

GLADSTONE HAS LOW DEATH RATE FOR YEAR

The Delta Tanager was again won on Gladstone during the month of November, only two deaths occurring in the month last closed, which is way below the average. The total number of deaths up to and including November was 14, or nearly five per month. With a larger population this year, still the death rate is much lower.

BOARD OF EDUCATION AT MEETING LAST NIGHT DECIDES TO GIVE BUCKEYE SCHOOL

The board of education met last night in regular monthly session and practically the whole evening was consumed in talking over the need of additional rooms for the ever growing school population. Gladstone is acknowledged to be the growing factor in the population than any other city in the peninsula of about the same size and something has to be done to relieve the congestion in the four school buildings in the city. The erection of a new school building is being pushed for the lower grades, was finally decided upon last night and the new school house will be built next summer and be ready for use in the opening of school next year. It is now in the smaller children's building in that part of the city having way to go to the school in the winter months it is quite a hardship on their little bodies, some of them being almost numb when they reach the Central school. A building perhaps two or three times will be built north of the school building the need of more school buildings was apparent from the fact that the Catholics purchased the Harvard Inn and took the pupils out of the public schools, the need was temporarily relieved, but since that time the population has increased to such an extent that at present every schoolroom in the city is crowded and in some overcrowded.

INSTALLATION SERVICE TUESDAY NIGHT

An installation service was conducted Tuesday evening at the Presbyterian Church, Rev. John Quinn of Ann Arbor, Superintendent of Home Missions of the Synod of Michigan, Rev. Harry Taylor, pastor of the church, presided and preached the sermon. The charge to the people was unable to be heard and in his absence, Mr. Quinn also performed this part of the ceremony.

REMARKABLE RECORD DURING BIG GAME HUNT; BUT 15 ARE KILLED WHILE HUNTING

Lansing, Mich.—While only four hunters lost their lives in the quest of big game in Michigan during the 1919 deer hunting season which closed at midnight Sunday, a mark far below that of any other recent year, the toll of human life in hunting accidents was unusually heavy, no less than 16 having died and 21 being wounded.

RESIDENTS PASSED AWAY TUESDAY AFTERNOON

The Nygaard, an old resident of this city for many years, died at his home at 1025½ Tuesday afternoon at 2 o'clock of pneumonia following a long illness with pneumonia. Deceased was born in Norway Sept. 25, 1852, was 67 years, 2 months and 10 days of age. The funeral was held on Thursday afternoon.

CHILDREN TOO POORLY CLAD

Chief of Police Danielson looked up several cases of truant school children yesterday and today. In practically all of these cases Mr. Danielson found that it was not so much a question of truancy as it was for the parents of the absent children providing them with suitable clothing. In some homes he found that the children did not have any shoes to wear, some had no underwear and in a few other instances he found the children huddled in bed to keep warm because of a lack of fuel.

The Child's Welfare Club has done much to relieve these conditions, but there are several more instances which help would be welcomed, says Mr. Danielson.

Henry Dotsch Second Delta Man Indicted

News of the indictment of a second Escanaba man by the federal grand jury at Grand Rapids, which investigated the campaign expenses of United States Senator Truman H. Newberry, reached Escanaba Tuesday when Henry C. Dotsch, at home, was notified by a deputy United States marshal at Marquette that his name was among the 120 men indicted on the long distance telephone. The arraignment was set for Monday morning, Dec. 8.

16 BEAVER PELTS.

Fifteen beaver pelts were taken to Escanaba by a trapper, who then sold the animals in the last several weeks in the vicinity of Conwell. The pelts are worth from \$10 to \$40, it is estimated.

FOR THE HUNTING DEER

The Light House Tender Hysciath, had some difficulty this morning in making her way through the ice. At present she is just opening the Power House. The Hysciath is a government boat, which is used at this time of the year in examining Light Houses. The ice in the Little Bay de Noque is about three or four inches thick now, and if the weather continues to be cold, and snowy like the past few days, there will be a several more inches. Perhaps the Hysciath will have to leave on rubber.

STATE HEALTH COMMISSIONER RECOMMENDS OBSERVANCE OF CHRISTMAS SEAL DAYS

Lansing, Mich., Dec. 2.—Dr. Richard M. Olin, state health commissioner, today issued the following statement to the people of the state of Michigan: The Tuberculosis Association has requested Michigan to join the rest of the nation in observing Dec. 6 and 7 of this year as Christmas Seal Day for the observance of the year for the syndromes, and December 7 for the churches. As commissioner of Health of Michigan, I most heartily endorse this request of the National Tuberculosis Association, and recommend that all schools, synagogues and churches in the state observe the day of their appointed dates.

"FIRE" KILLED 6900 MICHIGAN 1918

Deaths in Michigan during the year 1918, 6250 of which occurred during the months of October, November and December, showed a decrease of 442 deaths, December shows an increase over November, but 524 less than for the month of October. January 1919 shows 1556 deaths and February 991 deaths.

OCTOBER LEADS OTHER MONTHS WITH 2462 DEATHS, 1366 DIED IN JANUARY.

Influenza was responsible for 6300 deaths in Michigan during the year 1918, 6250 of which occurred during the months of October, November and December, showed a decrease of 442 deaths, December shows an increase over November, but 524 less than for the month of October. January 1919 shows 1556 deaths and February 991 deaths.

RAIL PROFIT IS NINE MILLIONS FOR OCTOBER

Washington—Railroads under federal control made a net profit of \$11,900,000 in October, although estimated losses showed only \$2,000,000, the railroad administration announced today. This \$9,900,000 discrepancy, the administration explained, was due to the re-instatement of per diem charges on freight cars and the cost strike which caused coal traffic to be held in transit. For the 10 months of this year the roads have shown a loss of \$28,719,115 but since July net gains have been reported.

SCHOOL SNOBBERY. The state superintendent of schools has inaugurated a campaign for the discouragement and abolishment of all social activities among school children as it takes time from their studies and makes for snobbishness in the schools.

More power to the superintendent and may his plan succeed. There is nothing more destructive of a girl's womanhood than to lend herself to class distinction in school or among school friends and nothing more crushing to a girl's ambition than to be snubbed.

There are thousands upon thousands of girls working in factories today who could they have persevered in school and have withstood the slings and arrows from those who considered themselves their betters, would have risen above the level on which they were born to the credit of themselves and benefit to society.

These are days in which school girls have little time to socialize. The demands upon the woman are increasing day by day. That means the woman of the future must know more and do more than the woman of today.

It means also that the girl of today should study harder and give less of herself to the follies of youth. Then there is the element of saving which must be reached by her. The state superintendent maintains, and we think rightly, that if the money spent on party dresses were invested in more useful essentials, there would be less of a hue and cry about the difficulties in making both ends meet.

But the fault does not lie with the poor. It lies with those families of means who vie with one another in dressing up their girls like Christmas trees every time there is the slightest occasion for a gathering. Mothers of poor girls are not to blame for doing their utmost in having their daughters keep up the pace. There is nothing closer to a mother's heart than the social happiness of her daughters.

More and more socializing in and out of school is interfering with the studies and standing of the pupils. It must stop and stop soon. If it keeps up it will be necessary either to reduce the requirements of regular school years or cannot afford to be away from home more than the present school hours require.

AN ANTI-RED BILL. A bill introduced in the senate by Senator Pollock on November 27 and referred to the committee on the judiciary is entitled "A bill to protect the property, processes and agencies of the Government of the United States from anarchy and Bolshevism."

The first section provides that those who "advocate, teach, incite, propose, aid, abet, encourage or advise," forcible overthrow, resistance to, or destruction of constitutional government in particular, in any way, shall be guilty of felony and punished by imprisonment not exceeding twenty years or by a fine not exceeding \$50,000, or both.

The second section deals with the teachers of the unlawful injury or destruction of private or public property or the taking of human life either as a general principle or in particular instances as a means of effecting political, industrial, social, or economic conditions, or for any other purpose.

The third section declares associations to bring about or to teach the bringing about of the governmental, social, industrial or economic changes by the unlawful use of physical injury to person or property or threats of such injury, are unlawful associations.

The fourth section provides a punishment of not more than ten years imprisonment, \$50,000 fine or both for officers and members of such associations. One might be inclined to say at first sight that the alternative of fine should not be provided.

Every foreign-born person who has become a naturalized citizen of the United States, or who has declared his intention to become such, who shall commit any of the acts forbidden by this Act, shall thereby forfeit his citizenship in the United States, and upon his conviction of any offense under this Act, all proceedings had in the matter of naturalization of such person shall be cancelled and become null and void, and he shall thereafter be ineligible for naturalization in the United States, and shall be subject to deportation as in the case of other aliens, as provided by law.

If this section were made law and rigidly enforced, it might cut down the foreign vote in the Fifth district of this state a good deal. The ninth and concluding section is also worth quoting in full. It is short but significant:

Any person who by the commission of an act prohibited by this Act, shall cause the death of any person, whether such death is brought about directly by the act of such person in the violation of this Act, or by any other person incited thereto by such person, or the commission of an act prohibited by this Act, shall be punishable by death.

There is little reason to doubt that this bill or some similar one will be made a law at the next session of congress. Before the deer hunting season opened it was predicted that there would be an unusual number of accidents this year because of the unusual number of hunters. This prediction has not been verified.

The days when the grocers used to advertise sugar for a dollar, were the days of the uncontrolled sugar trust when there was not any sugar board nor any attempt on the part of the government to dictate as to price, profit or distribution. The more consumers of every form of goods, the more the grocer is forced to supply the better the price.

Attorney General Palmer is now enlisting the aid of the women of the United States in the government campaign to reduce the high cost of living. It is the household of every form by who spend the greater part of the income, and the importance of educating women is national as well as domestic economics has been formally recognized in the decision to make a direct appeal for the full cooperation in the country-wide effort toward financial conservation.

The government points out that in wise spending and careful saving the best possible assistance will be given in solving the financial problems of the reconstruction period. Since high prices will prevail during this time there is a big demand for articles that are scarce because of reduced production due to war. The high cost of living can be brought down to the normal level by lessening demand as well as by increasing production.

Attention is directed to the possibility of curtailing the purchase of costly clothing. One way of saving dress is to discourage frequent changes of fashion. At a time when materials are most expensive, variations in modes make necessary the spending of much money that otherwise might be saved. A number of women's organizations have pledged themselves to cooperate in the campaign of 1919, which begins with the first week of January 17.

Ten commandments for the guidance of those who are trying to administer their incomes carefully have been formulated by the national committee appointed to conduct the thrift drive. They are:

- 1. Make a budget. 2. Keep an intelligent record of expenditures. 3. Have a bank account. 4. Carry life insurance.

5. Make a will. 6. Own your own home eventually. 7. Pay your bills promptly. 8. Invest in war savings stamps and bonds. 9. Share with others. Thrift will out benevolence is a doubtful blessing.

OTHER GOVERNMENT SECURITIES. 9. Spend less than you earn. 10. Share with others. Thrift will out benevolence is a doubtful blessing.

THE BIG Christmas Sale NOW IN FULL SWING A World of Good Toys and Other Suitable Gift Things for Young and Old—at The Fair Savings Bank

Every indication points to the fact that we are swinging into a greater Gift Giving Season than any of the preceding Christmas Seasons which have placed Escanaba's Big Store in the minds of all people living in this community as

THE BIG STORE OF THE NORTH COUNTRY

Never before have our stocks been so complete, so large, but even so we are sure that long before Christmas eve, in spite of every precaution we will have sold out many of the most wanted items. Just now we have a wonderful showing of sensible, practical gift things as well as new novelties suitable as gifts for men, women and children—in particular when it comes to things to wear our line has never been equaled.

Our line of Toys and Dolls is indeed complete. In toys we have confined ourselves to none but strong, substantial kinds that boys will appreciate. Dolls—when all are delivered, we expect to have the best line ever shown north of the big cities—French, Chesco, Slovakian, Japanese and American make.

We bought our goods early to assure prompt delivery—but at that find many an item back ordered—with delivery for Christmas uncertain. The popular impression that the bulk of toys were of foreign manufacture will be smashed to smithereens when one sees the wonderful things made by American toymakers—they are revelation in attractiveness, quality and variety.

You who live some distance away from Escanaba and this store should at once make a trip to town—yes, sooner the better. We know you will enjoy a visit to this wonderful "GIFT SHOP." But if for some reason or another you cannot come to town, you'll find it very convenient to order by mail. This list will be of great help to you in coming to a decision and help you to solve the problem of "WHAT SHALL I GIVE?"

One thing we want you to keep in mind—matter not if you want little or much—DON'T DELAY—GET BUSY

SHIFTY POLICY CAUSE OF TROUBLE WITH MEXICO

WILSON'S FAILURE TO STAND FOR AMERICAN RIGHTS IS HIND TO BUREAU FOR CRISIS.

Washington, D. C.—What is coming out of the Mexican complication arising out of the arrest and de-

tion of Consul Agent Jenkins, is something yet in the dark. This government, having demanded the release of Jenkins, cannot retreat from that position with dignity. The general feeling is that after a certain amount of parleying, the Mexican government will give way, although it is also widely recognized that there is danger of peace in such a controversy.

QUESTION CONTING LIABILITIES

FAMILY HISTORY WON'T BE SECRET AFTER CENSUS MEN FINISH.

When the census enumerators begin their canvass of the homes of Gladstone in January, they expect to be far from welcome visitors.

Among some of the questions of a personal nature which will be asked by the enumerators are: "Can you speak English?" "Are you single, married, widowed or divorced?" "What is your age?" "Are you the head of a family?" "Where do you work and just what do you do?"

The census bureau under the department of commerce pays, in the city, 3 cents, and in the country, 2 1/2 cents, for each name. Each farm tabulated brings 27 cents to the enumerator if he is working in the country and 10 cents if within city limits.

Age is another question every one will be asked. The man wants the truth about every woman's age, and in the case of people who refuse to answer questions or who give palpably false information, under the federal law, a jail sentence can be imposed.

Some of the questions every person must answer: "What is the number of your house?" "What is your surname, given name and middle initial?" "What is your relationship to your family?" "Are you a wife, father, husband or son, grandmother, daughter, mother, servant, grandson, granddaughter, niece, nephew, uncle, aunt?" "Do you own your home or rent it? Is it mortgaged?" "What is your sex? Color? race?" "In what year did you immigrate to the United States? Where were you born? Are you naturalized or an alien?" "Have you attended school since September, 1919?" "Can you read? Write?" "What is your mother tongue?" "Where were your parents born and what was their mother tongue?" "What is your trade or profession?"

First Liberty Loan Launched 129 Years Ago

America's first liberty loan was launched 129 years ago, in March, by Alexander Hamilton, the first secretary of the treasury, after a bitter fight in congress. The continental congress had incurred debts aggregating \$54,000,000 during the revolutionary war, while the various states of the new republic had obligations amounting to \$25,000,000 more. Of the national debt \$12,000,000 was owing abroad, and all the members were of one mind in paying that, but opinion was divided about paying notes held at home. The south had practically paid its own way through the war and it objected to being saddled with debts contracted by the north-west.

RATIFIERS SUFFRAGE. Bismarck, N. D.—The house of the North Dakota legislature, assembled in extraordinary session, voted on Monday to ratify the federal woman's suffrage amendment 102 to 6. The senate already had voted in favor of ratification, 45 to 5.

This Medicine Has Cured Thousands—It May Cure You. Mr. L. P. England, a reliable citizen of Spartanburg, S. C. makes the following statement: "About twelve years ago I suffered with a severe spell of malaria and afterward was much troubled with rheumatism. I tried many remedies recommended for the rheumatism but failed to get relief amounting to anything. I saw No. 40 For The Blood advertised and purchased a bottle and found to my regret that I have taken several bottles and am well of the rheumatism. I keep Number 40 in the house all the time as I do not wish to be without it." Number 40 is demanded in blood troubles from any cause, such as rheumatism, catarrh, constipation, stomach and liver troubles. Under its use, colds and skin diseases disappear, sores, ulcers and boils are cured and healed. Made by J. C. Mendonhall, Evansville, Ind., 40 years a druggist. Sold at Coburn's drug store.

SUMMER TOURISTS LOUD IN PRAISE

TESTIMONIALS RECEIVED FROM MOTOR ENTHUSIASTS OF VARIOUS PARTS OF COUNTRY

Marquette, Nov. 28.—Though upper Michigan is now in the grip of winter with the automobile season virtually

"Yes it's the beautiful PYREX ware"

"I use it because it is practical—one dish does the work of two. I bake and serve in the same dish for it looks well on my table."

at an end, echoes of the unusually heavy motor traffic through this region during the past summer are still apparent in the correspondence of the Upper Peninsula Development Bureau, as evidenced by a letter received yesterday by John A. Doelle, Secretary Manager of the Bureau, from G. A. Korchak, of Alexandria, Minn.

"I want to say that we had a most delightful two weeks' trip," writes Mr. Korchak. "We had no trouble of any kind and enjoyed every minute of the trip." Mr. Korchak's expressions are similar, for the most part, to the laudatory testimonials for Cleveland which Mr. Doelle has received during the summer from enthusiastic motor travelers various parts of the country.

It is just such expressions as this that have encouraged the Bureau to step out an advertising and publicity campaign for 1920 which we expect will surpass any previous efforts along that line," declared Mr. Doelle. "We are going after the motor traffic with a determination to break all records. This season's figure, 12,000, was a record breaker. We are not satisfied, and we don't want the people of Cleveland to be misled either. We don't want to be satisfied until the influx of motorists taxes the hotels and garages to the point where they call a halt—and then we won't feel satisfied until upper Michigan meets the demand with enough garages and hotels to accommodate the crowd."

Already contracts have been closed with a number of leading motor publications and road guides for advertising space. Among these are the Automobile Blue Book and Kings Guide (Red Book) of Chicago, and the C-I-B Route Guide, of Kansas City, Mo. The Blue Book contract is probably the largest single advertising transaction which the Bureau has figured in since its inception. It provides for a two year issue of next year's Blue Book instead of just these issues which pertain to the middle-western states, as heretofore.

Gainaday Washer Wringer Gain a Day in Every Week With a Gainaday

The Gainaday puts a new kind of day in every week by replacing the old-fashioned washday. It puts electricity to work—it washes the clothes and wrings them better than by hand and saves you money at the same time. It is a fact that the Gainaday will pay for itself. It not only "gains a day" for the modern housewife, but it "makes good" further by paying regular dividends.

ESCANABA T. M. Judon Buys First \$1,000 Worth Xmas Seals

The sale of Christmas seals started on Monday under the most encouraging auspices according to Mrs. Fred J. Judon, chairman of the committee. With characteristic generosity and enterprise, T. M. Judon got into the game early and purchased \$100 worth of seals.

With this spirit already in evidence, it is indicated that the sale of seals this year will be the largest in the history of the movement in this city. Members of the committee will make an unusual effort to break all records this year and it is believed they will accomplish that purpose.

The Spirit of Unrest

Reaction from the stress of war, the High Cost of Living, and the disturbed condition in industry throughout the world have combined to lower the morale of workers in many lines. In the factory, in the mill, the high degree of pep and enthusiasm is lacking and production lags.

We think the claim goes too broad that employees of the Bell System have been less affected by the spirit of unrest than the majority of other workers. Yet its effects have been felt and will continue to be felt until the world begins to swing back to normal.

U. S. DEVELOPMENT BUREAU SECRETARY OF AGRICULTURE BAIJOU BUSINESS MEN

The value and necessity of a development or commercial association in every community as affecting the development and expansion of that community, was forcibly brought out in an address before the business men of Gladstone Sunday afternoon by J. A. Doolittle, secretary-manager of the U. S. Federal Development Bureau.

The Bureau first reviewed the work of the Development Bureau for the past two years, pointed out its part in the development of Cleveland's stock interests, its tourist trade, and various other features. During the past few years over 1,000,000 head of sheep and 1,000,000 head of cattle have been processed in beef, wool, and other products.

Given Formal Installation. With formal ceremony Rev. H. W. Staver, past pastor of the First Presbyterian church, was formally installed Monday night at the church by Rev. F. A. Kiefer, of Moundville.

Midday Reported. A man whose name was not learned by the police was arrested here Sunday and charged with the robbery of a store at Escanaba. The victim was reported to have suffered a black eye and several bruises about the face, but as he left Sunday for the county jail, he did not report the matter to the police.

Yemenes Decide Not to Buy Army. Plans of the death of James Thompson, a veteran workman for the Escanaba Manufacturing company, in their case at Escanaba, Mich., was received here Sunday. Details were rather vague. It was stated that Mr. Thompson had suffered a fatal stroke of apoplexy. He has been an employee of the local company for more than ten years and had an extensive acquaintance among timber men in this vicinity.

FLYING SUGAR IS ASSURED FOR THE YEAR 1920. AVAILABLE SUPPLY WILL BE IN EXCESS OF NORMAL CONSUMPTION. WASHINGTON, D. C.—The sugar shortage will soon be a thing of history. The supply for next year for the United States will be 4,000,000 short tons, and the normal consumption is 4,150,000 tons.

Several recommendations were made for the improvement of the sugar industry. The president brought down the high cost of living. Among them were: (1) To reduce the price of sugar by increasing production; (2) To reduce the price of sugar by increasing production.

Real Estate Transfers. Charles H. Haber, Gladstone, has sold lots 11, 12 and 13 of block 3 of the Central avenue addition of Gladstone to Mrs. M. A. Johnson, of Gladstone. The Gladstone man died Sunday.

Increased Consumption. If the rate people have been eating sugar this year, the consumption for 1919 will be 85 pounds per capita, largest in the history of the nation. The fact that Europe will gobble up the sugar is unfounded, according to Dr. F. M. Surfont, chief statistician for the food administration. He explains that Europe's sugar is largely made up of its own supply of money, which nation are economizing on sugar.

Lazy Dollars

Dollars merely safe are not performing their natural function. They are not working. They are not doing the owner or the world any good.

Moreover, most hiding places thought to be safe are decidedly unsafe. Not only thieves, but fire or other unforeseen happenings may rob you of your wealth.

Saving is Using

Dollars saved are safer! And they are constantly working to earn more for you. They are constantly working for the good of the whole community.

Consider this. We pay you for saving. And while you are saving, your money is never out of reach. It is always ready for you and easy to get when you need it.

SHORT NEWS NOTES

John Mally Quite Ill.
John Mally, barber, is quite ill at his home on Wisconsin avenue. Today it was reported that his fever was at 102.

Chimney Fire.
A chimney fire at the home of Chas. Murray called out the chemical truck at 11 o'clock this morning. No damage was done.

Bought Home.
Mr. and Mrs. Ed. Olson have purchased the house at 1211 Delta avenue from R. C. Ostrander. The deal was made last week.

Brought Home Deer.
H. Kaupf and Merit Colby returned Sunday night from a two days hunting trip near Little Lake, each having filled their license with a fine deer.

Accepts Position.
Miss Evelyn Swanson has accepted the position of office girl at George Schwab's plumbing shop. Miss Germaine Sabornie, who formerly held the position, has gone to work in Escanaba.

In Holiday Attire.
Most of the Gladstone retail stores are already in their holiday attire and others are following daily. The displays of gift goods are very large notwithstanding the high prices of practically everything on the market. Some of the decorations are quite novel and doubtless will attract many shoppers to these particular stores. As money is quite flush, the merchants anticipate a brisk business from now until Christmas day. To they urge early buying as the stocks cannot be replaced once they are sold out because of the general shortage all over the country. Shop early and avoid disappointment, should be the slogan this year.

Move to Cadillac.
Rev. Isaac Hoven and family, formerly of this city, but for the past few years residing at Escanaba, left this morning for Cadillac, where Rev. Hoven will be pastor of a Swedish church in that city.

Undergoes Operation.
Mr. Hermans of the fire department was operated on today at the Laina hospital at Escanaba for a rupture. He is reported as getting on very satisfactorily despite the fact that he was operated on once before for the same trouble. At the last meeting of the council it was voted to donate \$50.00 toward the expense of the operation.

Funeral Held at Manistique.
The body of Edward Eaton, who died last week at Escanaba, was laid to rest Monday afternoon at Manistique. The cause of Mr. Eaton's death was heart trouble. Mr. and Mrs. Eli Eaton returned Monday night from Manistique.

Leave for the Old Country.
Mr. and Mrs. Olof Berg and their little son, of Vancouver, British Columbia, were in the city Monday and Tuesday on their way to Sweden, where they will visit relatives. Mrs. Berg is sister to Chief of Police Danielson, and the trip is being made on account of a notice of Mrs. Berg and Mr. Danielson, who is also accompanying the Bergs to Sweden. The little girl lost both her parents last year during the flu epidemic. She is only five years old and resides in Los Angeles. Since the death of her parents the little girl has been staying with friends until her aunt went to Los Angeles to get her.

Water is Safe.
Gladstone people can feel safe in drinking the city water, now, according to a report made by Supt. A. Radant. The water was unusually bad for a time, but it was thought that the

NEWS OF THE MOVIES

George M. Cohan, the famous actor-manager, playwright, composer of patriotic songs and all-around good fellow, is a millionaire whose genius has placed him in the very front ranks of professionals today. He is author of "Over There," which is being sung and whistled at die fronts in France as well as in every city, town and village in the country. He will be seen in his latest Artcraft picture, "Hit-the-Trail-Holiday," at the Lyric Theatre Friday night and a special entertainment is assured all who attend.

Can anything kill a young girl's first love. Surely, if anything could, Rose Peters' love would have died in the tortures she suffered in "From Headquarters," the Vitagraph feature.

VEAL ROAST

If you are puzzled over what to get for Sunday dinner, how would a nice veal roast or leg of veal appeal to you? We can also satisfy you if you prefer a beef or pork roast, for we handle nothing but choice meats of all kinds. Honest weight as prices that are right is the motto of this market.
