The Verdict Unanimous.
 W. D. Sult, druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of rheumatism of 10 years' standing." Abraham Hare, druggist, Bellville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the liver, kidneys or blood. Only a half dollar a bottle at Geo. Preston's drug store. 2

CATTLE MEN ALARMED

At the Spread of Pleuro-Pneumonia—Proclamation on the Subject.

MADISON, Wis., Sept. 27.—In response to a suggestion from State Veterinarian Atkinson, Gov. Rusk today issued the following proclamation against pleuro-pneumonia:

In pursuance of the provisions of chapter 487, of the laws of Wisconsin for the year 1885, entitled 'an act to suppress and prevent the spread of infectious and contagious diseases among domestic animals,' approved April 13, 1885, I, Jeremiah M. Rusk, governor of the state of Wisconsin...

WASHINGTON, D. C., Sept. 27.—The Bureau of Agriculture is actively engaged in devising and putting in operation measures looking to the extirpation of pleuro-pneumonia...

In behalf of the live stock industry of the West, we earnestly protest against the sale, either private or public, of any of the cattle that have been exposed to pleuro-pneumonia...

Commenting on this dispatch, Commissioner Coleman said: 'These people must be crazy to think the department will permit any of these cattle to be sold.'

The commissioner has drawn up and forwarded to the governors of all the states and territories a series of rules and regulations for co-operation between the United States Department of Agriculture and the authorities of the several states and territories...

First—The necessary inspectors will be furnished by the Bureau of Animal Industry of the Department of Agriculture.

Second—The properly constituted inspectors of the Bureau of Animal Industry, who are assigned to the respective states, are to be authorized by proper state authorities to make inspections of cattle under the laws of the state...

Third—All reports of inspections will be made to the Bureau of Animal Industry and a copy of these will then be made and forwarded to the proper state authorities.

Fourth—The inspectors, while always subject to orders from the Department of Agriculture, will cordially co-operate with state authorities, and will follow instructions received from them.

Fifth—When pleuro-pneumonia is discovered in any herd, the owner or person in charge is to be at once notified by the inspector, and the quarantine regulations of the state in which the herd is located are to be enforced from that time...

Sixth—To ensure a perfect and satisfactory quarantine, a chain fastened with a numbered lock will be placed around the horns, or with hornless animals around the neck, and a record will be kept showing the number of the lock placed upon each animal in the herd.

SEVERED HIS JUGULAR.

approaching Cox, told the latter to hit him. Cox drew a dirk and cut him in the neck, severing his jugular vein.

THE COAL CONSPIRACY.

Dubious Outlook for Poor Consumers the Coming Winter.

CHICAGO, Ill., Sept. 29.—It is asserted that the coal dealers of the city did not raise prices at their meeting on Friday last because they could not deliver all the September coal contracted for during the month.

Dispatches yesterday stated that the operations of what is known as the 'Coal Ring' are just now exciting great attention in this city, and several labor leaders are considering the advisability of calling a mass meeting to protest against what is termed its extortions.

In regard to this matter, a dispatch from this city to the Engineering and Mining Journal, of New York, dated September 24, says:

Philadelphia, Pa., Sept. 29.—The coal agents of the Pennsylvania Railroad Coal Companies have advanced the selling prices of coal on an average about 15 cents per ton.

BULGARIA AND RUSSIA.

The Former's Answer to the Latter's Ultimatum.

Gen. Kaulbars, having again asked for a reply to Russia's ultimatum, the ministry on the 3d, after a long discussion, drafted a reply to the effect that the Bulgarian government would comply with the demand of Russia...

Gen. Kaulbars, hearing of the circumstance, drove up and addressed the crowd, complaining of their insulting conduct. He also warned the people against accepting the advice of their present leaders.

St. Louis, Mo., Sept. 29.—Chief of Police Haebler received, some time ago, a letter from George P. Keister, a guard at the Jefferson City penitentiary, stating that a convict named George Sears, in shoe shop No. 9, had informed him that he knew about the Zoe Watkins mystery.

THE PENINSULA.

MEMONINEE
[Democrat.]

Lawyer B. J. Brown organized a railroad company in this county this week, which will be known as the Ingalls, White Rapids & Northern R'y; capital stock, \$100,000. The directors are Jesse Spalding, Chicago; John Bagley, of Houghton county; E. Daniell, of Calumet; B. J. Brown and Sam'l Stephenson, of Menominee.

Geo. W. Lovejoy, an old resident, committed suicide on Sept. 30 by shooting himself in the head with a double barreled pistol. He was 70 years old and had lived on the river 33 years. Despondency produced by heart troubles was the moving cause.

The executive committee appointed by the workingmen's convention will remove W. H. Hurley from the labor ticket, according to an agreement made at the time of the nominations with Hurley's supporters, whereby his future conduct was to determine whether he should be continued on the ticket or removed. R. C. Flannigan, is, we might say, the almost unanimous choice of the laboringmen of the city of Menominee for the office of prosecuting attorney.

Father Atfield has been relieved by Fathers Letellier and Geers, and will return to Houghton.

The Menominee fair was very successful.

ISHPEMING.
[Mining Journal.]

Robert Johnson, a married man and the father of three children, was killed in the Cleveland mine by an accident at an early hour Tuesday morning. He was one of the night shift men, and was passing through a gallery in the mine to join the other miners in his gang. When about half way through the drift he saw that a tram-car was coming. Hurrying his pace he attempted to pass out of the opening in front of the car, but was caught between the car and a heavy timber supporting the roof and almost instantly killed.

A party of Frenchmen celebrated on Sunday with several kegs of beer. After the beer was drunk one of the men struck another with a beer-glass, fracturing his skull. The injured man may recover; meanwhile the other is in hiding.

NEGAUNEE.
[Herald.]

Mauritz Shellman, Peter Popper and Paul Baraza, miners at the Winthrop, were crushed to death by a fall of ground Sept. 29, caused by the giving away of some portion of the timbering. The bodies were recovered in the afternoon, several hours after the accident.

Jack Carkeek was married to Miss Gussie Stratman, of Dodgeville, Wis., on the 18th of September, and was accompanied by his bride from Dodgeville to Republic, Tuesday where they will make their home for the present at least. Jack and his'n has our best wishes for a long life of interrupted happiness.

Joseph King, on Wednesday Sept. 29, shot Mrs. Rouillard, with whom he had been intimate. The woman is recovering. After the shooting King was arrested and tried to hang himself, but was prevented. Jealousy was the motive. King is 58 years old, and the woman 50, with a husband living.

[Mining Journal.]

Complaint was lodged against Joseph King—or Roy the French equivalent for his English name—before Justice John Jones by prosecuting attorney Hayden the 30. He stands charged with assault with intent to murder. Justice Jones committed him to Marquette jail without bail, to await further examination. The examination will take place on the 7th inst, if not further adjourned. At that time it is expected that the condition of Mrs. Rouillard can be determined by the attending physicians. If she dies, the charge will be immediately changed to murder, and he will be tried for that crime.

King was taken to the county jail Tuesday afternoon by sheriff Anderson. The prisoner and attending officers were followed from the jail to the train by a large crowd, and all succeeded in gratifying their curiosity to catch a glimpse of King. He seemed to realize his position more fully and trembled like a leaf. He still sticks to the story that he was only trying to scare the "old man" when he fired the shot that wounded the woman in the case.

Despite the fact that there is but one justice in the city, there is not justice work enough to keep him busy. The fact speaks well for the morals of Negaunee.

Sunday afternoon about 5 o'clock Willie Hogan, a lad 10 years of age, started out to look for his father's cow. At last accounts he had not returned, and it is almost certain that the little fellow lost his way in the woods surrounding the city.
