The Junior Reception and Hop was given Friday evening in Wasa Hall and was a very enjoyable affair.

The hall was beautifully decorated in class colors with beautiful flowers artistically arranged. In one booth covered with flowers, punch and ice cream were served.

During the first part of the evening a delightful program of musical numbers was carried out. At 9:30 the Hop began and several enjoyable hours were spent with Gunnar's orchestra furnishing the music.

A large number attended and the entire affair was pronounced a great success. The Juniors and Seniors held their annual picnic at Maywood Saturday, and in spite of the rainy weather, everyone had a good time. The picnickers were forced to return rather early because of the inclement weather.

Synopsis.
"At the Rising of the Sun."
The play depicts a Guerrilla Camp on the Potomac river near Arlington, Va., during Gen. McClellan's camping before Richmond.

Capt. Arden, a Union officer, is shot by Capt. Tom Crawford, a Confederate, in presence of his brother, because he will not betray the secret of the left wing of the army; while the brother is lit to live to tell "The Rising of the Moon." At the specified time, tables are turned, the Confederate general has been wounded by the Union men and Capt. Arden is given the golden opportunity of "Returning Good for Evil."

—Cast of Characters—
Capt. Ed. Arden, U. S. A. Floyd Gerould
Capt. Tom Crawford, Confederate ... Robert Ducheny
Ted—Drummer Boy, Confederate ... John Foy

OHIO SENATOR NOMINATED AFTER A HOPELESS FIGHT FOR ONE OF "BIG THREE."

Senator Warren C. Harding of Ohio, was nominated at the Republican National convention in session at Chicago late Saturday afternoon. He was nominated on the tenth ballot after it was certain that neither one of the big three—Wood, Johnson or Lowden—could be named. On the final ballot Harding received 692 votes. Lowden 12, Wood 157, Johnson 80. Harding's running mate is Governor Coolidge of Massachusetts. He was nominated on the first ballot.

BOY RECEIVES A BAD INJURY TO RIGHT EYE

Cecil Latimer, 15 year old son of Albert Latimer, suffered a bad injury to his right eye in an accident which occurred Wednesday.

The youth and several companions were playing indoor baseball, when a bat slipped from the hand of one boy and struck the Latimer lad below the right eye, inflicting a deep cut. It was necessary for the doctor to take a stitch, and as a result of the injury, the boy's eye was swollen shut. He has been getting along splendidly during the past few days.

LOCALS DROP GAME AT ESCANABA

GLADSTONE GETS ONLY ONE HIT. TLE HIT AND IS SHUT OUT BY 6 TO 0 SCORE.

Gladstone 0, Escanaba 6.
That in a nutshell is the story of the baseball game at Escanaba yesterday, and as one of the boys said today, the less you say about it the better.

Gladstone simply could not hit the ball. Only one safe hit was gained off Cameron delivery and that of course was not a home run, so no scores were made. The Gladstone side was also lousy on the team side and the game generally was hitless. One redeeming feature was Gladstone's share of the gate receipts which amounted to \$157.00. A large number of local fans saw the game.

KIPLING GIRL DIES SATURDAY

HAD BEEN ILL FOR OVER A YEAR — FUNERAL SERVICES WILL BE HELD TOMORROW.

Mabel Miller, the sixteen year old daughter of William Miller of Kipling, died Saturday night about 9 o'clock following a long illness. The young girl suffered from rheumatism and leakage of the heart for more than a year.

A couple years ago she attended high school here and made many friends. In addition to her bereaved father, she is survived by two brothers and a sister.

Funeral services will be conducted from the home in Kipling tomorrow afternoon at 2 o'clock.

BOARD OF REVIEW IS NOW IN SESSION AT CITY HALL

The board of review commenced a three day session at the city hall this morning to go over the assessments of the real and personal property as put on the books by Assessor Phil Hupy.

The board today completed the personal assessment revision and but few slight changes were made in the figures as estimated by Mr. Hupy.

The board will sit again the first three days of next week to hear complaints of tax payers in case there are any kicks where the values have been raised or of course there will be kicks where the values are lowered.

Mr and Mrs Al Garrison and daughter motored up from Nadeau yesterday and spent the day at the home of Mr and Mrs. George Little.

COME BACK, COME BACK TO

RAPID RIVER

Members of the local Timberworkers' union met last Wednesday and took important action on local conditions by a vote of 18 to 12 they adopted a resolution declaring that all union men who had gone back to work in the mills and all who wished to go back could do so and still remain in good standing in their organization.

This or similar action has been brewing for some time and it became necessary, so some of the men felt, to take action making the transactions a matter of record. A number of the union men had discussed the affair informally with the result that a number of them had already gone back to work and more felt disposed to follow but were still holding out pending a ratification of the step.

When action was taken at the meeting there was earnest intelligent discussion. Many of the members were outspoken in their advocacy of the "back to work" movement and not a few argued against it but it was a noticeable fact that all of those who favored the movement were actual employees at the mill while a large percentage of those opposed were men who would not be working at the mill even though the strike were settled.

Many of the families have been receiving aid from men during the weeks that the strike was on but it was given out last night all of the aid thus far received came from the local treasury and that to date, not one penny had been received from headquarters though application had been made for it. Not only had the money failed to arrive but the request was so far unanswered.

It is understood that this fact had a great deal to do with the result of the vote.

With the action of the union Wednesday night it is understood that the mill will start on the night shift the first of the week of all the men give their former positions.

Benediction.

Peter Holmgren brought the carcass of a big black bear to town Tuesday evening which he had shot up in the jungles. Several guesses as to the weight of the bear were no doubt somewhat exaggerated, but he was rather above the average size bear and strange to say the hair of the animal seemed still fairly dry considering the lateness of the season.

The above does not refer to the stage driver, Peter Holmgren but his cousin.

Mrs. Wm. Reynolds, who has been somewhat feeble for the past several months suffered another one of her bad spells during the week and it was found that her condition was rather more serious than it had been in her previous attacks.

Her brother, Al Yerrick was sent for and arrived yesterday and made the arrangements to have Mrs. Reynolds taken to the Laing Hospital today. They left this afternoon for Escanaba, and it is hoped that with care and perfect quiet, the patient may be partly restored to health.

Alpha Cole arrived early Sunday morning from Flint bringing a Chevrolet truck which he drove all the way coming across on the ferry from Northport to Manistique.

He was one of a party of five who went down to Flint to bring back a number of cars for the DeGrand Agency at Escanaba. In the fleet was one truck and it was the intention of bunch to each take a turn at driving the truck as it was not as pleasant a job as driving the touring cars. Alpha started with the truck and in some way he got separated from the rest of the crowd and had an interesting time of it. It costs money to drive a truck from Flint, and Alpha went broke in a strange land. After using his head and standing for a little delay he secured the necessary funds and came through getting as far as Manistique, where he again got down to his last seven cents. He met a friend at that point however, and pooled on through the rest of the way to find that he arrived about twelve hours ahead of the caravan of touring cars.

Dallas Goodchild was another of the Rapid River boys who enlisted in the army last week but on his arrival at Chicago he failed to pass the final ex-

amination and returned the first of the week with about 750 pounds of milk daily.

Mr. Holtby of Gladstone spent Tuesday in Rapid River.

Grandpa Cavill of Pipe is here visiting with the folks of his son, John.

Henry Martin spent a few hours in the city Monday.

Mrs. Napoleon Venn left here Monday for Lansing where she will attend as a delegate the great Five Biennial Review of the Lady Macabees.

Miss Kony expects her mother to arrive tomorrow from Milwaukee to spend the remaining school days here and at present they are undecided but following the close of school they may remain for a short period camping in the vicinity of here.

Mr. and Mrs. Jiltson of Waupaca, Wis., arrived last Sunday and are the guests of their daughter, Mrs. Mose Rabidou. They will remain a couple of weeks at least.

John Kniskern, Sr., accompanied by his son John, Jr., returned early this morning from Chicago, where Mr. Kniskern stated that he saw all of the big smokes of the Republican convention and predicts that Hiram Johnson will throw a monkey wrench into the machinery as did Theodore Roosevelt, resulting in the election of another Democratic president. The fact did not appear to displease Mr. Kniskern notably.

F. W. Davis of Escanaba transacted business in the city yesterday.

Mr. and Mrs. Gust Robins and family of Escanaba visited here Sunday at the home of Mr. and Mrs. Mose Rabidou.

L. F. Birch of Masonville, who has been working in the camp of Oliver Novoset met with a serious accident Wednesday when he cut a deep gash in his right leg with an axe. He accident occurred in the afternoon, but in the evening the main artery burst and Dr. Conover was called to stop the hemorrhage and sew up the wound.

Dave Holtby formerly engaged at the local depot with H. A. Harris, but for the past few years located at Gladstone, arrived here the first of the week and will relieve Mr. Harris when the latter takes his annual summer vacation.

John Anderson, who suffered painful injuries a couple of weeks ago while clearing land for Sam Dunsmore is improving slowly and he is able to walk around carefully though painfully with the aid of a stick.

The injuries were sustained when one of a couple of logs he was hauling to the burning pile struck a snag causing the loose end to swing killing him in the calf of the leg.

Alec Monk received his Chevrolet bus truck the first of the week from the DeGrand Agency at Escanaba and same was put into commission at once. Alec will use the machine as a general purpose one and may possibly find it useful for coming legislature.

George Fuhrmann left Saturday evening on a couple of weeks visit during which time he will call on a brother-in-law at Turle Lake and another at Nstrand, Minn.

Edith Harrison left Tuesday evening for an extended visit among relatives throughout the central part of Kentucky. Following her visit she will make her home with relatives for the winter and attend school.

John Oliver for many years a resident of this place has accepted a position with the Singer Sewing Machine company with headquarters at Escanaba and will confine his field of activities to Delta and a part of Dickinson counties.

Mr. and Mrs. Todd Ewald and children motored to Fayette last Sunday where they enjoyed the day in one of the superlative spots of Michigan.

Soo Line Claim Agent Marphy was in the city on business Monday in connection with claims for stock killed on the rail road tracks.

Mr. Denny moved back to town from the Friday farm Wednesday. Sam Johnston moved him down.

Mr. and Mrs. Algure of Gladstone, called on friends in the city Sunday.

Mr. Columb is treating his horse to a new coat of paint.

Mr. and Mrs. Gerlach went up to Cavill's camp in their Buick last Monday.

Mr. and Mrs. Levi Barboe spent Sunday at Esaujan.

Mrs. Burt has been on the sick list the past week, but is improving.

Abe Rogers of Gladstone, called on the Archambau family Sunday.

Mrs. Flynn was a Gladstone caller Monday.

Mrs. Allan Reynolds of Gladstone, is here for a few days helping Mrs. William Reynolds.

Mrs. Davis of Escanaba, came up here Tuesday to help Mrs. Reynolds get things prepared for moving to Gladstone.

Mr. and Mrs. Henry Dunsay spent Sunday at Escanaba Saturday and spent Sunday with their daughter, Mrs. Noel.

plant is now in operation and handling about 750 pounds of milk daily.

Ed. LeClair is tearing down his old building and will erect a new one on the same site to be used for a boarding house and ice cream parlor.

Mr. Rabarge is building a fine new residence in the village.

Mr. Compton is also building a new residence.

A. B. Dury is loading out ties.

Upon the request of many friends I have consented to become a candidate for state representative, and if nominated and elected I promise to use my best efforts in securing:

"1. An amendment to the constitution to be submitted to the people for more equal taxation from the docks and shipping docks in Delta county—Escanaba and Gladstone and the county in general.

"2. I shall try for an amendment to the constitution for old age pensions. I worked for this in the last session and succeeded in having a bill passed for the appointment of a commission to investigate and report on old age pensions for this coming legislature.

"3. I firmly believe that the men

who served in the great World War from Michigan, are entitled to some compensation from the state similar to that paid by neighboring states, and will use my best efforts in the passage of similar legislation."

The foregoing statement was given out for publication by State Representative Peter Jensen, who for the past eight years has represented the people of this district in the Michigan House.

Mr. Jensen will be a candidate for the office again and will without question have a large backing in the county and city. At all times, the representative has worked ardently for the cause he believed to be right and has tried to gain the passage of legislation and beneficial to Delta county.

His past record in the House is like an open book and on that record he asks the people to support him for reelection.

Elks Will Have Celebration.

Escanaba will be the scene of a monster Elks celebration July 5. The purpose of the demonstration is to celebrate the Fourth, to aid in the 1909 membership drive and to bid farewell to the local brothers who will go to Chicago to attend the national convention the following day.

There will be a parade headed by two bands with lots of noise, music and a good time for all. All those who go to Chicago in cars for the convention will be escorted to the Ford River road by the other cars and

there will receive a "so long" until they return from the greatest convention ever to be held in that city. Plans are going forth for the initiation of over 150 members June 24.

WATERBOARD DOINGS

Gladstone, Mich., June 10, 1920.

Special meeting of the board of Fire and Water Commissioners.

Present—President Klingenberg, Commissioners DeGroot, Gorman, (3).

Absent—Commissioners Nelson, and Harris. (2).

Present—Albermarl Gordon, Malloy, Tostenson, (3).

President Klingenberg, stated to the city council that this special meeting was called for the purpose to discuss the jail and heating plant, etc. plans submitted by N. J. Gorman, and what percentage the city council should board should stand on said proposition.

Commissioner Gorman, offered its following resolution, and moved its adoption, which was supported by Commissioner DeGroot.

RESOLVED, that the cost of the proposed improvement and addition to the city hall be borne by the water and light department and the city in the following proportion: Water and light department two thirds and city one third.

Motion carried unanimously.

Moved by Commissioner Gorman, supported by Commissioner DeGroot, that the board adjourn.

Motion carried unanimously.

Motion carried unanimously.

ARTHUR L. WILLIAMSON, City Clerk.

THEY WILL DO IT.

One of our friends dropped in to the picture theater the other evening. One of those past who insist upon giving away the pie and sending out local everything flaked upon the screen sat in front of him. He knew just what was going to happen, when and why. Our friend stood it tight as long as he could, then leaned forward and said "Excuse me, but will you speak a little louder? Sometimes the music presents my heart what you say." The past seemed displeased, and our friend had to depend upon the picture for the rest of the story.

What a lot of argument there used to be about a woman driving an automobile

TODAY she can "make a train" or fix a tire as well as anybody.

As soon as a luxury becomes a necessity the point of view changes.

Two or three years ago you would have listened to more varying opinions about tires than you could shake a stick at. Mileages, construction, treads and whatnot.

It's different now. Tire users are working towards a unanimous feeling.

You express it one way—the man down the street another. But sifted down it amounts to this:

That the only way to settle

your tire problem is to get a tire of known value and stick to it.

We recommend and sell U. S. Tires because their value is known.

There's no guess about it.

It was the U. S. quality policy which led to the perfection of the straight-side automobile tire, the pneumatic truck tire—two of the greatest additions to tire value that have ever been made.

As representatives of the oldest and largest rubber concern in the world, we are in a position to tell you something about tire values. Come in some day and talk to us.

For ordinary country roads—The U. S. Chain or U.S. Plain.
For front wheels—The U. S. Plain.
For best results—everywhere—U. S. Royal Coords.

The SANDMAN STORY

FOX AND MR. BADGER. YOUNG FOX had never had a real home. He had lived in the tall grass near the marsh, where the ducks were often to be found, ever since he was old enough to take care of himself.

But one day he thought it was time to take to the woods and find a home, so he started out on a hunting trip. Of course he did not mind at all looking in at every place he found.

Mr. Old Rabbit had left his door open, too, and in there Young Fox looked, but as Mr. Old Rabbit was still in possession, Young Fox looked for another place.

"Oh! I'll find some one away from home or some deserted home before long," thought Young Fox as he trotted through the woods.

It did not matter to him at all whether the house was vacant for good or not if only it was vacant when he got there, for Young Fox did not like to build a home; it was too much work.

When he went into Mr. Bear's house, he went right out as soon as he could, for Mr. Bear looked well able to dispute with him, and Young Fox did not want trouble—he wanted to live in the woods.

"Now this looks nice to me," he said as he came to a place where there seemed to be no one at home, and after looking around Young Fox decided to stay, so he looked the door

on dry buttered toast. A poached egg may be placed on each if desired.

Mother's Cook Book. Look to the human wrecks about us. 10 cups of flour, salt, vanilla and one teaspoonful of cream of tartar.

Breakfast Meats. For those who enjoy something for breakfast rather than the popular "barbecue" the following dishes will be suggestive.

Corned Beef Hash a La Delmonico. Take equal parts of cold corned beef and cooked potatoes; cut fine; season with onion, salt and a little butter; add pepper and chopped green pepper; spread the hot hash on thinly sliced toasted bread; slip a poached egg on each and serve sprinkled with salt and paprika and minced parsley.

Sunshine Cake. Take the whites of eight eggs, the yolks of six, one cupful of sugar, one cupful of soda, half vanilla and one teaspoonful of cream of tartar.

Beef Balls. Put one-half cupful of milk and two tablespoonfuls of butter in the frying pan; when it boils add one cupful of mashed potatoes, one cupful of chopped beef, salt, pepper and a well-beaten egg; stir and remove from the fire.

Frizzled Beef. Take very thinly cut dried beef, cover with cold water to which a pinch of soda has been added, and bring gradually to the boiling point. Drain; add a lump of butter and cook until the edges of the beef curl. Serve on slices of buttered toast with poached eggs laid over the beef.

Crisp Brains. Soak the brains cold water, par-boil; remove all membranes; throw into cold water, drain, wipe and chill. Dip in melted butter and broil. Serve with melted butter and lemon juice, garnished with parsley.

and pulled down the shades and went to bed. Now this place happened to be the house of another Mr. Badger—a very powerful fellow—taken away from home in the daytime, but this being a cloudy day he had gone for a stroll.

When Mr. Badger returned and found his door locked, he began to wonder who was inside, for as he peeped in at the keyhole, he could see that the key was in the lock.

Now Mr. Badger had been locked out before, so he put on a ladder and climbed up to the chimney and slid down.

Young Fox was asleep and making a noise about it, and Mr. Badger tipped to his bedroom and looked in and there in his very own bed was Young Fox, fast asleep.

First he opened the door wide and then he went to the bed and gave Young Fox a hard shake. "Let me alone," he said, opening one eye to make sure it was not Mr. Dog.

"Get out of my bed," said Mr. Badger; "this is my house." "Possession is nine points of the law," replied Young Fox.

"You see these marks," Mr. Badger said, Mr. Badger, pointing to the black stripe on each side of his white head.

"Yes, I see them," said Young Fox. "All your family are white-headed, all old, I suppose."

"I'll show you," said Mr. Badger, and with a spring he was on the bed and took hold of one of Young Fox's ears, which was sticking up.

"Oh! let go of my ear!" cried Young Fox, jumping up and trying to shake off Mr. Badger, but it was no use; his teeth were fastened in Young Fox's ear for keeps.

Young Fox ran to the door and out in the woods crying and jumping, but still Mr. Badger clung to his ear, and not until he was quite a distance from the house did he let go.

When he at last unfastened his jaw he called after Young Fox, who was running: "That is why I got the badge, because I have the finest set of jaws in the world, and if ever you come around here again, I will show you how long I can hold on with them."

Fallen Wire Is Cause of Death

Gwin, Mich.—Andrew S. Seas, Jr., aged 16, of Nequamee, and Eddie Rider, aged 9, of Little Lake, were instantly killed and their bodies burned to a crisp near Little Lake, Friday evening by coming in contact with a fallen high-tension wire of the Cleveland Cliffs Iron Company's transmission line from the Ash Train power plant to the Gwin mine.

Goodman Injured. Seas' companion, named Scenion, also of Nequamee, is in the Gwin hospital, temporarily blinded, but it is thought, he will recover his sight. Bernard Goodman, Jr., of Ishpening, narrowly escaped death, but although thoroughly unscathed, is injured.

The four boys accompanied by John Flattherty, Jr. and his mother, of Little Lake, were riding from Little Lake to Gwin, in Flattherty's truck, shortly after the heavy storm of Friday afternoon. The fallen wire had set fire to the underbrush, and scolding the boys, they left the truck with the intention of extinguishing it.

Wages Of Laurium Fire Men Are Raised

Laurium—At a special meeting of the Laurium council, the wages of the volunteer firemen were raised from \$140 to \$175 per year. LIGHTNING

A good many people are abnormally afraid of thunder and lightning. This is a sort of nervous habit which is very annoying to the people who are troubled with it and annoying to those who are not.

There is not much use in telling those afflicted with this trouble if they hear the thunder they are perfectly safe or that if the lightning hits them they will never know it, but if people so afflicted will reason with themselves every time that a thunderstorm comes up they can in time overcome the difficulty.

A comparison of lightning with automobiles may help some. It would be much more reasonable to cringe with fear every time we saw an automobile than to do so when we see a flash of lightning. Every individual's chances of being killed by an automobile are much greater than his chances of being killed by lightning.

When we are in the house and see an automobile through a window we are just as much frightened as we are by a flash of lightning half a mile or five miles or at any intervening distance away. When we dodge an auto by a narrow escape, as most of us do now and then, we have had just as narrow an escape as we had been in a house struck by lightning.

There may be many flashes of lightning in the course of a season as there are automobiles in the state, and, very probably, a good many more, but the automobiles are running all the time, danger from them is a daily, almost a constant and there are many hundred per cent more deaths by auto than by lightning every year.

The answer why people dread lightning and do not dread automobiles when the latter are obviously many times as dangerous is easily found. The fear of lightning is an inherited fear, coming to us from the time when it was supposed to be the weapon of the gods or the outbreathing of fiery and dangerous dragons. From that time when people supposed that the lightning was being hurled at them.

On the other hand, while we had some fear of automobiles when they were strange to us, that fear is not backed by ancestral fears and quickly gives way to familiarity.

THE PLATFORM

Those anxious for the defeat of the republican party will have found with the platform adopted, but any fair minded person contrasting it with previous platforms adopted by the same and by other parties must confess that it is a good platform.

At impossible ideas born in the brain of a fanatic idealist and given to the world when the stress of war had made the brains of millions susceptible to infecting ideas for this convention an unusual problem in platform making. With the league of nations problem what is the republican platform's way of handling it is as satisfactory as possible.

The platform may be called an agrarian or farmer's platform, so completely does it advocate practically all important measures that the farmer has demanded. It is just as openly not a labor union platform, for although no federal industrial court is suggested, the Plumb railroad plan and government control of ownership of railroads are rejected.

Everybody must approve the stand taken in favor of economy in the federal government, the doing away with war commissions, the bureau, and the condemnation of the continuation of war powers held by the president. Equally commendable is the refusal to make a promise of immediate substantial reductions in taxation. It would be an easy thing to promise. European politicians have in former times been very prone to promise reduced taxes. The frank statement that the financial condition of the country is such that no immediate reduction need be hoped, is an evidence of good faith.

Fanatics of all sorts will be dissatisfied with the platform. This is the best evidence in the world that it is a good platform from the standpoint of the average, every day citizen. The platform does not promise to hang the profiteers, if it can catch any and if it can tell what a profiteer is when it does catch one. It does not make any other promises of the kind and foolish promises of the moment. It is a level-headed, sane, but sensible document.

And the better platform it is, the more it will be covered at and condemned by the democrats and socialists.

POTATOES.

As indicated by such reports as are available at this time it is believed that the acreage of potatoes this year is less by many thousands of acres than last year. This is due principally to labor shortage, scarcity of seed, and the present high cost of such seed potatoes as are available. Furthermore, practically all of the old crop is marketed, and the planting of a new crop will begin as soon as any of it can be used. There is no reserve on hand for use until the new potatoes have a chance to grow and mature. So there is every indication at this time that there will be a shortage of potatoes next winter with continued high prices. While of course it is impossible to forecast with any degree of accuracy the condition six months hence we believe the wise farmer will do well to consider these things carefully in determining his potato acreage.

Delta county farmers for the most part have the seed on hand, a condition that does not mean that they are not and this really looks like an opportunity.

Doesn't it make you happy when after days of hot dry weather with the wind whirling up great clouds of white film from road, and beating up the sand and blowing the dust and seed into your eyes and when your lettuce and radishes just peeping out of the ground look listless and unhappy when every breeze is a scolding and when the air is filled with smoke from fires starting all around and when you begin to figure how a crop failure will run with the H. C. L. and when you don't like the look of those in the news and you begin to think the whole country is going to the Debs and then it clouds up and it begins to rain, and rain and rain until there is water in the puddles and on the roadside and in the fields—all the earth can drink and more. Doesn't it make you happy, and grateful?—Gee.

MISSING SOUGHT THROUGHOUT WORLD

3,000 Cases One Year's Record of Search in United States.

New York.—Thirty-three persons who had been lost to their friends are being sought by the department of investigation of the Salvation Army here during the month of March. This is regarded as a record by the officers in charge of the bureau, for as cases go, missing persons are hard to find. Some of the workers are asked to trace persons who have not been heard from for one to two years and concerning whom absolutely nothing is known.

Remarkable success has accompanied the efforts put forth in this work because of the vast empire touched by the tributory branches of The Army throughout the world. Requests for information concerning persons are published in the War City official organ of the Army, and are also sent to headquarters in districts or countries where those sought are thought to be.

The American branch of this work handles more than 3,000 cases annually, while the international department in London reports that last year it dealt with 109,900 requests.

The labor and facilities of this branch of The Salvation Army's vast enterprises are open to any one. Those in charge of them urge that individuals seeking information of any sort regarding friends or relatives absent from home for a long time, other than simply search for missing persons are taken up. Information is often sought concerning the health, habits, character or stance of absent people. Estranged and separated persons are reconciled. The bureau also serves as financial agent in transferring money, and in every way endeavors to make itself as useful as possible.

These things are done without charge, save to cover the cost of printing notices. This department, like almost all those of The Salvation Army, is dependent mainly upon the general Home Service Fund for support. The money in this fund is used to carry forward the American endeavors of The Army. It is for the purpose of obtaining the funds for another year's labor that the Army will make a \$19,999,000 Home Service appeal May 10 to 29.

ALTRUISM A BUSINESS. Theodore Roosevelt once said, "Few serious thinkers fail to recognize the Salvation Army as an individual social asset. It has won the right to recognition." The Colonel was right, and this recognition has brought new methods to the Salvation Army. Through these business-like tactics it is not only drawing itself closer to the communities it serves, but is enabled to extend the Army and its work. Economy of efforts and of personnel makes such a commendation possible.

REAL DOUGHNUTS, THESE.

The Salvation Army has given out its recipe for doughnuts. This is the formula from which all the crullers or the men of the A. E. F. were made. There is something magic in it, for it worked wonders. Here it is:

MR. MOUSE & MR. FROG

ONE day Mr. Mouse, who had been driven from the barn where he lived by Mr. Frog and his family, ran across the road to the meadow and wandered down by the pond.

"I may as well jump in and drown myself," said Mr. Mouse, feeling very sad and discouraged. "There is no place I go where that cat does not follow me."

"What is the matter, my friend, that you seem so sad?" asked Mr. Frog, who sat on a log not far away, and you heard all that Mr. Mouse had said.

"Why need you drown just because you jump into the water?" I live in this pond, and I do not drown."

Mr. Mouse, who had not had a willing listener, told Mr. Frog all his troubles and what he had done.

"I just eat grain and meal and things in the barn—just a little; and why that cat should be so disagreeable and unfriendly I can't understand," he said.

"She cannot eat those things," said Mr. Mouse, "so why else bothers me? I cannot see how she ever comes here and try to drive you out of the pond?"

"Never," said Mr. Frog. "I have my troubles with the boys, who try to stone me, but I can always escape by jumping in the pond; and Mr. Dow backs at me when I come out on this log sometimes, but he cannot get my cylinders. It does not have to be bargained, hatched up or bedded down, neither does it stop in the middle of a furrow on a hot day to remove a blue bottle fly with its rear foot. It will do any work there is on the farm except washing dishes and making beds, although those attachments will probably be put on later."

Owing to the difficulty of securing horses which will not die in an off-hand manner or give out at the knees in the middle of the afternoon, the farm tractor is bound to be more popular than the candidate for congress who decides not to run again. It makes life easier for the farmer and sweeter for the peasant hired man, therefore it has come to stay."

The man who believes it is too late for him to start now was making excuses when he put on his first long pants. There are still twenty-four hours in each day.

NO PROFITEERING HERE!

The accounts of the Salvation Army are audited regularly and at frequent intervals. Every cent expended goes for the needy. The Army furnished 2,500 meals free to penniless persons in the United States last year. Feeding the hungry is only one of its many activities.

TELL OF VIENNA STARVATION

Viennese Physicians Describe Conditions in City Before Meeting in London. London.—Description of starvation conditions in Vienna were given by two Viennese physicians, Herr Schlesinger and Herr Hertz, at a meeting held here under the auspices of the fight the famine council.

The latter declared Vienna was virtually blockaded on all sides and suffering from lack of coal. He declared the industries of the city were going to pieces.

Herr Schlesinger said food conditions in Budapest were dire. He declared in Vienna because farmers are selling their cattle, rather than risk seizure by the Roumanians. He asserted, however, that this was only a temporary expedient and that unless help was forthcoming, widespread suffering in Budapest was probable.

Rann-dom Reels

By HOWARD L. RANN

THE FARM TRACTOR

THE farm tractor is an automobile which is minus the job rider attachment. Nobody ever tried to take a job ride on the corrugated iron seat of a motor farm tractor without having his spine caved in farther than the entrance to the grand canyon of Arizona.

The mission of the farm tractor is to jerk four fifteen stirring plows over a cornfield without showing any spavins, rhabdomyos or other signs of age and wear. For many years the American farmer was obliged to rely upon the obedient but sway-backed work horse whenever he wanted to plow corn, and whenever the horse became infirm or short of breath he had to be laid up for repairs and tinkered with by a veterinary surgeon at \$2 per tick. Every once in a while a horse would die by being run against a bolt of lightning or as a result of eating something which was not intended for his stomach. This made farming almost as expensive as feeding Russian prisoners in Germany. The farm tractor will do the work of six horses when it is hitting on all

Baked Mackerel. Take two medium-sized fish, split and remove heads. Put in a buttered dripping pan, dot with butter and pour over one and one-third cups of rich milk. Bake twenty-five minutes in a hot oven.

Ginger Drops. Beat one egg, add one cupful of molasses, one cupful of sugar, one cupful of sifted flour, and one-half cupful of melted shortening. Dissolve one and one-half teaspoonfuls of soda in one cupful of water, add it and one-half cupful of flour and a tablespoonful of ginger. When all the ingredients are added, add one tablespoonful of molasses. Drop from a spoon onto a greased, floured dripping pan. Bake in a moderate oven.

Mexican Potato Salad. Mix one tablespoonful of flour with one tablespoonful of melted butter or bacon fat, and one-half teaspoonful of salt, two teaspoonfuls of chili powder, and one cupful of vinegar; cook until smooth. Cut potatoes into small dice, add finely chopped onions to season, then the dressing and serve.

Panned Tomatoes. Select firm, even sized tomatoes, cut in halves, dip in flour and put out side down in a pan in which has been melted two tablespoonfuls of butter. Cook over a hot fire until brown; remove the tomatoes to a hot dish and mix in a cup of sauce made of two tablespoonfuls of flour, one cupful of milk and one teaspoonful of chili powder, with one-half teaspoonful of salt. Boil ten minutes and pour over the tomatoes.

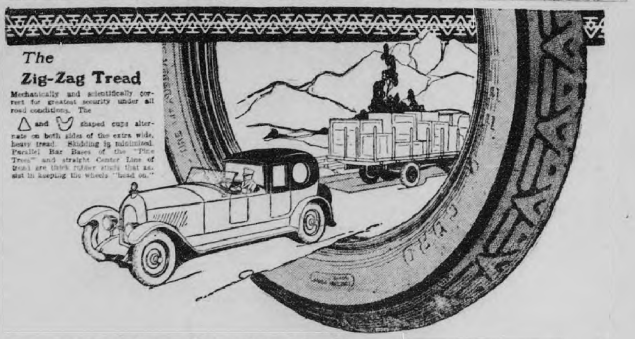

Bread Sticks. Remove the crusts from slices of white bread, cut in strips five inches long and one-half inch wide. Roll in melted butter and brown delicately in the oven. Serve with salad or with cheese in place of crackers.

Good Cakes for the Family. A good fruit cake which may be kept six months and a square of which may be fed when it is to be served is a good economy.

Escalloped Noodles. Prepare noodles—the household kind—as much better for this dish; put a layer of noodles in a baking dish, add a white sauce, using butter, milk, season well and cook until smooth. Put a layer of the sauce over the noodles, another layer of noodles and finish with buttered crumbs. Bake until the noodles are well done. Check on heat or cool broth are especially good with this dish.

Last Night's Dreams —What They Mean

Did you dream of falling?

THIS is one of the standard or typical dreams and one over which the scientists have expended a vast amount of "gray matter." They are generally dreams of peculiar vividness. Lucius—55 B. C., the celebrated Roman philosopher, in his work on psychology speaks of this dream and Cervantes in "Don Quixote" makes the innkeeper's daughter say that she has many times experienced this dream and awakened to find herself as weak and shaken as if she had really fallen. Some think that the classic myth of the fall of Icarus into the Ionian sea originated in a dream of this kind by some ancient Greek. Havelock Ellis is inclined to attribute this dream to purely physical causes. He thinks it may be due to

the fact that our respiratory action (breathing) becomes depressed and at the same time the outer nerves of our skin are reduced to a state of insensibility so that the skin becomes abnormally insensitive to the contact and pressure of the bed "and the sensation of falling is necessarily aroused."

Freud, on the other hand, regards the dream of falling as purely psychological. It is a dream repeating impressions from childhood. "What aforesaid," says he, "has never played falling with a child by rocking it on his knee and then suddenly stretching out his leg, or by lifting it high and then pretending to withdraw the support? Again all children have fallen occasionally and then been picked up and fondled."

The mystic connect the dream as one of direct symbolism. If you dream that you fall from a height and pick yourself up quickly you will attain to honor and riches. But if you stay where you fell troubles and losses threaten you. To wake up before you strike bottom, as many dreamers do, would appear to save the day for you, though this is not quite so fortunate as to dream that you pick yourself up after the fall.

About the County

By B. P. PATTISON

Plans are on foot to bring another carload of high grade and pure bred Holsteins into Ford River. If you are interested in buying one or two good cows and live within ten miles of the river, see the county agent and get the proposition lined up as soon as possible. The second car will probably be bought the latter part of June.

Farmers purchasing cows in the last carload unloaded at Ford River switch are:

August Severson, Newhall—6 head; Mathias Loehen, Flat Rock—5 head, (1 pure bred); Fred Young and Fred Helm, Flat Rock, one apiece; Robert Lesway, Newhall, 2 head; Duford and sons, Schaffer, 1 pure bred.

Duford & Sons, however, are bargaining for two more pure bred registered cows from one of the best herds in Wisconsin.

Did you start that Potato Seed Plot this year? If so, we would like a record of every one interested in raising three hundred bushels of potatoes per acre instead of one hundred. It can be done if you will do your part.

If farmers having pure bred, registered Holstein or Guernsey bulls will notify us, we will be glad to send you a sign reading "Pure Bred Bull Used on this Farm."

If farmers who are trying out sunflowers for silage this year will let us know about it, we will be glad to keep a sunflower record of the county.

Plans are on foot to pool a carload of wool from this county with the Michigan State Farm Bureau. Wool pool at Lansing to be sold direct to the manufacturer.

If there are any scrub bulls running at large in your community you will be doing an act of kindness if you report the matter to the proper authorities.

More barley is being planted this year than ever before. Within the last five years this grain has come to be

recognized as an excellent feed for dairy cows and pigs. It is a sure crop for this county and will take the place of corn in the ration. "Grow More Barley," would be a good slogan to adopt this county.

We could have sold any number of young pure bred Duro-Jersey pigs this spring, but we couldn't locate them. It would seem that out of 1200 farmers some ought to have pure bred Duros for sale. When pure bred pigs can be purchased for \$15 to \$25 there is no excuse for raising scrub pigs.

We ought to have a County Potato Growers association and grow seed potatoes. There is a big demand for Northern Grows seed and much better prices could be realized. Last fall we could have sold several cars, but there was no inspected seed. Let's get started this summer and we can have some sale this fall.

Notice is hereby given that the Board of Review of the City of Gladstone will meet in the city council room on Monday, Tuesday and Wednesday, June 13, 14 and 15, 1926 at nine o'clock in the forenoon, for the purpose of examining and reviewing the assessment roll of said city.

MEETING OF BOARD OF REVIEW

Said Board of Review will also meet on Monday, Tuesday and Wednesday, June 21, 22, and 23, 1926 at the same hour and place at which time all persons interested may appear and review their assessments. The board will be in session from 9 to 12 a. m., and 1:30 to 4:30 p. m. each day.

NEWS OF THE MOVIES

What is the market value of a bride who is beautiful, cultured and possessed of the highest social standing? Vitaphone's feature picture, "Human Callateral," sets the price at over \$1,000,000. This picture, with Corinne Griffith in the stellar role, will be shown at the Gladstone theatre on Wednesday and Thursday nights.

Miss Griffith plays the role of a beautiful society girl, the daughter of Stephen Langdon, a Wall street operator. Langdon falls into severe financial difficulties and is compelled to negotiate a huge loan from Roderick Duncan, who happens to be virtually engaged to wed Patricia.

Langdon informs Duncan that he should hesitate to ask for such a large loan, as he is engaged and the chance of loss unless he thought Duncan was to wed his daughter. In the latter case the loan would be a family matter, he remarks.

Patricia, learned of the proposed loan, assumes that she is being transferred as human collateral for the money. She conceives the idea of humiliating the two men for their apparent sordidness by making her engagement to Duncan a legal money transaction. As the proceeding progresses it is made apparent that the girl is accepted as having a literal value of more than \$1,000,000.

Upon his arrival at London, Darnay is arrested and tried on a charge of treason. He is defended by a lawyer of escanaba fame, whose work is done by his clerk, Sidney Carton. A remarkable resemblance between Darnay and Carton becomes the vehicle of an absorbing story of love and sacrifice.

The cast which supports Mr. Farnum in his superb work is of exceptionally high caliber. It includes Jewel Carmen, Charles Clary, Herchel Mayall, Rosita, Martini, Joseph Swickard, Ralph Lewis, William Clifford and Marc Robbins.

Vitaphone's newest Larry Semon comedy, "The Head Waiter," demonstrates with special force the fact that it takes a fat man to show how funny a thin man can be, or vice versa. Larry, who is an exceedingly thin chap, has a background and foil in the person of Frank Alexander, a 300-pound assistant comedian.

"The Head Waiter," is scheduled as the feature attraction at the Gladstone Theatre on Wednesday and Thursday. Larry's ridiculous adventures are intensified ten-fold by the smashing contrast of the fat chap in the scene. The story of the picture is that of what happens in a fashionable restaurant, in which Alexander is cast as the original head waiter, when the latter and his aides go on strike, and Larry takes his place, as strike breaker.

Larry's life is saved by the beautiful cashier, and when he gets the head waiter's job, he returns the favor by giving the beautiful one the job of chief waitress dancer. The picture is sprinkled with spaghetti, Egyptian dancing and a display of scantily adorned beautiful women.

Charming Carol Holloway, the winsome "movie" star, high school and academy trained, went to New York to go on the stage. She was promptly acquired by a leading picture producing firm, and now is regarded as Screenland's premier equestrienne.
