GLADSTONE, MICHIGAN, WEDNESDAY EVENING, DECEMBER 31, 1919.

MONDAYS AND THURSDAYS

FIFTEEN CENTS PER MONTH

WEDNESDAY

FOURTH YEAR. NO. 63.

## WOMEN SUMMONED

### GARDNER, OF THIS CITY, WAS SCALDED 2 WEEKS AND DIED LAST NIGHT.

Gardner, who accidentally fell into boiling water at the Coopers' and dyers' union, died at the St. Francis hospital, Grand Rapids, after a two week illness. He was 57 years of age. His death was the result of the accident which occurred on Christmas day. The accident was the worst of the year, and death finally relieved his suffering.

Gardner was born in Ontario thirty years ago. When just a boy he came to the states and made his home in Grand Rapids. He had lived at Flatrock and other places around here. Six years ago his family came to Gladstone to live here.

Gardner was a sorrow-stricken wife, he was survived by one son, Adrian, and two daughters, Julia, Martha, Rosanna and Anna, six years of age, and his mother, Mrs. M. Gardner. His wife, Mrs. Taylor, resides in Gladstone.

Funeral services will be held at 10 o'clock tomorrow at the home of Mrs. Taylor. Burial will be in the cemetery.

Funeral services will be held at 10 o'clock tomorrow at the home of Mrs. Taylor. Burial will be in the cemetery.

## WILL WELCOME THE NEW YEAR AT MIDNIGHT

With the passing of 1919 into history at 12 o'clock tonight, many parties and church festivities will be held as a farewell to the old year and a welcome to the new. Practically all of the local churches have arranged some kind of a program for the event. A New Year's ball by the Y. P. club at Eagles hall, is the feature in the amusement line. Tomorrow will be generally observed as a holiday and practically all lines of business will be suspended for the day. Special matinees will be held at the Lyric theatre and in the evening the Timberworkers will entertain with a big New Year's ball at the Opera house.

## ALEX MICHAEL GOES INSANE

### MAN HELD AT COUNTY JAIL IS COMMITTED TO NEWBERRY HOSPITAL.

Alexander Michael, who has been confined at the county jail for several months past on a charge of taking indecent liberties with a 14-year-old girl of this city, went violently insane Monday morning. He was examined by physicians the same day and it was decided to send him to the state hospital at Newberry with which institution he was taken yesterday morning. The crime with which Michael was charged is a revolting one. He signed an affidavit of his wrongdoing and a long term at Marquette state prison started him in the face. Constant brooding over the matter and the further fact that he was closely confined to the county jail, unbalanced his already weak mind and drove him insane. Michael's home was at Perkins, but he had made his home in Gladstone for several months prior to his arrest. His trial was to have come up at the January terms of the circuit court.

## SOCIETIES HOLDING CONVENTION TO DISCUSS PROBLEMS

Chicago, Ill., Dec. 29.—Legislation affecting labor and agriculture and national and industrial social problems were the order of the day of unrest, were before the convention of the Economic association and allied organizations which met here today. The convention of the American Association for Agricultural Legislation, the American Sociological Association, the National Education Association and American Association of University Instructors in Accounting opened in connection with the meeting of the economic association.

## Asks Benefits For Soldiers.

A bill introduced by Congressman Street of Kansas, which has been passed by the House and is pending in the Senate, provides that in the contract for converted insurance the insured may have the choice of having Government insurance (converted insurance) payable in one lump sum or in installments for thirty six months or more, instead of monthly payments extending over twenty years. The proposed legislation would allow the insured to include in such a policy, niece, brother-in-law, and a person who has stood in the relation of parent to the insured during a period of not less than 1 year. The present law restricts the class of beneficiaries to spouse, child, grandchild, parent, brother and sister. The proposed legislation would permit the Bureau of War Risk Insurance to carry out the wishes of many deceased soldiers who had named as their insurance beneficiaries those not permitted by the original law.

## CECILE VESTER HELD FOR THE BROWN MURDER

Chicago, Ill., Dec. 30.—Cecile Vestor, for whose arrest on a charge of murdering J. Stanley Brown at Mt. Clemens, Mich., a warrant was taken out yesterday, has been apprehended by reporters and will surrender to Mt. Clemens authorities some time today. The Herald-Examiner announced today Mrs. Vestor denied that she was implicated in the killing of Brown. She has been located in Kalamazoo.

## AUTOMOBILE OWNERS

Send your batteries to the Gladstone Auto Sales company for winter storage. We will care for them at a special rate. We will also care for your car during the winter. We will also care for your car during the winter. We will also care for your car during the winter.

In turning over a new leaf, be sure to lay a 1,000-pound weight on it, so it won't fly back.

## What Will He Write?

## DELTA RAISES FILL QUOTA IN BIG DRIVE

According to the final report forwarded to Detroit yesterday the Delta County Roosevelt Memorial Association barely succeeded in raising this county's quota of \$150,000. Chairman A. J. Young and Treasurer W. R. Smith yesterday forwarded to Detroit their final report with a draft for this county's quota. Every city and township in the county contributed to the \$150,000 total raised for the Roosevelt Memorial fund. The city of Gladstone and practically all of the townships raised their quota in the drive, with the city of Escanaba making far from a satisfactory showing. Escanaba with four times the population of Gladstone raised but approximately \$175,000 more for the fund than Gladstone. Escanaba's total contribution to the fund amounted to \$427,500 while Gladstone's total was \$480. Of the city of Gladstone's total, officers and employees of the Northwestern Cooperative & Lumber Company contributed \$220,000, making a record of which the company can be well proud. The Gladstone drive was piloted by Ex-Mayor J. T. Jones.

## WOMEN CHARGED WITH KILLING STANLEY BROWN

Representatives of the railroad Federation of Labor who had planned to confer with Director General Hines today relative to wage increases, decided at the last moment not to see the director general today. No reason for the postponement was given, nor did union officials indicate when they would ask for a conference.

## GOOD GRANDFATHER TWICE IN SAME DAY

Supervisor F. W. Good, of Nahma, was yesterday the recipient of what was probably the most valuable holiday gift to be received by a Delta county man. Mr. Good yesterday received a telegram announcing the birth of twins, a boy and a girl, to Mr. and Mrs. Earl Good of Detroit.

## WM. REYNOLDS, RAPID RIVER PIONEER, DEAD

William Reynolds, one of the pioneer residents of Rapid River, passed away at his home in that village Monday night after an illness of ten days. He had enjoyed unusually vigorous health until ten days ago, when he became ill. Complications resulting from advanced years quickly developed and death came at 8 o'clock Monday night. Mr. Reynolds was widely known throughout that section of Delta county and to all who knew him the announcement of his death will be received with genuine regret. He was 72 years of age and is survived by his wife, one son and one daughter. The surviving son and daughter are: Allan R. Reynolds, of Gladstone, and Miss Vera Reynolds, of Rapid River.

## RAILROAD UNION LEADERS MEET

Washington, Dec. 29.—While the joint congressional conference committee was discussing points of difference between the Cummins and each railroad reorganization bill today in an effort to reconcile minor antipathetic provisions of the Cummins measure, high railroad union officials were gathering to attend a conference called by Samuel Gompers to formulate a definite policy to be pursued with regard to the offensive labor clauses of the senate bill.

## DISCUSS ATTITUDE TO BE TAKEN TOWARD PROPOSED RAILROAD REORGANIZATION BILL

Washington, Dec. 29.—While the joint congressional conference committee was discussing points of difference between the Cummins and each railroad reorganization bill today in an effort to reconcile minor antipathetic provisions of the Cummins measure, high railroad union officials were gathering to attend a conference called by Samuel Gompers to formulate a definite policy to be pursued with regard to the offensive labor clauses of the senate bill.

## PRaises WEATHER IN UPPER PENINSULA

Marquette, Jan. 1.—Comparing his experience in Cleveland, since his arrival here last fall, with the existent serious weather conditions in his home state—Wyoming and expressing his confidence in the country as a sheep-raising region, James Barber, located near Kenton, Iron county, was backed up by the bankers. It is estimated that the Cleveland ranch, where the majority will start out again next year with more stock. As an example of this year's poor crop, Barber brought them to the Cleveland ranch. During the summer the steers averaged 175 pounds gain, yet when marketed, they brought only 10 cents a pound. It is plainly seen that the Cleveland ranch more than held its own in the estimation of the graziers and that the poor crop of the winter in no way reflects upon the land.

## WYOMING MAN WELL PLEASED WITH SHEEP BUSINESS IN IRON COUNTY.

Marquette, Jan. 1.—Comparing his experience in Cleveland, since his arrival here last fall, with the existent serious weather conditions in his home state—Wyoming and expressing his confidence in the country as a sheep-raising region, James Barber, located near Kenton, Iron county, was backed up by the bankers. It is estimated that the Cleveland ranch, where the majority will start out again next year with more stock. As an example of this year's poor crop, Barber brought them to the Cleveland ranch. It is plainly seen that the Cleveland ranch more than held its own in the estimation of the graziers and that the poor crop of the winter in no way reflects upon the land.

## FORMER CROWN PRINCE OBJECTS TO INCOME TAX

Washington, Dec. 29.—Representative bankers from over the country have been invited by the federal reserve board to meet in Washington, Jan. 5, to discuss the existing relation between the federal reserve bank and the "existing entangling alliance" between federal reserve bank income rates and the existing rate on deposits which resulted from war financing.

## BANKERS TO MEET SIXTH DAY OF JANUARY

Washington, Dec. 29.—Representative bankers from over the country have been invited by the federal reserve board to meet in Washington, Jan. 5, to discuss the existing relation between the federal reserve bank and the "existing entangling alliance" between federal reserve bank income rates and the existing rate on deposits which resulted from war financing.

## THE NEW RESOLUTION WILL BE SIMPLY THE SAME OLD RESOLVE BROKEN WITH SUCH FREQUENCY.

Washington, Dec. 29.—Representative bankers from over the country have been invited by the federal reserve board to meet in Washington, Jan. 5, to discuss the existing relation between the federal reserve bank and the "existing entangling alliance" between federal reserve bank income rates and the existing rate on deposits which resulted from war financing.

## TWO COUNTIES TAKE ACTION TO PROHIBIT DEER HUNTING

Both Menominee and Iron counties have taken action to prohibit the hunting of deer within their limits, the boards of supervisors voting to petition the Public Domain Commission to close these counties to deer hunters for a term of years.

The petition ask that hearings be had to determine if it is the wish of the majority of the people of the counties to have the counties closed, and such a hearing will be held during the early part of 1920 and as a result of their action may be taken.

The state game commissioner and his aids are strongly in favor of closing the deer season. Apparently the decision rests with the county boards, and unless public sentiment in the upper peninsula is guessed in correctly, action by the boards will probably result in no deer hunting in 1920.

## MARKET WAS A DISAPPOINTMENT

A review of the live stock situation in upper Michigan as a result of fall marketing of sheep and cattle grazed during the past season in the live stock region in the country, although Cleveland's new settlers, as far as the Cleveland range, have come from almost all the ranchers, particularly the sheep men, are clearly indicative that those who grazed their stock the last year are more than satisfied, and that the majority will start out again next year with more stock.

## GRAZERS IN UPPER PENINSULA DID NOT MAKE BIG PROFITS THIS YEAR.

As an example of this year's poor crop, Barber brought them to the Cleveland ranch. During the summer the steers averaged 175 pounds gain, yet when marketed, they brought only 10 cents a pound. It is plainly seen that the Cleveland ranch more than held its own in the estimation of the graziers and that the poor crop of the winter in no way reflects upon the land.

## TAKING CENSUS BEGINS JANUARY 2

LIST OF QUESTIONS TO BE ASKED TO WHICH ANSWERS ARE COMPULSORY.

According to an announcement received from the district supervisor of the U. S. census for this district, the enumerators will begin work January 2. The staff has about completed all the preliminaries and are ready for the actual work.

The count must include not only people, but horses, cattle, sheep and swine, together with the collection of an enormous amount of data. The census will embrace Guam, Samoa, and Canal Zone, but not the Philippines.

Many features. The census bureau is never wholly demobilized, and once in ten years it expands like a giant and performs a giant's task. The forces of workers who include 50,000 enumerators, 4,000 clerks and 400 supervisors. In the appointments to the service preference has been given to the veterans and widows of the war.

The census of 1920 will present several new features. In addition to the agricultural schedules it will show how many women farmers there are and the encumbrance on all farms. Another new provision is a schedule to ascertain the amount of land reclaimed by drainage.

The taking of the last federal census, in 1910, was begun on April 15. The census count was decided to start work the first of January, as a date better suited to ascertain the crop yield of the preceding season. It is expected that all places of 2,500 inhabitants will be canvassed within two weeks. What is known as the "hard count" will then begin and the statistics announcing the population of cities will follow.

The enumeration of the population during a census of the United States is always presents numerous difficulties, among them the apprehension on the part of the people, particularly those who are opposed to the census, that their answers to the enumerators' questions will cause increased taxation, legal entanglements, or other serious injuries to their welfare. In order to quiet such unfounded fears and at the same time acquaint all persons with the main questions to be asked in the census schedules the information below has been prepared which should help the farmers prepare for the questions to be asked during the census.

Enumeration Begins January 2d. The census is required every ten years by the constitution of the United States and by act of congress. The census is January 2, but the "census day" is January 1.

In cities the population enumerators will be completed in two weeks. The enumeration of farms will be completed within thirty days.

The contents of manufacturers' sales and quarries, oil, and gas wells, and forestry and forest products will, as a rule, be taken by special agents and by correspondence, and not by enumerators.

For Statistical Purposes Only. Census information can not be used for taxation, nor can it be used to harm any person or his property.

It has nothing whatever to do with the arrest, prosecution or punishment of any person for any violation of any law.

Questions Asked of All Persons. 1. Each person ten years of age and over will be asked whether he is able to read or write.

2. Each person will be asked his birthplace as well as the birthplace of father and mother.

3. If foreign born the date of coming to the United States will be asked, and, if naturalized, the date of becoming a citizen also mother tongue or native language.

4. Each head of a family will be asked whether his home is owned by him or rented. If owned, whether the home is mortgaged or free of debt.

5. Each person will be asked his occupation or profession or his work as an employer or employee or as working on his own account.

The answers to the above questions give valuable information to the government concerning the health, welfare and progress of the persons under its protection.

Questions Asked of Farmers. 1. Each occupant of a farm will be asked how many years, if any, he worked on a farm for wages; how many years, if any, he farmed as an owner.

2. Whether he (a) owns, or (b) rents, or (c) partly owns and partly rents his farm, or whether (d) he operates the farm for others as a manager or superintendent.

3. How many acres in his farm? Number of improved acres and number of woodland?

4. Total value of farm? Total value of buildings? Value of implements and machinery on farm?

5. Whether farm is mortgaged? If so (Continued on Last Page)

THE DELTA COUNTY REPORTER and the GLADSTONE DELTA. ISSUED SEMI-WEEKLY.

Published every Monday and Thursday evening at the Reporter Building, Ninth St., Gladstone, Michigan.

IS SOMETHING WRONG WITH THE MELTING POT?

The movement to Americanize the foreigner resident in this country has given the latter an opportunity of explaining why he does not identify himself with the country...

Now it is open to question whether these men have the moral right to remain aliens or to become citizens in this country, but until the law is changed they have the legal right.

It is not naturalization papers that convert an alien into an American. It is a change of heart, a feeling that this is the land of promise, the land in which he wishes to live, the land for which he would willingly die.

Foreigners know that there are vastly better opportunities for them in America than in any other country under the sun, yet they do not seem to assimilate.

They do not take any real interest in us. We do not see that they are immigrants are sent to farming districts, where they can do the work they have been accustomed to do for generations.

They do not take any real interest in us. We do not see that they are immigrants are sent to farming districts, where they can do the work they have been accustomed to do for generations.

PROPERTY.

Property existed before government and government in all its various forms has been evolved largely through an equitable manner the holding of property by individuals.

There is a school of political economy which teaches that the institution of private property is an evil, and a source of practically all crime and controversy and injustice both to the individuals and nations.

There were 5,957 births to the Department in having 2,000 in the State during the month of November, 1919. This number corresponds to an annual birth rate of 26.3 per 1,000...

PROHIBITION LOSSES IN NEW ZEALAND. Vancouver, B. C.—A cable to the Vancouver world Sydney, N. S. W., says the perfecting of a new poll figures give out the probability and give continuance a majority of 1,227. Nearly 20,000 "absent" votes were counted.

fact that the right side cannot exist without the wrong, failing to understand that the good things of life are as dependent upon private property as are the evil ones.

A conception of this sort may be worked out in such a way that the material injustice is done to individual property holders, but the theory is, in itself, historically wrong and when worked out in spirit it will be individual and discouraging to progress and industry, resulting always in decline in general prosperity and happiness not only for the property holder but for the man who has none.

Industry which makes it possible for the earth to support so many millions of inhabitants is based upon the institution of private property. Property rises from private initiative and enterprise in every sort of industry from the most primitive up to those two classes of persons to be found, those who accumulate property and those who do not.

There were 3,237 deaths reported to the Department of State as having occurred in the State of Michigan during the month of November, 1919.

By ages, there were 492 deaths of infants under one year of age; 178 deaths of children aged from four years, both inclusive, and 1,112 deaths of elderly persons, aged 65 years and over.

Important causes of death were as follows: Pulmonary tuberculosis, 167; other tuberculosis, 43; typhoid fever, 32; diphtheria and croup, 74; scarlet fever, 12; measles, 19; whooping cough, 15; pneumonia and bronchopneumonia, 228; diphtheria, enteritis and other, 86; meningitis, 22; influenza, 21; cancer, 230; violence, 242.

Among the deaths reported from violence were railway accidents, 10; street car, 24 and accidents in other modes of transportation, 10. Important causes noted above other than deaths from small pox: 1 from tetanus and 2 from poliomyelitis.

As compared with the month immediately preceding a slight increase is noted in the number of deaths returned from pulmonary tuberculosis, other tuberculosis, diphtheria and croup, and scarlet fever, measles, whooping cough, pneumonia and bronchopneumonia, and violence. A slight decrease is noted in the other important causes given.

Upon referring to the table of countries, we find that the greatest apparent mortality occurred in the county of Luce with a rate of 22.1 per 1,000 estimated population. Wayne county with a rate of 41.4 per 1,000 estimated population, shows the highest birth rate for the month. These rates, however, are subject to further analysis before definite conclusions should be drawn, as the population figures used for determining such rates are based on the 1910 census.

There were 5,957 births to the Department in having 2,000 in the State during the month of November, 1919. This number corresponds to an annual birth rate of 26.3 per 1,000 estimated population.

PROHIBITION LOSSES IN NEW ZEALAND. Vancouver, B. C.—A cable to the Vancouver world Sydney, N. S. W., says the perfecting of a new poll figures give out the probability and give continuance a majority of 1,227. Nearly 20,000 "absent" votes were counted.

YEARS MELEY LIFE'S CHAPTERS

Offer Opportunity for Each of Us to Write Therein a Record Better Than the Preceding.

THE coming year lies ahead like a white plain that sweeps from the roadside to the distant forest where the gray eagles are making tracks in the light snow.

A YEAR'S completeness is but a twelvemonth. Our human incompleteness covers many twelvemonths. The fortunate that each day brings means a new opportunity to live and learn.

ONE who loves only artificiality, who does not note the weakness of the world he has been set to rule, proves himself unworthy of his heritage, and is punished by bitter unrest.

THE coming year is indeed a great mystery, full of possibilities. What we have not watched and studied the other has not watched and studied the other.

HOW many of us are waiting for the opportunities of the coming year? With our eyes turned to the past, we are unprepared for the opportunities of the coming year.

WE are told that the first day of the New Year is an appropriate time to form good resolutions. But the New Year is a continuous day and there is a better time for such a task, and that time is today.

YOUTH is hit by car; No Bones Are Broken. Struck by the public utility service automobile at 2 o'clock Monday afternoon, Hubert Lahale, eleven-year-old son of Mr. and Mrs. J. H. Lahale, lives 300 Fourteenth street, was injured to the right knee and left arm.

VIOLIN, Student Loses Fingers Of Left Hand. Edwin Olson, son of Mr. and Mrs. Andrew Olson, 219 North Fifteenth street, lost two fingers of his left hand as the result of an accident while assisting his father in sawing some wood.

Apply New Year To You. May Every Day be the Sort of a Day You Want it to be. SID GOLDSTEIN IN GLADSTONE MICH.

POETS died in the trenches of Gallipoli and France, watching God's sunrise or the wispy clouds in the blue. British gentlemen come as a double shock to him as it not only means the loss of his fingers, but that he must now forego his greatest ambition—to become a fine violinist.

JOY that all can have. The joy of living is best found in the real success of life. Take away success and there's no joy in life to one alive to opportunities and responsibilities.

DAY means much to all. New Years suggest intimate personal views of self. The annual crop of good resolutions shows how near most people are to becoming radically better.

IF you leave it to the schoolboy New Year's day is what comes before he has to go back to school.

ESCANABA Youth is Hit by Car; No Bones Are Broken. Struck by the public utility service automobile at 2 o'clock Monday afternoon, Hubert Lahale, eleven-year-old son of Mr. and Mrs. J. H. Lahale, lives 300 Fourteenth street, was injured to the right knee and left arm.

VIOLIN, Student Loses Fingers Of Left Hand. Edwin Olson, son of Mr. and Mrs. Andrew Olson, 219 North Fifteenth street, lost two fingers of his left hand as the result of an accident while assisting his father in sawing some wood.

ESCANABA Barbers Elect Officers. The union barbers of Escanaba at their annual meeting held Monday evening, elected the following officers for the ensuing year: President, Ed. Jernstrom; Vice President, Frank Moody; Secretary-Treasurer, C. V. Colbath; Recording Secretary, Charles Freeman.

was getting well along in his work on the violin and had already rendered a number of solos for local entertainment. The accident came as a double shock to him as it not only means the loss of his fingers, but that he must now forego his greatest ambition—to become a fine violinist.

Man Slugged on Vacant Lot. Police Then Lose Courage. Robbers are seeking identity of two young men who slugged Fred Cryan, 24, who lives at 704 Seventeenth St., shortly after 8 o'clock Saturday night and then lost courage and ran away from the scene of the slugging without carrying out their apparent plan of robbery.

SHINGLE RIGHT ONCE WITH WHITE CEDAR SHINGLES and forget roofing troubles for good.

Manistique—While taking an armful of wood from the wood pile at the rear of his home on Manistique avenue, Ed Fyrel found the purse, containing a gold watch and several rings, which had been snatched from Mrs. Rosetta Haskins last week.

Do You Enjoy Your Meals? If you do not enjoy your meals your digestion is faulty. Eat moderately, especially of meats, masticate your food thoroughly. Let five hours elapse between meals and take one of Chamberlain's Tablets immediately after supper and you will soon find your meals to be a real pleasure.

"I'll Tell the World" says the Good Judge. The man who doesn't chew this class of tobacco is not getting real satisfaction out of his chewing.

Put Up In Two Styles. RIGHT CUT is a short-cut tobacco. W-B CUT is a long fine-cut tobacco. Weisman-Brown Company, 1107 Broadway, New York.

HEMLOCK HOME MADE SILO. It is not too early to think about that. Some people build this Silo because it costs less. Some build it because they can get the stock at once right from regular lumber yard stock.

Some people build this Silo because it costs less. Some build it because they can get the stock at once right from regular lumber yard stock; some because it is one of the very best Silos in existence (many say the very best).

Anyhow, all these reasons together make it certainly worth investigating and we want to present you with a fine book on the subject, and later if you decide to build it, we will supply free the plans and full instructions for building and rot proofing. Let us hear from you.

THE HEMLOCK MANUFACTURERS (of Wisconsin and Northern Michigan) Offices at Oshkosh, Wisconsin. We opened the first silo about "Old Faithful" HEMLOCK in the fall of '04. Get it from your LOCAL LUMBER DEALER.

Hours—9 to 12 a. m.; 2 to 4:30 p. m. Eyes tested for glasses. DR. WILLIAM ELLIOTT. Specialist in diseases of Eye, Ear, Nose and Throat. 308 Ludington, St. Escanaba, Mich.

CHAMBERLAIN'S TABLETS. These tablets are intended especially for indigestion and constipation. They tone up the stomach an enable it to reform its functions naturally.

 Poonbontas coal for furnace and cook stove use. C. W. Davis, phone 7.

**Old Soldier Testifies to Wonderful Merits Number 40 in Constipation, Stomach Trouble and Catarrh**  
 National Home, Wis., May 12, 1919.  
 "When I commenced taking Number 40 for the blood, I was suffering with chronic constipation of a good many years standing, which finally developed into stomach trouble which got so bad I was unable to eat anything that did not cause great suffering. I tried a good many doctors as well as everything I could hear of that was recommended for my complaint. I was also troubled with catarrh of long standing and I had dropped all swellings in my feet and ankles which the doctors said was caused by a weak heart. I had about given up hope of being much better when I saw an ad. of your No. 40 in a country newspaper and concluded to try it. I felt so much better after taking one bottle that I sent directly to you for three more bottles. I have taken about two and half bottles and while not feeling entirely well, I feel by continuing the use of 40, I will get to feel as well as I could reasonably expect for a man of my age. 75 years. I hardly know how to estimate the value of the benefit I have already received from the use of No. 40 and cheerfully recommend it to any one suffering as I was." Morris Law, Witness to signature, Nelson H. Pease, 49 is a combination of the best alternatives selected from the best prescriptions received and compounded by J. C. Mendenhall, Evansville, Ind., 19 years a druggist. Sold at Coburn's drug store.

**Catarrah Deafness Cannot Be Cured**  
 by local application, as they cannot reach the distant portion of the ear. There is only one way to cure catarrah deafness, and that is by a constitutional remedy. Catarrah Deafness is caused by an inflamed condition of the mucous membrane of the Eustachian Tube. The inflamed condition has a combined effect of producing deafness in the result. Unless the cause is removed and the inflamed portion of the mucous membrane is returned to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrah, which has an insidious condition of the mucous membrane. It is a catarrah which acts through the blood on the mucous surface of the system.  
 We will give One Hundred Dollars for any case of Catarrah Deafness that cannot be cured by Hall's Catarrh Medicine. Callular Test, All Druggists, Escanaba, Mich.  
 W. J. CHENEY & CO., Toledo, Oh.

**A Happy New Year**

to one and all. The past year has been a most prosperous one for us and we expect to make the future year before us equally as prosperous. Every day we will offer special inducements for you--it will pay you to trade with us. Start right--start now--and send us your orders.

 Morning service at—10:45.  
 Evening service at—7:30.  
 Young People's meeting at—7:00.  
 JOHN J. HULEEN, Pastor.

**GOSSIP ABOUT THE TREATY'S CHANGES**

**PROSPECT THAT COMPROMISE ACCEPTABLE TO TWO-THIRDS OF SENATORS FOLLOWS.**

Washington, Dec. 29.—Republican and democratic senators, working for a peace treaty compromise, centered their attention today on plan said to have been accepted by the mid-reservation republicans and by a number of democrats for ratification with three reservations in the Senate. The reservations approved by the senate majority at the last session.  
 The three changes, which some senators believe would make the reservations acceptable to two-thirds, deal with the preamble declaration that the ratification must be acquiesced in by the other powers, with article 10 and with shunting. The mid-group believes that Senator Lodge, the republican leader, will be willing to make these changes, and that Senator Hitchcock, leader of the democrats, also will be satisfied with them. It was said, however, that neither of the party heads in the senate had yet expressed a final opinion.  
 Under the new preamble suggested, the senate reservations would be regarded to the treaty unless specific objections were made within a limited time. The wording of the article 10 reservation would be changed so as to eliminate the language which President Wilson said he would regard as a rejection of the treaty and to substitute an affirmative declaration that the article's obligations are accepted with the understanding that future congresses shall be at liberty to decide questions of peace and war.  
 Although compromise talk on this and other modification plans continues among the senators remaining, there is no many absent war no concrete action is expected until the senate reassembles next Monday.  
 Splendid Cough Medicine.  
 "As I feel that every medicine should know that a splendid medicine Chamberlain's Cough Remedy is, I am only too pleased to relate my experience and only wish that I had known of its merits years ago," writes Mrs. Clara Ferguson of Gladstone, Mo. "I give it to my children when they show the slightest symptoms of being cold, and when I have a cough or cold on the lungs a very few doses will relieve me, and by taking it for a few days I soon get rid of the cold."

**About the County**  
 By B. P. PATTISON

In talking with several dairymen it appears that ground oats make up the grain ration for the cows. While oats are an excellent feed, the fact should be kept in mind that cows do much better where there is a variety of feeds in the ration. Better results would be secured if some of the oats were replaced by middlings and oil meal. Oil meal is a great conditioner and milk producer, and should be in the ration of every dairy cow. Feeding about one pound per day gives excellent results.

Mr. Floyd Frazier and son of Cornell Township had an exhibit of several entries of Suffolk hares at the International Stock Show in Chicago, and were fortunate enough to secure some of the prizes. To win a prize at the International is quite an accomplishment, and speaks well for the quality of stock owned by Mr. Frazier.

**Many a boy is still wearing the rubbers that he bought on us last winter. It will pay you to buy over Hippiace Rubbers for men as well as boys.**

**Sam Rosenblum**  
 Gladstone's Only Shoe Store.

dropped his hammer and got out his horn for phosphate. "Friend Laux never was very strong with his hammer, anyhow."

Mr. Jones, of Ensign, reports that an application of 200 pounds of 16 percent acid phosphate on an acre of ground that yielded 4 bushels of wheat last year, gave him a yield of 45 bushels of oats this year. Also the seeding on the fertilized acre showed a much better catch.

Quite a few farmers are interested in getting rid of their scrub cows and buying some good high grades. It is very probable that a carload will be brought into the county this month from Wisconsin. We wish it were possible to say that ten carloads would be purchased instead of one, but it seems we haven't quite reached that state yet—but it's coming. The woods will soon be gone and dairymen will afford the best winter employment. Start now to build up your herd.

**Should Be Quarantined.**  
 Many physicians believe that anyone who has a bad cold should be completely isolated to prevent other members of the family and associates from contracting the disease, as colds are about as catching as measles. One thing sure—the sooner one rides himself of a cold the less the danger, and you will look a good while before you find a better medicine than Chamberlain's Cough Remedy to aid you in curing a cold.
