Joseph Smith saw useful material in the weilinformed, ambitious and fluent attorney; for on followed, and he became at once an active and trusted member of the Mormon ministry. His special field of labor was Wisconsin, and he soon applied for authority to there "plant a stake of Zion." Before this request was acted upon, Joseph and Hyrum Smith surrendered themselves to the Governor of Illinois, and June stormed the Carthage jail. Strang was the most prompt and persistent claimant of the succession, notwithstanding that his age in the Mormon church was less than five months. He showed what purported to be a letter from Joseph Smith, dated June 18th, bearing the Nauvoo postmark of June 19th, and said by several 'witnesses" to have been received in the mail at Burlington, Wisconsin, on July 9th.

This epistle, dated nine days before the 'martyrdom of Joseph," and alleged to have reached Burlington a week in advance of the death of Smith, gave the details of a vision in which "the spirit of Elijah came upon" the Mormon prophet and "the voice of God" said:

"My servant Joseph, thou hast been faithful over many things, and thy reward is glorious. The crown and scepter are thine, and they await thee. But thou has sinned in some things, and thy punishment is bitter. The whiriwind goeth before, and its clouds are dark; but rest followeth, and to its days there shall be no end. Study the words of the vision, for it tarrieth not.

"And now benold my servant James J. Strang hath come to thee from far for truth when he knew it not, and hath not rejected it; but had faith in thee, the Shepherd and Stone of Israel: and to him shall the gathering of the people be; for he shall plant a stake of Zion in Wisconsin; and I will establish it; and there shall my peo-ple have peace and rest, and shall not be moved; for it shall be established on White Riv. in the lands of Raeine and Walworth.

Strang himself was found to be a man of vigorous frame, light complexion and high forehead-intellectual, fluent in speech, of suave manners, and very companionable. At times his authority was unsuccessfully resisted by some of the more turbulent or more capable of his followers; but the faith of the mass of his subjects in his supernatural powers was implicit, and over them his sway was absolute.

The ruler of the Beaver Island Kingdom never succeeded in establishing its foreign relations upon a peace footing.

For three years the Gentile islanders opposed the Mormon immigration by all lawful, and some lawless means. Then the new-comers found themselves strong enough to abandon their original policy of non-resistance, and they commenced to club the disturbers of their meetings, and to retaliate violence with harder blows. The result was a fierce and often bloody border feud, which continued with varying fortunes for six years. #### WEDNESDAY, MARCH 19, 1884

THE Chicago Board of Tradeare making vigorous warfare on the various bucket shops that infest that city.

TOWNSHIP Treasurers have finished their labors on the 1883 taxes and are now preparing for their annual settlement with the township boards in the different towns.

SCHOOCRAFT county is sadly in need of a building for a court house and jail Manistique furnishes the best sight for such buildings, and the sooner they are built the better it will be for both taxpavers and the people.

Some of the names in "that list "are not used to a political call for reform, but old acquaintances with the call to the bar to participate of the vile stuff which is the curse of the people; and the greatest hindrance to justice and reform to be found.

THE past winter has been remarkably successful for logging. With plenty of snow, steady weather and moderate wages, Lumber Companies have had advantage not always enjoyed. From reports all over the lumber districts, we learn that the weather has been unusually good.

TALK about economy in township We have too much respect for the voters matters! A little insight into the expenses and management of other townships hereabouts will show that Manisthree townships of this county 'this town spends the least in managing its public aff airs.

THE Supervisors' meeting which caused so much comment has passed into history. A few more such meetings would give our county fathers an unenviable reputation for inactivity and slothfuluess. We hope for better things at the next meeting, and trust that something more may be accomplished than that of auditing a few bills and drawing fees and mileage.

THE newspapers frequently mention the proposed Minneapolis, Sault Ste Marie and Atlantic Railroad which has now been surveyed within a few miles of town. It is said that this road will be the eastern outlet for the Northern Pacific, and that 100 miles will be built in Wisconsin this spring. Manistique may well hope for the completion of this line which would advance the interests hereabouts wonderfully.

THE village of Allegan was almost completely swept away by fire last Wednesday; every brick store building in the place, with two exceptions, was destroyed. The aggregate loss to Allegan business men is nearly a half GENERAL OUTLOOK.

While there is considerable political talk going on about the country, it is predicted by many that the excitement incidental to the presidential campaign will not materially affect the business interests of the country. There is a confidence manifested by the business enterprises all over in the early renewal of trade, and with an early spring, which is looked for, the present singuation in business will give way to a more healthy spirit. Last year was a bad one for the farmers, and the winter has felt the effects of it in all parts of the country. Economy has been practiced; enterprises and improvements planned have been postponed till the outlook presented more indications of permanent success. The Yankee is a careful speculator and looks far into the future when indulging his speculative tendencies. There is plenty of ready money in the land seeking good investments, and the capatalist will, we perdict, find the assurance for such investments in the coming summer abundant with good crops and a general awakening in business cireles. Strikes are bindering the growth of large companies in the east and this bad feature is driving capital to newer parts of the country. The south is improv-ing very rapidly, and reports indicate that that section is making rapid strides towards reconstruction and the reclaiming of its former glory. Then too, the north-west opening up so rapidly sents many opportunities for business and speculation. Such facts and indications taken together with many other similar moves should encourage a hope among all, that the interests of our country are in a most healthy condition and that the general business, though light at present, will soon re ceive the impetus necessary to place it in active operation. Laborers' wages will be low during the opening of the season, but the chances are greatly in favor of an improvement before another

#### THE REAL ISSUE.

winter sets in

The issues of our next Township meetng are becoming more and more defined every day and let the parties claim any name they choose the real question to be answered is, shall we have licensed saloons or not? The past experience is all too plainly before us to need any review. of our township to think they will long hesitate on which side they will vote The feeling is every day growing more tique can compare with any of them in and more strongly on the side of good "economy." In the case of two or government and temperance principles. The various war cries of the whiskey side through their leaders are of such before a reasoning public. It is very hard to find a reasonable excuse to vote for free whiskey and high taxes, 'Experience teaches us all that the rum traftic is what costs and calls for higher taxes each year. We ask all voters to consider the question, and when complaints come to your ears go to the bottom and find the truth; see who are the men who endorse each side and know why they do. Some of the complaints made are of such a character that they need no examination, but the man who utters them and his past history will enlighten any voter who has the best interest of the township at heart.

#### DON'T BE DECEIVED.

There is a movement in progress imong a few voters of this township to band themselves together, in opposition to the present administration. They clamor for a change and are preaching ecomomy and reform, but we can assure all honest voters that their wailings will avail them nothing in the end. To all who will brush the sand from their eyes and see clearly, this movement presents no good indications. The leaders of this so-called reform will not fulfill the promises which they are holding out to the farmers to secure their votes. We admire the farmer who will stand by his good principles, and what he knows is right in the face of blackguardism and such taunts as "Company suckers." None but the low would utter such epithets. The township matters are at present in the hands of those best able to conduct them properly, and there they should remain.

WE are glad to have the Chicago Inter Ocean on our exchange table once again; its not being there for the past two months though was no fault of ours but the unexcusable carelessness of some employe of that excellent paper taking us off their exchange list We couldn't "keep house" without it.

News comes from Petersburg, Va. of horible explosion of gas in the coal mines there. The lives of over one hundred men, mostly Hungarians and negroes, were destroyed. The cause of the disaster is a mystery.

As was expected the Fitz John Porter bill passed the Senate, and now only awaits the Presidential signature to completely whitewash that demagogue. Senator John Logan nobly opposed the bill to the last.

An impudent negro got "too familiar" with Dr. Mary Walker in Washington the other day, and the spunky female promptly knocked him down.

I would say thin material that they do not stand that I have interests that are sacred to me,-my family, my property, and the good order of the community in which live. These should be sacred to every American citizen, "the greatest good to the greatest number;" and how to obtain this inestimable blessing should actuate every lover of his country when he looks on the face of his ballot. Now, we have men in our midst; men who have lived here for years; whose daily acts and conversation have proved them capable of being entrusted with office. If they are elected, every person (even their opponents) feels that "the greatest good to the greatest number" will result. True, we have a few, (would they were less) who endeavor to mislead their neighbors; who engender discord and hatred between man and man; who persuade the laborers and farmers to do that which the most blind can plainly see is injurious to them, and yet those A stop must come to this, and soon too, persons still claim that they have the in-It is some one's duty to see that the law terest of this people at heart. A "Moderate Drinker" Talks. To the Editor of The Pioneer:

Sin: It would be well if the saloon keepers of Schoolcraft County would heed the growing feeling that the laws must be enforced fairly and honestly if possible. That there are saloon keepers that are straight honorable men, there cannot be a shadow of doubt; and those who are differently constituted by nature and education would do well if, from no higher motive than self interst, they take heed what they do, in the present state of highly excited feeling, on the subject. It is true that men may make beasts of themselves by gluttony, and in a dozen other ways, and if they are simply beasts, society will take little notice of them. But if their acts, through their excesses, react upon and are detrimental to society, then society must pro tect itself by so regulating matters that the least possible damage shall be done. We append the following clipped from

We append the following clipped from the Chicago Journal;

"The Journal, a few days ago, in some editorial remarks warned the whiskey interest that it was "provoking the wrath to come" by defiantly flying in the face of a powerful and growing public sentiment, which demands the better regulation and restriction, if not the absolute prohibition, of the traffic in intoxicating liquors. As if seconding the Journal's motion, Mr. Adolph Mueller, a well-known German saloonist, addressed a meeting of the German Saloon-keepers' Association, on Friday, in sensible and pertinent language, as follows: 'I am satisfied that we have suifered enough in public opinion to go slow hereafter. If this movement [to fight the Harper License law] goes on, every saloon keeper will have to suffer. Now, I want to submit to the law, but I want the Mayor to do his duty also. I want thin to serutinize every bond offered by saloon keepers, and to accept only first-class security. If the Mayor will do that, no saloon-keeper will have reason to complain of the Harper law. My business is as respectable as that of any Chicago millionaire, but the fact that the authorities have granted saloon licenses to disreputable people has placed us all in a bad odor, and the best we can

any Chicago millionaire, but the fact that the authorities have granted saloon licenses to disreputable people has placed us all in a bad odor, and the best we can do now to ameliorate our condition is to demand that in issuing licenses under the Harper law the Mayor does his full duty. What decent man can be found to go on the bond of a saloon keeper who openly announces his intention to violate the conditions of the bond by selling drinks which his license does not permit him to sell? How can brothels, houses of assignation, and other sinks of iniquity carried on under the guise of saloons, to my and our detriment, obtain a saloon license if the Mayor obeys the law regarding the issuing of licenses? I tell you, gentlemen, we have suffered long enough for the dives, and it is about time that we go to work and purify our business. Instead of attempting to nullify the law, we should obey the law, but at the same time insist that the city authorities protect us also by refusing to license all and everybody who cannot comply with the law, who cannot prove their respectability and furnish a respectable bond. I want this practice stopped under which certain parties are in the habit of going on the bonds of hundreds of saloon keepers, who could not find a man among their parties are in the habit of going on the bonds of hundreds of saloon keepers, who could not find a man among their nearest neighbors to endorse their note for \$100, or youch for their respecta-bility. If we want to live at peace with the community, we should respect our-selves sufficiently to insist on the pro-tection the law guarantees us against those who prostitute our business."

Mr. Mueller evidently appreciates the situation thoroughly, and his bold, sensible words ought to have effect both among the saloon keepers and the May-

or's office, -MODERATE DRINKER. 3 188

BY SAMUEL HAYNES.

### THE KING OF THE BEAVER ISLANDS.

The following is written by request, and is largely copied from an article by C. B. Backus, in "Harper's Monthly," of several years since. It is the best information I have been able to obtain concerning the Beaver Island Mormons and their capable, if not always scrupulous,

Personally I remember the trial of Strang in Detroit, in 1851, and the verdict of acquittal which was received with indignation by almost every one who expressed themselves upon the subject. Strang was a member of the Michigan legislature for one or more terms. His office secured him immunity from arrest during the sessions, and he managed to elude the officers who tried to apprehend him on his way to his kingdom from the State capitel, by going through Canada as far as possible, and dodging from the Dominions of Her Majesty Queen Victoria, into the Kingdom of James I.

A small pamphlet, printed within forty years, on be found in some of the settlements along hores of Lakes Michigan and Huron, bearing ttle: "THE BOOK OF THE LAW OF THE consisting of an Inspired Translation of of the Most Important Parts of the Law en to Moses, and a Very Few Additional

ommandments, with Brief Notes and References; printed by command of the King, at the Royal Press, St. James, A. R. I."

"The Law of the Lord," thus at once claiming divine origin and kingly sanction, consists of a series of precepts relating to things spiritual and temporal, written in a verbose imitation of e style and imagery of the Bible. It was imcitly received by an entire community as a elation from Heaven, miraculously transmitthrough a divinely annointed monarch to favored subjects.

Beaver Island contains several thousand acres arable land, broken by small lakes and

consin, and in January, 1844, was persuaded to visit Nauvoo, and meet "the American Mohammed."

Joseph Smith saw useful material in the weilinformed, ambitious and fluent attorney; for on Feb. 25th the baptism of James J. Strang was recorded, on March 3d his ordination as an elder followed, and he became at once an active and trusted member of the Mormon ministry. His special field of labor was Wisconsin, and he soon applied for authority to there "plant a stake of Zion." Before this request was acted upon, Joseph and Hyrum Smith surrendered themselves to the Governor of Illinois, and June 27th, 1844, were murdered by the mob which stormed the Carthage jail. Strang was the most prompt and persistent claimant of the succession, notwithstanding that his age in the Mormon church was less than five months. He showed what purported to be a letter from Joseph Smith, dated June 18th, bearing the Nauvoo postmark of June 19th, and said by several 'witnesses" to have been received in the mail at Burlington, Wisconsin, on July 9th.

This epistle, dated nine days before the 'martyrdom of Joseph," and alleged to have reached Burlington a week in advance of the death of Smith, gave the details of a vision in which "the spirit of Elijah came upon" the Mormon prophet and "the voice of God" said:

et and "the voice of God" said:

"My servant Joseph, thou hast been faithful over many things, and thy reward is glorious. The crown and scepter are thine, and they await thee. But thou has sinned in some things, and thy punishment is bitter. The whirlwind goeth before, and its clouds are dark: but rest followeth, and to its days there shall be no end. Study the words of the vision, for it tarrieth not.

"And now benold my servant James J. Strang hath come to thee from far for truth when he knew it not, and hath not rejected it; but had faith in thee, the Shepherd and Stone of Israel: and to him shall the gathering of the people be; for he shall plant a stake of Zion in Wisconsin; and I will establish it; and there shall my people have peace and rest, and shill not renoved; for it shall be established on White Rive in the lands of Raeine and Walworth.

And I will have a house built unto me there of stone, and there will I show myself to my people by many mighty works; and the name of the city shall be called Vorce, which is being interpreted, garden of peace; for there shall my people have peace and rest, and wax fat and pleasant in the presence of their enemies."

The officers of the church quickly pronounced Strang an imposter and the letter a forgery. They excommuni ated him at once, and followed this step with the circulation of attacks upon his private character. Strang was speedily driven from the field at Nauvoo, but he continued to assert his title in pastoral letters and in sermons in and about Wisconsin, and soon obtained a small body of devoted followers. With them he founded the city of Vorce, at Spring Prairie in that state, organizing the colony on the basis of community in the ownership of all the property. The Vorce "Herald" was established as the organ of the primitive Mormons; and their prophet showed himself to be tireless in labor and skilled in duping the credulous.

As Joseph found in the Ontario hills a golden volume in which the chronicles of the Book of Mormon were preserved in cabalistic characters; so James discovered in the sloping banks of the White river, a long-buried record of the downfall of a great Israelitish tribe which inhabited this continent centuries ago, and whose patriarch foretold the coming in future ages, of a "mighty prophet who should bring forth the record." Four of Strang's congregation acting as "witnesses" declared that they were led by him on September 14th, 1845, to a hill near the White River Bridge, and on the east line of Walworth county, Wisconsin, where, after digging

daily at the last) "The Northern Islander," a paper whose appearance and literary merit surprised the occasional tourist in that remote region. The erection of a large tabernacle was commenced, and roads, docks and ohter improvements contributed to the comfort of the settlers. The prohibitory principle was rigidly applied to tea, tobacco and coffee, as well as to liquor; and the observance of Saturday as the Sabbath, and attendance at church upon that day, were made compulsory. Prostitution was threatened with rigorous penalties; but polygamywas sanctioned, although it was never practiced in more than twenty families. The king had five wives; but in no other case did the number exceed three, and in every instance it was required that abili ty to support a large family should be shown before plural marriage was allowed. All the women were compelled to wear the short skirts and ample trousers of the Bloomer costume.

The Mormon kingdom grew into a community of nearly two thousand souls, occupying homes which were at least comfortable, controlling a small commerce and slowly accumulating property; but never approaching the civilization of of Salt Lake City. Strangers who visited Beaver Island at this time described the men of its population as rough and generally illiterate; and its women as with but few exceptions, sensual and ignorant. Strang himself was found to be a man of vigorous frame, light complexion and high forehead-intellectual, fluent in speech, of suave manners, and very companionable. At times his authority was unsuccessfully resisted by some of the more turbulent or more capable of his followers; but the faith of the mass of his subjects in his supernatural powers was implicit, and over them his sway was absolute.

The ruler of the Beaver Island Kingdom never succeeded in establishing its foreign relations upon a peace footing.

For three years the Gentile islanders opposed the Mormon immigration by all lawful, and some lawless means. Then the new-comers found themselves strong enough to abandon their original policy of non-resistance, and they commenced to club the disturbers of their meetings, and to retaliate violence with harder blows. The result was a fierce and often bloody border feud, which continued with varying fortunes for six years. As the outcome of this chronic frontier warfare, the Mormons, who were constantly growing in numbers, and had the advantage of a definite organization, became in the end practically, sole possessors of the islands, and were heartly hated and feared along the entire coast.

In 1851 the United States authorities became convinced that the islanders were a band of land pirates, who had trespassed on the public domain, robbed the mails and harbored counterfeiters; and that the kingly pretensions of their lader constituted a veritable case of high treason. Suddenly the war steamer Michigan entered Beaver Harbor, bearing the officers of the national courts. Strang surrendered grace fully, and with several others was taken guard to Detroit. A lengthy trial followed, in a crowded court room; and amid much public interest-Strang aiding in conducting the defense, making a dramatic speech in which he postured before the judges "one persecuted for righteousness sake"-a verdict of acquittal was awarded.

The downfall of the Beaver Island Empire came not from foreign foe, but from domestic sedition and conspiracy. Its ruler's discipline was at times severe, and included the corporal punishment of adults in its list of penalties. His determination to compel obedience to the minutest regulations of church law also grew more resolute, and in the conference of 1855 he sternly denounced the tea-drinkers and tobaccousers of his flock, and said, with significant emphasis. "The law of God shall be kept in this land, or men shall walk over my dead body." To these sources of disaffection should be added his systematic efforts to make ne

their votes. We admire the farmer who will stand by his good principles, and what he knows is right in the face of blackguardism and such taunts as "Company suckers." None but the low would utter such epithets. The township matters are at present in the hands of those best able to conduct them prop erly, and there they should remain.

WE are glad to have the Chicago Inter Ocean on our exchange table once again; its not being there for the past two months though was no fault of ours but the unexcusable carelessness of some employe of that excellent paper in taking us off their exchange list We couldn't "keep house" without it.

NEWS comes from Petersburg, Va. of a horible explosion of gas in the coal mines there. The lives of over one hundred men, mostly Hungarians and negroes, were destroyed. The cause of the disaster is a mystery.

As was expected the Fitz John Porter bill passed the Senate, and now only awaits the Presidential signature to completely whitewash that demagogue. Senator John Logan nobly opposed the bill to the last.

An impudent negro got "too familiar" with Dr. Mary Walker in Washington the other day, and the spunky emale promptly knocked him down.

A "Laborer" Speaks for Himself. To the Editor of The Pioneer:

SIR:-Will you allow a laboring man, one who has lived in your community a few years, and for the past year keenly observed the current of events here, to express his opinion through your paper as to the coming election. I would say that I have interests that are sacred to verv me,-my family, my property, and the good order of the community in which I live. These should be sacred to every American citizen, "the greatest good to the greatest number;" and how to obtain this inestimable blessing should actuate every lover of his country when he looks on the face of his ballot. Now, we have men in our midst; men who have lived here for years; whose daily iints acts and conversation have proved them capable of being entrusted with office. If they are elected, every person (even en- their opponents) feels that "the greatest good to the greatest number" will result. True, we have a few, (would they were less) who endeavor to mislead their neighbors; who engender discord and

see is injurious to them, and yet those too. persons still claim that they have the interest of this people at heart. Follow hip their advice, and what will be the result? Wherein will one's prosperity or happiness be advanced? And the wonler is that the laboring classes and farmers (a few-they will be deceived who uty count upon many) will follow such advice. You can count on the end of your fingers men here, who, if this town is given over to the enemies of temperance and good order, will gather in the hard earnings of the
