

Camp also went back over the area cut in 1935 and recovered the Elm which was shipped to Gladstone.

Camp 8 was operated continually during the year with two loader operating units cutting timber from Sections 11, 13, 14, and 23, 47-18, and 18-47-17.

Camp 9 was operated from January 1st to May 19th. It was closed down until August 15th when operations were resumed until December 31st, with one loader operating unit.

Maps of the area cut, charts showing the logging cost, production, cost of meals, and labor efficiency are attached.

OPERATION NO. 203:

Barn, hay shed and blacksmith shop were built and wells were driven at Camps 10, 11 and 12; also 10.29 miles of main line railroad and 14.35 miles of spurs were graded, with steel laid on 12 miles. Ten miles of the above grading were done with the new Angledozer purchased in July. It is possible with this machine, in average timber area, to grade one mile of railroad in 6 or 7 days, and the saving in cost over our previous method of station work is 58%.

Camp No. 196-8 operated during period of Jan. 1st to Dec. 31st, 1936, inclusive, with two loader operating unit.

Camp No. 196-9 operated during period of Jan. 1st to May 19th and Aug. 15th to Dec. 31, 1936, with one loader operating unit.

The underrun in the quantity of Chemical logs was due to the Chemical Plant requirements being less than our estimates were based on.

The overrun in the saw log shipments due to greater quantity of Hemlock shipped than was estimated.

The underrun in the costs due to operating with better efficiency than the basis used in figuring the estimated costs.

REPORT OF MR. A. J. ERICKSON
FOR YEAR 1936

THE CLEVELAND-CLIFFS IRON COMPANY

SALES OF LAND AND TIMBER

Accompanying this report is a statement showing these sales in detail.

REAL ESTATE SALES

These amounted to \$48,740.00, classified as follows:

Lands for agricultural purposes	\$2,270.00
Camp sites	500.00
Lands purchased for timber	24,750.00
Miscellaneous rights-of-way to the State and counties	4,843.00
Easements	6.00
Miscellaneous	9,050.00,

and which includes such items as the dock site to Toebe at Munising for \$4,100.00, Forest Ranger Station site at Munising, \$3,500.00, Sugar Loaf Mountain to the County for park purposes, \$1,200.00, two small miscellaneous parcels for \$250.00; and also 47 parcels sold along the Highway east of Negaunee for a consideration of \$7,321.00.

TIMBER SALES

These covered 3,843.70 acres for a total consideration of \$50,855.00, as follows:

<u>Conv. No.</u>	<u>Name</u>	<u>Description</u>	<u>Acreage</u>	<u>Amount</u>
5798	Victor Hakala	NE $\frac{1}{4}$ of SW $\frac{1}{4}$, Section 30-46-26	40.00	\$ 25.00

STUMPAGE SALES

The attached statement shows a summary of our earnings on stumpage permits, including trespass.

PULPWOOD PERMITS

Our stumpage earnings from permits issued for Spruce, Balsam, Poplar, Jack Pine, and White Birch pulpwood amounted to \$9,927.04.

Nineteen new permits were issued for Spruce and Balsam, nine Poplar, three Jack Pine, and three White Birch during the year, but, altogether, forty-two permits were active. The pulpwood was delivered to The Munising Paper Company, William Bonifas Lumber Company, Thilmany Pulp and Paper Company, Escanaba Paper Company, Manistique Pulp and Paper Company, and the Nekoosa-Edwards Paper Company, and these concerns collected the stumpage for us.

SOFTWOOD TIE PERMITS

Eleven new permits were issued during the year and altogether, seventeen were active. The stumpage recovery amounted to \$7,461.65, and in addition to this amount, we also earned \$1,169.29 on these deliveries.

The deliveries of softwood ties were as follows:

Lake Superior & Ishpeming Railroad Company	33,437
Minneapolis, St. Paul & Sault Ste. Marie Railway Company	4,481
Duluth, South Shore & Atlantic Railway Company	1,645
Cliffs Dow Chemical Company	3,241
	<u>42,804</u>

MISCELLANEOUS PERMITS

One permit was issued for Pine and Hemlock logs, two for Pine, Hemlock and Spruce lumber, one for Elm logs, and one for box lumber bolts, and in addition thereto, we also arranged for the production of miscellaneous mining timber, Cedar posts, hardwood ties, tie slabs, and Hemlock switch ties. The stumpage recovery from these permits amounted to \$6,738.76.

In addition to this stumpage item, we show earnings of \$991.03 on the deliveries of these miscellaneous products.

MISCELLANEOUS STUMPAGE SALES

These amounted to \$218.31 and represent stumpage on sales of building material, posts, fuelwood, etc.

LAND AND TIMBER NEGOTIATIONS

GROUP 1 LANDS

The negotiations with the Filer Fibre Company, begun in 1935, with reference to the softwood lands in this group, were not continued due to the fact that arrangements could not be made with this concern to get together and discuss the matter although we had some correspondence with them. Apparently they were not ready to go ahead with the negotiations.

VULCAN CORPORATION

There is nothing new to report in connection with the offer made to these people on 30,164.16 acres of hardwood lands in this group. These people considered various tracts of timber in the Peninsula during the year and are still looking around.

MISCELLANEOUS

In addition to the above, we had a number of inquiries for lands in this group and made a number of quotations, principally to the Michigan Pole and Tie Company, John F. Wood, and George Hyde, and these resulted in several sales.

NEWBERRY EXCHANGE

The exchange with the Newberry Lumber and Chemical Company involving their ownership in Section 33-48-16 for some holdings of this Company in 48-8 has been held up due to the fact that the Newberry Company is not in a position to complete the transaction because of their reorganization proceedings. We hope this will be completed in 1937. The examination of the titles has been completed and there are only one or two small matters affecting the Newberry lands to be ironed out.

RANGE 24 LANDS

We made a number of quotations on lands in this group, principally in Section 35-44-24, and only one sale resulted, namely, the NW $\frac{1}{4}$ of NW $\frac{1}{2}$ of this section. A deal was completed during the year with Emil Railo covering the timber on 3,202.02 acres in this group and which also included some lands owned by William G. Mather and the Superior Realty Company for a total consideration of \$50,000.00.

DULUTH, SOUTH SHORE AND ATLANTIC RAILWAY COMPANY EXCHANGE

No progress was made during the year in these negotiations although the matter was taken up with Mr. A. E. Miller, Attorney, for the Railroad Company several times. We are still keeping after them.

MISCELLANEOUS

Quite a large number of inquiries were received during the year on smaller tracts and a number of sales resulted. These sales are shown in detail on the sales statement accompanying this report.

LAKE AND RIVER FRONTAGE:

The demand for lake frontage parcels was not very active during the year and no effort was made to sell the lots platted on Johnson and Bertrand Lakes in the Gwinn District as this matter was held up due to the question of finding a new water supply for Gwinn. This, however, was finally disposed of late in the fall and an effort will now be made next year to dispose of these lots.

The so-called trespass on Gold Lake is still unsettled and the matter is in the hands of Berg and Clancey but the ejectment suit, which we asked them to institute, has not been started.

FEDERAL GOVERNMENT

NATIONAL FORESTS

No new sales were made to the Federal Government in the National Forests during the year due to lack of funds for purchases. We, however, sent them several proposals covering lands that had been released from timber permits and waste lands within the Hiawatha National Forest and in addition thereto, prepared maps and submitted to them of areas which we expected to be able to offer them. The Forest Service has made cruises of these lands and as soon as funds are available for additional purchases, these proposals will be given consideration.

The option to the Federal Government involving the so-called Tahquamenon Falls area, for a consideration of \$198,349.61, was exercised by the Government and the examination of the titles is now going on, and it is hoped to have these in shape so that the deed can be delivered and recorded to eliminate the assessment of the 1937 taxes on these lands.

SENEY WATER FOWL REFUGE

The condemnation proceedings instituted by the Federal Government, involving 280

acres of the Superior Realty Company in Sections 25 and 36, 45-14, were completed and a Confirmation Deed was executed by the Realty Company covering these lands.

The Department has also inquired about the purchase of additional lands and options were executed and delivered under date of December 1st, 1936, involving the SW $\frac{1}{4}$ of NW $\frac{1}{4}$, Section 17-45-14, owned by The Cleveland-Cliffs Iron Company, and 200.00 acres in Sections 17-45-14 and 12-45-15, owned by the Realty Company, but action will not be taken on these until the Commission meets in May or June of 1937. They have also inquired for additional lands in 46-15.

INDIAN COLONY

The Department of Interior, Indian Affairs, are planning on an Indian Colony in Section 6-46-2 West and Section 31-47-2 West, Chippewa County, and in this connection, we granted the Department an option on our lands in these sections involving 397.45 acres in Section 6 for a consideration of \$7,799.68 and a 40-foot strip along the shore in Lot 1, Section 31-47-2, for \$250.00. These options were granted for a period of six months from October 26th, 1936, and we understand are now in Washington for consideration.

LOT SALES

These amounted to \$3,365.00 and are made up as follows:

Lot 34, Burt and Ely Addition, Marquette	\$ 75.00
Lots 28 to 33, incl., Burt and Ely Addition, Marquette	450.00
Portions of Lots 109 to 119, both incl. Iron Plat, Negaunee	2,250.00
Lots 1 and 2, Block 14, Replat of C.I.M. Company's Subdivision, Marquette	100.00
Portions of Lots 175 and 185, Iron Plat, Negaunee	490.00
	<u>\$3,365.00</u>

HOUSE AND LOT SALES

No sales under this caption during the year.

NEGAUNEE HOUSE SALES

The sales of houses in the New Addition in the City of Negaunee were as follows:

<u>House No.</u>	<u>Purchaser</u>	<u>Lot</u>	<u>Block</u>	<u>Price</u>	<u>Down Payment</u>	<u>Monthly Payment</u>
Neg. 41	Christ Anderson and Wife	19	6	\$1800.00	\$1080.00	\$ 8.00
Maas 107	Joseph Benaglio and Wife	13	3	1650.00	230.00	16.50
Maas 97	Oliver Holm	9	3	2100.00	210.00	21.00
Neg. 50	Emma Juchemich	17	6	2000.00	200.00	20.00
Maas 122	Henry Bean and Wife	15	3	2000.00	200.00	20.00
Maas 79	Joseph P. Skues and Wife	3	3	3000.00	300.00	30.00

MISCELLANEOUS HOUSE SALES

No Land Department houses were sold during the year, but we prepared contracts for the Mining Department covering one house in the Barnum Location, eight in the Lake Angeline, and ten in the Hard Ore in the City of Ishpeming, and also Bills of Sale covering three Republic houses and one Lake Angeline house.

NEW LEASES

Thirty-nine dwelling leases were issued in the City of Ishpeming for an annual rental of \$501.00, in addition to which the lessees will also assume taxes, which in 1935 amounted to \$57.31, and also reimburse us for special sewer assessments amounting to \$343.11. Eleven dwelling leases were issued in the City of Negaunee for an annual rental of \$135.00 and taxes which, in 1935, amounted to \$61.68; and one dwelling lease was issued at Republic and one in Section 21, or National Mine, at an annual rental of \$6.00 each. Four camping leases were issued for a rental of \$4.00 per year and taxes which, in 1935, amounted to \$51.10. We also issued five garden leases at an annual rental of \$11.00, four farm leases for a rental of \$67.00 per year and taxes which, in 1935, amounted to \$27.04. In addition to these, there were six miscellaneous leases calling for an annual rental of \$36.00. The total annual rental on the new leases issued amounts to \$766.00, in addition to which the lessees will also pay taxes which, in 1935, amounted to \$197.13, and in addition thereto, we are reimbursed for special sewer taxes amounting to \$343.11.

GARDEN PERMITS

The practice of issuing permits was discontinued this year and instructions were given to the employees that all those who desired to use garden parcels must secure leases.

MINING DEPARTMENT LANDS

We continue looking after the surface of the Mining Department lands and also the leases, and this work is being followed up at every opportunity.

LAND RENTALS

The earnings for the year 1936 as compared with 1935 were as follows:

	1936	1935
Lot Rents	\$13,911.12	\$13,244.17
Land Rentals	9,834.85	10,449.45

The increase in lot rents is due principally to the new dwelling leases in the Cities of Negaunee and Ishpeming, and the reduction in land rental earnings is due to the cancellation of farm and garden parcels.

ROYALTIES

The royalties for the year 1936 from the Advance Industrial Supply Company amount to \$825.20 as compared with \$1,073.05 for 1935. The total royalties from this operation to the end of 1936 amount to \$28,096.99, and in addition to this amount, the Quarry Company also pay the taxes.

LAND PRODUCTS SALES

These totalled \$1,368.07 and are made up of the following items:

Marquette County Road Commission - gravel and borrow material	\$932.55
Julius O. Lund - gravel	77.00
City of Ishpeming - rock for crushing plant	34.32
Sod	39.27
Top soil	6.50
State Highway Department - borrow material	242.68
Miscellaneous sand and borrow material	35.75
	<u>\$1,368.07</u>

RENTED BUILDINGS

All of the Company dwellings were occupied continually during the year, and the total earnings amounted to \$8,567.06 as compared with \$8,953.53 the previous year. The reduction in the earnings is due to the sale of the Beach Inn which for six months during the previous year was a rented building. The total operating expense, exclusive of depreciation, amounted to \$3,295.00 as compared with \$4,544.92 the previous year; of this amount the maintenance was \$1,291.11 as compared with \$2,030.05 the previous year; the taxes amounted to \$1,607.13 and insurance \$396.76. The net earnings before depreciation amounted to \$5,272.06 as compared with \$4,408.61 in 1935. The depreciation was \$1,503.48. Only the necessary minimum amount of repairs were made which included the furnishing of calcimine, paint, and in some cases, paper to the tenants for interior decoration. The tenants did their own work. The only house which received special attention during the year was No. 208, the exterior of which was repaired and repainted.

COLLECTIONS

The following statement is a comparison of the sales and rental receivable accounts as of December 31st, 1936, and 1935:

	1936	1935
Real Estate Sales Receivable	\$103,605.15	\$98,034.50
Lot Sales Receivable	2,520.50	2,553.50
House and Lot Sales Receivable	2,744.60	4,375.19
Negaunee House Sales Receivable	29,361.63	24,911.40
Timber Sales Receivable	2,405.49	2,969.84
Land Products Sales Receivable	711.19	723.95
Land Rents Receivable	35,912.45	36,049.39
House Rents Receivable	4,006.71	4,301.56
Grand Island Rents Receivable	200.00	450.00

SALES ACCOUNTS

Attached hereto is a statement showing a detail of the individual sales accounts with comments thereon.

RENTAL ACCOUNTS

These show a slight decrease from the amounts outstanding the previous year which indicates that the collections covering the current rentals were maintained and a portion of the arrears. With better employment conditions existing, it is expected that substantial reductions will be made in all of these outstanding accounts in 1937.

SURRENDERED AND CANCELLED CONTRACTS

These involve the following:

- Tom Lawless - SW $\frac{1}{4}$ of SE $\frac{1}{4}$, Section 6-46-2 West, and which was included in our option to the Department of Interior, Indian Affairs
- Harry B. Ball - Lot 4 and NW $\frac{1}{4}$ of SW $\frac{1}{4}$, Section 5-46-2 West, which we also expect to eventually sell to the Department of Interior.
- Cheever Buckbee - fractional N $\frac{1}{2}$ of NW $\frac{1}{4}$, Section 30-38-19, in the Fayette District. We expect to be able to dispose of this parcel again.
- Peter G. Peterson - E $\frac{1}{2}$ of NE $\frac{1}{4}$, Section 31-47-27; this man disappeared seven or eight years ago and we have been unable to locate him and he has not communicated with his family since he left.

CLIFFLAND FARM

The crop conditions in Alger County were more or less affected by the drought and hot weather prevailing during the summer period so that there was some shortage of grain at the Rumely Farm. These people secured sufficient hay to winter their stock but will have to make some purchases of grain.

The total credits to their account for the year were \$185.02, representing sales of beef and some crops to our Lumbering Operations. This is somewhat less than previous years due to the fact that they did not furnish milk and cream to the Hotel Williams while it was operating.

The balance past due on this contract as of December 31st, 1936, is as follows:

Payment on Principal due	December 1, 1928	\$500.00
" " "	" December 1, 1929	500.00
" " "	" December 1, 1930	500.00
" " "	" December 1, 1931	1,000.00
" " "	" December 1, 1932	1,000.00
" " "	" December 1, 1933	1,000.00
" " "	" December 1, 1934	1,000.00
" " "	" December 1, 1935	1,000.00
" " "	" December 1, 1936	1,000.00
Interest on Principal to	December 1, 1936	5,059.68
Taxes 1936		83.33
Total		\$12,643.01

The Koskelas have promised to make cash payments of \$50.00 per month to apply on this account and will begin to make these without fail early in 1937, and in addition thereto, will also sell to the Company surplus crops. They are keeping up the property in good shape and it is hoped eventually they will be able to pay up.

BEACH INN

This place enjoyed good patronage during the year and Mr. Carr, the purchaser, is up-to-date on the payments under his contract with the exception of \$250.00 of the \$500.00 payment which became due December 29th; he has promised to catch up on this early in 1937.

The total payments to date on the contract are as follows:

Principal	\$4,810.93
Interest	1,726.62
Insurance	798.00
	<u>\$7,335.55</u>

In addition to this amount, he has also paid the taxes direct to the City Treasurer.

Mr. Carr is keeping up the place in good shape, having made a number of purchases of new equipment, and also having done some interior decorating and some outside painting. He has promised to paint the exterior of the Hotel in 1937.

MANUFACTURERS HOTEL

This property was rented during the year to A. J. Belfry for \$85.00 per month. His patronage during the summer months was fair but it has been difficult for him to break even during the winter, due to the heavy fuel cost and the limited business at that time of the year. At the end of 1936 he was in arrears on the rental to the extent of \$209.18 but we expect to get this cleared up in 1937.

\$178.79 was expended during the year for necessary repairs.

BELLEVUE AND CLIFFS FARMS

The Bellevue Farm was leased to the same party as for several years past at an annual rental of \$300.00. A double house on the farm was also occupied the entire year.

The Cliffs Farm was idle and no revenues were received.

LOCATION IMPROVEMENTS

No expense of this kind incurred during the year.

ROSENWALD TITLE

There is nothing new to report on this matter and we presume it will have to await the disposition of the Weber Mortgage.

MISCELLANEOUS

WOOD PERMITS

No permits were granted on Company lands during the year.

LAC LA BELLE LANDS

There is no change in the status of this matter but we expect to be able to take this up in 1937 and make some disposition of it.

LUNDIN & BJORK GOLD MINING LEASE

The option granted by Lundin and Bjork to the Calumet and Hecla Consolidated Copper Company, involving the transfer of a half interest in this lease, was exercised by the C. and H. people during the year.

Attached hereto are copies of the two semi-annual reports received from the Calumet and Hecla Consolidated Copper Company and E. L. Derby, Jr., covering the operations under this lease for the year.

SECOND GROWTH CHEMICAL WOOD

Twelve new contracts were issued during the year and we also granted two additions on previous contracts for delivery of wood of this type to the Cliffs Dow Chemical Company. Due, however, to the improved employment conditions prevailing in this district, the producers claim it is impossible to secure men to cut this wood for prices which will enable them to deliver it to the plant for \$4.25 per cord, the price called for by their contracts.

A total of 3,574.25 cords was delivered during the year, which brought the total deliveries up to 17,429.25 since we began purchasing this type of wood.

BUNKER HILL MINING COMPANY

LEASE RENTALS

These earnings amounted to \$707.00, the same as the previous year, and in addition thereto, \$12.00 was received from the Cleveland-Cliffs for rental of the so-called Company barn.

RENTED BUILDINGS

The earnings for the year were \$550.80, or \$104.00 more than the previous year, due to the return of the rates of rental to a full-time basis. The total maintenance expense for the year was \$48.69, representing principally material furnished for interior decorating and a few small plumbing items.

In addition to this amount, \$21.60 was paid by the Company for water rates which are included in the rental charged.

COLLECTIONS

The following is a comparative statement of the Receivable Accounts as of December 31st, 1936, and 1935:

	1936	1935
House Rents Receivable	\$295.80	\$316.70
Land Rents Receivable	665.58	364.99

The principal accounts outstanding are those due from the Consolidated Fuel and Lumber Company on its leases.

UNSETTLED MATTERS

This refers to the right-of-way of the Chicago and North Western Railway Company across the property of this Company, and portions of it leased by the Railroad Company to the Negaunee Oil Company. Complete information on this matter has been reported in previous years and is awaiting decision of the Cleveland Office as to the course to be taken.

LAND AND TIMBER NEGOTIATIONS

Nothing new has developed with reference to the negotiations with employees of the Cherry Burrell Corporation with reference to lands bordering on Beaufort Lake and due to the fact that the Company charter has expired and the affairs of the Company being wound up, no particular effort is being made to interest parties in the purchase of this property as we are not in a position to make contracts.

TIMBER PERMITS

Some pulpwood was cut by William Warjonen under his permit but delivery was not completed in 1936.

OTHER EARNINGS

\$11.22 interest was collected on land contract accounts.

ACCOUNTS RECEIVABLE

The accompanying statement shows the condition of the various outstanding accounts.

THE CLIFFS POWER AND LIGHT COMPANY

REAL ESTATE AND TIMBER SALES

The only sale made during the year was the timber on the SW $\frac{1}{2}$ of SW $\frac{1}{2}$, Section 12, 45-26, to Joel Anderson for \$500.00 cash.

LAND RENTALS

The earnings from this source amounted to \$246.81, and are slightly less than the previous year due to some leases being cancelled.

OTHER EARNINGS

\$2.84 was received for interest on taxes past due on land leases.

NEW LEASES

New leases were issued during the year to Rolland J. Devine covering Lots 19 and 20, Deer Lake Location, for dwelling purposes for an annual rental of \$12.00, and new camping leases to George Uitto and Albert Johnson at a rental of \$6.00 per year each.

COLLECTIONS

The uncollected rental at the end of the year amounted to \$348.62, which is a substantial reduction from the previous year, and we expect further progress in 1937 now that better employment conditions prevail.

SUPERIOR REALTY COMPANY

REAL ESTATE AND TIMBER SALES

The total sales of real estate and timber for the year amounted to \$9,160.00, and the accompanying statement shows these in detail.

Two parcels involving 80 acres were sold for camp purposes for \$300.00; four right-of-way parcels for highway purposes, involving 45.86 acres, for \$63.00; three parcels for agricultural purposes covering 117.52 acres for \$440.00; eleven parcels involving 1,751.39 acres for \$6,550.00 for timber purposes; and one parcel, 80 acres, was donated to the Burt Township High School for forestry purposes for a nominal consideration of \$1.00,

in addition to which the School paid the delinquent taxes amounting to \$30.91; and 280.00 acres in the Seney Water Fowl Refuge were deeded to the Federal Government for \$840.00; one Waiver of all of our transmission line reservations to Charles O. Mattson for \$1.00; and there were three sales of the timber only on 561.11 acres for \$965.00.

All of these sales, with two exceptions, involved lands that were tax delinquent and on these the Company paid the delinquent taxes amounting to \$1,715.02. Two sales were made which involved the payment of the delinquent taxes by the purchaser and these taxes amounted to \$61.01.

OTHER EARNINGS:

These included the following:

Miscellaneous Earnings	\$36.55
Timber Trespass	52.92
Miscellaneous Stumpage Sales	408.33
Land Rentals	22.33
Tax Title Redemptions	12.11
Interest	147.87
	<u>\$880.11</u>

COLLECTIONS

The following shows the uncollected balances of the sales and rental accounts as of December 31st, 1936:

Real Estate Sales	\$50,867.78
Timber Sales	23.26
Land Rentals	37.73

The accompanying statement comments on the individual accounts.

QUOTATIONS

Quite a number of inquiries were received during the year involving lands of this Company. Most of these, however, are for the timber they contain and in some cases cover parcels suitable for hunting camps.

NEW LEASES

Only one new lease was issued and that was to Bryan J. Smith covering the NW $\frac{1}{4}$ of SW $\frac{1}{4}$, Section 3-47-12 for camp purposes at a rental of \$25.00 per year, in addition to which he is also required to pay the taxes which, in 1935, amounted to \$4.10. This lease contains an option giving him a right to purchase this parcel during the term of the lease for a consideration of \$250.00 and provides further that the rental paid under this lease is to be applied on such purchase price (this, however, does not include any taxes he may

pay during the term of the lease). The taxes were delinquent on this parcel for several years and amounted to \$69.81 which were paid by the Company.

Calumet, Michigan
June 30, 1936

Mr. James MacNaughton, President
Calumet & Hecla Cons. Copper Co.
Calumet, Michigan

Dear Sir:

Herewith is report of work done during the period from January 1, 1936 to July 1, 1936 by Calumet and Hecla on Cleveland Cliffs lands in Secs. 29 and 30, T.48 N. R. 27 W., under option to Lundin and Bjork and Calumet and Hecla.

Our purpose of exploring these lands for the continuation of the shear zone in which the Ropes mineralization occurs, was announced in our report of December 27, 1935. In accordance with this policy, three diamond drill holes, totaling 1,415 feet, have been completed to date during the past six months. Two of these, Nos. 6 and 7, were drilled just to the east of the Ishpeming Gold Mining property. The location and section of these, together with assays are shown on Plates 1 to 3. Little of encouragement is indicated.

The progress of drilling to the westward has been complicated by the fact that there is one forty-acre block lying between the Ishpeming Gold property and that under lease from Cleveland Cliffs. This tract was leased from the State of Michigan and drilling was started upon it last winter. Just as the first hole was about to reach ledge, however, we were informed that there was some question concerning the validity of the state's title to the mineral rights. Accordingly, the drilling was suspended pending a court decision.

This situation affects the efficiency with which the exploration of the Ropes structure on Cleveland Cliffs lands can be carried out. One hole, C. C. 8, was drilled to the west of the State forty, on Cleveland Cliffs land. This is shown on the maps and section, Plate 1 and 4. No well defined shear zone was encountered, although a few minor ones, and some narrow quartz veins were found, assays of which are shown on Plate 4. It is hoped that the court decision affecting the intervening forty will be rendered soon, enabling the exploration of this property to continue more satisfactorily.

Yours very truly

BJORK & LUNDIN GOLD LEASE

July 23rd, 1936

Mr. S. R. Elliott, Manager
Building,

Dear Sir:-

I have read over a copy of the report dated June 30, 1936 by Mr. T. M. Broderick to James MacNaughton, President of the Calumet & Hecla Consolidated Copper Company, covering the activities of the Calumet & Hecla Company on the property leased by Bjork & Lundin from the Company.

Yesterday morning I met Dr. Broderick at the Ropes Mine office and discussed with him the exploring covered by his report. I also examined much of the core recovered from the three drill holes Nos. 6 to 8 inclusive, which have been drilled by the Calumet & Hecla and covered in Dr. Broderick's report. The core is all properly labeled and filed in good order and the work evidently has been carefully done and the results properly correlated.

No actual exploring is being conducted on the Company's lands at the present time. This is explained in Dr. Broderick's report. In order to conduct an intelligent exploration of the Company's property in an orderly and economic manner, it is necessary to work outward from the Ropes Mine itself, which is the all-important focus of known concentration of gold and silver in this district. In attempting to follow the ore zone westerly from the Ropes, the Calumet & Hecla Company supposedly leased from the State the minerals in the SE $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 30, 48-27, which lies between the Ropes on the east and the Company's property on the west. As explained in Dr. Broderick's report, drilling had been started on this description when they were informed there was some question of the validity of the State's title to the Mineral right. Drilling was suspended pending court decision.

Of course it would be possible for the Calumet & Hecla to drill on the Company's property to the west but they would be working blindly. I therefore think it entirely reasonable we accept the situation as outlined and be content with a moderate delay in order that when exploring is resumed on Company lands it may be done in the most efficient manner.

7-23-36

Gold and a relatively small amount of silver occurs on the Ropes property in a shear zone extending generally east and west through the old Ropes shaft. This zone varies in width from a few feet to as much as five hundred feet north and south. It is marked by a talc schist occurring in a peridotite intrusive. In this shear zone is a so-called mineral dike which is thought to be an old Kewatin schist that has been included by the intrusive peridotite at the time of intrusion. It is in this mineral schist that the richer ore shoots containing gold and silver are found. The mineral dike itself is nearly vertical.

In the Ropes Mine drifting has been done along this mineral dike easterly and westerly for a distance of about three-quarters of the way easterly across the east forty and three-quarters of the way westerly across the west forty of the Ropes property on the 15th or bottom level. This level is something over 800' in vertical depth from the surface. In going east the mineral dike thinned until it practically disappeared near the east line of the Ropes property. This is further confirmed by drill holes 6 and 7 on the Company's property immediately east on the SW $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 29. Both drill holes cut the talc schist shear zone. Hole #7 did cut a narrow width of mineral dike but gold and silver values were negligible. Hole #6, however a little farther east, found no mineral dike. In drifting west from the shaft, however, toward the State lease, the mineral dike increases in width and carried good values. It is confidently expected that title difficulties will be cleared up soon and exploring will be resumed on the State lease. This will be followed by resumption of exploring for this westerly continuation on the Company's property, as mentioned above.

Mr. Braderick told me confidentially that something like 1,000,000 tons of \$4.50 to \$5.00 ore had been pretty well indicated in the Ropes property above the 15th or bottom level. Also, a drill hole had indicated the downward extension of the ore bearing shear zone and mineral dike for a distance of at least 700' at one point. The ore values are predicated on \$35.00 per oz. gold and 70¢ silver. An ore of this value leaves a very small margin of profit unless worked on the basis of from 500 to 1,000 tons per day that will require a capital expenditure for a new shaft, mill, etc. of something like \$750,000. To date, therefore, the best that can be said of the Ropes Mine and its vicinity is that it offers possibility of a low grade mine, which if sufficient tonnage can be developed, may make a small profit. I am returning to you herewith for your files Dr. Broderick's report.

Yours very truly,

E. L. Derby Jr.

CALUMET AND HECLA CONSOLIDATED COPPER COMPANY

CALUMET, MICHIGAN

December 30, 1936.

Mr. James MacNaughton, President
Calumet & Hecla Cons. Copper Co.,
Calumet, Michigan

Dear Sir:

Herewith is report of work done during the period from July 1, 1936 to January 1, 1937 by Calumet and Hecla on Cleveland-Cliffs lands in Sections 29 and 30, T. 48 N. R. 27 W., Marquette County, Michigan, under lease to Lundin and Bjork and Calumet and Hecla.

In order to further carry out our purpose in exploring the continuation onto these lands of the Ropes shear zone, a drill hole, Cleveland-Cliffs No. 9, was drilled in the SW $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 29, just to the east of the Ishpeming Gold Mining property line. It was pointed south and at an angle of 30° below the horizontal, and lies in the same north south cross section as hole No. 7, pointed to the north. It encountered a shear zone consisting of talcose and serpentinized peridotite, but with no mineralization. It was stopped at a depth of 526 feet.

As explained in the previous quarterly report, the exploration of the Cleveland-Cliffs lands to the west of the Ropes Gold Mining lands has been handicapped by the fact that we were advised to suspend exploration of an intervening forty acres, which we have under lease from the state, pending a court decision. That restriction having been removed, diamond drilling is being continued westward across the state forty toward Cleveland-Cliffs lands, and we should very soon be in a position to make definite recommendations regarding further drilling of those lands to the west.

In the meantime, a sampling of the old Ropes tailings lying on the Cleveland-Cliffs lands to the east of the Ropes Mine, has been carried out. There is a small tonnage of material which will assay about \$2.25 in gold and 40 cents in silver. To date, 168 samples have been taken and 110 assays have been returned. This work is being done systematically and when it is further along an assay plan will be prepared and submitted.

Yours truly,

R

T. M. Broderick

BJORK AND LUNDIN--CALUMET & HECLA
GOLD MINING LEASE.

Mr. S. R. Elliott, Manager
Building.

Dear Sir:

A letter from Mr. Bush to you dated January 6th, 1937 encloses copy of a report by Mr. T. M. Broderick, Geologist for the Calumet and Hecla Consolidated Copper Company to its President, Mr. James MacNaughton dated December 30th, 1936. This report covers the work done during the six months period from July 1, 1936 to January 1st, 1937 on the Cleveland-Cliffs Iron Company lands in Sections 29 and 30, 48-27. Accompanying this report is a blue print map and a blue print cross-section showing the results of the diamond drilling done during this period.

I visited the Calumet & Hecla office at the Ropes Gold Mine this afternoon and went over in detail the work mentioned in Mr. Broderick's report with Mr. H. N. Eidemiller, Geologist, who is locally in charge of this work. I also examined the diamond drill core which was recovered from drill hole No. 9 mentioned in Mr. Broderick's report. The classification of this drilling as it appears on the blue print cross-section in this report apparently is correct. This one hole was the only drilling done during the six months period.

The principal activity on Company lands carried on by the Calumet & Hecla Company during the last six months period is the complete sampling of the old Ropes Mine stamp mill tailings which were deposited on the SW $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 29, 48-27. The sampling is done by putting down 2" auger holes through the material and spaced 10' apart on the North-South cross-sections across the area of tailings. These sections commence with 0 on the North-South center line of Section 29 which is the West boundary of this forty and are spaced 100' apart going East. Nine cross-sections have been completed and the 10th nearly so. Section 11 has been staked out. The sections from Section 7 East are in the swampy area at the West end of the storage basin and at the present time it is not known how far East these tailings extend under the ice.

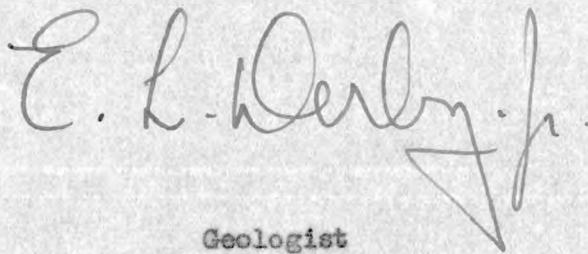

The area covered by these tailings, although somewhat irregular, will average about 300' in width. The sample holes will probably average close to 3' in depth of tailings. A few of them in

an area which is underlaid by an old stream bed will be somewhat deeper than the deepest holes sunk to date which have been 5'. This sampling is continuing at the present time.

Referring to the second paragraph of Mr. Bush's letter of January 6th, he calls attention to the terms of the lease directing the lessee to pay the Company its proportion of the returns from the gold and precious metals recovered from all assays of samples. To date there have been about 400 samples taken. Each sample weighs 4 lbs. making the total weight of samples taken 1,600 lbs. On the basis of the average assay of \$2.65 per ton in gold and silver, the total amount of precious metal recovered would amount to slightly over \$2.00. You can readily see why there has been no accounting to date of any precious metals recovered in the assays of the samples.

The Calumet & Hecla Company is operating one drill under contract on the Goodney forty just West of the old Ropes property, the SE $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 30. Mr. Bidemiller told me that as soon as the cross-section on which they are now drilling is completed, they expect to move the drill West on to this Company's property. The first drilling will be near the East line of the NW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 30. I understand that no real encouragement has been experienced in the diamond drilling on the Goodney forty.

Respectfully submitted,

Geologist

"A" - Lands where entire fee is owned.
 "B" - Lands where surface only is owned.
 "C" - Lands where minerals only are owned in known mineral district.
 "D" - Lands where our interest is confined to a mining lease.
 "E" - Lands where timber only is owned.
 "G" - Lands where we own the entire fee, surface only, or minerals only in lands which are a part of recorded plats of towns or villages.

"H" - Lands which have been examined and which reports show do not contain sufficient timber to be classed as timber land.
 "I" - All lands not included in "H". This includes both lands that have been examined and other lands which have not but which were purchased for timber purposes and are classed as timber lands until such time as reports will show that they are barren either through fire or through operations of the Lumbering Department.
 "J" - Approximate acreage of lands inside the mineral formation as indicated by maps furnished to the Land Department by the Mining Department, April, 1914.
 "K" - Acres of minerals reserved in Land Sales, outside of mineral formation.
