ANOTHER DEFEAT AT IRON MOUNTAIN

PLAYING OF LOCALS HINDERED BY ABSENCE OF CLAUBEN AND CHANGES MADE.

The Gladstone baseball team suffered its fourth consecutive defeat yesterday at Iron Mountain, the score being 10 to 2.

The game was a fine one up to the fifth inning when the score stood 3 to 0 in favor of Gladstone. Catcher Clauben of Menominee missed his train and failed to show up and Bailey had to be pulled from second base to act as a substitute catcher. Griffith was in the box and the game went well up to the beginning of the sixth, when the umpire put a stop to the effectiveness of Griffith's pit ball. With the pitcher's selection in that position, the result was inevitable. The home team, however, did not know why red hair is necessary and this season's crop of hair is not what it used to be. We should never have had this and you wouldn't have it either.

CROSBY'S KIDS

MAMA! WILL YOU RING UP MY LITTLE RUBBER BALL WITH THE HOLE IN IT?

The team made a total of 13 hits and only one error.

JURY TERM OF CIRCUIT COURT OPENS THIS MORNING

The July term of the Delta county circuit court opened at Escanaba this morning with Judge Flannigan presiding. This is the annual non-jury term and it is expected that the session will be a short one. This morning was taken up with the granting of naturalization papers to a long list of applicants and this afternoon adjournment was taken until tomorrow after passing resolutions for the late John Power, a member of the Delta county bar.

NOTICE
Degree of Honor will hold their annual picnic at the Park Tuesday July 13, members and their families come and bring a lunch.
Supper served at 7 o'clock.

Capt. McCauley Meets Death by Drowning in Lake

Word has been received here of the death of Captain John McCauley, a former resident of Escanaba, and well known to the many seamen of this port. According to the information gained from relatives here Captain McCauley met death by drowning at Lorain, Ohio. No other particulars have been received of the fatality.

Capt. McCauley, who was a brother of Capt. Charles McCauley, U. S. N., and Mrs. Anne Gallagher of Escanaba, was well known in marine circles of this region. Much of his early life was spent in Escanaba. The family moved to Cleveland about seven years ago. Besides the local brother and sister a brother Capt. James McCauley, of Milwaukee, also a vessel master on the lakes, and Mrs. A. N. Harrow, of California, survive.

Mrs. Gallagher and Mrs. Charles McCauley are enroute to Cleveland to attend the funeral which will be held Saturday in Cleveland.

Has Narrow Escape

Miss Grace Hood, daughter of F. Hood, Wisconsin avenue, had a narrow escape from drowning Sunday afternoon near the Teuth street dock. Grace is a Camp Fire girl and was learning to swim in water over her head. She became tired, and sank down over into the water, coming up near an anchored boat. This she managed to hold onto until other swimmers her predicament, came to her assistance and is now none the worse for the experience.

MOVE IS MADE TOWARD IMPROVING BATH HOUSE

Evidently the communication which the Reporter received concerning the condition of the bath house had an effect on somebody, for the floor of the building, which was in a filthy condition has been thoroughly scrubbed. Now it somebody would fix the doors so they could be tightly closed, would put some hooks or nails on the walls and make a board bench for each compartment, the place would be very serviceable.

Gladstone people do not appreciate the safe bathing beach and warm water they have at their command. People living on Lake Superior can seldom take the lake for bathing purposes due to the coldness of the water. We should take advantage of our splendid facilities, for bathing in both a healthful and pleasant amusement.

NEARLY KNOCKED OUT BY DRINKING SLOAN'S LINIMENT

YOUNG MAN WAS IN A SERIOUS CONDITION FROM EFFECTS OF PATENT MEDICINE JAG.

Sloan's liniment applied internally, several different brands of toilet water and hair tonics, came near costing the life of a local young man yesterday and it is probable his life to an iron constitution and a stomach lined with brass.

The taking into custody of the young man yesterday following his wanderings about the city, may also lead to the arrest of a local soft drink dispenser and pool room man, where he secured a couple of drinks of "moonshine." After drinking the stuff he got so drunk that he was taken to a local doctor who advised he be placed in the city lock-up.

This morning the young man appeared to have gotten over the ill-effects of the liniment and moonshine jag and it is probable the case against him will be dropped as he furnished the police with valuable evidence that may lead to the arrest of certain parties who are selling the moonshine.

KIPLING LAD CAN SPEAK AFTER LONG SILENCE

After having undergone an operation at the University Hospital at Ann Arbor, Walter Kipling, a four year old child of Kipling, who has been totally deaf and dumb for three years, is now able to speak and will probably hear.

Walter, who is a grandson of Joe Beaudry, fell downstairs when but a year old causing brain or spinal fever and leaving him deaf and dumb. He was taken about two weeks ago to Ann Arbor where a delicate operation was performed, and now, much to the joy of his relatives the lad can say several words.

If he does not continue to progress he will be taken back to the hospital for further treatment.

CARS COLLIDE NEAR DAYS RIVER BRIDGE

A rather unusual accident occurred Saturday night, as a result of which both the cars of A. B. Cassidy and P. L. Burt are somewhat damaged. The car of Cassidy had been left at the side of the road near the Days River bridge having run out of gas. Evidently the driver of the Cassidy car failed to see it in time, so the cars collided, injuring no one. The Burt car is now undergoing repairs at a garage in Escanaba.

Better even to be a joy-rider than a sorrower.

HOUGHTON MAN WAS KILLED AT TOURNAMENT

LACRIMUM CELEBRATION ENDS BECAUSE OF TRAGEDY—LOCAL FIREMEN EXCEL.

Due to the tragical death of Frank Belfry, a member of the Houghton team, the Lacrimum Tournament came to an abrupt ending, and the members of the fire department from this city who took part in it arrived home Saturday night.

Belfry was a motor truck driver, and in the fourth race of the day his foot caught in the wheel of a truck in such a way as to throw him face down, fracturing his skull and forcing his spine almost through his stomach. Death occurred a few minutes after the accident.

Never before in the history of the Upper Peninsula Lacrimum has such an accident occurred. The tournament closed immediately. The local team had made a good showing so far, winning two seconds and one first, netting the about \$75. It was decided by all the firemen to turn over the prize money to the widow of Frank Belfry, which met with the approval of the Gladstone branch. They then collected flowers to be sent to the funeral.

The Houghton team seems to have been the only team that matched up with ours, and the prize money probably had been about evenly divided.

BABY ANIMALS TO BE SHOWN AT CIRCUS

Those who visit the Campbell-Bailey-Hutchinson Combined Circus Monday and Tuesday next can enjoy the Gladstone on Thursday, July 15, will have the pleasure of seeing any number of the babies of the Animal Kingdom. Baby Lions, Baby Monkeys, and Baby Siberian Goats. The Circus is said to have some of the best trained wild animals acts of any Circus traveling, beautiful High School Horses, Ponies and Wonderful Dogs. Also a troupe of performing Elephants, whose performance is the most sensational of all.

The Circus will give a Free Street parade at Noon and two performances afternoon and night at 2 and 8 p. m.

BRAMPTON MAN LOSES HOME AND HOUSEHOLD GOODS

Matt Johnson, who owns a farm near Brampton, met with great misfortune last Monday, when his house and all its contents was burned to the ground, while he and his family were attending a picnic.

Nothing is left but a little farm machinery, a horse, a few cows, and a barn.

Through the kindness of neighbors, Mr. Johnson and his family have secured a home until he can rebuild one of his own. How the fire started, still remains a mystery. Insurance amounting to \$300 was carried on the place.

Into the Wilds of Canada.

Albion Bascomblin of this city, and William Filion of Escanaba, leave tomorrow in company with Roy McManus of Wyoming, for northern Ontario, Canada, 75 miles from civilization, to get samples of gold ore from the claim that Mr. McManus owns there. They will be gone about two months.

Those who are willing to sacrifice generally are given the privilege.

NEGAUNEE LANDS NEXT TOURNAMENT FOR THE FIREMEN

UP-STATE CITY WILL HAVE ANNUAL CONVENTION THERE NEXT MEETING.

Negaunee's efforts to land the Upper Peninsula Firemen's tournament for next year have met with success, as at the tournament at Lacrimum this week, and who are expected to arrive home Saturday evening.

Wakarusa and Habel were also in here running for the 1921 convention, but were outwitted in favor of Negaunee. The decision was made the first night of the tournament, after the delegates had assembled from all parts of the upper peninsula, and had heard speeches by Judge T. A. Thoren of this city, an honorary member of the department and Mayor N. J. Robbins, who accompanied the firemen to aid in their efforts to land the 1921 meet.

There was some indecision as to what town should get the convention at the opening, but after J. M. Thoren and Mayor Robbins had delivered the authorized welcome of the Negaunee city council and the chamber of commerce, and presented a lively reception and celebration in Negaunee, the delegates voted the next convention to this city by acclamation. Negaunee's facilities for handling the crowds were shown by Mayor Robbins, who cited the manner in which the many visitors on July 4 and 5 were taken care of.

Filion is Secretary.
Thomas J. Filion of Negaunee, was honored by the delegates present by being chosen secretary of the convention for the twenty-fourth consecutive time. Mr. Filion has served the association continuously during those 24 years.

More Fine Cows For Delta Are Distributed Now

Another fine lot of Holstein cows has been received in Delta county and will aid considerably in bettering the dairy conditions here. The cows were picked out by County Agent Pattison and distributed to the following farmers:

- August Porath, Ford River, four cows.
- Frank Porath, Ford River, three cows.
- W. T. Grear, Ford River, two cows.
- Axel Anderson, Bark River, two cows.
- John Olson, Bark River, two cows.
- Matt Loehen, Flat Rock, five cows.
- John Brinker, Danforth, two cows.

Arrive From Austria.

Mrs. Stef Merle and Mrs. Paul Payne, arrived last Saturday night from Austria to join their husbands, who are residents of the Delta settlement. The women report that conditions in Austria at present as simply unbearable and were glad to get away from there.

Saw Real Live Bear.

That the upper peninsula is still pretty much of a wilderness even in Delta county is borne out by the fact that while driving down to Monominee Saturday a bear cub crossed the road just ahead of the car a short distance south of Ford River. This was the first bear we have seen outside of those in captivity.

The trouble with most "brilliant conversationalists" is that nobody can remember anything they've said after they're through brilliantly conversing.

NO NEW CANDIDATES FOR SCHOOL BOARD VACANCIES

The annual school election which began at 4 o'clock this afternoon and will continue until 6 o'clock promises to be a very quiet one as there is no opposition to the reelection of David N. Kee, president of the board, and Paul B. Hammond, secretary. The time for all other names of candidates expired at noon Saturday and as no other names were reported than those of Messrs. Kee and Hammond, these are only ones to appear on the ballots and will be elected. Both are good men as is evidenced by the fact that they have no opposition for reelection.

REMODELING OF CITY HALL TO BEGIN

ACTION OF COUNCIL APPROVED BY WATER BOARD.

At a meeting of the water board which was held Friday evening, the matter concerning the acceptance of Nels Gorman's bid of \$2,485 by the city council for the remodeling of the city hall was submitted and approved. Attorney Jackson was instructed to make ready the contract and the work will soon begin.

Mr. Gorman says that the excavating will begin immediately as he wishes to complete the work as soon as possible. The plans call for an addition, 15 feet long and 10 feet wide. This will make sufficient room for the city laboratory department where the water is analyzed and other tests are made.

The heating plant will be installed also as this is separate from Mr. Gorman's bid and will probably require an other contract.

The old prison cells which have served their purpose for so long, will be torn down and new ones built also as an office for the chief of police will be furnished.

Mr. Gorman expects to have completed the job in about two months, and after the installation of the heating plant, the place will be quite adequate to the needs of the city employees.

Fred Huber Recovering.

Justice Frederick Huber, who has been seriously ill with erysipelas for some time, has had a turn for the better and is now on the road to speedy recovery.

Recovering from Operation.

Mrs. Clyde Foster, who was operated last week for appendicitis, is recovering nicely from the operation and will soon be up.

CLOSED DEER SEASON HEARING AGAIN AT MARQUETTE

Marquette—Another hearing on the proposed closing of the deer season, may be held here soon, inasmuch as a petition for such a hearing is being circulated among the members of the board of supervisors. All of whom the document has been presented so far have signed it.

Under date of July 2, the blank petition, accompanied by a letter, was sent to Game Warden E. D. Mosher by John Baird, state game, fish and forest fire commissioner. Stating that the supervisors of several upper peninsula counties have requested a hearing on the closed season, the letter requests Mr. Mosher to present the petition to the supervisors of Marquette county.

In view of the meeting which has already been held here, the purpose of the department in requesting the petition is not entirely clear. It is assumed, however, that the commission desires a more official declaration from the supervisors than the informal one presented at the previous meeting. It is also pointed out that very few counties of the upper peninsula had actual representation here, and that such views as were expressed were those of individuals rather than of the communities which they represented.

Should another hearing be secured, the action of the commission, especially its effect upon the season of 1921, would be problematical. Commissioner Baird stated to the meeting here last month he would recommend a ten-day season from Nov. 20 to 30.

Some men shed ideas like an anvil sheds sparks—they're worth seeking; others absorb your own mentality like a cat licks up cream—they're worth avoiding.

FEDERAL OFFICERS CAPTURE STILL

FRED LINGQUIST ARRESTED FOR ILLEGAL MAKING OF LIQUORS.

Fred Lingquist, arrested by Deputy U. S. Marshal Hurley late Thursday night at Escanaba, after he had taken in a raid conducted by Federal Prohibition Agent J. E. Pillion, entered a plea of guilty to Manufacturing intoxicating alcoholic liquor, when arraigned before U. S. Commissioner James Frost shortly before midnight. Lingquist will be taken to Marquette tomorrow and will be arraigned in federal court at the 300 next week.

The still which Lingquist was operating was located in a shack on a farm about a half mile south of the Narenta railroad crossing. The farm is owned by Oscar Carlson, who enlisted in the army several months ago. The federal men have known for some time that a still was in operation near Bark River, but they did not succeed in locating it until last Saturday, they stated. Two federal officers came down from Marquette Saturday night to raid the place, but they lacked necessary information upon which to base a complaint for a search warrant, so they returned without having made the raid. Officer Pillion was sent here on the east the first part of the week by Leo J. Grove, officer in charge of this district. At 7 o'clock Thursday evening the search warrant was issued by Commissioner Frost. The officer was back to the city before 11 o'clock with his prisoner and with a still, a car of grain mash and a full sack of grain used in making the moonshine.

Made in Town.
The still used by Lingquist was made by an employee of an Escanaba hardware company, so he stated, and it was purchased and operated by Carlson before he enlisted in the army. When the raid was made Lingquist threw up his hands and said, "I am guilty and I might as well take my medicine and go to jail," the officer declared. While waiting before Commissioner Frost he was asked if he wanted to secure bonds, and replied he did not.

Beyond saying that four other two of them Escanaba men—were connected with his moonshining operations Lingquist refused to do any talk. Lingquist refused to do any talking. Officer Filion, however, secured a lot of information in the preliminary investigation he made, and he has the names of the four men who were associated with Lingquist. One of them is an Escanaba saloonkeeper who is selling booze every day, according to his statement on court.

"Had we been there over four hours there would have been more arrests made because there is evidence that many drunks were about the place," one of the officers told a reporter after the hearing.

The reporter went to the scene of the still after it had been seized and by the order of the judge "such booze" was made to drink.

One glance at the still and the contents would be sufficient to vouch for the fact that the state distill of pure food is not entirely clear. It is assumed, however, that a dark brown color with an odor not tasteful to many appetites appears to be about the shortest description for the liquor.

"We have not taken an active part in the raids of Delta county during the past few weeks," the federal official declared. "Because we wanted to see if the Delta county officials were willing to do the work themselves. However with the result that has been gained. We will be back to start work once more."

MUSKOGON BABE DIES OF RATTLE SNAKE BITE

Muskogon, Mich.—Elizabeth Nolan, aged 2 years, daughter of Mr. and Mrs. F. Nolan of Little Black Creek, is dead at Hackley hospital here as the result of a rattlesnake bite. The little girl was playing on the lawn near her home, when the rattler attacked her, biting her on the right ankle. The girl was rushed to Hackley hospital where the bite was cut open. She died a few hours later.

Bring Man Here After Arrested In Federal Raid

Federal Marshall Hurley and his deputies came from Ironwood last night where they conducted a successful raid, bringing back with them John Carl, of that city, who was charged and caught in the act of violating the federal liquor laws.

He was placed under arrest on a warrant gained ahead of time and taken to Escanaba where he was arraigned before United States Court Commissioner James Frost.

He had nothing to say on arraignment and was bound over to the United States court for trial. Bonds were furnished by friends of his and he was released pending further investigation. He will be added to the long list of defendants who will face trial at the Scoe at the coming term of high court.

The approaching session of the United States court will be the busiest ever conducted in this district. At the Marquette trials last term, several Escanaba men were arraigned. Some pleaded guilty and were fined while others were released because of lack of evidence.

"We have been conducting many successful raids of late," Mr. Hurley declared after the hearing, and intend to until we bring such pressure to bear on these violators that they will put an end to it themselves."

The greater number of raids that have been carried on by the federal men of late have been outside of Delta county.

Frank D. Scott Pays Escanaba A Visit Thursday

Congressman Frank D. Scott of this district was in Escanaba Thursday on a pleasure trip just taking a rest and on way home for a vacation.

Asked if he had any statement for the press, Mr. Scott replied that he was resting these days and that if "he wanted some front page publicity" he would make a statement later but that at this time had nothing to say.

Mr. Scott remarked about the business like appearance of Escanaba and expressed pride at having a city as prosperous looking as this in the district he represents in the United States congress.

Mr. Scott has been busily engaged at the session in Congress which recently was conducted and after completing work on matters which had been pending in Washington left for his home in Alpena, where he will spend a vacation.

Mr. Scott had nothing to say on politics maintaining that this is a pleasure trip and that his visit to Escanaba was merely to rest and call on some of his many friends here.

The Congressman has made many friends by his careful distribution of government seed which were sent through the district a few weeks ago.

His many friends in Escanaba were glad to see the man who represented them in a Congress which was marked by some of the most bitter battles ever recorded in that great body.

Always standing for the highest principles of Americanism, he has made an enviable record in the lower house.

He will leave this evening for his home after stopping at a few places before reaching there.

Nolden's Store Robbed. Twelve, believed by police, to be juveniles broke into and robbed the clothing store of J. P. Nolden, Ludington street, at a late hour Thursday night, taking away with them about \$15 in cash, a few needles, some cuff links and other minor articles of men's or boys' furnishings.

According to evidence left by the robbery, entrance was gained through a back window, the plate having been broken. Appearances are that those who made the midnight call were familiar with the store and knew where to find the money and articles wanted by them.

It is believed that the group who conducted the robbery are part of "juvenile gang," whom the police are making an effort to locate and who will be dealt with according to the law as soon as the necessary evidence is secured.

Rev. Sateren Arrives. The Rev. Lawrence H. Sateren, who recently accepted a call to the pastorate of the Norwegian Danish Lutheran church of this city, arrived here Friday morning from Pinopol, Saskatchewan, Canada, to take charge of the parish formerly headed by the Rev. O. C. Dahlager.

The Rev. Mr. Sateren was formerly in charge of a large Canadian parish where he made an enviable record in his successful ministry, and he comes to Escanaba highly recommended. RAPID RIVER

As the result of a meeting of the local business men held in the fire hall last Wednesday evening, the local stores will close every Thursday afternoon throughout the months of July and August, commencing with next Thursday, July 15.

The movement is one in effect more or less all over the state, and inasmuch as the business men and their clerks put in time almost every evening and particularly Saturday evenings, it is felt that they are entitled to the half holiday once a week during the hot days of summer.

Already many are planning what they are going to do with their Thursday afternoons and it ranges all the way from working in the garden to a boy ride.

Petty stealing and minor depredations of a like nature which have been going on in the community for some time past is about done for a slum with the discovery of at least one gang of youngsters caught in at least one escapade. An investigation is being made and whether or not the lads will be taken before the juvenile depends on the result of the investigation.

The case in question is one where a number of young lads whose names will be omitted, broke into Mr. Smith's candy store during his absence in the lower peninsula last week. One young lad who was not a member of the party happened to come along just as the act was about completed and was given some of the spoils, the price of silence. Instead, however, he had went home and confessed to his mother the whole transaction. The mother went to Mr. Smith on his return and told what had happened.

Mr. Smith has reported the matter to the authorities and action is being deferred for the present.

Next Monday afternoon the annual school election will be held in the fire hall at which time the voters will choose two trustees. So far as is known at present there are three candidates as follows:

Baer Buchman, J. Ambrose, Shippy and Alec Monk. J. A. Shippy and Baer Buchman are candidates for reelection as their present terms are about to expire, while Alec Monk is a new candidate having been prevailed to enter the race.

These candidates are too well known in the community to need any further introduction. The candidates receiving the largest number of votes will be elected to the positions and unless more votes are cast this year than in years past, it will not require many.

Everett, the two-year old son of Mr. and Mrs. Andrew Wils met with a painful accident last Monday, when he caught his thumb in the family washing machine, completely severing the member.

His father, Andrew Wils was oiling the machine preparatory to helping with the family washing. The machine is one constructed in a manner as to be perfectly safe, but Andrew had part of the guards removed while oiling and the cog wheels were exposed for but a moment. While he was straightening up to oil another part of the machine the little fellow reached and caught his hand in the machinery and the accident was over in a minute.

Dr. Conover was hastily summoned and dressed the wound and the little fellow is resting as easily as can be expected under the circumstances.

L. Milkes and family visited friends at Escanaba Monday.

Denzil Young returned yesterday from the hospital, where he has been for the past week recovering from an automobile accident. He is feeling fine though the front of his face is still somewhat disfigured and his left eye is affected.

Sarah Bernan and Maud Hooks are mer vacation.

John Detrick and family and Emma Cavill who have been visiting at the home of Mrs. Dedrick's brother, John Cavill, left Thursday for their home at Ladysmith, Friday.

Mr. and Mrs. Walter Otter and Florie Pulmar of Cooks, spent the Fourth at River River.

Tires are often sold the same way politics are.

The last people to wake up to what they are getting are the people who pay the bills.

The bills are getting too big these days in both cases. And the man who is feeling it most with respect to tires is the man who owns a moderate-price car.

The idea that the small car owner doesn't need a good tire is rapidly going the way of all mistaken ideas.

He needs it more than anyone else. It's part of our job, as we view it, to see that he gets it.

Our tire service starts with good tires—U. S. Tires. All sizes made to a single standard of quality—none graded down to the price of the car they will go on.

U. S. perfected the first straight side automobile tire—the first pneumatic truck tire.

The U. S. guarantee is for the life of the tire, and not for a limited mileage.

When we recommend and sell U. S. Tires we do so in the interest of greater tire economy. It is our experience that that is the best way to build up a sound and sizable business.

NEWS OF THE MOVIES

Douglas Fairbanks in "His Majesty, the American" will be the feature offering at the Lyric theatre on Thursday and Friday of this week. This great film was advertised to be shown here some time ago, but missed connections. The film is so popular that Manager Crests could not secure another bookings until this week, but the movie fans are to be repaid for their long wait with the best picture "Doug" has yet appeared in.

Travelers returning from the far east tell wonderful stories concerning the oriental mystics who do feats that look almost like witchcraft, but no story of the Hindu's can compare with the talk that is created by Nalla Axmi, the Master Seer and crystal Gazer who with his company of mystics will appear at Gladstone theatre, commencing July 22. In India the name of Nalla Axmi is a household word. In that country he has many times given his performances before all the dignitaries of the British Government and has many times appeared in the temples and has as founded all the far famed Fakirs of British India. Nalla Axmi and his clever Company has appeared in every large city on earth including 16 weeks in London, 20 weeks at different times in Greater New York, and always in the higher class theatres. The features presented are sensational and have always pleased the most critical and exacting audience. He has the longest and most sensational press notices ever given to any one man.

They'll forgive you for being indiscreet but not for bragging about it. The wrong man cannot remain long in the right place unless he can be the right man.

LUCY M. FOX

This is Miss Lucy M. Fox, a charming "movie" star, who recently arrived in New York on the S. S. France. She has just completed her part in a startling screen serial which had its setting in many of Europe's foremost resorts, including Nice and Monte Carlo.

THE HOME SHAMPOO

MUCH of the effectiveness of a shampoo depends upon where and how the hair is dried. If it is possible to dry the hair in the sun and air outdoors, it will do the best three or four times as much good as though the whole operation were completed inside the room. For this reason, the home shampoo should be better than the professional sort which costs anywhere from a half-dollar to two dollars. Professionals dry the head with a hot air machine that blows the hair into snarls and dries out much of the new oils that the massage and the hot water have already sent into the tiny hair shafts. The chief trouble with the home shampoo is that women do not realize that it takes an awful lot of soap to make the head thoroughly clean.

Tar soap or liquid castile is best, the hair should be wet all over with hot water and the soap rubbed in. The lather should be rubbed hard with the fingers till every bit of the hair has been gone over again and again with the cleansing suds. Then it should be rinsed off in water even a trifle hotter than the first water. And then comes the important part of the shampoo. The whole head should be gone over a second time with soap and hot water, the new

The Hair Must Be Kept Unmistakably Clean—Use Soap Twice at Every Shampoo.

lather rubbed into the scalp and rinsed again in hot water. See the amount of dirt that comes off in this second rinse and see how much glossier your hair is afterward, and you will realize that one soaping is not enough.

For the head must not be just clean, it must be antiseptically clean, to avoid dandruff and falling hair. And there is a difference between them.

Of course, every woman knows how carefully the hair must be rinsed and dried, and that a tonic rubbed on immediately after is always advisable.

Catching the Sun at Home. Jimmy was just recovering from a spell of sickness and unity was to take him out of doors on the first bright day. It happened to be cloudy day after day for over a week. One morning upon looking anxiously out of the window he was overjoyed to see the sun shining. "Oh, sun," he eagerly shouted, "come and take me out, quick, for the sun gets ready to leave town again!"

RADICAL LABOR ORGANIZATIONS ASK THIRD PARTY

PLAN TO BRING ALL PARTIES INTO BIG LIBERAL MOVEMENT—RUSSIAN SYSTEM.

Chicago, Ill.—Amalgamation of radical labor organizations, world war veterans and liberals behind a single presidential ticket and platform, will be sought here at the time of the conventions this month of the National Labor party and of the committee of 48. It is reported by S. I. Rybin of the committee of 48.

The plan is for each organization to continue its identity but all unite in a common presidential campaign for a radical candidate on a radical platform.

The organizations which effort is being made to enlist include the Labor Party of the United States, National Non-partisan League, Single Tax Party, Committee of 48, Triple Alliance of the Northwest, People's League of Missouri, World War Veterans, and National Public Ownership League.

"The plan is to bring all of the radical organizations possible into a big organized liberal movement," said one of the promoters. "In program all have points of similarity."

Such a union for this year's presidential campaign has been under consideration for a number of months. The Committee of 48 and the national labor party have been among the chief factors in the proposition. The organizations have not gotten together as yet. The question will come before the national conventions here the second week in July of the Committee of 48, labor party and Single Tax Party."

The Committee of 48 is taking a mail referendum on the membership on several questions, including possible presidential candidates. Senator Robert M. LaFollette is leading in the poll.

Miss Marjorie Erickson returned to her home Tuesday night after visiting friends here.

Miss Irene Sundberg was visiting relatives at Florence this week. The young son of Mr. Kapusta on the Dr. Boyer farm near Harris was severely injured when he was kicked by a horse last Sunday morning. He went out to the pasture to bring the horse up, when the accident occurred. He was struck on the head. The lad was hurried to Bark River, but both doctors were out so it became necessary to go to Powers for medical assistance. Information as to the lad's condition are not available as we go to press.

Second Wind

F. GEORGE MATTHEW ADAMS

THE race of Success is won just like any other race—on Second Wind. Second Wind is nothing more or less than reserve power responding and carrying one through to the end. Be a Second Wind Performer.

Some people never experience Second Wind—simply because they never put forth the necessary effort to enable them to draw on their reserve lung space. But the reserve is there just the same and waiting to respond.

Be a Second Wind Performer. The successful man goes through all the little processes of failure and discouragement and defeat—then he gets his Second Wind—pushes all the setbacks aside, and carrying great momentum, he goes on and on. This is always the story of the one who has the courage and stamina to press on until the Second Wind is reached.

Be a Second Wind Performer. If you want to experience the delight and power that results from the acquiring of your Second Wind you have but to do more than you are told to do—more than you have to do. Second Wind comes through Initiative, Enthusiasm and Determination.

Be a Second Wind Performer. The trouble with most people who say they are "miserable" is that they are understood too well for their own purposes.

If music is the language of the soul, it is getting so now that a man who has no automobile and never owned one, brags about it.

ROOSEVELT.

There is a curious analogy in showing another Roosevelt from the navy department to run as vice-president of the United States, and the curious part of the affair is the more emphasized in that time it is the democrats who have made the choice.

Franklin D. Roosevelt is a man of rather more than average ability and has a good record but he has nothing of the strength of personality of his famous namesake. That name carries a certain weight, but one can't help wondering whether the democratic prejudice against it isn't great enough to certain quarters to offset any vote getting power it may have in others.

Speaking geographically the democratic ticket is an eastern one. New England and New York and even Pennsylvania may speak of as a western man, but the country from Indiana westward will think of him rather as an eastern one. But, as the republican ticket is just as geographically eastern this is no special disadvantage.

To an observer it looks as if the choice of Meredith is a western man and closely in touch with the farmers of the whole upper Mississippi valley, or of Colby with his progressive relationship would have strengthened the ticket more than the name of Roosevelt will.

The real reason for Roosevelt's selection is undoubtedly similar to that which decided the choice in the favor of Governor Cox. Roosevelt is a New York man and such political strength as he has lies in that state. There is no New York man in the republican ticket, and the New York electoral vote is the most valuable prize in the game. With the New York vote ready to go to Cox, it is hardly surprising that the republican party should have chosen a New York man to carry the day in that state.

REACTION

Many people are complaining because the railroads are returning to private ownership are not functioning appreciably better than they were and that they are asking for much higher freight rates. Others are suggesting that the government must gain direct control over certain articles because they are some up since the government restrictions were removed.

These people fail to realize clearly a true state of affairs in both cases. A true state of affairs in both cases may be seen in that the things of which they complain are not the result of private ownership in the case of unregulated trade in the case of government control and previous price fixing.

The railroads control get along now about very high rates because the government control left them in such a shape. Prices of certain articles have become abnormally high because the government kept them abnormally low by artificial restrictions. While the railroads were under the government control part of the rate made needed was raised by increased government appropriations, a part was used to become a deficit and for future support. Besides this the government did not make the improvements needed did not keep the equipment up to date it was to say nothing of investing it to the point where it was adequate for the present requirements, and did not feel it necessary to make roads earn money enough to start capital.

Under private ownership the railroads must make money enough to react an adequate supply of capital, as must have enough to increase equipment and not quickly, as must have enough to make extensions and keep their properties in pair. They cannot have deficits and cannot depend upon government appropriations. They must get it all in their freight and passenger rates. If price artificially fixed in opposition to the natural law of supply and demand, whether that price is fixed by the government or by traders temporarily in control of the market is a spring held back by the hand. As long as the hand is in control the spring is in the other direction and a violence proportional to the amount of restraint.

The price of sugar had never been allowed it would be lower now and of an abundant supply if the price had been fixed we shall have low cost with a constantly dwindling

WAVING THE HAIR

DAILY find a half dozen or so of letters in my mail, containing a request for something that will make the hair wavy. As a general thing I answer that, while there are various waving fluids on the market, they are mostly inferior, though quite harmless. I know the recipe for two of them, and now that in some cases, the mixture will make the hair wavy, but in other cases it has an effect at all, due to the wrong formation of the hair cells.

ASA might I and see noted your article on the subject of the supply of milk. I am glad to see that the supply is increasing and that there is no further interference. The supply will in time be large enough to drive down the price and normal relations are restored.

Tomato Conserve.
Take five pounds of ripe tomatoes, two pounds of sugar, three lemons cut in dice and one cupful of citric. Cook until thick. While still hot add 1/2 cupful of raisins and one cupful of walnuts.

Rhubarb Conserve.
Take five pounds of ripe sugar, five pounds of rhubarb, four oranges, two pounds of raisins. Cut up the fruit, remove the seeds from the oranges and put through a colander. Cook all together until thick.

Cherry Preserves.
Take two pounds of sugar, one small cupful of water, half until it thick, add three pints of pitted cherries and boil fifteen minutes. Pour into an earthen dish and let stand overnight. In the morning seal in sterile cans, cold.

Grape Conserve.
Take six pounds of ripe grapes, strip them, removing the seeds, then to the skins and seeds add the grated rind and strained juice of four oranges, the juice of two lemons, both together fifteen minutes, then add five pounds of sugar, one pound of seeded raisins, one pint of canned cherries strained from their juice and one-half pound of pecan meats, and one cupful of water. Cook fifteen minutes then pour into glasses or jars.

Don't Use An Iron If You Can Avoid It; The Heat Does Up The Hair

As a general thing, the sort of hair that one is born with is the kind most becoming to the owner's face. In this generation, wavy hair is held as the most beautiful, as every woman desires it, though it is unbecoming to many types of faces. A wavy, long straight hair was considered far more lovely, and no doubt all the early-haired women wet and soaped their locks to remove the offending wave.

meat you still are getting almost three times as much fattening nourishment as though it were lean meat.

No woman who wants to reduce should touch bacon, pork, ham, or such meats. Foxie, steak, such meats as are lean, will give strength without too much fatty tissue. Oysters are a good choice, they have so little fat. Clear soups, as you can see, produce much less fat than cream soups. A breakfast of a few slices of toast with butter and one cup of coffee with three lumps of sugar and cream, has more fat in it than a full meal of reducing foods. Yet one fat woman told me she continued to gain, though that was all she ever ate for breakfast.

Bark River News

Mr. and Mrs. Peter Condit and family were in the city Sunday and Monday. They returned Monday evening.

Arthur Shacker and Miss Anna Condit returned to Escanaba Monday afternoon.

Mr. Lawrence Belanger and friends returned to Escanaba Monday afternoon.

Miss Mildred Belanger was visiting her aunt, Mrs. Wm. Foley, Monday.

Peter Condit and Peter Poulson were in Escanaba on business Tuesday.

The members of the M. E. Sunday school enjoyed a very pleasant outing last Monday on the church grounds. The regular established Fourth of July stands such as rows of all kinds had a place on the program.

The grounds were again well laid and having refreshments were served to the children.

Mrs. A. Quin and children returned to Escanaba Monday after a two weeks visit with Mrs. Quin's parents, Mr. and Mrs. John Carlson.

County Agent Pattison was in Bark River Wednesday.

Miss Emma Dutton left Tuesday evening for Detroit, Wis., to spend her vacation there.

Miss Helen Solberg arrived here from Lincoln, Neb., today and will spend her vacation with relatives.

Miss Helen, Miss Rose and Lillian Henkin, Miss Raymond and Sam Kolan returned to Marquette, Sunday.

County Engineer McNabb was here yesterday making surveys for the proposed drainage project for the village.

Fred Lindquist an old resident of Bark River is one of those caught in the Federal Prohibition enforcement net. Lindquist has made his home in a shack belonging to Oscar Carlson some distance south of the highway to Escanaba. Information of the presence of a still reached the federal officers. Warrants were issued and Lindquist was taken into custody last night and a still and quantity of mash were confiscated by the officers. Mrs. Hagberg and two children and Mrs. Moberg and daughter Esther, of Minneapolis, are the guests of the Andrews J. Holm family.

Mrs. Henry Kalkas of Escanaba visited her parents here yesterday.

Lindquist was unable to furnish bonds and was committed to jail to await action of the Federal court.

The school owns rolls in District No. 2, and in the Bark River Village District have been completed. The South District this year has a census enrollment of 113 persons of school age, while Bark River District includes 112 in its tabulations. There is an increase of 12 in the country district over the number last year and a considerable decrease in the other school.

The Misses Slaska and Rose Fahy have been engaged to teach the primary and intermediate rooms in the village school while the principal's place remains unfilled. Miss Agnes Johnson will return to her place in District No. 2. The principal will probably remain. School meetings will be held Monday July 15.

A near accident that might have had serious consequences occurred Wednesday evening on the Escanaba road just out of Bark River.

It was then taken to the DeWaght farm, where it died the following morning.

FORD AND EDELSPEND DAY IN U.P.; LOOK OVER LANDS

CHARTER ANN ARBOR CARRERY TO MAKE LAKE TRIP; U.FRENCH CAR.

Henry Ford, of Detroit, automobile magnate, his son, Edsel F. Ford, president of the new Ford Motor corporation, and party were in Menominee early this morning enroute to Iron Mountain, for an inspection trip over timber lands recently acquired by the Ford interests.

The party arrived from the lower peninsula on board an Ann Arbor car ferry, which was specially chartered for the trip. They were scheduled to return from the Iron district late this afternoon and leave immediately for Frankfort on their return to Detroit. During the time the Ford party was away from Menominee the car ferry was anchored in the local harbor.

Ford Uses French Car.
The journey to Iron Mountain was not made in one of the River king's own cars, a machine of French design being used. The itinerary called for a two hour and 30 minute run to Iron Mountain, three hours inspection and a return trip here.

The Ford holdings in the upper peninsula are only a part of the interests of the new corporation, recently organized under the laws of the state of Delaware.

On the papers filed in the office of the secretary of state at Lansing, including an application for permission to do business in Michigan, the corporation was organized in Delaware with a capitalized stock of \$100,000.

The Great Lunkhead Mystery

Follow the Travels of the Famous Medal Designed to be Worn by the Person Proving the Right to be Crowned the World as the Biggest Lunkhead.

EPISODE IV

When the Man who QUIT CHASING AFTER NEW JOBS turned the BIGGEST LUNKHEAD Medal over to the Man WHO NEVER CONTROLLED HIS TEMPER this new wearer of the Medal began to think over why HE had been picked out.

Then he saw that HE had been HURTING HIMSELF by ALWAYS LOSING HIS TEMPER. He saw that he was TURNING FRIENDS AWAY by being GLOUCHY. He saw that he HURT HIMSELF when he let his TEMPER get him so SURE that he had just dropped his tools and QUIT HIS JOB. He saw that he WAS CARELESS AROUND MACHINERY when he was SURE and that he PUT HIMSELF in danger of ACCIDENT.

When he saw all this he decided that he would CONTROL HIS TEMPER and that he looked around for a new wearer for the medal and he planned it on the MAN WHO WAS ALWAYS MAKING EXCUSES.

THE SANDMAN STORY

FOX AND THE WITCH

BLACK FOX had often heard that there were witches and fairies living somewhere in the forest, but he had never seen one and did not bother even to wonder where they had their home until one day he thought of something which would need the help of a witch.

So one night he began to hunt and found the cave where an old witch and her black cat lived. They were sitting about a big kettle of something boiling over a fire outside the cave and for a second Black Fox thought of running away.

But instead, he hid behind a rock and watched the strange pair. He saw the old witch dip into the boiling pot and take out a cupful of something and give it to the black cat to drink, which changed the cat into a fox just like himself.

"Ah, this is just the place I am looking for," said Black Fox, running up to the witch, who was so startled by seeing two foxes she almost tripped into the pot.

"Madam, I want your help," said Black Fox. "I want to have the power to change myself into a turkey whenever I like and the power to change back again also."

"What will you give me if I do this?" asked the greedy old creature. Black Fox had not thought of that. He had always got everything for nothing so far and this was a new idea, but he saw at once that this time he would have to pay, so he asked her what she wanted.

"As you have no gold to give," said the witch, "I will be easy with you and ask only for a stone, but it must be taken from the bottom of the pool that is in the middle of the forest and from no other place."

Black Fox almost laughed at this. It sounded so easy. He promised at once to begin the next night, bringing a stone from the bottom of the forest pool and from no other place.

Off he ran to the pool, and then he thought for the first time that this was no easy task for him to dive each night to the bottom and bring up a stone.

"How is she to know, I wonder, where the stone comes from?" thought wise Black Fox. "If an iron going to sink my life every night getting a stone from that deep pool when there are plenty of stones right here on the ground?"

The next night, as he was on his way to the witch's cave Black Fox picked up a stone from the ground and took it along.

"Here is the stone from the bottom of the pool, wise Witch," said Black Fox, "and now I beg of you to quick and give me the power I crave."

The old witch looked at the stone, and she knew at once Black Fox had tried to deceive her, but said not a word. Instead she went to the boiling kettle and gave him some of the fluid in a cup. "Drink," she said, and had Black Fox noticed the look in her eyes he would have dropped the cup and run.

But he didn't. So he drank it and asked: "What shall I do next, wise Witch?"

"Wiser than you think," muttered the witch under her breath, but she told Black Fox all that he had to do was to wash three times when he wanted to change into a turkey, and it would be granted.

"But remember, this will only last for tonight. Tomorrow you must bring me another stone from the bottom of the forest pool and from no other place."

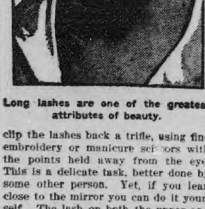

Black Fox promised, and off he went, laughing to himself that the old witch did not know the difference and it would be easy to bring the stone each night.

Beauty Chats By EDNA KENT FORBES LONG LASHES

LONG, thick eyelashes are to be desired not only because of their own beauty and the added character they lend the eye, but because they afford so much protection to the eye itself. They sift the dust from the air, minimizing the chances of getting painful particles into the eye, they shade the eye from strong lights and protect the sensitive nerves of sight.

Long lashes are comparatively easy to acquire. The first thing to do is to

clip the lashes back a trifle, using fine embroidery or manicure scissors with the points held away from the eye. This is a delicate task, better done by some other person. Yet, if you lean close to the mirror you can do it yourself. The lash on both the upper and lower lid should be clipped. This will make them grow in longer and thicker, too.
