GLADSTONE, MICH., MONDAY EVENING, NOVEMBER 1, 1920

25c PER MONTH

LOCAL LEGION WINS HOT TILT WITH MUNSING BY 18-13 SCORE ON SUNDAY

Gladstone Shows Improved Form Following Addition of New Material

Before a good sized crowd of howling enthusiasts, Gladstone's American Legion football team Sunday afternoon took the measure of the burly Munsing aggregation in a splendidly contested game, 18 to 13. As had been predicted, the local showed surprising improvement over their form at Menominee where the zero sign was hung on their end of the string. The addition of Gagner at full proved a splendid move.

One of the gratifying features to local fans, was the large crowd of Escanaba fans that came over and rooted for the Gladstone squad. It was an exhibition of support which went a long way toward improving athletic relationship between Gladstone and Escanaba.

First Touchdown Quick
Gladstone made her first touchdown in the first three minutes of play on a line plunge by Gagner, a forward pass to White and Artley went over in a long run.

Second Touchdown came in the third quarter, when Beaudry slipped the ball across on a fake play which worked so perfectly that it is doubted whether Munsing yet realizes what happened.

The last scoring was done in the last quarter, when Artley made a touchdown on a line back.

Munsing played fast, snappy ball and, as indicated by the score, it was not a runaway match by any means. Capt. Johnson, of the visitors was a whirlwind and repeatedly demonstrated his scintillating worth to his team mate who made the first touchdown for Munsing after a series of ends runs in the second quarter. His ground passing was the wonder of the game and he was generously credited for his superior style of play.

Johnson also put across another long end run for a touchdown in the last quarter of the game.

Bright Spots
Johnson's run and Beaudry's 50-yard run for a touchdown on a fake play, were the bright particular features of a game which abounded in hot work and thrilling situations.

Despite the fact that the sprinkle started at the beginning of the game and continued intermittently during the battle, the crowd appreciated the sport and manifested its approval in the usual noisy but good natured manner.

City Council Will Meet This Evening

The City Council will meet in regular session tonight when, it is understood, the matter of the Dakota avenue sewer assessments will be definitely settled. Several weeks ago it was proposed to collect for that portion of the sewer already completed, it being thought the property owners would be willing to settle as soon as they learned their assessments. The city needs the money and it was suggested that the matter be flung up and the assessments levied for payment.

GLADSTONE HIGH SQUAD IS BEATEN 34 TO 0 IN FRAY WITH MEMOINIEE

Gladstone High was held scoreless by the big Memoiniee team last Saturday, the locals finishing on the zero end of a 34 to 0 score. However, this was not a disappointment to the Gladstone squad. The boys knew before leaving here that they were outclassed by a considerable margin. They felt that if they succeeded in holding their opponents down to a low score, they would have accomplished something, and that is exactly what happened.

The team has shown that it is fast and handy when playing with men of their own weight but, naturally, it is a different proposition when they stand up against a much heavier team. And it appears that while they were prepared to be outwitted some, still the plus best on the part of the opposition was greater than was anticipated.

The locals and fans who accompanied them returned Saturday night, well pleased with the showing they had made, and filled with words of praise for the courteous treatment and generous hospitality shown by the Memoiniee team.

Office Open 4 Hours Beginning Nov 1st

Postmaster Miller announced Friday that the postoffice will be open from 8 to 12 o'clock Sunday, instead of 9 a. m. to 7 p. m. as heretofore. The lobby is open these hours for the convenience of people renting boxes but it seems a certain crowd misunderstanding and used the lobby on Sundays for a gathering place. These new hours will stop that practice.

High School Eleven Play Two More Games

The local high school squad will stage an interesting battle against the St. Joseph High School team of Escanaba Wednesday afternoon after school, 4 o'clock at the Gladstone Ball Park. These are pretty evenly matched and an interesting game is expected. On Friday afternoon at 3 o'clock a game is scheduled with the lusty eleven of Munsing. This will be the last game the locals will play this season. The finale is always the lasting impression and the boys are looking for victory.

Women's Benefit Ass'n. Will Hold a Regular Meeting Wednesday Night in the West Hall.

The Women's Benefit Association will hold a regular meeting Wednesday night in the West Hall.

ABOUT THE WEATHER
Data is furnished by the local office of the Weather Bureau at Escanaba. Rain or snow tonight and Tuesday. Colder. Temperature for the past half week.

DELTA COUNTY REPORTER A GLADSTONE ENTERPRISE

An erroneous impression prevails in some quarters relative to the new management of the Gladstone Reporter. Because both Messrs. Kraus and Ush were former employees of the Escanaba Morning Press, there is a belief among some people, that we are still handling Morning Press business, or that the Morning Press is handling business for the Delta County Reporter. This is not the case. The Delta County Reporter is wholly a Gladstone enterprise, fostered and supported by Gladstone business men and has absolutely no connection with the Morning Press in any way. This statement is published to avoid confusion, inasmuch as several persons have come to the Reporter's office to transact business with the Morning Press, and vice versa. The papers are separate and distinct, have no business connection whatever and are in no way related.

IRISH BONDS WILL BE PUSHED BY LOCAL FOLKS

GOOD MEETING HELD SUNDAY EVENING WHEN COMMITTEE IS APPOINTED

An enthusiastic meeting of local Irish people and those believing in the Irish cause, was held at the parish hall Sunday night, when plans were discussed for the disposal of a certain amount of "Irish Bonds" in this city and locality. Delta county's quota is \$10,000 and a good portion of that amount has been allotted to Gladstone.

Chairman John K. Stack was over from Escanaba last week in conference with local friends and supporters of the Irish cause and last night's meeting was the result. Feeling was keen for the sale of bonds here. The meeting was well attended and the spirit cropping out in the various talks indicates that the project is to be pushed with success in this locality.

Committee Named
A committee was appointed, composed of both men and women whose work will be to make a canvass among friends of the cause and arrange for the sale of as many bonds as possible.

This committee is composed of Mrs. John Murdoch, Mrs. N. J. Lappe, Mrs. Patrick Cannon, Mrs. James Lavelle, and the following gentlemen: J. A. McGee, George Casey, James Lavelle, Daniel Sullivan and James Haenigsen.

It is planned to sell as many bonds as possible to those in a position to buy. Donations of small amounts will also be accepted and those will be pooled and as many bonds bought in this way as the small contributors are able to manage.

Another meeting is to be held two weeks from last night when progress will be reported and perhaps some further plans made for continuing the campaign if it is deemed advisable.

Application of Absent Voters
City Clerk, Arthur L. Williams has received 27 applications for absentee ballots to date. Several of those making application have already cast their ballots.

Let Your Vote Give Answer

Shall we "GO IN" to guarantee the territorial status of the League of Nations' members, to share in the division of arbitrary mandates, and to be included in all its obligations, or shall we strive for peace and good will through ways and means our constitution now provides. Let your vote give answer.

HALLOWEEN IN GLADSTONE NOT DANGEROUS ONE

FEW PRANKS COMMITTED WERE NOT OF THE DESTRUCTIVE KIND

With eight special policemen on the job, two of them mounted, on motor-cycles, hallowe'en passed off in pretty fair shape in Gladstone. The night's activities were free from anything of a damaging character, although several crowds of boys were hounded to ward some destruction when apprehended. About 29 boys in all were brought up to headquarters during the evening but were later released.

Naturally, some things were "run over" but after all they were of a rather harmless kind and not particularly destructive. In one instance it was reported that a lady's washing machine had been taken from a place in the rear of the home and suspended from the flag pole on the central school grounds.

Supic Esherson, of the lighting plant got a hurry call to investigate a fire on a vacant lot at Thirteenth and Michigan avenue. It had been left down to within a foot of the ground and the danger of the incursion burning from a wire, burning the wire in two and allowing a live wire to flourish about the street, was obtained by the timely arrival of Mr. Esherson.

Other than these two instances, nothing particularly out of the ordinary happened.

Roy Denio Can Be Brought Home During This Week

Jesse Denio, whose son Roy was shot in the stomach about a week ago while in company with Delmas Kerr and Lawrence Burr of this city, both of whom were taken into custody, is reported to be progressing nicely in a Sault Ste. Marie hospital, the shooting having occurred at the Soo.

Mr. Denio expects to be able to bring his son home the latter part of this week, as reports he received from the hospital were very encouraging.

FOUR YEAR-OLD LOST IN WOODS NEARLY FREEZES

BARK RIVER YOUNGSTER IS FOUND JUST IN TIME TO SAVE LIFE

Little Joe Barr, four-year-old son of Mr. and Mrs. Felix Barr, of Bark River, had a narrow escape from possible death from exposure between Saturday night and Sunday morning. It was only by the shrewdest good fortune that the little fellow was found early Sunday morning, so entangled in a pile of brush that he would not have been able to extricate himself, and with his little hands and body so numbed by the cold that it would have been but a short time longer until he would have been unable to raise his voice to attract attention.

The child went out with some other children of the family Saturday evening to bring in the cows. Without being missed he wandered into the woods and presumably became lost. The other children notified their parents and searching parties were organized. They beat the woods as far as possible all night long but without success.

Sheriff Gets Bloodhound
Sheriff O'Dea was notified in Escanaba and Sunday morning he came to Gladstone after the Harker's bloodhound. The dog was rotten on the job in record time and was making a good job of following the child's tracks, when a party which had been out since daylight, announced by the firing of guns that they had found the child.

The little fellow's location was discovered by some children on an adjoining farm, who heard a peculiar sobbing while coming from the brush. Being uncertain as to what was hidden there, they went back home and got a gun, with which they cautiously approached the spot. The waiting covered, though in a fainter strain, and finally one of the "hunters" caught a glimpse of a child's "choke" bobbing over a brush pile. The little hunting party made speedy headway in getting the child out of the tangle and returning him to his father in the woods, where they fired their gun several times to attract attention.

Almost Frozen
The child's hands were so benumbed by the cold that they were useless. He had been out all night clad only in light underwear, a suit of overalls and a limited "chuck." His parents were overjoyed to get him back safely and so had results anticipated from his night of exposure in the woods, although had he remained undiscovered a few hours longer, it is stated serious results might have followed.

Fourteen Year Old Girl Has Disappeared From Her Farm Home

Miss Vina Parkonski, daughter of Mr. and Mrs. Parkonski, of the Brock Farm near Stephenson, left home on the morning of September 29th and informed her parents she would visit the Stephenson Fair. She wore a blue suit and straw hat. Up to the present time her parents have never heard from her and any information leading to her whereabouts will be appreciated. She is about 5 feet tall and slender. Fair complexion.

FINE GAME SUPPER FOR FIREMEN OF CITY TONIGHT

A big game supper is to be given at the Eagle hall tonight by the Volunteer Firemen of this city for themselves and their families. Sunday the boys went into the woods and flung after birds it being the last day of the season, there were many other hunters out, but the local firemen succeeded in filling their "quots"—and game bags, and the result will be a fine feed at the Eagle hall this evening.

Miss LaRoche Back And In Good Health

Miss Flora LaRoche city meter reader, returned to her home here yesterday from Chicago where she has been for the past three weeks taking treatment for the removal of a snake bite inflicted late in July while she was reading meters in Kipting. The wound failed to heal properly and poison seemed to spread through the young lady's system. The specialist she consulted in Chicago resorted to some heroic treatments and Miss LaRoche returns having gained about five pounds and in splendid health again.

AN IMPRESSIVE CERMONY HERE NEXT SUNDAY

PROGRAM NEARLY COMPLETED FOR LAYING CORNERSTONE OF ALL SAINTS' CHURCH

Although plans have not been fully completed, enough has been outlined up to this time to show that the laying of the corner stone of the new All Saints' church Sunday afternoon Nov. 7th, will be one of the most solemn and impressive events of the kind ever held in this city.

Virtually every member of the parish will take part in the various phases of the ceremony and the afternoon will end with a big chicken supper, preparations for which have already been started by the ladies of the parish. It is expected to feed at least 500 persons at this supper.

The ceremony incident to the cornerstone laying will begin at 1:30 o'clock when all the children of the parish are to meet at the school grounds, each child bringing a small American flag. The Men Foresters and Women Foresters, and various other organizations within the church are to meet at the school grounds also at 1:30 and Rev. O. J. Bennett today asked the reporter to urge all members of the parish who can possibly do so, to be present at the same time. Every member of the parish is expected to report at the school grounds for the purpose of taking part in the big parade and the subsequent ceremonies.

Band is Coming
Bob's Boys' Band, of Escanaba will be over on the 12 o'clock car and will give a concert on the school grounds previous to the formation of the parade which will pass up Seventh street to Delta avenue, thence west on Delta to Teuth, down Teuth to Wisconsin and east on Wisconsin to the church, where at 2:30 ceremonies of the afternoon will begin.

The parade will be in charge of Eugene Martell, as Marshal. As plans now stand, Bishop Eke is expected to be present to officiate at the laying of the cornerstone but if conditions prevent his presence, he will be represented by Rev. Monsignor Pinton, of Marquette, who will conduct the ceremony.

Address By Dr. 28th
Following the laying of the stone, Rev. F. X. Barr, of St. Patrick's church, of Escanaba, will deliver the address. Father Barr is regarded as one of the most eloquent and forceful speakers among the Catholic clergy of this state and what he will have to say will be most impressive and inspirational.

A large number of the clergy from surrounding communities are expected to be present on this solemn occasion and it will be a big day in the annals of the local parish.

Railroad Men Will Hold Big Meeting Here November 14

Members of the Brotherhood of Locomotive Firemen and Enginemen are planning for a big meeting and banquet here on Nov. 14th when the entire day is to be devoted to the discussion of matters pertinent to the welfare of the organization.

The day is to wind up with a big banquet when the men and their wives and the female members of their families will get together for a social and business meeting. It is expected to be one of the most interesting meetings of the year.

Sewer On Superior Avenue Nears Finish

Contractor Nebel is making rapid progress on the construction of the Superior avenue sewer. He now has two blocks on Superior avenue and two blocks on Elm street completed. This leaves but two blocks between Tenth and Twelfth streets and if the weather holds good for another week or two, it is expected the job will have been finished.

UNION MEN ATTENTION

All Union men of Gladstone are urged to vote tomorrow. DO NOT FORGET TO GO TO THE POLLS. REMEMBER—NUMBERS Count. Gladstone Union Committee.

ORE MOVEMENT IS SATISFACTORY

SHIPMENTS THIS YEAR ARE EXPECTED TO EXCEED 58 MILLION TONS

True ore shipments from the Lake Superior district will exceed 58,000,000 tons this season, according to figures recently tabulated. As a result of favorable weather conditions, with high temperatures and an absence of storms, it is thought that the shipping record of October twenty years ago of 57,000,000 tons may be exceeded this month. During October last year over 4,200,000 tons of ore were shipped. Operators of mines on the Minnesota ranges have received fresh requests from their headquarters to rush shipments to the greatest extent possible at the eastern plants in fear of shortage of ore cars at Lake Superior ports is reported to be delaying the handling of ore down there. Lately special efforts are, however, being made to correct that situation and it is hoped that congestion will be avoided in the meantime a large independent operator has been compelled to slow down shipments so as to enable the accumulated stocks on the docks to be shipped away.

Steel Prices

Fresh business has developed in steel prices. Average quotations for eight of the principal iron and steel products declined during the last week from \$21.64 to \$20.77. The present average price compares with \$24.50 in Oct. of last year and a top of \$28.00 set on Aug. 1, last.

Declines in pig iron during the last week are regarded as significant. Bessemer dropped from \$24.50 to \$24.00 and No. 2 foundry and basic from \$24 to \$24 a gross ton.

Trade authorities predict that quotations of the independents will be dropped shortly to the levels set by the United States Steel corporation's subsidiaries and it is thought the trade will be thus placed in a much more stable condition. The steel corporation is being given credit for having stabilized prices during the last few months, while the independent

BEST SUGAR MAKER HAS EXPLANATION FOR PRICE PAID TO THE FARMERS

That the best sugar factory at Menominee is interested in activities and enterprises of the Farm Bureau Association is shown by the following letter written to the Editor of the Cleveland Magazine by the manager of the Menominee plant. He says:

"I note in the September 25th issue of the Farm Bureau News, an item headed 'MAY REFUSE TO SIGN UP CONTRACTS PROMISED SLUMP IN PRICE OF SUGAR KNIGHTS SUCCESSION OF BERT GIBBY EISEN', which appears on page 1 column one.

It would appear that the members of the Farm Bureau Association in their meeting at Berk River, have taken up the question of the price of sugar because it governs partially the price which the farmer shall receive for his crops. The fact that the recent slump in the price of sugar excites their suspicion would lead to the inference that the local sugar company—ourselves—had exercised hidden hand influence to bring about this slump, whereas, the facts in the case are that last fall when we were operating we were notified by Attorney General Palmer to the effect that upon investigation they had found that 1914 was a reasonable price for sugar, and if we sold at a higher price our action would be investigated, and if we were found guilty of profiteering we would be prosecuted under the Lever Act. Not only were we notified of this limitation of price, but also closely watched from time to time to determine whether we were holding sugar in storage with a view to holding it for higher prices later on. The result of this action on the part of the Attorney General was to force us to sell all of our product before January 1st, 1920, at a low price. This was true of nearly all of the best sugar producers in this country, and after the supply of domestic best sugar was practically exhausted, then the foreign grown sugar, principally from Cuba, came into the market and the price soared to unheard of heights, and everybody knows throughout the period from January first, until we began operations in October, we have had no sugar whatever to offer, and have had no voice whatever in the making of the prices. Now that the best sugar is about to come into the market again and furnish a supply of the home grown product, there has been a material slump, and it would appear that the Farm Bureau Association has reasoned that we might have something to do with this price condition, whereas we have had nothing more to say about it than the King of Siam.

Since this first indication of the feeling of the Farm Bureau Association has appeared in your county, I

ESCANABA NEWS

Another Fatality In C & N.W. Yards On Friday Morning

State Commissioner To Take Report Soon

The second fatality in three days occurred in the yards of the Chicago North Western Friday morning at 11:45 when John Johnson, fifty years of age was crushed and instantly killed as he was jammed between the cars in which he was working and to which engine which backed into the passenger car.

His head was crushed back, his body mutilated and death came before he was conscious. A short time before the accident his body was held by Edward Holland, a fellow workman who jammed himself through the cars when the wreck was being cleared up by the engine. The cause of the accident is not clear, but the fact that the cars were jammed together is a serious one. It is reported that the cars were jammed together by the engine which appeared to have taken place in the yard.

Sell Farm To Build A 50,000 Dog Home

McDonough-Probate Judge Patterman has ordered the sale of the forty acre farm of the late Mrs. Louise B. Paine in Montgomery county to raise money for the building of a "dog palace" as a home for "foster pet puppies" under the provisions of her will. A caretaker will have and feed the dogs daily. The "palace" will cost \$50,000.

Edmund Lerman and Lydia Lomercrow were Escanaba callers Saturday.

am taking the liberty of calling your attention to the matter.

"G. W. MCCORMICK,"
General Manager,
Menominee River Sugar Company.

Enthusiasts Of A New Religious Cult Joined

Zion City—Police Chief Theodore Becker observed the religious rites of a new cult here and arrested the congregation on the grounds that the rites were immoral.

Seven girls were found lying on their backs kicking their heels in the air, while men members of the church looked on.

"They said they became possessed of the holy ghost when they laid on their backs and kicked their heels in the air," said the chief. "I noticed only the young women got that way."

For results try an ad in The Delta County Reporter.

Why the Boys Stay at Home

Not an idle moment from the time the girls and boys come in if you have a Columbia Grafonola. Time won't drag as long as the young people can dance and sing to their hearts' content.

Come in and let us show you the Columbia Grafonola, and then hear some of the latest songs and dances played as only the Columbia Grafonola can play them. Then you will understand why the young folks want to stay home.

"The little shop with the big record stock"

REPORTS SHOW THAT PRODUCTION OF CROPS IS FALLING PER CAPITA

Crop production in this country in 1929, as estimated by the Bureau of Crop Estimates of the United States Department of Agriculture, was 12 per cent above the average of the years 1919-1924 and this was not previously equaled except in 1915, when the production was 16 per cent above the average. Last in the growing season of 1929 the production of crops was approximately 13 per cent above the average.

A tale of another sort is told when crop production is compared with population. During the last 20 years, the largest per capita production was in 1888, when it was 12 per cent above the average of 1919-1924. In most of the years from 1888 to 1929 per capita production was above the average. The highest point, however, reached since 1924 has been the average of the five years mentioned, and this was done in 1917 and apparently in 1920. Notwithstanding the great mass of the crops of 1929, they are, after all, no greater than the average when compared with the great mass of an increasing population.

Man Who Can Control Heart Beats 'Puzzle'

Baltimore—A man who runs his heart as well on either high or low gear has been giving Johns Hopkins Medical school specialists startling exhibitions of his powers. As a phenomenon, the subject can score a record that beats any records of recent first sight. On one occasion the subject's heart registered 198 beats a minute. At a word from the experts he increased the speed to 121, holding it at that rate for seventeen minutes before dropping to 117.

Man Legally Dead Walks In On Family

Fond du Lac, Wis.—John Guell, declared dead, his estate probated, walked in on his friends here after an absence of eight years.

Guell's maid for the eight years up to three weeks ago has been a blank, he said. He remembers going to North Fond du Lac, October 9, 1912, to collect a bill. Three weeks ago he found himself in Detroit. His mind gradually cleared and he recollected the name "Fond du Lac" and came here.

When he knocked at the door of his daughter's home the family were horror-stricken, thinking he was a ghost. He is in good health. A blow upon his skull, because of which a silver of bone passed his brain twelve years ago, is believed to have caused amnesia.

New York Hotels Are Slashing Food Prices

New York, Oct. 31.—Austin W. Riley, the Department of Justice, yesterday announced reductions in the prices of several New York hotels and restaurants which have "given" the Hotel Association of New York.

Reduction of prices for first class hotel "special" table d'hôte dinners, from \$4.50 to \$2.50, already are in effect. Mr. Riley said, exhibiting menus sent him by establishments in the "White Light" district to bear out his announcement. Other items showed marked reduction, he added.

TO THE VOTERS OF THE FOURTH WARD

I have been nominated on the City's Ticket as Republican in the Fourth Ward and would appreciate your support at the election Nov. 2nd. In the older records I find no mention, so I have made my home in the 4th ward for 30 years. I have always taken an interest in the good and welfare of Gladstone.

Thinking you for your support and assisting you that, if elected, I will

Here—you "Know-It-All"

ONCE in a while we run across a man who says, "Aw, they don't make cigarettes like they used to—no's as good as another now-a-days."

All right, we'll give that smoker any kind of odds he wants on Spur and win hands down.

Perhaps you are looking for that good old-time tobacco taste. Spurs are chock full of it. Couldn't help but be, with that jundandy blend of choice Turkish fine Barley and other home-grown tobaccos.

Light up a Spur—take a long puff—and quicker than you can say "Jack Robinson" you will jump for a seat on the Spur hand wagon.

Spurs have another surprise for you—they're crimped, not pasted. No other cigarette is rolled with the crimped seam, and you benefit by easier drawing, longer burning, better taste.

And here's extra measure—three-fold padding of rich brown and silver to keep Spurs fresh and fragrant.

No use dodging—Spurs meet you at every turn.

Spur Cigarettes

Man, what a wonderful tobacco fragrance is wafted up to you as you cut open the covers of the new Spur tin. Fifty cigarettes—kept fresh—vacuum sealed.

INHERIT STILL WITH BUSINESS IN TROUBLE NOW

PROPRIETORS OF THE RAMSEY HARDWARE COMPANY IN FEDERAL COURT

"Inheritance" of a copper still, and a remainder wash boiler supposed to be part of another is the unique reason why John J. Inghart and Charles C. Ramsey, proprietors of the Ramsey Hardware Company, of Ramsey, Mich., find themselves defendants in a trial in federal court for possession of apparatus designed for production of an intoxicating liquor says The Marquette Mining Journal.

Some months ago, the two men bought out the hardware business. The previous proprietor, before opening the hardware store, had conducted a soft drink parlor, and before that, a saloon, and had made his home in the same building. They did not take over the business by inventory, but paid a lump sum.

Shortly after they took charge, an invoice arrived from the Delta Hardware Company, of Escamaba, for a copper tank, labor, and packing, amounting to \$28.50. They did not know the character of the goods, so waited. In about two weeks more, a barrel arrived, containing a copper can, of about six-gallon capacity, a goose-neck to fit, and other can containing a condensing coil, with hose connections to the can for the circulation of water. They had the outfit taken to consult the Delta company's salesman, when he should arrive.

Meanwhile, Sergt. Steinport, and Troopers Sands and O'Rourke of the state police, and Federal Agent Hanz searched the place. In a stock room they found the still from the Delta company, and in a lean-to shack in the rear they found the boiler. The outer door of the shack was nailed up, and bed-springs piled against the inner door. The proprietors claimed they had never entered it. It contained a collection of miscellaneous rubbish left, they said, from the previous occupants. The still and boiler were seized, and the men arrested for possession of distilling apparatus. A bottle containing a small quantity of moonshine spirits was also found on the premises, it was claimed, but evidence relating to it was later ordered stricken by Judge Sessions as not having on the case, after counsel for the defense had objected to its admission.

RADIO FINDING STATION GIVEN TO MANISTIQUE

According to a statement made by Mayor Gerro, Tuesday, Manistique is soon to occupy the unique position of being one of the few cities in the United States to be equipped with a Radio Compass Finding Station. The site which is located on the lake front near the David LaMarbe farm, and which has an outlet on Park street, is 12,600 feet and has been presented to the United States government by Benjamin Gerro. Provisions of the deed of gift provide that buildings shall be erected within a reasonable time and shall be of a character with other government buildings used for this purpose.

The purpose of the station will be to direct vessels which may become lost or confused while sailing on Lake Michigan. The territory covered will extend from this city to Chicago and east to the Straits of Mackinac. The invention which is of recent origin and promises to be of the greatest importance to airplane as well as ship navigation enables the operator at the plant, when called by wireless from a ship at sea to locate the source of the call almost exactly, even when the sender of the message has little idea of his location. When the location of the vessel is ascertained the wireless operator then sends sailing instructions and the vessel proceeds on her proper course.

GREAT LIVE STOCK SHOW BEING PREPARED FOR THE WINDY CITY

In the travail of a great industry an event of supreme importance will develop at Chicago the first week of December. It is the twenty-first anniversary of the International Live Stock Exposition and will be staged this year as an unprecedented scale, both as concerns numbers and merit. North America at the conclusion of the European war was in possession of bovine and ovine seed stock of incalculable value and the superintention of this national possession will be displayed at Chicago this year. In view of impending need severely, the problem of replenishing the national herds in of more importance than ever at this juncture.

Live stock in common with other industries has passed through a period of deflation and readjustment. The new basis of production cost interest is rising and will accentuate as the fact becomes apparent that within the next five years there will not be enough beef, pork or mutton produced in the United States to maintain per-war consumption.

Profit in live stock production heretofore will depend through a period of deflation and readjustment. The function of the "International" is improvement of the herds and flocks of the country—a task to which the agrarian interest must now address itself vigorously. On this account the 1920 display possesses more than usual interest, concerning not only producers but consumers.

As a spectacle of animal life this year's "International" will exceed in scope and magnificence all former efforts in the show ring on this continent of Europe. More closely associated than ever before are live stock and grain production problems; hence this year's corn show, made possible by a liberal donation from the Chicago Board of Trade, will be staged on a more extensive scale than last year. Corn makes live stock raising possible; without live stock "King Corn" would be minus a stout prop. Every up-to-date farmer should attend the 1920 International Live Stock Exposition at the Union Stock Yards, Chicago, November 27 to December 2th.

A Good Cough Medicine for Children
Mrs. J. W. Phillips, Reddo, Ga. phoned to J. M. Plunk, the merchant there for a bottle of Chamberlain's Cough Remedy and said she had bought a bottle of it at his store the other day and it was doing her children so much good that she wanted to keep up the treatment. You will find nothing better for coughs and colds in children or for yourself. It keeps the cough loose, expectoration easy and soon frees the system from the cold.

Impossible
"Gabbidon tells a funny story of how he shortchanged a taxicab driver."
"The infernal liar!"
"Ah, you know Gabbidon!"
"No, but I know taxicab drivers."
—Kansas City Star.

\$100 Reward, \$100
The readers of this paper will be pleased to hear that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh has already influenced by constitutional conditions requires constitutional treatment. Chamberlain's Kidney and Bladder Medicine is taken internally and gets to the blood on the mucous surfaces of the system thereby destroying the foundation of the disease and giving the patient strength by building up the constitution. The proprietors have so much faith in this remedial power of Chamberlain's Kidney and Bladder Medicine that they offer One Hundred Dollars for any case that fails to cure. Send for list of testimonials. Address: J. C. CHENEY, CO., Toledo, Ohio. Sold by all druggists, etc.

Let George Do It And George Did

CHICAGO, Oct. 29.—George Klatt of Chicago was one mail carrier who did not envy Alvin or Stanley. The last few weeks of political activity added considerably to George's burdens. All the politicians had to do was to send out circular matter by mail and let George do it. "Nobody read them, anyway," he argued. "Nobody should. Half the second class matter sent through the mails, anyway, is trash." George, new on the force, told his troubles to a veteran. "You poor fish, you," the veteran said, according to George, "don't you know what to do with all that political stuff? We burn it." So instead of delivering this worthless mail he carried 3,000 letters to the basement of a public school and put them in the furnace. Meanwhile Representative Rubin and other candidates for public office wondered why their literature brought no response. "Sure, I burned the stuff," George admitted when arrested today. "Why shouldn't? Everybody's doing it. What good was it, anyway?"

Back on the Job
Johnson Burgess who has been ill for a few days is able to be back on the job as truck driver for the local express company.

Only a Cold
Are you ill? It is often answered, "Oh, it's only a cold," as if a cold was a matter of little consequence, but people are beginning to learn that a common cold is a matter not to be trifled with, that some of the most serious diseases start with a cold. As soon as the first indication of a cold appears take Chamberlain's Cough Remedy. Remember, that the sooner you get rid of your cold the less the danger, and this remedy will help you to throw it off.

Hoboken's Huge Cats Chased By Huge Rats From A Giant Liner

The Lovatian, biggest of American steamships, tied up at Hoboken, is afflicted with swarms of the biggest rats of all nationalities, that even forced the biggest and fiercest cats of the Hudson waterfront to seek police protection. The rats are hungry and are getting hungrier, as it is now the policy of the Shipping Board to starve them to death, there being no way, by wireless appeal or otherwise, to reach the Pied Piper of Hamelin, who disappeared in a hill a long time ago after luring the little town's pets to destruction with his marvelous flute. The Shipping Board wanted the rats fumigated to death after the Hoboken rats and dogs had had a retreat, leaving some of the fur and hide actors, but Dr. D. John Evan Holt Harris, director of the laboratory of the Government Quarantine station at Staten Island, decided that it would be impracticable to fumigate so labyrinthine a creation as the colossal liner with any hope of getting rid of the pestiferous gnawers in several weeks. That is why the biggest and strongest rats are now eating the smaller ones and incidentally chewing up a part of the woodwork of the ship. The skipper of the Lovatian is wondering what sort of a monster the last survivor of the progressive cannibalism will be.

32nd Men To Receive History Of Division

Superior, Wis.—Members of the Thirty-second division will receive their copies of the history of the division as a Christmas present, according to Col. Paul B. Clemens, former intelligence officer of the unit.

IT WAS NO FUN GETTING UP THIS MORNING

and to you follow who has to carry a dinner pail, will you have hot coffee for dinner? Nothing like it so why not get one of our lunch kits with vacuum bottle for \$3.95

We still have four extra large coal and wood heaters left, capable of heating a 9 or 10 room house, together with seven or eight smaller heaters.

These small perfection oil heaters are the clear rig for the bedroom especially if there's a small baby in the house. They will heat up one room very comfortably and allow oneself to dress in comfort. The prices are very reasonable for these small heaters.

The common black Japanese heaters \$7.50. The nickel trimmed heaters \$9.00 and the blue enameled drums with nickel trimming \$11.50.

Still have a very good assortment of Garland Ranges left for your approval. Come and see

BACK TO SAFETY

Unless all-political prophets are liars and their prophecies be made void, this nation will be here in full tilt for Protection in two weeks from today.

This anti-Wilsonian side will carry with it two definite victories for Protection—the first by assuring Republican revision of the Tariff, and the second by paralyzing the Free Trade message of the League of Nations.

While Senator Harding has hesitated to admit that a Republican victory will mean the abandonment of the League of Nations, there is little doubt in Washington that the new Senate will be far more definitely opposed to the acceptance of the covenant than the Senate with which President Wilson had to deal.

It is interesting to note, however, that the Republican National Committee has finally recognized the definite peril which the League contained against the Republican policy of Protection.

Today marks the closing of the National campaign. If you have not been stirred by the issues of this campaign, there is something the matter with you, as an American citizen.

There are those who affect a pose of indifference to politics. They scoff at interest and activity in politics. They profess to be too wise, too important, too judicious, to take seriously the debates and the organization activities of a campaign.

No one is foolish enough to imagine that any business enterprise is destined to succeed if its affairs be indifferently conducted. The careful direction is necessary to the progress and prosperity of any human undertaking.

ELECTION ODDITIES

And you who read these lines, if you believe the cause of Republicanism this year to be, in effect, the cause of your country, if you feel that Republican victory in the election of the President and Congress, is essential to the highest and best interests of your nation, if you feel that by Republican failure the prosperity, the security and even the sovereignty of your republic may be menaced, why stop with casting your ballot for this cause on November 2nd?

Each state is entitled to and elects presidential electors equal in number to its senators and representatives in Congress combined.

Thomas Jefferson and John Quincy Adams were elected to the presidency by the House of Representatives, neither having had a majority of electors.

MR. GROESBECK'S OPPORTUNITY The Republican candidate for governor of Michigan, Alex J. Groesbeck, has been making a campaign that has revealed him as a forceful man with practical, business-like views of public affairs.

GROWING THE 'HOODLUM'

Put a boy born of gentle white parents among Indians and he will grow up like an Indian.

RULE OF THE ROAD

There is some conflict of opinion about the rule of the road in the matter of the walking public, the rule in England has always been "keep to the right."

Worth Remembering

Small rups in the bedroom, if the floors are well laid, are work-saving.

Wash windows quickly and make them shine. The soft ray of bread may be used in place of flour or cornstarch.

HOW FORD ADDED QUIETLY TO HIS TIMBER LANDS

Michigan was not permitted to vote in North Carolina.

HAD CROWD OF CRUISERS BUY ALL LAST SUMMER IN WOODED AREAS

Much stress is laid upon the original purchase by Henry Ford of the Michigan Land & Iron Co's lands.

The Michigan Land & Iron Co. deal was a big one and gave much trouble to Mr. Ford but it also gave a lot of land upon which there is no timber.

What the purchase did do was to get the Ford interests well anchored in the upper peninsula timber section from which anchorage they have worked until they have secured fully as much additional timber as they acquired with the purchase all of it timber of the first quality.

Woke Quietly All Summer

The acquiring of this timber has been in progress all summer.

New York in 1841 was the first state to fix upon "the Tuesday after the first Monday" of November as election day.

In 1836 no candidates for vice president received a majority of the votes of the electoral college.

SMILES

Not a Liar He had been fishing, but with bad luck.

He's clean inside and outside. He looks neither up to the rich nor down on the poor.

He's considerate to women, children and old people.

He's too brave to lie, too generous to cheat.

He takes his share of the world's ills.

He's a man.

GRAIN DUST DANGERS

Grain dust and similar mill affluents appear harmless, but filtered through the air and ignited in a closed structure, they are as deadly as dynamite.

We Don't Believe It's Catching An Italian socialist imprisoned in Naples has started a hunger strike.

What a blessing if all the beds would catch the fever!

FALL FISHING FLEET IS GETTING READY TO START SEASON'S WORK

Fishermen supplying local fish houses situated near the site of the new paper mill are getting ready for their fall season.

Should Be Broken Gently

Men's Wear For Winter

Our store for men has many new offerings for this week. We are quoting some especially good things, merchandise which came in only last week, and at prices very much under the market.

Men's Flannel Shirts are priced right

Last week we received some of the finest flannel shirts we have shown for years.

ARMY SHIRTS, KHAKI COLOR ONLY \$5.25

These are made of the regulation khaki serge very well made and in full size.

FLANNEL SHIRTS AT \$4.00

There are a light gray flannel shirt and one good value at the price, only 50 per cent wool but are very good for the man who washes some things in a lighter weight.

FLANNEL SHIRTS IN WEATHER \$6.00

An exceptionally good value for men who wear flannel shirt throughout the winter for semi-dress purposes.

MEN'S 90c WOOL SOX, PAIR 55c

Here is a special offering in wool sox for hunt line work or for woods work.

MEN'S EXTRA HEAVY WOOL PANTS \$8.75

These are the very heaviest woolen pants in heavy army wool in khaki color or the heavy Canadian wool in the dark gray colors.

MEN'S WOOLEN UNION SUITS \$7.00

For those men who want the very best quality in a good all wool union suit, we recommend our No. 75 suit.

Munising Man Held Up By Escanada Who Makes Getaway

Ray Seaman, of Munising, was held up and struck over the head with a revolver by a robber in an alley at the rear of the post office early Saturday night. Although bleeding from three long gashes in his scalp, Seaman gappled with the robber and sent him to flight, saying \$100 that he carried in his pocket.

With his clothing saturated with blood and blood streams pouring down his face, Seaman made his way to the Head Drug Company's store where a physician was called to treat his wounds, and the police department was notified. After a considerable wait an officer reached the scene and Seaman was able to give the department an excellent description of his assailant.

Personals

F. E. DEGROFF OPENS NEW VICTROLA SHOP HERE ON WEDNESDAY

F. E. DeGroff launches his new enterprise for him in this city on Wednesday of this week, when he will open for public inspection his new music department. Mr. DeGroff has taken the agency for the Victor Talking Machine in Gladstone and opens with a full line of machines and records. He has rearranged the interior of his store and has a fine booth, for trying out records. The trade is cordially invited to drop in and hear any of the numerous records in stock. Mr. DeGroff expects to push the sale of Victors strongly and as business justifies, hopes to expand his facilities for demonstrating the machines in a pleasing and satisfactory manner.

JOHN SCHISKA HEAVILY FINED FOR DRIVING CAR AND BEING INTOXICATED

John Schiska, of Rapid River, was assessed a fine and costs amounting to \$89.10 in Justice Hup's court Friday, on a charge of driving an automobile while in an intoxicated condition Thursday evening while attempting to cross the bridge in the Buckeye addition. Schiska ran his car into the J. P. Mallongree truck, which had pulled up alongside the road to permit the wild driver to get by. But Schiska didn't make it.

When first seen, he was driving a wig-wobbly course but running slowly. When he hit the bridge however, out his car nose and careened across the structure and smashed into the Mallongree truck, which it was thought was out of danger. Schiska at first denied his guilt but later pleaded guilty. Witnesses were present from Escanaba. Schiska had crowded them from the road between Gladstone and Escanaba earlier in the day. The fine and costs includes damages to the Mallongree car, one fender of which was badly bent and a tire deeply cut. The Schiska car was nearly demolished.

For Sale—Good logging horse held for \$225. One team for hire. Archie Doudah, Box 146 Rapid River.

For Sale—5 room cottage, eight room house. Inquire Ida M. Forsyth, mornings, Phone 128.

CHAPTER XVII.
Flag of Empire.
At the foot of a money-white bed sat an old man. There was regal quiet in his appearance, his cheeks as white as his hair, the nose in stern aristocratic prominence, a smile about the mouth. Stephen March sat waiting for his granddaughter to awaken. At the head of the bed, less than a yard from Helen's pillow, Con Levington waited, as he had waited for four days. His skin was brown as coffee-berries, and contrasted with the linen of the bed. He was unsmiling in his chair, studying the face of the princess.

Her cheeks had the tint of health, her lips were red, the coverlet lifted and sank gently over her breathing, but across her eyelids was the gray stain. Two of the wisest physicians in America had just left the house, their check-books stiff with signatures. Levinton sighed again.

"It is near noon," said the old man. "Pray go down and eat your breakfast."

Levinton nodded obediently, but did not leave his chair. "They did not say the danger was past."

"A doctor would never admit that," smiled Stephen March.

"What do you really think?"
"She seems to be reacting. I believe the shock of long travel in past, as good as forgotten. She is breathing in a new world, and we should not demand of her to enter it full-blown."

"I do not mean to be impatient," said the young man.

"You have done well. Do not humiliate yourself," quickly assured the elder March.

The story of it all had been told, and Stephen March accepted the loss of his son as life had taught him to accept everything, with dignity and calm, almost the gladness of the mystic. He received his granddaughter with great tenderness, as if the symbol and heart of all his questing had at last come to his own house. Not would he permit Levinton to depart.

During the first four days at the March house, Con did not once think of his federal commission. His beloved's uncertain pulse between this world and a better was a matter that admitted of no other interest. He passed silently in and out of her room, neglecting his food and sleep.

The weeks and months behind were like a jumbled dream, and any scene of it that happened to slip into consciousness quickened his brain like a cold knife—the flight from Tau Kuan, across the oil marshes, the desert of serpents and decayed rocks, the cooling rise to the hills, Helen growing more and more ill with each day's travel, and his own blindness concerning her needs. Then the fortnight with the forest patrol in Sighal passed, the rising power of her will, the squalid passage on rails into Russia—heat, dust, vulgarity, and one treasure. The steampipe to America had been tentative for Helen. She had whispered to him once: "Like a big bad camel, and the saddle slipping loose." Only the perfect integration of courage, that priceless gift from her mother Ethna, had sustained her, together with the frightened attentions of old Fanna. In certain hours of rough weather, Levington had stood beside her, encouraging, pleading, not for himself, but to empower her will to hold on and on. He had almost lived for her. Fu Ah and Fanna were permitted to assist her eyes, slightly, when his compromise with a destructive principle seemed necessary.

The change of America had mercifully passed over her head. Breath kept her sleeping, on train and ferry, and at length, in the March motor.

Thus, when the transported princess wakened on this fourth night in her own house, she looked up at Levinton and smiled.

"I am strong enough to go on," she said.

"Tears sprang to his eyes. 'God bless you!' he cried, 'there is no more going on. You have arrived home!'"

"The house—of my father?"
"Yes. And this is your father's father, who loves you very much."

Her eyes were steady upon Stephen March, and he waited reverently, his white head slightly bowed, until she should speak.

"Mother told me," said Helen. "You—you are—?" She faltered. The old hands agreed to touch her own, as the grandfather bent over the bed. She smiled uncertainly. "I do not know the words, but it pleases me."

Her slender fingers were carried to the aged lips, and the ascension of throes might have been transmitted by that kiss.

"The honor is upon me," murmured Stephen March.

Sleep drifted over her again, and her eyes closed. Levinton was for the first time satisfied and at peace. He left the room.

Fence had also been negotiated between the nervous housekeeper, Mrs. Ames, and the cross-scarred Fu Ah and Fanna. The latter were assigned duties nearly corresponding to those of butter and lard. Fanna, once inclined to be bawdy and strong-tongued, had grown quite pale. The world was a twisty puzzle. She had lost her appetite. With Fu Ah, however, life promised to bloom again, since his mistress was out of danger. In Mrs. Ames' eyes an incalculable scorn appeared whenever she caught the shuffling down the hallway murmuring his wondrous prayers. Heathen! The same fourth evening, Con set about ordering his data and preparing

Tears Sprang to His Eyes. "God Bless You," He Cried; "There is No More Going On."

his report. He was careful to omit any details that could have thrown governmental suspicion upon Andrew March and his association with the drug. Perhaps they knew this but it was better not to refer to it. Also, Levinton did not wish his document to appear fantastic. His commissioner would be satisfied if a practical account of the source of the drug were set down. Con did not speculate upon the origin of the seeds, cast down so far below the sprouting-levels. He left all that for the technical persons who would no doubt accompany the next and larger expedition into the Gobi.

A strangely persistent feeling urged him to make haste. He could find no reason for this, yet he decided to go at once to the house of the commissioner. And, having delivered his packet, and with the promise to return tomorrow, Con drew away from the volleys of queries and questions, and bade his driver make haste toward the March house. He risked the possible suspicion of his commissioner that the while of Asia had touched him somewhat. He wanted to ask Helen if she had enjoyed her dinner.

At the March house, the hall door was open, so he did not ring. He entered and snatched at the light, which should have been burning. He stumbled across the body of old Fu Ah.

The Chinese was dead, the body still warm, Levinton leapt up the stairs, madly fearing, in the upper hall, about to enter at Helen's door, was a familiar figure, like a faded ghost of the empire of the Yellow Sun, Chee Ming.

Con was upon him, but he made no resistance.

"What do you want?"
"A word."

"Why did you kill Fu Ah?"
"He himself obliged me to do so," said Chee Ming.

"Come downstairs," said Levinton, letting go.

Silently they drew apart. Chee Ming was not armed. His robes were such the worse for wear. There was something greatly altered about him. He decanted ahead of Levinton, who was by no means calm.

"Go in there."
The valet obeyed, and Con shut himself into the library with the old Oriental. He turned on the light.
(To Be Continued)

Beet Sugar Company Plans to Keep Help

At least one big sugar company in Colorado is already planning a nucleus of Mexican beet workers for next spring. It has just ordered the construction of 25 small frame buildings in the outskirts of Montrose for the Mexicans to occupy this winter, so that they will not drift to other districts and force the sugar company to bring in inexperienced beet workers again next spring.

This year the company imported several hundred inexperienced workers from Mexico. Many of these have become valuable beet workers and the company intends to do all it can to keep them in this locality.

Charles Peeney arrived home this morning from Genell, Minnesota, to visit with his parents.

J. A. Frechette and family left Friday for Niagara, Wisconsin, where they will make their future home.

GET WHEAT FROM FAMINE COUNTRY

PEOPLE OF INDIA ARE SO POOR THEY LIVE ON COARSER GRAINS

Chicago—How it is that notwithstanding reports of famine in India that country is exporting wheat was explained here by the Rev. Dr. Benson Baker, who has been for many years a missionary in the heart of India. He now represents the Board of Foreign Missions of the Methodist Episcopal Church in Chicago, working in connection with the committee on Conservation and Advance.

"The reason is very clear," Dr. Baker said. "The people of India are so poor that the great mass of them live on the coarser grains, such as barley, rice, etc. Wheat is eaten only by the wealthy people, and is grown largely for export, so that even in the face of famine it is better to export the wheat, and to use the money received in buying coarser grains, which the poor people are accustomed to eat."

"There are always good crops in some parts of India, and now with their modern rail road systems, the government is able to transport grain from one part to another; thus in some measure alleviating the rigor of famine."

"Just now famine is due very largely to our old friend H. C. L. The cost of living in India has risen in proportion more than it has in America, and the people are on a different economic basis. They had a frightful time of it. If all some readjustment in wages and living expense has been made something akin to famine conditions is bound to obtain if India can sell its wheat, which is comparatively a high priced product, to the outside world, the money obtained will help to solve great problems there."

Dr. Baker added he was "convinced that the great mass of people in India are satisfied with British rule," and "that under the new reform schemes, we are going to see India make tremendous advances."

SWEDEN SUFFERS FROM BIG MONEY SHORTAGE

Stockholm—Sweden is suffering from a scarcity of money and an abnormal economic situation. This is reflected in the report of the State bank.

The money shortage depresses the stock exchange where prices of bonds and shares have touched a very low level, even old established industrial enterprises which pay dividends of 10 to 15 per cent being quoted below par. Causes to which Sweden's unsettled condition is attributed here include the socialist program, emanating from the present government, such as the investigation whether socialization of industry and commerce lies within the borders of possibility, heavy taxation, an increasing demand for higher wages and the labor unrest.

Adding to this the growing debts to foreign countries through unnecessary imports, and decreased production ascribable by many to the "eight-hour day, one obtains a picture of the present economic position of Sweden.

"Not a Matter of Creed"

This issue is not—should not be for any intelligent man or woman—a matter of sentiment or creed, but a matter of good citizenship and common sense.

The foregoing statement was made by a Port Huron pastor of the Congregational church to a representative of the (non-sectarian) Educational Liberty League who was asking Michigan clergymen for expressions of view on the proposed anti-parochial amendment which is to be voted on at the general election November 2.

"This issue is a matter of good citizenship and a common sense," is a matter of broad-minded language. The amendment if carried will abolish all the private grade schools and all of the church-controlled grade schools in Michigan. Attending these schools at the present time are approximately 120,000 boys and girls, who are being educated through and through the eighth grade by 2,500 teachers.

The Port Huron clergyman continues: "Aside from the principles involved, the practical fact stands out that this is no time to raise such a controversy," and he makes this thoughtful observation:

"The moral structure of the country has broken down under the war hammerings. Crime is operating out of all normal proportion. Government has tried to stop it, and failed. Business interests have tried to bring conditions back to the natural, and admit that they have failed. The only likely influence for the job is the church, appealing through the moral and educational channels that are peculiarly its own. Then is this the time to go about destroying one of the great instruments of church influence, the church schools?"

The Port Huron clergyman has put a blunt question to Michigan voters.

FIRST UNITED STATES COINS WERE FUGIOUS ADD MADS OF COPPER

The "fugios" were the earliest coins issued by the authority of the United States, and were of copper. It was in April, 1787, that the congress of the United States authorized the board of treasury to contract for 300 tons of copper coin of the federal standard, "agreeably to the proposition of Mr. James Davis, provided that the premium to be allowed to the United States on the account of the copper contracted for be not less than 15 per cent," and that "it be coined at the expense of the contractor, but under the inspection of an officer appointed and paid by the United States."

It is presumed that this copper coin contract was made as directed for on Friday, July 6, 1787, the congress adopted this resolution: "That the board of treasury direct the contractor for the copper coinage to stamp one side of each piece the follow-

ing device, viz: Thirteen circles linked together and a small circle in the middle with the words 'United States' around it, and in the center the words 'We are one.' On the other side of the same piece the following device, viz: A dial with the hours expressed on the face of it, a meridian sun above on one side of which is to be the words 'E Pluribus Unum' and on the other side the date 1787; below the dial the words 'MIND YOUR OWN BUSINESS.'"

The Electric Shoe Shop

Just received 25 leather bends and 5,000 pairs of rubber heels.

Don't Throw Your Old Shoes Away

Bring them to the Electric Shoe Shop and let us repair them so they will look as good as new.

MAPLE RIDGE COMPANY PLANS A NEW FACTORY NEAR HUMBOLDT MICH

The announcement that Henry Ford will open the Imperial mine at Mich- igan has been gladly re- ceived by the residents of the village, where an enterprise to employ Mich- igan labor has been lacking for sev- eral years.

Engineers and metallurgists in the employ of Mr. Ford, whose recent land purchases included the Imperial mine, recently examined the property and found it to be in good condition. The mine is located in Baraga county and a short distance from Michigamme.

The Imperial mine was opened in 1882 and after that was secured on a lease by the Cleveland Cliffs Iron com- pany, who operated it for several years, giving it up in April, 1919. The last shipments of ore were made in 1915, the mine having produced 678, 532 tons during the time it was oper- ated.

Humboldt May Get Factory With the Ford mine opening an- nouncement also comes one that will be of interest to the residents of the Western end of Marquette county. Albert Larson, of Rock, who spent a few days in the city, announced that the Great Lakes Land & Timber company, of which he is general superintendent, has purchased a large acreage of pulp- wood in the vicinity of Humboldt.

RELIGIOUS LIBERTY AN AMERICAN IDEAL. —RABBI WATERMAN

Nine Grand Rapids clergymen, rep- resentatives of five denominations and faiths, announce through the publicity department of the Educational Lib- erty League, in signed statements, their opposition to the proposed anti- Parochial Amendment to the State Constitution.

The Supreme Court has ruled that the amendment shall be adopted or rejected by the voters at the general election November 2. If adopted, it will do away with every private grade school and every church-controlled grade school in Michigan. These schools are now being attended by 120, 000 pupils, in charge of 2,500 teachers.

An attempt has been made to create the impression that the leaders of religious groups in Michigan favor this school-curriculum measure. The Educational Liberty League, a non-sectarian organization, undertook and has just completed a canvass of clergymen in thirteen cities and towns—Grand Rapids, Detroit, Pontiac, Dear- born, Flint, Ann Arbor, Jackson, La- tio Creek, Kalamazoo, Port Huron, Manchester, Adrian and Lansing. Re- sults of the canvass, made public to- day, show that more than sixty min- isters of fourteen denominations and faiths—Methodist, Presbyterian, Epis- copal, Universalist, Congregational, Jewish, Unitarian, Christian, Baptist, Lutheran, Adventist, Christian Re- formed, Church of Christ and Re- formed—place themselves formally on record as against the amendment.

MANISTIQUE BOY SHOT Vernon Lindroth of Manistique was badly wounded in the back Sunday afternoon by the accidental discharge of a 22-Calibre rifle, which he was playing on the rear seat of an auto- mobile. The accident occurred on the road near Little Harbor.

Religion and Water. The mayor of a tough border town was about to engage a preacher for the new church. "Preach, you aren't by any chance a Baptist, are you?" "Why, no, not necessarily, Why?" "Well, I was just a-goin' to say we have to haul our water 12 miles."

Ponzi Creditors To Get "Smidgeon"

Boston, Oct. 30.—Federal receivers of Charles Ponzi in a preliminary report said they have been able to collect to date only \$192,038 in cash as assets to meet the claims for millions presented by an army of disappointed investors in his quick rich scheme.

In addition, however, the receivers hold property which has not been appraised, certificates of de- posit aggregating \$1,958,521 from the Hanover Trust Company, now closed and \$228,000 in notes secured and unsecured. The bank com- missioner of Massachusetts has two notes for \$20,000 each which he re- fuses to deliver, according to the receivers; there are other notes the status of which is uncertain, a safe- deposit box at the Hanover Trust Company contains cash amounting to more than \$11,000, and the re- ceivers are holding Ponzi's \$12,000 automobile for conversion into cash.

MANISTIQUE BOY HAS CHANGE OF HEART IN TIME TO SAVE LIFE

A cup of coffee, which was found by a Manistique doctor's analysis to have contained a trace amount of dead- ly strychnine poison, figured as "ex- hibit A" in substantiation of the al- leged declaration made by Mrs. John Whitney, early on Tuesday morning, that her husband was attempting to poison her. As the result of an investi- gation conducted by Prosecuting At- torney Hixson, it developed that the poison was poured into the coffee cup by the woman's 9-year-old son.

Mrs. Whitney called at the office of a local doctor early Tuesday morning and upon her return she found her hus- band gone and her 9-year-old son had said: "Papa put something in the coffee." Analysis of the coffee showed that it contained a large amount of strychnine. The accused husband, who was questioned by officers who were called on the case, emphatically de- nied he had put the poison in the cup.

Later, following a rigid cross ques- tioning, the child admitted having poured the strychnine into the coffee dur- ing the absence of his father and mother.

FIRST BOAT AND RAIL COMBINE WAS IN 1856 JOINT RATES ADOPTED

Memphis, Tenn., Oct. 31.—What old river men say was the first attempt to organize a packet company was formulated in 1858, when a number of owners of boats got together in St. Louis and worked out uniform rates and schedules.

Arrangements were made with the Illinois Central Railroad Co. at Cairo and with the Ohio & Mississippi Rail- road Co. at St. Louis by which pas- sengers and freight were controlled to all points reached either by the river or railroads.

It was in this year that the steam- boat business on the Mississippi was in its zenith. The South was selling great quantities of sugar and cotton to the north and there was a heavy travel, all of which was practically killed at the beginning of the Civil War.

While the Illinois Central Railroad had extended its line to Cairo, there seemed to be no effort made to enter the Southern states, and shipments of freight from New Orleans and along the lower Mississippi River had to be reconsigned to the railroad at Cairo.

The boats sold through tickets for passage from any point on the river to Chicago and the East, connecting with other lines at St. Louis.

Among the steamers was the Penn- sylvania, Capt. Klinefelter as master; the famed old A. T. Lacy, Capt. Rod- ney; New Uncle Sam, Capt. VanDu- sen; J. C. Swan, Capt. Jones; Alex. Scott, Capt. Switzer.

It was on the Alex. Scott that Mark Twain began as a cub pilot un- der Horace Babby.

Wave Hits St. Ignace The St. Ignace Box & Float com- pany has ceased operations because there is no market for shingles. The company has a quantity of shingle timber in the water which will be hauled out on the beach. About a dozen men are employed in and about the mill.

May Recover Sight After several operations, Arthur Brunello, nine-year-old boy, of Kim- ball, is expected to recover from blind- ness. The first operation was per- formed four years ago. The boy, who is a son of Mr. and Mrs. Louis Brunel- lo, had been almost totally blind with a cataract in each eye. Through the efforts of the nurse of Iron county, two operations have been performed, of late and it is now believed the boy will be able to see. In the last oper- ation, the membrane was taken out.

SHORT NEWS NOTES

Returns from Hospital
Miss Virginia Reubens returned home this morning from St. Francis hospital where she underwent an operation for appendicitis.

Seriously Ill
Mrs. John Peesney is very seriously ill at her home on Wisconsin avenue. Reports this morning state she is very slightly improved.

Accept Position
Miss Anne Sullivan has accepted a position in Escanaba with the Escanaba Manufacturing Company, succeeding Miss Stella Gabourie.

Takes Detroit Position
Walter Wellstead, who has been employed at the Call Hardware store, left this morning for Detroit where he has taken a position with The Federal Sales & Supply company as traveling salesman.

Having a Fine Time
Postcards received from "Dad" Blodgett and his son Ed, who are visiting Mr. Blodgett's old home in Marquette, Michigan, are being received this morning.

Installing Furnaces
The homes of Charles Walz on Tenth street and Z. P. Cornell, of Michigan avenue, are being equipped with Box six heating plants by Escanaba firms.

Wiring Being Laid
The electric light wires between Rapid River and the Whitefish settlement are being laid with great rapidity as it is hoped the work will be finished before cold weather sets in.

Boat Thieves Caught
It is a shame that thieves who seek secluded spots for adventures are caught in the act by the owner of their prey.

Slack Business Given As Cause Of Shutdown Of Big Box Factory
The box factory plant of the Goodwillie Bros. in Manistique, announce a short shut down which began Saturday night and continuing until after election.

Coffee Prices Are Going Upward Again
The price of coffee, which has been on the downward trend for the last few months, is on the upward path.

Many Men Returning From Auto Centers
The movement of former residents back to Delta county from auto centers where they have been located during the past several months is growing.

Deer Licenses Can Be Had From Clerk
City Clerk A. L. Williamson now has a supply of deer licenses on hand. He has disposed of but three of them up to this time but it is expected the rush will set in within the coming week.

GLADSTONE ALL "SET" FOR THE BALLOT BATTLE

FIFTY-FIVE ABSENT VOTERS' BALLOTS ALREADY CAST IN THIS CITY

Everything was "set" at the city clerk's office this afternoon for the opening of the polls here tomorrow in what it is predicted will be the greatest Republican victory in years.

Supplies were all lined up in the clerk's office this afternoon ready to be sent out bright and early tomorrow morning.

Polis Open At 7 O'Clock
The polls open at 7 o'clock and will remain open until 5 in the evening.

One feature this year will be the fact that the vote will be unusually heavy because of the large number of women who have indicated their intention of voting for a presidential candidate for the first time.

Many Absent Voters
When the clerk's office closed to night, 55 absent voters' ballots had been cast and it was regarded as likely that a few more would come in.

Slack Business Given As Cause Of Shutdown Of Big Box Factory
The box factory plant of the Goodwillie Bros. in Manistique, announce a short shut down which began Saturday night and continuing until after election.

It appears that this concern, in common with many others, is suffering from a slight reaction in business. Manufacturers who use its product are buying sparingly with a view of taking advantage of possible lower prices.

Coffee Prices Are Going Upward Again
The price of coffee, which has been on the downward trend for the last few months, is on the upward path.

A belief on the part of producers that the price is too low and the holding up of the product by them for higher prices is attributed as the reason for the increase.

Its All Off With Them
Now that the government is beginning to appoint women enforcement agents I look to see the bootlegger bootied.—New York Telegraph.

But Never Tell Whose Choice
History has yet to find the woman who will admit she is an old maid for any reason except choice.—Washington Post.
