REPORT OF STEPHEN LOWNEY, LAND LOOKER, FOR YEAR 1931.

Following is a report of the work in general done on The Cleveland-Cliffs Iron Company lands during the year 1931 by the Land Lookers.

During the year the Company had two crews, comprising four men, steadily engaged examining lands. One in charge of S. Lowney, Jr., with his compassman, Toivo Pelto, and our own party consisting of Thomas Billings and myself.

During the year S. Lowney, Jr., examined 31,840 acres of land in Towns 46, 47, 48, 49, and 50, of Ranges, 8, 9, 10, 11, and 12.

He found and reported on a total of132 trespasses. Seventy-one were of 4 to 10" Second Growth Hardwood Timber located in the Negaunee, Ishpeming, Cliffs Drive, and National Mine Districts and were cut for fuel mostly by men who have been working in Company mines for many years. Sixty-one were for generally small quantities of Spruce, Balsam, Cedar Posts, and some saw log timber cut by Underwood, other small jobbers, and also the Charcoal Iron Company, all of which have been reported in his annual report of 1931.

Our own party examined 23,850 acres of lands, and found and reported 107

trespasses.

- 5 of these trespasses were for parties having their fences over and on The Cleveland-Cliffs Iron Company lands.
- 1 was for a small closed down logging camp being on Company lands.
- 2 were for taking gravel from Company lands.
- 37 were for generally small quantities of saw logs, pulpwood, cedar poles, posts, etc., taken from Company lands.
- 62 were for small quantities of second growth Hardwood, cut in numerous promiscuous places in the Negaunee, Ishpeming, North Lake, National Mine, Gwinn, Eagle Mille, and Cliffs Drive Districts, ranging in quantities from ¹/₂ to 5 cords, cut and taken generally by men who are now and have been for many years in the Company's employ, who feel, as I do, that their long steady loyal relationship with the Company justify them, especially in times like the present, to cut a little of this second growth timber for fuel.

Most of these parties, as you many times suggested, confine their cutting to the windfallen timber and if all of them would do this and clean up the brush in getting the timber out, then these thrifty second growth forest, growing and full of life, would show little or no noticeable injury.

We speak to these men in the most friendly manner and tell them to take the windfallen timber, clean up any brush or rubbish they make and cut no standing green timber. Doing this eliminates to a great extent the fire hazard. We tell them that the Company encourages those of them who want to get wood in this way to take it without charge. This method adds to increase and perpetuate the mutual affections and cooperation, and in this way these men and all others no matter where they are will take added interest and work still harder to protect and promote Company's interest.

FOREST FIRES

We have had practically no forest fires during the year 1931 and practically no loss of Company's timber by them, which was due largely to the unusually wet season.

Mature timber forests in the Upper Peninsula are steadily decreasing on account of constant cutting everywhere. The thing to do to preserve and perpetuate their life is for all woodsmen and everyone else, to be faithfully watching and ready night or day, to put out all little fires at their starting, for these small fires are those which develop into big ones.

The Company owns the largest and best tracts of mature and second growth timber lands to be found anywhere in the entire Upper Peninsula and by proper cutting and operating methods, which mean always, that the cuttings should be concentrated as much as possible to as nearly one properly selected spot as possible. This will cheapen the cost by eliminating costly surplus railroads, camps, etc., and in addition it places the Forests in a solid unbroken position which makes it almost impregnable against forest fires, and should fire develop, the crew and equipment is on the job ready to put it out. WINDFALLEN TIMBER

About in July of 1931 a severe windstorm or cyclone swept thru the Munising District and blew down considerable hardwood timber near Road M-94 on the north side of Sections 1 and 2 in Township 46-18, and also on the south side of Section 34 in 47-18.

This timber is now being picked up and logged and delivered to the Munising Woodenware Co. and to Jackson & Tindle.

This same storm blew down about 16 M feet of mostly hardwood timber on the west side of the \mathbb{H}_2^1 of NW¹₄ of Section 9 in 45-23. This quantity of timber is hardly of sufficient size to warrant a profitable operation and in addition cutting it would make a new slashing and fire hazard.

NEW PROJECTS

Stearns Culver Company quit operating with their portable sawmill in Town 46-15 near Walsh Siding on account of not being able to dispose of the lumber at a profit. The lumber consisting of hardwood and hemlock is now piled in the woods near their logging railroad and is in care of a watchman.

Fitzpatrick and Schneider, of Grand Marais, Michigan, cut about $2\frac{1}{2}$ million feet of hardwood and hemlock logs on Sections 14, 15, and 16, in Town 49-14. They cut these logs into lumber with a portable sawmill and have been shipping much of the lumber and some of the cordwood by boat to Sheboygan, Wisconsin, with, so far, discouraging results. The project is new and experimental and if successful will benefit everybody.

SL:MD-3. 3/1/32.

REPORT OF STEPHEN LOWNEY, JR., LAND LOOKER. FOR YEAR 1931.

The following is a summary of the work done during the past year: Examined approximately 34,000 acres of land in the following towns and ranges:

> 46-12 47-8, 9, and 10 48-10, 11, and 12 49-11, and 12 50-12

Found and examined 132 trespasses in the following towns and ranges:

46-8 47-8, 12, 27, 9, and 28 48-10, 11, and 28 50-12

These trespasses consisted of the widening of roads by Townships; some cover cordwood, pulpwood, posts, ties, poles and logs, in amounts varying from part of a cord to five or six cords of wood for fuel, from a few feet to forty-one thousand feet of logs on a description; from part of a cord to twenty-five cords of pulpwood on a description; from a few ties to two hundred and twenty-five on a description; from a few posts to a couple hundred on a description and a few poles.

Made a report on the Bonifas job in 46-12, made a logging report for a group in 47-10, took Nestor Kulki to look over land in 46-13 and 14, collected one trespass, found eight camps which I believe had no leases, sent in thirteen applications for the purchase of land, located one transmission line, sent in requests for nine camp lease sites, scaled logs at Camp #2, looking over logs at Big Bay, and kept in touch with fire wardens at the Eastern end of the Peninsula and put out a few small fires left by berry pickers in the vicinity of our work.

REPORT OF MR. A. J. ERICKSON FOR YEAR 1931

THE CLEVELAND-CLIFFS IRON COMPANY

SALES OF LAND AND TIMBER

The sales for the year, grouped by districts, were as follows:

District	No.of Sales	Acreage	Total Am't. of Sales	Timber Value	Land Value	Avrg.Price per Acre, Land Only
Rumely-Chatham	2	100.94	\$ 1,900.00	\$ 65.67	\$1,834.33	\$ 18.17
Trenary	3	240.00(1)	1,420.00	400.00	1,020.00	5.10(3)

TOTAL	33	1,825.06419	14,352.24	6,617.52	7,734.72	5.89(3)

(1) Includes 40.00 Acres Timber Only.

(2) Includes 473.99 Acres Timber Only.

(3) Based only on Sales which included land.

AGRICULTURAL LANDS

Sales of agricultural lands for the year amounted to 373.34 acres and averaged from \$4.41 to \$7.50 per acre for the land only, or an average price of \$5.00 per acre for the land only on all the sales made. In addition to this value of \$5.00 per acre, we also secured a fair price for the remaining timber. Included in the above sales was only one for 160 acres to a new settler. The balance was purchased by established farmers for adding to their farm acreage, principally for pasture purposes.

The agricultural situation in the districts where most of these sales were made, namely, in the Rumely-Chatham and Trenary Districts, was poor. The potato crop was fair but prices extremely low, ranging from 25¢ to 50¢ per bushel. The oat and grain crops and a portion of the hay were damaged or partly destroyed by grasshoppers. The farmers were also affected to a large extent by the slack conditions in the lumbering operations as they depend on these more or less for a part of their earnings.

167

Loans by Federal Land Banks to farmers in the various districts in the Upper Peninsula have been and are being foreclosed in a number of cases, and on an average will amount to nearly 30% of the total loans made. A number of the families whose mortgages were foreclosed have been permitted to continue to live on the farms until they are re-sold. Additional capital is to be available for the Federal Land Banks and this may result in the re-financing of some of these foreclosed loans.

LAND AND TIMBER SALES

The principal sales were those to the State of Michigan for highway purposes comprising 52.04419 acres for a total consideration of \$1,351.85; the principal portion of which covered the right-of-way of the Munising-AuTrain Road across lands of this company. 634.99 acres within the Hiawatha National Forest were sold to the Federal Government at \$1.50 per acre, or \$952.49. The Lake Superior & Ishpeming Railroad Company purchased 2.23 acres for \$1,115.00 in Section 11-47-27 for additional right-of-way for their yard and new "Y" at Ishpeming. We also sold a portion of Lot 1-46-19, 4.87 acres, to Joseph A. Lukowski for \$500.00; this was located near the old Munising Tannery on the main highway and accounts for the good price received.

LAKE FRONTAGE AND CAMP SITES

The sales under this heading for the year were those to G. M. Evans, on Ackerman Lake, comprising 41.90 acres for \$1600.00; 39.70 acres sold to F. W. Frei for a small frontage on Lake Superior for \$450.00, and the two sales to Joseph A. Pelletier covering 120 acres North of Newberry for \$675.00 and 40 acres southeast of Grand Marais for \$300.00 to A. S. Tulloch for camp sites.

TIMBER SALES

The principal sale of timber during the year was that to The Munising Woodenware Co. covering the Birch, Maple and Beech saw timber on the SE¹/₄, Section 6, 46-18, on a stumpage basis of \$12.00 for Birch, \$10.00 for Maple, and \$4.00 for Beech. The revenue from this sale in 1931 amounted to \$4,235.38 and in 1930 \$1,695.33, making a total of \$5,930.68. We also sold the Spruce and Balsam on this quarter section during the year to John Poikonen for \$150.00. The only other sales were the timber

#2.

on the NE₄¹ of NW₄¹, Section 18-44-21 to Albert Niemi for \$200.00, the softwood timber on five forties in Section 8-46-17 to Sylvester Carlson. These two last mentioned descriptions were cut-over lands. We also received \$9.52 from Freeman Cornish for 12.69 cords of Balsam delivered to the Paper Company under his Timber Permit.

SPRUCE AND BALSAM TIMBER PERMITS

To help out the unemployment situation in Alger County and in cooperation with The Munising Paper Company, we issued nineteen permits covering Spruce and Balsam stumpage on some of our cut-over lands in Alger County. The locations of these lands are shown on the attached map. This stumpage was sold on the basis of \$2.00 per cord for Spruce and \$.50 for Balsam, except in the case of Freeman Cornish Permit, which calls for \$.75 per cord for Balsam. This stumpage is to be deducted by The Munising Paper Company from deliveries of the pulpwood. It is estimated that these permits will produce approximately 2400 cords of Spruce and 1150 cords of Balsam. The Paper Company is paying \$8.00 per cord for Spruce and \$6.50 for Balsam, F.O.B. cars Munising or delivered at mill by truck.

MISCELLANEOUS STUMPAGE

This amounted to \$348.07 for the year and represents miscellaneous sales to farmers of timber on cut-over lands for fuel and building purposes.

EASEMENTS

Ten easements were issued during the year. The principal ones were the two to the Michigan Gas & Electric Co., covering their new gas main across our lands in Sections 1 and 2-47-27; we received a total of \$400.00 for these two easements. A telephone line easement was issued to the Munising Telephone & Electric Co. for a consideration of \$5.00; a road easement to the Federal Government on a description in the National Forest for \$1.00; and three easements to The Cliffs Power and Light Co. for nominal considerations. This item also includes a release of the general reservations covering railroad and transmission line rights-of-way on forty acres in Chippewa County.

#3.

169

LAND AND TIMBER NEGOTIATIONS

GROUP 1 LANDS

In January 1931, we submitted a map of about 43,000 acres of barren and waste land to George P. McCallum at a price of \$1.50 per acre. He claimed to have had a client who was interested in securing a large acreage for fur farm purposes but nothing further was heard from this. We also submitted a price of \$45,000.00 to A. W. Havela covering 1,440 acres in Sections 27, 28, and 34-47-10. He spent several days cruising these lands but finally reported that the proposition was not attractive because of the present condition of the timber market. 120 acres in this group, as above reported, were sold to Joseph A. Pelletier for camp site purposes.

TAHQUAMENON EXCHANGE

Negotiations were started last fall to acquire lands of the Newberry Lumber & Chemical Company necessary in the development of the Tahquamenon water power and, in this connection, it was finally agreed that we were to exchange 383.63 acres in Sections 10, 17 and 18-48-8 for the 831.02 acres and a cash consideration to be received from the Newberry people. The exchange has been approved by both companies and is merely waiting for the perfection of the title to some of the Newberry lands. It is hoped that this can be closed early in 1932.

OTHER EXCHANGES

Negotiations were also started with reference to an exchange of our four forties in Section 8-48-8 for five forties of the Newberry Lumber & Chemical Co. in Section 7-46-19, subject to The Munising Paper Company timber rights on the $N_{\overline{2}}^{1}$ of NW_{4}^{1} . This has been approved and will be closed early in 1932.

Last fall we discussed with the Newberry Lumber & Chemical Co. the matter of exchanging some of our lands in Luce County for their holdings in the district Northeast of Munising. The Newberry Company is working up this matter during the winter and will submit a proposition. This may later on involve a possible exchange with The Munising Paper Company in order to consolidate the divided timber interests on some of the Lac La Belle lands in the district northeast of Munising.

Stephen Lowney, Jr., spent most of his time during the past year cruising lands in Group 1 and an effort will be made to dispose of as much of the poorer lands

#4.

as possible for camp sites and hunting and fishing purposes. It would seem to be well to try and sell these even for a nominal price and, in this way, have them continue on the tax roll rather than permit them to go delinquent to the State. RANGE 24 LANDS

The demand for timber in this district was very quiet. We submitted plats to a number during the year showing our holdings in Sections 27, 33 and 35-44-24 and also made quotations on the lands in Section 3-45-24 but no sales developed. Very few of the smaller contractors who generally operate in that district were employed and the only lumbering operations of any consequence conducted in that district were by the I. Stephenson Company.

BRUNSWICK LUMBER COMPANY

No further negotiations were conducted during the year with these people with reference to our timber lands in the district northwest of Marquette, as we furnished them with practically all their log requirements.

CUSINO DISTRICT

The Conservation Department of the State of Michigan are anxious to purchase a considerable acreage of the company holdings adjoining the game refuge to be used for public hunting grounds but desire to purchase the land only and have the company reserve the timber. This is not deemed desirable from the company's viewpoint for several reasons and it is hoped that some other arrangement can be worked out that will be satisfactory.

The Newberry Lumber & Chemical Company controls quite an acreage in this district on which we own the Cedar and Hardwood Saw Timber and The Munising Paper Company own the Hardwood Saw Timber and certain softwoods. The Conservation Department is negotiating with the Newberry Company for these lands but insists on the Newberry company acquiring these outstanding timber rights owned by The Cleveland-Cliffs and the Munising Paper Company. Accordingly, we quoted the Newberry people a price of \$4,014.20 for our timber holdings on these lands and the Paper Company have also made them a price. These negotiations with the State are still pending and we hope some satisfactory deal can be arrived at although, at this time, there is quite a difference in their ideas of value. I understand the Conservation Department

#5.

will have in the neighborhood of \$80,000.00 in 1932 which must be used in the acquisition of lands for game refuges and public hunting grounds and the maintenance thereof.

MISCELLANEOUS

In addition to the above sales and other quotations mentioned above, we also made a large number of other quotations, approximately one hundred in number. These covered mostly smaller parcels scattered throughout the Peninsula and some larger groups. The principal larger quotations were those to Theodore Schneider covering lands in Section 16-47-23 for \$11,075.00 cash; Johnson & Peterson covering our timber only on the cut-over lands on 3,954.50 acres in 45 and 46-22 for a price of \$9.247.00.

There were considerable inquiries for small tracts of timber but owing to the fact that there was practically no market for forest products and the little market there was carried such low prices, there are very few of the smaller jobbers operating this season.

LAKE AND RIVER FRONTAGE

The sales were mentioned above. This year, in company with R. A. Brotherton, we looked over the frontage on fourteen lakes in Sections 2, 4, 10, 11, and 12-47-16; Sections 32 and 35, Bear Lake in Section 36, 48-16; and Section 36-47-17. This frontage was examined in connection with the request of the Conservation Department of the State of Michigan to acquire some of these lakes which lie within the Cusino Game Refuge and hunting ground area. There is more or less demand for lake frontage of good character, conveniently located to the larger communities, and a frontage of this kind is selling at prices ranging from \$1.00 to \$5.00 per front foot.

NATIONAL FORESTS

HIAWATHA FOREST

As above stated, 634,99 acres were sold during the year to the Government in Hiawatha National Forest; this was land upon which the timber had been sold to Havela & Asiala and Oscar Anderson and which was released from their timber permits. On account of curtailed logging operations, the Bay De Noquet Company did not release any lands covered by their timber permit; as quickly as these are released, they will

#6.

be offered to the Federal Government.

MARQUETTE FOREST

Reports were received from the cruisers in December covering lands operated by the Fochtman Lumber Company in the vicinity of Brimley and a proposal covering

1,542.84 acres will be submitted to the Federal Government early in 1932.

#7.

LOT SALES

There were no sales of town lots during the year. Owing to the slack business conditions prevailing, there was no demand for lots for residence purposes at Munising, where most of our lot holdings are.

HOUSE AND LOT SALES

No new accounts were created during the year under this heading. The balance due on the contract issued by the Lumbering Department to George Ferguson was transferred to this office on March 1st and was included in this account.

NEW LEASES

The new leases issued during the year were as follows:

11 Camping
8 Residence
69 Garden
2 Garage
2 Dock or Boat Landings
1 Miniature Golf Course
2 Forestry Plantings
5 Farm
2 Fish House
1 Skating Rink

and also twenty-five leases covering the dwellings, etc., at the Forest Lake Location. The total annual rental on these leases is \$612.00, in addition to which the lessee will assume taxes which in 1931 amounted to \$484.36, and also in the case of some of the residence leases issued at Ishpeming, we will be reimbursed to the extent of \$232.61 for special Sewer assessments.

In addition to the new leases there were also a large number of renewals and transfers. The transfer fees for the year amounted to \$75.00.

MINING DEPARTMENT LANDS

During the year we continued to check over the Mining Department lands as to surface conditions and Mr. Lowney completed the examination of these holdings in the Gwinn District and has still some to cruise in the vicinity of North Lake. In company with Mr. Brotherton, we visited the Shores Mine property near Iron Belt, Wisconsin, and found that a large portion of the second growth timber on these lands have been cut and removed by trespassers. We caught a number of people trespassing and made arrangements for collection of these trespasses and we expect that the large portion will be paid. A fairly large pit full of water on this property was deemed unsafe and has been fenced.

In this connection, we also found a number of transmission lines of The Cliffs Power and Light Co. which were not covered by easements and also some buildings at the various mines which were being used by the Power Co. for substation sites, etc. Also that there were no written agreements between the Company and the railroads as to mine service tracks. These have been reported to Mr. Elliott and all of these various items are being checked up by the Mining Department and we understand will be covered by proper agreements.

We continued checking the surface leases in the North Lake and Republic Districts. At the first opportunity, we will issue new leases on all the parcels requiring same as a number of transfers have been made and not recorded with the company.

LAND RENTALS

These rentals on unplatted parcels for the year amounted to \$11,146.41, or \$1,913.95 over previous year. This increase is due principally to the rentals on the Republic parcels which were charged up on our books this year and to new leases issued as above mentioned. The revenue from the rental of platted lots was \$12,201.26, or a decrease of \$195.26 from the previous year. This decrease is due to the fact that 1930 included ten months' rental from the lots in the Junction Location which, on November lst, 1930, were turned over to the Lake Superior Iron Company in connection with the Holmes Mine. Sundry rentals for the year amounted to \$111.50 as compared with \$94.61 in 1930.

ROYALTIES

\$1872.60 was received from the Advance Industrial Supply Company as royalty on rock shipments from the Pine Hill Quarry. This compared with \$1188.70 for 1930, or an increase of \$683.90. The operations at this Quarry were conducted on a larger scale than the previous year but were closed down in December. This trap rock permit was issued on November 1st, 1919, and the total royalty received, including 1931, amounts to \$23,872.54.

174

#8.

In addition to this amount, the licensee has also paid the taxes on the land.

LAND PRODUCTS SALES

These amounted to \$621.50, which is \$1,614.67 less than the previous year. This decrease is due to large sales of gravel in 1930 to Marquette County and borrow material to the State of Michigan at Munising. This revenue represents \$217.59 from rock used by the Negaunee and Ishpeming City Crusher and the balance is miscellaneous sales of sand and gravel.

#9.

MISCELLANEOUS SALES OF MACHINERY & EQUIPMENT

This amounted to \$1,730.95 and represents the sales of House #114 for a consideration of \$500.00, House #15 at Deer Lake for \$50.00, and some old camp buildings for \$122.50, and the balance is made up of miscellaneous sales of sawmill equipment, lumbering department horses and equipment.

RENTED BUILDINGS

These were all occupied practically the entire year. House #114 was sold to Wm. Thompson on July 1, 1931; he has repaired it and it is now in fair condition. Owing to business conditions, only such work as was absolutely necessary was done at these houses during the year. The repairs amounted to \$737.29 as compared with \$3,235.88 in 1930. The earnings amounted to \$7,665.50, which includes the Lumbering Department houses at Forest Lake and Central Location. This earning is considerably less than the previous year due to rentals being reduced one-half to Company employes who are working on a half time basis. This reduction in rental rate became effective June 1st. There was also a reduction in the rental of the Alger Hotel on account of poor business and our total revenue from this property amounted to \$430.00 in 1931, as compared with \$1,020.00 in 1930. Notwithstanding these reductions in rentals, the operation of all of our Rented Buildings show a profit of \$1,836.18 for the year. This is after a deduction of \$311.00 for insurance, \$2,321.47 for taxes, and \$2,386.08 for depreciation. This account should have also been credited with an item of \$180,00, which is carried in the Deferred Credits, making a total profit of \$2,016.18 on these buildings for the year.

COLLECTIONS

The following is a comparative statement of sales and rental Receivable Accounts as of December 31st, 1931, and 1930:

175

#10.

SALES ACCOUNTS

The statement accompanying this report shows the conditions of the individual contract accounts. Conditions were such in the agricultural regions where a large part of these contracts are located, that it was practically impossible to secure payments. I called on all of these contract holders with the exception of those that are located outside of the Upper Peninsula and three accounts in Delta County. We are keeping after these accounts by correspondence but there is not much hope of securing any substantial payments until general business conditions improve.

The Timber Sales Accounts are all paid in full with the exception of the contract to Wallace H. Masters, on which there is a balance of \$623.34 still due and which he has promised to pay in the spring of 1932. With this exception the balance due, above shown, represents 1931 taxes which will be paid early in 1932.

RENTAL ACCOUNTS

The major portion of the increased balance remaining unpaid on the Land Rents item due to the large unpaid balances on Republic rental accounts which were taken over from the Mining Department and charged on our books. We placed such accounts on our books as we feel reasonably sure will be eventually paid. Those that are doubtful, we are carrying as memorandum accounts and are charged up as soon as we are satisfied that they will be paid. The conditions in Republic are bad and it will be impossible to collect the bulk of these accounts until conditions materially improve.

The increase in the Lot Rents balance is due to the unsatisfactory employment conditions existing, and people find it impossible to meet their obligations promptly. Part of the increase in the balance due on this account is made up of rentals due from the Consolidated Fuel & Lumber Company who has not paid their account by the end of the year. The increase in the balances due on the House Rents item is accounted for by the situation in Munising. Most of the men who were occupying our Sawmill houses have been **out** of work the greater portion of the time. Some of these men are now employed at the Jackson & Tindle mill and it is hoped that these accounts can be reduced in 1932.

SURRENDERED AND CANCELLE D CONTRACTS

Following is a statement of the surrendered and cancelled contracts during the year:

 Conv.No.
 Purchaser
 Description
 Acreage

Conv.No.	Purchaser	Description	Acreage
4489	Vaino Kiviniemi	SE4 of SW4, Sec. 22-46-21	40.00
4640	Mathew Lanaski	NE4 of NW4, " 19-50-22, Minn.	40.00
3836	Isaac Korpi	Eg of SW4 of SE4, Sec. 15-46-22	20.00
4038	Richard Taipale	SW2 of NE2, Sec. 28-46-22	40.00
3329	Henry Peltola	NE4 of NE4, Sec. 13-42-23	40.00
3186	Victor Erickson & Isaac Leppanen	$SE_4^{\overline{1}}$ of $SE_{4}^{\overline{1}}$, Sec. 35-46-22	40.00
	Total		220.00

The SE_4^1 of SW_4^1 , Section 22-46-21 surrendered by Kiviniemi was leased to Alger County, as the Kiviniemi family are County charges. There was one contract covering a lot at Munising surrendered and this was due to the fact that the man was down and out financially and we could see no possible chance of making any further collections from him.

CLIFFLAND FARM

This place was affected also by the various conditions existing in that agricultural district. The hay crop was fair but part of it was destroyed by grasshoppers. The cats suffered from rust and the grain crops were also more or less destroyed by grasshoppers. The area planted in potatoes was not large and the prices prevailing for this crop did not return much revenue. Returns from the orchard were small and the strawberries planted the previous fall came through in fair shape but the Koskelas were advised by a representative of the Agricultural College to not permit the plants to yield this year and they would have a much better crop in 1932.

During the year they purchased some new equipment, the principal items of which was a hay rake for which they paid \$150.00, and they installed a ventilating system in the barn which cost \$317.50, and they also purchased new equipment for the dairy house which cost about \$300.00. The purchase of the ventilating system and the new equipment for the

177

dairy house was because of the fact that they arranged to sell Grade "A" milk according to the requirements of the City of Marquette. This milk is being sold by the Koskelas to the Northern Dairy Company for 7¢ per quart at the farm. The Dairy Company furnishes all the necessary bottles and milk caps. They are, at the present time producing about 150 quarts of Grade "A" milk per day and this will be doubled early in the spring of 1932, when they expect to have 28 cows milking.

These people seem to be hopeful and feel that they are gradually getting the farm in such shape that they will soon be able to make substantial payments on the contract. They expect to have the equipment all paid for by the spring of 1932. They have had several men working around the farm this year for their keep. Labor is plentiful and it has not been difficult to get all the help they wanted on this basis. They are planning on re-building the fences in the spring of 1932.

The total payments made by these people on their contract during the year amounted to \$593.85 and represents the proceeds of the sales of milk and cream to the Hotel Williams at Grand Island and sales of Hay, beef, etc., to our lumbering operations. The season was poor at the Island and owing to curtailed lumbering operations, the proceeds on this account are not as large as they would have been otherwise. The balance past due on this contract as of Dec. 31, 1931, is as follows:

Payment	on	Principal	due	Dec.	1,	1928	200	1. 2. 6 5	\$ 500.00	
	=			Dec.	1,	1929		Sec. Sec. 1	500.00	
	. 11			Dec.	1.	1930			500.00	114
				Dec.	1,	1931		1.200	1.000.00	
Interes	t of	n Principal	l to	Dec.	1,	1931		1000	2,378.32	
Insuran	ce :	Premium due	e De	c. 1.	19	31			63.76	
Interes	to	n Insurance	e Pr	emium	to	Dec.	1.	1931	18.54	
				19.52				12/19/19/19	\$4.960.62	

BEACH INN

Mr. Heckathorn only made three payments of \$250.00 each on his contract during the year. In addition to this he paid the 1930 taxes direct to the City Treasurer and these amounted to \$616.77. Mr. Heckathorn has submitted the following statement covering expenditures he has made during the year for repairs, replacements, and new equipment:

the second se	Start William and a state
Plumbing	\$ 42.27
Repairs and Replacements to Building	199.54
Peint	198.53
Labor to apply paint - This is extra labor that would not be employed otherwise - Cash Paid -	
no allowance taken for board	405.00
New dishes, silver, glasses, etc.	114.08
New linen	162.79
New furnishings, chairs, Frigidaire, etc.	616.55 *
Yard, dirt, flowers, fertilizer	26.20
New screens for building	133.71
Total	\$1,898.67

* (Note: Presume the Electric Refrigerator is being purchased on time and part of this amount represents installments paid during year as he reported buying this in 1930.)

He also submitted a statement showing a comparison of receipts and net profits for the

three years as follows:

	1929	1930	1931
Receipts	\$37,236.02	\$38,115.99	\$26,671.88
Net Profits	2,939.89	2,283.82	132,99

The patronage at the Hotel during the year was light and was approximately one-third less than the previous year. Mr. Heckathorn is keeping up the place in good condition and hopes that he will be able to make better progress on his contract in 1932. The 1931 taxes have, as yet, not been paid but he has promised to take care of them not later than March 1st, 1932.

MANUFACTURERS' HOTEL

The patronage at this Hotel was extremely light with the result that it was difficult for Mr. Belfry to keep the place open and break even. The total rental received was \$430.00, being at the rate of \$45.00 per month for January to September inclusive, and \$25.00 for October. Only minor necessary repairs were made during the year and these amounted to \$30.73. The place was closed about November 1st and Mr. and Mrs. Belfry went through and cleaned it thoroughly and they are now occupying the small living quarters in the rear of the main building and hope that conditions will improve in the spring so that they can again open the place.

BELLEVUE AND CLIFFS FARMS

The Bellevue Farm was again rented for a rental of \$300.00 and the double dwelling at the Bellevue Farm was also rented for most of the year; the revenue from this appeared on the Rented Buildings Cost Sheet under House #209.

179

#13.

The Cliffs Farm was not rented the past year.

LOCATION IMPROVEMENTS

Very little work of this character was done during the year and the expenditures amounted to \$13.30, covering the cost of the spring clean-up in the Bancroft Location.

#14.

ROSENWALD TITLE

No further progress was made during the year towards cleaning up this complication in title, affecting a large acreage of the Company lands. Berg & Clancey, Whom Mr. Wm. C. Weber employed to probate the Isaac Rosenwald Estate, have written Mr. Weber several times during the year endeavoring to get some action but without success,- he did not even reply to the letters.

MISCELLANEOUS

APPRAISAL OF LOTS, ETC.

In March we made an appraisal of all the platted lots, dwellings, and miscellaneous buildings owned by the various companies with the exception of The Cliffs Power and Light Co. This appraisal was divided into two districts, the mineral and the non-mineral, and showed a total value of \$1,019,185.00 for lots, \$2,376,600.00 for buildings, or a total of \$3,395,785.00. This report also shows the tax and insurance values and a summary of the earnings and expenditures.

L.S.& I. RAILROAD APPRAISAL

During the year we answered over one hundred questionnaires sent us by the Interstate Commerce Commission covering lands and property adjoining the right-of-way of the Lake Superior & Ishpeming Railroad. These were checked over carefully with the Railroad Company and the Mining Department and then forwarded to Cleveland to be sent to the Commission. We also gave the L.S. & I. a record of all of our sales in the vicinity of their right-of-way, beginning with the year 1918.

BUNKER HILL MINING COMPANY

LEASE RENTALS

\$707.00 were received during the year; this is the same as the previous year. We also received \$12.00 from The Cleveland-Cliffs Iron Company for rental of the so-called Company Barn.

180

RENTED BUILDINGS

The earnings amounted to \$491.80 as compared with \$568.80 in 1930. All the buildings were occupied the entire year and this decrease is due to a reduction in the rental of two company employes occupying these dwellings. The rental in the case of these two tenants was reduced one-half beginning June 1, 1931, as they were employed only on a half time basis. The repairs amounted to \$57.92, insurance and taxes \$108.88, leaving a net profit of \$325.00. These buildings are fully depreciated.

COLLECTIONS

The following is a comparative statement of the Receivable Accounts as of Dec. 31, 1931, and 1930:

	1931	1930
House Rents Receivable	\$ 15.00	\$ 15.40
Land Rents Receivable	662.34	154.64
Total	\$ 677.34	\$ 170.04

The House Rents item was paid in January, 1932, with the exception of \$5.00 and this will be taken care of early in 1932. The large increase in the balance remaining unpaid on the Land Rents is due to the fact that the Consolidated Fuel & Lumber Company did not pay their 1931 rentals until January 1932. This also includes the taxes of 1931 due from the same company. The balance of this rental account represents amount due from one tenant which we have so far been unable to collect.

UNSETTLED MATTERS

This has reference to the right-of-way of the Chicago & North Western Railroad across property of this company, particularly the parcel of land which is occupied by the Granlund Oil Company under lease from the North Western. This has been reported in detail to Mr. Mather and we are awaiting for his decision as to what shall be done.

AMERICAN IRON MINING COMPANY

SALES OF LAND AND TIMBER

The only sale made during the year was that to Ernest Keast covering cottage site #8 and a portion of the SW_4^1 of NE_4^1 , Section 20-48-31, comprising 36.85 acres, for a consideration of \$450.00,- \$100.00 cash, balance in four years with interest at six per cent.

#15.

TIMBER PERMITS

The only two outstanding timber permits are those issued to Matt Lepisto and Hill & Laakonen; these expire May 1st, 1932. The Permit to the Piqua Company expired July 1, 1930.

MISCELLANEOUS EARNINGS

This amounted to \$4.22 and represents 1930 taxes paid by the Piqua Company in 1931.

ACCOUNTS RECEIVABLE

)	Real Estate Sales Receivable	\$ 354.22
)	Timber Sales Receivable	25.31
	Total	\$ 379.53

A statement accompanying this report shows the condition of the outstanding contracts and timber permits.

THE CLIFFS POWER AND LIGHT CO.

EARNINGS

LAND RENTALS

Rentals from land leases amounted to \$329.49 as compared with \$222.49 in 1930, or an increase of \$107.00. \$81.00 of this increase represents rentals which had accrued for two to three years on parcels in Republic and which were taken over from the Mining Department and charged on our books. This account also includes taxes which are charged to leases.

REAL ESTATE SALES

This was an item of \$1.00 collected from the City of Marquette for a transmission line easement covering a small parcel near the McClure Power Plant on Section 7-48-25, Conveyance No. 4951.

MISCELLANEOUS EARNINGS

These amounted to \$6.00 and covers a sale of wild hay in the Carp River Basin North of Negaunee.

NEW LEASES

Two new leases covering boathouse sites were issued during the year at a rental of \$1.00 per year each. One lease for pasture purposes covering the SW_4^1 of SW_4^1 . Section

29-48-26 at \$15.00 per year. We also issued a lease to Louis Cowling on a portion of the SE_4^1 of NW_4^1 , Section 33-48-27 which was included within the fences surrounding his farm and no charge was made for this lease.

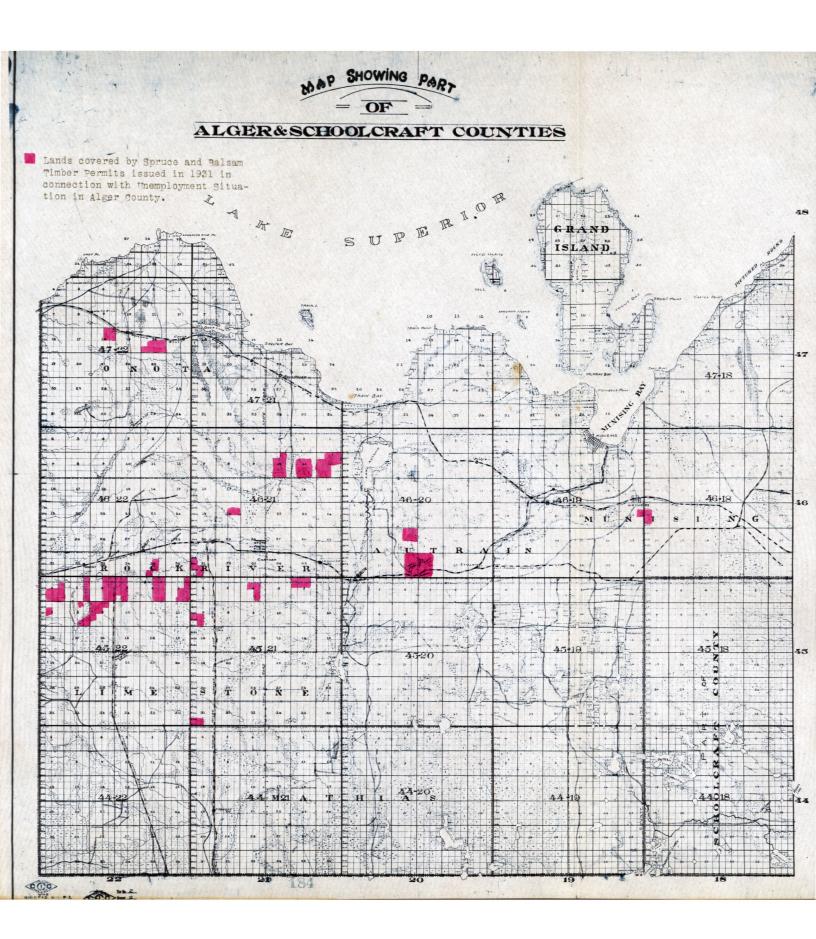

LAND LOOKING

Cruisers completed the looking of the lands in the so-called Mud Lake District near the Escanaba Water Power Development. Several trespasses were reported and some of these have as yet not been adjusted.

COLLECTIONS

There remained an uncollected balance of \$142.91 at the end of the year. A large part of this is represented by rentals which have accumulated on parcels at Republic. Also includes the 1931 taxes amounting to \$31.10 which were charged to these leases and these have been taken care of in January, 1932.

AJE:MD-3. 3/7/32.

"A" - Lands where entire fee is owned. "B" - Lands where surface only is owned. "C" - Lands where minerals only are owned in known mineral district. "D" - Lands where our interest is confined to a mining lease. "E" - Lands where our interest is comfined to a mining option from Michigan Mineral Band Co.

"F" - Lands where timber only is owned. "G" - Lands where we can the entire fee, sufface only, or minerals only in lands which are a part of recorded plats of towns or villages.

"H" - Lands which have been examined and which reports show do not contain sufficient timber to be classed as timber land. "I" - All lands not included in "H". This includes both lands that have been examined and other lands which have not but which were purchased for timber purposes and are classed as timber lands until such time as reports will show that they are barren either through fire or through operations of the Lumbering Department. "J" - Approximate acreage of lands inside the mineral formation as indicated by maps furnished

to the Land Department by the Mining Department, April 1914. "K" - Acres of minerals reserved in Farm Land Sales, outside of mineral formation.

			and the second second			DECEMBER	31, 1931.
