CORNER STONE OF NEW ALL SAINTS' CHURCH LAID

Great Crowds Views Impressive Service In Gladstone Sunday Afternoon

With ideal weather, with the largest crowd ever assembled in Gladstone on a similar occasion and through the most solemn and impressive ceremonies conducted in public here in many years, the corner stone of what will be the largest church in Delta county, was laid at All Saints' church Sunday afternoon. When completed, the church will seat 800 persons. It will not only stand as a monument to the progressiveness and industry of Rev. O. J. Bennett, pastor of the local parish for the last 12 years, but will be the largest, most modern and most impressive edifice in this county.

The ceremonies opened at 1 o'clock with the assembling of the parish, and their parents, on the school grounds. Each child bore a small American flag. Members of the Men Foresters, the Lady Foresters, the Girls' Club and all the other church organizations which have wrought so wonderfully in the work of raising funds for the building of the church, were assembled on the school grounds. Added to these were large delegations from Escanaba representing the Foresters, the Hibermians and the Knights of Columbus. At 1:30, the parade, in charge of John A. Allo, of Escanaba, and headed by Bob's Boys' Band of that city, took up the march and proceeded up Seventh to Delta, down to Tenth, down Tenth to Wisconsin and then back to the church, where, when all were assembled fully 400 people viewed and participated in the solemn ceremony which is such an advanced step in the religious growth of this community.

This church marks the most important step ever taken in the local parish. It is a splendid commentary on the business acumen of Rev. O. J. Bennett who came here 13 years ago when there were but 150 families in the parish. Today more than 400 families constitute the parish. The parish now owns an entire block on which is located the school and the new church, besides the property on which the old church stood. It also has purchased the dwelling at Wisconsin and Seventh streets into which Father Bennett has just recently moved.

Father Bennett is not only revered and respected by the people of his own parish, but is one of the most popular and highly respected men in the city. He is kindly, courteous and just in his conduct with his fellow men and has won a warm place in the public affection. Everyone will rejoice with him in his achievement, which with characteristic modesty, he looks upon merely as a part of his work as he goes cheerily along spreading sunshine and sympathy as he passes.

Fitting Climax

At the end of the program and as a fitting climax to the day's activities came a wonderful supper served in the parish hall by the ladies of the parish. Over 600 people from this and neighboring cities were served, which resulted in satisfied appetites as well as a large sum taken in at the door.

The ladies in the kitchen and the girls at the table worked very diligently and in all the help in any way goes the credit of the huge success of the supper.

Various committees were appointed to take charge of the cooking and serving of the food which was indeed very delicious. The hall was very prettily decorated by the Girls' club, of which Miss Mae Marion is president, and some of the ladies, the color scheme being white and green. In all, it proved the most successful supper ever held in the parish.

NEW ALL SAINTS' CHURCH

The laying of the corner stone of this beautiful edifice was conducted Sunday afternoon before the largest crowd ever assembled in the city on a similar occasion.

The church is expected to be under way by this time and it is planned to hold the first services next Easter. The church will cost \$30,000 or more when completed, will seat 800 persons and replaces the frame church destroyed by fire March 29, 1920.

The new church stands as a monument to the sincerity and zeal of the congregation which has made possible this splendid addition to Gladstone church homes in so short a time.

IRON MOUNTAIN TRIMMED 6 TO 0 BY LOCAL LEGION

CLASSICEST GAME OF SEASON WITNESSED BY BIG CROWD SUNDAY AFTERNOON

The second victory of the season on local grounds was put over by the American Legion team Sunday afternoon when the small but speedy Gladstone team played their larger opponents from Iron Mountain off their feet in the first 6 minutes and scored a touchdown, thereby winning the game 6 to 0.

It was one of the best games seen in the upper peninsula this season and was witnessed by the largest crowd that has yet appeared on the local grounds. Escanaba was very largely represented and the fans from the sister city gave the locals their loyal support during the game.

Gladstone was the team and chose the west goal. Iron Mountain kicked to Reagan on the 20-yard line, who returned the ball to the 50 yard line before being downed.

Start Whirring Play

Past snappy work on the part of Gladstone in which a series of end runs and line smashes took the visitors off their feet, and put the ball on Iron Mountain's 5 yard line. Hitting the line with the force of a snowplow, working trick plays and using the old bean, advanced the ball another four yards and when on Iron Mountain's 1 yard line, Gladstone fumbled. The visitors punted back to the 15-yard line and there Brother Feeny gathered the sphere in and ran it back to the 20 yard line.

Then began a series of dashing and brilliant trick plays, forward passes and line smashes which pushed the ball down to the 5-yard line again. From this point Kezel went over for a touchdown but Artie missed goal.

Visitors Surprised

The smaller men from Gladstone had apparently surprised the visitors. After the first touchdown, however, the Iron Mountain line stiffened and the quarter ended with the ball on Gladstone's 20-yard line.

From that time on, the Mountaineers had the ball in Gladstone territory at all times, but were unable to run the ends or break the local line for a touchdown. In the second quarter, Iron Mountain ran the ball back to the Gladstone 5-yard line, where they were held for downs. The locals punted back to the 50-yard line and the Mountaineer who received the punt was downed in his tracks.

The third and last quarters of the game were replete with fast and brilliant work on both sides, but neither had the "plus" necessary to put over a touchdown and the advantage of the Gladstone team gradually played the game with true sportsmanship and the kindly fraternal feeling between the two posts was more firmly cemented as a result of Sunday's clash.

Gladstone lined up as follows:

White, R. E.
Reagan R. T.
Boadry R. G.
Swan C.
Dabney L. G.
Ward L. T.
LaFonde L. E.
Artley R. H.
Gunter L. H.
Keel F. B.

Substitutes: Peterson for LaFonde, Lennox for White, Skopford for Boadry and LaFonde for Peterson.

Touchdown—Kezel.
Bellaire, Empire, Peterson, Timekeeper, McGee, Head linesman, Murker. Time of quarters, 12 and 15.

Proclamation

WHEREAS, the August Mattoon Post of the American Legion and the Ladies Auxiliary thereto have made great preparations for the local observance of Armistice Day;

AND WHEREAS, Governor Blewett has requested that the day be observed as a holiday throughout the State;

AND WHEREAS, it is our desire to show our honor and appreciation of the services and sacrifices of our boys;

NOW THEREFORE, I request that November 11th be observed as Armistice Day and that all places of business in the City be closed on that day.

MATT J. MILLER, Mayor.

COMPLETE PLANS FOR GREAT TIME ARMISTICE DAY

HUNDREDS OF VISITORS WILL SEEK ENTERTAINMENT HERE THURSDAY

Final touches will be put on Armistice Day preparations at a big meeting to be held in Wasa hall tonight, when American Legion members will receive their final instructions.

Mayor Miller has declared Nov. 11th a holiday and all merchants have indicated that they will close for the entire day. The Marble Arms company will close down and the holiday spirit will pervade the city.

Decorate With Flags

Commander Dayton of the local Post again asks everyone to decorate profusely with American flags next Thursday. Hundreds of visitors will be here from out of the city and a good portion of the pleasure seeking public of Escanaba will be here for their entertainment.

The day is to be replete with interesting events and if the weather is favorable, the largest crowd ever gathered in Gladstone is confidently expected.

The Woman's Auxiliary to the local post has everything in readiness for the great feed which is to be served and there will be turkey for upward of 300 persons. The football game in the afternoon will be one of the features of the day, while the big military ball at the Gladstone theatre at night is expected to be a fitting climax, a crowning glory to the greatest day in the history of the city from a Legion standpoint.

No Paper Thursday

In keeping with the spirit of the day, the Reporter will observe Armistice Day as a holiday and no paper will be issued that day. The Reporter will be printed Friday in stead of Thursday, thus allowing all employees an opportunity to enjoy the pleasures of Armistice Day to the full.

TEST WELL MAY BE PUT DOWN BY CITY TO GET A PURE WATER SUPPLY

A proposition to sink a test well to see if a sufficient supply of water for domestic uses could be procured, is being considered by the fire and water board of this city. The matter came up for informal discussion at a meeting of the board Thursday night and if the expense is not too great, there is some likelihood that a test well may be put down.

Under present conditions, the water from the bay is unfit for use without boiling at many times during the year, particularly during the winter when the bay is covered with ice. People are warned to boil their water at those times, but many do not take the trouble to observe this precaution and the consequent danger to public health is great.

It is also considered that if a proper water supply can be secured through a series of wells, the expense of building a costly filtration plant may be eliminated.

CAR SHOTS INTO BAY FOLLOWING COLLISION ON THE ESCANABA ROAD

An auto accident which contains features out of the ordinary, occurred just south of South Gladstone last Thursday night when Paul Waeghe of this city crashed into a car driven by a man whose identity has not yet been learned.

Waeghe was coming home from Escanaba and the other car, a Studebaker, was headed toward Escanaba from Gladstone. At the point mentioned and just as they were about to pass, the lights of both cars picked up "dead" car standing on the road without lights or evidence of being occupied. The drivers of both the running cars swerved to the same side of the road to avoid hitting the standing car and came together with terrific force, which ripped the front wheels from the Waeghe car, and damaged the mechanism badly. The other car was shot off into the bay where it traveled a distance of about 50 feet before coming to a stop.

Meantime the car responsible for the trouble quietly disappeared. Whoever was in it, evidently stepped on the gas, once the car was started and the identity of the parties is still unknown.

Autos Collide on the Brampton Hill Sunday

An auto smash in which a car owned by Harry VonDonzel was very badly damaged, occurred on the Brampton hill Sunday afternoon. The other party was from Munising and his car, the driver was badly damaged that it had to be taken to a local garage for repairs.

Local Boy Suffers Severe Burns

Arthur Sawyer is suffering at his home on Delta avenue as the result of a burn received in a mill at Two Rivers where he was employed. It was a spark fell from a fire and landed on the young man's shoulder, catching his clothes afire and burning the shoulder quite badly. He arrived home Friday being at the home of his parents, Mr. and Mrs. John Cloos.

Cargo of Hard Coal Now on Its Way Here

Gladstone will have a hard coal supply the latter part of the week, if all goes well. This was the welcome news given out yesterday. A boat started loading in Buffalo Saturday and was expected to be completed by Sunday night when the vessel would steam for this port direct. It is expected this city will get 2,000 tons and this supply, it is estimated, will be ample for the winter needs.

Henry Rosenblum Is 'Paid Nice Compliment'

Henry Rosenblum, President of the Upper Peninsula Zionist Service Bureau, has been highly honored by the organization by being chosen to represent northern Michigan in the American Zionist Conference, to be held in Buffalo for three days this month, beginning Nov. 22. Mr. Rosenblum has become extremely active in the work of this organization and he has proven his value so successfully that he was selected to make the Buffalo trip when matters of the most vital importance are to be determined.

Fake Solicitor Asks Child Welfare Funds

Mrs. W. H. Corbett has issued a warning to the people of Gladstone against donating funds to any person representing themselves to be soliciting for the Child Welfare Club. The club does not raise funds in that manner and it has come to light that some woman has been soliciting in this community, representing that she is going the funds for the Child Welfare Club.

A solicitor for the Goodwill Farm has been here recently and it is possible that someone confused her mission with the purpose to raise money for the local organization which is doing such a splendid work for the young people of this community.

Sing National Anthem

The ceremony was opened by children of the Eighth grade of All Saints' schools, singing the national anthem. With heard heads the great crowd stood reverently while patriotic and religious thoughts commingled.

Draped and festooned along the front of the church and above the corner stone were the national colors, interspersed with bits of evergreen, making a most impressive picture.

Stone and Church Blessed

Rev. Monsignor Platen, of Marquette, personal representative of Bishop Eis then opened the solemn ceremony of blessing and laying the corner stone. The Catholic ritual for such a service was observed, with the visiting clergy, including Rev. Fr. Bennett, participating. The various portions of the church were also blessed during the service. Rev. Monsignor Platen and the visiting clergy then entered the church by 20 altar boys and the service was one which will linger long in the memory of those who witnessed it.

Gladstone High Team Blanks Munising Here Saturday Afternoon

Playing their last game of the season before the largest crowd to attend a high school football game this year, Gladstone High Saturday afternoon held the Munising team scoreless while piling up a total of 29 for themselves. The improved play shown by the locals was one of the most gratifying features of the game. At no time were the locals in danger, Munising having the ball as far as the local 25-yard line but once.

The work of the ends in intercepting forward passes of the opposition was one of the bright spots in the game. Bergstrom put, over the first touchdown in the first five minutes of play after his team mates had pushed steadily down the field without a loss.

Gladstone was on the aggressive at all times, the visitors apparently hoping to do little other than hold their own. Gladstone's second touchdown came in the second quarter as a result of a series of ends runs, line smashes and a trick play and Bergstrom went over for another touchdown in the third quarter. Bergstrom and Empeon starred for the locals.

After the game both teams were entertained by the high school girls, the banquet being served in the Methodist church parlors.

Following is the Gladstone line-up: Cowell and White, ends; Simpson and Feldt, tackles; Fox and Hanson, guards; Pralis, center; Bergstrom, quarter, Gerardeau, right half; McNeil, full back, and Murdoch, left half, Referee—Grunke.

ABOUT THE WEATHER

Data is furnished by the local office of the Weather Bureau at Escanaba. Probably rain tonight and Tuesday; Colder Tuesday.

Save Your Soul!

Dr. Barth explained the significance of the occasion, pointed out the mission of the church and drew home the fact that man has a soul which he himself should save through his own efforts during this period of his existence on earth. The immortality of the soul was the theme of his address and clear and understandable manner of reasoning and eloquence of which the Escanaba congressman is such a consummate master, formed a most convincing chain of logic and unquestionably proved a new spiritual inspiration to hundreds who heard it.

"Save your soul", admonished Dr. Barth. "It is the most precious possession of mankind and I look to Calvary for my authority, which says, 'What doth is profited a man if he gain the whole world and lose his own soul?'"

Visiting clergy present were

Rev. Monsignor Platen, Marquette; Dr. F. X. Barth, Rev. Raymond Jacques, Father Faldut and Father Frechette, Escanaba; Father Geors Bark River; Father Schaul, Rapid River; Father Colnagard, Perkins; Father Schewens, Marquette and Father Geoyet of Flat Rock.

A Splendid Achievement

The laying of the corner stone of

EMCO PLANS TO RUN FULL TILT DURING WINTER

ADDITIONAL HELP IS NOW BEING PLACED IN ALL DEPARTMENTS

The Escanaba Manufacturing Company has prepared to run its big factory at piped capacity all through the winter, and with that purpose in view, is now filling the various departments with additional help.

This is a development which is not only unique in industry at present, but over which Escanaba has a right to feel a great deal of satisfaction. A great many industries within the last few weeks have either shut down completely or have come on, a part time basis with an uncertain prospect as to steady employment for its forces during the winter. For Escanaba to take the lead in developing a manufacturing volume to capacity at this time is something which will entitle this community to the admiring regard of the industrial world generally.

Saife Force Aggressive

"Our selling forces are carrying EMCO goods into various markets more aggressively than ever," said T. M. Johnson, vice president and secretary of the Escanaba Manufacturing Company. "and we are optimistic that an era of unprecedented activity lies immediately before us. One of the requisites is volume production. To justify our intensive and aggressive merchandising efforts, we must have a factory output that amounts at all times to give 100 percent service to the trade now distributing the lines and we want to produce more goods in this plant during the next year than have ever been turned out of it in any twelve months previously.

"It is also our ambition to make this establishment one of the model industries of the country. We have a compensation basis, and under the production figures which obtained in previous years, the compensation schedule will more generously reward any conscientious worker. This comes at a time when a dollar is beginning to have its previous value, and even that with a sufficient volume of turnover we can make this plant a high speed operation for an indefinite period.

Seeking New Business

"We are preparing to support our sales forces with a nationwide campaign of merchandising publicity, and we will get our factory act to take good care of this new business.

"As fast as it can be accomplished, without interference with the activity of the various departments, we are going to remodel the interior of the plant so that it will provide a working environment second to none anywhere. We already offer advantages to our employees which are unique and valuable. We expect to continue this policy and to make this institution one in which a position will be eagerly sought.

"Sooner or later, the unemployed in the large manufacturing centers south of us will be employed in this area. The obvious duty of this industry, as I see it, is to establish itself as to offer constant and profitable employment to as many as it can house under conditions that go far beyond the statutory requirements. We want Escanaba's people to take an interest in what we are doing, and to feel that this plant is a part of the community and one in which they can feel a just pride."

Famous Tree Trunk Gives Way To Age

Maybe there's no truth in the tradition that George Washington once hid in the hollow trunk of the great chestnut tree that until recently stood in the front yard of Charles F. Coy, Yonkers, New York. But folk throughout Baltimore believe that they believe that the tree was 700 or 800 years old when it died a few years ago, and was the oldest and biggest tree of any variety not only in Westchester county but in New York state.

The trunk, which was about 35 feet tall and about 2 feet in circumference, according to Mr. Coy, was cut down by the departments of public works of Yonkers, and is dismembered remains carted away. Said Mr. Coy: "Before it died that tree produced the biggest and sweetest-tasting chestnut I ever saw. After its death a vine that covered it made it still an object of beauty, just as its vast size and age made it an object of admiration.

"The top was broken off about the time it died. I never knew its exact height. But I do know that a deal of tradition had grown up around it and that it commonly was rated the largest tree in this part of the country. I am sure it was the biggest in this county."

This Means You When you get up with a bad taste in your mouth, a dull throbbing, no relief for food and no relief for sleep, you may know that you need a dose of Chamberlain's Tablets. They not only cure an irritable stomach, but cleanse and invigorate the stomach and improve the digestion.

BREAD WINNER'S SENTENCE IS PUT OFF TILL SPRING

Boston, Nov. 4.—The Federal court took judicial notice today of the hardships that would result to a workman's family should the bread winner be removed from it with winter coming on. Chester K. Corbett of Lynn, who as a brakeman on the Boston and Maine Railroad stole cigarettes from freight cars in interstate commerce, was kept for sentence before Judge Martin.

The judge announced an intention of imposing a jail sentence on the man, then he recognized that it would cause hardship to the family to do it now and sent the prisoner home, with the word that he would be sentenced some time next spring.

CABBY IN BERLIN HAS HARD TIME

Berlin.—Taxicab and droshky drivers in Berlin, as numerous now as before the war, have so little to do that many of them stand all day at their places without a single fare. They have increased their prices 10 to 15 times the old rate but the cost of living has kept pace with the increase and some of them are in abject poverty. There are a few smart equippers, the obvious pride of the owners, but most of the vehicles present a battered, foreign aspect.

A droshky driver, whose tall hat was dirty and broken and whose clothes were patched in many places, looked up eagerly at the prospect of a fare but when he discovered only a questioner lapsed into his customary lethargy.

"He had only three fares in two days and had not earned enough to feed his horse," he said. "Before the war we were very busy. People then went pleasure riding, and always called a cab to go to their offices. Now the Germans cannot afford it and the majority of the foreigners have their own automobiles." On either side of the parkway down the middle of Unter den Linden hundreds of taxicabs and droshkies are parked, waiting for customers. They take their own calls from the hotels and consider they are lucky to get one "langhaal" customer a day.

GARDNER FAVORS BIG SHIP CANAL QUICKLY

A waterway from the heart of North America to Europe by way of the St. Lawrence is offered as a solution of the nation's power and transportation problems by Horace C. Gardner of Chicago in an exhaustive survey for the American Society of Mechanical Engineers, Inc., in London, Canada and the United States, particularly from Northern Europe. Mr. Gardner says, will be greatly facilitated by such a waterway.

Mr. Gardner's findings will be published in the Journal of the American Society of Mechanical Engineers. Try a Reporter Want Ad.

NUPTIAL STUDENT CODIFIES LOVE

BRITON TELLS HOW TO BE HAPPY THOUGH MARRIED

New York.—This love thing, which has become quite an institution everywhere, is being codified for eastern audiences by the only man who ever had the nerve to get up on a New York lecture platform and claim to understand woman. He is W. L. George, the English novelist, who says he has made a close study of 150 marriages, not including two of his own, in reducing love to a science with problems that "prove up" like examples in long division.

Pensively pulling at his left eye brow, the man who understands women rattled off some very cynical sentiments over the tea cups at the National Arts club, including this one for contemporary woeers:

"Girls always pretend to be running away, but they're careful not to run too fast."

To hear him talk would imagine some beautiful traitor to her sex had been betraying all the trade secrets of femininity so that he could go out and put over a platform expose. This man shows how a girl feels when you tell her you love her and how she feels if you ought to but don't. He has been using the square and calipers of psychology on that silly old notion called love and now he comes out and announces the specifications for the tripod specimen of human affection.

"Love hasn't changed in 5,000 years," he mused with an idle wrinkle of his left eyebrow. "Woman still knows that she is valued for her purity just as she was as far back as history goes. Therefore, I say that there is no danger of polygamy in European countries, no matter what the plurality of women due to the killing of men. There is one other reason for saying this. It is the vanity in the heart of every woman which says to her, 'Never mind, there may not be many men, but I will get one like me!'"

"In discussing difficulties of marriage, I make a point that men take their wives for granted after a while and forget to pay those little tributes to feminine self-esteem, with which they were so lavish during the courtship. During courtship, of course, all of us men lay it on a bit thick, but still we ought to keep up our compliments after marriage, even if we drop flattery, which I do not like. The wife ought to study the husband's little dislikes and avoid annoying him."

It Gets There When President Wilson writes a letter it takes a mere six days of being delayed in the mails.—Washington Star.

Constipation Most laxatives and cathartics afford only temporary relief and should be used only for that purpose. When you want permanent relief take Chamberlain's Tablets and be careful to observe the directions with each package. These tablets not only move the bowels, but improve the appetite and strengthen the digestion.

EX-YANK IS CHARGED WITH BURGLARY BY MUNISING MERCHANT

Benjamin Levene, alleged ex-serviceman, and who up until a short time ago was employed at the Electric Light plant at Munising, was arrested at Kalkaska by Sheriff Thornton. The warrant charged burglary of I. J. Chudacoff, Munising merchant. Mr. Chudacoff's store was robbed on the night of October 30, shortly after the store of Bjornstad Bros., Morris Shalin and the Wilderspin bowling alley were burglarized. A search of Levene's home at Kalkaska revealed none of the stolen goods. Later, an array of goods answering the description of those stolen was found in a building near Levene's house. When arraigned before Justice Meeker, Levene entered a plea of not guilty. It is thought that the exhibit of the goods found at Kalkaska will connect up the four cases and, perhaps, show that the robberies were committed by the same party or parties. It is alleged by the officers at Kalkaska that Levene was on the growing out of an automobile case, and that he had broken the same.

Quaint Industries Developed In India

Observation of the world's industries reveals some very quaint callings. For there are queer habits and strange desires on the part of various races, and always there are those who cater to those customs or undertake to supply the wants. As queer a trade or profession as any is that of "toothtainer," which flourishes in parts of Asia, where the natives regard black teeth as a crowning beauty. The toothtainer, equipped with little brushes and boxes of coloring matter, calls on his customers at regular intervals. In general, the operation is not unlike that of blackening a shoe.

German Instructors Seeking New Places

Berlin, Nov. 4.—Hard times in Germany, marked by high prices and devaluated money values, unemployment and industrial reorganization, have forced readjustments in universities and public and private schools, which the newspapers say, will mean that many professors, lecturers and private instructors will be thrown out of work or be compelled by low salaries to seek employment in other countries. A number already have gone to Mexico and South America, and it is reported scores have made arrangements to leave.

In some papers it is suggested that "perhaps the hard times are not alone responsible for the attitude the professors have assumed, for it is known they are keenly sensible of the outrageous times and their loss of dignity" under the republic.

The difficulties of the situation have increased by the advent of hundreds of teachers formerly employed in the province of Posen. Regret is expressed that in Posen, 15,000 children of German parentage will be without German instruction and that these probably in a short time will become Polish.

Suggestions have been made in some quarters that the state should consider means by which the services of professors who propose to leave could be retained for German schools.

Only a Cold Are you ill? It is often answered: "Oh! it's only a cold," as if a cold was a matter of little consequence, but people are beginning to learn that a common cold is a matter not to be trifled with, and that some of the most serious diseases start with a cold. As soon as the first indication of a cold appears, take Chamberlain's Cough Remedy. Remember that the sooner you get rid of your cold the less the danger, and this remedy will help you to throw it off.

THANKFUL FOR GOOD PER-UNA 100 YEARS AGO
Keeps the Medicine with Her for Safety

Mrs. Carl Linder, R. F. B. B. 2, Box 44, Casal, Minnesota, writes: "I want to thank you for your kindness and the good remedy you sent me years ago. I am perfectly well and still live in Spokane, Wash. Were it not for Per-una I would not have been able to make this trip. I always take your medicine with me for safety should I take cold. Please do not forget me."

As an emergency remedy for everyday ills, Per-una has been in use fifty years.

TABLETS OR LIQUID SOLD EVERYWHERE

There's always room at the top for Highest Quality at Lowest Possible Price

"it's more like a Smoke!"

There you have Spur's big reason in a nutshell. It's what an American Legion man said after he had puffed a Spur for a moment or two.

He knew cigarettes. Found how comforting a good one is. Had 16 months in France. And he knew what he was talking about when he said:

"More Like a SMOKE"

That's because you can taste the good tobacco in Spurs. You get the aroma of a new and delicious blend of the finest leaf grown in Turkey, fine Durlay and other home-grown tobaccos.

Unmarred by starch because the seam is crimped not pasted.

Longer and sweeter in the smoking—slower in the burning. Fresh and fragrant as you open the pack, because it's triple-wrapped.

Priced to be popular and packaged to be select.

See for yourself—"more like a SMOKE."

Another Royal Suggestion

COOKIES and DROP CAKES

From the NEW ROYAL COOK BOOK

WHEN the children romp in hammock, here are some wholesome delights that will satisfy the most ravenous appetite.

Cookies

- 1 cup shortening
- 2 cups sugar
- 1/2 cup milk
- 1 teaspoon grated nutmeg
- 1 teaspoon vanilla extract or ground rind of lemon
- 4 cups flour
- 2 teaspoons Royal Baking Powder

Cream shortening and sugar together, add milk to beat in eggs and beat again, add nutmeg and vanilla. Sift flour and Royal Baking Powder together, add enough more flour to make a stiff dough. Roll out very thin on floured board, cut out cookies with round or oval cutter, sprinkle with nuts or other filling on a piece of floured cloth, bake about 10 minutes in hot oven.

Cocoa Drop Cakes

- 1/2 cup cream shortening
- 1 cup sugar
- 1 egg
- 1/2 cup milk
- 1/2 cup flour
- 1 teaspoon Royal Baking Powder
- 1/2 teaspoon salt
- 1 teaspoon vanilla

Cream shortening, add sugar, beat well and add milk, beat again, add flour, baking powder, salt and vanilla. Drop one tablespoon of batter into each greased muffin tin and bake moderate oven about 10 minutes. Cover with white icing.

COOK BOOK FREE

The new Royal Cook Book containing 400 delicious recipes will be sent you free if you will just post name and address.

IRISH TAXPAYERS ARE STIRRED UP

WANT TO KNOW WHO WILL PAY DAMAGES RESULTING FROM REPRISALS

Dublin—Taxpayers in Ireland are agitated over the question who is to pay for the damages resulting from reprisals committed by the "black and tans" or semimilitary force, employed by the government to suppress Sinn Fein disorders.

The total amount of damages resulting from Sinn Fein disorders, and reprisals by orangemen and government agents in Ireland, is estimated to be amounting to £5,000,000 for damages inflicted by the Sinn Feiners have been assessed against the taxpayers.

The law prescribes that the taxpayer shall pay for all willful damage to property or life maliciously inflicted. The county judges who pass upon claims arising from damages in Black and Tan reprisals have granted awards to the claimants and attempted to make them the charge against the local authorities. They have, however, indicated in their judgments that they believe the government should make good the losses caused by its own servants.

The principal taxpayers in Ireland are for the most part Unionists who are the largest property holders and would be hardest hit if the taxpayers were compelled to pay these damages claims. While they are anxious to help the government put down disorder, they disapprove of the Black and Tan reprisals and are unwilling to pay for the consequences of them.

The Irish Times, the principal Unionist newspaper, demands that the government shall make a clear public statement "that the obligation to compensate for murder, arson and robbery committed by the servants of the government is acknowledged by the government and will be promptly met."

The government paid the bill of about £3,000,000 for the damage suffered by the city of Dublin in the Easter week rebellion and this is pointed to as a precedent for similar action in the matter of Black and Tan reprisals.

It is expected that the government will also be asked to pay for the damages inflicted by the Sinn Feiners to which awards amounting to £5,000,000 already have been made by county judges. Besides there is a bill for the damage done by orangemen in Ulster towns.

Prison Is Affected By Decline In Price Of Part Of Product

Conditions in general at the Marquette branch prison, particularly with regard to its industrial shops, are the worst they have been in several years. The situation in the overall and box plants, due in large measure to the drop in selling prices of their products, is characterized by officials of the institution as "very trying."

About one-half of the inmates of the prison are idle with scarcely any work going on in the box shop. This is a condition which has been impending for about two months, following the general decline in prices which began with the announcement of the price cut of Ford automobiles.

ROCKING CHAIR IS INDORSER

Nobody who has studied the rocking chair will be surprised to hear that the French Academy of Science has declared it the most hygienic of all seats instead of a mere American fad. It is, as the academy says, physiologically correct. The trouble with it is that it is not always psychologically correct. Its baneful effects are not on the rocker, but on the beholder. It is an all-around joy only when it is not rocked. New England ladies used to test a new neighbor by getting her to sit in a rocking chair. If she could resist rocking she was of the elect. This simple test of the nerves has made or marred a great many new-comers' popularity.

The advantage of the rocking chair is that it puts the body in perfect balance. The skull is kept in the proper position. But oscillation does not add to the benefit. It is good to find an invention which has been maligned because of misuse endorsed by the scientists. Let these gentlemen next find something good to say about silk hats.

A Financial Wreck.

Mumbleton tottered into the room like a man reeling under the effects of some terrible mental blow. His wife looked at him aghast. "What is it?" she asked, in trembling accents. "It was not my fault," he murmured meekly. "We are penniless." "Penniless!" she repeated, in a half-dazed way. "Oh, tell me, have you been speculating on that dreadful stock exchange? Tell me you have done nothing to tarnish your honor." "Nothing—nothing!" he replied. "Oh, thank goodness for that!" she cried. "Now I can have nothing. Where has your money gone?" The wretched man placed his arm around her and gasped out: "I have paid the gas bill."

GOD—AND THE LEAGUE

An attempt to use the churches of the country to hold a League of Nations service last before the election very properly failed. The ministers were not to be drawn into any such trap.

But there is another side to this matter that may have escaped the attention of many. The Manufacturers' Record calls attention to it in the following:

During all the sessions of the Peace Conference in Paris, when the most vital and fundamental issues of world policy were being considered, when the most serious and far-reaching problems of humanity were being discussed, amid bitter disputes and clashing interests, when the delegates of many nations were arguing heatedly for conclusions which would mean life or death, slavery or freedom, misery or happiness to hundreds of millions of human souls—Not Once Was an Appeal Made to Almighty God for light and guidance in their counsels. Even the President of one of the nations went away to his self-appointed task without any public acknowledgment of his dependence on God, nor any request to the people of America to seek divine guidance for him in his mission. No religious service nor public prayer of any kind was allowed a connection with the long troubled conference. Earnest written petition, was presented by Christians outside the conference that there be some invocation to God's blessings and guidance in the work to be done, but official reply was made that there was no time for such service in connection with the conference. Man had serious work to do, there was no time to bother with God.

LAW'S THAT NEVER DIE

High prices not only may, but actually do, help to bring low prices. Sounds inconsistent, doesn't it—but it is one of the economic factors now playing such an important part in the post-war movement abroad by prices in general.

And it is simply based on a very old human fundamental law. If an article increases in value, naturally men will try to produce more of that article and finally, as production grows, the supply increases, hence the value falls. Anything that is very plentiful is not very valuable.

For several years America has been producing at tremendous speed for a vastly broadened market. Production has attained a new high mark, but now exports are declining, for the rest of the world is recovering and speeding up its own production. This condition is another factor bringing pressure to bear on high prices.

The old law of supply and demand, on which these conditions are based, is not dead, though it has been badly battered for several years by abnormal conditions.

There is another fundamental law affecting the market on people do not buy as heavily on a falling market as they do on a rising market.

Fundamental laws such as these may be rendered temporarily inoperative by abnormal or artificial conditions, but ultimately they come back into operation—and they seem to be doing so now.

TURPIN'S FAMOUS RIDE

Dick Turpin, hero of many a romantic story, and one of the most outstanding figures in the history of English highwaymen, once made a ride that, for distance covered and speed maintained, has never been duplicated, as far as any record exists.

Turpin was in danger of capture and capture meant death beyond question. He had to make his escape in an unprepared speed and endurance, and before him an earthen path leading from London's public squares to York, a distance of 200 miles. Turpin was touched to the marrow, fumed in anger and swore so "Black Bees," and just as the sun was sinking to rest the highwayman and the eager mount took up the long trail.

The snow was over twelve hours later over the hills of York, and the early-rising citizens who peered from their windows saw a great black horse, dripping with sweat, eyes staring from his head and breath coming in gasps, thundering down the main street, while a dust-covered rider or swayed in the saddle and made his way to the city. The horse was from the city's own stables. He had covered the distance in twelve hours and without changing mounts.

SIMS EXPRESSES WARM TRIBUTE TO RED CROSS

"Government officials can make no expenditures, even for the relief of suffering and in aid of our disabled heroes, in the many urgent cases that have not been foreseen and provided for by law; and often the necessary cumbersome machinery of government departments renders prompt action difficult if not impossible.

"The Red Cross can and will perform these essential services promptly and efficiently to the extent rendered possible by its financial support. It has demonstrated its efficiency both in the great war and in peace, and deserves the support of all who have the health and welfare of our people at heart.

"WILLIAM S. SIMS, "Admiral."

RED CROSS HELPS SOLDIERS IN CAMP

Life in any military or naval camp at present, especially in the hospitals, would be considerably dull were it not for the Red Cross. It is the same everywhere helping Red Cross these veterans, sick or well, find it now, even though two whole years have elapsed since the war ended.

One of the principal features of its work is the entertainments it arranges. Each night in every theater or hut in camp, a movie show is given, with a full vaudeville show as an added attraction at least once a week. The entertainments take the form of the Red Cross are the enlisted men's clubhouses. In them are held not only the shows, but frequent parties as well, just as was done when most of America's young manhood was frequenting such places. Excursion trips for the wounded, too, are furnished by the Red Cross. Athletic equipment of almost every description can be had at every camp for the asking.

The work of the Military Relief service in the Central Division at present is confined to the five camps in this section—Great Lakes Naval Training Station, Camp Grant, Ill.; Ft. Des Moines, Ia.; Camp Custer, Mich., and Ft. Sheridan, Ill.

Thousands of the wounded, sick and well soldiers and sailors in these camps swear by the Red Cross—not any more staunchly, however, than the many other thousands still in the service and the millions who have left it. They have the Red Cross to thank for many pleasant hours and attention they would not enjoy had the organization demobilized its army of military workers and let the memory of the men still in the hospitals and camps slip from its mind.

Mr. and Mrs. Earl Irwin and Mr. and Mrs. E. Carleton of Manistowic visited here and Escanaba yesterday.

PAPER MILL WILL NOT SUSPEND OPERATIONS AS HAD BEEN PLANNED

After officials of the Escanaba Paper Company had announced early last week that the paper mill at Groen would be shut down for a period of perhaps several months, beginning last Saturday night, conditions in the river changed, so that the suspension was avoided and it was decided to keep the big mill going.

The reason for suspending was the water level in the Escanaba river which furnishes the power to drive the big paper machines. For some time the mill had been running at about half capacity and finally it appeared that even this operation would have to be discontinued had not Sunday on Saturday a big head of water come tumbling down the river and the stage began to rise to such an extent that the officials felt justified in allowing the continued operation.

It had been planned to keep the mill running, but the news that plans for a suspension had been abandoned, temporarily at least, so long as the river flows the right way will be received with rejoicing among the 200 employees, most of whom would have been affected by the shutdown.

Rail ay Men Plan to Elect Officers at A Meeting Held Sunday

An interesting meeting of the Brotherhood of Railway Trainmen was held in the Eagle hall Sunday morning and continuing over until 2 o'clock Sunday afternoon. It had been planned to nominate officers for the coming election which is being held at the rush of other business took up so much time that the matter of no nominations was left open until some future meeting.

The Brotherhood of Locomotive Engineers, however, placed men in nomination for various offices. The election is to be held on December 1st.

AT LEAST ONE GIRL SORRY

The moon was full, the summer sun was high, the humidity was built for fun, and it seemed a shame to break it all up.

"Jack," she asked, "was there a girl in France who was very nice to you?"

"I'd rather you didn't ask me that question dear," he said.

"But I must know. We're engaged and you should tell me everything," she insisted.

"Dear, I don't like to talk about it."

"Oh, Jack, how could you when all the time you were engaged to me?"

"Listen a minute and I'll give you the whole story," he said in desperation. "She was—"

"She was my landlady, I owed her 12 francs," Boston Globe.

NEWS OF THE MOVIES

Wally Dora Coming

"Please Get Married," the Screen Classics' production of the one successful Broadway stage comedy of the time, starring Wally Dora, who has been brought to the screen from the Lido Theatre for Thursday and Friday next, and the management assures its patrons of entertainment of the most amusing kind. "Please Get Married," by James Cullen and Lewis Allen Browne, was one of the hits of the season when it was produced in New York by Oliver Morosco, and all its minor-producing qualities have been transferred to the screen.

The photo-production was made under the personal supervision of Maxwell Karger, Screen Classics, Inc. Director General, and is released by Metro.

Miss Dana is ideally suited for the role of Marjorie Ashley, the timid young wife in "Please Get Married." In the delicious situation of a wife, but not a wife, she distills every drop of comedy and clever naughtiness with which the play is surcharged.

THAT LEGACY HELPED SOME

"When I saw a ragged man," said the chairman vigorously, "I say to myself there goes one of the life's workers. There goes a man who has done to make the most of his gifts. There is no excuse for perverts' conduct. Everyone should rise!"

"Hear! Hear!" cried his hearers.

"Everyone," exclaimed the chairman, "may carve out a good position for himself if he wishes."

"Perhaps you are right," interposed a member. "Only today I met a newspaper man who told me that 20 years ago he came to Chicago with exactly \$5 in his pocket. He is now worth \$40,000 and he owes this entirely to his own ability and energy, combined with good health and a high code of ethics, and to the fact that his uncle recently died and left him \$38,995."—Chicago News.

Rosenblums in Berlin

Albert Rosenblum is in receipt of a letter from his brother Meyer Rosenblum and wife who now are in Berlin. The Rosenblums left here about two and a half years ago, going to Dresden. They expect to remain abroad about six weeks.

Meyer says there is a magnificent castle just outside Berlin. It was formerly occupied by one of the German princes and today it is for sale for the equivalent of \$6,000 in American money. It has 32 rooms, beautiful grounds and fountains and there are several automobiles included with the property.

New Telephone Rates

THE Michigan State Telephone Company has been granted an increase in telephone rates of approximately 15%, effective as of November 1, 1920.

This authorization was received after the November bills were issued. The new rates will, therefore, be billed on the December bills, which statements will carry the increase for November as well as the new rate for December.

The proper charge for the month of November may be paid, however, if you so desire, with the November payment. Information as to the amount may be secured from the local telephone office.

danger to life or limb, but the dislocation of the railway service caused by the refusal of the railway men to carry soldiers, police, or munitions made the train service so uncertain that nobody could count safely on reaching or returning from any given destination within the limits of a holiday.

William Penn...

The founder of Pennsylvania, William Penn, was born in London Oct. 14, 1644, and when he came to America in 1682 he was yet a young man. He stayed here for two years and then returned to England, but returned in 1689 and fixed in Philadelphia and at Penn's Manor, near Bristol, for about two years, when he returned to England, where he remained until his death at Ruscombe, Berkshire, in 1718. Penn was married twice and had four sons. His benevolence made him famous and his dealings with the Indians strikingly shows one of the many great principles of his life, Penn as a Quaker, and it is said that never a drop of Quaker blood was shed by the savages in all the wars against the white men of the English colonies during one hundred years and that no treaty made by Penn with the Indians was ever broken.—Chicago Journal.

How to Hunt Deer

TAKE A TIP FROM SID!

We have had a great deal of experience in deer hunting. For the first time we are going to come right out and tell you how to get them. We know that a lot of the "old timers" will get peeved when we give away their secrets. But we should worry—they have been getting them every season and it is time that some of the younger fellows get their deer. The reason that they are always so successful is that they

**Buy Their Hunting Clothes
at Goldstein's**

Road On

They come in the store just before hunting season, buy Goldstein's best rubber, heavy woolen sock, a flannel shirt or trousers, all wool underwear, heavy woolen pants, an all wool Mackinaw, a red hunting cap, pair of gloves to wear while mauling and leather mittens with woolen liners to wear on the "runways."

And that is all there is to it, except that they get a gun and two cartridges and come back in a day or two with their deer. In fact most all the fellows that we sell an outfit to do not

even need a gun. They are dressed so warmly that they can sit right down on a "runway" for a few hours, and knock the deer down with a club to keep themselves from getting trampled upon.

As a matter of fact, while we don't mention any names, there is a bunch at Goldstein's in this town that have to hunt in a crowd to protect themselves from getting run over and knocked down by the deer. And all their clothes come from Goldstein's. And nine out of ten of them get their deer with little hatchets that they make in the factory.

DEER HUNTERS BEGINNING TO DRIFT IN NOW

SHORT SEASON NOT LIKELY TO KEEP OUT THE FOREIGN HUNTER

With the opening of Michigan's first ten-day deer season only a little more than one week of applications for deer hunting licenses are beginning to pour into the office of the county and township clerks. Although the number of applications is not large so far, there are indications that just as many hunters will go into the woods for the short season as were recorded last fall.

The season will open November 13 and will close November 22. It is the general belief that the shortened season is not going to keep southern Michigan hunters from flocking into the upper peninsula forests. In fact the annual "advance guard" of hunters has already crossed the straits. Several parties of deer hunters have gone into camp and are enjoying rabbit hunting and getting their shacks in shape for the opening of the season.

Deer Are Numerous

Men who hunted partridge this fall say that deer are plentiful. Despite the large kill of deer last fall, many hunters think the animals will be as numerous this year. Opinions differ as to whether a closed season on deer will be declared next fall. The fact that the game commission has seen fit to set the season to half the season as it is regarded in some quarters as an indication that deer will be protected entirely a year hence.

The partridge season which closed Sunday brought to an end what is believed to have been an unprecedented slaughter of birds. As a result of the closed season, partridge were extremely plentiful in all parts of the peninsula, but many thousands of them have been killed off.

Some Gladstone hunters have expressed a desire to see the partridge season closed again next year. They favor a plan of opening and closing the bird season on alternate years. It is possible that a movement will be started among sportsmen's clubs to ask the game commission for a ruling of this kind.

Uncle Sam Put Under Arrest In Menominee County

A man who gave his name as Kasimir Maslowki, said to have been at one time an inmate of the State hospital near Oakton, walked into a farm house on the Menominee river shore, said he was an officer of the law and attempted to arrest the members of the household. A call for Sheriff Duquain brought the official to the scene and the arrest of Maslowki followed.

"Your just the man I want to see," said Maslowki, as Sheriff Duquain entered the farm house. "I don't care if I needed to convince these people that I am an officer of the law," Maslowki, who is clearly demented stated that he was Uncle Sam. When asked as to what he had done with his uniform, he said that he gave it to the president. The prisoner walked up and down his cell proclaiming that he was Uncle Sam and he didn't care who knew it.

Little can be learned of his past history, and no county or state officials in this vicinity appear to be in any hurry to claim him. It has been learned that he had worked at Lakewood and several small Wisconsin and Michigan towns during the past year, but for the past two months no trace can be found of his wanderings or actions. According to Sheriff Duquain, Maslowki, who is approximately fifty years of age, has no home nor relatives. He has been a state charge before, and will no doubt be taken back to the Wisconsin state hospital.

Nut Wailer Wanted

An old lady, after waiting in a confectionery store for about ten minutes gave a grocerly impatient at the lack of service. Finally she rapped sharply on the counter.

A Good Cough Medicine for Children

Mrs. J. W. Phillips, Redon, Ga. showed to J. E. Floyd, the merchant there, for a bottle of Chamberlain's Cough Remedy and said she had bought a bottle of it at his store recently and it was doing her children so much good that she wanted to keep up the treatment. You will find nothing better for coughs and colds in children or for yourself. It keeps the cough loose, expels the mucus and soothes the system from the cold.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative power of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, etc.

Still Adept as Soldiers

These are a few of America's unfortunate war heroes in Uncle Sam's hospital, for whom the Red Cross is doing everything possible to lighten their load. The picture shows a group of crippled doughboys proving they still are experts at the manual of arms. It was taken at a recent field meet staged by the Red Cross at Ft. Dev, Moles, Ia.

AMERICANS TO FEED RUSS KIDS

RELIEF ADMINISTRATION IS CONSIDERING ACTION OF THAT KIND

Berlin—The American Relief Administration of the European children's fund is considering the possibility of feeding hungry children in Russia this winter and will submit all possible information on the subject to the competent authority in America where the decision must be made.

Two of the relief members, Messrs. Fate and Walker, who accompanied the Polish delegation to Moscow and later visited Moscow and Petrograd, reported to the American Relief Administration officials here that they were greatly impressed with the system of feeding and the care for children under bolshevist rule.

W. L. Brown, who is in charge of the relief work in Europe, said "The children are given first preference under the bolshevist scheme of food distribution and, on the whole, this work is well and ably carried out within the limits of the food supplies which are available."

Messrs. Fate and Walker reported the food conditions were had through the portions of Russia which they saw, with every likelihood of an extremely bad winter in the big cities and consequently great suffering among the children.

Mr. Brown added that he was unable to hazard an opinion whether the American relief will go to Russian children as the question involved political issues with which the European representatives of the American Relief Administration is unwilling to deal.

The American Relief Administration has turned over \$144,762 to the American Friends Service Committee (Quakers) for feeding undernourished German children. This amount will feed 140,000 children for one month.

LUMBER COMPANY BUYS 500 TONS OF FOODSTUFFS

GIGANTIC ORDER IS GOING TO DRUMMOND ISLAND BY VESSEL

Green Bay, Nov. 3.—That Green Bay is rapidly forging ahead as one of the largest wholesale grocery distributing centers in the Northwest is amply proven by the fact that more than 500 inhabitants of Drummond Island, Mich., will be fed from this city this winter.

The steamer Matthew Wilson, in command of Captain John Elies cleared from Green Bay at 10 o'clock Saturday morning bound for Johnwood, Drummond Island, with a cargo of 500 tons of groceries and millstuffs for the Krestean company a large lumbering concern, which is manufacturing hard and soft wood lumber on the island.

Competitive Bids

All of the groceries were shipped by the Joanne Bros. Co., of this city, which were successful in competitive bidding against Detroit, Cheboygan, Saugatit, Marquette, Mich., and Buffalo, N. Y. firms.

Who said Drummond Island would be hungry this winter. The lumberjacks, besides being able to keep clean, eat, sleep and work this winter, also will be able to smoke to their heart's content as the order included 55,000 cigarettes of popular brands. Those that want to can "dip" snuff too, as six cartons were ordered. They won't go thirsty either because 304 cases of soft drinks, including artificial porter and near beer were in the consignment.

Must Like Pea Soup

Pea soup promises to be a popular item on the bill of fare this winter, when the wintry blasts from off Lake Huron begin to blow. Eleven sacks

THE PASSION FOR HASTE

A Japanese baron visited the University of California, and on leaving was put aboard a partly filled local car.

At the junction the party transferred to a much-crowded through car. Japanese courtesy weathered the test so far as manners went, but the baron could not resist the question, "Why did we leave the comfortable car for this one, which is so crowded?"

He was told: "Oh, we save two minutes getting into San Francisco." "Ah, said he, "and what will we do with the two minutes?"

Jack Couldn't Build a Ladder as Fast as the Bean Stalk Grew

We often think of Jack and his bean stalk problem. Somehow, his bean plant that grew and grew and grew and his ladder that couldn't grow, bring home to us our own perplexing problems.

Like Jack's bean stalk, the costs of operating an efficient telephone system in Michigan have grown and grown and, too, just like Jack's ladder, the rates with which we must meet this growth have done little more than stand still.

Jack and your telephone company must have larger ladders.

MICHIGAN STATE TELEPHONE CO.

"Our Ambition—Ideal Telephone Service for Michigan"

CIRCUIT COURT DISTRICTS MAY BE REARRANGED

STATE LEGISLATURE IS TO CONSIDER CHANGE—CONSTITUTION IS WEAK

Past appointments of the 40 judicial districts in Michigan, called unfair by many state officials because of their being "so far out of proportion," may be fixed by the next legislature. Recommendations that are now being framed are favorably considered. There is no constitutional provision or law fixing the population necessary for the creation of a new judicial district, the constitution empowering the legislature to act in this connection at its own discretion.

Figures of the population of the counties of Michigan as announced by the federal board show that the Twenty-third district, comprising Alcona, Leosco and Anseles counties, with an aggregate population of 115,494, has one circuit and just all that is claimed by the Twenty-fifth district, made up of Delta, Dickinson, Iron, Marquette and Menominee counties, and according to the 1920 figures boasting of 150,845 inhabitants.

Wayne county, with its 1,177,415 population has 10 circuit judges, or one for 117,741, while the legislature has created a separate district of Hillsdale county, showing 28,141 people in the 1920 count. Among the counties where the state's chief industries are confined, the ratio is shown to be close to 49,000. Genesee having two judges for 125,668 population; Saginaw, two for 100,286, the Twelfth district, comprising Baraga, Houghton and Keweenaw, having one judge for 45,914.

Officials point out the weakness of the constitution in this respect, the only provision being that the "state shall be divided into judicial circuits." The determining of these districts, as well as the apportionment, as to population, is left to the discretion of the legislature.

Does Not Remove Judge As it gives the legislature permission to create a district, there is also a provision that the law makers may alter, or discontinue, a district by law, but it is explicitly stated that a discontinue of a district shall not have the effect of removing a judge from office. This provision is taken to mean that the judge in a district, ordered by law to be discontinued, would remain in office until his term had been completed. Circuit judges are elected every six years, beginning in 1911, except where there is a necessity to fill an unexpired term. From the state, each receives a salary of \$2,500, but he may also, and does in the majority of the circuits, receive such additional compensation, as may be determined by the respective board of supervisors.

Cloverland Oil Co. Office Held Up By A Masked Robber

When a tall man wearing a white handkerchief over his face and carrying a revolver walked into the office of the Cloverland Oil company on Stephenson avenue between 7 and 8 o'clock last night and commanded the office manager to the company in "put 'em up" Mr. Cyr smiled, thinking it was an election joke. The visitor however, repeated his command in a more persuasive tone and Mr. Cyr obeyed. Forced by the muzzle of the gun at his back to turn over his shoulder watched the intruder pocket \$225 in silver, currency and checks and depart. "Goodbye," said the robber backing out the door. "Goodbye," replied Mr. Cyr as he reached for the telephone to not if the police. "It may have been a home-talent job," Police Chief John T. Tolan said Wednesday night, "but I am inclined to think that it was the work of an outsider."

Last of Custer Band Killed By Motor Car

Toledo, Nov. 3.—Frank Fleck, believed to have been America's last survivor of Custer's band of Indian fighters, was killed by an automobile on a suburban road near here early today. Fleck, a ship carpenter, had made his residence in Toledo many years. When Custer's troops were instructed to pursue Indian warriors, Fleck was attached to Reno's division. He suffered four bullet wounds in the battle of the Little Big Horn and escaped with Reno's troops, who had become separated from Custer. Fleck was one of seventeen who enlisted from Toledo in the regular army in 1867. He was assigned to the Seventh Cavalry, which was sent against the Sioux and under Sitting Bull. He was seventy years old. Boarding houses are probably so called because a man is expected to plank down in advance.

MINSTREL SHOW BEING PLANNED FOR WINTER BY THE AMERICAN LEGION

Members of the American Legion received news this week that they can expect their boxing scene within a short time, it was stated yesterday. Incidentally, the legion has received word from "Kid" Barrago, of Trout Lake, and "Kid" Crawford, of Flint, stating that they are willing to meet Al Phillips, of this city at a weight between 122 and 125 pounds. Both assert they can make Phillips' weight and have opened negotiations with the legion for the purpose of staging a match, in the event that the license comes at a time convenient to both of them.

A recent addition to the legion roll in this city, is Earl Fisher, son of Mr. and Mrs. E. G. Fisher, Earl was a gunner during the U. S. S. Mississippi during the war. He has been working in the Oakland factory at Pontiac for several months but is now home for the winter. In addition to being a mechanic of rare skill, he is also an entertainer, working in black and he has promised to do some monologues and put on a few other stunts during the American Legion banquet, Armistice Day. Also it is being planned for the legion to give a minstrel show this winter, Fisher being in charge of the arrangements for this event. As a matter of fact the legion is looking forward to a busy winter. Boxing shows, minstrel shows and various other entertainments are on the bill for the winter and it is going to be made as interesting as possible for the exercise men.

FRANKLIN PENNY FOUND AT DOVER

Dover, Mass.—A Franklin penny, the first copper coin to be authorized by Congress, has been found on the homestead of one of the first settlers here. It was struck in 1782 and is one of a few that were coined.

The penny, took its name from Benjamin Franklin because of the inclusion in its design of the boy's admonition "Mind your business," after a suggestion by him that coins should serve purposes other than in closing Colonel Gilchrist says: "While there are no figures available to enumerate the actual amount of damage wrought by the bolshevik armies in their recent advances toward Poland, it is predicted by the most conservative that the number of new typhus carriers scattered over all Poland will reach many thousands, and the financial loss due to the destruction of sanitary materials, crops and other property will run into millions of dollars."

GET DRINK FROM FLOWERS

The flowers of the "mowra" tree, native to India, are highly valued for food. They are rich in sugar and an intoxicating drink is distilled from them. A syrup prepared from them is bottled down, yielding a sugar equal in quality to legal sugar.

In the central provinces of India mowra flowers are regularly used as an article of food by at least 1,000,000 people, each of them consuming about eight pounds per annum. Throughout that country they are looked upon as a valuable reserve in famine years. Their bark, juicy, globe-shaped capsules are collected when they have fallen and are spread out to dry on mats in the sun. A single tree will yield 200 to 300 pounds of flowers in a year. They are eaten either fresh or dried, and cooked in many different ways, with rice, shredded coconut or flour.

The bulk of the crop of flowers, however, is used for the preparation of "daru," or mowra spirit. They are fermented, sometimes with molasses added, and the liquor is then distilled in crude apparatus. With good distilling apparatus, 100 pounds of the flowers will yield five and one-half gallons of proof spirit per annum. The waste yield an oil which is largely utilized in the manufacture of soap, candles and imitation butters.

TYPHUS MENACES POLISH REPUBLIC

COUNTRY IS IN FAR WORSE CONDITION THAN EVER BEFORE

Warsaw—Poland is in far worse condition from typhus fever dangers than ever in her history, says a report by Colonel Harry L. Gilchrist, commander of the American Polish Relief Expedition which has been cooperating with the Polish government more than a year in an effort to wipe out the disease. "Unless outside aid is forthcoming at once," says the report, "suffering will be intense during the approaching winter and all Europe will be threatened with a terrible typhus fever epidemic."

Increased danger from the spread of typhus fever has been brought about by the Polish-Russian war which has destroyed all eastern defenses against the infected regions of Russia as the armies have pushed each other back and forth across the disputed districts. Regarding the bolshevik activities in August which threatened Warsaw for days and their effect upon the typhus fever situation, Colonel Gilchrist, summarizing his report, attributed the renewed dangers to the following causes:

Situation Very Serious "Complete abandonment of all typhus fever work in the worst typhus fever districts of Poland; capture by the bolsheviks of all eastern quarantine stations and removal of the barriers established under great difficulties; capture and destruction of much of the paraphernalia and materials which had been distributed in many towns and villages throughout the typhus districts; introduction by bolshevik troops of a new source of contamination to places free from the disease infecting of the armies of Poland, and mixing of the population returning to homes recently occupied by bolshevik soldiers."

Poland realizes the seriousness of the present situation, and is doing all in her power to cope with it, says the report, but with a war on hand, and limited facilities to work with, the government officials can do but little. In closing Colonel Gilchrist says: "While there are no figures available to enumerate the actual amount of damage wrought by the bolshevik armies in their recent advances toward Poland, it is predicted by the most conservative that the number of new typhus carriers scattered over all Poland will reach many thousands, and the financial loss due to the destruction of sanitary materials, crops and other property will run into millions of dollars."

SCIENTISTS TO HUNT APE-MAN

WILL ALSO STUDY ABORIGINAL TRIBES OF CHINA

New York—The expedition sponsored by the American Museum of Natural History which will set forth for China next February will search not only for fossils of the ape-man, regarded by biologists as the "missing link" in the chain of evolution, but will study the aboriginal tribes now said to be fast disappearing in China.

"We know as little about some of the living natives as about the fossil history of the country," says Roy Chapman Andrews, who will lead the expedition. "Long before the Chinese arrived, China was inhabited by aboriginal tribes, which were pushed south and west just as the Indians were driven westward by white men who advanced across the American continent."

Tribes Disappearing
Remnants of nearly 20 of these tribes, such as the Lolo, Moso, Lisos and others, are rapidly disappearing, and the expedition expects to study them before they become extinct.

Describing these aboriginals with whom he has hunted, Mr. Andrews said they are totally unlike Chinese, having tall and slender bodies, long faces, patrician noses and other characteristics of Caucasian blood.

Mr. Andrews says that scientific men are now agreed in the belief that the oldest prehistoric remains of man, and of many beasts, lie somewhere within the great Central Asiatic Plateau, where few white men have ever penetrated.

One of the reasons why little is known of China's fossils and those of interior Asia is that material of this sort is carefully concealed by the Chinese, who term the relics "dragon's bones" and use them for medicinal purposes, said Mr. Andrews.

One result expected is the education of Americans in a knowledge of the immense continent across the Pacific. Whether success or failure meets the attempt to find the "missing link," hundreds of thousands of specimens of Asiatic animal and plant life are to be collected and brought to America. These it is planned to place in the proposed \$1,000,000 Hall of Asiatic Life in this city.

Hunt Wild Animals
Hunts for wild animals, many of which the explorer hopes to bring alive to the United States, will furnish excitement. In a corner of the Gobi Desert are herds of wild horses, while on the Tibetan steps are enormous Yaks, a strange oxlike animal with a vritable "golden fleece" that roams the highest mountain valleys and represents an intermediate stage between the antelope and the goat, says Mr. Andrews.

Headquarters for the expedition are to be at Peking. The work of the expedition is to continue for five years. The first year will be devoted to studies in paleontology and zoology in China. The second year the work is to be carried into Mongolia, with geologists added to the field staff. Then for the next three years the entire force will be scattered in widespread sections of Asia.

News of the Churches

Swedish Mission Church
Prayer meetings will be held Tuesday, Wednesday and Thursday evenings at 7:45 o'clock. These meetings will be conducted as a part of the evangelistic campaign which will be held at the church from Sunday, Nov. 14 to Nov. 25. The Rev. E. A. Skogberg, of Minneapolis will have charge.

The Ladies Aid Society will meet at the church parlor Thursday afternoon at 2:30 o'clock. Mrs. C. Hagenson will serve.

The choir meets Friday evening at 8 o'clock.

Confirmation choir meets Saturday morning at 9 o'clock.

Installing Heating Plant
Representatives of the Marinette Heating Company are now at work at the fire hall, installing the new heating plant. It is hoped to have the plant in and operating by the latter part of this week.

Society Notes

Miscellaneous Shower
Mrs. Phil Louis entertained Thursday night at a miscellaneous shower in honor of Miss Amelia Louis who will be married tomorrow to Henry Burns of this city. About fifteen couples were present and Miss Louis was the recipient of many beautiful and useful gifts. The evening was very enjoyably spent with cards, games and music. A delicious luncheon was served in conclusion. Those from out of town present were Mrs. Frank McLaughlin and daughter Anna May of Escanaba and Miss Hilda Ortmann of Wells.

W. R. Asst's Meet
The Women's Benefit Association met last Wednesday night at which time Mrs. M. M. Buck was appointed Commander filling the unexpired term of Mrs. W. R. Jaeger, who retired. At the close of the meeting a party in the nature of a farewell was given Mrs. Jaeger. The evening was most pleasantly spent at the conclusion of which refreshments were served. Mrs. Jaeger was presented with a beautiful cut glass salad bowl as a token of the esteem in which she was held.

Seniors Entertain
The Senior Girls of the High School entertained at a supper Saturday at the Methodist church parlors in honor of the Manning football squad. The local squad were also the guests. After a delicious dancing party, they indeed appreciated the entertaining and spoke very highly of the cordial treatment given them.

Joint Installation Tonight
A joint installation of officers of the Gladstone and Escanaba councils of the F. R. A. will be held in Escanaba tonight at the North Star hall. A banquet is to be served from 7 to 9 o'clock. A big crowd was expected to attend from here. Supreme Secretary Robinson and Supreme Field Manager Comstock will be present at the meeting.

Elect Officers
The Glad Girls of the Presbyterian Sunday School met Friday night in the church parlors and had their annual election of officers, as follows:
President—Marie Moore,
Vice President—Bernice Swan,
Secretary—Louise Clark,
Treasurer—Mildred Campbell.
After the meeting, the girls enjoyed various social diversions, light refreshments concluding the evening.

Farewell Party
The Sunday School class of the Methodist church entertained at a farewell party in honor of Mrs. W. R.

Guaranteed Tire Repairs

We guarantee our tire repairs to last as long as the tire. Your old tires, repaired by us, can be depended upon for long, trouble-free service. All tires that leave our shop are sound tires, strengthened with Good Year Tire Repair Materials. Drive in your worn casings for free inspections. We will help you get every penny's worth of mileage there is in them. Visit us today, before you forget about it.

Ruth, the little daughter of Mr. and Mrs. N. Raiche is recovering nicely from a slight case of diphtheria. The home was under quarantine.

Improving Nicely
Mrs. John Johnson who underwent an operation sometime ago at St. Francis Hospital is getting along nicely and will probably be able to come home next week.

Five Victims' Funerals
Funeral services were held at 10 o'clock Friday morning for the two unfortunate children of Mr. and Mrs. John Plosky, of Kipling, who were burned to death in a roof house last Wednesday afternoon. Both little bodies were placed in one casket and impressive services conducted at the chapel of All Saints' parish interment was made in Fernwood cemetery. Mr. and Mrs. Plosky were grief stricken and the mother's anguish became so acute that it was necessary to lead her from the church during the service.

Her First Thought
A woman from the middle West spent a few weeks in Gloucester last summer and in conversation with a new acquaintance she made known the fact that it was her very first glimpse of the ocean.

"It must have been quite a treat," remarked the other. "And how did the ocean impress you?"
"Well," was the reply, "when I saw the amount of water they have here it struck me that fish might be a little cheaper."—Boston Transcript.

ARGENTINA IS PROBING CRAFT CHARGES AS TO ITS PUBLIC BUILDING

Argentina has been having a craft investigation as a result of which it has been found that 5,500,000 pesos have been "unduly" disbursed by former government officials who directed payments to contractors for building the capitol at Buenos Aires. The present government has announced its intention of bringing suits to recover the money improperly paid.

The building, a magnificent structure of classic architecture, marble facings and broad sweeps of marble steps not unlike the capitol at Washington, is justly called in the newspapers "El Palacio de Oro," Spanish for "The Palace of Gold." It was begun in 1887 and was originally to have cost 10,000,000 pesos. It is not yet entirely finished and has cost 27,000,000.

Recently a committee of the national accountability department completed an investigation of the expenditure of the monies paid for construction of the building and reported that 5,500,000 pesos had been "unduly" disbursed.

Buenos Aires newspapers told years ago of wagon loads of building material that went in the front door of the structure, soon after came out the back door and then disappeared. Charges were made that marble was paid for but concrete used for part of the construction, and other accusations of graft were aired. It was then the newspapers began to call it "The Palace of Gold."

Home from Mt. Calvary
Reynolds McDonald who is attending Mt. Calvary college came home Saturday morning and acted as cross bearer at the ceremonies of the laying of corner stone of All Saints' church. He will return tomorrow to his school.
