THE prospects for the April 2 election are for a "ery quiet affair, now that it is known there will be no opposition for the offices of the two city commissioners to be elected. Absence of opposition speaks well for the services of the two incumbents. Peter Peterson and James H. Murphy, who will be re-elected without opposition. It also indicates the healthy condition of the city's business affairs, the citizens who have kept themselves posted feeling satisfied that public affairs have been handled efficiently, and on the whole satisfactorily.

No contest for city offices, and none in the preferential presidential primary. Democrats may cast their ballots for AI Smith candidate on that party, and followers of the COP may cast their preferences for Herbert Houver. Friends of Frank O. Lowden were expected to enter his name and contest the result, but this failed to materialize. Smith and However will thus be entitled to the votes of the Michigan delegates of their respective parties, presumably, although there is nothing in the law to prevent the delegates from voting as they please after they reach the conventions. The Republicans are scheduled to meet in Kamass City early in June and the Democrats follow a few days afterwards with their confab at Houston, Tex. Right now it looks like easy picking for both Hoover and Smith but there is never any forstelling whom the political gods (the party bosses) may smile upon. It will ever remain thus until such time as a nation-wide primary has been established giving to the people a direct voice in the nomination of their candidates for president, just as all progressive states, now allow their citizens to nominate their representatives, Senators and state officials.

Dear Mr. Sohlberg:
In your letter of March 9th you ask me to give my opinion in regard to local conditions and the future of our city. I have lived in Cladstone all my life and for the past fifteen years have been connected with the State Bank so that I think! I know local conditions pretty well. We have in Cladatone an unusually large number of home-owners and the property is well kept and our town has a very presentable appearance. I challenge anyone to show me a cleaner little city than Clad-sione. We have efficient city management and our schools are as good as you will find anywhere.
