

## Cutter Spots Wreckage Of WU2 Plane In Gulf

KEY WEST, Fla. (AP) — The wreckage of a WU2 spy plane which vanished Wednesday, presumably after a mission over Cuba, was found today in 100-foot deep water in the Gulf of Mexico. The body of the pilot was not in the cockpit.

KEY WEST, Fla. (AP)—The Coast Guard cutter Nemesis today found debris tossed in 60-foot-deep water in the Gulf of Mexico where a WU2 spy plane presumably crashed on Wednesday after a mission over Cuba.

From the location of the debris and an oil slick sighted earlier, Capt. Ernest H. Dunlap, chief of staff to the commander of the Key West Navy Base, said, "We're pre-

ty sure" the debris was part of the WU2 wreckage.

The Navy, directing the search for the high-altitude reconnaissance plane, announced that the debris was picked up 40 miles northwest of Key West and 180 miles north of the coast of Communist Cuba.

It was in this same area that the WU2 piloted by Capt. Joe G. Hyde Jr. of Lagrange, Ga., disappeared. No indication of the pilot's fate was given. The Pentagon in Washington said it had nothing to indicate the fate of the pilot. The U2 is a one-man plane.

The Strategic Air Command and the Defense Department said there was no evidence that the plane was downed by hostile action. A spokesman at SAC's Omaha headquarters

said it was believed the crash was caused by mechanical failure.

### Radio Report

A Cuban radio report said merely that a WU2 "which might have been on reconnaissance activities over Cuba," crashed in the Gulf.

## Labor Union Claims AMA Used Fraud

NEW YORK (AP)—The AFL-CIO convention wraps up its official business today after charging the American Medical Association with stooping to fraud to misrepresent labor's support of medical care for the aged.

George Meany was elected Wednesday to his fifth term as president of the 13.5 million-member organization.

The re-election of Meany and the 27 vice presidents of the AFL-CIO followed the announcement of a \$400,000 damage suit by a Steelworkers Union official who claims his name was misused in a recording purported to be a transcript of a union meeting.

The suit, filed in Washington by Paul Normile of Pittsburgh, said he was falsely represented as a tough-talking labor leader who threatened union members if they didn't contribute to the Committee on Political Education, political arm of the AFL-CIO, to fight for medical care legislation in Congress.

### 'Completely False'

In Washington, President Edward R. Annis of the AMA said the charge of fraud leveled by Meany before the 1,200 delegates was "completely false." "This is a ridiculous law suit which is improperly directed, a transparent publicity stunt and a smokescreen to divert attention from the hearings currently being conducted by the House Ways and Means Committee on the administration's government health care bill," Annis said in a statement.

## Texas Drops Charge Against Billie Sol

AMARILLO, Tex. (AP) — Billie Sol Estes, the Texas financier convicted of fraud and theft, is free of a state criminal antitrust charge.

The charge was dropped by Dist. Atty. Dee D. Miller of Potter County, Tex., Wednesday.

The prisoner, behind bars for 54 years, had spent 43 years in solitary confinement in three federal prisons. He was originally sentenced to hang for a 1909 Alaskan bar room slaying.

This sentence was given to life and he later was given a life sentence for killing a guard at the U.S. penitentiary at Leavenworth, Kan. in 1916.

## Defendant Shaken

T. Eugene Thompson, left, appeared visibly shaken Wednesday during testimony about his wife in the minutes just before and after the fatal attack upon her last March 6. Thompson is shown here with attorney William Fallon leaving the courthouse during a trial recess. Thompson is being tried for first degree murder in his wife's death. (AP Wirephoto.)

## U.S. Okays Sale To Red Bulgaria

WASHINGTON (AP) — The Commerce Department approved today an export license for the sale of \$985,000 worth of soybean products to Communist Bulgaria.

The license was the first involving a shipment of agricultural products to Bulgaria since the government's recent approval of such shipments to Communist bloc nations.

The shipment will consist of soybean oil and cake and oil-cake meal.

All previous sales of farm goods to Iron Curtain countries — now totaling about \$26 million — had gone to Hungary. The previous sales involved some 200,000 tons of wheat, a considerable quantity of corn and soybean products.

The sale of wheat on a much larger scale to Russia and her satellites is being negotiated by a Russian team and private U.S. grain dealers, but the proposed transaction reportedly has been snagged in the past few days over shipping rates and financing.

The Commerce Department did not disclose the quantity of soybean products involved in the Bulgarian sale, nor did it identify the firm receiving the license.

## 'Birdman' Dead At 74

SPRINGFIELD, Mo. (AP) — Robert Stroud, 74, the long time convict and writer who became known as the "Birdman of Alcatraz," died today in the U.S. Medical Center.

The prisoner, behind bars for 54 years, had spent 43 years in solitary confinement in three federal prisons. He was originally sentenced to hang for a 1909 Alaskan bar room slaying. This sentence was given to life and he later was given a life sentence for killing a guard at the U.S. penitentiary at Leavenworth, Kan. in 1916.

## 14-Year-Old Girl's Days, Nights Filled With Pain, Anguish Since Loss Of Leg

CLEVELAND (AP) — Christine Simko, battling to face each dawn with a smile, finds her days and nights filled with pain, fitful slumber and anguish.

In the first interview with Christine since her right leg was amputated 11 days ago to halt a cancer, she displayed a variety of moods — each overshadowed by tears. "I'm so weak," the 14-year-old girl sighed, struggling to adjust her position by grasping for a metal triangle over her head.

Frustration in reaching the bar brought tears of anger and defeat. They splashed onto the pillow from her gray-blue eyes.

Her mother, Mrs. Lily Simko, who visits daily at her bedside, offered help the girl rejected. Moments later when a social

service worker tried to adjust a pillow, she cried: "Don't touch me."

Mrs. Simko explained Christine's nerves are still raw and "she can't stand to have anyone touch her bed."

However, during the anguish of waiting for a pill to alleviate the pain, Christine welcomed and clung to the cool hands hospital aides pressed to her hot forehead.

Doctors at Cleveland Metropolitan General Hospital report the pain and discomfort Christine is enduring is "normal."

Her crying is "not any more than we have a perfect right to expect," a doctor said.

Her mother says she still doesn't understand why the amputation was necessary. She said she had Christine in the hospital in August and September and signed forms for tests

but "nothing was done, and the court released her to me."

"Better Than Expected"

Mrs. Simko, an English war bride, was divorced and has supported Christine and a younger child, Michael, with relief payments.

Dr. Robert W. Hopkins, who performed surgery on Christine, said she "has borne up far better than expected under the stress and discomfort of amputation."

While she is uncomfortable and at times has a peculiar sensation in the leg that isn't there, she has shown remarkable recovery," the doctor said. He said Christine's pain is "peculiar burning sensations" a little different from most pain.

Can't Tell How Long

"How long will it last cannot be said," he added.

## Happy Car Polishers

Sister Mary Gordon, left, and Sister Mary Josephine of St. Ambrose Parish in Brunswick, Ohio, gladly apply the polish to their nine-passenger station wagon. They got it through redemption of 1,464,000 trading stamps donated by parishioners. The car will be used for shopping, sick visits, attending funerals and other errands. Only Sister Mary Gordon can drive. (AP Wirephoto.)

## Congolese Boss Set To Sever Ties With Soviet Union, Czechs

LEOPOLDVILLE, the Congo (AP) — Premier Cyrille Adoula is preparing to break diplomatic ties with the Soviet Union and Czechoslovakia and expel their diplomats from the Congo, government sources said today.

Two Soviet diplomats, embassy counselor Boris Voronin and press attache Yuri Mlakot-ykh, were arrested on their return from Brazzaville, capital of the neighboring Congo Republic, where extremist oppon-

ents of the Adoula regime are setting up a "Congolese government in exile."

### Documents

Adoula and his Cabinet Wednesday night examined documents taken from the two Russians. Well-informed sources said they included letters from Christophe Gbenye, leader of the extreme nationalist followers of the late Patrice Lumumba.

These sources said the letters included a request for five

billion Congo francs — about \$27 million — in counterfeited bills to be used to destroy confidence in the Congo's currency.

### Red China, Gizenga

Another letter reportedly asked the Russians to investigate links between Communist China and followers of former Vice Premier Antoine Gizenga, whose separatist regime in Stanleyville had Soviet support and recognition.

## Bipartisan Tag Placed On Program

SAN ANTONIO, Tex. (AP) — President Kennedy depicted his administration's New Frontier scientific program today as a bipartisan approach to the future which would benefit all mankind.

The Democratic President said in a speech prepared for dedication of the Aerospace Medical Health Center at Brooks Air Force Base that the "New Frontiers" slogan which helped him with the presidency in 1960 "is not the exclusive property of either Democrats or Republicans."

### Position In History

"It refers instead," he said, "to this nation's position in history today — to the fact that we stand on the edge of a new era filled with both crises and opportunities, an era to be characterized by both grim challenges and historic achievements."

This unusual bipartisanship on the part of the President seemed to reflect considerable administration worry about what is going on in Texas. The state will cast 25 electoral votes, slightly less than one-tenth of the 270 total Kennedy would need for re-election in 1964.

### 'Appreciation' Dinner

The President planned to fly tonight to Houston, where he was scheduled to speak at an "appreciation" dinner for Rep. Albert Thomas, D-Tex.

Thanat Khoman, above, Thailand foreign minister, Wednesday in Bangkok accused Cambodian chief of state Prince Sihanouk of "selling his country to Communist China." Thanat's statements at a news conference reflected the hostility between pro-Western Thailand and neighboring neutralist Cambodia, which cut diplomatic relations with Thailand two years ago over a border dispute. (AP Wirephoto.)

## Cambodia Won't Turn Red: Kimmy

WASHINGTON (AP) — Cambodia has not turned its back on the West in asking a termination of American military and economic aid, Ambassador Mong Kimmy said today.

The veteran diplomat said he assured the State Department that Cambodia's chief of state, Prince Norodom Sihanouk, has no intention of rushing into the arms of the Communists.

### Peace In Cambodia

"All we want is to be left alone," Kimmy said in an interview. "Let our friends judge us by the success or failure of our policies."

"They see a war in South Viet Nam and they see civil strife in Laos while in Cambodia they see we have peace."

Sihanouk has no plan to ask for military aid from Communist China, Kimmy said, but Peking may be asked to send "a few technical experts — not military."

### Won't Seek Red Aid

"In our agreement on military aid with the United States there is a provision that Cambodia must not receive aid from any of the Socialist countries," the ambassador said. "In point of fact, this meant we were not neutral."

For this reason, he said Sihanouk has decided he would not ask for Peking's military assistance because such an appeal "means that Cambodia would then become a satellite of the Soviet bloc."

### McNamara Leads

McNamara left Wednesday night for Washington immediately after the meeting to report to President Kennedy.

Manning's report described the day-long sessions as "more of a discussion than an arrival at a full set of finished decisions."

## 24 Killed In Caracas

CARACAS, Venezuela (AP) — At least 24 persons have been killed and 84 wounded in Caracas in the last two days of a stepped-up pro-Castro terrorist campaign to block the Dec. 1 presidential election.

Caracas residents who stayed off the streets Tuesday ventured out again Wednesday. Some were caught in the crossfire between troops and terrorist snipers.

Bombings and other violence also were reported in the interior. Arrests of terrorists rose to 150.

## Red Jets Down Iranian Plane

TEHRAN, Iran (AP)—Three Soviet jet fighters shot down an unarmed Iranian plane 18 miles inside Iranian territory after it accidentally strayed into the Soviet Union, official government reports said today.

Two aerial survey officials aboard the plane were killed and the pilot was seriously injured.

The plane, on a photographic mission in connection with a land redistribution project in northeast Iran, lost its way Wednesday and flew into Soviet territory, the reports said.

The reports said the Soviet jets ordered the plane to land on a Soviet air strip. The pilot, however, found he was short of

fuel and flew back into Iranian territory, the reports added.

The three jets then reportedly followed the Iranian plane and fired on it near Darghaz.

The plane was downed while Soviet President Leonid Brezhnev was in Iran on an official visit.

### Improved Relations

News of the incident spread through the Iranian Parliament today as Brezhnev addressed a joint session on improved Iranian-Soviet relations. The president said the Soviet government and people are greatly satisfied with the removal of the "darkness" from their relations with the Soviet government.

## 4 Detroit Area Pastors Free On \$500 Bond

DETROIT (AP) — Four Detroit area clergymen, free on \$500 bond each, were home today following their release from jail at Jackson, Miss., where they sought to help integrate a Methodist church.

The four are under charges of trespassing and disturbing public worship. They obtained their freedom Wednesday along with two Cleveland clergymen and two laymen.

The Rev. James D. Nixon said the Jackson church faces the issue of whether to "live by standards of the set culture or by the Christian faith." He called this a "question all Christians must face."

## Erhard Meets With French President

PARIS (AP) — Ludwig Erhard met President Charles de Gaulle today for the first time since becoming chancellor of West Germany and the two leaders apparently got along well despite some disagreements.

## Seven Killed, 18 Hurt In Bogota Bus Mishap

BOGOTA, Colombia (AP) — A crowded bus careened out of control down a Bogota hill Wednesday, sideswiped several houses and came to rest against a wall. Seven persons died and 18 were hurt. Two of the dead were school girls trapped against the wall. The driver said his brakes failed.

## The Weather

Forecast for Marquette and vicinity: Cloudy and colder to night and Friday with snow or snow flurries possibly heavy at times, low temperatures tonight 25 to 32 and high Friday around 32. Outlook for Saturday: Snow, cold and windy.

Forecast for Lake Superior: Small craft warnings in effect. Variable winds mostly northwest to west 8-15 MPH rapidly becoming north to northeast 18-28 MPH tonight and east to northeast Friday. Cloudy turning much colder with snow flurries. Lake temperature 55.

Data for 24 hours ending at noon: Temperatures — 46 at 6 a.m.; 46 at noon; highest in last 24 hours, 47 at 4 p.m. yesterday; lowest, 42 at noon yesterday.

Relative humidity at noon — 75.

Precipitation — 0.03 of an inch in last 24 hours; total to date this year, 20.85 inches; normal to date, 28.71 inches.

Sun rises at 8:01 a.m. and sets at 5:10 p.m. tomorrow.

Record for Nov. 21 — Maximum temperature, 62 in 1912; minimum temperature, -4 in 1880; most precipitation, 0.86 of an inch in 1906.

## Judges Bar Hoffa's Lawyer On Charge Of Jury-Tampering

NASHVILLE, Tenn. (AP) — An attorney preparing James R. Hoffa's defense against jury-tampering charges has been accused of the same offense and barred from practicing in federal courts.

District judges William E. Miller and Frank Gray Jr. signed an order Wednesday night prohibiting Z.T. Osborn Jr. of Nashville from practice in their courts. Officials said the order would bar the lawyer from all federal courts.

The judges accused Osborn, 43, of offering \$10,000 through a middleman to a prospective juror if he would prevent conviction of Hoffa, president of

the Teamsters Union. Hoffa and six other men are to go on trial Jan. 6 on charges of attempting to influence jurors in Hoffa's trial in Nashville last year on charges of conspiring to violate the Taft-Hartley Act.

Miller's memorandum said Osborn offered \$5,000 through Nashville Policeman Robert D. Vick for the prospective juror, Ralph A. Elliott, if and when he was seated on the jury. The other \$5,000 would be paid if Hoffa was not convicted.

Elliott, a member of the district court panel of prospective jurors was said to be a relative of Vick's.

# Christmas Club Checks For City Hit Record High

A total of 4,252 Christmas Club checks with a value of \$359,610.55 were put in the mail today by Marquette's two banks.

The checks will be delivered in the mailboxes of area residents tomorrow, and Marquette merchants are expecting an onslaught of Christmas shoppers this weekend.

This year's Christmas Club total is a record high for Marquette, with the previous mark being last year's figure of \$335,445.

Christmas Club savings this year were \$24,165 more than last year at the two banks. There were 141 more checks issued this year.

## \$21,000 More

Ellwood A. Mattson, vice president of the First National Bank & Trust Co., noted that Christmas Club checks sent out this year by the First National totaled \$21,000 more than last year.

The First National mailed 2,449 checks totaling \$173,056.33 today. Last year \$152,416.95 was saved in 2,156 clubs at the First National Bank.

Mattson said that the growing number of people who trade in Marquette plus an increase in Christmas Club promotion resulted in the increase at the First National Bank.

The Union National Bank sent out less Christmas Club checks this year than last year, but the amount saved in Christmas Clubs this year was about \$3,000 more.

James A. Braddock, vice president of the Union National, said at the Union National Bank

this year, a total of \$186,554.20 was saved in 1,803 Christmas Clubs. Last year \$183,029 was saved in 1,955 clubs.

## Largest: \$1,000

At both banks, memberships in the clubs range from 10 cents per week to \$20 per week. Operating on a 50-week system, the smallest club pays a total of \$5 and the largest a total of \$1,000.

At the First National, the most popular membership this year was the \$2 club, with 616 \$100 checks sent out.

Both bankers noticed an increase this year in the number of memberships in the 10-cent-per-week club. Braddock said there were more than 100 checks mailed this year to 10-cent-per-week Christmas Club members.

In most cases the 10 cents per week Christmas Club savers are children. They are often children who are encouraged to take out small Christmas Club memberships while their parents take out larger size memberships, the bankers said.

Storekeepers say they notice an immediate economic impact when the Christmas Club checks are received in the mail.

One Marquette merchant commented that his store cashed its first Christmas Club checks of the season Tuesday night, the first night opening of the Christmas season.

The checks came in from the opposite extremes of Marquette's trade area, Ontonagon and Munising.

Not All For Gifts  
However, not all Marquette area Christmas Club savers will use their checks for holiday

gifts. Some will use the checks to pay taxes, to go on winter vacations, and for future savings. Bankers say that people like the Christmas Club system because it's a systematic way to save.

Surveys by Christmas Club, a corporation, show that of the national total saved, 30 per cent will be spent on Christmas purchases, 42 per cent will be put into savings and investments, 17 per cent will be used to pay year-end bills, and six per cent will be put to miscellaneous uses.

Across the nation, more than 14 million Christmas Club members will receive checks totaling \$1,659,430,000 when clubs are paid off this month by 9,300 banks and savings institutions.

For 12 years Christmas Club surveys have shown disbursements exceeding a billion dollars a year.

## Lifelong City Resident Dies In Hospital

Mrs. Roland (Frilda) Bertrand, 52, of 148 Champion St., died at 5:25 this morning in St. Mary's Hospital, where she was a patient since Nov. 9.

Born Aug. 6, 1911, in Marquette, Mrs. Bertrand was a lifelong resident of the city. She was a member of St. Peter's Cathedral.

Survivors are her husband, Roland; a son, Roland John, at home; two daughters, Mrs. Paul (Rochelle) Riis, Ft. William, Ontario, Canada, and Cynthia, at home; her mother, Mrs. Elizabeth Blemberg, Marquette; eight brothers, George and Edward Voet, Marquette; Peter, John, Frank and Joseph Blemberg, Marquette; Alphonse Blemberg, Long Beach, Calif.; and Ronald Blemberg, Green Bay; six sisters, Mrs. Vern (Marie) Hokensen, Plymouth, Mich.; Mrs. Edwin (Vange) Rosewall, Ishpeming; Mrs. Malvin (Leona) Kevert and Mrs. Walter (Ann) Cook, Marquette; Mrs. Benjamin (Jeanette) Pascoe, Negaunee, and Mrs. William (Margaret) Nyström, De Pere, Wis., and several nieces and nephews.

Funeral services will be held at 10 Saturday morning in St. Peter's Cathedral with the offering of a Solemn Requiem High Mass. Burial will be made in Holy Cross Cemetery.

The body is in the Fassbender Funeral Home, where friends may call beginning at noon tomorrow. Liturgical services will be held at 8 tomorrow evening.

## Chest Drive Returns Here Top Last Year's Mark, But Total 'Unsatisfactory'

Contributions to the 1963 United Marquette Community Chest fund have exceeded last year's total, but the progress in this year's campaign is still unsatisfactory, according to Chest officials.

John C. Gerling, general chairman for the campaign, said donations and pledges to the Chest have reached the \$44,000 figure, which is \$750 more than was collected in the canvass last year.

"However," Gerling said, "we are still a long way from our goal of \$62,000. Communities in Michigan which are much smaller than Marquette have collected much bigger amounts for the Community Chest."

"While there have been a large number of individuals, businesses and other establishments contributing their fair share to the Chest, there still are quite a few persons and businesses who have not responded to our repeated solicitations."

## 85 To Be Heard From

In all, Gerling said, there are still 85 business places in Marquette to be heard from in the Chest drive.

He urged all solicitors to follow up their calls and "get the job done within the next week."

Can Call Office  
"We believe every business firm has had ample time to complete its pledge card," Gerling said.

"If any business places have their pledge cards ready and the solicitors have not called for them, we ask that a representative of the firm call 226-8171, which is the United Chest office, and arrangements will be made to obtain the card."

## Final Report Due

Gerling said he had hoped to

Albin Benson were the first to arrive at the station after the theft was reported.

From Filing Cabinet  
Gauthier said the money was taken from a filing cabinet in the service station office.

Entry was made through the front door, which had been left open, Gauthier said. The filing cabinet was opened with a key which had been left on top of a desk.

be able to make a final report of the Chest drive by now, but added that "we can't do it until all the cards have been returned."

Gerling noted that the United Community Chest drive is a canvass encompassing fund collections for various agencies. The recipient agencies are:

Michigan United Fund, Visiting Nurse Association, Salvation Army, Catholic Social Services, Boy Scouts, Girl Scouts, Red Cross, Family Service Society and Women's Relief Corps.

Police Probe Theft At Gas Station  
A theft of \$185 from the Mileage Service Station on S. Front St. last night is under investigation by city police.

Police Det. Marvin J. Gauthier said the money was taken between midnight and 6 this morning. The theft was discovered and reported by Manager Clayton Brown.

Patrolmen Neil White and

followed by a peace that is not a peace.

'Espionage'  
NBC followed the program with another story about Communist conflict. This was a rather off-beat drama of the "Espionage" series. The scene was set 10 years in the future, and the plot hinged on an action by U.S. CIA agents who deliberately undermined the government of an African nation whose leader is a Marxist.

The play was a muddled, static affair consisting mostly of long impassioned speeches on truth, idealism and integrity by a crusading columnist and a statesman-like U.S. ambassador to the United Nations.

Project 20 Relives War That Wasn't  
BY CYNTHIA LOWRY  
NEW YORK (AP)—It looked like a war and 54,000 Americans died in it, but the fighting in Korea was called a limited or police action.

For 90 minutes Wednesday night NBC's "Project 20" production of "That War in Korea" recalled the inconclusive struggle against the communists in the terrible terrain and tough climate of Korea.

Fin Documentary  
The precise narration and the film were blended carefully to explain the background, recalling the defeats, the suffering and the victories between June 1950 and the ceasefire 10 years ago. And it showed pictures of American soldiers today still patrolling the border between South Korea and the Communist north.

It was a fine documentary about war that was not a war

## Fund Transfer For Big Bay Harbor Operation Okayed

Transfer of \$2,500 from the forestry commission account to a harbor commission account was approved by the Marquette County Board of Supervisors at its monthly meeting in the courthouse here yesterday afternoon.

Purpose of the transfer, which was requested by the county road commission, which also acts as the county's harbor commission, was to enable the start of operations of the harbor-of-refuge at Big Bay next spring.

The harbor was completed with federal funds but no account had been set up to carry out the operations, the commission's superintendent-engineer, H. L. Shroeger, Marquette, noted.

## Won't Hamper Operations

Shroeger said the road commission emphasized that the transfer of the \$2,500 would "not in any manner impede the carrying out of the forestry commission plans, nor will it result in any reduction of normal operations."

At the same time, Shroeger urged supervisors with suggestions as to how to carry out the

harbor operations to notify him.

## Part Of Overall Plan

The harbor-of-refuge in Big Bay is part of an overall program by the Michigan Waterways Commission to space such harbors for small boat refuges every 30 miles or so apart on Michigan shores bordering the Great Lakes.

## Began In 1960

Work on the Big Bay harbor project began in 1960, with a \$490,000 contract being carried out by Thornton Construction Co. of Hancock for the break-water work, etc. Docking facilities were erected in 1962, costing around \$73,000.

Although federal funds paid for most of the work, there were some local (county) and state contributions to the project.

Ordered referred to the road commission was a communication from four families in Republic Township, requesting the certification of a local road in the county system for maintenance purposes.

## Another Hunter In U.P. Wounded; Few In Woods, But Rush Due On Weekend

Another hunting accident occurred in the Upper Peninsula late yesterday, increasing the 1963 deer season's non-fatal gunfire mishaps to 15.

The victim was Donald J. Johnson, 27, White Pine, who state police said suffered a self-inflicted injury at 5:15 yesterday afternoon in Bergland Township, Ontonagon County. Johnson tripped while walking in the woods, state police said, with the .30-30 rifle he was carrying going off and the blast striking him in the calf of his left leg.

Johnson then drove to a hospital in White Pine, where he was treated and released.

### Comparative Figures

So far there have been two gunfire deaths in the Upper Peninsula this season. Thirty-five hunters have been lost, and all have been located in good condition. Three hunters have died of heart attacks and one of monoxide poisoning.

In the entire 1962 season there were three gunfire fatalities, 11 woundings, 37 hunters lost and located (one dead from a heart attack) and four stricken with fatal heart attacks.

### Mostly Local Hunters

The deer season began on the 9th west of M-77 in Upper Michigan and on the 15th else-

where in the state. This morning only a few local hunters remained in the woods, except in the eastern section of the Peninsula, where the season extends to the 30th and where there is a large concentration of downstate hunters.

With the deer season ending at sundown Sunday west of M-77, conservation officials expect a surge of hunting this weekend. Local hunters who haven't filled their licenses are expected to go into the woods tomorrow or early Saturday for their final two days of hunting.

Mild weather prevailed throughout the U.P. this morning, although a drop in temperature is predicted for tonight.

**Bridge Totals**  
Up to 7 this morning 9,703 deer and 142 bears have been transported southward across the Mackinac Bridge, compared to 7,643 deer and 303 bears in the same period of the 1962 season.

Permits issued for hunters to carry deer through Wisconsin also reflect a larger deer kill this year in the region, with 306 such permits issued this year, as compared to 279 in the same time last season.

**Vehicle Count**  
For the entire season, 26,489

vehicles, carrying an average of three hunters per car, have been driven northward over the bridge, with 21,647 vehicles driven back downstate. This means there are under 5,000 cars, or less than 15,000 hunters, from downstate still in the region.

"But those are primarily concentrated east of M-77, where the season extends another nine days," commented John Kampinen, Marquette, regional dispatcher for the Michigan Conservation Department.

## One Hurt, Two Ticketed In Accident

One person was injured, two automobiles were wrecked and two persons were issued summonses as a result of a traffic smashup at 10:15 last night in Marquette.

City police said a car being driven south on S. Front St. - U.S. 41 by Judith A. Carlson, 18, Skandia, struck an automobile operated by Melvin E. Wendt, 28, Princeton, who was traveling east on Hampton St. and who drove out in front of her.

Irene Shaw, 18, Skandia, riding in the Carlson car, suffered momentary unconsciousness and a possible head injury, police said. She sought her own treatment.

Extensive damage resulted to the front end of the Carlson vehicle, a 1959 four-door station wagon, which had to be removed from the scene by a wrecker. The left side of Wendt's automobile, a 1955 four-door sedan, also was extensively damaged, but the car was able to be driven from the scene under its own power.

City police issued Wendt a summons for a right-of-way violation and also ticketed him for not having an operator's license on his person.

Dennis Anderson, Box 418, Route 1, Negaunee, owner of the latter's car, was given a ticket for allowing an unlicensed person to operate a motor vehicle.

## Language Provision Okayed By Vatican II

VATICAN CITY (AP) — The Vatican Ecumenical Council today completed approval of a liturgical provision allowing use of modern languages in place of Latin in much of the Roman Catholic Mass.

The reform could help stimulate better understanding between Catholics and Protestants.

## Santa Claus Due Here Again Friday

Santa Claus will greet children tomorrow in the First National Bank lobby from 6 to 9 p. m.

Clifton Wagner, chairman of the Marquette Chamber of Commerce's retail division, said that the chamber and the First National Bank invite shoppers to take their children to the bank lobby tomorrow night to visit with Santa.

**Theater Party**  
Santa Claus will be available every Friday night from tomorrow through Dec. 20 at one of the two Marquette banks.

Also for the children, the chamber's retail division will sponsor two theater parties before Christmas. The first will be Saturday at 1:30 p. m. at the Delft Theater.

A total of 1,400 first, second and third graders from schools outside of the city have been invited.

A second theater party will be held Dec. 14 for children who live in Marquette.

## Court Finds Out Ricky No Longer Belongs To Jim

ROANOKE, Va. (AP) — Ricky, the German shepherd whose death sentence for sheep killing has been appealed all the way to the U.S. Supreme Court, no longer belongs to Jim Laing of Pearisburg, Va.

Papers filed recently by Laing's attorney said "Laing does not own the dog anymore and therefore cannot produce it" for execution.

Laing is appealing a \$1,000 fine and four-month jail sentence for failure to produce the dog to be killed. Records of Giles County Circuit Court revealed Monday that Ricky is the property of Harold Williams of Pembroke.

Ricky was convicted of killing a sheep but Laing maintained that Ricky was only standing guard over the dead animal as he had been trained to do.

## Standby Power Plan For Morgan Heights Approved

By a unanimous vote, the Marquette County Board of Supervisors yesterday afternoon approved a standby power agreement for the Morgan Heights Sanatorium and Medical Section with the City of Marquette.

Under the agreement, as explained by Marquette Mayor C. Fred Rydholm, the city is willing to provide the sanatorium and medical section with a new standby generator of sufficient size to carry the full hospital load, if for some reason there is an interruption of power on the transmission line.

Rydholm said the city has served Morgan Heights with electric power for about 30 years, and that in 1958, just prior to the relocation of the city and Morgan Heights (County Road 492), the city completely rebuilt the transmission line to the hospital.

### Big City Investment

The reconstruction project was carried out at a considerable investment to the city, he added. "Now it is felt that the standby power proposal should be considered," Rydholm said.

"This we agree with wholeheartedly."

Proposals had been made that power from the Upper Peninsula Power Co. be utilized for this standby energy, he noted. "This we have no objection to," he said. "However, the proposal that the power company serve the hospital one month and the city one month would be cutting the revenue approximately in half."

"This, we feel, would not be desirable, following the investment that we now have in the transmission line and in the related equipment."

The county board also heard the report from Dr. James R. Acocks, superintendent of Morgan Heights, concerning admissions and discharges at the hospital during the month.

In the medical unit there were 28 hospitalized, with six admitted and nine discharged during the month. In the tuberculosis section there were 58 patients, nine admitted and seven discharged during the period.

Expenses for the medical unit totaled \$12,059.07 and for the TB section \$24,396.05 during the month. Income totaled \$12,723.90 for the medical section and \$18,182.42 for the TB section.

Cliffs Dow Chemical Co. shows off its safety record with a big sign. Yesterday the plant's consecutive number of days without an on-the-job disabling injury reached 500. Shown in picture are Roy Beaudry Jr. (left), chief steward, maintenance division, and Raymond J. Schwemin, personnel manager. (Mining Journal photo.)

## Cliffs Dow Goes 500 Days Without Disabling Injury

Cliffs Dow Chemical Co. employees have proved that it's safer to work in a plant than it is to stay at home.

Yesterday Cliffs Dow employees completed 500 days on the job without a disabling injury, an injury which causes an employee to be absent from work at least one day.

However, just since the first of the year, 15 Cliffs Dow employees have sustained off-the-job disabling injuries.

**'Safety First - Always'**  
As a result, the industry's safety program is now being aimed at the prevention of accidents at home, as well as at the plant.

No job is so important that safety should take a back seat, the plant safety program has emphasized. The company policy is "safety first, quality second."

Now the Cliffs Dow safety program directors are telling employees that safety must come first off the job too.

Safety directors are encouraging employees to become their own safety directors at home by telling them: "We need your services. Eliminate hazards, teach and train your children in safety, practice safety yourself and make your home just as safe as industry attempts to make your working facilities."

Cliffs Dow's record of no disabling injuries since July 7, 1962, includes 870,000 hours of work. The previous record set at Cliffs Dow was 238 days, or 463,000 hours, from July 1, 1958, to March 28, 1959.

The 15 Cliffs Dow employee accidents this year off the job included one fatality, which occurred in an automobile accident.

**Falls Costly**  
Most frequent disabling injury off the job for Cliffs Dow employees since the first of the year was the fall. Seven employees lost work time in falls.

The other off-the-job lost-time accidents for Cliffs Dow employees since the first of the year include:

Two employees receiving severe lacerations when they lost control of power saws, one employee being pinned under his car when it slipped off the jack, two employees spraining ankles, one employee losing control of a motor scooter and one employee receiving flash burns.

**Inaugurated In 1936**  
Cliffs Dow safety directors give the company's 300 employees the credit for the company's no-accident record.

"Management can help by correcting unsafe physical conditions, but 90 per cent of all accidents and resulting injuries come from unsafe acts. Individual safety accountability prevents injuries," Allan F. Olson, general manager, said.

Cliffs Dow has had a safety program since 1936. The company's special ef-

fort to achieve safe work and prevent lost-time accidents started in 1947.

The emphasis is so much on safety at Cliffs Dow that employees even find a safety slogan in their pay envelopes. Safety awards are given, including gift certificates to members of any department which works two years, or 100,000 hours, without a disabling accident.

### Safety Council

Members of the company's safety council are R. W. Jenner, president; Olson; Arthur W. Goos, research director; Raymond A. Nelson, maintenance superintendent; Wilbert W. Witala, chief engineer, and Raymond J. Schwemin, personnel manager.

In addition to the safety council, the union, Local 14522 of the United Mineworkers District 50, cooperates with the company to encourage safety.

The company-union safety committee includes Edward Berry Jr., Philip Kalisch and Ronald Waara, union representatives, and James Aylward, George Grobar, and Schwemin, company representatives.

## Court Hears Disputes On Districting

DETROIT (AP) — Legislative or congressional district disputes involving 41 of the 50 states including Michigan are before the U.S. Supreme Court, a spokesman for the National Municipal League said Wednesday.

Lawmakers from five of those states told the league's conference on government about their states' particular problems in changing legislative districts to take account of population changes and to satisfy federal courts.

One of the disputes before the Supreme Court stems from a suit filed by Michigan AFL-CIO President August Scholle and four other labor leaders, who seek to change the apportionment system in Michigan's new Constitution.

They contend population variations allowed in the state's House and Senate districts violate the U.S. Constitution's guarantee of equal protection of the laws.

State Rep. William V. Chappel of Florida attacked the suit's contention that both houses of a legislature should be apportioned strictly according to population.

## County Over Budget In 10th Month

Marquette County budget expenditures for the first 10 months of this year were over the budget allowances by a \$976.80 margin. County Controller Robert H. DeRoche of Marquette reports.

Expenses for the January to November period totaled \$305,488.72, while the budget allowance (including refunds and income of \$62,784.84 during the period amounted to only \$304,511.92.

Total budget for the year was \$287,127.50, leaving an unexpected balance of \$44,423.62 at the start of this month. Of the nine separate accounts maintained within the general county budget, only two had operated in the red, but their figures were enough to put the total over the budget.

One account, special appropriations, remains unchanged during the year. Appropriations totaling \$7,525 are made for

Marquette County advertising and promotion, the Upper Peninsula Guild Guidance Clinic, Marquette County Harvest Festival, Marquette County Historical Society, U. P. Adult Mental Health Clinic and Bay Cliff Health Camp.

**Condition Of Accounts**  
DeRoche listed the condition of each of the other accounts, giving the amounts over or under the budget at the start of this month, with the unexpended balances, as follows:

**Judiciary** — (Circuit and justice courts, prosecuting attorney and probate judge) — \$484.37 under the budget and \$10,392.70 unexpended.

**Legislative** — (Supervisors and county clerk) — \$1,278.85 under and \$5,924.68 unspent.

**Finance** — (County treasurer) — \$3,005.97 under and \$5,005.97 unexpended.

**Public safety** — (Sheriff's department, jail, medical examiners, dog wardens, county physician, mine inspector and civil defense) — \$3,157.53 under and \$13,633.37 unspent.

**Public records** — (Register of deeds, elections and statistics) — \$4,283.68 under and \$5,950.35 unspent.

**Public buildings** — (Courthouses and jail) — \$4,816.44 over the budget for the period

## Temperature Drop Due Here Tonight

It's been very mild practically all month, but a temperature drop is due tonight.

Meteorologist Fred Mueller said the mercury will go below freezing here and to about 25 inland. Snow flurries will begin tonight and continue through Saturday. Tomorrow's high will be in the low 30s.

**18 Days Above Normal**  
However, yesterday's extreme temperatures were balmy, 47 and 36, for a mean of 42, which and \$1,896.44 over the budget for the year.

**General** — (Controller, tax department, tax commission, agriculture and extension, miscellaneous items) — \$2,313.35 under and \$7,690.43 unexpended.

**State agencies** — (Welfare agent, bureau of social aid and state institutions and public charges) — \$10,684.11 over for the period and \$2,277.44 over the budget for the year.

was 10 degrees above normal. It was the 18th straight day above normal here, with the month's mean averaging 6.5 degrees above normal.

The cold spell beginning tonight is due to the approach of the cold air mass from the west. Snow and cold will prevail throughout the Upper Peninsula this week, Mueller said.

Benjamin Kubelsky is the real name of Jack Benny.

## Lions Club Again Schedules Project Of Yuletide Gifts For Patients In Newberry

Again this year the Marquette Lions Club has undertaken a project to provide Christmas gifts for the mentally ill patients in the Newberry State Hospital.

The project was founded by the late Howard Weber of Marquette five years ago.

**'Buy Extra Gift'**  
Carl Olson Jr., chairman of the Lions Club Christmas project, said: "The Marquette Lions Club is not soliciting money from any person or group.

"The success of the projects depends upon the Christmas shopping public. We ask Christmas shoppers to buy one extra gift for a patient at the Newberry State Hospital and

drop the gift into a receiver at the Town and Country Hardware store or at Northland Appliance Co. store."

"It is hoped that each patient, adult or child, at Newberry State Hospital will have at least one gift on Christmas morning."

**3,000 Last Year**  
Olson urged shoppers to "remember these less fortunate patients with a Christmas gift."

Lions Clubs all over the Upper Peninsula are helping to collect gifts for the Newberry State Hospital patients, he added.

Last year more than 3,000 gifts were collected in the Lions Club project.

## U.P. Tourist Association Chief Concerned About Next Summer's Season

The Upper Peninsula had a gain of from 6 to 10 per cent in tourist business last summer over 1962, estimates Ken Dorman, manager of the Upper Michigan Tourist Association, but he's more concerned about next summer than last summer.

Dorman says that the Upper Peninsula has increased its support of the tourist association every year since its formation in 1960 but that it's still far from sufficient to bring in the U. P.'s tourist potential.

**"Not Enough To Do"**  
"The east end of the U. P. and the Copper Country did well in tourism this year," said Dorman. "In between, it was generally good where areas had activities for tourists. Our chief complaint from them is that there's not enough to do. They run out of scenery. You can get a lot of mileage out of scenery, but you've got to draw tourists' attention to it."

"They'll go to 25 waterfalls and argue about which one is best, but they must be identified and there must be a path to them."  
**Shoreline Drive Projects**  
"No one is backtracking in tourist travel today. The Upper Peninsula must arrange its tours so visitors can go one way and return another. We make a

mistake if we feature routes instead of attractions. Our tourist business people along U. S. 2 and M-28 should be interested in the proposed scenic routes because they'll bring them more business.

"The average fellow along 2 or 28 is fighting the shoreline drive projects and it's the biggest mistake he could make because they'll generate tourist traffic that will bring the businesses along 2 and 28 their share."

## Financial Scene: U.S. Figures On Income Puzzling

By SAM DAWSON  
NEW YORK — Hardest for many Americans to comprehend are the government figures on personal income and the cost of living.

More often than not the government agencies report that personal incomes have risen to a new high and that the cost of living hasn't budged much.

**'Bills Get Higher'**  
Millions of citizens usually react by grumbling that they sure haven't noticed any gains in their incomes while the bills seem to get a little higher month after month.

Both the skeptical citizens and the government statisticians could be right.

Somebody's income has gone up — enough of the somebody's to change the totals for the nation.

**Price Index Noted**  
And costs of some things you may not be buying just now may have gone down enough to offset rises in the prices and fees and fares and rents you may be paying. And so the government's consumer price index rises little, if at all.

The government has just announced the biggest monthly increase in personal incomes in 18 months — \$3 billion at an annual rate. But the Department of Commerce reminds civilians that one-third of that boost is due to a military pay raise.

The rest is distributed among increased payrolls in a number of factories in many industries, and in state and local government offices, along with some gains in rents, dividends and interest. Higher employment totals also swell incomes a bit for those in the selling, financing and servicing endeavors.

**Impressive Record**  
The impressive record now tops \$470 billion on an annual rate, 5 per cent up from the previous year.

Closely tied to the rise in personal incomes perhaps are the spending intentions the Census Bureau reports.

It says 4.5 per cent of the 17,500 families it questioned last month plan to buy a new car in the next six months, compared to 4.1 per cent a year ago, and 21.5 per cent plan to buy at least one household appliance within six months, compared with 20.7 per cent in October 1962. Those intending to buy a new house within 12 months edged up to 2 per cent from 1.9 per cent a year earlier.

in the U. P. Our official U. P. listing has 350, but there should be a listing of between 700 and 900. Michigan has about 8,000 motels, but lists only about 3,000 in official publications.

## Motels Vs. Camping

"There are rumors among tourists that accommodations are lacking in the Upper Peninsula; that people have to sleep in cars. One of our tourist association shopping teams had to sleep in their car at the Sault last summer. The tourist doesn't realize that we have about a thousand motels in the U. P. and that they're as good as motels elsewhere. Most of them have been built since World War II."

"There are 225 motels in Mackinac County, but an official-looking special listing reports only five of them. It behooves the motel operators in the U. P. to get their listings in our 100,000 mailings to people before they come to Michigan. This is the hardest thing to get over to our own tourist business people."

**Accommodations Listings**  
"Our motels and restaurants and helping to promote camping because they don't let people outside the area know that we have lots of accommodations for sleeping and eating. They need listings circulated in areas where our tourist business is generated. To put up a roadside sign doesn't help."

"Some of the motels subscribe to special listings. One listing for Michigan has only 17 motels

## Constitution Hikes Status Of Northern

LANSING (AP) — While a committee churned out more proposed bills to implement Michigan's new Constitution, Gov. George Romney Wednesday called for this year's second special legislative session.

The formal call mailed to legislators did not limit the session, to begin the night of Dec. 3, to Constitutional implementation.

It said instead that the session is "for the purpose of considering certain subjects to be submitted by special messages."

The mailing of the proclamation was announced after Romney left Lansing for the Mid-Western Governors' Conference at Omaha, from which he is to return Saturday.

He told a press conference Monday he was "taking a look at several things" for possible

cheaper vacation than he has in his trailer if he only uses it for his vacation. He's independent, all right, but he's spending more than if he stopped at the best places we have."

consideration in the coming session, but did not specify them. Romney did rule out two topics, however. These were governmental reorganization and Aid to Unemployed Children of the Unemployed.

The special joint legislative committee on Constitutional implementation moved another handful of bills closer to action Wednesday. The committee expects to have about 100 bills ready when the special session starts.

Wednesday's only committee casualty was a proposal to establish an ethics committee to watch for possible conflict-of-interest cases involving lawmakers or state officers.

Most of the measures passed out of committee Wednesday dealt with reorganizing the boards governing colleges and universities, making them eight-member bodies with overlapping terms.

The new Constitution elevates the status of the four former normal schools — Western, Eastern, Central and Northern — to roughly the same status as the "Big Three", Michigan State, University of Michigan, and Wayne State.

The seven will have the same autonomy and will have their own governing boards. Presently, the four former normal schools fall under the jurisdiction of the State Board of Education, which itself is to be re-

## Romney May Give Pardon For Escapee

LANSING — Gov. George Romney says he will consider the possibility of issuing a full pardon that would let prison escapee Alonzo Gussell return to being George King of Colorado. Gussell had been "George King" for 10 years until his return Tuesday to Southern Michigan Prison.

He was unsuccessful in an attempt to see Romney and ask for clemency, based on his claim that he has led an exemplary life in Colorado since his escape in 1953 from an honor camp near Pontiac, where he was serving a term for burglary.

Romney said Wednesday he will ask the parole board to consider Gussell's case at its meeting Monday.

He indicated if the board does comply with his request, he would consider possibilities of pardoning Gussell, allowing him to return to his wife, Edna, and their three children in Denver.

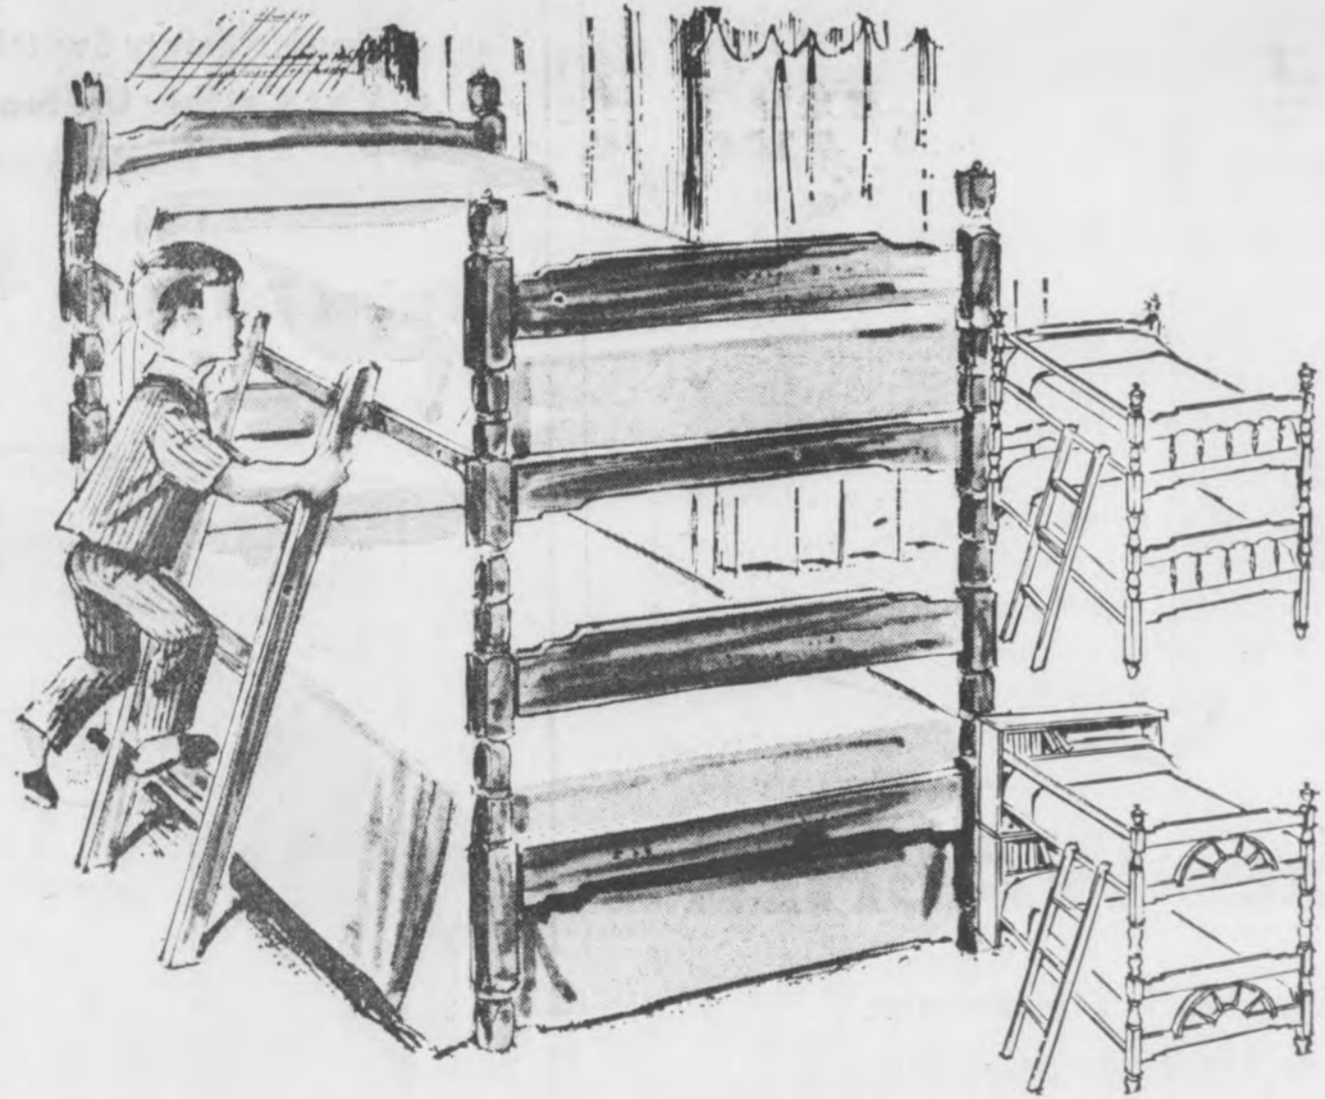

organized under terms of another measure passed out of committee.

**Clothing Collections Under Way Here**

Clothing collections for the needy and war-torn overseas and in Latin American countries are being conducted through the Thanksgiving period by the Catholic churches in this area. Shipments will be made overseas through the War Relief Services division of the National Catholic Welfare Conference. The Rt. Rev. Msgr. David P. Spelgatti, Ishpeming, is chairman of the drive in the Marquette Diocese. This

is the newest collection center in the area. St. Michael's multi-purpose room, constructed during the past year. From left are Mrs. Bernard McAuliffe and Mrs. Lovell Dunleavy, chairman of the clothing collection for St. Michael's, and the Very Rev. Msgr. Arnold L. Casanova, pastor, and the Rev. James Menapace, assistant pastor. (Mining Journal photo.)

**Yule Drive For Salvation Army OK'd**

Permission has been granted by the city commission for the Salvation Army to conduct its Christmas drive in downtown Marquette.

Robert E. Moore, chairman of Marquette's Salvation Army Christmas committee, requested approval of the organization's Christmas solicitation program in a written communication to the commission.

He said the Salvation Army would operate its Christmas kettles from Friday, Nov. 29, through Tuesday, Dec. 24.

The kettles booth will be set up on W. Washington St. near the Montgomery Ward & Co. store. As in past years, other kettles will be placed at other locations in the business dis-

trict when service club members man the kettles, Moore said.

**Christmas Music**

The Salvation Army also received approval of its request to play Christmas recordings over a public address system, at a moderate volume, from the kettle booth.

"This seems to help create a Christmas atmosphere in the community and it also draws the attention of the public to our booth," Moore said.

**Golden Age Covers Art, Architecture**

By CYNTHIA LOWRY

NEW YORK (AP) — Both CBS and NBC have broadcast hour-long specials this season about the glory that was Greece and the beauty that is now.

Several weeks back, a CBS show with Alfred Lunt and Lynne Fontanne emphasized the

birth of the drama during the fifth century before Christ, an era that fairly exploded with genius. NBC's program Tuesday night was more interested by the art and architecture of the same period.

**Better For Sunday**

The NBC show's color photography was delicate and beautiful. The narration by actor Trevor Howard was in a low key.

"Greece, the Golden Age," fashioned tenderly and lovingly, would have been a better bet on a winter Sunday afternoon. Somehow an actor reading excerpts of "Oedipus Rex," accompanied by views of the Parthenon and Delphi, fit a lazy Sunday better than a week night spot normally occupied by Richard Boone.

Tuesday night's "Mr. Novak" on NBC was heralded as a sharp change of pace. It was to be a comedy. But there wasn't a chuckle in the hour — a moralizing tale suggesting that the public's attitude toward its teachers is something less than friendly.

As this series continues it be-

**Trial Balance Report Given By Treasurer**

All credit balances were reported in the monthly statement and trial balance of the ledger accounts, listed this week by County Treasurer Bertil Agnoli with the Marquette County Board of Supervisors.

comes obvious that its creators are hammering on a single theme—There is no such thing as a bad teacher or a bad pupil, just bad or ignorant parents.

Practically every week, noble, dedicated, underpaid Mr. Novak has to take some abuse from some ill-mannered father. Usually at the end, the parents apologize.

Teachers, I understand, approve of the series. No wonder.

The credit balances were as follows:

General fund, \$141,660; county road fund, \$162,699.56; Morgan Heights Sanatorium and Medical Section, \$14,624.63; soldiers relief fund, \$7,516.91; county parks fund, \$6,509.93; county airport fund, \$38,883.12; social welfare fund, \$70,698.42; and direct relief fund, \$58,199.01.

**Mine Report**

Mine Inspector Henry L. Scarffe of Ishpeming reported inspecting the following mines during the past month:

New York, Old Empire, Gardner Mackinaw, Morris, Humboldt, Erie, Republic, Swanzy Pit, Bunker Hill, Lloyd, Dexter, Kloman, Blueberry, Empire, Princeton, Section 6, Bessie and Murdoch.

The board adjourned to 2 p.m., Wednesday, Dec. 18.

The remarkable Maya culture flourished in what are now the Yucatan, Guatemala and western Honduras. The civilization endured from pre-Christian times until the Spanish conquest.

**Northern Debaters Capture Four Of Six In Tournament**

Northern Michigan University's debate squad kept its winning record intact at the annual novice tournament held recently at Western Michigan University, Kalamazoo, under the sponsorship of the Michigan Intercollegiate Speech League.

Northern's negative team, comprised of Vince Romano, Detroit freshman, and Richard Wendt, Marquette sophomore, won all of its three debates, defeating Henry Ford Community College, Lansing Community College and Wayne State University.

The NMU affirmative team of Robert Hakkinen and Jay Johnson, both Bessemer juniors, also defeated Wayne but lost close decisions to Hope College and Kalamazoo College. Wendt Gets 'Excellent'

Richard Wendt received an "excellent" award by placing ninth among the 132 speakers participating in the tourney. Wendt received a score of 61 out of a possible 75 points.

Johnson, Romano and Hakkinen, debating in their first college tournament, received 54, 53, and 49 points, respectively, for an average rating of "excellent."

During the current season, NMU has competed with 25 colleges and univer-

sities in a total of 26 rounds of debate and has compiled a record of 14 wins and 12 losses.

Of the 11 NMU students who have participated in the debates, two have received

awards of "superior," and three students "excellent" awards. One student, participating in oratory and discussion, received a rating of "good."

**Two In December**

Two forensic events have been scheduled for December—a public address and extemporaneous speaking tournament at Hope College Dec. 7, and the annual freshmen-sophomore tournament at Navy Pier, Chicago, Dec. 14, in which four NMU debaters will participate.

**Television..Radio**

Cable TV viewers will find their stations on different channels as follows: Ch. 6 becomes Ch. 5 on Cable — Ch. 11 becomes Ch. 4 and Ch. 5 is Ch. 2.

**Buck Bag**

Martha Spelman, formerly of Washington, D.C., and now a resident of Marquette, bagged a 145-pound, six-point buck in the Big Bay area on Saturday, the 16th. This was her first time deer hunting.

Two Palmer brothers, Walter and Waino (Licky) Lakari, hunting in the Tilden Township area, each bagged their deer on Tuesday. Walter shot a spikehorn about 120-pounds and Licky shot a six-point buck weighing in at 160-pounds.

It has been reported that the hunting on Grand Island has been rather disappointing this year. So far there have been only around 25 deer reported taken there this year, whereas last year an estimated 200 deer were taken. Successful hunters from Grand Island were Shirley Robare, who took a 17-point, 214-pound buck (the biggest rack to be reported so far); Ted Belfary got his buck the first day on the island and Louis DesJardin on the second day.

A four-point, 150-pound buck was downed in the Kiva area by Ted Martin, 341 W. Main St., Harvey, at 10:15 a.m. Saturday.

Fred Beaudry, 17, of 511 Wright St., Marquette, a junior at the Graveraet Senior High School, got his first buck Sunday morning at 10 a.m. when he downed an eight-point, 175-pound buck while hunting near Birch in Powell Township.

James Chosa, Box 294, Baraga, a 17-year-old senior at Baraga High School, bagged his second deer when he was hunting south of Baraga and brought back a 190-pound buck. He was hunting with his father, Eugene, and was the only successful hunter for the second year in a row.

Hunting from Carl Beerman's camp near Big Bay, Roy Copley, 407 W. Park St., Marquette, dropped a seven-point, 195-pound buck Sunday, the 17th.

# Swainson Hits Romney Tax Failure At U.P. Meeting

By JEAN WORTH  
Journal Special Correspondence  
ESCANABA — Former Gov. John B. Swainson came to the Upper Peninsula Monday this week to see how he stands with Democratic party leaders during this period of jockeying for the Democratic nomination for Governor.

He found them friendly and maybe a little non-committal about early line-up of support for specific candidates. They found him completely non-committal, they said, about an overt announcement of his candidacy.

**Must Consider Health**  
Asked about his candidacy, he said, "I don't know yet. I'm not going to make up my mind until more facts are available. I'm disabled, you know (he lost both lower legs in World War II) and I must consider my health and other things."

There were 11 Democratic party leaders from the Upper Peninsula at the dinner meeting. Robert Olsen of Escanaba, Democratic 11th District chairman, arranged the conference when Swainson said he would stop here overnight on a trip to the Upper Peninsula.

**In Relaxed Mood**  
He left the next day with several friends in a private plane for Manitow Island in Lake Michigan to hunt deer.

The party conferees talked strategy until 11:30 at night. Swainson was in a relaxed, jovial mood. In a pre-dinner press conference he said he had been able to spend the Fourth of July, Memorial Day and Labor Day with his family this year for the first time in years and enjoyed relaxation of the heavy schedule of activities that public office had subjected him to.

**Main Theme**  
Swainson's main theme was that Gov. George Romney, the Republican who defeated him for re-election in 1962, had failed to give Michigan the leadership that had been promised in the campaign.

Reviewing his own party's possible mistakes and his own in the first Democratic party defeat in a gubernatorial campaign in 14 years, Swainson said that his veto of a bill to tax suburbanites who worked in Detroit had helped to elect Romney, but that the issue was dead now.

**Romney Quip**  
Swainson said that Romney had advocated Aid to Dependent Children of the Unemployed, a minimum wage act for Michigan, tax reform and Detroit's bid for the Olympic Games and that none of them had been accomplished. Quipping about Romney's trip to Germany to urge the Olympic Games site committee to pick Detroit, Swainson said, "When Romney returned from Baden-Baden he didn't feel so Gooden-Gooden."

Swainson said that tax reform in Michigan is inevitable because of the needs of the state and especially of Michigan education, but he didn't endorse the Romney tax reform program totally. He ardently opposed the proposal to put a state lien on the homesteads of elderly persons granted tax deferral and said the Republicans had found the lien plan "unpalatable to the older

## Dairymen Advised On Winter Feed

Corn and protein supplement will likely cost more this winter, reports Michigan State University Agricultural Economist Richard T. Hartwig of Marquette, who advises Upper Peninsula dairymen to consider feed price trends in planning their winter feeding programs.

Hartwig reports that the new corn crop is estimated at 4,033 million bushels compared with 3,644 million last year. Thus, the total supply, carry-over plus new crop is around 5,300 million bushels, practically the same as for the past year.

**Exports May Increase**  
Exports may increase, we will feed more beef cattle and hog numbers are up a little, according to the specialist. Farmers may keep fewer milk cows but will need more grain per head to offset shortages of hay in some areas.

Also, the fact that supplies of other feed grains are slightly below that of last year may make corn prices above last year, the economist says.

The national average price support loan rate on corn is \$1.07 per bushel and prospects look for \$1.20 corn next summer, says Hartwig.

**Soybean Crop**  
The soybean crop this year is estimated to be 718 million bushels, compared with 675 million last year. The total supply for the year beginning Oct. 1 was 742 million bushels. The normal increase in use and exports would take around 720 million bushels, or practically the entire supply.

Since soybeans contain less moisture this year, the yield of oil and meal may be greater. About 11 pounds of oil and 47.5 pounds of meal are expected from each bushel.

"It appears, therefore, soybean meal prices to U.P. Farmers may be above last year's prices," Hartwig said.

citizens of the state." He also assailed the real estate transfer tax as having greatest impact on the elderly who had held properties over a period of years.

**Says Image Damaged**  
Chairman Olsen said the conference appeared almost unanimous in acceptance of the inevitability of tax reform key-noted by a person income tax and a corporate tax.

Swainson saw the tax reform issue as one in which the Democrats could make some political hay. He thought that the Romney leadership image had been damaged by defeat of the tax reform in the recent special session of the Legislature, he said.

**Within One Vote**  
Part of his "Romney has failed us" pitch was that the Governor had turned his back on reform with an alleged statement that he would not reintroduce tax reform in the 1964 legislative session. (In a statement after defeat of his tax reform proposal, Gov. Romney said that he still favored tax reform but that he would not attempt to get an overhaul of Michigan's revenue structure

through the 1964 Legislature.) Swainson cited that an income tax proposal that he made in his administration came within one vote of passing the Senate, a better performance than Romney's plan. (An income tax for Michigan is a very old proposal, renewed by many governors since Gov. Cyrus B. Luce, a Republican, first proposed it in 1890.)

**Front Runners Absent**  
Swainson said he thought that likelihood of fiscal reform had been diminished by Romney's "castigation" of legislators who opposed it. It was defeated by Both Republican and Democratic votes and never got to a vote on the issue. Swainson said that the state's income problem remained and that the present automobile industry boom wouldn't continue and its end would bring another money crisis for the state.

There was no open political jockeying for the nomination for 11th District Democratic congressman at the conference. The persons mentioned as front runners — Rep. Dominic Jacobetti, Negaunee; Joseph Mack, Ironwood, and Atty. Ray Cleavenger, Sault Ste. Marie, and four times nominee Prentiss M. Brown Jr. of St. Ignace were not at the conference. It was reported there that Jacobetti was withdrawing from the field.

Conferees introduced the subject of pulpwood pricing as a campaign issue. It was coupled with suggestion that the Mackinac Bridge tolls on pulpwood trucks should be reduced to permit movement of Upper Peninsula wood to Lower Peninsula mills.

## City Rejects Membership In Chamber

Marquette's city commission, at its special meeting this week, turned down an invitation to have the light and power department become affiliated with the chamber of commerce.

City Manager Thomas Moore, who referred the chamber's request to the commission, said that the chamber was "actively soliciting the membership of the municipal utility because the light and power department does business in Marquette and inasmuch as U.P. Power Co. is a member."

Chamber dues for the light and power department would be based on the size of the utility's business and would be from \$1,200 to \$1,800 a year, Moore said.

**May Reconsider**  
Commissioner James R.

campaign issue. It was coupled with suggestion that the Mackinac Bridge tolls on pulpwood trucks should be reduced to permit movement of Upper Peninsula wood to Lower Peninsula mills.

Smith, who moved that the chamber's request be denied, said he did not feel the department should join the chamber because "we're spending taxpayers' dollars and the other utility mentioned is a private utility."

Moore said today that the commission's decision is understandable because of the inflexibility tight budget on which the city is operating this year.

"Next spring, when the new budget is being prepared, I intend to present the chamber's invitation to the light and power department to the commission for consideration at that time," Moore said.

## 3rd Medical School Opposed

EAST LANSING (AP) — The Michigan Coordinating Council on Public Higher Education has taken a stand favoring expansion of medical education but opposing creation of a third, tax-supported medical school before 1968.

The group, meeting here Wednesday, adopted an 87-page study report recommending that the needs of existing programs at the University of Michigan and Wayne State University be met

before any broad new plans needing public funds are launched.

It recommended 125 new first-year vacancies in medical education be provided by 1968, and a total of 176 new places by 1971. **'Blue-Ribbon' Committee**  
Whether a third medical school eventually is built, the report said, should be based on the findings of continuing studies of Michigan's medical education needs as related to population growth.

The report, by a "blue-ribbon" committee engaged by the Coordinating Council to study medical education in Michigan, may have settled, for the time being, controversy over establishment of a third medical school at Michigan State University.

One of its recommendations was that a cooperative program be established involving MSU's new Institute of Biology and Medicine and the two universities with medical schools.

**Plan Explained**  
Under this plan, the MSU institute would provide the first 18 months of medical training for 50 students, who then could transfer to U-M or Wayne State for the last six months of their first two years.

The transfers would be necessary because MSU would not have the clinical facilities essential for the last half of the second year of medical schooling. The committee, headed by Dr. Herman Wells, chancellor of the

## Six Drivers Pay Fines In City Court

Six persons were ordered to pay a total of \$63.70 in fines and costs by Judge Edward H. Dembowski yesterday in municipal court for traffic violations.

The following persons, ticketed by city police for speeding, each paid fines of \$6.30 and costs of \$3.70:  
Donald A. Maki, Route 1, Ishpeming, driving 40 miles per hour in a 25-MPH zone, and Robert P. Gibson, 225 W. Crescent St., driving 40 miles per hour in a 25-MPH zone.

Gibson also paid costs of \$3.70 after being ticketed by state police for defective brakes.

**Stop Sign Violations**  
Assessments totaling \$10 in fines and costs were paid by the

University of Indiana, said this system would help furnish the needed vacancies in first-year medical education. The Coordinating Council, composed of administrators and governing body members from tax-supported schools, has no official status, but its views are regarded as reflecting the feelings of the schools on public education issues.

following persons for stop sign violations:  
Carlos H. Lopez, 513 High St., and John R. DePetro, 1803 Presque Isle Ave., both ticketed by city police.

Fines of \$6.30 and costs of \$3.70 also were paid by James H. McGowan, 393 Lakewood Lane, ticketed by city police, for failure to have his motor vehicle under control, following an accident Nov. 15 on N. Fourth St., and Ronald J. Bokros, Manistique, ticketed by state police for improper overtaking and passing.

## Polly Cast In Role Of Lady President

WASHINGTON (AP) — In her latest movie, actress Polly Bergen plays the first woman president of the United States.

Polly was taking a ribbing about the role at a luncheon of the circus "Saints and Sinners" when she interjected: "There's as much acting in politics as there is on the stage."

## Hanna Directors Increase Dividend

CLEVELAND (AP) — Directors of the Hanna Mining Co. increased the regular quarterly dividend 10 cents, to 60 cents a common share. The dividend is payable Dec. 12 to shareholders of record Nov. 26.

**Superstructure For Prep Gym Taking Shape**

Superstructure for the Marquette Senior High School gymnasium is rapidly nearing completion, as this photo indicates. The gymnasium will provide seating capacity for about 3,000 persons. Work on the high school itself is around half completed. The school will be ready for occupancy next fall. General contractor is Caspian Construction Co. of Caspian. Cost of the entire building will run around \$2.5 million. Work began last spring.—(Mining Journal photo.)

**Number Of Flights At Airport Dips**

Flights at the Marquette County Airport in Negaunee Township dropped during the past month, but still exceeded the 3,000 mark.

Flights last month numbered 3,091, or 84 less than in the previous month, reports H. L. Schroger, Marquette, superintendent-engineer for the Marquette County Road Commission, which supervises the airport program.

During October there were 218 flights by North Central Airlines, accounting for the arrival of 968 passengers and the departure of 927 passengers. There also were a number of transfer passengers.

During the month the airport also had 268 itinerant aircraft operations, involving 1,034 passengers; one ambulance flight and 2,604 local flights.

**Mail, Express**

Through the airline, the airport handled 15,928 pounds of mail and 14,447 pounds of express and freight. There were 9,417 gallons of gasoline sold during the month at the airport.

D. F. Vaiella, Negaunee, airport manager, and his assist-

ants spent a total of 763.3 hours on duty to operate the airport during the month.

By comparison, there were 3,175 flights at the airport during the previous month. Of these, 216 were airline operations, accounting for 679 arriving, 793 departing and seven transferring passengers. There were 282 itinerant, three ambulance and 2,674 local flights.

In September the airport handled 14,807 pounds of mail and 9,620 pounds of express and freight.

A pair of chimpanzees sits quietly for hours, searching through each other's coats for dirt, grass seeds or ticks. Some students of animal behavior see in this the first beginnings of true social and altruistic behavior in the whole animal kingdom.

**West Contributor In New Publication On Biology**

Dr. Luther S. West, dean of arts and science, Northern Michigan University, is a contributor in a new publication on biology.

Two volumes, entitled "Research Problems In Biology—Investigation For Students," were recently published by Doubleday & Co.

**80 Contributors**

Eighty biological scientists, acting in cooperation with the American Institute of Biological Sciences and the Biological Sciences Curriculum Study, have each outlined a possible research experiment, which might be successfully carried out by a high school student possessed with imagination, intelligence, and determination.

The suggested experiments fall in the fields of Animal Behavior, Animal Physiology, Ecology, Genetics, Growth-Form-Development, Microbiology, and Plant physiology.

Dr. West, who also is professor of biology at Northern, has made his contribution to this publication in the field of animal physiology. The title of his unit is "Requirements for Reproduction as Compared with Requirements for Maintenance of Life in Houseflies."

Within the last 25 years, the housefly, *Musca domestica*, has become a most important experimental animal, ranking on a par with the white rat, guinea pig, and rhesus monkey.

West, author of the world's most authoritative volume on the housefly, maintains the most extensive bibliography on the subject known to science (6,000 titles).

He hopes, that as a result of the experimental procedures he has suggested, some youngster may achieve the credit for adding to the sum total of human knowledge concerning

the importance of nutrition in fertility.

In an age concerned with population explosions, interest runs high in the field of animal reproduction. This type of research is therefore not only academically sound, but also has its appeal for those whose scientific interests run along practical lines, he said.

**Background Noted**

In giving the young investigator a background from which to proceed, West says, in part: "Background: It is now well known that while some form of sugar or assimilable starch is necessary for normal longevity of the housefly, a protein ingredient such as might be obtained from bouillon or blood serum is required for the production and deposition of eggs.

"This can be provided either by proteins in solution or by products of protein hydrolysis. Furthermore, for certain species at least, commonly available sources of protein are not adequate.

"For example, flesh flies can develop eggs on fish protein, but not on casein. Ovarian development goes on for one day in adult houseflies regardless of diet, but this period seems to exhaust the fly's 'internal resources.'

"Addition of egg albumen will not sustain life, but a 20 per cent sugar solution will. Further addition of egg albumen will then make oviposition possible.

**Diet Of Milk**  
"A diet of milk proves complete for all purposes, and flies are strongly attracted to it.

"By contrast, glucose, fructose, maltose and starch are not very attractive to flies, though lactose and dextrin are. They move readily to gelatin derived from wheat flour.

**Dependent Odors**  
"It has been found that odors dependent on the presence of

such substances as ammonia or hydrogen sulfide are more important in attracting flies to

food than the nutrient value of the material itself.

"Degree of decomposition usually controls this, but pH seems unimportant. The instinct of the fly can therefore be in error, especially when the variety of food is limited.

"The great success of the common housefly in nature may well be due to its proclivity for sampling a greater variety of food (and filth) than other similar species, rather than to its ability to digest and assimilate a great variety of organic substances."

Beckoning Adventure For Skiers

Michigan's record 85 winter sports areas — more than any other state in the nation — offer snow thrills and sociability plus invigorating, healthful fun. The 1963-64 Ski Map and Winter Sports Guide, listing all Michigan winter sports areas and facilities, is available without charge from the Michigan Tourist Council, Lansing 26, Mich.—(Michigan Tourist Council photo.)

U.P. Progress Noted In Tenure Drive

Forest Roberts of Marquette, district head of the tenure drive for teachers, said today that the Michigan Education Association's petition campaign for statewide teacher tenure "has been most successful" in the Upper Peninsula.

All three MEA regions comprising 15 counties have met and far exceeded their assigned quota of signatures, he said. The MEA hopes to secure 250,000 signatures by Monday. The Upper Peninsula quota was approximately 12,000.

An Upper Peninsula attorney, Bert M. Heideman, Constitutional Convention delegate from the 32nd Senatorial District (Houghton, Baraga, Ontonagon and Keweenaw Counties) had proposed in 1961 that a provision for teacher tenure be included in the new state constitution.

Although Heideman's proposal was defeated, the MEA hopes to be successful in its campaign.

"Parent Profession" "Teaching is the parent profession of all the professions," Roberts said. "Without teachers there would be no other professional people. The word 'tenure' is derived from the Latin verb *tenere*, to hold.

"And tenure means simply that the person holds his position so long as he performs as he should, and if he does not, he may be removed by fair means and for just cause."

Nearly three fourths of the earth's surface, almost 400 million cubic miles, consists of water.

research law clerk for each judge, and secretarial personnel.

U.P. Would Be Part Of 61-County Appellate Court District Under Proposal

The new State Court of Appeals authorized by the new Michigan Constitution which becomes effective Jan. 1 is being implemented through committee action which has proposed a state districting which would throw the Upper Peninsula into a district with 61 of the state's 83 counties.

Wayne (Detroit) County would be District No. 1 under the proposal, with 2.6 million population.

Twenty-one counties about Wayne in southeastern Michigan would be District No. 2, with 2.7 million population. Nine Judges At First

All the rest of the state would be in District 3 with 2.3 million population.

Rep. Clifford Perras (R-Memnonie-Dickinson), a member of the judiciary subcommittee of the Committee on Implementation of the New Constitution, said that the court of appeals, as proposed, would consist initially of nine judges who would be nominated and elected at non-partisan elections from districts drawn on county lines and reflecting as nearly as possible equal population.

Six-Year Terms The State Supreme Court could prescribe that the court of appeals sit in divisions, with such divisions consisting of not fewer than three of the nine appellate judges, to be elected three from each district. The appellate judges would hold office for six-year staggered terms.

The jurisdiction of the appellate court would be between the circuit courts and the supreme court. Each judge would receive an annual salary of \$23,000. The court would be under the control of the supreme court, which could administer it through the court administrator, and the supreme court would have authority, under the proposed act of implementation,

Preminger's 'Cardinal' Another Hit

By BOB THOMAS HOLLYWOOD — With "The Cardinal" Otto Preminger continues his preoccupation with popular novels. "The Cardinal," adapted from the Henry Morton Robinson novel of several years back, concerns a young Boston priest who makes his way up the line of hierarchy until he is awarded the red hat. The film story is told in flashback form, detailing his family background, his errors and triumphs, his wanderings from a paupers' church in New England to the highest councils of the Vatican.

Fascination Noted The cumulative effect is generally good. There is fascination in following the rise of a career churchman. Some of the sequences are well done, particularly the Vienna interlude when the priest's doubts about his vocation cause him to doff his collar for two years. He edges close to a romance, then returns to the Church.

Some of the episodes are mawkish and contrived. The worst is the priest's journey to the Deep South, where he encounters bigotry and brutality. Huston Steals Show

Preminger manages his large cast with more sureness than he developed the story. Tom Tryon seems a good choice for the searching young religionist. Romy Schneider is excellent as his near-romance in Vienna and the rest of the cast perform ably — Carol Lynley, Burgess Meredith, Bill Hayes, John Saxton, Chill Wills, Maggie McNamara, Cecil Kellaway, Dorothy Gish, etc.

A special word should be said about John Huston. He just about steals the show as the autocratic cardinal from Boston.

circuit courts, and court of claims; all final judgments from justice courts, police courts, municipal courts, probate courts, common pleas courts and other courts inferior to the circuit courts. Appeals from final judgments or decisions would be a matter of right, but all other appeals from other judgments or orders would be subject to permission by statute or supreme court rule.

The court of appeals would sit in "Detroit, Pontiac and Grand Rapids, or at such other places as the supreme court shall direct," and the offices would be located in Lansing.

The court staff would include a chief clerk, deputy clerks, a

GOOD FOODS! EXTRA THRIFT! PLAID STAMPS, TOO, IN

# A&P's Savings Array

For THANKSGIVING DAY

COME SEE... YOU'LL SAVE

A&P's got just what you want for Thanksgiving! All the traditional fixings for a festive holiday — all thrift-priced to save you extra cash! Then, too, at A&P you'll be able to add to your collection of valuable Plaid Stamps. And to get even more savings for the holiday, select plenty of quality-famous A&P Exclusives: Jane Parker Baked Foods, Ann Page Fine Foods, and freshly-ground A&P Coffee.

TASTY 'N' THRIFTY TRIMMIN'S! Jane Parker Baked Foods

JANE PARKER

**Pumpkin Pie** REG. 55c **45c**

Here's pie to please everyone with its golden filling . . . nicely spiced and satin smooth . . . in a flaky, delectable crust. Thrifty, too!

Jane Parker Light Cake America's Favorite Over 60% Nuts and Fruit

**Fruit Cake** 1 1/2-Lb. Loaf **\$1.45**

## U.P. Tourism Indicted

The tourism industry in the Upper Peninsula is more severely characterized in the recently published study of prospective economic impact of the Pictured Rocks National Lakeshore than it has probably ever been before.

The economic study was prepared for the National Park Service by the Institute for Community Development of Michigan State University. MSU has done as much for development of U. P. tourism as any other agency and probably more. What its community development specialists working on the Pictured Rocks Lakeshore report had to say comes from an old friend who has labored long and hard and with little result at times to upgrade U. P. hosting of visitors.

"Tourism, like mining, forestry and agriculture, is resource based," the report states. "It differs from the other industries, however, in that it has been expanding nationally as a source of employment. While there have been tourism enterprises in the region throughout the past century, its most rapid expansion has taken place in the post-World War II period.

"Since 1958, the Upper Peninsula tourism industry has suffered stagnation or even decline; in the meantime, national trends continue up. This appears due, in a large measure, to the predominantly exploitative character of the Upper Peninsula tourism industry; the area has been so richly endowed with natural attractions that it has only been necessary to 'mine' the tourists who come. In this respect tourism has a quality akin to mining and earlier logging in the region.

"The industry consists mainly of isolated businesses providing lodging, food and automobile services. There is relatively little attention by private operators to providing attractions and vacation services.

## Peninsula Perambulator

The 1916 No. 6 Baldwin locomotive, used as a switch engine by National Container Corp. at Ontonagon prior to the closing of its mill, has found its mark in history. The Hulse Ontonagon Mill Division of Hoerner Boxes, Inc., believed the historical value of the engine should be preserved, so it was moved from its graveyard-like position in a remote corner of the yard to a place of recognition under the flag on the property. The history of the engine, although not confirmed by authentic material, has been gathered from persons who have worked with the engine or are well acquainted with its operations. "Old 6" was purchased by Foster & Latimer Logging Co. at Mellen, Wis., in 1926 and early in the 1930's was taken to Marquette when the company moved into the Upper Peninsula. At that time the company changed its name to Northern Logging Co.

George Sanregret, son of Mr. and Mrs. Emile O. Sanregret of Houghton, has been appointed chief administrator of Los Altos, Calif.

Last week the Gogebic Range held the snow championship of the United States with a fall of 20 inches. The snow followed a period of unusually mild weather during which many residents of the area reported flowers coming into bloom. Now comes Mrs. John B. Peterson of the Town of Kimball, of U. S. 2 on the Wisconsin side of the border, to report that two red roses in her yard are in bud, ready to open, and a pansy also is flowering.

Soon after the Yalmer Mattila Contracting Co. began excavating of the rock on the new Houghton post office site, its workmen began extracting ore containing small flecks of copper from the area. More recently, workers have discovered chunks of mass copper and report that the metal apparently becomes more extensive with depth. The red metal is being retained as evidence of the region's native ore.

## From The Journal Files

### 60 Years Ago

**—Marquette—**  
The new township proposed for the northern part of Marquette County, to embrace the northern parts of the townships of Michigamme, Champion, Ishpeming and Marquette, will, it is believed, meet with no serious opposition from members of the board of supervisors. Several of their number in attendance at the session Wednesday inquired about the project, and wondered if the matter would be called to the attention of the board at this week's session. It was not broached, however, those chiefly interested in its success not yet having the matter in form for presentation to the supervisors.

**—Ishpeming—**  
The work of installing the heating plant at the city building is about completed. Cement floors will be laid in the basement, the last thing to be done this season. Work will be resumed in the spring, when a compartment will be fitted up with public baths and the other plans carried out. The remodeling of

### 30 Years Ago

**—Marquette—**  
Loading of iron ore at the LS&I dock at Presque Isle and the South Shore dock near the foot of Baraga Ave. has been hampered by the weather during the past few days and loading of boats for lower lake ports has been slow work. Although the LS&I expects to close its season today, the South Shore will continue shipping ore the rest of this week.

More than \$3,130,000 of federal grant highway construction projects will be under contract by Nov. 24, and on that date bids will be opened for 13 additional projects estimated to cost \$449,500. It was announced by State Highway Commissioner Murray D. Van Wagener today.

**—Ishpeming—**  
The Oliver Iron Mining Co. this season shipped 8,496,727 gross tons of iron ore from

"Along with emergence, in the latter 1950's, of aggressive programs of tourism development and promotion by a number of competing regions, the Upper Peninsula permitted its regional advertising program to lapse. This combination of factors — weak attempts at providing a vacation service, a period of suspension of regional advertising and aggressive development promotion by competing regions — has cost the Upper Peninsula a serious loss in its popular image as a vacation destination.

"There are positive factors; among them are ski developments, boat trips and mine and factory tours. In addition, area advertising has been resumed. But, to date, these have not had sufficient impact to overcome the ground lost to competing regions.

"Alger County (site of the lakeshore) tourist expenditures have been as high as \$2.9 million in 1957 but dropped to \$1.3 million by 1961. The drop was part of a stagnation or decline across the entire region. This decline is confirmed not only by year to year estimates of total expenditures, but by traffic counts over the region, crossings at Mackinac Bridge and attendance at state parks.

"Decline in Upper Peninsula tourism occurred in spite of its rich endowment of varied recreational resources. The decline is also counter to a rise in national demand for recreation."

The study suggests that the pull of recreational visitors to the proposed national lakeshore at the Pictured Rocks will depend upon how much the U. P. develops its tourism image. If it remains passive, the study expects the park to build up an income for the region of \$2.9 million in 10 years, but if the U. P. gets on the stick tourist-wise it could be double that, including the income from employment in the park itself, which would be the job-equivalent of 27 full time employees, according to the study.

The lakeshore would help substantially to attract tourists to the U. P., but as even its proponents say, it is only part of a picture that should be painted to realize the Peninsula's potential for tourism income.

## Editor's Mail

(Contributions are invited. Letters should be limited to less than 300 words. Only signed letters will be considered for publication. Personal attacks on individuals will be eliminated.)

### TVA Proposal

Dear Sir:  
Sen. Barry Goldwater's suggestion that TVA be operated by private capital and pay taxes the same as competing power companies should not be taken lightly by residents of the U. P.

Your editorial of Nov. 18 entitled "TVA's Okay" should evoke comment from those in Michigan, and especially the Upper Peninsula, who are concerned with the loss of industry and jobs to the industrialized South as a result of factories built near TVA to take advantage of its cheap power.

While TVA was originally constructed to harness the vast potential of water power in the Tennessee Valley, it has long ago overreached its capacity. It has since expanded to construction of steam plants to serve industry flocking southward to utilize its subsidized power, which Northern taxes have helped build.

I would question whether Walker Ciesler of Detroit Edison, commenting on power needs to industrialize the U. P., intended to endorse another TVA for the Peninsula. His remarks, however, do serve to emphasize how our taxes are used to "steal" Michigan industry away from us.

I'll wager that, if Barry Goldwater's plan were followed, Michigan, and the U. P. in particular, would be in a much better position to attract and hold industry to revitalize our sagging economy.

### 60 Years Ago

the other portions of the building will not be undertaken until the library is moved into its new quarters. The improvements will include the building of a couple of vaults for the records of the board of public works and the municipal court.

W. P. Belden left Wednesday night on a business trip to Chicago.

### —Negaunee—

One of the important matters to come up at the December meeting of the council will be the consideration of plans for the improvement of the municipal lighting plant and pumping station. Mr. Davey of Oshkosh, who was here a short time ago inspecting the lighting plant, will present his report, making recommendations in regard to changes in the building and the new machinery required. He is engaged at the present in preparing the statement.

An attractive exhibit of the work of the pupils in drawing is on display in the windows of the Muck Building at the corner of Iron and Silver Sts.

### 30 Years Ago

its Lake Superior district mines, of which 51,953 tons came from the Section 16-Holmes Mine in Ishpeming, which recently resumed production for the winter months.

Dr. and Mrs. Laurence M. Gould will arrive in Ishpeming on Wednesday to spend a few days visiting at the home of Mr. and Mrs. H. S. Peterson. They will be accompanied here by J. Avery Peterson, a senior student at Carleton College, Northfield, Minn.

**—Negaunee—**  
The American Legion Auxiliary district meeting will be held here Saturday. Scheduled on the program is a 12:30 luncheon to be held at the Chocolate Shop.

The Negaunee Elks will hold another entertainment, the proceeds will be used for charity. It will take place Nov. 30 in the Adelphi Rink. The program will consist of a band concert, wrestling, boxing and dancing.

## 'At Least We Don't Publicize Our Flops Like The Americans Do'

## The National Whirligig News Behind The News

By ANDREW TULLY

WASHINGTON — When a Latin American country finds itself in financial trouble because of crooked politicians, the selfish rich and sheer national laziness, it still takes the ancient and easy way out. It blames the porcine American capitalist, whose dough is ruining the country.

No matter how many lofty speeches Argentina's President Arturo Illia makes about national sovereignty, he will not justify the cancellation of all foreign oil concessions, including eight American held contracts. Except, of course, on the grounds that Argentina covets the \$400 million invested by the foreign firms and wants to divide the spoils among the gang. Illia speaks of "fair compensation," but only an idiot would swallow that shallow drivel. On the record of past experiences with expropriation programs south of the border,

the oil companies will be lucky to wind up with 10 cents on the dollar.

### Just A Grab

It would be amusing to read Illia's words about the need for foreign capital if the situation did not reek of such gangsterism. He says Argentina will continue to welcome foreign investments "within the framework of Argentina's national interest and LAW." But there is nothing lawful about Illia's cancellation of those foreign oil contracts; he has appointed himself both judge and jury.

Illia's flimsy excuse is that the agreements, signed under the government of former President Arturo Frondizi, are illegal and contrary to the national interest. This does not impress Buenos Aires' great newspaper, La Prensa, which has had the refreshing audacity to suggest that the govern-

ment permit Argentine courts to rule on the validity of the cancellation. "Neither the nation nor its autonomous entities can take the law into its own hands," says La Prensa. "The state cannot be both judge and party" to the dispute.

President Kennedy has taken the stance of a man trying to understand a willful child in commenting on Illia's action. He notes that "we can't deny the sovereignty of a country to take action within its borders," while insisting on "equitable standards for compensating those whose property is taken away from them."

But the nut of the matter, as Kennedy acknowledged, is that Argentina has "staggering problems." And, like too many Latin American "republics," it has staggering problems because its politicians lack the confidence of a citizenry outraged by the footpad ethics of its leaders. The citizenry knows that the rich get away with paying little or no taxes, but since few Latin American politicians dare to tinker with this status quo, the only way they can placate the poor is to paint a picture of the Big Bad Foreign Capitalist and take steps to drive him from their shores.

### Illia's Little Joke

It is laughable for Illia to "welcome" future foreign investments. Most of the governments of South America are so unstable that capital seeks only a means to escape with part of its shirt. Fresh money is not going to venture into that snakepit when it sees capital being victimized by frantic politicians.

Illia and others of his kind remain on the same old treadmill, unable or unwilling to press for tax and other domestic reforms that would give their economies some stability. Neither the Alliance for Progress nor any other American helping hand can do that job for them.

(Bell-McClure Syndicate)

## The Amazing Ransohoff

By HAL BOYLE

NEW YORK — The latest golden boy in the entertainment producing field began with an aluminum touch. He helped work his way through college selling pots and pans from door to door.

"That was more valuable than anything I learned in class," Martin Ransohoff said. "It taught me the value of contacting people, to know what they think and want."

**Youngest Chief Executive**  
At 30, he became the youngest chief executive of any corporation listed on the American Stock Exchange.

Now at 35 Ransohoff, who is built like a balding bumblebee, is one of television's most successful producers and is buzzing his way to the top in motion pictures. As a third stringer in his bow, his firm also turns out commercial and documentary films.

**'Geared To Comedy'**  
To critics who regard Ransohoff as "the king of corn-belt comedy," it will come as little consolation that he is planning more network situation series on the same level of folk laughter.

"It doesn't make any sense

for our organization to diversify with serious dramas," he said. "We are geared to comedy."

**Thrives On Controversy**  
In the motion picture world, Ransohoff is mushrooming with equal rapidity.

He is engaged in a cross-country word battle with MGM studio heads over his wish to include a frontal shot of four live nudes. Such arguments leave the stubby little producer unperturbed. He thrives on controversy, and is more than a mite disdainful of criticism.

**His Theory**  
Son of a New Orleans coffee importer, Ransohoff adventured in food brokerage and automobile marketing and worked as a free lance writer in Europe before turning to producing.

He operates on the theory that the job of a producer is to find the actual entertainment market, then satisfy it.

**The First Question**  
If the people want pots and pans, he thinks it is pointless to try to sell them gold-plated bookends.

"Is there an audience? That's the first question to ask," he said. "If you lose sight of that, you're in big trouble."

## Side Glances

"I must say she has a strange taste in lamps. Not a single one is made out of something else!"

## The Two Europes - I

By WALTER LIPPMANN

In the past few weeks I have had a number of interesting talks with men on both sides of the Iron Curtain. I have been in Rome, Paris and London, in Budapest and Warsaw. I was interested, of course, in East-West relations and primarily in a better understanding of the present phase of the cold war.

Perhaps I should begin by admitting that like almost all travelers abroad I found much to confirm what I had thought before I started. In my case, it was that, while the conflict between East and West will not be settled in our time, there has recently been, nevertheless, a new turn in human affairs which is changing radically the conditions of that conflict.

### Revelation Against Thermo-nuclear War

The turn has been brought about, in the main, by the fact that the advent of the new generation coincides with the general revelation against thermo-nuclear war: the turn coincides, also, with a wide recognition that not only the advanced economies, but for the underdeveloped ones as well, traditional Marxism, traditional conservatism and traditional progressivism are all out-of-date. They are no longer adequate to point the way or sufficiently relevant to explain what is happening.

As a result, I may say in passing, much American political talk seems curiously bypassed, indeed provincial, when it is read in Europe today. And therefore, while Europeans still pay close attention to what the United States government does with its enormous power, they are no longer closely interested in our advice and our "leadership."

Early in my trip I asked a leading Catholic thinker, who is in Rome for the Vatican Council, why the Church with its irreconcilable opposition to communism was nevertheless promoting arrangements and accommodations with the Communist governments of Eastern Europe.

### Letting Light And Air In

His first answer was that in its pastoral function the Church could not cut itself off from the faithful no matter where they lived. Then he went on to say that the closer the human intercourse with the Western world, the better for the people in the Communist states. The West, he said, has every interest in opening up trade, cultural exchanges and travel. They let light and air into the closed societies.

I then asked, but are you not concerned that, vice versa, as Western influence increases with contact so will the influence of communism increase in contact with the masses of the people in the West?

"That is a risk," he said. "The answer to it is that the West will become less vulnerable insofar as it learns to strengthen its own beliefs by renewal, reform and modernization. There is no alternative to this. If the West does not make the effort, its order will break down regardless of Communist influence."

Here he was speaking, I think, the sovereign truth which is at the heart of things.

Later, after I had been to Budapest, where I saw Kadar and others, and to Warsaw, where I saw Gomulka and others, I went on to Paris. There I talked over what I had seen with some of the wise men.

### Very Tender About China

A French friend, whom I have known many years, was interested, but not surprised, when I told him that in Poland the official attitude, though formally pro-Soviet, was very tender about China. According to Mr. Gomulka, the Soviet difficulties with China are due entirely to the United States, which, by isolating and boycotting China, has driven the Chinese to nuclear weapons.

When my wife asked why the Soviet Union didn't supply the weapons to China, Mr. Gomulka replied that the Soviet Union was too much attached to peace to disseminate nuclear bombs. The United States, he insisted dogmatically, had produced the rift between Peking and Moscow which did nobody any good except the enemies of communism, and particularly the United States.

What I made out of this weird hodgepodge was that Poland was attempting to mediate in the quarrel, and that among other things the Poles want to preserve the influence of China, not only for Communist reasons, but for Polish reasons. For Mr. Gomulka himself is both a hard-shelled Communist and a passionate Pole: As such, he is forced to rely on Russia against Germany. Indeed, he professes to be certain that the United States has already begun giving nuclear weapons to West Germany. He is forced at the same time to rely on China against the overwhelming weight of Russia.

### Glaringly Unsuitable To Nuclear Age

The Frenchman agreed and then went on to say that the current Marxist leaders are confused in their thinking and have indeed lost their way. They revert easily to the old patterns of European power politics. The reason they have lost their way is that the Marxist ideology is glaringly unsuitable to the nuclear age.

Until the Russians had really learned about nuclear weapons by making them and testing them, they had continued to believe, as Stalin believed, in the orthodox Marxist view of war: There can be no war between Communist states; wars always begin in the rivalry of capitalist states; the class struggle in capitalist states causes war which will destroy capitalism and will usher in the triumph of communism.

But in the 1950's Khrushchev and his colleagues came to realize that in a nuclear war both sides would be irreparably injured, that there would be no real victors and that therefore in a third world war there would be no Stalin to occupy the ruins of a Hitler empire. So, nuclear war had to be avoided. Peace, or at least non-war, had become necessary and unavoidable, and in this realization the old foundations of Marxism were destroyed.

### Power Over Satellites Declining

The effect of the nuclear situation has been to begin dissolving the cement which holds together the Communist bloc. This does not mean that Poland, Hungary and the others are about to jump the fence. There are no signs of that. But it does mean that the power of Moscow over the satellites is declining, because almost everyone thinks that we are no longer on the brink of nuclear war, the authority of the big nuclear powers to coerce their allies has greatly diminished. Eastern Europe no longer feels entirely dependent on Moscow as Western Europe no longer feels entirely dependent on Washington.

For this reason, the governments of Poland and Hungary, and I should think of the other Eastern states as well, feel less constrained to take orders from the imperial center in Moscow. But at the same time, because they are less dependent on Moscow, they cannot use Moscow as an alibi for their own failures. They must pay for their own mistakes.

They have, therefore, to win the support of their own people. That they are trying to do this is evident in their economic policy, where capital investment no longer has that ruthless priority over private consumption which it had in Stalin's day. It appears also in the relations of Eastern Communist governments with the Church. For they dare not offend too much the mass of the people.

Thus the discipline of the cold war, the tension caused by the fear of war, is relaxed, relaxed in every village, and the Communist governments are aware of it.

(To Be Continued.)

Stanley-Lueske

(Photo by Lemon's Studio)

At an 11 a.m. Nuptial High Mass Saturday, Diane Stanley and Raymond Lueske were married in St. Peter's Cathedral.

The Right Rev. Nolan B. McKevitt performed the double ring ceremony before an altar decorated with two bouquets of white pompons.

Parents of the couple are Mr. and Mrs. George Stanley, 518 Fisher St., Marquette, and Mrs. Carl Lueske, Horton, Kan.

Escorted to the altar by her father, the bride wore a floor-length gown of French taffeta fashioned with a scooped neckline, traditional long tapered sleeves and a fitted bodice.

The cummerbund effect midriff, bodice and train of the gown were highlighted with appliques of crystal. Her controlled skirt, which fell into a chapel train, was pleated at the hip-line.

The bride wore a forward headpiece, also of French taffeta, which consisted of a cabbage rose with leaves of lace and seed pearls, from which fell a bouffant elbow-length veil of sheer French illusion tulle.

Mrs. Thomas Pengstadt, the bride's sister, was matron of honor, and Karen Bernard was bridesmaid. They wore royal blue brocaded sheaths with matching overskirts. Their cascade bouquets were made up of pink carnations and white pompons.

Journalism Students To Attend Convention

Eight students of the journalism class of Bishop Baraga Central High School are preparing for a trip to Chicago to attend the National Scholastic Press Association Convention Nov. 28, 29 and 30.

Sister Mary Romana, C.S.J., advisor for the school paper, the BarKet, said that the convention will enable the students to develop techniques in the various phases of publication.

She added that new sequences are being included in the schedule. Among them are "Freedom of High School Press" and "Newspaper Advertising."

Benjamin W. Allnut, who edited the textbook which is currently being used by the class at Baraga, will be a special guest and key speaker at the conference.

Students attending the convention are: Phyllis Garceau, editor; Jean Cummins, associate editor; David Becker, sports editor; Patricia Niemeyer, Julie Bourgeois, Joan Frazier, Ann Mulzer and Catherine Threthewey reporters. They will be accompanied by Sister Romana.

During the delegates' stay in Chicago, they will be accommodated at the Conrad Hilton Hotel. Tours of North and South Lake Shore Drive plus a night tour of Chicago and Chinatown are available to convention members to make their stay in Chicago enjoyable, stated Sister Romana.

Members of the journalism class with the help of other Baragans, held a car wash and being used by the class at Baraga, will be a special guest and key speaker at the conference.

For the past two years, Sister Romana reported, the BarKet has received first honors from the National Scholastic Press Association's critical service.

Lake Superior Cisco Large Food Resource

By MRS. INGRID BARTELLI

Consumer Marketing Information Agent, Michigan State University

There is no cause for anyone to be hungry — particularly if you enjoy eating fish. In the fall, Lake Superior cisco (lake herring) come in near shore in great numbers to spawn.

This enables our fishermen to harvest the heaviest tonnage of the year in spite of miserable weather and rough seas.

Perhaps it's because we can't see the forest for the trees or because we live so close to Lake Superior that we take it too much for granted. At any rate, many of us are not taking advantage of this tremendous food resource at our doorstep.

Quality In Fresh Fish As far as quality is concerned, we know that no other fresh waters are as clean, clear and cold as Superior. We can be sure of quality in fresh docked fish. For those of us who are familiar with cisco, we know it to be deliciously mild, sweet, delicately-flavored, fine-textured, white-colored fish. We know that fish meat is high quality, easily digested, complete protein food. And most important to pennywise shoppers, there probably is no other food that will give you good tasting, complete protein at such an economical advantage. Now is the time to buy cisco for storing for later use as well as for fresh eating.

If you haven't tried to freeze cisco fillets or pan-fried ciscos individually, you might like to try it. When freezing fillets, I spread them out on cookie sheets or racks till frozen (overnight). Then I wrap each one individually and package in a large tin or film bag. Then I can remove as few or as many individual pieces as I wish. For the times when I know my own family will be all I feed at a mealtime, I make up family-size packages.

But sometimes we'd rather have our fish baked or pan-fried so I dress some out pan-fried. I arrange some in a baking pan, just as if I were going to put them in the oven; only I freeze them instead. When the fish are frozen, I remove the entire block, wrap it and store again in the freezer, all ready to be unwrapped later on and put back in the same pan and popped into the oven for baking.

Some folks, particularly if they are not sure that they have moisture and vapor-proof wrapping paper, prefer to freeze fish in water. Then they wrap up the frozen blocks of iced fish for storage.

Simple As Possible No matter what procedure you use, try to make it as simple as possible to get that fish from the freezer and into the pan for cooking. Fish should not be thawed before they are cooked. Begin cooking from the frozen state in order to keep all the valuable juices in the fish and to keep the finished product firm, tender and still moist. This is why it works so well to freeze in the cooking pan or freeze individual pieces.

After the fish is frozen, it will keep well for at least three months and longer, depending on the temperature of your freezer, the quality of the wrapping paper and your skill in packaging. There should be no freezer burn nor oxidation with proper packaging.

Loses One-Third Of Weight What it will cost to fill your freezer with cisco depends on how much of the preparation you will do yourself. You can buy fish in the round—just as it comes from the lake from 10 to 15 cents a pound at most fishing ports. By the time you get the fish dressed and scaled, you will have lost about one-third of the weight, which will bring the cost of this excellent protein food from 15 to 20 cents a pound.

You can have the cleaning and dressing done for you. Pan-ready lake herring sell in the neighborhood of 30 to 40 cents a pound and fillets from 50 to 60 cents a pound.

Though the fishermen most often have fish at the dock, there are times when the weather doesn't permit setting or lifting nets. Better call your favorite fisherman to make sure of the best time to visit the dock if you want an unusually large quantity.

Favorite Method I'm sure each of you has your own favorite method of cooking cisco either the fresh or frozen. I know, too, that many of you can cisco for croquettes, sandwich filling, chowder, etc. later on. If you'd like some suggested recipes, we've collected some from some of the fishermen's wives that we'd be happy to send you. Write to Mrs. Ingrid Bartelli, MSU U.P. Extension Center, Box 719, Marquette.

Just as you do, I like to experiment with new ways of preparing food. I've heard so many people say what a delicious dressing they make for pan-fried cisco by adding some sugar and vinegar to the brown in the pan after the fish have been fried, heating it and pouring it over the fried fish. This led to our sweet-sour ciscos.

Take a cisco fillet, cut it in half lengthwise, making two long narrow strips. Soak these strips overnight in a marinade made of equal parts of brown sugar and vinegar, plus your favorite pickling spice or seasonings. When you're ready to cook them, intertwine the fillet with small canned potatoes, mushrooms or onions on a skewer. These then can be broiled (brush with fat occasionally), or pan-fried to make an attractive sweet-sour ciscolette that has a flavor somewhat similar to pickled herring. Sweet-sour ciscos are especially delicious when simmered in sour cream rather than broiling or frying. One more trick I've learned with these is that the fillet strips can be frozen right in the marinade so they're all ready to cook when they're thawed.

Small fry usually like colorful foods. So when you serve them a mound of cottage cheese, garnish it with a little finely grated carrot or a carrot curl.

Marietti-Myers

(Photo by Maki's Studio)

ISHPEMING — Dorothy Ann Marietti, daughter of Mr. and Mrs. John J. Marietti, Ishpeming, became the bride Saturday of David Paul Myers, son of Mrs. Charles Oxy, Michigamme, in St. Joseph's Catholic Church, Ishpeming.

The Rev. Clement J. LePine officiated before an altar adorned with white mums and pink carnations.

Given by her father in marriage, the bride was gowned in a floor-length lace over satin dress which featured long tapered sleeves, a stand up collar and a chapel train. A fabric cabbage rose headpiece secured her fingertip veil.

The bride carried a white prayer book topped with pink and yellow rosebuds and white carnations.

Mrs. Eugene L. Dellangelo, Mesick, sister of the bride, was her only attendant. She wore a fern green, winter satin dress and carried a single long-stemmed, pink rose.

Edward VanderZander, Munsing, attended the groom. Richard and John Marietti, brothers of the bride, seated the guests.

Sisters Sang Mass Sisters of the bride, Florence, Judy, Margaret and Edith, sang the "Regina Pacis" Mass, accompanied by Mrs. Thomas Gleason, cousin of the bride. "Pans Angelicus" was sung at the offertory of the Mass.

Mrs. Marietti wore a cranberry knit sheath for her daughter's wedding. The groom's mother chose a turquoise knit suit. The bride's maternal grandmother wore a blue print dress.

The St. Joseph's Ladies' Guild served a dinner at 12:30 in the church hall, which was followed by a reception for 300 guests at the Rendezvous in Ishpeming.

Mrs. Harry Gall, the bride's aunt, made the wedding cake. Mrs. Myers is a graduate of St. Paul's High School in Neegaunee. The groom attended Champion High School. He is employed at Hansen's Standard Service, Marquette.

The couple will reside at 230 E. Ridge St., Marquette. Out-of-town guests attended from Milwaukee, Champion, Michigamme, Neegaunee, Marquette, Gwinn, Munising and Elkhorh, Wis.

GS Meets Planned For Saturday

Mrs. Warren Smith, training chairman for Timberlane Girl Scout Council, announced today that there will be a songs and games workshop for all Girl Scout adults Saturday, from 2 to 4 p.m. in the multipurpose room of the Silver Creek School in Harvey.

Mrs. Duane (Marilyn) Phillips of Ishpeming will teach all types of games, including rhythm games, relays, quiet games and games which can be played when limited space is available.

Wide Experience Mrs. Phillips has had wide experience in this field. She is a second grade teacher in the Ishpeming Public Schools, but in the past she has been a physical education teacher, directed playground activities for the City of Ishpeming Recreation Department and directed Girl Scout day camp in Ishpeming last summer for Timberlane Girl Scout Council. Mrs. Phillips has a master's degree in physical education.

Songs will be taught by Mrs. Eugene Cole and Mrs. Russell Dausey. Emphasis will be on "Let's Sing Girl Scout Songs." Songs will be taught which are sung by Girl Scouts and Girl Guides all over the world.

"It is hoped that troop leaders and assistants will, after this workshop, be able to teach the girls in their troops, songs which will make them feel at home, wherever they may go in Girl Scouting," stated Mrs. Cole, Timberlane Council president and a volunteer trainer for the council. Mrs. Dausey is field service director of the council and has been training leaders.

'Program Idea Land' A "Program-Idea-land" will be included. Each person attending is being asked to bring with her a sample of something she has made from the new Girl Scout Handbooks that became available to Scouts and leaders last September. These ideas will be displayed during the hours of the workshop.

All interested Girl Scout adults in Timberlane Council have been invited to attend. Girl Scout adults throughout the Upper Peninsula from other councils and lone troop areas are not now covered by a council also have been invited.

Questions covering the day's program should be telephoned to either the Girl Scout office or to Mrs. Smith.

New 4-H Group Organizes In Trowbridge Park

Thirteen boys organized a new 4H Club at a meeting in the home of Mrs. Roland Bourdage of Trowbridge Park this week, with Mrs. Bourdage as their leader.

"Basic Conservation" was chosen for their project after previewing the available materials. "The Rangers" was the name chosen for this group.

The following officers were elected: President James Bourdage; vice president James Rose; treasurer, James Maki and secretary, Harold Fetterhoff.

Other members of the group are James Diedrick, Clay Peters, John Rearick, Roger Pleau, John Olli, Keith Lemire, Joey Beauchaine, Fred Branam and Danny Everson.

Paragraphs

The Bishop Baraga Madrigals will sponsor a party Saturday from 11:30 a. m. to 1:30 p. m. in St. Michael's kitchen and the Town and Country Hardware store. Orders may be phoned to CA 6-8488, 6-8590 and 6-7369.

Lines from Lou's by... Maggie

We see by the paper that the definition of a mink coat is something that comes from about 75 minks or one wolf!

And now that the federal government has come out as strictly against coats being offered as gifts to government officials' wives, I'm glad we are not working for the government!

(Ken just looked over some tax figures and claims we are so!) So far we have no one clamoring to give us minks, but we are not trying to keep the wolf away from our door, either!

But even stretching our imagination pretty far, we can't think of anyone planning to give us such a present.

On the other hand, we do have gifts at LOUS that will delight the heart of any woman, and so far there are NO restrictions; you may purchase as many as you want.

First and foremost is our wonder group of whites and lilac separates from Koret of California. Tops, bottoms and many combinations of units that make different ensembles at a moment's notice.

Lingerie is always a popular gift and now more so than ever. You name it; slips, half-slips, gowns, shorties, and the prettiest collection of robes that I ever did see. You'll fall in love with each and every one of them.

Start your Christmas shopping early, and start it at LOUS in the center of Marquette — Adv.

NMU Students Plan Thanksgiving Dance Tuesday

High on the social calendar of Northern Michigan University students is a Thanksgiving Dance which will be sponsored by the Business Club Tuesday.

The all-university dance will be held in the University Center from 8 to 11 p.m.

Music will be provided by the Hi-Tones of Marquette, a four-piece combo. Club leaders said profits of the dance will go to the Bay Cliff Health Camp.

Baraga Students To Take Part In Art Contest

Mrs. Howard Treado, art instructor at Bishop Baraga Central High School, announced today that talented art students may participate in the General Federation of Women's Club art contest by submitting a portfolio of three original pictures with original titles.

Three prizes will be offered to the seniors: First, \$1,000; second, \$750, and third, \$600. Each state winner will also receive a certificate of excellence.

Six half-scholarships for an eight-week summer art course at the National Music Camp at Interlochen, are an additional offer.

Entries must be received by the district art chairman no later than Jan. 31 and will be judged by a jury of experts in the field of art.

Nice for Sunday night supper: cold sliced veal with tomato aspic.

New Names In The News

MARTIN — A daughter, Stephanie Kaye, was born on Nov. 13 in the Munising Memorial Hospital to Mr. and Mrs. Wallace Martin, Marquette.

### Death Takes Mrs. Eldred In Hospital

ISHPEMING — Mrs. M. Stuart Eldred, 65, of 210 W. Barnum St., died in St. Luke's Hospital, Marquette, at 1:45 this morning. She had been a patient at the hospital since September.

Mrs. Eldred, the former Gladys Johnson, was born in Ishpeeming June 9, 1898, and was a lifelong resident of the city. She was a member of Bethany Lutheran Church.

Survivors are her husband; a son, Captain Marshall S. Eldred, Army Missile Base, Kansas City, Mo.; a daughter, Mrs. Robert (Suzanne) Lake of Minneapolis; six grandchildren, and three brothers, Walter Johnson of Ishpeeming, Elmer Johnson of Provo, Utah, and Elliott Johnson of Sun City, Fla.

Services will be held Saturday at 1:30 p. m. in the Fasselbender Funeral Home with the Rev. Eskil E. Bostrom officiating. Burial will be held in Ishpeeming Cemetery.

Friends may call at the funeral home beginning at 2 tomorrow afternoon.

### Specialty Shop Ups Crib Lead

NEGAUNEE — The Specialty Shop increased its lead over the runner-up Lady Elks to 463 points in Negaunee Women's Cribbage League play this week. The Knights of Columbus team is in third place and Gayle's Beauty Shop occupies fourth.

Individual high score honors were won by Connie Williams and Alice Jylha with a 1,210 match.

### Grange Re-Elects Brake As Lecturer

PORTLAND, Ore. — W. J. Brake of Lansing was re-elected lecturer of the National Grange at its 79th annual convention here.

### Boating, Skiing Pose Problem For Him

SEATTLE (AP) — G. L. Hollingsworth, 44, director of the Boeing Scientific Research Laboratories, has discovered neither boating nor skiing is an exact science.

A week ago a cast was removed from Hollingsworth's right arm, broken in a boating accident.

Sunday he broke the left one while skiing.

### Ex-L'Anse Resident Dies At 68

L'ANSE — Mrs. Julia Lofquist, 68, a former resident of L'Anse, died Wednesday morning in Highland Park, Mich., where she had resided the past two years with her daughter.

She was born in Pequaming Feb. 12, 1895, and resided there until 1930, when she moved to L'Anse. She was a member of the First Lutheran Church.

The former Julia G. Almli, she was married to John P. Lofquist Oct. 14, 1914, in Pequaming. He died in 1951.

Surviving are two daughters, Mrs. Byron (Gertrude) DeWitt of Highland Park and Mrs. Mason (Jean) Meyers of Centerville; three sons, Charles of L'Anse, Bruce of Aurora, Ill., and Duane of Milwaukee; a sister, Mrs. John (Anna) Picard of L'Anse; two brothers, Christian Almli and Albert Almli of L'Anse; nine grandchildren and several nieces and nephews.

The body will be brought to the Swanson Funeral Home, where friends may begin calling Friday afternoon.

Services will be held Saturday afternoon at 1:30 in the First Lutheran Church with the Rev. Waldemar Franstad officiating. Burial will be made in Evergreen Cemetery.

### Sports Group Meets Tonight

ISHPEMING — The Ishpeeming Sportsmen's Club will meet tonight at 7 in the Ishpeeming Armory.

Arthur Saviluo, director, said plans will be made for an annual party supper.

### L'Anse AL Chief Names Committees

L'ANSE — Committees to serve during 1964 have been appointed by Pat Ellico, commander of the L'Anse American Legion.

The list of committees follows (those listed first are chairmen):

- Americanism — Dave Goulet, John Harrington, Carl Nord.
- Child Welfare — Ken L. Berge, Dr. John Stroube, the Rev. L. Mills.
- Community Service — Bob Brownless, Elmer Kahl, Elmer Ellis.
- Education and Wilson Scholarship — Willis Olson, Robert Frederickson.
- Marksmanship — Ora Charleston, Lane Lyberg.
- Membership — Jack Peterson, Wes Ellis, Howard Almli, Ora Charleston, Harvey Lindahl, Pete Bobish.
- Publicity — Ed Jacoby, Pat Tembreull.
- Ritual Activities — Herb Manning, Arvid Hurlin.
- Un-American Activities — Robert Lundberg, Russ Miron, Eddie Sands.
- Veterans Employment — Pat Ellico, Ray Tembreull, Elmer Kahl.
- Sick and Welfare — Wes Ellis, Earl Fladeland, Robert Johnson.
- Wolverine Boys' State — Ted Groleau, Dr. H. J. Winkler, Edward Clements.
- Carnival — Cy Huot, Wes Ellis, Robert Brownlee, Richard Gauthier.
- Post Activities — W. C. Heitzler, William Foucault.
- House Committee — Jack Peterson, Joe Blood, Rod Elmblad, William St. George Jr.

### Solutions For Problems Facing Mineral Industry Cited At Tech Conference

HOUGHTON — Many problems face the hard rock minerals industry today, but solutions are available, too — it's just time for somebody to take the initiative.

This was a recurring theme on the Michigan Tech campus this week when representatives of government, industry, and education got together for a conference on mining and mineral engineering manpower, sponsored by Michigan Tech under auspices of President Kennedy's Office of Emergency Planning.

**Outlines Problems**

Dr. J. R. Van Pelt, president of the college, opened the conference by outlining some of the problems with which the industry is concerned. There are not enough men specifically trained in the mining industry, he said, and not enough students in mining, metallurgy and geology. In addition, the technologist is becoming more and more in demand for corporate executive positions: the question is, he said, "will he be ready?"

The remainder of the opening session was devoted to views in three directions: toward mineral demand, the profession and education.

Charles W. Merrill, Washington, D.C., assured an increasing long-range mineral demand. The chief of the U.S. Bureau of Mines Division of Minerals cited a way of life as proof.

**Expansion Assured**

"In an economy where structures, roads and machines are built largely of minerals," he said, "where the energy to heat the structures and drive the machines is largely from fossil mineral fuels, where agricultural fertility is maintained through the use of mineral fertilizers and where military strength is provided by armaments and munitions largely of mineral origin, it is clear that the overall demand for minerals is not only assured but is certain to expand for many years ahead."

A supporting note was added by J. K. Richardson of New York, vice president of the Copper Range Co. He pointed to the emerging nations of the world and their desire and need for a better standard of living which in turn will create more mineral demand.

Discussing the engineering profession, he said there is now, and always has been, a shortage of dependable people. "We know that Johnny Engineer can't read, write, spell or compose," he said, "but I assure you that Johnny Arts is equally deficient."

**Competition Noted**

Among other things, he said, the engineering profession and engineering schools need to compete harder for the top student talent. "Remember," he cautioned, "we are competing with Dr. Casey, the Public Defenders, Buck Rogers and Steve Canyon — these characters are part of today's world. The 'old timer' of Death Valley Days is mining's only TV representative, while the newspapers have recently been filled with mine disasters. Frankly, our image is not a highly competitive one."

Truman H. Kuhn, dean of the faculty at Colorado School of Mines, echoed this sentiment when he said prospective students must be made aware of the challenging and rewarding opportunities and the availability of employment, at good salaries, awaiting them in the mineral industries.

"It is necessary," he added, "that industry and education work together to present this favorable picture to junior and senior high school students, their parents and their counselors."

At a noon luncheon Frank Kerekes, dean of the Michigan Tech faculty, charged industry with the responsibility of talking the lead by providing financial support for graduate students at schools of engineer-

ing. "To accomplish anything," he said, "we have to act. I think we all know some of the things to do, we just need to do them."

**Basic Research Program**

Elmer O. Mattocks of New York, director of the Division of Science and Technology of American Petroleum Institute, discussed the API basic research program. The discussion was designed to provide a possible pattern for such a program in the hard rock minerals industry.

Both industries, Mattocks said, have a lot in common, and a lot of petroleum's problems have been solved by API-sponsored cooperative research.

"We outran our knowledge" during World War II, he said. The result was more emphasis on research, and today the API research budget is two million dollars.

John D. Boentje Jr., president of the Pittsburgh Pacific Co., Hibbing, Minn., was chairman of a panel on "Present Utilization and Future Function of Engineers."

O. E. Walli, principal of the Provincial Institute of Mining, Haileybury, Ontario, Canada, was chairman of a panel on "The Need and Training for Technicians and Technical Assistants in the Mineral Fields."

**Area Men On Panels**

Boentje's panelists were John Bley, White Pine Copper Co., White Pine; Burton H. Boyum, Cleveland-Cliffs Iron Co., Ishpeeming; Robert W. Braund, Jones & Laughlin Steel Corp., Negaunee; F. J. Haller, consulting engineer, Negaunee; H. Rush Speeden, Union Carbide Ore Co., New York; H. D. Stott, Calumet & Hecla, Calumet, and Robert W. Van Evers.

ing. "To accomplish anything," he said, "we have to act. I think we all know some of the things to do, we just need to do them."

Mining Congress Journal, Washington, D.C.

Walli's panelists were Ken C. Briegel, Minneapolis - Honeywell Regulator Co., Minneapolis; L. F. Engie, Calumet & Hecla, Calumet; Henry M. Hart, Pacific Isle Mining Co., Mountain Iron, Minn.; Ralph E. Magnuson Jr., Cleveland-Cliffs Iron Co., Ishpeeming; Richard R. Smith, M. A. Hanna Co., Channing; Michael P. Trainor, Morton Salt Co., Painesville, Ohio, and Karl O. Werwath, Milwaukee School of Engineering, Milwaukee.

The conference was attended by approximately 75 students, educators and professional men from 12 states, Washington, D.C., and Peru.

Eleven Negaunee High School French students yesterday heard a discussion on French provincial furniture by Thomas Wilkinson, manager of Lord's Outfitting Store. Pictured above with him (from left) are Joan Korpinen, student; Mrs. Chester Daumitz, instructor, and Darlene Gyles, student.—(Mining Journal photo.)

### Furniture Talk Heard By Students

NEGAUNEE — "French provincial furnishings are identified by the grooved decorations in the rounded lathes of furniture," Thomas Wilkinson, manager of Lord's Outfitting Store, Marquette, explained to a class of 11 Negaunee High School students Wednesday.

As an extension of a unit on the history of France, the second-year students of French attended the after-school lecture at the store.

Wilkinson added to the cultural aspect of the course, which emphasizes the influence

of French in the United States, by pointing out the use of fruit wood finish and matched graining veneers in various price ranges of living room, bedroom and dining room suites. The French provincial furniture stresses hand-carved knuckles, splattered veneer, rounded cushions and blenished brass.

Seniors attending the session were Phyllis Anderson, Robert Delongchamp, Joan Korpinen, Margaret Lyon and Connie Maki. Sophomores in the group included Ann Bogetto, Susan Delorenzi, Darlene Gyles, Jean Korpi, Betty Neste and Sherry Rasanen.

They were accompanied by their instructor, Mrs. Chester Daumitz.

Transportation to Marquette was provided through the courtesy of Mrs. V. Sigrid Anderson, Chester Daumitz, Miss Leona Delorenzi and LeRoy Process.

### Munising Chamber Backing 'Rocks' Lakeshore Proposal

MUNISING — Richard McLaughlin, president of the Munising Chamber of Commerce, announced today that a poll of the organization's members indicated overwhelming approval for the Pictured Rocks national lakeshore park proposal.

Four days after the letter of inquiry was mailed, 70 per cent of the cards had been returned. Of this total, only four were undecided, but all the rest were definitely for the park. Many added the comment that they not only favored the proposal, but were for it 100 per cent.

McLaughlin pointed out that since this legislative proposal has been submitted on three occasions, and each time revised and improved in an effort to satisfy all concerned, it has gained considerable support. The Munising chamber has held a public discussion and has requested a public hearing by the Senate committee on the park bill.

"The chamber feels that what is needed now is a continuing program of information on the proposal, as changes are suggested, and to publicize the highlights of the recently released economic survey covering Alger County," McLaughlin declared.

"Since this proposed legislation could have an important impact on the entire Upper Peninsula, primarily on the tourist industry, it is hoped that all U. P. organizations will take an active interest in promoting and publicizing the various phases of this activity. Naturally, Alger County stands to receive the first and most direct effects of such a park, but the Pictured Rocks national lakeshore area, along with the Big Bay project in Marquette County, the Copper County program and others, can put the U. P. before the eyes of the nation.

"Our most valuable asset in the U. P. is our scenic beauty and historical attractions, all within easy driving distance of the most populous area of the United States.

"Here again is urgent need for presenting a united front by the entire Upper Peninsula — for the good of all the Upper Peninsula."

### Six Fined, Five For Speeding

NEGAUNEE — Five drivers ticketed by local officers and one by state police for violations of the state motor vehicle code entered guilty pleas when they appeared before Judge William Haupt in Negaunee Municipal Court.

James Wilcox, Sawyer AFB; Thomas Swanson, Ishpeming, and Roland Wormwood, Brodhead, Wis., were arrested by Negaunee police for speeding. Each driver paid a \$5 fine, plus \$3.70 costs. Similar amounts were paid by David McDonnell of Ishpeming and Isaac Peaine of Munising, charged with violations of the basic speed law.

Francisca Ciriza, Sawyer AFB, who was ticketed by state police for traveling too fast for conditions, paid a \$5 fine and \$3.70 costs.

### Albion Man Enters Plea Of Innocent

JACKSON (AP) — Cecil LaRoe, 36, of Albion, pleaded innocent at his arraignment on a charge of murder in the slaying of 80-year-old William Behling of Albion.

Justice Gordon Britten set examination for Dec. 5.

### New Legion Building For Munising

Construction work is progressing on new corner of Superior and Lynn Sts. in Munising. American Legion building being erected at —(Mary Jayne's photos.)

### Conduct In High School PTA Topic

L'ANSE — "Guidelines for Student Conduct in High School" will be the topic of a panel discussion scheduled for tonight's meeting of the L'Anse Parent-Teacher Association.

The group will meet in room 300 of the high school from 7:30 until 9. Members of the panel will include Kathy Stroube, president of the student council; William Yeadon, varsity club representative; Mrs. Iris Johnson, secretary of the board of education; Robert W. Fredrickson, superintendent of schools, and Dr. Frederick Bevis, vice president of the PTA.

PTA president Richard A. Mollanen urges all parents to attend this important meeting and to take an active part in the program scheduled for this year. Refreshments will be served after the business meeting.

### Money To Speak At PTA Meeting

EBEN — A regular meeting of the Rock River Township Schools Parent-Teacher Association will be held in the multipurpose room of Eben Elementary School tonight. Following the business meeting, Prof. C. V. Money, head of Northern Michigan University's Department of Health, Physical Education and Recreation, will speak on "Physical Fitness."

### Freedom Of Education Not Given Negro, Pastor Says

NEGAUNEE — Freedom of education in America means freedom of education for the white man, the Rev. Norbert W. Smith, pastor of the First Methodist Church of Marquette, declared in an address given at the monthly meeting of the Lakeview Parent-Teacher Association.

A participant in the "Freedom March" held early this fall in Washington, D. C., the Rev. Mr. Smith pointed out that in America there is not real equality of education.

"In the South, the Negro has neither the facilities nor the quality of teacher that is provided for the white student," he stated.

"Even we in the North haven't treated the Indian with equality. Another problem for American educators is how to educate children of migrant workers, who are constantly on the move following the various harvests.

"We shouldn't be satisfied until there is real equality of opportunity for all classes of people, regardless of race or color."

The musical portion of the program consisted of two vocal solos by Eldred Hooper, "We Thank Thee" (Fitzgerald) and "The Builders" (Cadman). He was accompanied by Mrs. Joanne Liuha.

### Oberstar 4-H Club President

MUNISING — Twenty-eight members were enrolled in the Treenary Bachelors 4-H Club at a recent meeting. Persons volunteering to handle projects are Mrs. Audrey Wright, Mrs. Kay Williams, Mrs. Jeanne Oberstar, Mrs. Vernon Pischel, Donald Sandstrom, Donald Pelligrini and Donald Williams.

Officers elected were John Oberstar, president; Dale Williams, vice president; William Sischo, secretary; Bob Hallinen, treasurer; Randy Stine, recreation leader; David Hoy, news reporter; Tim Aho, song leader; Gary Mills, historian, and Jim Cayer, refreshment chairman.

Project leaders are Don Sandstrom, woodcraft; Audrey Wright, leathercraft; Don Williams, fly tying; Don Pelligrini, rocks and minerals; Jeanne Oberstar, hobbycraft, and Mrs. Pischel, clothing. Conservation, cooking, electricity and gun safety are other projects that will be worked on by the club as soon as leaders are found for them.

"This is a large club which will grow much larger because of parent-leader member desire for 4-H club work and learning by doing," John P. Campana, Alger County extension director, said.

### Tri-County Briefs

Alger . Baraga . Marquette

#### Ishpeming

Norman H. Johnson, son of Mr. and Mrs. Harold Johnson, 715 N. Second St., is serving aboard the U.S.S. Independence in the Mediterranean. His address is Norman H. Johnson, SFM3, R. Division, U.S.S. Independence, CVA-62, care of FPO, New York, N.Y.

Ishpeming Chapter, Women of the Moose, will have a fall bazaar in the Moose Lodge Friday, starting at noon. Handmade articles and baked goods will be sold. Madonna Coombe, Charlotte Valenti, Doris Larson and Alice Pepin, members of the publicity committee, will serve coffee and lunch during the afternoon and evening.

#### Chatham-Eben

Joseph T. O'Leary of Toledo, Ohio, has been visiting at the Reino Akkala home and at his cottage at Shelter Bay. He is a former resident of Chatham.

Toivo Kejonen of Detroit and his son of Pittsburgh have been visiting friends in Chatham.

#### Republic

The Camp Fire Council of Republic will meet in the home of Mrs. Audrey Hill at 2 this Sunday afternoon. Any person interested in assisting a Camp Fire group is invited.

#### Treenary

Mrs. Annie Josephson has left for Flint, where she will spend the winter at the homes of her sons, Richard and R. V. Williams.

Four-H leaders will meet in the school at 7:30 tonight.

Mr. and Mrs. Otto Adkins have returned to Flint after hunting in this area.

Members of the Home and School Service Club have voted to help finance the cost of costumes for the grade school Christmas play to be presented Thursday, Dec. 19.

The Methodist senior choir will present a Christmas concert at 7:30 Sunday night, Dec.

### Public Invited To WSCS Bazaar

GWINN — The annual Christmas bazaar sponsored by the Women's Society of Christian Service of the Gwinn Methodist Church will be held Saturday, beginning at 2 p. m., in Fellowship Hall.

Fancywork, home-baked goods, Christmas decorations and gifts will be on sale and there will be a fish pond for children. The MYF group will have home-made candy for sale. The public is invited.

#### 15. The youth choir and Sunday School program will take place at 7:30 p. m. Saturday, Dec. 21. A Christmas party for the Women's Society of Christmas Service has been set for 8 p. m. Thursday, Dec. 12.

A meeting of the First Lutheran Ladies' Guild Bible study group, conducted by Pastor Toivo Jarvinen, will be held at 8 next Monday night. Choir rehearsal will start at 7:15.

#### Gwinn

The Veterans of Foreign Wars will meet Sunday afternoon at 2 in their club in New Swanzey.

#### Palmer

Junior Girl Scouts of Palmer will hold a baked goods sale in Trehwella's IGA Store Saturday at 1 p. m.

**Now Available!**  
**NEW DUSK - TO - DAWN**  
**OUTDOOR SECURITY LIGHTING SERVICE**

For Home - Farm - Business - Industry  
**Only \$3.75 a Month!**

Now for just a few pennies a day you can banish those dark, dingy and unsafe nighttime conditions on your property. You can install a modern, efficient mercury-vapor light near your home, farm, or place of business — adding safety, beauty and prestige to your property.

Think of what this new Dusk-to-Dawn outdoor lighting unit will mean to you and your family or business. No more fears from prowlers, vandalism, or animals. No more worry about your property and possessions when you are away. Then too, you'll enjoy the added illumination for doing those after-hour chores.

There is no investment or down payment required, and the monthly flat rate covers all materials, plus installation when the light is installed on existing facilities of the Upper Peninsula Power Company.

**HERE'S WHAT YOU GET:**

- An efficient, modern street lighting fixture designed for urban and rural areas.
- Complete installation and all maintenance required, including replacement of burned out bulbs.
- Cost includes all electricity used during the operation of the light on your property.
- A built-in photoelectric cell turns the light on as it gets dark and turns it off next morning, automatically.

This Dusk - to - Dawn Lighting is also ideal for:  
Stores • Parking Lots • Motels • Gas Stations • Restaurants

**...THE NEWS IS OUT!...**  
New Timetable For Roasting TableRite Turkey

TableRite Turkey is as American and traditional as the American Constitution and Plymouth Rock. The news is out and good news it is! The roasting time for cooking turkey has been cut down considerably. Extensive research in the test kitchens of the Poultry & Egg National Board confirms this.

PURCHASED READY-TO-COOK WEIGHT	OVEN TEMPERATURE	INTERIOR TEMPERATURE	GUIDE TO TOTAL ROASTING TIME
6 to 8 lbs.	325° F.	185° F.	2-2½ hours
8 to 12 lbs.	325	185	2½-3 hours
12 to 16 lbs.	325	185	3-3½ hours
20 to 24 lbs.	325	185	4½-5½ hours
Turkeys roasted in foil take less time, but in a hotter oven			
6 to 8 lbs.	450° F.	185° F.	1½-2 hours
8 to 12 lbs.	450	185	2-2½ hours
12 to 16 lbs.	450	185	2½-3 hours
16 to 20 lbs.	450	185	3-3½ hours
20 to 24 lbs.	450	185	3½-4 hours

Wise Homemakers buy TableRite and plan to start bird 20 to 30 minutes ahead of schedule to avoid possible delay. Allow time for turkey to set, make gravy and arrange attractively on platter.

...and a Happy Thanksgiving from your IGA!

# Albeck's Strategy Illustrated In NMU Intrasquad Battle

The 1963-64 Northern Michigan University basketball team's strategy of taking as many shots as possible within the framework of reasonable possibilities, and demonstrates nicely Albeck's stress on wasting no time on patterns.

**Fast Pace**  
In Albeck's way of playing basketball, the pace is not frantic, but it rarely slows to a walk, and there is very little time for consideration of opportunities for the offensive squad.

**Value Seen**  
The value of Albeck's view of winning basketball strategy can be seen by a look at the figures. The losing team shot 84 times, hitting on 42 attempts for a 50 per cent average which for most teams would spell victory.

**Trophy For Class B Team Given**

**WILLOW RUN (AP)**—Michigan's mythical Class B football championship team will be able to display a trophy designating this honor, thanks to the efforts of a Ypsilanti organization.

**Other Trophy**  
Class A teams are eligible for the Glenn MacDonald trophy which has been awarded for the past three years.

**Pistons Win One To Snap Loss Streak, 124-118**

**(By the Associated Press)**  
The Philadelphia 76ers, who set the National Basketball Association on fire since the franchise was shifted to the Coach City, Philadelphia, on Wednesday, snapped a losing streak by beating the New York Knicks in the Eastern Division.

**Turned Tables**  
Beaten in two previous games by the Knicks, the 76ers turned the tables on the New Yorkers Wednesday night, 118-101, as Lee Shaffer and Hal Greer combined for 54 points.

**LeClerc Performance Earns Him NFL Honor**

**CHICAGO (AP)**—The Chicago Bear's Roger LeClerc, who missed his only field goal try in college, was left almost speechless today by his selection as the Associated Press' National League Player of the Week for his booming prowess against the Green Bay Packers.

**Three Hours Weekly**  
LeClerc practices about three hours a week with defensive back Herb Adderley on a kickoff return which led to a 27-yard touchdown run by Willie Gahm.

**Albeck's Strategy Illustrated In NMU Intrasquad Battle**

**Wildcats, had a little trouble with co-ordination and finding the range, but appeared to be suffering from nothing that work and more playing experience won't cure.**

**Double Figures**  
Five of the members of the Green squad, including Armstead, shot in double figures, while four of the Whites put out double-digit performances, good evidence that Northern will not have to depend solely on Armstead for their scoring.

**White Team**

**Comets Win First Game At Perkins**

**PERKINS**—The Trenary Comets opened their 1963-64 roundball season with a blistering defeat of the Perkins quintet, 74-57, a win based on the top scoring of Roy Aho and Wayne Lusardi.

**Lead Short-Lived**  
Perkins ran up a six-point lead before the Comets could get their own scoring under way, but by the midway point in the first period, Lusardi, a 5-foot-8 junior, and 5-11 senior Aho had begun to spark the Comets, and they took the lead for keeps, increasing the margin throughout the game.

**MSU Favored Over Illini**

**EAST LANSING (AP)**—Touchdown sprinter Sherrn Lewis and the solid Spartan defense make Michigan State the favorite to beat Illinois at the Saturday showdown for the Big Ten title and Rose Bowl bid.

**Michigan State One Of Five To Get Awards**

**NEW YORK (AP)**—Michigan State and four other college football teams were named Wednesday as finalists for the 1963 MacArthur Bowl awarded annually for outstanding performance against top flight competition.

**Wings Lose Lead, Game**

**(By the Associated Press)**  
There's no ice like home for the Detroit Red Wings. And one of the best things about their home ice is that it doesn't have Bobby Hull on it all the time.

**Ralston Beats Down-Under Ace To Raise Hopes**

**ADELAIDE, Australia (AP)**—Dennis Ralston of Bakersfield, Calif., raised the Davis Cup hopes of the United States Thursday when he defeated Australian ace Roy Emerson in the semifinals of the South Australian Tennis Championships.

**TORONTO TEAM COMPLETES**

**TORONTO (AP)**—A six-man contingent from the Toronto Olympic Club will compete in the United States 10,000-meter cross-country junior championship at Chicago Saturday, Coach Paul Poo announced Wednesday.

**Wings Lose Lead, Game**

**CHICAGO (AP)**—The Detroit Red Wings, who were leading the Chicago Blackhawks 2-0 after 12 minutes, but then Hull went to work and tied the score with his 13th and 14th goals of the season. The Black Hawks went on to a 5-2 victory.

## All Of One Mind

The Navy backfield, despite a tough schedule, is of one mind — beat Army. Left to right are Granville Ames, All-American quarterback candidate Roger Stauback, Pat Donnelly and John Sai. The service game will be played in Philadelphia Nov. 30, and has a strong bearing on bowl bids for Navy. Texas will be looking closely at this match, for out of it may come its opponent in the Cotton Bowl. (NEA Telephoto.)

## Hopalong Returns To Detroit Squad

**DETROIT (AP)**—Old professional football players don't fade away. They just wait on the other side of that hill they supposedly went over for an SOS from a problem-plagued team.

**Howard (Hopalong) Cassidy** is the latest example. Released by the Philadelphia Eagles before the current season began, the 29-year-old Cassidy is returning to the National Football League with his first club—the Detroit Lions.

**Another Retread**  
Perry is another retread still seeing action while bouncing in and out of the NFL. He's back with the San Francisco 49ers, the club he broke in with. Perry spent some time with Baltimore before returning to the 49ers.

**Comets Win First Game At Perkins**

**PERKINS**—The Trenary Comets opened their 1963-64 roundball season with a blistering defeat of the Perkins quintet, 74-57, a win based on the top scoring of Roy Aho and Wayne Lusardi.

**TORONTO TEAM COMPLETES**

**TORONTO (AP)**—A six-man contingent from the Toronto Olympic Club will compete in the United States 10,000-meter cross-country junior championship at Chicago Saturday, Coach Paul Poo announced Wednesday.

## Wilson Named Player Of Week For Cool Passes

**NEW YORK (AP)**—Eddie Wilson, a bench warmer who never started a game until Hank Stram shook up his Kansas City club, was named The Associated Press' Player of the Week in the American Football League.

**Wilson took over when Stram** benched Len Dawson Sunday at Boston in a desperate attempt to shake the Chiefs out of their losing spin. They didn't lose, but they didn't win either, winding up with a 24-24 tie. It was the first time they hadn't lost in their last six games.

**Another Retread**  
Perry is another retread still seeing action while bouncing in and out of the NFL. He's back with the San Francisco 49ers, the club he broke in with. Perry spent some time with Baltimore before returning to the 49ers.

# Illinois Will Have Problems With MSU Team

**(By the Associated Press)**  
If statistics are an accurate gauge, Illinois is going to have its problems in its game against Michigan State Saturday for the Big Ten title and Rose Bowl bid.

**Figures compiled by the National Collegiate Athletic Bureau** disclosed today that the Spartans have one of the best defensive teams in the country, particularly against teams that move the ball on the ground.

**Rushing happens to be Illinois'** favorite mode of attack. Although Mississippi is the national leader in total defense, having yielded only an average of 138.4 yards a game, Michigan State is fourth in the list and ranks No. 1 in rushing defense.

**The Spartans have permitted** an average of only 71.3 yards a game on the ground. They have

permitted less than two yards—1.9 yards to be exact—on every rush, as an average.

**Although fourth in total defense** behind Mississippi, Southern Mississippi and Memphis State, the Michigan Staters with 171.5 yards yielded per game, have the best record among teams that play a completely major schedule.

**Stingy With Points**  
The Spartans also have been stingy with points—permitting only 6.3 points a game. They're fourth nationally in this category.

**Mississippi is the team leader** in defense against scoring, with a .9 points a game given up, as well as over-all defense. Texas Western has the best pass defense, giving up only 40.1 yards a game through the air.

## MIAA Selections:

# Two Michigan Schools Place 4 Men On Team

**KALAMAZOO (AP)**—Hope and Kalamazoo Colleges, which shared the MIAA championship with Albion, each placed four players on the MIAA All-Conference football team.

**The all-star team, announced** here Wednesday, features an 11-man attack unit and 13 players on defense.

**Another Retread**  
Perry is another retread still seeing action while bouncing in and out of the NFL. He's back with the San Francisco 49ers, the club he broke in with. Perry spent some time with Baltimore before returning to the 49ers.

**Comets Win First Game At Perkins**

**PERKINS**—The Trenary Comets opened their 1963-64 roundball season with a blistering defeat of the Perkins quintet, 74-57, a win based on the top scoring of Roy Aho and Wayne Lusardi.

**MSU Favored Over Illini**

**EAST LANSING (AP)**—Touchdown sprinter Sherrn Lewis and the solid Spartan defense make Michigan State the favorite to beat Illinois at the Saturday showdown for the Big Ten title and Rose Bowl bid.

**Michigan State One Of Five To Get Awards**

**NEW YORK (AP)**—Michigan State and four other college football teams were named Wednesday as finalists for the 1963 MacArthur Bowl awarded annually for outstanding performance against top flight competition.

**Wings Lose Lead, Game**

**(By the Associated Press)**  
There's no ice like home for the Detroit Red Wings. And one of the best things about their home ice is that it doesn't have Bobby Hull on it all the time.

**Ralston Beats Down-Under Ace To Raise Hopes**

**ADELAIDE, Australia (AP)**—Dennis Ralston of Bakersfield, Calif., raised the Davis Cup hopes of the United States Thursday when he defeated Australian ace Roy Emerson in the semifinals of the South Australian Tennis Championships.

**TORONTO TEAM COMPLETES**

**TORONTO (AP)**—A six-man contingent from the Toronto Olympic Club will compete in the United States 10,000-meter cross-country junior championship at Chicago Saturday, Coach Paul Poo announced Wednesday.

## Hornets Have 1st Conference Game Tomorrow

**L'ANSE**—The L'Anse basketball team will play its first conference game of the season on the home court tomorrow night when they meet the Lake Linden White Kids at 8. The junior varsity squads of the two schools will tangle in a 6:30 preliminary battle.

**In last week's season opener,** the Hornets dropped a non-conference game to Even by a 67-29 score. The junior varsity partially vindicated L'Anse with a 53-37 win over the Even juniors.

**Lake Linden got off to a** roaring start by knocking over Ontonagon, last year's title holder, in a close 49-48 game. Coach William Popp and his Hornets have been working hard all week in hopes of halting Lake Linden and taking their first conference game.

## Bump Says Squad In Top Shape

**ANN ARBOR (AP)**—The word from Michigan Coach Bump Elliott Wednesday was that his football squad "is in good shape" for its traditional meeting here Saturday with Ohio State.

**The Wolverines practiced** in the rain in their last heavy workout of the season. Elliott said he would go with the same lineup he used in the last two games.

## Our new, free Research Bulletin tells How you may cut your 1963 capital gains taxes now!

**Also lists over 200 selected stocks for tax switches—reviews proposed tax law**

**Now may be the time to review your holdings with the twin objective of 1) realizing tax savings, and 2) improving your investment position.**

**Our new research bulletin** presents a detailed discussion of what moves you may wish to make now for 1963 capital gains tax savings. It lists over 200 specific securities for purchase or sale. To help you upgrade your holdings, this informative bulletin recommends a large number of stocks which Paine, Webber analysts feel are currently attractive for reinvestment of released funds. Selections cover all major industry groups.

**This helpful bulletin** includes a guide to help you determine the tax status of your capital gains and losses. In addition, there's a discussion of the proposed new 1964 tax law... and how it may affect you.

**For your free copy of this tax saving research bulletin,** mail this advertisement today. It's a Paine, Webber exclusive.

### Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: My husband has been sick for a year. The doctor said he will last maybe another three months, four at the most. I want to know if it would be proper for me to wear a large black picture hat with a wide brim and a black sheer veil over it for his funeral. My friend says veils are worn with only small hats, but I am a large woman and don't look good in small hats. Also, could I wear a black tailored suit with a green and blue flowered blouse, or must I wear all black? If I wear all black would it be all right to wear one large piece of costume jewelry?

DEAR ABBY: Joe and I were married in 1958 by a justice of the peace because it was all we could afford at the time. The first two years we had two babies. Neither of us was grown up enough to accept the responsibilities of marriage, so it ended in divorce shortly after the second baby came. I went home to my parents. We have been divorced nearly three years and in that time we have both matured a lot. We've been seeing each other, and have decided to try marriage again. I want a church wedding with a white gown and veil, Abby. I know this is not done for second marriages, but I think my case is the exception because there has never been another man in my life except Joe. And this, to me, is really

like our first marriage. Please say it's all right.

STARS IN MY EYES  
DEAR STARS: White wedding gowns and veils are traditional for first marriages only. But if your clergyman is willing to perform such a ceremony, I say go ahead and have it, and may God bless this union.

DEAR ABBY: How should a mother-in-law treat her ex-daughter-in-law? My son married a lovely girl. We grew very fond of one another and a truly good friendship followed. Then their marriage went sour. I can't turn off my feelings like a spigot for this girl. My son thinks I am being disloyal to him because I haven't dropped her like a hot potato. Their children are still my grandchildren. Am I wrong?

MOTHER-IN-LAW  
DEAR MOTHER-IN-LAW: Probably not. Your friendships are your own and not subject to your son's and not subject to your son's veto. But if your son has remarried, an excessive show of affection for his former wife could make things awkward. Your son is wrong. Keep your friendship, but don't flaunt it.

What's on your mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3365, Beverly Hills, Calif.
