62 People Die, 385 Injured In Ice Rink Blast

INDIANAPOLIS (AP)—A gas explosion hurled flames and concrete slabs as large as pianos through a crowd watching an ice show finale Thursday night, killing 62 and injuring 385.

It was the second explosion disaster in the United States within a few hours. Seven died and 25 were injured in a mysterious explosion which shattered a drug store in Marietta, Ga., Thursday night.

More than nine hours after the 11 p.m. (EST) Indianapolis blast, authorities from miles around Indianapolis sorted the dead and dying.

Agree On Figure The Red Cross, coroner's office and Civil Defense agreed on the 62 dead figure after thorough checks of the six hospitals, three improvised morgues and numerous funeral homes where bodies were taken.

The injured number 385, of which 176 remained hospitalized. Many victims were killed — many in critical condition by the leaping gouts of flame, or crushed under tumbling structural concrete slabs which mushroomed from the explosion.

Winding Up Show One of six Holiday on Ice troupes now touring was just winding up its show when the blast took place. Star performers were off stage and a chorus was performing a gay Dixieland number when the Indianapolis Coliseum was transformed into a scene of horror.

Bodies, many still wrapped in mink, erupted onto the ice. Many others were trapped in tumbling slabs of concrete and shattered bleacher-type seats.

Leaky Gas Tank Fire marshals at midmorning placed the blame in the tragedy on a leaking tank of liquefied petroleum gas, being used to heat popcorn poppers under the shattered section No. 13.

INDIANAPOLIS (AP) — The bodies sprawled grotesquely all over the ice, the victims' colorful, opening-night clothing contrasting starkly with the frozen white surface.

Crimson pools pock-marked the ice, where the explosion's grim debris lay. Moments before, 36 skaters had glided across the ice to the Dixieland jazz of the finale to the Holiday on Ice show.

The Halloween night opening had brought many of Indianapolis' fashionable to the State Fairgrounds Coliseum.

Then they were dead. So many. Explosion An explosion, apparently from a gas leak, catapulted spectators into the air, some with their chairs. Huge slabs of concrete rose straight up under the seats and smashed down on the bleacher occupants.

A horrified spectator told of people "flying through the air like cannonballs" as the blast reverberated on the concrete tiers of the arena.

A fireman who arrived amid the immediate consternation told of "people grabbing at me and cussing because I couldn't help them right away."

Lifted Into Air A dazed young man, face streaked with blood, wandered among rescuers. A policeman offered him transportation to a hospital, but he refused: "I have a little girl in there. I want to wait even though I don't think there's any hope."

He told of sitting in the center of the fatal section and feeling the blast lift him into the air. Rescue trucks, wreckers and a giant construction crane were pulled onto the ice to search for bodies still under the debris.

The crane tower loomed against the blue and white satin backdrop of the stage trappings. Morgue They set up the morgue on the rink, apparently, in rows of blanket-covered figures, many of them charred from the flames accompanying the blast.

The grim job of identification and notifying the relatives began. Won't Be Refused "I have no intention of meeting with him, or with anyone connected with the organization," Romney asserted.

But, in the event Zimmerman or any of his followers should turn up at the State Capitol on a Thursday morning, when Romney regularly holds his five-minute "citizen sessions," they wouldn't be refused admittance to the office.

Arraigned

John F. Clay, 33, above, a construction worker from Saginaw, was arraigned Thursday on three charges of kidnaping in the abduction and molesting of Michelle Moran, 5, of East Lansing. (AP Wirephoto.)

Ngo Dinh Diem Said Ousted In Viet Nam Military Revolt

TOKYO (AP)—A military revolt erupted in Saigon today against President Ngo Dinh Diem and there was an unconfirmed report that he has been ousted.

A high U.S. military source in Tokyo said he had heard—but could not evaluate—a story that Diem was deposed and his adviser-brother, Ngo Dinh Nhu, killed by dissident South Vietnamese.

Heavy fighting was reported around Diem's yellow stucco palace. Marines in battle dress surrounded the national police headquarters in Saigon and took over outlying police stations, apparently without resistance.

Siesta Hour The fighting erupted at Saigon's luncheon and siesta hour. A half dozen high-flying planes drew fire from anti-aircraft batteries near navy headquarters and from troops in the streets, but there was no confirmation that any were hit.

There was scattered firing throughout the city. The joint U.S. military advisory group in Bangkok said the initiative was completely Vietnamese. They said the revolt appeared to be well planned.

Leapers Word reaching Washington indicated the leaders of the uprising included Gen. Tran Van Don, commander in chief of South Viet Nam's army, and Gen. Goung Van Minh, a military adviser to the president.

In Washington, President Kennedy summoned his top military and diplomatic advisers to the White House to assess the situation. U.S. officials in Washington called it a coup of "real proportions" that appeared to be moving fairly far, though there still was no way of knowing whether it would be successful.

A qualified source said top military figures, though not necessarily all of them, headed the rebel movement. Most communications from Saigon to the outside world were cut off.

U.S. Ambassador Henry Cabot Lodge, representing a war ally of South Viet Nam critical of Diem's strong-arm actions against Buddhist and student opposition leaders, saw Diem shortly before the shooting started. Lodge originally had planned to leave Saigon Thursday for consultations in Washington. He disclosed Wednesday he was postponing his departure until Saturday.

Well-placed U.S. officials said the initiative was completely Vietnamese. They said the revolt appeared to be well planned.

Red Chinese Down Yank U2 Plane

TOKYO (AP) — Communist China said today the Chinese air force shot down a U.S.-made U2 high-altitude reconnaissance plane that intruded over the Hua Tung near Shanghai.

Peking Radio, in a broadcast monitored in Tokyo, said the plane belonged to the Nationalist Chinese and added that the U2 was on a "harrasing mission."

The Communists claimed in September 1962 they shot down a Nationalist Chinese U2 plane over East China. The United States later acknowledged that it had sold two U2 planes to the Nationalists.

The U.S. government then took the position that operation of the high-flying reconnaissance aircraft was strictly a Nationalist Chinese affair.

Korean Charge Last December, North Korea charged an American U2 had flown over its territory. The Communists made a big propaganda issue of the U2 after Francis Gary Powers' American U2 crashed deep inside the Soviet Union May 1, 1960.

New Fires Ablaze In Southland CHICAGO (AP) — New fires flared across woodlands in sections of the South today but cooler weather and rain and snow eased fire dangers and drought conditions in many parts of the East and Midwest.

Serious fires broke out in forestlands in southeastern Kentucky near Harlan. The flames burned over thousands of acres of land, the biggest blaze covering 6,000 acres southeast of Harlan near the Virginia border. Fifty prisoners from the state prison camp helped fight the fires Thursday.

Fires Brush and woodland fires erupted in all sections of Tennessee, now in its second month without measurable rainfall. Stiff winds increased the fire hazard. Four major fires burned in the Cumberland Mountains north of Chattanooga, spreading across 8,000 acres of land. Other fires caused concern in areas of West Virginia and Arkansas.

Ban Lifted But in Michigan, Gov. George Romney lifted the emergency ban on fires and smoking in woods in the state's Lower Peninsula.

The season's first heavy snowfalls eased drought conditions and fire dangers in most of New England. Snow also dampened wide areas in the Northern Rockies and Northern Plains.

Russ Orbit Maneuverable Space Ship: 'Polyot One'

MOSCOW (AP) — The Soviet Union announced today it has launched a space ship into orbit which can maneuver in all directions, changing its orbit both sidewise and in height.

The announcement said the apparatus is called "Polyot One." Polyot means flight. The ship apparently is un-

maned, but contains a mass of control mechanisms which permit it to maneuver in such a manner that, if desired, it could be moved alongside another craft in space.

U.S. Project Such a project has been planned not only by the Soviet Union but by the United States. The announcement, given over Moscow Radio, said the ship can "maneuver in all directions."

At one stage it flew with a maximum height of 592 kilometers (368 miles) and a minimum altitude of 343 kilometers (211 miles).

Performance Normal On several occasions during its flight it was called on to transmit data to listening stations in the Soviet Union. Its performance was described as normal.

Moscow Radio described it as an "important step for further study and exploration of the cosmos."

The purpose of maneuvering two ships together is to get a big enough mass into orbit to serve as a launching pad for a subsequent ship to some distant cosmic body, such as the moon.

Limited Maneuverability Several of the Soviet and American space ships launched into orbit have had a limited amount of maneuverability, but not enough either to swing laterally into totally different orbits around the earth, or to choose a higher or lower orbit.

"The operations which are carried out," a Soviet communique said, "will help to solve the problem of guiding spacecrafts in flight, directing them into the pre-set areas for receiving scientific information connected with cosmic exploration."

U.S. Eyes Withdrawal In Japan TOKYO (AP) — The United States is considering withdrawal of some military personnel from Japan as part of the Kennedy administration's drive to reduce dollar spending abroad.

An informed U.S. source said talks are being held with Japanese defense officials on ways to reduce American military costs and also to streamline units to fit Washington's plans for a strategy based on mobile strike forces.

Entangled In Election However, the issue has become entangled in Japan's impending general election, and the source said no quick decision is expected on whether the number of U.S. servicemen in Japan—now about 46,000—will be reduced drastically.

Prime Minister Hayato Ikeda's Liberal-Democratic party, hoping to head off Socialist campaign charges of subservience to the United States, is quietly spreading word that a reduction is being negotiated.

A U.S. Embassy spokesman would say only that comment on possible reductions would be "premature at this time."

Air Units President Kennedy at his news conference Thursday said about 1,000 men might be withdrawn from South Viet Nam and that judgment on other units in the Far East will be "based on what the military correlation of forces may be."

JFK Doubts Russ Out Of Moon Race

WASHINGTON (AP) — President Kennedy has questioned whether the Soviet Union is abandoning the moon race.

Kennedy told a news conference Thursday that he "would not make any bets at all upon Soviet intentions" despite Premier Khrushchev's statement that his country would not race to the moon but, rather, would profit from American experience in that field.

"I think that our experience has been that we wait for deeds, unless we have a system of verification, and we have no idea if the Soviet Union is going to make a race for the moon," he said.

"I think we ought to stay with our program. I think that is the best answer to Mr. Khrushchev."

During a 31-minute session with newsmen Kennedy also said "we are not planning any reduction in United States combat units in Germany" but do plan "some reduction in non-combat personnel" in the European area.

Reported "a marked decrease" in the number of Soviet troops in Cuba since Jan. 1 and said, without giving figures, "there have been further reductions" in the past two months.

Said negotiations on a possible sale of American wheat to the Soviets "are entering a critical phase" this week. He declined to speculate on the outcome, saying, "I think we ought to let the negotiators negotiate."

Expressed willingness to engage in television debates with Sen. Barry Goldwater, R-Ariz., if he and Goldwater are opponents in the 1964 presidential election.

Commented with some sarcasm that it wouldn't be fair to reply to a charge of news management leveled against him by Goldwater because, said Kennedy, the senator "has had a busy week selling TVA," advising on nuclear policy, "attacking the president of Bolivia...and involving himself in the Greek election."

Said that, "yes," he wants Vice President Lyndon B. Johnson on the 1964 Democratic ticket.

Algerians Attack City In Morocco RABAT, Morocco (AP)—King Hassan II said Algerian forces attacked the Moroccan town of Figuig in mass today and he has ordered his troops to withdraw.

At a news conference at the royal palace, the somber king announced Morocco would not fight back.

Will Abide By Pledge He said his government will abide by a pledge made Wednesday in Mali to cease hostilities and seek a negotiated solution to the frontier problem with Algeria. A cease-fire in the frontier war is scheduled to begin at midnight tonight.

The king said there were dead and wounded in the Algerian attack.

Figuig, a town of about 8,000 inhabitants, is several miles inside Moroccan territory in northeastern Morocco. The defined and agreed-upon part of the Moroccan-Algerian frontier ends south of Figuig.

U.N. Informed The king said he has informed the U.N. secretary-general, the International Red Cross and the Organization of African Unity about the attack.

Dixie City Explosion Kills Seven

MARIETTA, Ga. (AP) — A mysterious explosion ripped through a drug store at the height of a downtown Halloween celebration Thursday night, killing seven persons and injuring at least 25 others.

Fire Chief Howard Shaefer said the cause of the explosion had not been determined. Unconfirmed reports indicated the explosions may have been caused by leaking gas.

Firemen and civil defense workers worked through the night to clear debris in a search for other possible victims. The front portion of the two-story, concrete structure threatened to collapse, hampering rescue operations.

Victims Among the dead were Joe Ben Carter, 33, and his son, Terry, 7. They had entered the store to buy Terry a Halloween mask. Mrs. Carter and two other children, Danny, 10, and Bobby, 5, were outside the store and suffered cuts from flying glass.

The other victims included Mrs. Ralph Fowler, mother of Bob Fowler, executive editor of the Marietta Journal; Mrs. Betty Joe Carlisle, 24, a store cashier; S. A. White, an oil distributor; Mrs. Ofelia Scott and Mrs. Marie Barfield.

Space Age Changes Halloween Witches!

MISSOULA, Mont. (AP) — Is the space age changing the appearance of young witches at Halloween?

Russell Bay, fifth grade teacher overheard one of his 10-year-olds saying her "broomstick is slightly curved to fit the orbit, and it's rocket-powered, with an afterburner."

Highway I-75 Links Soo With Ohio Today

RUDYARD (AP) — This little town just north of the Straits of Mackinac enjoyed a moment in history today.

It was the scene for dedication of the 385-mile Interstate Highway 75 from the Soo to Ohio.

The Air Force, hailing the highway as a contribution to American defense, was among participants in the ceremony.

U.S. Orders Troops To Revolt Area

WASHINGTON (AP) — The United States today ordered military forces to move toward the South Viet Nam area to protect American lives if necessary.

A Pentagon announcement emphasized that this is purely a precautionary measure for protection of Americans, and does not represent any participation by U.S. forces in the situation in Viet Nam.

WASHINGTON (AP)—President Kennedy met in urgent conference with top military and diplomatic advisers today to evaluate what U.S. officials called a coup of "real proportions" under way against the Ngo Dinh Diem regime in South Viet Nam.

The 10 a.m. (EST) session came on the heels of at least seven hours of close watch on the developing situation.

Kennedy had been roused at 3 a.m. with first reports and had received a full briefing at 6 o'clock.

Secretary of State Dean Rusk had been on the job since well before dawn, and high command offices in the Pentagon were manned.

Officials said it was still too early to evaluate the chances of success for the military uprising against Diem, but at least some of the top South Vietnamese military men were understood here to be involved.

Initial reports here were understood to indicate that at least in the early stages Americans in Saigon were not being made targets of any action.

Called To Meet Pierre Salinger, White House press secretary, said those called to meet with Kennedy included Rusk; Secretary of Defense Robert S. McNamara; Gen. Maxwell Taylor, chairman of the Joint Chiefs of Staff; Undersecretary of State Averell Harriman; Roger Hillsman, assistant secretary of state for Far Eastern affairs, and McGeorge Bundy, Kennedy's special assistant for national security affairs.

CIA Chief While his name was not on the list, it was understood that Director John A. McCone of the Central Intelligence Agency was among those summoned.

3 German Miners Free After Week

BROISTEDT, Germany (AP) — Three men trapped for more than a week in a flooded iron mine were brought to the surface today.

The miners — Gerhard Hansch, 43; Emil Pohlal, 34, and Fritz Leder, 36 — were hauled up in a bomb-shaped rescue capsule from a gallery 250 feet underground.

A mine foreman, Paul Syska, went down the rescue shaft with the capsule, helped the trio into the little compartment and followed them back up.

The rescue was accomplished through a shaft drilled after contact was made with the men Sunday. The shaft broke through into the gallery early today.

A medical specialist, Dr. The men were trapped in a dead-end mine gallery the size of a four-room apartment on Oct. 24 when a nearby dam broke and flooded the mine.

HI-POCKETS IS THAT SOMEBODY I KNOW? SLOW TO PAY NEWSPAPER BOY

The Weather

Forecast for Marquette and vicinity: Variable cloudiness and cool with scattered showers and occasional snow flurries tonight; low tonight 30 to 35; Saturday generally fair and continued cool; high in mid 40s.

Forecast for Lake Superior: Smaller warnings in effect; northwesterly winds 25-35 knots early tonight, diminishing tonight and becoming north to northwest 12-20 knots on Saturday; showers or snow flurries early tonight, becoming partly cloudy later tonight and Saturday. Lake temperature, 58.

Data for 24 hours ending at noon: Temperatures — 33 at 6 a.m.; 40 at noon; highest in last 24 hours, 53 at 3 p.m. yesterday; lowest in last 24 hours, 35 at 8 a.m. today.

Relative humidity at noon — 71 per cent. Precipitation—0.3 of an inch in last 24 hours; total to date this year, 19.12 inches; normal to date, 26.50 inches.

Sun rises at 7:32 a.m. and sets at 5:33 p.m. tomorrow. Records for November: 1 — Maximum temperature, 73 in 1944; minimum temperature, 13 in 1951; most precipitation, .91 of an inch in 1945.

There's Only One Way He Can Meet Romney

LANSING (AP) — The only way the man who wants George Romney to be president can meet his hero, apparently, is the same way as for any other private citizen—five minutes on a Thursday morning.

The Michigan Governor says he has refused an invitation to meet privately with George Zimmerman of Dallas, Tex., founder and national president of the Romney-for-President club.

Won't Be Refused "I have no intention of meeting with him, or with anyone connected with the organization," Romney asserted.

But, in the event Zimmerman or any of his followers should turn up at the State Capitol on a Thursday morning, when Romney regularly holds his five-minute "citizen sessions," they wouldn't be refused admittance to the office.

News In Brief

UNITED NATIONS, N. Y. (AP) — The Soviet Union is complying under protest with a U. S. demand that it recall three members of its U. N. delegation, accused of taking part in a spy plot. The Russian trio was scheduled to leave New York by plane tonight en route to Moscow. A note from the U. S. delegation Wednesday had demanded their immediate departure.

DETROIT (AP) — The national chairman of a movement to draft Michigan Gov. George Romney for president said today he hopes to enter Romney's name in the New Hampshire Republican primary March 9.

WASHINGTON (AP) — More people had jobs in October, but the number of the nation's unemployed remained unchanged. The Labor Department reported Thursday a 350,000 increase in nonfarm employment over September, bringing the total number of civilians with jobs to 69.9 million. The jobless total held steady at 3.5 million.

WASHINGTON (AP) — The Internal Revenue Service has charged Teamsters Union President James Hoffa owes \$20,295 back income taxes for the year 1959 on expenses paid for him by the union. Hoffa and his wife, Josephine, requested a trial, records showed Thursday.

# Four Lifers From Marquette Prison Due To Get Paroles

Four lifers inmates who spent practically all of their periods behind bars in the Marquette State Prison are due to gain their freedom soon.

Public hearings in their cases were held this week before the Michigan State Parole Board in Lansing and favorable recommendations for their parole have been sent to Gov. Romney.

In only cases the public hearings in the final step in the process before the inmates are eligible for commutation of sentence and parole before the Governor.

If the Governor acts favorably as he is expected to do, the sentences in each case will be commuted from life to a specific number of years, thereby giving the parole board jurisdiction. The board then grants the inmates parole.

**All First Offenders**

Appearing at the hearings were Raymond P. Keston, 58, William R. Bell, 78, Elmer Caskey, 58, and Matthew C. Baker, 58.

Marquette State Prison Warden Raymond J. Borkowski said all four have had excellent records in prison here. All were first offenders when they received the life sentences in prison.

Borkowski, who is now confined to a wheelchair following a stroke suffered in the

years he was the barber in the outside dormitory, immediately east of the prison proper.

"He is an excellent barber, despite his age," the warden stated, "and like the others, he had an excellent record."

**Learned Trade**

Caskey was sentenced from Newaygo County on May 22, 1932, for the slaying of his sister-in-law. He was transferred to the Marquette State Prison in 1941 and had been here since the August transfer in 1950.

"He was a fair hair when he came to Marquette," Warden Borkowski said, "and he will be learning prison and an expert cabinet maker."

Caskey served all his prison time here, except for the period from 1944-45, when he was in Jackson.

Borkowski offered a conditional commutation for May and on the 15th of that month was granted transfer to Jackson State Prison. (The other three inmates were transferred to Jackson in August for the public hearings.)

While in the prison here, Warden Borkowski said, Borkowski has held all responsible jobs, such as academic teacher, clerical posts, etc. "He has never had a mark against him," Borkowski commented.

Bell was sentenced in January 1921 a five-year having been found guilty of first degree murder in Oakland County Circuit Court for an attempted pool room holding that resulted in the fatal shooting.

Served As Barber

Bell served practically his entire term in the Marquette State Prison. For the past five

years he was the barber in the outside dormitory, immediately east of the prison proper.

"He is an excellent barber, despite his age," the warden stated, "and like the others, he had an excellent record."

**Learned Trade**

Caskey was sentenced from Newaygo County on May 22, 1932, for the slaying of his sister-in-law. He was transferred to the Marquette State Prison in 1941 and had been here since the August transfer in 1950.

"He was a fair hair when he came to Marquette," Warden Borkowski said, "and he will be learning prison and an expert cabinet maker."

# Snow Greets Residents As Hottest October Here Ends

Marquette area residents, who just enjoyed one of the most pleasant fall months ever and the hottest October in a half-century, were greeted on this first day of November by snow.

Snow fell in two periods this morning, one beginning at 7:15 and the other at 8:50. No measurable amount came down, but it unmistakably was snow — the first of the season (first occurred on Monday).

Meteorologist Emil Ellingson said the "return to normal" of weather here was due to a massive high pressure ridge to the west of this region and covering most of the western half of the nation. It had been so warm in October that the temperature drop to normal was somewhat like a cold spell.

**Indian Summer Ends**

Yesterday still had resemblances of Indian Summer, with extreme temperatures of 53 and 38 and a mean reading of 46, which was five degrees above normal.

To top it off, a thunderstorm occurred last night, with 0.8 of an inch of rain coming down. This increased the year's precipitation to 19.12 inches, still 7.39 inches below normal.

There was little variation in temperatures elsewhere in the Upper Peninsula yesterday, although some inland points this

# Obituary

**MRS. GEORGE BOCH**

Mrs. George W. Boch, 53, a former Marquette resident, died at 10:30 p.m. in Jackson, following a long illness.

Mrs. Boch had been residing with her son-in-law and daughter, Mr. and Mrs. William D. Moore, former Marquette residents.

Survivors are two daughters, Mrs. Monroe Jackson and Mrs. Richard C. Hamerschmidt, Marquette; a son, John E. San Gabriel, Calif.; and eight grandchildren.

Funeral services will be held Monday morning in St. Peter's Church, Escanaba. Burial will be made in Escanaba.

**ALFRED J. FURRY**

Funeral services for Alfred J. Furry, who died Tuesday evening in St. Luke's Hospital, will be held at 9 tomorrow morning in St. Michael's Church. Burial will be made in Holy Cross Cemetery.

The services will be held at 9:30 a.m. in St. Michael's Church, Marquette. Rev. Paul J. Pelletier and John Rule Jr. will officiate. Burial will be made in Holy Cross Cemetery.

The body is in the Fishenden Funeral Home here, where the funeral services will be conducted at 7:30 a.m. today.

**MISS LOUISE A. DOETSCH**

Miss Louise A. Doetsch, 58, a former Marquette resident, who resided at 3110 Pennington Place, Flint, died at 4:30 this morning in the Hurley Hospital, Flint, following an illness of three years.

She was born on Dec. 8, 1905, in Iron Mountain, and had been a resident of Flint for the past 35 years, serving as a music

**MOUNT CLEMENS**

Shirley Taylor, 30, a former Marquette resident, was fatally injured in an automobile accident Tuesday, and was taken to St. Joseph's Hospital in St. Peter's Catholic Hospital, Escanaba. Burial will be made in Holy Cross Cemetery.

The body is in the Fishenden Funeral Home here, where the funeral services will be conducted at 7:30 a.m. today.

# Of Leaf Pickup Marquette for Next Week

He noted that the mild, dry weather this month has meant "another month of summer for public works projects. Ordinarily we have to cram all of our summer work into three months."

The public works department, "making hay while the sun shines," is already in good shape for winter, he said.

# Boy Injured; Runs Into Automobile

A three-year-old boy was injured at 5:15 yesterday afternoon when he ran into the right rear fender of an automobile being driven south on N. Seventh St. by Martha L. Anderson, 22, of 1215 N. Second St., Ishpeming.

Injured was Terrance P. Koeppe, son of Mr. and Mrs. Louis Koeppe, 550 Bluff St.

The child suffered two lacerations on his forehead and some cuts on the side of his face. He was taken by a passing motorist to St. Luke's Hospital, where X-rays were taken.

City police said a witness in an oncoming automobile reported that the child was standing on the east side of Seventh St., at the curbing, and

that he darted into the street as the car went by. Another vehicle was parked at the curbing at the time, facing south.

Officers said the driver of the car the boy ran into and a passenger were unaware the child struck the vehicle, but later noticed him lying on the ground.

Hospital officials this morning listed the child's condition as being "good," and said he probably would be discharged soon.

**City Paragraphs**

Marquette County Voiture 599, of 40 e 8, will hold a dinner at 7 Tuesday evening at Vincent Tasson's camp, Fish Lake. John W. Kivela Sr., Neegaunee Township, correspondent for the voiture, said it will be the last camp meeting for the season.

The Atlantic City boardwalk costs some \$200,000 a year to maintain.

**Seaway Traffic Tops '62 Record**

MASSENA, N. Y. — Today's St. Lawrence Seaway traffic pushed the estimated total tonnage of seaway cargo this year past the record set in 1962, said Joseph H. McCann, administrator.

There still is one month remaining in the shipping season. Last year's season total was 25.6 million tons. It was 23.4 million tons in 1961.

Pretoria is South Africa's administrative capital.

**Seaway Traffic Tops '62 Record**

MASSENA, N. Y. — Today's St. Lawrence Seaway traffic pushed the estimated total tonnage of seaway cargo this year past the record set in 1962, said Joseph H. McCann, administrator.

There still is one month remaining in the shipping season. Last year's season total was 25.6 million tons. It was 23.4 million tons in 1961.

Pretoria is South Africa's administrative capital.

# Four Lifers From Marquette Prison Due To Get Paroles

Four life-term inmates who spent practically all of their periods behind bars in the Marquette State Prison are due to gain their freedom soon.

Public hearings in their cases were held this week before the Michigan State Parole Board in Lansing and favorable recommendations for their parole have been sent to Gov. Romney.

In such cases the public hearing is the final step to be taken before the inmate's application for commutation of sentence goes before the Governor.

If the Governor acts favorably, as he is expected to do, the sentences in each case will be commuted to from life to a specific number of years, thereby giving the parole board jurisdiction. The board then grants the inmates paroles.

**All First Offenders**  
Appearing at the hearings were Raymond Burnstein, 58; William Reid, 78; Elton Cassidy, 50, and Matthew Cichocki, 52.

Marquette State Prison Warden Raymond J. Buckhoe said all four have had excellent records in prison here. All were first offenders when they received the life sentences in prison.

Burnstein, who is now confined to a wheelchair, following a stroke suffered in the

Marquette State Prison, was sentenced in Nov. 17, 1931, for his involvement in a 1931 trip-laying in Detroit.

**Linked To 'Purple Gang'**  
Burnstein had pleaded not guilty, but had been sentenced by a Wayne County jury for his part in the so-called "Colingwood Massacre," perpetrated by the "Purple Gang."

Burnstein served all his prison time here, except for the period from 1940-45, when he was in Jackson.

Burnstein suffered a cerebral hemorrhage here last May and on the 18th of that month was granted transfer to Jackson State Prison. (The other three inmates were transferred to Jackson in August for the public hearings.)

While in the prison here, Warden Buckhoe said, Burnstein has held all responsible jobs, such as academic teacher, clerical posts, etc. "He has never had a mark against him," Buckhoe commented.

Reid was sentenced in January 1921 after having been found guilty of first degree murder in Oakland County Circuit Court for an attempted pool room holdup that resulted in the fatal shooting.

**Served As Barber**  
Reid served practically his entire term in the Marquette State Prison. For the past five

years he was the barber in the outside dormitory, immediately east of the prison proper.

"He is in excellent health, despite his age," the warden stated, "and, like the others, has had an excellent record."

**Learned Trade**  
Cassidy was sentenced from Newaygo County on May 28, 1938, for the slaying of his sister-in-law. He was transferred to the Marquette State Prison in 1947 and had been here until the August transfer to Jackson.

"He was a farm boy when he came to Marquette," Warden Buckhoe said, "and he will be leaving prison as an expert cabinet maker."

Cichocki was sentenced from Bay County in 1942 for the killing of his wife. He was transferred to the Marquette State Prison in 1953, as a trustee, and had been employed in the pump-house area in the prison "valley" during his stay here.

"We experienced no trouble with any of them," the warden said.

## Obituary

### MRS. GEORGE ROCHE

Mrs. George W. Roche, 83, a former Marquette resident, died at 10 last night in Jackson, following a long illness.

Mrs. Roche had been residing with her son-in-law and daughter, Mr. and Mrs. William D. Monroe, former Marquette residents.

Survivors are two daughters, Mrs. Monroe, Jackson, and Mrs. Richard C. Hammerschmidt, Marquette; a son, John E., San Gabriel, Calif., and eight grandchildren.

Funeral services will be held Monday morning in St. Patrick's Church, Escanaba. Burial will be made in Escanaba.

### ALFRED J. FLEURY

Funeral services for Alfred J. Fleury, who died Tuesday evening in St. Luke's Hospital, will be held at 9 tomorrow morning in St. Michael's Church. Burial will be made in Holy Cross Cemetery.

The escorts will be Russell Brown, Alban Dobson, S. E. Bernard, Ray Meykens, Henry Peltier and John Rule Jr.

The body is in Tonella's Funeral Home, where the rosary will be recited at 8 this evening.

### MISS LOUISE A. DOETSCH

Miss Louise A. Doetsch, 59, a former Marquette resident, who resided at 3110 Pencombe Place, Flint, died at 4:30 this morning in the Hurley Hospital, Flint, following an illness of three years.

She was born on Dec. 9, 1903, in Iron Mountain, and had been a resident of Flint for the past 30 years, serving as a music

teacher for the Central High School there.

She was a member of St. Matthew's Church and the Quota Club of Flint.

She is survived by two sisters, Miss Josephine Doetsch and Mrs. Mary L. York, Marquette, and a brother, James F. Harrison, N.Y. There also are several nieces and nephews.

The body will be removed to Tonella's Funeral Home, where friends may call after 4 Sunday afternoon. Liturgical services will be held at 7:30 Sunday evening.

Funeral services will be held at 9 Monday morning in St. Peter's Cathedral. Burial will take place in Holy Cross Cemetery.

### FREDERICK DeMARSE

Funeral services for Frederick DeMarse, who died Wednesday afternoon in St. Mary's Hospital, will be held at 11 tomorrow morning in St. Michael's Church. Burial will be made in Holy Cross Cemetery.

Palbearers will be Walter Benson Jr., Joseph Bubnich, Frank Sommers, Paul Bourgeois, Willard Huff Sr. and George Benson.

Liturgical services will be held at 8:30 this evening in the Fassbender Funeral Home.

### MRS. LEO VIRTA

Funeral services for Mrs. Leo (Jean) Virta of Sundell, who was fatally injured in an automobile accident Tuesday, will be held at 9 tomorrow morning in St. Peter's Cathedral. The Rev. Aloysius Hasenberg, pastor of St. Rita's Church, Trenary, will officiate. Burial will be made in Holy Cross Cemetery.

The body is in the Fassbender Funeral Home here, where liturgical services will be conducted at 7 this evening.

### Supervisor Fined \$500 By Court

MOUNT CLEMENS (AP) — Suburban Shelby Township Supervisor Lorin E. Evans has been ordered to pay \$500 in court costs for failing to report \$500 in campaign contributions. Macomb County Circuit Judge George R. Deneweth permitted Evans to change his plea from guilty to no contest. Evans was charged with failing to report five \$100 contributions from officers of a company which operates a land fill in Shelby Township.

# Spooks, Treats Here, But No Big Halloween Pranks

Another successful Halloween was observed in Marquette last night, with "tricks or treats" and "collections for UNICEF" taking place in residential areas and free city-sponsored programs provided for youngsters.

Chief of Police George G. Johnson said no serious trouble due to Halloween activities was reported, although a few calls were received concerning soaping of windows on cars and houses.

## S. Front St. Reopened To Traffic

Re-constructed S. Front St., between Fisher and Genesee Sts., was opened to vehicular traffic yesterday afternoon.

Although construction workers are still working on the highway, the northbound lane was opened to enable the workers to complete the paving work at the corner of Front and Fisher Sts.

City Police Chief George G. Johnson urges all drivers to slow down near the corner of Fisher and Front Sts., as heavy equipment is still being used in that area. He also stated that Fisher St., between Front and Champion Sts., is closed until the southbound lane is paved on that corner.

quaraders seeking treats and pennies for UNICEF."

Approximately 400 teenagers attended the free dance at the Waterfront, sponsored by the Lions Club in cooperation with the city; between 1,100 and 1,200 persons enjoyed free skating in the Palestra, and around 250 attended the free cartoon movies put on by the city in the Gravenet High School Auditorium.

"Everything apparently went off very smoothly," commented James C. Engle, superintendent of the parks and recreation department. "We wish to thank the Lions Club, for handling the dance, and the Kiwanis Club, for handling the concession at the Palestra on a cost basis."

Since the artificial ice plant was installed in the Palestra after World War II, the traditional opening of the skating arena is on Halloween.

And since the city-sponsored programs have been held, there have been only isolated instances of pranks on Halloween there.

# Snow Greets Residents As Hottest October Here Ends

Marquette area residents, who just enjoyed one of the most pleasant fall months ever and the hottest October in a half century, were greeted on this first day of November by snow.

Snow fell in two periods this morning, one beginning at 7:15 and the other at 8:50. No measurable amount came down, but it unmistakably was snow — the first of the season. (Sleet occurred on Monday.)

Meteorologist Emil Ellingson said the "return to normal" of weather here was due to a massive high pressure ridge to the west of this region and covering most of the western half of the nation. It had been so warm in October that the temperature drop to normal was somewhat like a cold spell.

**Indian Summer Ends**  
Yesterday still had resemblances of Indian Summer, with extreme temperatures of 53 and 38 and a mean reading of 46, which was five degrees above normal.

To top it off, a thunderstorm occurred last night, with .03 of an inch of rain coming down. This increased the year's precipitation to 19.12 inches, still 7.38 inches below normal.

There was little variation in temperatures elsewhere in the Upper Peninsula yesterday, although some inland points this

morning had light accumulations of snow.

**Colder Tonight**  
It was expected to remain in the low 40s this afternoon, along with some scattered showers or snow flurries, and tonight it will drop to 30 or 35, with continued flurries. Tomorrow it will be generally fair, but cool, with a high in the mid 40s.

The long-range forecast for this area, covering the period through Wednesday, calls for temperatures to average near the normal extremes of 44 and 33, with moderating temperatures tomorrow, balmy weather Sunday, colder Monday and warmer again about Wednesday.

Precipitation during this period will total .1 of an inch or less, occurring as showers or flurries Sunday or Monday.

## Potato Show Under Way At Armory.

Activities got under way this afternoon at the 34th annual Upper Peninsula Potato Show, being held in the National Guard Armory, Wright St. and Lincoln Ave.

Events at the armory will close at 5 tomorrow afternoon, with a dinner program at which awards will be presented scheduled for 6:30 tomorrow evening in the University Center of Northern Michigan University.

**Closing Features Tomorrow**

Principals, exhibitors and other key figures at the show are expected to attend the dinner.

Closing features of the afternoon session tomorrow will be final judging for the U. P. Potato Queen, with five girls seeking the honor. They are entered from Marquette, Luce, Houghton, Delta and Iron Counties.

**Cooking Contest**

Another of great interest will be the potato cooking contest. The final entries were not determined this morning, but competitors in two classes from several counties were expected to enter.

The two divisions are recipes in which potatoes are used and recipes for use of potatoes to be served with meat.

The dinner program tomorrow in the University Center will be the occasion for presenting winners in all divisions: the U. P. Queen, the cooking champions, production winners in several classes of potato competition.

Speakers will be Dr. Leyton Nelson, crops specialist, Michigan State University.

Master of ceremonies for the event will be Robert M. Ling, who is first vice president of the Marquette Chamber of Commerce, sponsor of the event, in cooperation with the U. P. Potato Growers Association and the Michigan State University Extension Service.

**U.P. Press Club Meets Here Dec. 6**

The first meeting of the newly organized Upper Peninsula Press Club will be held in Marquette on Friday, Dec. 6.

Clair Hekhuis, director of information services for Northern Michigan University, said the meeting will be conducted on the NMU campus, beginning at 3 p.m. A dinner is scheduled for 6:30 p.m.

The club is open to newsmen, editors and publishers of all Upper Peninsula daily and weekly newspapers, as well as public relations officials and information service specialists.

Tentative plans call for a program featuring a speaker from a metropolitan newspaper and a panel discussion on various aspects of news.

Members of the steering committee for the club, in addition to Hekhuis, are Thomas Pellow of the Negaunee Iron Herald, Charles Symons of the Munising News, Charles Gabel of Our Sunday Visitor and Kenneth S. Lowe of The Mining Journal.

**Bulk Plant Heads Study Fire Plans**

Twenty-five Marquette petroleum bulk plant operators and employees viewed a movie of a 1959 Kansas City bulk plant explosion and discussed fire prevention at their own plants at a meeting held in the city commission chamber last night.

The program was presented by Marquette Fire Chief John W. Myers, and Det.-Sgt. Hubert Hanley, Marquette, state police fire marshal's division.

The film, presented by the American Petroleum Institute and made available through the Murphy Oil Corp., was the on-the-spot story of the Kansas City explosion and included a discussion of the unfavorable conditions or contributing factors, any one of which might have prevented the explosion.

Contributing factors included fire and explosion hazards at the bulk plant and firefighting techniques.

Four bulk storage tanks exploded in the Kansas City fire and one tank was hurled 94 feet. Six firemen were killed and 64 men were seriously injured.

**Final Phase Of Leaf Pickup Program In Marquette Scheduled For Next Week**

Marquette's public works department will "sweep through" town early next week in the final phase of the fall leaf pickup.

"We hope that residents who haven't already completed their fall raking will get out this weekend to finish their yard work," Public Works Superintendent Howard L. Coppens said today.

"The public works crews will complete the leaf pickup next week," Coppens said. "After a crew finishes the cleanup on a street, any leaves dumped in that street will be considered littering."

Weather permitting, the final phase of the fall pickup will be completed by the middle of the week. Coppens said that all of the public works department's available men and equipment will be placed on the cleanup work, so that the work schedule can be maintained.

Monday morning crews will begin the pickup in South Marquette and Copper anticipates that all streets from Washington St. south will receive the pickup service on the first day.

**Balance Of Schedule**

If weather permits, the schedule calls for final leaf cleanup on all streets from Washington St. north to Magnetic St. Tuesday. Last stage in the pickup, expected to be completed Wednesday, will be from Magnetic St. north.

**'In Good Shape'**

"We're eager to complete the leaf pickup so that we can proceed with other preparations for winter," Coppens said.

He noted that the mild, dry weather this month has meant "another month of summer for public works projects. Ordinarily we have to cram all of our summer work into three months."

The public works department, "making hay while the sun shines," is already in good shape for winter, he said.

## Martin Maintains Flagpole Vigil

Kenneth Martin, 22, a Northern Michigan University senior from Madison Heights, Mich., looks pretty lonely atop a flagpole at the corner of Main and S. Front Sts., and he apparently was during the night. Martin began the flagpole sitting stunt yesterday afternoon, in an effort to raise money for the lagging United Marquette Community Chest campaign. Members of Martin's fraternity, Tau Kappa Epsilon, are taking up collections for the Chest while Martin is maintaining his lonely vigil. Martin has vowed not to climb down until he's helped raise \$1,000 for the Chest.—(Mining Journal photo.)

**Boy Injured; Runs Into Automobile**

A three-year-old boy was injured at 5:15 yesterday afternoon when he ran into the right rear fender of an automobile being driven south on N. Seventh St. by Martha L. Anderson, 22, of 1215 N. Second St., Ishpeming.

Injured was Terrance P. Koepp, son of Mr. and Mrs. Louis Koepp, 550 Bluff St.

The child suffered two lacerations on his forehead and some cuts on the side of his face. He was taken by a passing motorist to St. Luke's Hospital, where X-rays were taken.

City police said a witness in an oncoming automobile reported that the child was standing on the east side of Seventh St., at the curbing, and

that he darted into the street as the car went by. Another vehicle was parked at the curbing at the time, facing south.

Officers said the driver of the car the boy ran into and a passenger were unaware the child struck the vehicle, but later noticed him lying on the ground.

Hospital officials this morning listed the child's condition as being "good," and said he probably would be discharged soon.

**Seaway Traffic Tops '62 Record**

MASSENA, N. Y. (AP) — Today's St. Lawrence Seaway traffic pushed the estimated total tonnage of seaway cargo this year past the record set in 1962, said Joseph H. McCann, administrator.

There still is one month remaining in the shipping season. Last year's season total was 25.6 million tons. It was 23.4 million tons in 1961.

Pretoria is South Africa's administrative capital.

ty; Dr. Dale J. Lundeen, director of the speech correction clinic at NMU; G. Vance Hiney, Negaunee, superintendent of the Marquette-Alger County Intermediate School District; William Wright of NMU; and Mary Blair and Gail Harris of Lansing, on the MDPI staff.—(Mining Journal photo.)

### Chest Drive At \$42,000 Mark Here

Contributions totaling \$42,000 have been collected in the United Marquette Community Chest campaign, John C. Gerling campaign chairman, said today.

Gerling said that campaign solicitors must obtain an additional \$20,000 to reach the campaign goal of \$62,000.

"Many companies have not completed their canvasses and they are urged to complete the job today," Gerling said. "All solicitors also are requested to turn in the balance of their reports today."

#### Five More In 'Club'

Five more groups have joined the "fair share club" of the United Marquette Community Chest.

The Chest's fair share club includes, employees and organizations which contribute 100 per cent or more of their campaign quota.

The fair share formula is one-half hour's pay per month or six hours' pay per year for the participating wage earners.

New fair share club members are:

Dr. W. L. Casler and employees, 121 per cent; Dr. Edward Holman and employees, 100 per cent; Otis Elevator Co., 100 per cent; Freeman Raish and employees, 100 per cent, and U. S. Department of Agriculture, Farmers Home Administration, 100 per cent.

### Changes In Lake Shore Posts Noted

Two changes in executive posts for Lake Shore, Inc., of Marquette and Iron Mountain, were announced today.

Robert S. Shepard, vice president of the manufacturing and distributing firm, has moved

from Duluth to the company's headquarters in Iron Mountain. Glenn C. Neff has joined Lake Shore as assistant to James T. Malsack, senior vice president, in Iron Mountain.

Because Shepard is especially active in the design, development and sale of the company's line of rubber-tired mining machinery, this move strengthens the liaison between Shepard and the entire engineering department, Lake Shore officials said.

With Firm In 1955 Shepard joined Lake Shore in 1955 as manager of Minnesota operations, a supply and service division and was elected vice president in charge of new product development and marketing in 1958.

Shepard was born in Chicago and attended Champion College, Georgetown University, Loyola University and Chicago Tech. Prior to joining Lake Shore he was associated with the Chicago American, International Harvester, Great Lakes Industries and Myers Motors. Served In Navy Neff was division manager for Lewis Welding and Engi-

### Prohibition Candidate Opens Bid

HILLSDALE (AP)—"I'd rather lose in a cause that eventually will win, than to win a cause that eventually will lose," the Prohibition Party's 1964 candidate for President said this week in accepting nomination.

He is Earle Harold Munn Sr., 59, a Hillsdale College faculty member for 24 years and a widely known Free Methodist layman. He won the nomination over Prof. Milton Conover of the Seaton Hall law school at the party's convention in August.

Munn's formal acceptance speech, "Lose Your Vote Successfully," was delivered Monday at a meeting attended by the Rev. Mark R. Shaw of Melrose, Mass., the Prohibition Party's vice presidential nominee, and Dr. D.D. Gibbons, chairman of the party's national executive committee.

Munn promised a vigorous campaign to make his party's voice heard.

### Guidelines Accepted By Fish Industry

EAST LANSING (AP)—Michigan food officials and fish industry representatives agreed Thursday on fish processing guidelines to protect the public against possible botulism poisoning.

The agreement came at a meeting called by Gov. George Romney aimed at revitalizing a fish industry stricken with unemployment after botulism sickness traced to smoked Great Lakes fish caused seven deaths. The committee issued a statement after the meeting stressing that "fresh and frozen and commercially canned fish are not under suspicion and can be consumed without fear of botulism poisoning."

Guidelines proposed by the Foods and Standards Division of the State Agriculture Department were discussed. The committee recommended food processors comply with those guidelines.

The Agriculture Department will advocate — but will not impose — the processing guidelines, a spokesman said. "Botulism poisoning can be prevented by adequate preparation, processing and handling of smoked fish," the statement said.

Additional and accelerated research into the botulism problem also was stressed by the committee. "The research should be coordinated," it said, "among government agencies, universities and industry."

Should Be Destroyed The committee also noted that smoked fish from the Great Lakes presently on grocery or pantry shelves should be destroyed. The longer the fish remain on shelves the more chance the botulism bacteria has to develop, the spokesman said.

### Two More Dropoff Boxes For Mail Installed In City

Two more dropoff boxes for outgoing mail have been installed in the downtown area of the city.

Chief of Police George G. Johnson said the drop-off boxes, into which both city and out-of-city mail may be deposited from automobiles, have been put up on N. Third St. and on N. Front St.

Along with the dropoff, or courtesy, box on W. Washington St., in front of the Post Office Building, this makes three automobile dropoff points for mail in the city.

Formerly, there were two dropoff boxes in front of the post office, one for city and one for out-of-city mail. However, since this sometimes resulted in traffic tieups, with motorists wanting to drop off mail being lined up to the intersection with Third St., and some times beyond it, it was decided to increase the number, Johnson said.

Postmaster John S. Courtney said all three dropoff boxes will receive all types of mail, with postal personnel sorting it inside the post office.

Courtney asked that persons or firms depositing large quantities of mail in the courtesy boxes separate them into local and out-of-city bundles, and mark them as such.

Adhesive bands for this purpose are available at the post office windows, he said. Otherwise, one can use string or rubber bands with the "local" and "out-of-city" designated bundles of mail.

Facilitates Dispatch "This will facilitate the dispatch of mail within the post office," Courtney said.

Actually, one of the dropoff boxes from in front of the building was removed, and placed on N. Third St., just south of the post office driveway, with the other being changed to include both city and out-of-city mail.

Two remaining metered spaces between the driveway and the Third-Washington Sts. corner were removed to provide space for the dropoff.

Adhesive bands for this purpose are available at the post office windows, he said. Otherwise, one can use string or rubber bands with the "local" and "out-of-city" designated bundles of mail.

LaBrasseur, 1029 N. Second St., Marquette, paid a \$10.70 fine and \$4.30 costs. State police issued the summons Oct. 16.

Left Of Centerline Eino J. Kumpulainen, Star Route 550, Marquette Township, was fined \$5.70 and ordered to pay costs of \$4.30 for driving left of the centerline. He was ticketed by state police Oct. 27 on County Road 550, in Marquette Township.

For speeding, Harlan J. Larson, 412 W. Washington St., Marquette, paid a \$10.70 fine and \$4.30 costs. State police issued the summons Oct. 26 on U.S. 41, in Negaunee Township for driving 75 miles an hour in a 55 MPH zone.

Donald C. Parchem, Centerline, was fined \$10.70 and ordered to pay court costs of \$4.30 on a charge of speeding, for motorists and for pedestrians.

The N. Front St. courtesy mail box has a double opening, for motorists and for pedestrians.

Helps Traffic Flow Chief Johnson said the additional site on Third St. will facilitate the flow of traffic on Third St., since the removal of the two metered spaces will enable a separation of "through" and "right turn" traffic.

It also will ease the traffic load on Washington St., where motorists have been lined up waiting for the dropoff point in front of the post office to clear.

"This is another in a series of moves designed to help the traffic situation in the downtown area of the city," said Johnson, adding that the truck loading zones on Washington St., inaugurated earlier this fall, have been working out very well.

The truck loading and unloading zones in the 100 block of Washington St. were provided by removing some metered spaces on both sides of the street.

They were designed to give truckers space near the curb to unload and load cargoes, and thereby avoid double parking and subsequent snarling of traffic.

### \$204 Paid In Justice Court Fines

Fines and costs totaling \$204.80 were paid by 13 persons when they appeared before Justice of the Peace J. Fezzy in Marquette Township Court.

Sheldon J. Roberts, 506 Lake St., Negaunee, was fined \$50 and ordered to pay court costs of \$5.50 on a charge of reckless driving. Roberts was arrested by state police Oct. 26 on U.S. 41, in Negaunee Township.

On a charge of minor in possession of beer, Gerald W. Albright, 19, of 1305 Norway St., Marquette, paid a \$20.70 fine and \$4.30 costs. State police arrested him Oct. 27 on Dead River, in Marquette Township.

Improper Passing Dennis C. Grace, Sands, was fined \$10.70 and ordered to pay costs of \$4.30 for improper passing. He was ticketed by state police Oct. 21 on County Road 553, in Sands Township.

For improper passing (oncoming traffic), Laurence P.

### City Firemen Called Out Two Times

Marquette's fire department was called out twice last night, with no serious damage resulting in either case.

At 8:20 firemen were summoned to a residence at 217 N. Fourth St. occupied by Mrs. Emily Young and owned by the Union National Bank, where a chimney blaze broke out.

The blaze, caused by a dirty chimney, firemen said, was permitted to burn itself out. No damage resulted.

Six firemen responded with the No. 2 (1,000-gallon) pumper and the service truck. They re-

turned to the station at 8:33 p.m.

The second call was received at 10:18 p.m., when some sparks and embers from an incinerator fire in the rear (west) of the B. & J. Superette building, at the southwest corner of Lincoln and W. College Aves., were being blown about.

Firemen said rubbish was being burned in the incinerator and some neighbors became alarmed when sparks were being blown about. They put out the blaze with the booster hose off the No. 2 pumper.

Six firemen answered the call, with the Nos. 2 and 4 (750-gallon) pumps. They returned to the station at 10:30 p.m.

**Are You Going To Be Ready For WGN-TV?**

**The Cable TV View**  
By Richard Bur,  
Manager — Iron Range Cable Corp.

I was given the grand tour at WGN-TV in Chicago by Kip Jameson of the public relations staff. I say grand tour because there is no other word to describe the wonders of viewing at the point of origin the exciting programs that were going out to millions of viewers.

Somewhat when I write the words, color programs for the costumes, the scenes and the lights, it seems to fall flat as compared to being inside the studio color festival. I know of only one other place where colors can be reproduced with the same kind of bright luminous gaiety, and that is on the picture tube of your color set.

That's because color in television is made up of light, really bright light. This is the kind of light that paints the picture on your television set when you are receiving a strong clear signal, the cable television type of reception.

I came on Bozo's Circus. Bozo was in flaming red clown suit. The children and their parents were sitting in a theatre-like arrangement, their eyes tied to another world. But the world of Bozo's Circus was real. There they were clowns, and ringmaster, dancers, jugglers and comedy makers. Coming through the stage door, I could see the dancers rehearsing their entrance cues. In this live show the performers had to know their parts to perfection. Once on camera, that was the way the world saw it.

Kip was a perfect guide, the more so for his enthusiasm for WGN programming. So much of WGN's schedule was live and unique, meaning that only WGN-TV in the area could bring such specials.

During the appropriate season, the Chicago Baseball Clubs are broadcast while they are playing, followed by Tenth Inning Comments. For the cooler weather there are Chicago's Hockey team, Basketball Teams, Championship Bowling, and of course Football.

For movie goers who miss the choice of the many theatres that large metropolitan cities can offer there are the TV First Run shows: Silk Stockings, Hatfull of Rain, Will Success Spoil Rock Hunter are samples. For anyone who has wished having access to an Art or Foreign Film House there are the best of films from France, Italy, Japan with English voices dubbed in.

Why did I visit WGN-TV? I wanted to see with my own eyes the substance and material of programming of the station we will be bringing to Marquette.

My verdict: You are due for some wonderfully pleasant surprises. WGN is a cornucopia full of the most exciting events that have ever come out of a broadcasting station: thrills and pleasure for each person in the family: Festival of Arts, New hard hitting Westerns, Children's programs that teach while they entertain, Live Western and Country music, Action and Adventure. Something every minute — and on Saturday and Sunday right through the twenty four hours of the clock.

Looking over a report on various services which the Upper Peninsula branch of the Michigan Employment Security Commission is working on are, seated, John Thodis (left), Detroit, administrative assistant of the MESOC, and Thomas Roumell, Detroit, MESOC executive director, and standing, Albert J. Gasvoda (left), Hancock, MESOC field supervisor, and Frank B. Paill, Marquette, MESOC manager here.—(Mining Journal photo.)

### State MESOC Head Reviews Region Plans At Meet Here

Thomas Roumell, Detroit, executive director of the Michigan Employment Security Commission, reviewed the services program at a meeting with MESOC officials in the Upper Peninsula and northern Lower Peninsula. The session was held in the University Center at Northern Michigan University.

Roumell discussed the workings of various services carried on by the MESOC and encouraged all branch managers to continue their good work.

He took over the job as executive director on Sept. 16 and is touring the state to discuss with the branch office managers the work they are doing.

MESOC figures show that the unemployment figure in Michigan is low, or 3.9 per cent of the available working force.

On Community Basis Dr. Edgar L. Harden, president of Northern, acknowledged that the unemployment situation is solved on a community basis, and Northern's part in curbing unemployment is shown by its support in the training facility here, operated under the Area Redevelopment Act and the Manpower Development Training Act.

The MESOC screens all persons who are participating in its program, and is responsible for their placement, Roumell stated.

Dr. Claud A. Bosworth, vice president for public services, N.M.U., said, unemployment is solved only through a cooperative agreement program, such as the one offered by Northern through the training center.

Also speaking at the meeting were James Sagel, Detroit, assistant department director; J. L. McCluskey, Detroit, chief of out-state operations, and A. Coss, Ironwood, training coordinator.

Officials Attending Other MESOC officials at the meeting were John Thodis, Detroit, administrative assistant, MESOC; Albert J. Gasvoda, Hancock, field supervisor; Harvard

Smart, Petoskey, field supervisor; Joyce Peterson, Marquette, area labor market analyst; W. E. Crowley, Marquette, farm placement supervisor; and branch managers, Mrs. Frances Eastley, Calumet; James Damitz, Escanaba; Clarence Erickson, Hancock; Wesley Johnson, Iron Mountain.

John Knott, Iron River; Sec Violetta, Ironwood; Jerry DeGabriele, Ishpeming; Mrs. Agnes Demaray, L'Anse; Frank B. Paill, Marquette; Anthony Rainaldi, Menominee; Clarence Lehman, Munising; Francis Pignon, Ontonagon; Eugene Willings, Alpena.

Russell Stump, Cadillac; Leonard Sullivan, Cheboygan; Charles Hurd, Manistee; Bernard Cook, Newberry; Leo Kelly, Petoskey; Walter Anderson, Sault Ste. Marie; Oliver Cummings, St. Ignace; and Cecil Howell, West Branch.

Armed Forces Marine Lance Corp. Ronald L. Peters, son of Mr. and Mrs. Thaine A. Peters of 2143 Werner St., Marquette is serving with the First Service Battalion, First Marine Division which recently participated in extensive amphibious operations off the coast of Southern California.

Kefauver Owned Stock In Industry He Probed Most CHATTANOOGA, Tenn. — The late Sen. Estes Kefauver held \$13,000 worth of stock in the nation's drug industry, which was the object of one of his investigations.

An inventory of his estate revealed that Kefauver held stock worth about \$300,000 at the time of his death Aug. 10. Kefauver held 200 shares in the Rexall Drug Co., worth \$7,900 and 51 shares in the Charles Pfizer Drug Co., worth \$5,100.

### City Rejects Request For Dance Permit

A request from William H. Coppens for a dance permit at his establishment, the Shoreland Bar, 101 W. Baraga Ave., was denied by the Marquette City Commission this week.

Coppens had requested the dance permit from the Michigan Liquor Control Commission, which issues such permits after the applications are approved by resolution of the local governmental body.

The denial was recommended by City Clerk Everett H. Kent. He told the commissioners the liquor commission had requested the city's action on a request from Coppens for a dance permit "to be held in connection with his 1963 Class B Hotel and SDM (sale of packaged beer and wine) licenses."

Kent said Coppens does not hold a 1963 Class B Hotel license. According to city ordinance, dance permits are issued only to establishments which hold Class B Hotel permits.

Kent also informed the commission that the establishment had been approved for a dance permit by the police department, but that several fire safety requirements which are necessary before approval could be given by Fire Chief John W. Myers have not been met.

Request For Sign Also at this week's meeting the city commission:

Ordered paid bills totaling \$42,543.73, of which \$34,614.41 is the net city payroll.

Referred to Police Chief Fred W. Priebe, 52, Route 1, Green Garden, was bound over to the December term of Marquette County Circuit Court yesterday by Judge Edward H. Dembowski in municipal court on a charge of third offense drunk and disorderly.

Priebe waived preliminary examination on the felony charge and was committed to the Marquette County Jail in default of \$200 bond.

Priebe was arrested by city police for being drunk and disorderly Thursday on Spring St. Other arrests were made by city police June 8 and Sept. 19.

George G. Johnson and City Manager Thomas Moore for study and report a petition from residents concerned that the safety of children walking on Westwood Rd. between U.S. 41 and East Ave. is endangered by fast-moving traffic and requesting the erection of "Slow, Children Playing," 15-mile-per-hour speed limit signs and stop or yield the right-of-way signs on Westwood Rd.

Authorized Mayor C. Fred Rydholm and the city clerk to execute an agreement with the Soo Line Railroad Co. for a water pipe line to cross railroad property on W. Ridge St.

Agreed, by resolution, to hold its regular meeting at 4:30 p. m. Thursday, Nov. 7, because the meeting otherwise would occur on Veterans Day, Nov. 11.

Asked City Attorney Waldo A. McCrea to formulate a resolution honoring Miss Norma Ross, public school music teacher for nearly 50 years, to whom the Marquette Community Theater's production, "Brigadoon," is dedicated.

Heard City Manager Moore report that brick-pointing on the city hall building is scheduled for next year and couldn't be done this fall when the city hall roof was repaired because "we only have so much money."

Heard department heads state that progress is being made in control measures for the elimination of sewage matter into Lake Superior.

Four Motorists Pay \$35 Here In Fines, Costs

Four persons were ordered to pay a total of \$35 in fines and costs by Judge Edward H. Dembowski in municipal court this week for traffic violations.

A fine of \$6.30 and \$3.70 costs were paid by Willard A. Schwartz, 1106 Norway St., for failure to stop in the assured clear distance ahead. City police ticketed him Oct. 18 following an accident at the intersection of U.S. 41 and S. Lake St.

Speeding Count For speeding, Sigfrid D. Parkkonen, 605 Prince St., Negaunee, was ordered to pay a fine of \$6.30 and \$3.70 costs.

### Financial Scene: Living Costs At Record High In U.S.

By SAM DAWSON NEW YORK — Living costs are stuck on a plateau. Unfortunately for the consumer it's a record high one. And the prospects for change aren't impressive.

The consumer price index is 107.1 per cent of the 1957-59 average. This record was reached in July, held through August and September and apparently budged little of any in October.

The most optimistic note sounded so far is that there is little indication of a major upward move in the next few months at the consumer level, despite a rash of price increases in some industrial materials and products.

To React Seasonally The statisticians think consumer prices will react seasonally, or normally. By seasonally they mainly mean the effects of weather on food prices.

City police issued the summons Oct. 26 for driving 50 miles per hour in a 35-MPH zone on W. Washington St.

Richard M. Hernandez, K. I. Sawyer Air Force Base, was fined \$6.30 and ordered to pay costs of \$3.70 for failure to have his motor vehicle under control. The summons was issued by city police Oct. 20 following an accident on County Road 553 in the city.

A fine of \$1.30 and \$3.70 costs were paid by Bruce A. Hult, 2523 W. Fair Ave., for driving a car with excessive noise. He was ticketed by city police Oct. 25 on U.S. 41 in the city.

By normally they usually mean that some costs will go on rising a bit—the creeping inflation that for years has kept the index always higher than the previous year.

For example, the Bureau of Labor Statistics reports that its food index in September was 6 of a percent lower than in August because of seasonally lower prices for fresh fruits and vegetables. But the food index also was up 6 of a percent from September 1962, largely because prices charged by restaurants have risen 1.9 per cent in the last year.

Gasoline Wars. Some gasoline price wars and cuts in new auto prices also dropped the transportation index 4 of a percent in September from August, although it's still 0.1 of a percent higher than the year before.

All other parts of the index rose — whether seasonally, or normally, or in belated reaction to prior rises somewhere else along the line. Higher were the costs of housing, rents, apparel, medical care, personal care and reading and recreation.

The one-month advances weren't large, but enough to offset the break the consumer got from the easing of food and transportation costs.

Weather Factor There's little that can be done about the weather. It's in services that the consumer has been feeling most of the effect of creeping inflation. Medical costs are more than 2

per cent higher than a year ago. So are reading and recreation and a host of other services.

The statisticians think the big advances in service costs may be over, however—from now on any increases can be termed normal.

So it looks like more of the same: Living costs may go on rising a bit, but if so the increases of one item or another can be labeled seasonal or normal.

8 Laotians Killed By Hand Grenade VIENTIANE, Laos — An unidentified person threw a hand grenade into a crowded fairground killing eight Laotians and injuring at least 62 others. There was no indication of the motive behind bombing.

## Public Cheated

Law enforcement and court action are procedures carried out by the legally appointed or elected officers and judges to insure obedience to the laws of the land. This arrangement is made to assure adequate protection for the public. When one or the other fails to carry out the duties in the spirit of the law it is the public who is being cheated.

This generalization perhaps doesn't mean much to the average person, but specific cases do. Very often, in this area's municipal

or justice courts, city or state police, sheriff's deputies or conservation officers who have worked hard and long on a case which they have taken to court find, to their dismay, a pitifully weak sentence imposed. The guilty person might well laugh up his sleeve, because the officer has done so much to accomplish so little. The sentence, in a number of instances, is far too inadequate to fit the offense.

For example, a motorist under the influence of alcohol is unable to control his car, which strikes another vehicle, resulting in serious injuries to two persons in the other auto. The driver at fault, who police say shows no remorse, is "let off" after paying a relatively light fine and perhaps spending a few days in jail. The innocent parties, meanwhile, spend more time in the hospital and have scars and bills to show for the incident long after the one to blame has gone off the deep end again.

A conservation officer detects someone violating game laws and gives pursuit, the violator fleeing into his car and leading the conservation officer on a wild, 100-mile-per-hour chase. Needless to say, the officer risks his life to apprehend the violator. After being captured, the violator is taken into a court, charged and let off with a relatively light fine. In one such case in this area, the fine amounted to only \$10. In such instances, officers become exasperated; they have taken great risks in order to perform their duty and uphold the law, only to have the guilty person have his knuckles tapped lightly.

In another case we can recall, police pursued a motorist who had been observed violating two traffic regulations. The fleeing driver went on a dizzy round of stop sign violations, criss-crossing through the city at high speeds and in a reckless fashion before being apprehended by officers. The maximum charge which could be made: Reckless driving. The penalty: \$25 fine and costs. Justice? Thirty years ago perhaps a \$25 fine would have been considered stiff. Today one can earn that amount in a day or two. Satisfaction? Do you think police feel they've accomplished anything by taking their lives into their hands by following such a driver, only to have him get off so easily?

For the sake of justice and protection to the public, we believe municipal judges and justices of the peace should carefully weigh the cases which come before them, meting out penalties to fit the offense. We don't infer that a person driving 35 miles an hour on a deserted street at 1 in the morning should be socked by a stiff fine. Or that a motorist who fails to come to a complete stop at some lonely corner when traffic obviously is light should have to fork out a week's wages in court. But we do believe that where innocent persons have been injured, where officers have gone to extraordinary lengths to apprehend a flagrant violator or where the offense itself resulted in considerable damage and involved an element of danger to others, then the court should "crack down."

## A GROWING NATION

By the end of fiscal 1964, the budget year on which we are now working, there were 10 million more Americans than there were the day President Kennedy took office. Between fiscal years 1962 and 1964, the volume of mail will rise by more than six per cent, the number of veterans or survivors receiving pensions by 10 per cent, beneficiaries under the old age and survivors insurance program by 16 per cent. Those are by no means all the figures one could cite, but they are enough to make the simple point that we are a growing nation which requires growing national services to meet the needs of its people and of its business and its industry.—Treasury Secretary Dillon.

## From The Journal Files

### 60 Years Ago

#### —Marquette—

The annual meeting of the Upper Peninsula Educational Association reached its climax with yesterday's sessions, and today it will be in its decline. Last evening the officers and the members of the local committees were very jubilant at its success, which has been of an undoubted quality. It is the popular thing to insert that every meeting is the "best ever held." This seems really true of the gathering now drawing to a close. At least, many prominent members of the association claim it to be the case.

#### —Ishpeming—

The high school team will measure its strength with the eleven of the Marinette High School at Union Park this afternoon. The local eleven is crippled, having two players on the injured list, who are unable to participate in the contest. Markert and Urquhart,

### 30 Years Ago

#### —Marquette—

More than two and a half million tons of iron ore will be shipped from the Marquette harbor for the 1933 season, it was indicated yesterday when the monthly reports from the L&I and South Shore docks showed that, so far this year, 2,382,720 tons have been moved in 319 boats, an enormous increase over the same period last year when only 295,648 tons were taken out in 39 boats.

The time limit for filing livestock feed loan applications has been extended from Oct. 31 to Dec. 1, according to word received yesterday by L. R. Walker, county agricultural agent, from Henry Morgenthau Jr., governor of the farm credit administration at Minneapolis.

#### —Ishpeming—

Rooming accommodations are being sought for about 300 youths from U.P. counties who are expected to attend the 20th annual Upper Peninsula Older Boys' Conference in Ishpeming Nov. 17-19.

both of whom had no small part in helping to win the victory at Hancock last Saturday, are still disabled from the hurts they received in that game, and their absence from the line-up today will be felt.

Dr. Eldred Robbins will assist in the music at the morning service at the Presbyterian Church tomorrow.

#### —Negaunee—

Capt. John Thomas of the Princeton Mine was in the city yesterday. In a talk with The Mining Journal representative he stated that the fire in the shaft was not as serious as reported here. There was much excitement for a time, but the men were never in danger of losing their lives, either on account of the fire in the timbers or the smoke in the mine.

The post office was moved to the Sundberg Block Thursday night, after closing hours, and mail was delivered at the new stand yesterday.

#### —Negaunee—

A definite upturn in the manufacturing division of the lumber industry in the first 42 weeks of 1933, compared with the same period last year, is revealed in a report compiled by the National Lumber Manufacturers Association, covering the activities of more than 1,000 producers operating sawmills in all regions. It is shown that for the industry as a whole there have been gains in orders, shipments and production.

The Sunday school of the Bethany Lutheran Church will give its annual Sunday School Night program at 8 Thursday. A social hour, with refreshments, will be held following the program, and friends are invited.

## 'Wouldn't These Be Safer Out There?'

BRUCE SHANKS, BUFFALO EVENING NEWS

## The National Whirligig News Behind The News

By ANDREW TULLY

WASHINGTON — Anything that smacks of progress in the chaos that is the nation's transportation system should be welcomed, and so the taxpayer might aim a bow in the direction of the House Commerce Committee — and continue to hold his breath.

The committee has decided the railroads should be given the same exemption from federal regulation on farm commodity shipments as that long enjoyed by barge and truck lines. It also has recommended that henceforth barges and trucks be subject to the same bulk shipment rate regulations of the Interstate Commerce Commission as the railroads.

This is a step that should have been taken years ago. It is unfair to regulate some carriers and not others, and even Congress should find that easy

to understand. Washington's inaction on this and other inequities in the transportation industry has created a national mess.

### A Looney Complex

But the House committee's action is only a bone thrown to the industry, and without further steps it could prove dangerous. There are too many gimmicks that need looking into, too many obsolete laws on the books which have created a chaotic patchwork of inconsistency.

For example, the present minimum rate regulation applying to the railroads are costing the country money. One railroad developed huge new hopper cars for carrying grain at greatly reduced costs. If it were not for government-enforced minimum rates, this road would be able to pass on to the public the

benefit of a 60 per cent cut in freight rates on multiple-car shipments.

### Law Is Two-Faced

In most industries, the law forbids rate fixing. But railroads, truckers, airlines and barge operations now fix rates throughout competing systems in a way that would have Congress hollering for the cops if practiced by other businessmen. Moreover, the ICC gives these transportation outfits the right to charge less over some routes than over others and to charge some shippers more than other shippers are charged for identical services.

Moreover, there is trouble ahead in merely lifting federal regulation on rail shipments of agricultural products. The nation has no guarantee that the railroads, suddenly freed of these restrictions, will not muster their financial power and political influence and cut freight rates to the point where smaller competitors could be driven out of business.

### Tough Job Ahead

In appealing for an overhaul of transportation legislation in April 1962, President Kennedy suggested that competitors of the railroads could seek redress through the antitrust laws against discriminatory rate-cutting. But the Justice Department has ruled that the Robinson-Patman Act would not apply and that the only recourse of carriers so injured would be under the tedious, creaking procedures of the Clayton and Sherman Acts. By the time such machinery could be mustered, some of those carriers would be driven out of business.

Heaven knows Congress has enough to do these days, but it cannot solve the nation's transportation problem by piecemeal legislation. Instead, such half-a-loaf measures could make things worse. What is needed is a comprehensive study within Congress to find out just what has to be done, and then the preparation and passage of an omnibus bill which will solve the whole problem. This would be hard work, but it would not be necessary now if Congress and the White House had done something about the situation 20 years ago when the industry's troubles were smaller and more manageable. (Bell-McClure Syndicate)

## Remember When — ?

By HAL BOYLE

NEW YORK (AP) — Every man's life is measured by his memories.

They are his mental Baedeker, the fadeless guidebook of the mind. Memories also are the lasting fingerprints of the soul. No two people, no matter how deeply shared their lives, ever have quite the same set. We are born individual, and as we age our memories accent that individuality.

Most Wonderful Flavor — But they also help keep us mutual. And you've passed a lot of milestones yourself if you can remember when—

Dad first let you drink from the nozzle of the garden hose as he watered the lawn—and it had the most wonderful flavor in the world.

White collar workers earned more than blue collar workers. The wealthiest guy in the block was the kid with the most marbles.

### Group Delays Action On Employment Bill

WASHINGTON — The Senate Labor Committee has given some consideration to an administration-backed fair employment practices bill — and decided to take no action on it for a couple of weeks.

The delay so that the fair employment practices section included in the House civil rights bill can be studied first was agreed to by sponsors of the Senate version, Sen. Joseph S. Clark, D-Pa., reported.

### Woman Named Head Of State Dept. Office

WASHINGTON — Katie S. Louchheim, the first woman to serve as a deputy assistant secretary of state, has been named head of a new State Department office. It is the Office of Community Advisory Services, which the department says is designed "to increase contacts between U. S. communities and the Foreign Service."

### 2 Roadside Parks Sold For \$1 Each

LANSING (AP) — Two roadside parks have been sold for \$1 each to the Chippewa and Cheboygan county road commissions by the Highway Department. Both parks are on former state highways, to be replaced by freeways. The Chippewa County park is on U. S. 2 North of Rudyard. The Cheboygan County park is on former U. S. 27 south of Wolverine.

## GOP Eyes Largest States

By PETER EDSON

WASHINGTON — (NEA) — Nine months before the Republican national convention opens in San Francisco, the battle of the presidential candidates is on to capture the 13 largest states.

Taken together, these states have 662 of the 1,308 convention votes — seven more than the 655 needed to win the nomination.

### Michigan Has 48 Convention Votes

Five of the favorite son candidates who are expected to have support from their delegations, on the first ballot at least, come from these big states.

They are Gov. William W. Scranton of Pennsylvania (64 convention votes), Gov. James A. Rhodes of Ohio (58), Gov. George Romney of Michigan (48), Sen. Clifford Case of New Jersey (40) and Rep. John W. Byrnes of Wisconsin (30).

When these states start to switch, that's the time to watch which way the bandwagon will go.

Gov. Nelson Rockefeller of New York (92 votes) has the advantage in his own state.

### California Presents Special Problem

No organization for Sen. Barry Goldwater of Arizona has yet been announced for the most populous state. But Elmer Weil of Buffalo, a former Erie County attorney, recently put out a statement that he would head a Goldwater movement in western New York, which has been considered not too friendly to Rockefeller.

California (86 votes) presents a special problem. It has the last primary, June 2, just three weeks before the convention, opens in San Francisco. And in the convention, California is the first big state to vote.

Republican efforts to present either Sen. Thomas H. Kuchel or Rep. Glenard P. Lipscomb as California favorite son candidates now seem to have been abandoned.

Both Rockefeller and Goldwater are campaigning extensively in California, though neither seems to want a knock-down drag-out fight there because of the expense.

Goldwater seems to have stolen a march in the state by naming former Sen. William F. Knowland as chairman of his advisory committee of 70 or 80 local California leaders.

### Scranton Might Get Rockefeller Support

Pennsylvania will be for Scranton as long as he wants to hold. He has said he would accept a genuine draft, though he does not want to be considered an active candidate.

If by any chance Rockefeller should lose out in key primary states like New Hampshire, West Virginia, Wisconsin or Oregon — or if he should withdraw for any reason, which isn't expected — much of his support might go to Scranton.

Goldwater's organizing efforts in Pennsylvania have so far been limited, and his Hershey, Pa., speech fell flat.

Illinois and Ohio (58 votes each) present contrasting situations. Illinois has no favorite son as yet, and the fact that Rockefeller is his only opposition helps Goldwater in that state. Summerfield May Attempt Comeback

Charles H. Percy, campaigning for the GOP gubernatorial nomination in Illinois, had been expected to support Rockefeller, but he is now reported ready to shift.

Little Rockefeller support has been reported in Ohio, but the Buckeye state is leery of Goldwater because of his support for right to work laws. Republican espousal of that cause resulted in defeat of the whole GOP ticket in 1958.

Romney still insists he is not a candidate. That will be decided when Michigan convention delegates meet in caucus to select the man they will back.

One curious situation developing in Michigan is that former GOP National Committee Chairman Arthur Summerfield may attempt a political comeback as a Goldwater supporter. Romney and Summerfield are not the closest of political pals.

Texas (56 votes), Florida (34), Indiana (32) and Virginia (30) are now considered Goldwater country. New Jersey (40), Massachusetts (34) and other smaller eastern states have leaned to Rockefeller, but might be shifting.

Wisconsin (30) expects agreement from both Rockefeller and Goldwater not to go into the state, to give Rep. John Byrnes a good run as favorite son.

## DeGaulle Still On Bridge

By JAMES MARLOW Associated Press News Analyst

WASHINGTON (AP)—French President de Gaulle, almost 73 now, said once: "Old age is a shipwreck." But, if the waters of time are lapping at his decks, he is still on the bridge, still a captain and very much a critic. The Kennedy administration's duel with him, compared with de Gaulle's ominous and blunt suspicions about American defense of Europe, has an almost delicate elegance in its pointed but restrained thrusts.

Repeatedly the administration has criticized him without naming him, as if still trying to be neighborly with the man next door who keeps honking his horn all night and building fires on the sidewalk.

Trying To Be Neighborly — De Gaulle, dreaming of a resurrected France, said his father talked to him about it in childhood, must be realistic enough to know France lacks the resources to be a No. 1 power again, like the United States and Russia.

Reality Beckons Dream — But reality beckons a dream. And de Gaulle, perhaps out of frustration and injured pride, persists in making France sound bigger than it is if only by the tactics of obstruction and hostility.

He had blocked Britain from joining the Common Market and endangers the Western Alliance by suggesting Europe cannot depend indefinitely on the United States, its pledged ally, to stand beside it in time of danger.

Slams Into De Gaulle — Nevertheless, the Kennedy administration tip-toes around him. Not so Sen. J. W. Fulbright, an Arkansas Democrat who doesn't have to deal directly with the Frenchman.

This week in the Senate Fulbright, chairman of the Foreign Relations Committee, slammed head-on into de Gaulle.

De Gaulle recently boasted that France not only isn't borrowing from others, "particularly Americans," but is paying off its debts to them and "even on occasion is granting them certain facilities."

Dry Reminder — Fulbright reminded him dryly that France still hasn't paid the United States almost \$6.5 billion it has owed since World War I. Back of Fulbright's attack was de Gaulle's news conference slurs last July 29.

But back of that were similar episodes. De Gaulle inflicted a brutal embarrassment on President Kennedy last Jan. 14 by holding a news conference — and this was hardly an accident — a few hours before Kennedy sent a highly optimistic message to Congress about this country's relations with its allies and the alliance itself.

Long, Brilliant History — "How fares the Grand Alliance?" Kennedy asked. Then

he answered himself: "Free Europe is entering into a new phase of its long and brilliant history."

But before Kennedy could get the words out de Gaulle, at his Paris meeting with the press, slammed the Common Market door in Britain's face, rejected this country's proposal for a multinational nuclear force among the NATO allies, and said France opposed a Common Market "under American leadership and domination."

On April 19 de Gaulle, shooting another poisoned arrow, said France could not be sure of the intentions of its allies, much less of its enemies.

Kenney Pledge — To offset the kind of suspicions de Gaulle was trying to arouse about the United States, Kennedy at Frankfurt, West Germany, on June 25 pledged to risk the destruction of American cities to preserve European freedom.

Two days later, June 27, France's information minister, after newsmen were told he would give de Gaulle's reaction to Kennedy, warned Europe against trusting its security indefinitely to the United States.

Unkept Promises — By this reasoning, of course, how could the other allies ever trust any promises de Gaulle made for France once de Gaulle was no longer president?

But while doing all this talking de Gaulle still had not assigned to the NATO Alliance all the divisions France had promised it years ago. For that matter, no other country but the United States has kept its NATO promise.

Another Dig At U.S. — De Gaulle had another news conference July 29 and took another dig at this country by suggesting that in time of danger from Russia the United States might not imperil itself by standing beside its allies.

The de Gaulle belittling technique was getting stronger. On Oct. 27 Secretary of State Dean Rusk also went to Frankfurt and reassured the allies of American loyalty. And almost timidly, it was so oblique, he told them they were not putting in NATO all the divisions they had promised.

"Voice Of Negation" — This could be interpreted as a slap at de Gaulle. Rusk didn't say it was. But Fulbright was direct. He said "for too long France's voice has been a voice of negation and dissent within the Western community."

And, when he meant de Gaulle, he said de Gaulle. He suggested the Frenchman get over his pride.

Arabians drank a concoction made by boiling coffee leaves and berries. It made a bitter but stimulating drink — so stimulating that Moslem religious authorities tried to ban it.

## Side Glances

"Don't 'no comment' me!"

Shown are members of the Marquette Community Theatre, Inc., who are taking part in "Brigadoon," which will be presented Nov. 5, 6 and 7 in Kaufman Auditorium. Part of the women's chorus, in the above picture, is pictured rehearsing "Jeanie Packin' Up." From left are Georgia Wilson, Janice Kampinen, Jan Jacobson, Alice Hurst, Venitia Bolz, Donna

Dompierre and Evelyn Myers. Lower left: Howard Treado Jr. as Jeff Douglas tries to avoid the advances of vivacious Meg Brockie, played by Ellen Clement. In the lower right photo Mayor Fred Rydholm, attired in kilt and tam o' shanter, is cast as the "dominie," or the village school teacher. (Photos by Howard Treado.)

## Many Efforts Involved In Theater Productions

Hard work, many long hours of self-donated time, concentrated effort and the cooperation of every member of the Marquette Community Theatre group are involved in the staging of one of its productions. What determines the dramatic play or musical to be presented? A committee is selected to read and review several plays: This committee then presents the works it has chosen to the entire group, who discuss, comment and finally decide, after careful consideration, the play to be staged.

**Committees Chosen**  
Costume, publicity, props and program committees are then chosen.

Auditions are held. In the case of "Brigadoon," which the Community Theatre company is presenting Nov. 5, 6 and 7, Howard Kitzman, musical director, Vivian Lasich, dramatic director,

and Nan Madden, conducted the auditions.

It takes up to six weeks for a dramatic presentation and 11 to 12 weeks for a musical.

The committees, meanwhile, are busy making costumes, trying to locate properties, building sets and working on publicity. Many people in the cast double their effort by serving on various committees.

**Costumes Made**  
Many of the costumes for their performances are made by committee members, but in some cases costumes have been loaned to the group by Mrs. Anita Meyland for use during performances. The costumes for "Brigadoon" were purchased by the Community Theatre, which is slowly building up its own costume wardrobe.

Community Theatre has approximately 80 paying members. However, they solicit comment

## AAUW Delegates Attend Meet Here

Attending the area conference of the American Association of University Women held recently on the campus of Northern Michigan University were seated, from left, Mrs. Derrick Sherman, National AAUW Visitor, who addressed the group of women, and Miss Tyne Parvainen, Ishpeming. Standing from Marquette: Mrs. Charles Humphrey Jr., Ironwood, and Mrs. Homer Hilton Jr., Marquette. Ironwood, Ishpeming, Houghton, Sault Ste. Marie and Marquette branches attended the conference. (Photo by Joe Sullivan.)

## Recollection Services Monday In Harvey Church

An evening of recollection will be observed at St. Louis the King Church, Harvey, Monday, for all married couples in the Marquette area.

The evening will open at 6 p.m. with a potluck supper to be served in the parish hall. Those attending are asked to bring a dish of food.

The services will begin at 7 p.m. The Very Rev. Msgr. Ronald Bassett of the Margrove Retreat House in Garden will give the talks.

There will be coffee breaks and discussions. The evening will end with the renewal of marriage vows and benediction.

An invitation is extended to all married couples whether in a Catholic or mixed marriage to attend.

## Music Club Meet Rescheduled For Nov. 12

The November meeting of the Saturday Music Club, originally scheduled for Tuesday evening, has been postponed until Nov. 12 to allow members to attend the opening performance of "Brigadoon."

The musical production, which is an effort of the Marquette Community Theatre and the American Federation of Musicians is especially important to club members because one of the most loyal and active members, Miss Norma Ross, will be honored at the opening performance.

At the Nov. 12 meeting, which will begin at 8 p.m., the Music Club will feature a program devoted to the composer Mendelssohn.

The evening is being planned by Dean Allen L. Neimi of Northern Michigan University and will include musical offerings by several NMU students and the NMU string quartet.

Details of this program will be announced later.

## Kimonos Outdated In Japan Today

TOKYO (AP) — If you think the kimono clad woman who steps from a plane on a visit to New York, London or Paris reflects the image of her modern sisters in Japan—don't.

Japanese women, especially wives of government officials and businessmen, almost always show up abroad in the traditional Japanese kimono.

But the fact is the kimono in Japan today is almost as outdated as the bustle and hoop skirt. It's uncomfortable, difficult to get into and out of, especially with that waist-choking obi (sash). The dangling sleeves are liable to sweep the salt and pepper off the table. It restricts one's gait to pigeon steps, and it's terribly bothersome to clean. In fact at each cleaning the whole thing has to be taken apart and sewn together again.

The kimono is worn abroad because a visit to foreign lands is an important event and the kimono is the right formal attire for any occasion.

Besides, it's pretty and gay, and in these days of growing prosperity practically every girl can afford to buy one for New Year's and other festival holidays.

But there's more to it than that.

One widely-travelled woman put it this way: "Japanese women generally aren't built for Western dress the way Western women are. And the comparison shows Japanese women off to a disadvantage. But inside a kimono they feel safe. Any inferiority they might otherwise feel is compensated for by the knowledge of the uniqueness of their appearance."

Then, a kimono opens the way for a compliment and helps get a conversation going. Most Japanese women reared in feudal-minded, prewar Japan are inept in strange company.

There's also the matter of being practical. While most women wear Western dress at home, they do put on their kimono for formal occasions. Wearing a kimono abroad saves buying a new wardrobe.

## Homemaking Tips

A bottle of raspberry syrup in the house? This delightful concoction, indispensable to Europeans, has been making its way around this country and is available in a good many shops. Add some of the syrup to cut-up fresh fruit or couple it with club soda and ice for a refreshing beverage.

If you are frying a coated food in an 8-inch skillet, you'll need about 1/4 cup of fat, in a 9-inch skillet about 1/3 cup, and a 10-inch skillet will take 1/2 cup.

If small amounts of food are deep-fat fried at a time, the temperature of the fat won't be lowered unduly as the food is added.

Want a "different" stuffing for deviled eggs? Mash the egg yolks (removed from the halved hard-cooked eggs) with butter and Roquefort cheese. Season to taste and pile the stuffing back into the cavities of the egg whites. Ruffle with a fork and sprinkle with paprika.

## Meetings

**The Bishop Baraga Circle** will meet Monday at 8 p.m. in the home of Mrs. Charles McLaughlin, 1024 N. Pine St. All members are asked to attend for details on the doll project.

**The Martha Circle of St. Mark's Lutheran Church** will sponsor a bake sale Saturday at 2 p.m. in the church parlors. Coffee will be served during the sale.

**The Ladies of the Community Presbyterian Church, Big Bay**, will hold their Hunters' Luncheon Thursday, in the church basement starting at 5 p.m. Old fashioned beef stew, homemade biscuits, salad, cake and coffee will be served.

Strips of candied ginger zest to blueberries served "as is." And dieters note: no cream needed.

## New Names In The News

**YOUNG** — A daughter, Virginia Winona, was born on Oct. 25 in the K. I. Sawyer Air Force Base Hospital to S/Sgt. and Mrs. Edward F. Nellis, 150 Panther, Sawyer AFB.

**NELLIS** — A daughter, Christine Marie, was born on Oct. 25 in the K. I. Sawyer Air Force Base Hospital to A/1c and Mrs. Edward F. Nellis, 150 Panther, Sawyer AFB.

**PHELAN** — A daughter, Lisa Mae, was born on Oct. 30 in St. Mary's Hospital to Mr. and Mrs. Lloyd Phelan, 1307 Kimber Ave., Marquette.

**MAURER** — A daughter, Monique Theresa, was born on Oct. 30 in St. Mary's Hospital to Mr. and Mrs. William J. Maurer, 229 Lakewood Lane, Marquette.

**LARSON** — A daughter, Stephanie Sue, was born on Oct. 30 in St. Mary's Hospital to Mr. and Mrs. Donald Larson, 224 E. Case St., Negaunee.

**DeROCHER** — A daughter, Laura Catherine, was born on Oct. 30 in St. Mary's Hospital to Mr. and Mrs. Peter DeRocher, 801 Center St., Marquette.

## Trowbridge Church Burns First Mortgage Sunday

A first mortgage on the parsonage of the Trowbridge Park Covenant Church will be burned at the 11:15 a.m. service Sunday.

The completion of payments on this mortgage represents a step toward final payment on this modern three bedroom home that was readied for occupancy by the pastor and his family in June 1959.

The public is invited to share in this special service, when the Rev. H. E. Nelson will bring an appropriate message.

## Woman's Club To Sponsor Card Party

The Marquette Woman's Club will sponsor a public card party for the benefit of Girl's Town Wednesday afternoon.

Dessert will be served at 1:30 p.m. with card playing to follow.

Hostesses for the afternoon will be Mrs. John O'Neil, chairman, Mrs. Douglas Francis, Mrs. Bryon McCombie, Mrs. Diane Robinson.

For further information one may call Mrs. Ernest Shannan, CA 6-9076.

Too often forgotten: salads should be served on icy-cold plates.

CONNIE THOMPSON

MARY KNAUF

## Potato Queen To Reign At 34th U.P. Show Here

Five young ladies representing Iron, Delta, Luce, Houghton and Marquette Counties, are entered in competition for the 1963 Upper Peninsula Potato Queen, one of the feature events of the 34th annual U. P. Potato Show, now in progress in the National Guard Armory here. The entrants are: Anne Louise Johnson, Iron River; Connie L. Thompson, Cornell; Mary Margaret Knauf, Newberry; Kathleen Ann Martin, Hancock and Mary Ellen McGuire, Marquette.

The public is invited to attend 2 this afternoon in the armory and their talent show will be featured at the program this evening.

They will appear at 5 tomorrow afternoon on WLUC-TV, the winner and her court to be guests at the closing dinner program at the student center of Northern Michigan University tomorrow evening.

The girls and their chaperones are being entertained here by the Junior Woman's Service club under the chairmanship of Mrs. Richard Lutey. Members of the Ambassador's Club, an adjunct of the Marquette Chamber of Commerce, will be their chauffeurs.

The public is invited to attend each of the events of the Potato Show.

## Paragraphs

"Family Devotions" will be broadcast over WDMJ, The Mining Journal station, 4:11 p.m. next week at 6:45 p.m. by the Rev. Louis Kok, chaplain at K. I. Sawyer Air Force Base.

Vesper Services are scheduled Sunday at 4 p.m. at Morgan Heights Sanatorium, with the Rev. John C. Hamel, Presbyterian missionary, in charge.

## Parent-LeTrent

(Photo by Homburg's Studio)

St. John the Baptist Catholic Church was the scene Saturday for the wedding of Mary Helen Parent, daughter of Mr. and Mrs. Edward H. Parent, 121 W. Michigan St., and Robert Eugene LeTrent, son of Marguerite Paris, Buffalo, N. Y., and Samuel LeTrent of Youngsville, Pa.

The Rev. Raymond J. Garin was celebrant of the nuptial high Mass, after which the bride placed a bouquet of flowers at the statue of the Virgin Mary.

Escorted to the altar by her father, the bride was gowning in a bouffant sheath dress of or-

ganza and Chantilly lace, which featured a lace sweetheart neckline and bracelet sleeves. Pearl trim accented the front panels with lace appliques at the edge of her chapel-length train. Her bouffant veil of pure silk illusion was caught to a rose of organza adorned with seed pearls and sequins. Pink cymbidium orchids and baby chrysanthemums were centered on a missal carried by the bride.

Attending the bride were Miss Trudie Frazier, Detroit, as maid of honor and Mrs. Robert Hoppe, Marquette. Gail Hoppe was flower girl.

The maid of honor and bridesmaid wore dresses of colder glow peau satin featuring three-quarter-length sleeves, scooped necklines and fitted bodices. Their controlled floor-length overskirts were fashioned with a side-wrap effect, accented by two bows. They wore forward headpieces of copper glow which consisted of fabric cabbage roses and leaves from which fell a chin-length veil of sheer French illusion tulle. They carried crescent-shaped bouquets in fall shades of bronze, yellow and gold chrysanthemums.

The flower girl wore a copper glow street-length dress similar to that of the bridesmaids. Her matching headband of satin was attached to a chin-veil. She carried a basket arrangement of fall-colored flowers.

The mother of the bride wore a Dior blue lace dress with accessories in shades of blue to match. Her corsage was of pink sweetheart roses. The groom's mother chose a green sheath dress of corded faille with an overskirt and matching accessories in cocoa brown. She wore a corsage of bronze, yellow and

chrysanthemums.

Clarence Bach, Laurium, attended the groom as best man. Groomsman was Robert Hoppe, Marquette. Paul Dionne and Robert Marlowe, cousin of the bride, were ushers.

A rehearsal dinner was held at the Chalet Friday evening.

**Wedding Trip**  
A dinner was served at the Northwoods following the ceremony, and a reception in the K. of C. Hall was attended by many relatives and friends.

After a wedding trip to Niagara Falls, New York City and Pennsylvania, the couple will reside on Bluff St., Marquette.

Mrs. LeTrent is a graduate of Bishop Baraga Central High School and is employed in the office at St. Mary's Hospital.

**Out-of-Town Guests**  
The groom attended Lake Shore Central High School in Angola, N. Y. He will graduate in November from the U. P. Beauty Academy as a cosmetologist.

Out-of-town guests attending the wedding were from Buffalo, Youngville, Detroit, St. Ignace, Iron Mountain and Ishpeming.

## Town Talk By Tish

(Written Especially for Men)

Tuesday, Wednesday or Thursday, November 4th, 5th and 6th is Theatre Night. The curtain goes up on "Brigadoon." Why not let the curtain go up on an evening of elegance for the two of us? What could be more fun than to dress up in our very best and go out to The Chalet for dinner before the play. The Chalet is offering special low "Brigadoon" dinner prices for ticket holders. We could make up a party and have a gala evening. Or go tete-a-tete and have dinner for two on the romantic balcony in the softly-lit Florentine Room? The Chalet is the perfect setting for the beginning of a lovely evening. A word to the wise here—call early for reservations. The number is CA 6-9731. (This is especially for MY husband. Did you read it, darling?)—Adv.

I had my hair done this morning at The Style Salon, 1016 N. Front Street, just in case someone might ask me to a "Brigadoon" night out. I love the individual attention I get there. You too will be excitedly pleased with the youthful, charming and smart styling they will achieve for you at The Style Salon. They will cut and shape your hair to create the loveliest You. And be sure to try Miss Clairol Hair Coloring. It really is so natural looking no one can tell! Your hair will be truly your crowning glory. Call CA 6-2741 for an appointment.—Adv.

# Skandia Church Sets Dedication Service For Sunday Morning

SKANDIA — Dr. Ivan Gonser, superintendent of the Marquette Methodist District, will speak at a worship service Sunday morning, beginning at 9, at which the remodeled Skandia Methodist Church will be dedicated.

Officiating with him at the service, to which the public is invited, will be the Rev. Knute Savareid, minister of the Skandia church and the Grace Methodist Church in Marquette.

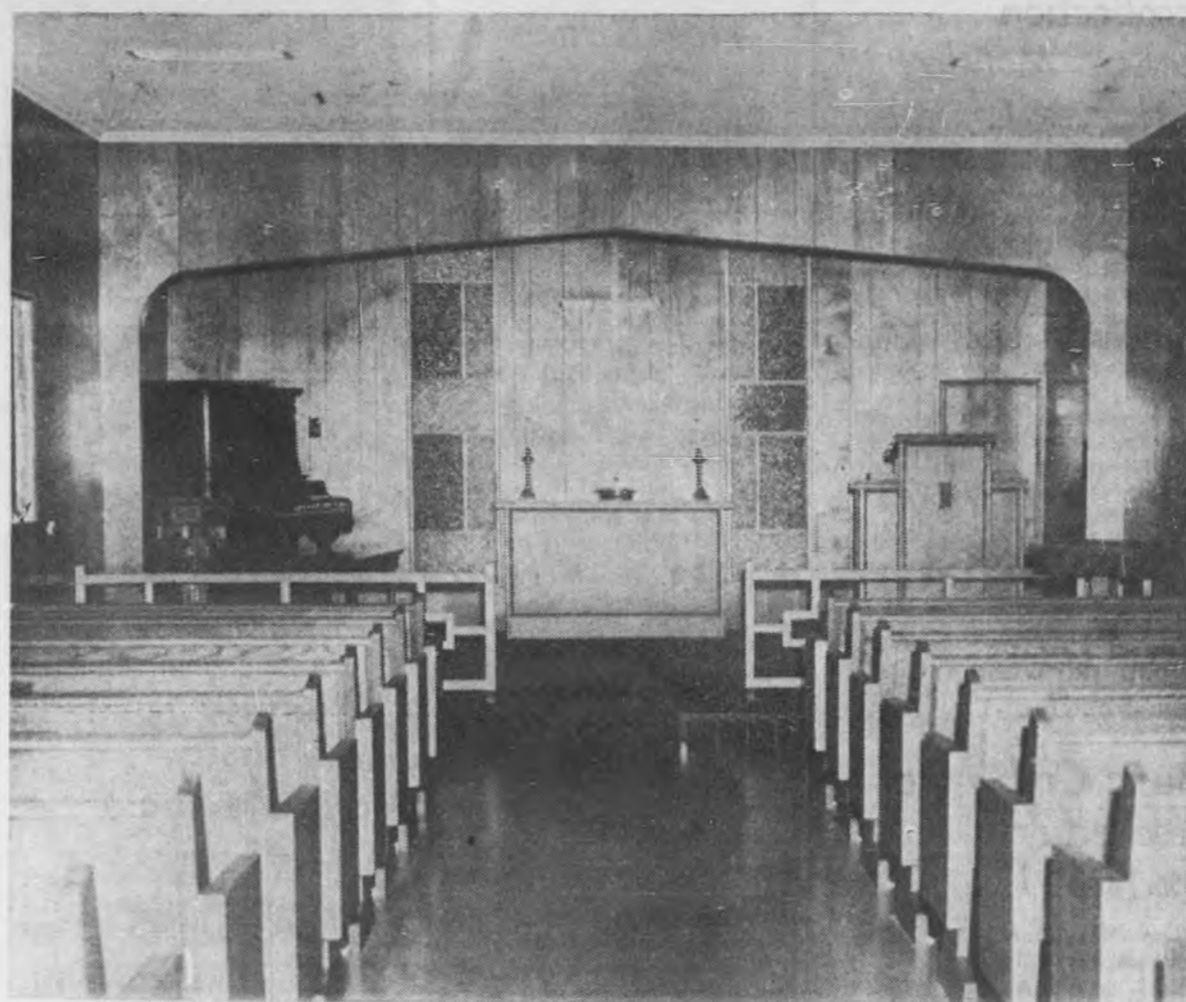

The public also is invited to an afternoon program in the church, when opportunity will be offered to inspect the many improvements effected during the last several months. Lunch will be served in the church basement afterwards.

The remodeling program at the church was begun last April 29. Since then, the interior has been renovated, including installation of new style colored glass windows and a lower tile ceiling. New lighting fixtures, cherry wood paneled walls, new floor and carpeting, new pews and chancel furnishings have been installed.

Complete insulation of the church structure and painting of the outside completed the project.

"To keep costs down, no contracts were let for the job," the Rev. Mr. Savareid said today. "Most of the work was done on a volunteer basis by members of the congregation and interested friends over the last six months."

Members of the building committee were William A. Quayle, chairman; Gilbert Johnson, treasurer; Mrs. William Hoy, secretary; Mrs. Bert Hanson, Mrs. William A. Quayle, Carl W. Swanson, Theodore McMaster, Bert Hanson and Edward Hedmark.

New pews and chancel of Skandia Methodist Church are shown above. Dedication service, at which Dr. Ivan Gonser, district superintendent, will speak, will be conducted Sunday morning and a program will be held in afternoon.—(Mining Journal photos.)

# Hope For Christian Unity Spreads Like 'Prairie Fire'

A big hope and a big question mark—focused on the idea of unity—stirs today among the world's churches.

It is "spreading like an irresistible prairie fire," says Lutheran Bishop Hans Lijie of Hanover, Germany.

In opening the session of the Vatican Ecumenical Council, Pope Paul VI said a main aim was the "bringing together of all Christians in unity."

**'On Way to Christian Unity'**

A few weeks earlier, a gathering in Montreal, Canada, of theologians of most Protestant and Orthodox churches around the earth declared: "We are on the way to Christian unity."

To many people, however, the question arises: Just what would that mean? What organizational framework would it involve? How would it be done?

The fact is that as yet the church leaders do not know precisely. They are probing for the answer.

"We are not yet of a common mind on the interpretation and the means of achieving the goal," says the World Council of Churches, a cooperative body of most major Protestant, Eastern Orthodox and old Catholic churches.

**Reach Guiding Standards**

At the same time, the ecumenical—Christian unity—movement has arrived at certain rudimentary premises and guiding standards.

The primary and underlying basis for it all is the undivided Christ, and His call and prayers for oneness in Him. "As we come nearer to Him," the world council says, "we come nearer to one another."

Urged Pope Paul VI: "May the church be conformed to the living Christ."

The movement also has reached numerous other general principles about the nature of the unity sought.

**Not Simple Uniformity**

It does not imply simple uniformity of organization, rite or expression, says the world council, adding that it does mean tangible, functional connections.

It is a "manifest or visible unity, not something hidden," said a conference of most American churches.

The Rev. Dr. W. A. Visser 't Hooft of Geneva, Switzerland, the world council's general secretary, says, "We have no more right to say that disunity can be overcome by invisible unity, while we continue to live practically in disunity, than to say that we can overcome our sins invisibly, while we continue to commit them."

**Mutual Recognition**

On the other hand, he says, "It is a dangerous misunderstanding to think that the only alternative to disunity is a monolithic, centralized and imperialistic super-church, a sort of ecclesiastical leviathan."

There must be diversity in worship patterns, organization and even different forms of area government, he said, but at the same time organic ties of mutual support, intercommunion and mutual recognition of members and ministries.

In a related vein, Pope Paul, in tracing outlines for reunion, says that while the church must have a single corporate government, it must allow "for a great variety of verbal expressions, movements, lawful institutions and preference with regards to modes of action."

**Authority Shifts Indicated**

Rome traditionally has insisted on more centralized authority than the other churches, and this is a main problem, but the Vatican Council has indicated shifts toward more regional autonomy.

Another generally accepted principle is that valid reunion must not involve watering down convictions to a least common denominator.

The Rev. Dr. Franklin Clark Fry, president of the Lutheran Church in America and head of the world council's central committee, says, "We can't abandon intellectual integrity for the sake of an artificial unity." Rather, the aim is to deepen and sharpen insights, through mutual interchange, to attain fuller truth, and understanding of it.

**Might Be Different Rites**

At the ancient Benedictine Abbey of St. Matthias, in Trier, Germany, the abbott, the Very Rev. Laurentius Klein, an expert in ecumenics, says there must be "both unity and also multifariousness."

For example he says, in forms of worship, there might be different "Protestant rites—a Lutheran rite, an Anglican rite, a reformed rite, as long as the essentials are maintained."

Also in theology, he suggests, just as Roman Catholicism already includes various schools of theology, such as Thomist and Augustinian, there might also be typical Lutheran or other theological emphases in one church.

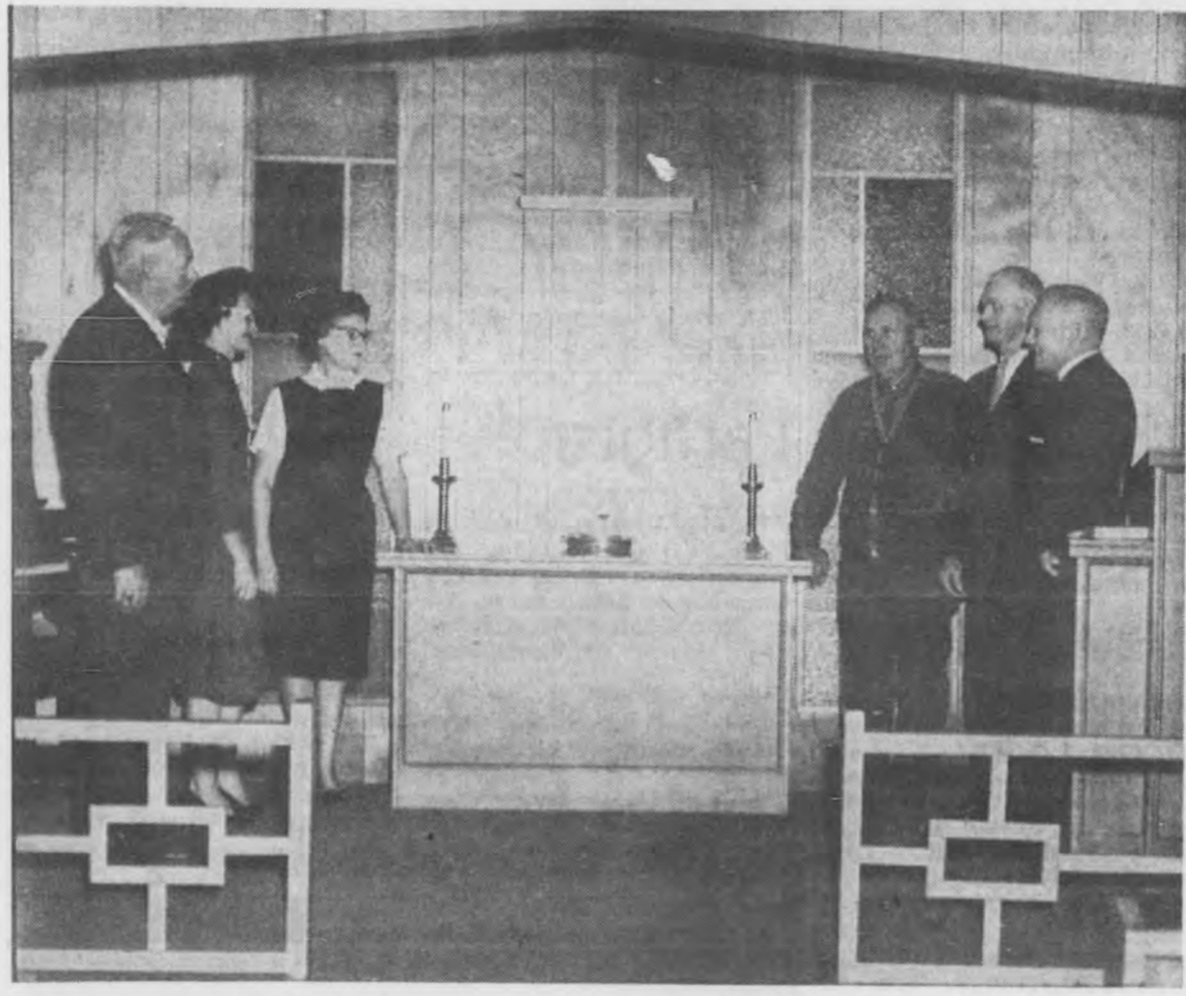

Some churchmen have cited the United States, with its differing states, each with its own character and initiatives, yet all part of one nation, as suggestive of the lines of a unified church, with perhaps a "Church of Pennsylvania," a "Church of Oklahoma" and elsewhere.

**Kind Of Unity Sought**

The world council, in describing the kind of unity sought, offers this broad picture: All Christians in each place being in "one fully committed fellowship, holding the one Apostolic faith, preaching the one gospel, breaking the one bread, joining in common prayers, and having a corporate life reaching out in witness and service to all."

As yet there is no blueprint for achieving it, and immense difficulties remain.

But predominantly, churches seek to make unity in Christ more of a concrete, working reality.

Shown on either side of altar in remodeled chancel are members of congregation active in project. From left, they are William Quayle, Mrs. William L. Hoy, Mrs. William Quayle, Edwin Johnson, C. W. Swanson and five in project. From right, they are William Quayle, the pastor, the Rev. Knute Savareid.

**Automation Blamed For Tax Refund Goof**

BIRMINGHAM, Ala. — Blame it on automation.

That was the verdict Wednesday in the case of the wayward \$10,509 income tax refund check. Intended for Birmingham, it somehow ended up with the Rochelle Park, N. J., School Board.

A giant computer was fingered as the culprit.

The board wrote the Internal Revenue Service office in Birmingham that it doesn't pay taxes and thus has no refund.

George Patterson, IRS district director, said maybe the school's Social Security report got mixed up with the income tax reports.

# Hula Hoop And 'Twist'

Both the hula hoop and the "twist" have slipped in popularity recently, but how many people mastered the art of doing both at the same time? Three-year-old Beth Frickle of Savannah, Ga. gives a convincing demonstration. She is the daughter of Mr. and Mrs. A. T. Frickle. (AP Wirephoto.)

# NOTICE

The Upper Peninsula Power Company announces an interruption of electric service to customers located west of Ishpeming, the Green Creek Area and also customers of Wisconsin-Michigan Power Company living in Black River, Humboldt, Champion and Michigamme.

Service will be interrupted on Saturday, Nov. 2, 1963 beginning at 7 a.m.

This outage will last approximately 30 minutes.

The purpose of this interruption is to make repairs to the company's line which ultimately serves these areas.

The Upper Peninsula Power Co.

# Negaunee Youngsters Lauded By Police Chief

NEGAUNEE — Local law enforcement officials were lavish this morning in their praise of Negaunee youngsters on Halloween.

They termed it "probably the most quiet observance" in Negaunee's history.

Not even a single soaping or waxing of windows was reported to the Negaunee Police Department, and there were none of the other numerous mischievous pranks or acts of vandalism which have characterized Halloween in the past.

"Over the last several years, there has been a noticeable improvement in behavior of Negaunee children on Halloween, but last night, I am convinced, was the best we have ever enjoyed," Chief Ralph Carlson said this morning.

"For the first time, we didn't utilize any extra men for patrol purposes and yet there wasn't a single incident of any kind reported to the department."

"During the evening, I visited the youth center where teenagers were having a wonderful time at a masquerade party which was a huge success. Smaller children enjoyed themselves at house parties or 'trick-or-treating' which was carried on in an orderly manner."

"On behalf of the department, I wish to commend the youngsters for their behavior and parents for their cooperation in the Halloween observance."

# Woman, 41, Dies; Native Of Pelkie

DOLLAR BAY — Mrs. Mildred E. Kemppainen, 41, Dollar Bay, a former resident of Pelkie and Baraga, died early this morning in Calumet Public Hospital following a long illness.

She was born in Pelkie April 3, 1922, and had resided in Dollar Bay the last three years. Prior to this she had spent most of her life in Pelkie and Baraga.

She graduated from Pequaing High School in 1942 and was a member of the First Apostolic Lutheran Church, Pelkie. The former Mildred E. Ranta, she was married to Harold Kemppainen August 30, 1947, in Laurium.

Surviving besides her husband are her mother, Mrs. Lempi Ranta of Baraga; a sister, Mrs. Arthur (Margaret) Nulu of White Pine, and two nieces.

Services will be held Monday afternoon at 1 in the First Apostolic Lutheran Church, Pelkie, with the Rev. Paul Heideman and Rev. Walter Torala officiating. Burial will be made in Pelkie Cemetery.

Friends may begin calling at the Swanson Funeral Home, L'Anse, Sunday afternoon.

# Hunters Ball In Negaunee On Saturday

NEGAUNEE — The Negaunee Rod and Gun Club will hold its annual Hunters Ball tomorrow night at its clubhouse. Starting at 9:30, music for dancing will be provided by the Polkateers.

Also scheduled is an election of officers Sunday, with voting being conducted from 1 to 7:30 p.m. At that time, the club will hold a regular meeting and votes will be counted. Because of deer season, it will be the only meeting this month.

# Light Snowfall Covers Ishpeming

ISHPEMING — Residents awakened this morning to a "sea of white." A light fall of snow covered the city; it disappeared rapidly after the sun came up.

# WANTED

**IN APPRECIATION**

We wish to express our heartfelt thanks and sincere appreciation to our many relatives, friends and neighbors for their many acts of kindness during our recent bereavement caused by the loss of our husband, father, grandfather, and great-grandfather, Jalmer Salo.

We especially wish to thank Rev. Ruben Kaupila, the Perola Funeral Home, Medical Section of Morgan Heights, those who donated and drove cars, the pallbearers, those who sent flowers, cards, and donations, the ladies who served lunch and anyone who helped in any other way. Their acts of kindness will ever be remembered.

# 85-Year-Old Resident Of Gwinn Dies

GWINN — Edward Louis Hutchens, 85, died last evening in the home of Jack Swaby, where he had lived for 36 years.

He was born Sept. 13, 1878, in Iowa and lived in Gwinn for the last 68 years.

Survivors include a brother, Elmer of Wausaukee, Wis., and several nieces and nephews.

The body is at the Bjork & Zhukic Funeral Home, where friends may call after 7 tonight.

Services will be held at the funeral home tomorrow at 2 p. m. with the Rev. Everett Erickson officiating. Burial will be made in Gwinn Cemetery.

# Phantom Bugler Strikes Again

MIAMI, Fla. (AP) — The phantom bugler, who knows the secret phone number for hooking into the Eastern Air Lines public address system, has struck again.

For months, the bugler has sporadically serenaded Miami employees with "Taps," apparently tooted on a toy trumpet.

Last week, a hangar sprinkler system suddenly spouted. As crews began to mop up, the public address system clicked on and the familiar trumpet began: "Row, row, row your boats, gently down the stream . . ."

# Harris Resigns To Accept Post In South Haven

NEGAUNEE — Members of the Negaunee City Council were notified today by Leonard J. Harris of his resignation, effective Jan. 1, 1964, from the city manager's post which he has held here for the last six years.

### Letter Of Resignation

In his letter to councilmen, the manager said: "I wish to advise you that after considerable thought I have decided to tender by resignation effective Jan. 1, 1964. I have deliberately delayed my date of departure in order that you might select a qualified successor, and so that there will be continuity in the affairs of the City of Negaunee."

"I have accepted an appointment as city manager of the City of South Haven for the reason that it is an opportunity to grow professionally in the field of city management."

"I have enjoyed my association in this community, and I feel that together we have accomplished many things of a lasting and worthwhile nature. Needless to say, we will miss many of the fine people who live here, and we hope that some day we will be able to return for a friendly visit."

### City's Fourth Manager

Harris is Negaunee's fourth manager, and his tenure of six years is the longest since the present form of government was approved by voters in 1950. He assumed his duties here in June of 1957, succeeding Earl P. Wagner, who resigned to accept the manager's post at Fairborne, Ohio.

Prior to accepting the Negaunee position, Harris gained managerial experience at Stambaugh and Wakefield. A native of Ironwood, Harris graduated from Ironwood High School and attended Gogebic Community College in that city. He received his engineering degree from Michigan College of Mining and Technology at Houghton in 1941.

### Served With Army Engineers

Immediately following graduation from Tech, he entered the armed services, serving with the U.S. Army Corps of Engineers from July of 1941 to January 1946, when he received his discharge with the rank of lieutenant colonel.

From September 1946, to September 1951, he was employed as mining engineer with the Verona Mining Co. of Stambaugh. He entered public service in 1951 when he accepted the position of city manager at Stambaugh, occupying the post until 1953, when he resigned to accept appointment as manager at Wakefield.

### Active In Civic Affairs

Harris is a member of the American Legion, Veterans of Foreign Wars, Negaunee Elks Lodge, Wawonwin Golf Club,

LEONARD J. HARRIS

Negaunee Masonic Lodge and Negaunee Rod and Gun Club. He holds membership in the Negaunee Business and Professional Association, the Marquette Range Engineers, American Public Works Association and International Association of City Managers. He formerly served as secretary of the legislative committee of the Michigan Municipal League for Region 10.

The Negaunee manager is a member of the Marquette County Economic Study Committee and the board of directors of the Marquette County Economic Development Corp. He also is a member of the board of directors of the Mid-Country United Fund.

**Improvements In City**  
During his tenure in Negaunee, numerous municipal improvements were achieved. The record of achievements includes installation of new machines for accounting and tax roll preparation and billing in city hall offices, inauguration of a civil service program providing for employee recruitment and job classification, construction of a youth center which also contains a room for senior citizens and quarters for the city band, remodeling of city hall offices, erection of a 300,000-gallon elevated water storage tank, construction of an electric sub-station and remodeling of the electric utility distribution system to provide for four separate circuits, acquisition of off-street parking areas, purchase of voting machines, installation of a contributory retirement system for city employees, and construction of a new garage-warehouse.

All of the improvements were made on a pay-as-you-go basis with a total of nearly a million dollars being expended during the six-year span.

Harris is married and has two children, a son, James, who is a student at Lake Forest College, and a daughter, Janet. His wife is a member of the Gwinns public schools faculty.

## Public Invited To Art Exhibit

NEGAUNEE — An art exhibit featuring productions of students in a class taught by Mrs. Emil Kronquist will be held from 1 to 9 p.m. Saturday and Sunday in the Negaunee Community Building.

All of the students are members of the Lake Superior Creative Arts Association and are residents of Ishpeming, Negaunee or Marquette.

The public is invited. There will be no admission charge.

## 30 Negaunee Students To Attend Conferences

NEGAUNEE — Approximately 30 Negaunee High School students will go by bus Saturday morning to Escanaba to attend two Upper Peninsula student conferences.

Escanaba Area Senior High School will host a session on student publications, while Holy Name High School will be the scene of a conference for student council delegates.

Accompanying the local delegates will be Allan Ahola, student publications supervisor, and Nicholas Ilnicky, adviser to the student council.

Sponsored by the University of Michigan with the cooperation of the Michigan Interscholastic Press Association, Northern Michigan University and the advisory committee of the Michigan Education Association's school publications section, the journalism conference will cover newspaper writing, makeup, advertising and publishing improved yearbooks.

Prof. Karl F. Zeisler of the Department of Journalism, University of Michigan, will be the conference keynote. His address is entitled "The Unsecret Weapon."

Among the consultants and speakers will be John V. Field, professor of journalism, University of Michigan; Jack McNamara, journalism department, Ferris State College; Paul E. Ripley, Northern Michigan University; and Mrs. Claire Field, student publications adviser.

Area people involved in the program include Linda Orillon, Leigh Smith and Ginny McAvoy of Gwinns High School; Kathleen Deschaine, Phyllis Garceau and Joan Frazier of Bishop Baraga Central; Sandra Weiger, Nancy Fletcher and Jack Zeigler of Graveraet High, Marquette.

"A World Fit for People — The Student Council Challenge" is the title of the keynote address which will be given by Dr. Donald Weaver, principal of the Campus School of Western Michigan University, Kalamazoo, at the student council conference.

Area students taking part in the program include Diane Collins of Negaunee High, Julie Rappazini of Negaunee St. Paul's, Connie Calkins and Dick Peura of Marquette Graveraet.

## Six Leave For Physical Tests Nov. 4

MUNISING — Mrs. Melva K. Royce, clerk of Alger County's Selective Service Board, announced today that six young men are scheduled to leave Monday for Milwaukee, where they will receive physical examinations for selective service. Three others will leave for induction.

Taking physicals will be John C. Meyland, Pontiac; James N. Gherondas, Lansing; James D. Eklund, Munising; James R. Kropp, Trenary; Wayne D. Salo, Eben, and Richard M. Malnar, Chatham. Those being inducted into the armed forces are Fred R. Benz and William R. Tiernan of Munising and James Lee Minor of Trenary.

## Pelkie Man Pays Fine On Reckless Driving Charge

BARAGA — William N. Aho, Pelkie, charged with reckless driving, was ordered to pay a \$25 fine and \$5.30 court costs when he was arraigned before Houghton Justice Louis Gerbec. Aho was arrested Wednesday on M-26 near Houghton by state police from L'Anse. They said he had been driving in an erratic manner and "appeared to have been drinking."

is far lower than that of residents of most other Michigan communities. The committee also met with Richard Van Deusen, legal advisor to Gov. Romney; Michael Conboy, director of the Michigan Department of Economic Expansion, and Leeland M. Uhl, chief of Area Development and Industry Service in Lansing. They advised that, in view of the Economic Expansion Department's past experiences with similar APW projects, the village would be wise to accept the 50 per cent grant immediately.

"These men point out that an adequate supply of fresh, pure water is one of the most important requirements of industry," Kent said. "When industrialists go about selecting new plant sites water is one of their first considerations. They told us we should be thinking in terms of attracting new industry to our community and added that if this project is needed as badly as we say it is, we should accept the grant without delay."

DAVID C. HARJU

## Harju Receives Master's Degree

GARDEN — David C. Harju, son of Mr. and Mrs. John E. Koski of Negaunee, has received his Master of Arts degree in administration from Northern Michigan University, Marquette.

A graduate of Negaunee High School, Harju obtained a bachelor's degree with a major in mathematics from Northern in January, 1960. Since then he has taught at Garden High School and is serving his third year as superintendent of schools here.

DARRELL REED

## Reed Attending College, Doing Research Work

ISHPEMING — Darrell Reed, 1962 Ishpeming High School graduate and the son of Mr. and Mrs. Lewis Reed, 404 S. Fourth St., has completed one year at the University of Michigan and is now attending Ceretois College in Norwalk, Calif.

Reed, who last year was chosen by Congressman John Bennett as an alternate for the United States Air Force Academy, now is engaged in "top secret" work for the government in the chemical laboratory of the Aero Jet Air Force Research Center which deals with rocket fuel development.

## Alger Toy Collection Under Way

MUNISING — The Alger County chapter of the Michigan State Employees Association will assist the county probate court in collecting new and used

## Little Trouble In Baraga Villages During Halloween

L'ANSE-BARAGA — Halloween came and went with little trouble in both towns.

The usual horde of "trick or treaters" was out in force, but state police, sheriff's officers and village police reported major damage during "a very peaceful night."

A few L'Anse youngsters spent part of the night washing the soap from car windows which they had decorated. A few garbage cans were rolled down Main St. Hill, and several clotheslines were reported cut. But for the most part, there was

no mischief — "only lots of foolishness," as L'Anse Police Chief John Watters described it.

Window waxing and soaping were held to a minimum in both towns, and there were no reports of vandalism.

One of the fire hydrants in Baraga was turned on. A large number of masqueraders pretended to have cables stretched across village streets, tossed water balloons — wetting themselves mostly — or soaped

## Radio, Other Items Stolen From Home

BARAGA — State police from the L'Anse post are investigating the reported breaking and entering of the Lee Perry home in Keweenaw Bay sometime during the last four days.

Perry reported a transistor radio, electric shaver, movie projector and 10 rolls of home movies, tape recorder and high-power binoculars were stolen. He told officers he and his family and been out of town since Sunday, and said the house was broken into during their absence.

Officers this morning said entrance was gained through a broken pane in a bathroom window on the east side of the house. They added that, after the pane was broken, the inside latch was unlocked and the screen removed for easy entry.

The screen was replaced when the intruder left.

## Melstrand Man Found Innocent

MUNISING — A Melstrand man was found innocent of a reckless driving charge by a jury of four men and a woman after a justice court trial conducted by Judge Walter Jonas. Lawrence Luke, the defendant, was issued a summons Oct. 19 by Munising state police after a complaint against him had been signed by Bruce Andrews of Munising.

Members of the jury were Russell Boogren, Clifford Witty, Olaf Peterson, Eva Boogren and Robin Steinhoff.

toys to be given to needy children at Christmas time.

Anyone having toys to contribute can leave them at any of the following stations: Mak's store, Chatham; Malner's service station, Trenary; Cusino wildlife experiment station, Shingleton; Grand Marais school, and the Community building, Munising.

Broken toys will be repaired again this year at the Cusino corrections camp.

SOVIET PUBLICATION  
Pravda, the official newspaper of the U.S.S.R., began publication on May 5, 1912 and, on its 50th anniversary, was distributing some 6 million copies daily.

IN APPRECIATION  
We wish to express our heartfelt thanks and sincere appreciation to our many relatives, friends, and neighbors for their many acts of kindness during our recent bereavement, caused the death of our husband, father and brother, Donald Connors.  
We especially wish to thank Dr. R. G. Williams, the Very Rev. Msgr. Speltz, the Bjork & Zhukie Funeral Home, the ladies who served and those who donated and drove cars, those who sent flowers, cards and donations, the ladies who served and those who helped in any other way. Their many acts of kindness will ever be remembered.

Women of the Moose will hold a regular meeting Monday night at 8 in the Moose clubrooms.

### Cub Scout Group To Meet Tuesday

ISHPEMING — A Cub Scout Council meeting will be held in the home of Roy Tippet, 727 Duncan St., Tuesday, Nov. 5. Den mothers, assistants and other Cub Scout parents are asked to attend.

## Three-Man L'Anse Team In Chicago Negotiating For Water System Job Funds

L'ANSE — Full authority to negotiate final details of an accelerated public works grant for expansion and modernization of the village water system was delegated to a three-man team of village officials at this week's special meeting of the L'Anse Village Council.

Kenneth Kent, village president; G. Glen Sands, village clerk, and Lyle Tonne of Houghton, project engineer for the village, were scheduled to meet with officials of the Housing and Home Finance Agency's Community Facilities Division in Chicago today to arrange final details of the project and the grant.

Earlier this month, the council agreed to send the three men to Chicago to make a last-ditch effort to have the percentage of the APW grant increased from 50 to 75 per cent of the total cost of the project.

Although Baraga County is one of only four Michigan counties which qualifies for federal assistance on a 75-25 basis, the village water project was reduced from a 75 per cent grant to 50 per cent on the grounds that the water department could raise enough revenue to pay off bonds on half the \$295,000 project.

For many months, negotiations have continued between village officials, the Chicago offices of the Housing and Home Finance Agency, the Washington offices of the APW program and the Commerce Department and the office of Congressman John B. Bennett (R., Ontonagon).

### Nearly Lost Entire Grant

Kent reported that the village had come perilously close to missing out on the entire grant, stating that a shortage of funds appropriated for the APW program had resulted in a request from the Commerce Department that the L'Anse project be cancelled as of Oct. 19 unless immediate action was taken to accept the 50 per cent grant as offered.

The L'Anse team was successful in getting a 10-day extension of this cancellation order to permit gathering of information to document contention that the village could not support its portion of the project on a 50-50 basis.

The 75 per cent federal share originally authorized for this work was reduced to 50 per cent on the basis of revenues received by the water department (\$14,000 of which was transferred to the street department in one year) and the fact that the Upper Peninsula Power Co. has approached the village council about purchasing large quantities of water.

Kent, Sands and Tonne were given full authority to negotiate the best possible settlement with HHFA officials and to accept the APW grant on behalf of the council.

Kent, who presented a detailed report of last week's meetings with the HHFA in Chicago and with officials of the Municipal Finance Commission in Lansing, stressed the need for immediate action.

He offered four alternatives: (1) accept the 50 per cent grant which has been offered; (2) turn down the entire proposal; (3) try to convince the HHFA that a grant for a larger percentage of the total cost is warranted on the basis of the village's inability to raise \$148,000; or (4) eliminate some portions of the overall project and pare down everything not absolutely essential, thereby reducing the amounts of both the APW grant and the sum which will have to be raised locally.

### Seek Increase In Grant

Councilmen unanimously agreed that to abandon the much-needed water project at this point would be indefensible, and again called upon the

three men to represent them in trying to have the proportionate share of the APW grant increased. In event such efforts fail at today's meeting, the council authorized the team to accept the 50 per cent grant which, Kent said, "we could have brought back in our pocket last week."

Attending last week's meeting in Chicago were the village representatives; Paul Harris, director; Donald Ganser, program operations officer, and V. H. Hurless, assistant chief of the finance staff, all of the Housing and Home Finance Agency.

These HHFA representatives advised the village team to accept the proffered 50 per cent grant of \$148,000 and to finance the remaining \$148,000 over a 40-year period at an estimated five per cent interest, which would require annual payments of \$11,844. They insisted that such payments could easily be handled from the water department revenues, especially if an additional 2,000,000 gallons or more is sold to the Upper Peninsula Power Co. each month.

Kent also reported that the village would be able to borrow its share of the project expenses from the Community Facilities Administration at an interest rate of three and five-eighths. Councilmen A. Edward Mollanen, Gerald Hietala, Paul Van Able and Kent all noted that if it were necessary for the village to contribute the full 50 per cent, the cost of the job should be cut back sufficiently to permit the village to repay its debt within 20 years instead of the proposed 40 years and to borrow the money from CFA at the lower rate, to halve interest payments.

Although the grant was cut from the original 75 per cent back to 50 per cent, Kent noted that there are two intermediate steps — 58 and 66 per cent — and added that if proof could be provided that the village water rate schedule is comparable to those of other similar communities in the area, a greater percentage might be allocated.

The council discussed the possibility of revising the water rate schedule to include an industrial rate for customers who purchase in excess of one million gallons a month. To date, only the Celotex Corp., which uses approximately 6,000,000 gallons a month, and U. P. Power, which is negotiating with the village to purchase approximately 2,500,000 gallons a month, would benefit from the proposed reduction of five cents per 1,000 gallons for everything over the million-gallon mark.

### Industrial Rate Not In Effect

The HHFA officials contend that the village is charging its customers less than the fair users' charge for water, while the village representatives claim that the rate is actually above the fair users' charge for this area, especially since an industrial rate is not yet in effect. Adoption of this final step in the graduated price schedule for water would put L'Anse charges on a par with comparable communities in the Upper Peninsula.

The committee also conferred with Harold Soellner, consultant for the Municipal Finance Commission in Lansing, who strongly recommended that the 50 per cent grant be accepted immediately. Soellner pointed out that a revenue bond issue does not have to be voted upon, but calls only for a resolution of the council stating its intention to sell such bonds. He stated that a copy of the resolution must be published locally for a period of 30 days and added that any qualified voter of the village could call for a referendum on the issue.

Soellner also emphasized that the per capita bonded indebtedness of the people of L'Anse

# Northern Will Try To Retain Big Edge Over St. Norbert

Northern Michigan University, heading into the shank of its 1963 grid schedule, hopes to continue its mastery over once-beaten St. Norbert College Saturday afternoon when the Wildcats invade Minahan Stadium in De Pere, Wis.

Northern, which holds a 4-0 edge in the current series, is the only team which the Knights have never beaten since Howie Kolstad became coach in 1960. In fact, coach F. L. (Frosty) Ferzacca's club is the only team to beat St. Norbert in its home field in the last 14 games, and the Wildcats will be going all-out to turn the trick again.

St. Norbert, which opened season with 18 lettermen, has been paced by Jule (Butch) Mellen and Roger Campshire. Mellen has averaged 90 yards

per game on the ground while Campshire, who is considered the workhorse, has picked up 340 yards.

The Wildcats, who have yielded 71 passes for 915 yards while compiling their 2-4-1 record, will again have their hands full trying to plug their porous pass defense. The Knights are expected to be led by quarterback Chuck Hoch who has completed 30 of 66 passes for 454 yards and four touchdowns.

McCulloch Starts  
Quarterback Jerry McCulloch, who sparked an offensive drive against Omaha last Saturday by completing three consecutive passes for 86 yards, is expected to get his first starting assignment of the season. And

Ferzacca hopes the heretofore unheralded sophomore will make the offensive jell as it did against Central Michigan.

Defensively, Northern could be without the services of Little All-American tackle Jack Mauro, who aggravated a foot injury during Northern's 28-17 loss to Omaha, marking the first time in five years that a Wildcat club has dropped two straight games.

The Wildcats, who never had had a losing season under Ferzacca, will wrap up their current campaign next Saturday when they host newcomer Maclester College of St. Paul.

Headquarters for the NMU traveling squad this weekend will be the Hotel Northland in Green Bay.

NMU Wildcat end Bill Rademacher is shown above snaring a pass in the Northern Homecoming game Oct. 12 against Central Michigan University. Rademacher's fine performance as a two-way end has earned him the praise of coach F. L. (Frosty) Ferzacca, as well as the interest of professional scouts, and he stands a good chance of setting a new Northern pass-receiving record this year. (Photo by Arnestad.)

# Key Tilts Dot College Action; Texas Meets SMU

The Texas Longhorns, who've been getting top performances from a Ford, a Duke and a shoeless boy, risk their No. 1 national ranking and one of the country's four unblemished records against SMU Saturday on a college football program dotted with key conference clashes.

The Longhorns, 6-0, may be in for a stiff test from the sophomore-laden and upset-minded Mustangs, who upset Navy 32-28 earlier in the season. Texas squeaked by SMU last year 6-0 but may have to be stronger this time.

The Longhorns had difficulty in their last two games in the tough Southwest Conference, beating Arkansas and Rice by a total of only eight points behind their three-pronged attack—rusher Tommy Ford, passer Duke Carlisle and Tony Crosby, who kicks in his stocking feet.

third-ranked Mississippi takes on LSU, fourth-ranked Navy is at Notre Dame and fifth-ranked Auburn, the only other unbeaten-untied tilt in the Top Ten, meets Florida.

Sixth-ranked Oklahoma goes against Colorado, seventh-ranked Alabama faces Mississippi State, eighth-ranked Wisconsin battles Michigan State, ninth-ranked Ohio State plays Iowa and 10th-ranked Pittsburgh goes against Syracuse.

The Mississippi-LSU game will be regionally televised as will the Air Force-Army game at Chicago and the Southern California-Washington clash.

While the Top Ten risk their rankings, Princeton and Bowling Green join Texas and Auburn as the only teams still guarding perfect records.

Princeton tangles with Brown while Bowling Green takes on Miami of Ohio.

Almost all those games will have important bearing on the conference races.

# Wildcat 'Rookie' Bill Rademacher Really An Expert

A "rookie" to most avid sports fans is a first year player, a novice, but to Northern Michigan University football players and fans, the term "rookie" means a veteran athlete named Bill Rademacher, who is making his last season a campaign which fans will long remember.

Affectionately nicknamed "rookie" by his teammates and coaches in 1960 because of his youthful appearance and the fact that he was one of the few freshmen on the traveling squad, the rangy, 184-pound senior from Menominee is anything but a novice when it comes to performing on the gridiron.

Considered by many people as one of the best gridders to come out of the Upper Peninsula (he was Menominee's Athlete of the Year in 1960), Rademacher is on the verge of closing out his collegiate football career with a bang.

Northern's leading pass receiver, Rademacher has picked up 266 yards on 15 pass receptions for two touchdowns and a good chance to break Northern's pass-receiving record set by Escañaba's Mike Mileski in 1961.

Rademacher has developed into one of the finest two-way ends in collegiate football. He has a good pair of hands, is agile, and has the attitude that every coach would like all of his players to have. He has been and will continue to be a credit to Northern.

Against Hillsdale when he scooped up a loose ball after a blocked punt and raced 14 yards to help halt a Dale scoring threat in a game which ended in a scoreless tie.

Ferzacca, who has watched Rademacher improve with each season, says Bill has developed "into one of the finest two-way ends in collegiate football. He has a good pair of hands, is agile, and has the attitude that every coach would like all of his players to have. He has been and will continue to be a credit to Northern."

Against Omaha last Saturday, the feet-footed physical education major who last year caught only six passes for 83 yards, snared three passes for 86 yards including receptions of 30 and 40 yards.

Alert On Defense  
Rademacher demonstrated his alertness in the Oct. 5 game against Hillsdale when he scooped up a loose ball after a blocked punt and raced 14 yards to help halt a Dale scoring threat in a game which ended in a scoreless tie.

Rademacher has developed into one of the finest two-way ends in collegiate football. He has a good pair of hands, is agile, and has the attitude that every coach would like all of his players to have. He has been and will continue to be a credit to Northern.

Rademacher has developed into one of the finest two-way ends in collegiate football. He has a good pair of hands, is agile, and has the attitude that every coach would like all of his players to have. He has been and will continue to be a credit to Northern.

# Spuhler's Runs For Soo Put Him On Top, Helped Team To 8-0 Performance

By JAMES TRETHEWEY Of The Journal Staff

Ace Sault Loretto Halfback Jack Spuhler and his teammates wanted only to make a first down and hold onto the ball after stopping a Cheboygan Catholic Central drive on their one-yard line in the waning moments of the Upper Peninsula's final high school football game this fall.

But after two line plunges failed to gain ground, Spuhler got on the receiving end of a pass from Halfback Frank Groben and went all the way. Besides helping Loretto to its first unbeaten-untied season since the school switched from eight-man to the regular variety of football, that final scoring play of 1963:

1. Tied a 99-yard run from scrimmage by Iron Mountain's Jim Lindstrom as the longest scoring play of the season.  
2. Gave Spuhler the individual scoring championship with 147 points, probably the fourth highest in U.P. prep history.  
3. Pushed Spuhler over the 1,000-yard mark on touchdowns on both passing and line carrying plays.

Incomplete records show only Manistique's Ron Rubick, Escanaba's Duke Christy and Menominee's Francis Tallent have topped Spuhler's scoring efforts in the Peninsula. Christy scored 164 points in 1920 and Tallent,

member of Menominee's great 1929 team, ran for 162, but Rubick—now a senior member of Michigan State University's eleven—dwarfed their total with 184 points in 1959.

College Stuff  
A 195-pound senior, Spuhler, regarded by his coach Bob McKerrall as "definitely college material," scored 24 points as a sophomore—the first year Sault Loretto got into 11-man football—then led the team with 60 points a year ago. That gives him a career total of 231.

Among his longer runs the last two years were a 92-yard touchdown sprint from scrimmage in 1962 and an 89-yard jaunt from his halfback spot, a punt return of 80 yards and a pass play that covered the same distance this fall, in addition to his 99-yarder in the final game.

Trailing Spuhler in scoring were Kingsford's great junior halfback, Dick Berlinski, with 134 points; Gladstone's Dan Schram, 102; Stambaugh's Don Mylchrest and Ironwood's Frank Verbois, each with 83; Sault Ste. Marie's Andy Benson, 72; Newberry's John Henderson, 69; Wakefield's Mickey Ginolfi and Sault Loretto's Frank Groben, 60 each, and

Munising's John Radcliffe, 58. Other Long Ones  
Besides Spuhler's and Lindstrom's runs that were just a yard short of the length of the football field, there were the usual number of long runs all across the Peninsula.

Houghton's Don Stipech and L'Anse's Dave Marion each returned kickoffs 90 yards and Norway's Ernest Brumbaugh went 88 yards with an intercepted pass for one of only four touchdowns scored this fall against Kingsford's all-winning team. Bessemer's Tony Plesh went 86 yards with a punt return, a touchdown run that almost ruined a perfect season for Ironwood.

Lindstrom also scored a goal from 85 yards out, the same distance that Negaunee's Doug Maki went with a kickoff. Longest runback of a recovered fumble was 61 yards by Crystal Falls' Tom Davis.

Kickoff and punt returns of from 70 to 80 yards were made by Mike Gobert, Gladstone; Ken Blowers, Manistique; Berlinski, and John Torsky, Cedarville. Munising's Mike Oas ran 80 yards with an intercepted pass to rank second to Brumbaugh in this department.

# Lions Pride Spurs Hope For Bounce

PALO ALTO, Calif. (AP)—At the halfway point of the season, the Detroit Lions already have lost more games—four—than in all of 1962. But they're not giving up an attempt to bounce back.

"I think they have the idea that they can come out of their tailspin, even with all the injuries (12)," said Coach George Wilson. "Pride does that."

The Lions began working out today at Palo Alto for Sunday's game against the San Francisco 49ers, a team they beat 26-3 earlier in the season. Detroit has a 3-4 record and is tied with Baltimore for third place in the western division of the National Football League.

Earl Morrill is the Lions' No. 1 quarterback for the game after a strong performance in last Sunday's victory over the Minnesota Vikings.

# Howe Fails To Score, Wings Win

DETROIT (AP)—Gordie Howe talked jokingly of bringing one of his souvenir sticks back from his home after failing to score in Detroit's 4-1 National Hockey League victory over the New York Rangers Thursday night.

It was the only NHL game played. The victory moved the Red Wings into third place, a point in back of the Toronto Maple Leafs.

Howe said he felt like bringing back the stick he used last Sunday when he scored his 544th career goal to tie him with former star Maurice Rockett Richard as the league's most prolific scorer.

Howe appeared to have had a number of good shots, but the official record showed he took only four of the 52 shots. The Red Wings fired at New York goalie Jacques Plante.

# Rocky Confident That Protege Rivero Will Win

NEW YORK (AP)—Rocky Graziano is convinced his Argentine protege, Rocky Rivero, will go a long way in the middleweight ranks if he can unload his bombs against Cuba's Florentino Fernandez tonight in the 10-round television fight at Madison Square Garden.

"The guy's got a head like concrete," said the former world middleweight champion admiringly. "Now if he can only punch like his record shows. If he nails that Fernandez early, the curtain's going to come down quick. I think my guy's gonna get him in four."

Underdog  
Despite Graziano's vocal support, Rivero is rated a 3-1 underdog to the streaking, hard-hitting Fernandez. The wide-shouldered Cuban, now a resident of Miami Beach, Fla., has won all five of his fights this year by knockouts in a highly successful comeback campaign.

Rivero came north with a reputation as a big hitter. But so far he has shot only blanks in two New York appearances. He dropped 10-round decisions to Don Fullmer and Jose Gonzalez. His record is 39-8-1, including 26 knockouts. He is not ranked.

# UM Facing Pass Skill Of Myers

ANN ARBOR (AP)—For the third time this season, Michigan will be out to stop a highly-touted quarterback when it takes the field against Northwestern Saturday.

Michigan failed to stop Navy's Roger Staubach and Purdue's Ron DiGravio in earlier contests, but hopes that its luck will change against Tom Myers of Northwestern.

Not Easy  
The Wolverines do not face an easy task. Myers is second in the Big Ten in passing—DiGravio is first—and leads in total offense with 633 yards.

The Wolverines have experienced much trouble with pass defense. Navy and Purdue both played to this weakness and came off with easy victories.

But things are not all dark for coach Bump Elliott's men.

Though they haven't won since the opening victory over Southern Methodist, the team has come along in the past few weeks and except for a couple crucial errors, might have had a few more triumphs.

The play of quarterback Bob Timberlake and fullback Mel Anthony has brought many a smile to Elliott's face.

Ninth In Big Ten  
Timberlake, playing his first full game of the season, completed 8 of 14 passes for 90 yards against Minnesota last Saturday. He is ninth in passing in the Big Ten—which figures the standings according to yards gained—but he is the leader in percentage of passes completed with .600.

Anthony has averaged four yards per carry and is eighth in the conference with 133 yards gained in 35 attempts.

# MSU-Badger Tilt Life, Death Issue

EAST LANSING (AP)—The Wisconsin-Michigan State football battle here Saturday is a live-or-die issue to both teams in the Big Ten football race.

Michigan State, in a three-way tie for first place, is a surprise contender for the title. Wisconsin, the defending champ, is hurt and angry after an edging by Ohio State last week.

The fans and coeds along the Red Cedar River already are talking up the Rose Bowl since the Spartans jumped into the tie with Illinois and Ohio State for top honors.

Michigan State will match a splendid defense against an all-around Wisconsin offense.

The Spartans also have a one-man gang in little Sherm Lewis, who scored both touchdowns in the MSU win against Northwestern last week.

Gang Tactics  
The MSU coaches know Wisconsin will be ganging up on Lewis—using a rover defender to try and catch him at every run. But the Spartans have several other agile backs, including Dewey Lincoln.

Wisconsin has the best offense in the Big Ten.

# Turkey Shoot Planned Sunday In Munising

MUNISING—The Munising-Alger Conservation Club will hold their annual Turkey Shoot Sunday, at their clubhouse grounds at Wetmore.

# Two Pass Flight Examinations For Private Licenses

Two more members of the Marquette County Flying Club (formerly Marquette Area Flying Club) have earned their private pilot's licenses, following tests given by examiners of the Federal Aeronautics Administration here on Oct. 23.

Tom Martin and Jim Moyle, both members of the club for over a year, began their flight training through the club, accumulating over 50 solo hours prior to taking the F.A.A. tests.

The flight test for a private pilot rating includes a demonstration of preflight and flight planning procedures, basic flight maneuvers, emergency situations, controlling aircraft in flight by use of instruments only, and use of radio communications and radio navigation procedures before the examiner.

Applicants for the private rating must hold a student pilot's certificate endorsed for solo and cross-country flight, and must accumulate a minimum of 40 hours of solo flight, including minimums of 10 hours of solo cross-country flight and 20 hours of solo flight instruction time.

Martin, who began his training in March of 1962, accumulated 51 total hours before testing for a private rating, and Moyle, who started work for the license in June, 1962, logged 59 hours.

Moyle and Martin, pleased with both their successful completion of written and flight testing and the friendly helpfulness of F.A.A. inspectors, join other private pilot-rated members of the Marquette County Flying Club to swell the number of licensed pilots in the organization to eight, out of 15 active members, four of whom have earned their ratings through the club's facilities using the Cessna 120 owned jointly by the members.

Moyle and Martin, pleased with both their successful completion of written and flight testing and the friendly helpfulness of F.A.A. inspectors, join other private pilot-rated members of the Marquette County Flying Club to swell the number of licensed pilots in the organization to eight, out of 15 active members, four of whom have earned their ratings through the club's facilities using the Cessna 120 owned jointly by the members.

# Green Bay, Colts Picked To Win In Weekend NFL Play

NEW YORK (AP)—Both the Chicago Bears and Green Bay Packers, heading toward their big rematch Nov. 17 in Chicago, face difficult challenges this weekend in important National Football League games.

The Bears have been dragging in recent weeks but still are all even with the Packers in the Western Conference race. Now they have to face an improved Colt team in Baltimore Sunday. The Bears edged the Colts 10-3 earlier when Raymond Berry was out of action. Berry will be back for this one.

Troubles  
Green Bay had its troubles beating Baltimore last week without Bart Starr and Tom Moore. Starr still is out but the Packers added Zeke Bratkowski to back up John Roach against tough Pittsburgh. The Steelers still have a shot in the East but they must take this one.

Thanks to the Giants, things were better last week and the old average went up to 34-14 for the NFL. But the two-league total is 44-28-3. Let's try again: (All games Sunday unless otherwise indicated.)

NFL  
Baltimore 17, Chicago 14—The old Johnny Unitas-Berry battery is back in action and the Bears have been struggling. Ron Bull may be sub par. The Colts led last time 3-0 going to the fourth quarter but lost 10-3. This time they'll go all the way.

Cleveland 35, Philadelphia 7—You don't stop Jimmy Brown two weeks in a row, especially with no running game, Sonny Jurgensen out of action and King Hill a doubtful factor.

New York 31, St. Louis 28—Looks like a tight fit but, when in doubt, go with old pro, Y. A. Tittle, over the hottest kid in the business, Charlie Johnson. Cards have top catchers in Son-

interest in the 1964 Winter Olympics in Innsbruck, Austria.

Invitations to compete in the tournament have been extended to the U.S. Olympic Jumping Squad, the Canadian Squad, European teams, plus 15 Michigan and out-of-state jumping clubs.

All proceeds from the non-profit activity will be donated to the U.S. Ski Team Funds to aid the U.S. Olympic Teams competing in the 1964 Winter Olympics and to assist the U.S. Training Camps for future Olympics.

ny Randle, Bobby Joe Conrad but Giants are on the move.

Green Bay 30, Pittsburgh 20—Tom Moore expected back but Ron Kramer is doubtful for Packers who have won six in a row since opening loss to Bears. Steelers' Ed Brown had hot hand against Dallas last week but Packers' Dallas last week but Packers' Dallas is rugged. The top field goal men will be in action. Lou Michaels for the Steelers and Jerry Kramer for Green Bay.

Detroit 21, San Francisco 10—Lion's defense too much for puncheon 49ers who lost first meeting 26-3. Injuries to Nick Pietrosante, Larry Ferguson, and Ollie Matson force Lions to count on Earl Morrall's passes.

Dallas 28, Washington 24—Same old story for the Skins with that leaky pass defense and Norm Snead's throwing. Norm Snead should have better luck, probing Cowboys' vulnerable secondary despite shakeup by Tom Landry.

Minnesota 28, Los Angeles 20—Could go either way with Roman Gabriel on a two-game winning streak. Both clubs banged up and Dutch Van Broeklin has whip out after losing four straight.

AFL  
Boston 24, Houston 21, Friday night—A "must" for the Pats at home after loss to Buffalo. Tighter defense should shut down George Blanda and Charlie Tolson for upset win.

San Diego 28, New York 21 Saturday night—Figures all say San Diego with solid running of Keith Lincoln and Paul Lowe and passing of Tobin Rote. Jets made it close, losing 24-20 on the Coast and they are at home.

Buffalo 24, Denver 21—Jack Kemp over Mickey Slaughter in first of two-week home and home series.

Oakland 21, Kansas City 14—Flip a coin. The Chiefs collapsed in second half against Oilers. Oakland got hot with Cotton Davidson against San Diego. Oakland is home so they get the vote.

ONE WIN, ONE RECORD  
ATLANTIC CITY, N.J. (AP)—Tuscan Spy took only one race in 1962 but it put him in the record book. His only victory came at the track here when he tied the five and one-half furlong record over grass. The time was 1:03 1/5.

### Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: I am a happy bachelor and here is my problem. Two neighbors, one right next door to me on my left, and the other right next door to me on my right, are divorcees. They both tell me their troubles and cry over both fences whenever they catch me outside. Now my back yard is flooded with their tears and my grass is drowning. How can I keep these two husband-losers from ruining my yard?

HAPPY BACHELOR

DEAR HAPPY: Grow rice.

DEAR ABBY: I have a sister who isn't the smartest person in the world, but I love her. She tells me her troubles and cries on my shoulder. She has a husband, but he's no help. (He cries on his mother's.) Well, my sis called me at 4:15 this morning and scared my husband out of his wits. She wanted to know if she should call the police to look for her 18-year-old daughter who went out on a date and wasn't home yet. She was hysterical, Abby. I'll admit she's called at odd hours for reasons like there was a mouse in her bedroom, she is terrified of thunderstorms, etc. But this time she really needed me, but my husband refused to drive me over there to calm her down. (I don't drive.) He said if anything like that ever happens again, I can go live with my sister. Who was unreasonable? Him or me?

BIG SISTER

DEAR SIS: I can't blame your husband for being fed up with your sister's hysteria. Tell sis to lay off the nocturnal S.O.S.'s, or you

will lose your happy home. DEAR ABBY: I have the perfect solution for the busy housewife who was embarrassed by the thoughtless person who just happened to be in the neighborhood so she thought she'd drop in and pay a social call. Bake a pie or something and take it over to her house. But don't give her any notice. Just ring the bell like she rang yours, and see how SHE likes it. "TURN ABOUT"

CONFIDENTIAL TO MRS. J. O'S.: A pat on the back develops character — if given young enough, often enough and LOW enough.

What's on your mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3365, Beverly Hills, Calif. (McNaught Syndicate, Inc.)

### Belleville Man Killed In Car-Train Crash

DETROIT — Valentine Zagula, 27, of Belleville, was killed Wednesday in a car-train collision at a Pennsylvania Railroad crossing in nearby Huron Township. A passenger in Zagula's car, John C. Brown, also of Belleville, was reported in fair condition at Wayne County General Hospital.

### Radio Station Gets New Call Letters

DEARBORN — Radio station WKMH, owned by the Knorr Broadcasting Corp., switched to new call letters — WKNR. Program manager Frank Maruca said the new letters "will be easier to remember and easier to pronounce." The station went on the air in 1946.

### 3 Colorado Brothers Arrested By Fourth!

BRIGHTON, Colo. — A drama of three brothers arrested by a fourth played its latest

act in District Court Tuesday. Francis and Peter Hoffman, 20-year-old twins, were placed on probation for burglarizing an automobile repair shop. Last month, their brother, Virgil, 27, was sentenced to two to three years for the same burglary. The three were arrested last March 9 by policeman Gilbert R. Hoffman, 29. "They were my kin," the oldest brother said today. "But I knew what had to be done and I did it."

Lichens are among the few simple plants able to survive Antarctica's freezing weather, winds and lack of fresh water and ice-free soil.
