrs. Hector Magnuson, Miss Marion Sundberg, Mrs. Elsie Swanson, Miss Dora Swanson, Mrs. Walter Tregear, Mrs. Philip Nelson, Miss Leona Nelson, Mrs. Oscar F. Strand and Mrs. George Ulrickson. Bethany Family Night dinner at 6:30 p.m. Friday.

The management of Meramec Caverns in Stanton, Mo., has hired dozens of college boys to drive the bats from the cave and then put a screen to keep them out. They're calling it "Operation Com-bat."

Obituary

MRS. RAY STENDER

REPUBLIC — Mrs. Ray Stender, the former Ethel Laxo of Republic, died last Thursday in Modesto, Calif. Services were conducted Saturday. Survivors include three sisters, Mrs. Herman Matero of Negaunee and Mrs. Gertrude Pohndorf and Mrs. Irene Teran of Oakland, Calif., and three brothers, Calvin of Hayward, Calif., Rudy of Houston, Tex., and Axel of Republic.

Boy Slightly Injured In Gun Mishap

ISHPEMING — Michael Mariuzza, 13, Route 1, Ishpeming, was slightly injured in a hunting accident Saturday.

State police who investigated said it took place at 1 p. m. Saturday while Mariuzza was rabbit hunting in Ely Township with a friend, Edward St. Andre, 16, Route 1, Ishpeming.

The boy was shot in the left side with one pellet. He was treated by an Ishpeming doctor. State police said St. Andre had "scared up" a rabbit and as he swung around to shoot, Mariuzza came into his line of fire.

Immanuel Lutheran pastors class and teacher training course on doctrine of the church will meet Wednesday night at 7. Those interested in membership also may take this course.

Mid-week services at Apostolic Lutheran Church will be held Wednesday night, instead of Thursday, in Finnish at 7:30 and in English at 8:15, with the Rev. Reuben Kauppila in charge.

The Priscilla Circle of Bethany Lutheran Churchwomen will meet Tuesday night at 7:30 in the church parlors. The hostesses will be Mrs. Edna Roy.

The Women's Choral Club will meet at 7:30 tonight in the high school band room.

The Daughters of Isabella will hold a business meeting tonight at 7:30 in St. Paul's School. Election of officers will be held. Mrs. Albert Herman

will be the chairman, assisted by Mrs. Alvin LaMere, Mrs. Joseph Gleason, Mrs. Oliver Meni and Miss Gilda Nocenti.

A special meeting for Negaunee Camp Fire Girls, Inc., will be held tonight at 7:30. Miss Christine Westgate, field representative of the 8th district, will be guest speaker.

Steelmaking Hits Plateau

CLEVELAND — Steelmaking has reached a plateau near 62 per cent of unofficial capacity and is expected to rise only fractionally the next few weeks, Steel magazine said today.

Ingot production this week is expected to be slightly higher than the 1,910,000 tons that Steel estimates the industry poured last week.

October's production of 8.4 million tons boosted the total for the first 10 months of this year to 92 million ingot tons. That's nearly 12 per cent above production in the same period last year (\$2.4 million tons).

Despite higher steelmaking operations, steel's price composite on No. 1 heavy melting grade of scrap held at \$27 a gross ton for the ninth straight week.

Definite uptrend

Steelmakers are cautiously

predicting November shipments will equal or exceed October's. In the last two weeks, there has been a definite uptrend in orders. Some mills have seen daily orders accelerated to a level 10 to 15 per cent above that of late September. Here's why:

Automakers are stepping up production in response to record sales. They're planning to build 6 per cent more cars this quarter than in the same quarter in 1962. Though the largest companies may not complete inventory adjustment until year-end, they're placing monthly orders equivalent to 85 per cent of their requirements.

Construction activity is still good. Appliance manufacturers are riding a sales boom and buying huge quantities of flat rolled steel. Many have completed inventory adjustments.

Miscellaneous users are accelerating their orders and pressing for quick deliveries—a sure sign they've stopped cutting inventories.

Although inventory liquidation by small consumers is tapering off, bigger users are expected to continue cutting stocks for at least the next two

months. **Little Liquidation** Steel says there has been relatively little liquidation since inventories topped out at a level four million tons above that of Jan. 1. Even if supplies drop by 1.5 million tons this quarter—and that's about as much as anyone expects—they'll still be 1.5 million to two million tons higher at year-end than they were at the start of the year.

There'll be little liquidation in the first quarter of 1964 if the economic outlook remains favorable. If users are optimistic, they'll want fairly sizable inventories.

Imports of steel mill products in 1963 will far surpass the 1959 record of 4.4 million tons if the present trend continues. Latest figures show we imported 3.5 million tons valued at \$41.5 million and exported 1.37 million tons worth \$297 million in the first eight months. Foreign trade deficit: \$114.5 million (vs. \$50.5 million in same period in 1962).

CARD OF THANKS

We wish to express our heartfelt thanks and sincere appreciation to our many relatives, friends, and neighbors for their many acts of kindness during our recent bereavement, the loss of our husband and brother, Henry A. Henrickson. We especially wish to thank the Rev. Paul E. Holmstrom, the Kosky Funeral Home, Mrs. Gordon Richard, Mrs. George Collins, the American Legion and ladies who donated their services, pallbearers, those who sent flowers, cards and donations and all who helped in any other way. Your acts of kindness will always be remembered.

Fatigue Factor Works Against Wildcats In 28-17 Loss To Omaha

Perhaps the best way to begin explaining Northern Michigan University's 27-17 defeat at the hands of Omaha University Saturday in Omaha would be to quote the following from the game program, written by the OU athletic department:

"Few schools in the nation play a tougher schedule. Parsons, Central Michigan, Hillsdale, State College of Iowa, Detroit and Southern Illinois have all been in the nation's small college top ten in the past two years."

A 39-yard drive. Meyers booted thus far in the season. The fatigue and injury factor is of great importance in NMU's schedule and is responsible for the Wildcats' inability to play a second half which equals the first.

Jack Mauro, Jim Decker, Bill Rademacher, Len St. Jean and Pat Stump turned in fine defensive performances despite their obvious fatigue, and Nyquist booted his way to a new peak in kicking performance.

Bangert, who plays on one good knee and one which needs only one bad twist to render it useless, smashed for yardage as though he had eight legs to count on, and Erickson bashed out yards in his usual consistent manner.

Here are the statistics:

First Downs 17 12
Yards Rushing 259 83
Yards Passing 110 111
Total Yards 369 194
Penalty Yards 30 70
Net Total Yards 339 124
Passes Attempted 17 17
Passes Completed 10 6
Intercepted By 2 0
Fumbles 2 2
Punt Average 6-36.5 6-44.3

Scoring: OU — Kiscoan, 2 TD's on passes from Meyers; Meyers, 1 TD; Kettle, 1 TD on pass from Meyers; Meyers, 4 extra point kicks.

NMU — Erickson, 1 TD; Nyquist, FG; Bangert, 1 TD; Nyquist, 2 extra point kicks.

disappointing 2-4-1 showing thus far in the season. The fatigue and injury factor is of great importance in NMU's schedule and is responsible for the Wildcats' inability to play a second half which equals the first.

Gordie Hits 544 Goal Mark, Wings Lose Game Anyway

DETROIT (AP) — Gordie Howe, the Detroit Red Wings' Golden Boy for 18 years, now owns a share of the National Hockey League all-time scoring record with Maurice (Rocket) Richard.

Howe, as pandemonium broke out in Detroit Olympia Stadium's stands, drove home goal No. 544 Sunday night to draw even with Richard's 18-year record set with the Montreal Canadiens.

The Canadiens beat Detroit 6-4, but that made no difference to the Detroit fans, who have long held Howe as their darling.

"I'm glad I got it," Howe said. Giving credit to his teammates, he added "this should help the club. They've been out there looking out for me."

Howe gets his first chance for No. 545 Tuesday night when the Red Wings play the Chicago Black Hawks at Chicago.

boards from Bruce MacGregor. "Then five guys hit me," Howe said.

Howe made his 544 goals in 1,126 games. Richard made his in 978 games in 18 seasons from 1942 to 1960, when he retired.

The Hawks now have an unbeaten string of four victories and two ties. Ab McDonald and Bobby Hull scored the vital points within 37 minutes of each other.

Meanwhile, a six-game streak of a different kind than the Hawks' was snapped when the Boston Bruins beat the Toronto Maple Leafs 2-0. Goalie Ed Johnston shut out the Stanley Cup champions for the Bruins' first season victory after six losses.

Minor League Ballplayers At BR Dinner

The Marquette Babe Ruth League held a dinner last night for players, parents and officers of the league, at St. Michael's School. One of the highlights of the program was the presentation of certificates to those boys who had reached the age of 15 and would graduate from the league.

Jerry Wright, a player in the Sarasota League and affiliated with the Chicago White Sox, shared the presentation of certificates with Spence Hammond, who plays minor league ball in the New York - Pennsylvania League and is affiliated with the Boston Red Sox.

Another highlight of the dinner was a talk by Emil Finbinger of the Michigan State 4-H Youth Service. A well-known speaker in the U. P., Finbinger spoke about the necessity of early planning by youth for their careers, stressing the similarity of the values taught by Babe Ruth League play and those demanded by modern society.

Two films were shown following the formal portion of the program: "The Babe Ruth World Series" and "The Thunderbirds," a film of the U. S. Air Force acrobatic team in action.

Fred Corcoran, tournament director, ruled that all players must complete the 63 holes in order for the tournament to be official. But later he said there was no question but that all would complete today's nine holes thus making the victories of the U. S. and Nicklaus official.

Nicklaus birdied six of the nine holes and also won the individual title with a 63-hole total of 237 after being tied with South Africa's Gary Player at the end of 54 holes.

Arnold Palmer, a member of two of the three previous U. S. championship teams, had a 245 to give the U. S. a combined score of 482. Palmer had a 34 for the final nine holes.

The final round originally was scheduled for Sunday but was postponed because of a heavy fog. Fog blanketed the par-72 Saint-Nom-la-Breche links today but, after a long delay, lifted enough to permit the players from 33 countries to tee off.

Spain, tied with Nicklaus and Palmer at 415 for the team championship going into the final round, ended up with 485. Sebastian Miguel had a 33 for a 63-hole total of 242 and Ramon Sota a 36 for a 243.

Player finished with a 37, giving him a 63-hole total of 242 and a tie with Miguel. With a

Michigan State Ties First Place With Illinois, Ohio State

EAST LANSING (AP) — Michigan State suddenly is in a three-way contest for the Big Ten football title, thanks to Sherm Lewis, the fleet little senior halfback.

Lewis, smallest on the Spartan squad at 152 pounds, was the biggest man on the field in the scoring department against Northwestern Saturday.

The 15-7 victory over the Wildcats put Michigan State into a tie for first place in the Conference standings with Illinois and Ohio State. All three now have two victories and one tie in Big Ten play.

"We're not a great team but we do have tremendous desire," said Coach Duffy Daugherty after the game.

Lewis put Michigan State back in the game after MSU was trailing Northwestern 7-0. He caught a 20-yard touchdown pass from quarterback Steve Juday and then escaped on an 87-yard scoring run — the longest touchdown run from scrimmage by any MSU player, in a Big Ten game.

Lewis also thrilled the spectators at Evanston, Ill., with an 84-yard punt return. Lewis was awarded the game ball for his starring performance.

Earl Lattimer, trying his first field goal of the year, shared in the glory by kicking a 47-yarder to give Michigan State its margin of safety.

The Spartans got through the game without any serious injuries. Their next date is with Wisconsin at a Homecoming game at East Lansing Saturday.

Wolverines Frustrated In Attempts To Gain Little Brown Jug; Face Toughies

ANN ARBOR (AP) — Frustrated for the fourth straight year in its attempt to win the coveted Little Brown Jug, Michigan now turns to the task of preparing for Northwestern and trying to get its offense to jell.

Saturday's 6-0 loss to Minnesota sent the Wolverines tumbling into ninth place in the Big Ten standings. Indiana, winless in four league games, is last.

The road ahead will not be easy for coach Bump Elliott's team. After Northwestern, the Wolverines face Illinois, Iowa and Ohio State. Only Iowa has a losing record in the conference, but the Hawkeyes are considered a threat.

Michigan did everything but the most important thing — cross the goal line — against the Gophers.

Twice the Wolverines got to the Minnesota seven yard line. The first time Michigan penetrated that far, quarterback Bob Timberlake attempted a field goal. The kick looked good, but the officials ruled it had drifted to the right — wide of the upright.

The Wolverines took the second half kickoff and again marched to the Gopher seven. Timberlake, going for two yards on the fourth down, fumbled, and Minnesota recovered.

That fumble was one of 10 in the game, five on each side. Minnesota scored the only touchdown of the game in the second quarter after returning a Michigan punt to the Wolverine 41. Halfback Jerry Pelletier, behind good blocking, raced up the middle for the last six yards of the drive.

"We had our chances but couldn't come up with the big play. They did, and that was the ball game," said Elliott.

Michigan dominated play in the second half, running 40 plays

to Minnesota's 23. Midway in the final quarter Timberlake passed to end John Henderson when the Wolverines needed 11 yards to keep the ball. Henderson caught the ball on the Gopher 28. The officials measured for the first down, and the ball was inches short.

is America tops in talent?

America has to be tops! It takes top talent to maintain our world lead in science and business, in jobs and living standards... in moral influence.

Where does this talent come from? Higher education supplies most of it. But costs have crept higher... the colleges are battling to keep up.

To stay on top, we must back our colleges. They need classrooms, laboratories and competent teachers.

HELP THE COLLEGE OF YOUR CHOICE NOW!

To find out how the college crisis affects you, write to HIGHER EDUCATION, Box 38, Times Square Station, New York 36.

COMPLETE DESIGNING AND FINANCING AVAILABLE

Creation Of Planning Unit Approved By City Council

NEGAUNEE — Following an outline by Abram P. Snyder of provisions of the Area Redevelopment and Federal Housing Acts, both of which make available loans and grants to communities for urban renewal programs, the Negaunee City Council at a special session unanimously passed a resolution authorizing City Attorney Edmund Thomas and City Manager Leonard Harris to complete necessary steps for creation of a planning commission.

Snyder thoroughly explained both acts and cited advantages

of a planning commission in a long-range community or area improvement program. He advised the council it is possible to procure federal funds up to 75 per cent of the cost of the planning program.

The Michigan State University specialist advised the governing body that when the planning commission is set up it should take a look at municipal problems, decide on some of the goals and then begin to interview planning consultants. When these interviews are completed, the commission

should recommend its overall program to the council. He estimated that an adequate planning program will require at least two years for completion.

In other action at the special session, the council received and ordered placed on file communications from Gordon Rice Jr. and the Soo Line Railway. A request by Mrs. Betty Lurrarinen for permission to set up a beauty shop in her residence was granted, but the city attorney was instructed to prepare an ordinance designed to halt the location of business establishments or business or professional offices in the residential area.

Dairy cattle require three times as much salt as beef cattle, according to the Salt Institute.

Installation Wednesday For OES

NEGAUNEE — Installation of newly elected and appointed officers will be held by Negaunee Chapter, Order of Eastern Star, at a special meeting at 7:30 Wednesday night in the Masonic Lodge rooms.

Miss Geneva Hull will act as installing matron. She will be assisted by Mrs. Hilda Cardone, installing marshal; Mrs. Myrtle Davis, installing chaplain; Mrs. Carole Richards, installing organist, and Mrs. Ruth Riekkil, installing soloist.

Officers to be installed are: Mrs. Nancy Mager, worthy patron; Peter Ducoli, worthy matron; Mrs. Mary Maki, associate matron; Taisto Maki, associate patron; Mrs. Movabell Ducoli, secretary; Mrs. Emmaline Kurin, treasurer; Mrs. Ada Veale, conductress; Miss Ruth Peterson, associate conductress; Mrs. Ruth Riekkil, chaplain; Mrs. Mildred Peterson, marshal; Mrs. Florence Kellan, organist; Mrs. Lois Adami, Adah; Mrs. Jean Carlson, Ruth; Mrs. Eleanor Wangberg, Esther; Mrs. Rose Dornit, Martha; Mrs. Shirley Mattson, Electra; Frank Maki, warden, and Mrs. Dorothy Maki, sentinel.

Comprising the honor line will be the following past matrons: Mrs. Florence Staples, Mrs. Margaret Danielson, Mrs. Irene Johnson, Mrs. Ruth Joupji, Mrs. Edith Bath, Mrs. Gladys Beeby, Mrs. Adella Stone and Mrs. Laura Waters.

Welcoming hostesses will be Mrs. Alena Perala and Mrs. Miriam Ruhanen. Mrs. Emma Hampton and Mrs. Pearl Kelley will serve as luncheon hostesses. Following the installation, a social hour will be held in the dining room and refreshments will be served.

Two Ishpeming Graduates Picked For Honors Unit

ANN ARBOR—Two Ishpeming High School graduates are among 386 freshmen selected by the University of Michigan's Honors Council for a program of enriched studies.

They are John A. Moyle, son of Alden Moyle, 2117 Washington Ave., and Timothy W. Pasich, son of Mr. and Mrs. W. R. Pasich, 1909 Deer Lake Ave. Two others similarly honored

from the Upper Peninsula are Charles H. MacDonald, Sault Ste. Marie, and Michael C. Neil, Iron River.

Comprising 17 per cent of the freshman class in the College of Literature, Science and the Arts, these honors students were invited to join the program on the basis of high school records, scholastic aptitude and achievement scores, and academic promise.

Among features of the program are special counseling, interdepartmental honors courses and honors sections of regular courses, opportunities to participate in research projects of faculty members, faculty-student directed summer reading for credit.

Announcements—Card of Thanks

CARD OF THANKS

We wish to extend our sincere thanks and appreciation to our friends, neighbors and relatives for their kindness during the sudden tragic death of our father and grandfather VICTOR MICKELSON.

We especially wish to thank the Boverman - Hallifax Funeral Home, Dr. Olson, Munising Memorial Hospital and staff. Also Dr. Bennett and staff at St. Luke's Hospital, Marquette. The singers, those who sent flowers, donations, food, the ladies who served and helped in anyway. Their comforting expressions of sympathy and thoughtfulness will always be remembered.

THE CHILDREN OF VICTOR MICKELSON AND THEIR FAMILIES.
