## GERMAN WEDGE CRUMBLING BEFORE ALLIES' RESISTANCE

### AMERICAN TROOPS TO ENTER FRAY WITH FRENCH AND BRITISH ARMIES

Paris, March 31.—The battle of attacking according to news, reaches the Paris late tonight. The attacks of the Germans have been less violent and less numerous today and it has been observed that the enemy is feverishly digging himself in, particularly in the neighborhood of Lassigny. The general impression is that the situation is most satisfactory.

With the British Army in France, Mar 31.—Sunday morning the British were holding the whole of the line up with strength. They had smashed numerous heavy German attacks at various points and successfully taken the initiative on various sectors.

London, March 31.—The Germans were quiescent north of the Somme on Sunday, their attacks not being resumed against the British front. Field Marshal Haig reports from headquarters this evening. There was considerable fighting, however, south of the Somme.

The text of the report reads:

"North of the Somme the enemy did not renew his attack today. Some heavy machine shelling, however, has taken place on different parts of this front. We secured a few prisoners and machine guns in local fighting."

South of the Somme a hostile attack developed in considerable force about midday south of the main Peronne-Arras road. Fighting continued in and between the valley of the Luce and the Avre, where possession of tactical features, woods and villages are at present being contested."

March 30.—All the American troops have been turned over to the allies for such use as they see fit to make of them. American troops will soon be fighting side by side with their British and French allies in the battle which is raging in northern France.

It is enough to say that great quantities of many sorts of munitions in the entire American zone. Miles of motor trucks, loaded with Americans have passed through the town, some going in one direction, some in another. Through a driving rain the motor trucks plowed their way along muddy roads, the Americans standing. Many of the trucks had American flags fastened to their tail boards.

On other roads, mile after mile of marching Americans splashed through the mud, which came over their ankles. The horses were steaming from the work they had to do. All the men are working as hard as possible, with the realization that they are to be of service in the common cause and used in the present conflict.

**Lyric Theatre.**  
 Mary Pickford's next appearance in an arena play will be an adaptation by Frances Marion of "Amarilly of Clothes Line Alley" from the novel by Belle K. Marquette. This is said to be the funniest play ever written in "America's Sweetheart" has ever appeared in, but while the story consists principally of amusing incidents it is full of simple, homely philosophy and endeavors to show that people can be enviers of Clothes Line Alley can never mix happily with the upper stratum of society.

The famous star's last appearance on the screen was in a dual role in "The Sign of the Cross," which secured a sensational triumph. "Amarilly of Clothes Line Alley," which will be the attraction at the Lyric theatre on Friday, April 5, is expected to duplicate this success, as the scenario is by the same author, and the production was directed by Marshall Neilan, the same combination responsible for "Stella Maris."

**Advice of Chief Gaurin.**  
 Now is the time to clean your chimneys. This advice is given by Fire Chief Gaurin, who gives this advice because of the danger from sparks that fall onto roofs from burning chimneys after the spring sun dries on the shingles and starts flying sparks, which catches the sparks in this time that every citizen should be careful and have stoves and chimneys thoroughly cleaned out. Many roof fires are started in the spring and sometimes the damage is large—not only with the fire but with water. When the warm sun starts to shine upon the shingles, there starts a growth of moss, so fine that the naked eye can hardly detect it. This moss easily takes fire when a spark alights on it.

**MEATLESS DAYS ARE SUSPENDED**  
 Washington, March 29.—Food Head Hoover tonight announced a complete suspension of "Meatless Days" for a period of 30 days.

Announcing the suspension Mr. Hoover issued the following statement:

**Period Thirty Days.**  
 "I am making the state administrators to suspend the meatless days for the next 30 days. It is very much overdue to suspend the meatless days due to supplies jammed back during the winter months, our shortage still continues, and seems likely to persist for 30 days. At this period the serious shortage in marketing has set in."

"It is a matter of record that the extent of our domestic storage capacity is limited overseas to not permit of saving and moving the whole

of this temporary and abnormal supplies to the Allies for use when this heavy killing season has passed.

**Save on Breadstuffs.**  
 "On the other hand the larger and cheaper supplies of potatoes and the larger supplies of milk, together with these further relieved restrictions, on meat so that some portion is available each day, should facilitate the enlarged saving of breadstuffs which we need so badly for overseas."

"I am confident that this holiday will not be taken advantage of by the producers to ask more than a fair price and fair profits and that packers and retailers will have sense enough to realize this is not to be a holiday of high prices."

**French Operas.**  
 The earliest operas in France were composed by Lully at the end of the seventeenth century and Rameau at the beginning of the eighteenth century, but they were little more than imitations of the Italian style. The basis of the French opera was laid by Gluck in the latter half of the eighteenth century. Meyerbeer, Rossini, Gounod and Thomas represent the most popular of the successors of Gluck, with the more modern Massenet and Carpentier.

Marquette—Four recruits were accepted for the Polish army Thursday and Friday by Recruiting Officer Doan, and sent to Milwaukee last evening. Since the office was opened here, twenty-two days ago, fifty-two recruits have enlisted. All except three were accepted by the Milwaukee office and sent to training camps.

Marquette—An automobile accident in France caused the death of Captain G. C. Pemberton, one of the most popular officers of the 10th Engineers, which includes the Michigan battalion according to word received yesterday from Major Vallin by Mrs. Pemberton, in Calumet.

Manistique—J. M. Brougher, New Orleans, employed by the "Omaha Beef Co." who with his wife were visiting relatives at South St. Marie, and enroute to Chicago, became suddenly ill while on the train. Dr. Nelson was called while they arrived at Manistique, and upon order of Judge Edmund Ashford was taken to a hospital. His condition is much improved, and it is expected he will leave for Chicago tonight.

Manistique—Work at the "Pulp & Paper mill" is progressing rapidly. The rock excavation is finished and work

on the foundations have risen above high water mark. Some of the machinery is being installed and from this line on the progress of the work will be more apparent.
