GLADSTONE, MICH., THURSDAY EVENING, JUNE 3, 1920.

NOTICE TO THE PUBLIC!

At this time we deem it advisable to acquaint the general public with the conditions brought about by the Timber Workers' strike insofar as it involves our plant at Kipling.

The Timber Workers' Union had no legal or moral right to interfere with the operation of our plant. We are not engaged in the production of lumber of any kind. We operate a blast furnace and chemical plant, which has no connection with the lumber industry. It is true we have a mill for the mechanical production of cordwood, but even this will not be operated until late next year, if then, as we have large stocks of cordwood produced over two years ago which must first be consumed.

The men at our plants had no grievance. We were paying an average higher wage than any other plant in this vicinity, and are now and always have been perfectly willing to consider any reasonable demand on the part of our employes.

Furthermore, for the past four years we have been working on a basic eight hour day, allowing time and half-time for all additional hours over eight. We have voluntarily advanced wages since the commencement of the war, over 150%. We have looked after the welfare of our men and have maintained our house rents at the same rates as prevailed when the furnace was built in 1896.

Taking all these facts into consideration, there is only one conclusion to be reached, and that is, that the action of the so-called Timber Workers' Union is only a part of the radical propaganda carried on broadcast in this country by agitators to unsettle business conditions and incite anarchy.

The great majority of our men, I feel sure, are anxious and willing to work, but are influenced by a few radical leaders in Gladstone and Kipling, who have not the slightest regard or consideration for their welfare or that of their wives and children. The suffering and privation caused these innocent people is a matter of supreme indifference to these selfish and irresponsible agitators, so long as they can accomplish their ends, which is to unsettle business conditions and cause dissatisfaction and unrest. From their efforts our men have already lost one month or one-twelfth of an entire year's wages, which based on the average payroll, totals \$35,400. Under present conditions and high cost of living they can ill afford to assume this loss. The merchants and citizens should also consider the fact that they will be compelled to bear a large proportion of this burden. We assure our men that when they return to work they will be amply protected, and anyone interfering with them will be prosecuted to the full extent of the law.

No self-respecting workman should allow himself to be influenced by these radicals who do nothing but create dissatisfaction, and in most cases have never done an honest day's work in their lives, but like leeches are living on the honest workman. Such men are not "scabs", and no right thinking or self-respecting person would have any feeling for them except to honor them for the determination to work and support their families.

We wish to go on record as stating that we will never recognize such an organization as the Timber Workers' Union or allow it to interfere with our men or dictate the operation of our plant.

With great reluctance we have served notice on the men who refuse to work, to vacate our houses. We have done this because we propose, if our men do not return to work, to replace them with others who will, and operate our plant to the best interest of our men and the community.

We wish to come out squarely and fairly and ask if the honest and law abiding workman and citizen of the City of Gladstone and vicinity are going to support us in the stand we have taken, or will you be governed and influenced by the so-called Timber Workers' organization? This question not only involves Gladstone, but the whole country. Is it not time for people to discourage and refuse to stand for the disorganization of business throughout the entire United States? This issue must be met if our country is to go on and prosper.

Is it not the duty of every citizen, not to consider these men "scabs" because they desire to work and support their families and not become involved in a controversy that does not even remotely concern them, but rather give these men their moral, and, if necessary, physical support, and as individuals, whenever the opportunity offers, assure them of their confidence and respect.

The Gladstone city baseball team will play its first matched game of the season next Sunday when Iron Mountain will be here. The boys have been doing some fine work lately in the work-outs and the opinion is generally expressed that Gladstone will have a winning team this year. LIBRARY NEEDS FINANCIAL SUPPORT

Shall the good work be continued? This question is before the public of Gladstone, at present and must soon be answered. The library needs not only the financial support, but also the interest and efforts of a much larger part of the population than it ever has had. The very small group of women who have, up to the present, been responsible for the library and its management are now too few for the task. Come out join the Library Association and help provide and manage this great public enterprise.

LIBRARY NEEDS FINANCIAL SUPPORT

Friday at 3:30 p. m. you are invited to attend a meeting of the Gladstone Free Public Library Association which is in process of formation. Of the many attractive features of your home town the free public library is the one which is used and enjoyed by old and young men, women and children and at all seasons of the year. Started as a "reading room" a few years ago, where a rather small supply of newspapers and magazines might be enjoyed, the work has expanded until now a large number of periodicals, suitable to all ages, are on the reading tables, and over twelve hundred books are now owned and loaned. New and reasonable books are added as often as the means at hand will allow.

Alleged Booze Runners Held Bonds \$1,000

Christ Hanson and Carl Holos, were caught by federal operatives early on Monday morning in one of the most sensational raids recorded in this district against booze runners, were arraigned before United States Court Commissioner James Frost Tuesday. The bail of each of the defendants was fixed at \$1,000 and that amount was furnished.

Peter Wasaki, the third defendant arrested in the raid, was not arraigned before Commissioner Frost.

Federal operatives continued the search for the driver of the big Buick sedan, which was abandoned during the chase by the owner on Stephenson avenue, with its load of 150 gallons of whiskey.

The bride was led to the altar by her father and was attended by her sister, Miss Mary Bink as honored maid.

The body was brought to Escanaba yesterday morning accompanied by the deceased's wife and mother, Miss Frances Dailey of Milwaukee, and Robert Cass of this city.

CITY WAS IN DARKNESS FOR THREE HOURS

LOOSE CONNECTION AT SUBSTATION CAUSES FIRE LAST NIGHT

Gladstone, Kipling and Rapid River were in darkness from a few minutes after eight until 11 o'clock last night, when fire starting from a loose connection on the 2300 volt main switch blew out and did damage to the extent of about \$200.

The sudden cutting off of the current was a great inconvenience to the business places, moving picture shows and residences as this was perhaps the longest that the lights have been out at one time in several years past. At

both the Lyric and Gladstone theatres the patrons were given "light" checks when it was found that the current would be off for several hours. At other places candles and kerosene lamps were pressed into use.

The loose connection at the main switch in the substation at the rear of the city hall probably occurred during the electrical storm Monday afternoon, but was not noticed by Supt. Raddant who made his usual inspection of the station shortly before six o'clock yesterday afternoon and found nothing wrong. At about eight o'clock there was a short break in the service but nothing serious was anticipated. A few moments later there was a loud report and the interior of the substation was a mass of flames. Mr. Raddant luckily was at the fire hall at the time and he immediately surmised that something was radically wrong, but before he could get to the rear of the fire hall there was no hope of getting to the main entrance switch. At the same time flames were issuing from the transformers and the chemical outfit was used to put out the fire. After the fire was put out an examination was made and it was found that two of the large potential transformers were burned out due to the arc that was formed when the loose connection of the wires caused a short circuit. Supt. Raddant, Geo. Pease, Jr., Ivy Mackin and Joe Gray immediately set to work to make temporary repairs and these were completed at 11 o'clock.

Need Larger Station.
 There is urgent need for a larger substation in this city. The present one is entirely too small and the men are in constant peril of their lives when they work there. The equipment is also inadequate for the present requirements of the city and at the water board meeting tonight the

subject of an addition both to the building and equipment will be taken up.

THURSDAY HALF-HOLIDAYS TO BEGIN NEXT WEEK

The Thursday half-holiday of the Gladstone retail clerks will begin on Thursday afternoon of next week and will continue during the months of June, July and August. It was the intention of the clerks to have the holiday start this week, but two of the merchants balked at the proposition because the stores already had one-day vacation on Monday.

With all the stores of a competing nature closed on Thursday afternoon it is felt that no hardship is worked on any of them and during the hot spell it is assumed that all the business can be transacted during the hours that the stores are open.

LOCAL HIGH TEAM TO PLAY MANISTIQUE HERE SATURDAY

The Gladstone High school baseball team will meet the Manistique Tigers on the local diamond next Saturday afternoon, the game to commence at three o'clock sharp. At Manistique last Monday the locals were trounced by a 11 to 5 score and the Gladstone Highs are determined to even up matters in next Saturday's game, which will be the last game of the season.
