LAND DEPARTMENT REPORT FOR THE YEAR ENDING

DECEMBER 31, 1937.

GENERAL:

The activities of the Land Department have been continued during the current year along practically the same lines of those of last year and consist, in a general way, of the following units, to-wit:

1. Supervising and looking after the large land holdings of The Cleveland-Cliffs Iron Company, Arctic Iron Company, American Iron Mining Company, Michigamme property, Bunker Hill Mining Company, and Superior Realty Company.
2. Management of the lands of the Michigan Mineral Land Company.
3. Operating the Lumbering Department.
4. Operating the Retail Yard at Munising, Michigan.
5. Operating Grand Island, Game Preserve, and Hotel Williams.
6. Operating railroad tie mill at Dixon, Michigan.
7. Looking after lots and rented buildings under charge of the Land Department.
8. Looking after the lands of The Cliffs Power and Light Company.
9. Looking after the lot leases in the different cities and towns which are under the jurisdiction of the Mining Department.
10. Careful supervision of company lands, looking for and prevention of trespasses of every kind, protecting timber lands and forest products from fire, sale and lease of lots in the various cities and villages, sale of timber land and stumpage, collection of rents and moneys from such sales and leases, and the study of conditions surrounding the communities in which the Company is engaged in business, with a view of encouraging proper improvements, etc.
It is also the duty of the Land Department to look after land titles and, in particular, are charged with the difficult proposition of assessments made upon Company lands and the taxes levied thereon together with the proper paying of taxes when due.
11. The Piqua Munising Wood Products Company
The Munising Woodenware Company and The Piqua Handle & Manufacturing Company were consolidated as of November 1st, 1934, and your Land Agent, in the capacity of Vice President of the consolidated company, gives considerable time to the factories located at Munising and Marquette, Michigan.

MINERAL LANDS:

The Land Department continues to carry a large acreage of mineral lands for the benefit of the Mining Department, paying the taxes thereon and otherwise looking after them.

WOOD SUPPLY FOR CHEMICAL PLANT:

The Land Department continues to carry a large acreage of timber lands which insures a supply of wood for the Chemical Plant and, in doing this, we continue to pay a large amount of taxes and also other expenses in caring for these lands.

THE PIQUA MUNISING WOOD PRODUCTS COMPANY:

Your Land Agent, as Vice President of this Company, continues to give considerable time to the plants located at Munising and Marquette. The detailed operations of this Company will be covered by their own report.

This Company has a contract with the Ford Motor Company to clean up title on some 400 acres of land, which we are finding it difficult to do. The Ford Company retained \$1,000.00 of the purchase price of the land sold them last year until these titles have been perfected. We, however, are discussing with the Ford Motor Company officials the advisability of them accepting such title as we are able to give.

LAND AND TIMBER SALES AND LEASES:

There were quite a number of small sales during the year but no large sales of outstanding character. We received the payment of \$198,349.61 for the sale of lands to the Federal Government included in the so-called Tahquamenon Falls deal, and title has now passed from the Federal Government to the State of Michigan through an exchange of lands.

Mr. Erickson's report attached shows the detail as to sales and leases.

TIMBER AND FOREST PRODUCTS SALES:

The attached statement shows the sales and shipments of forest products during the year.

RAILROAD TIES:

We sold a few more ties during the current year than in 1936 but at advanced prices.

We shipped the Chicago & North Western Railway Company 227,815 ties, Minneapolis & St. Louis Railroad Company 9,226 ties, and miscellaneous parties 115, making a total of 237,156 merchantable ties. We also shipped the Chicago Great Western 17,135 cull ties, making a total of 254,291 ties during the current year compared with 250,151 during 1936.

| Total | 79,135 | 66.93 | \$ 5,296.63 |

LOBDELL-EMERY MANUFACTURING COMPANY:

This concern has a factory located at Alma, Michigan, where they manufacture bicycle rims and other items from wood and we have been shipping them slabs from our Dixon Tie Mill. During the year we shipped them 674.25 cords averaging \$7.83 per cord, f.o.b. cars Lake Superior & Ishpeming Railroad. This compares with 492.00 cords shipped them in 1936 at an average cost of \$6.00 per cord.

MUNISING RETAIL YARD:

During the year we shipped some Hemlock, Pine, and Spruce logs to Munising and had them sawed by a portable mill owned by Mr. C. H. Hancock for our Retail Yard.

We shipped a total of 338,887 feet for this purpose as per the following statement:

| | | | |

The profit for the year is \$5,645.18 compared with a profit of \$6,323.68 for 1936.

COMPENSATION CASES:

As of December 31st, 1937, there were fourteen cases upon which the Company pays compensation and two other cases on which the Insurance Company pays compensation. Of the sixteen cases open, nine of them are 1937 cases and all of them will be closed during January and February 1938.

A detailed statement is made a part of this report, showing the total expense for hospital and medical care and compensation payments. It also shows the compensation paid by the Insurance Company. The number of accidents per man employed was .33 for 1937 as compared with .34 for 1936. The actual expense during 1937 was \$11,896.98 as compared with \$15,120.90 in 1936. At the end of 1937, the reserve account, to take care of long time cases, shows \$13,715.51 as compared with \$5,989.73 at the end of 1936.

The principal reason for reduction in the cost in 1937 as compared with 1936 is due to installing a Hospital Car on March 6th, 1937, at our operation, now stationed at Camp 10, where most of the lost time injured are placed, unless daily care by the doctor is required. The injured taken care of in this car during period of March 6th, 1937, to December 31st, 1937, amounted to 812 man days representing 30 different cases. This reduced the cost of board and lodging of injured not hospitalized from \$1,226.02 in 1936 to \$687.69 in 1937, and also reduced the doctors' fees at Munising from \$2,391.50 in 1936 to \$1,641.80 in 1937. It has also had effect on the compensation payments, by having them in the Hospital Car at Camp, where we can keep close contact with the injured and get them back to work sooner. The compensation payments were reduced from \$8,914.40 in 1936 to \$6,624.49 in 1937. The 1936 figure, however, included \$1,200.00 for lump sum settlement.

COST OF PRODUCTION:

Our logging operations have been conducted during the year on a six 8-hour day basis, the men working 48 hours per week, which we find to be the most efficient manner in which to conduct our woods work. Under NRA we worked only 40 hours.

Wages were increased on March 16th, 1937, approximately 8%, and on June 7th, 1937, approximately 10%.

We include further along in this report graphs showing the monthly and yearly logging costs.

FORESTRY AND CONSERVATION:

We continue to keep in close touch with both Federal and State authorities in this matter of forestry and conservation and during the year, we attended a number of conferences. Your Land Agent is Chairman of the Conservation Committee of the Northern Hemlock and Hardwood Manufacturers Association and is also on the Executive Committee of the so-called National Forestry Conference.

The Federal Forestry Department at Washington are endeavoring to secure legislation that will permit them to dictate just how the remaining forests of the country shall be harvested and while their activities are directed particularly towards the West and South, any legislation enacted will no doubt affect the forests of the Great Lake States.

UPPER PENINSULA DEVELOPMENT BUREAU:

This Association continues its activities on an even larger scale than during past years due to the fact that it has been able to finance its activities to better advantage. The State of Michigan now enters actively into the work of these bureaus and it has appropriated certain funds for their assistance to be used for advertising the State.

Your Land Agent is on the Board of Directors of the Bureau and keeps in close touch with its activities and expenditures.

During the year the Bureau again published a very remarkable booklet covering the Upper Peninsula which has had wide distribution.

NORTHERN HEMLOCK AND HARDWOOD MANUFACTURERS ASSOCIATION and
NATIONAL LUMBER MANUFACTURERS ASSOCIATION:

We continue our membership in these organizations in order to keep in touch with lumber manufacturers and other timber owners. Your Land Agent is a member of the Board of Directors and a member of the Executive Committee of the Northern Hemlock and Hardwood Manufacturers Association and we are in close touch with all activities.

NATIONAL FORESTS:

The Federal Government has not been active during the past year in purchasing additional lands for the national forests due to inadequate appropriations for this work. We have additional cutover lands which we are prepared to offer at such time as it is again purchasing.

FOREST FIRES:

We are very glad to be able to report that we had no forest fires of any consequence during the year and no loss of timber was experienced.

TAXES:

The matter of taxes is always of much concern in this Department and inasmuch as our holdings are scattered over a large area it requires very close attention on the part of our staff to keep in touch with the assessing and the spending officers of the different political divisions.

As reported heretofore, the Fifteen Mill Law has been of great assistance in keeping down some of these taxes.

ALGER COUNTY TAXPAYERS' ASSOCIATION:

We continue this Association which operates in Alger County with the same Manager in charge and his report for the year 1937 is attached.

The Association is doing excellent work in watching the local Township and City taxpaying bodies in order to endeavor to keep down expenditures.

CRUISERS:

During the past year we kept as many men as were necessary at work cruising and otherwise looking after the lands of the Company.

HOTEL WILLIAMS AND COTTAGES:

This resort was leased to Mr. H. G. Phillips of Chicago, Illinois, and he operated the Hotel and cottages from June 1st to September 15th, 1937, at which time we again took control of the property. Mr. Phillips worked out in a very unsatisfactory manner and the lease to him will not be renewed.

The following statements show receipts and expenditures as far as our Company is concerned for the current year and for the year 1936:

ALGER COUNTY TAXPAYERS' ASSOCIATION

TENTH ANNUAL REPORT

The Association submits the tenth annual report covering the political units of Alger County. Our fiscal year ends September 30.

The Association budget amounted to \$3,900.00, an increase of \$200.00 over the previous year. Expenditures for the year were \$3,899.87, or just \$.13 under the budget. Balance on hand on September 30, 1937, amounted to \$355.62. Detail of receipts and classification of expenditures are shown on page 4 of this report.

The assessed valuation of Association members, which is taken from 1936, totals \$4,209,148, a decrease of \$88,431.50 as compared with the previous year. The valuation is 59.56% of all property in the county.

The 1937 tax levy, covering all units of Alger County, amounted to a total of \$149,854.00, and the rate per thousand dollars of valuation was 21.43. This is a decrease of \$20,961.01 as compared with the previous year and is a new low point in both tax levies and valuations. We have prepared graphs, which are submitted with this report, showing valuations and tax levies from 1901 to date. The tax levy for 1937 is approximately the same as in 1909, but the valuation for 1909 was \$4,077,246, making the average rate for that year 36.5. The high point in taxes levied in this county was 1924, when the amount was \$678,308.19. In looking over the graphs, it is interesting to note that there was a decrease in state taxes every even numbered year, these being election years. The high point in valuations was 1918 after a review by the State Tax Commission.

Taxes returned delinquent have decreased since the high point of 1932, when over fifty per cent was returned delinquent. Total delinquency for 1936 taxes as per settlements with the county treasurer on March 1, 1937, amounted to \$50,784.70, and was 17.54% of the amounts spread on the tax rolls.

On a per capita basis, expenditures of all units figured \$63.85 as compared with \$53.31 for the previous year. Increases were shown in school, township and city, county poor fund, and county road fund. The largest increase was for school purposes, amounting to \$40,892.32. A large part of this is accounted for by the payment of defaulted bonds and interest of the Burt Township School District. This payment amounted to \$24,460.48.

2

The county financial condition was not improved during the period. Immediately following the organization of the new board in April, expense was considerably increased by allowing additional clerk hire for some of the county officers, the sheriff's board of prisoners was increased to 35¢ per meal or \$1.05 per day, and some small increases in salaries. Later, when the previous year's tax levy was depleted, considerable time and money was spent in trying to develop some plan to increase revenue. In distributing the fifteen mill tax, the county tax commission added one mill to the county's portion, making their levy 8.5 mills, which gives an additional revenue of approximately \$7,000.

Some board members proposed taking a vote of the people on increasing the tax levy beyond the fifteen mill amendment, but this was finally abandoned because the vote taken two years ago on the same proposal was so decisively negative. Later it was proposed to step up all county valuations by applying for a review by the State Tax Commission. When this proposal was made, the Taxpayers' Association suggested that they first endeavor to collect from people who had received treatment at county expense in the local hospital and state institutions and were able to reimburse the county for the expense. An investigation by the Finance Committee was made, and it was found that there is a considerable amount that they should be able to recover through this source, provided that proper steps are taken to enforce collection wherever necessary. This is still being considered. A statement compiled by this office shows state institutional expense from January 1, 1932, to June 30, 1937, of \$60,372.91. Of this amount, there is outstanding and unpaid \$25,615.76. Statements subsequent to June 30, 1937, have not been received from the auditor general's office. The charge for this six months' period will run to between \$5,000 and \$5,000.

Industrial conditions showed considerable improvement this year over last, but the relief problem was still acute. The statement on page 32 of this report shows a summary of relief through the Emergency Welfare Relief Commission and the County. The maximum case load shows a decrease of 99, and the average case load a decrease of 12, which does not reflect the improvement in general conditions throughout the county. Total expenditures run to \$81,743.94, a decrease of \$4,273.96 as compared with the previous year. Direct relief was supplemented by the W.P.A. projects, and while the total amount spent in the county through the W.P.A. is not available, the work done through the Road Commission was much the largest item, and these expenditures were as follows:

| | |
|------------------------|------------------|
| W.P.A. Contribution | 87,240.11 |
| County Road Commission | <u>57,190.88</u> |
| Total | 144,430.99 |

Comparative expenditures for the previous year amounted to \$155,051.03.

3

In the townships there is no financial distress. Some units, namely Rock River, Limestone, and Onota, have ample funds on hand to meet all ordinary requirements for two or more years. The other units have the working capital their requirements now warrant.

The City of Munising closed the year with a larger cash balance than for the previous year, but had outstanding a short term loan of \$10,000, while at the end of the previous year the short term loan outstanding was \$5,000. During the year street paving and construction cost amounted to \$15,526.80 as compared with \$9,718.36 for the previous year. Net expenditures for the year, which is the amount of the budget after deducting receipts, were ten per cent in excess of the budget.

The pumping plant was operated during the year at an increased cost of \$1,425.22 as compared with the previous year's operations. Total revenue decreased \$202.50, and the net earnings amounted to \$6,694.00, a decrease of \$1,625.72 as compared with the previous year.

About a year ago the Munising Coal Company started court action to enjoin the city from continuing in the retail coal business. The injunction was denied in Circuit Court. The Coal Company appealed, and the Michigan Supreme Court decreed that the City can not legally be in the retail coal business. The present stock on hand will be sold and the business then terminated. During the year ending December 31, 1937, the profits from operations amounted to only \$150.10.

All school units closed the year which ended June 30, 1937, with cash on hand. This is the first time in a number of years that the Onota Township School District has not shown a deficit.

Statistical and comparative statements covering all county units follow.

We wish to again thank the members and directors for their cooperation during the year.

Respectfully submitted,

J. I. Keeton, Manager
